PHARMACIST'S OATH

At this time,
I vow to devote my professional life
to the service of mankind
through the profession of pharmacy.

I will consider the welfare of humanity
and relief of human suffering
my primary concerns.

I will use my knowledge and skills
to the best of my ability
in serving the public
and other health professionals.

I will do my best
to keep abreast of developments
and maintain professional competency
in my profession of pharmacy.

I will maintain the highest standards
of moral and ethical conduct.

I take these vows voluntarily
with the full realization
of the confidence and responsibility
with which I am entrusted by the public.

OSTEOPATHIC OATH

I do hereby affirm my loyalty
to the profession I am about to enter.

I will be mindful of my responsibility
to preserve the health and life of my patient,
to perform faithfully my professional duties.

I will be vigilant in aiding
in the general welfare of the community.

I will endeavor to work in accord with my colleagues
in a spirit of progressive co-operation.

I will look with respect and esteem
upon all those who have taught me my art.

I will be loyal to my college
and strive always for its best interests
and for the interests of the students who will come after me.

I will be alert to further the application
of basic biological truths
and to develop the principles of Osteopathic Medicine.

In the presence of this gathering, I bind myself to my oath.

COMMENCEMENT SPEAKER

U.S. REPRESENTATIVE THOMAS F. LEWIS

United States Representative Thomas F. Lewis has been dedicated to public service since he was first elected in 1964 to the North Palm Beach Village Council. He served eight years in the Florida Legislature and two years in the Florida Senate before he was elected to the U.S. Congress in 1982.

As a member of the Select Committee on Narcotics Abuse and Control, he is active in helping local and state law enforcement, as well as treatment and rehabilitation support groups, get needed federal resources in the drug war. He is in the forefront in the development of national agricultural policy as the only member from Florida with seats on the House Committee on Agriculture and its subcommittees. He also leads in Congress in the development of aircraft safety and aviation and space technology through his ranking positions on the Committee on Science, Space and Technology and its subcommittees. He is a U.S. delegate to NATO's North Atlantic Assembly, which helps establish policy for the free world allies.

His legislative achievements include the National Aviation Safety Research Act of 1988 and the Aircraft Catastrophic Failure Prevention Research Act of 1990. His actions on behalf of Florida's veterans ensured the construction of the Department of Veterans Affairs Medical Center in Palm Beach County, as well as the commitment to fund a much-needed DVA nursing home adjacent to the hospital.

Among the numerous awards he has received are the Guardian of Peace Leadership Award from the National Security Council; the Legislative Award from the Florida Association of Community Colleges; the WXEL Samuel A. Marantz Award for Public Broadcasting; and the Legislative Achievement Award from the National Hurricane Conference.

ACADEMIC PROCESSION AND REGALIA

The Academic Processional is a long standing tradition which originated in medieval universities in the eleventh and twelfth centuries. Attired in cap, hood, and gown, the faculty would present itself and its students to the local community for inspection.

The gown was originally thought to be worn for warmth, and to denote authority and privilege. Today, black is the color of the gown for all degrees, although variations represent the difference in the level of the degree.

The medieval hood was worn as a protection from the elements, or used as a satchel to carry scrolls and books. The modern hood in use today is lined with satin in the colors of the institution conferring the degree (Southeastern University colors are blue and gray). In addition, the hood is trimmed with various colors of velvet facing, each color representing the academic discipline in which the degree has been granted. Green has been selected as the appropriate color for medicine, seafoam green for optometry and olive green for pharmacy – the colors of life and growth.

The academic cap, at one time worn by freed Roman slaves, signifies the wearer's right to academic freedom, attests to the dignity endowed upon the wearer, and the responsibility for maintaining the highest practical and ethical standards.
