NEW STUDENT ACTIVITIES DIRECTOR

Recently Jill Levey, secretary of the SGA, conducted an interview with Coach Sonny Hansley regarding his new position of Student Activities Director.

Jill: What do you think about your new position as the Student Activities Director for Nova College-Day Division?

Hansley: It's exciting. I've never done anything like this before. What I would like to do is determine what you as students want for activities. I'll really be needing feedback from the students.

Jill: What will the position entail?

Hansley: I'll be working with the Student Government. I will also serve as a liason between the Resident Student Association (RSA) and the Administration. I will continue to coach the basketball team and be responsible for scheduling as well. In addition I will be teaching one or two math classes for the Day Division.

Jill: What are some of the strengths and weaknesses that you presently see in Day Division Activities, and what are some of your goals?

Hansley: So far I think the activities offered have been good. The Holiday party, Homecoming and the cookouts were particularly successful. Right now I am looking at some of the stuff that has already been done this year. I would like to see some of them expanded but what we really need is more student involvement. Nova is a commuter school but there is a possibility that we will be able to tie in with BCC and use them as a resource to co-sponsor a few activities.

Jill: How do you view your role in regard to the students of Nova College?

Hansley: The students will play an active a role as they want. I'll need to know their likes and priorities. I'll have a few students working for me and helping out. There will probably be surveys to draw suggestions from the students.

Jill: What are some of your goals for sports programs?

Hansley: I would like to see Nova develop a strong athletic program. We have already gotten off to a good start with basketball and soccer. We are also looking forward to starting track, cross country, tennis, baseball, and swimming. We have the facilities for those activities. I'm a firm believer in athletics: that's an important function of every school.

Jill: Do you have any further thoughts you would like to share?

Hansley: Just that I am excited to be working on a college level. I will be Looking forward to alot of input from the students.
