NSU MISSION STATEMENT

Nova Southeastern University is a dynamic, not-for-profit independent institution dedicated to providing high-quality educational programs of distinction from preschool through the professional and doctoral levels, as well as service to the community. Nova Southeastern University prepares students for lifelong learning and leadership roles in business and the professions. It offers academic programs at times convenient to students, employing innovative delivery systems and rich learning resources on campus and at distant sites. The university fosters inquiry, research, and creative professional activity by uniting faculty and students in acquiring and applying knowledge in clinical, community, and professional settings.

Nova Southeastern University, synonymous with dynamic innovation and intellectual challenge, is the largest independent not-for-profit university in the Southeast, and with an enrollment of more than 26,000 students, is the **sixth largest** in the United States. Situated on a beautiful, 300-acre campus in Fort Lauderdale, Florida, the university is experiencing a sustained period of academic growth, fiscal strength, and commitment to the challenges of the 21st century.

In this environment of expansion and stability, the university is capitalizing on its strengths in such areas as academic innovation, comprehensive clinical training, and flexible educational delivery systems.

Founded in 1964 as Nova University, the institution merged with Southeastern University of the Health Sciences in 1994, creating Nova Southeastern University. To date, the institution has approximately **90,000 alumni**. Fully accredited by the Commission on Colleges of the Southern Association of Colleges and Schools, the university awards associate's, bachelor's, master's, educational specialist, and doctoral degrees in a wide range of fields including the health professions, law, business, marine sciences, psychology, social sciences, computer and information sciences, and education.

The university's programs are administered through **15 academic centers** that offer courses at the main campus and at field-based locations throughout Florida; across the nation; and at selected international sites in Europe, Canada, the Pacific Rim, Central and South America, and the Caribbean.

With a budget of more than \$220 million per year and an upward trend in enrollment, the university will continue to maintain a solid record of academic and fiscal strength and excellence in teaching and community service, while expanding its mission in research and scholarship.

health professions division

As a student in the Health Professions Division of Nova Southeastern University, you can anticipate a remarkable experience. You will train, study, interact, and share faculty and resources (either campus-based or online) with students from various backgrounds and disciplines. This interdisciplinary approach distinguishes the Health Professions Division as unique and will better prepare you to master your discipline with a sensitivity and understanding of the entire health care system.

The Health Professions Division, with a student body of more than 2,500, is home to six colleges. The College of Osteopathic Medicine, the first one in the southeastern United States, grants the doctor of osteopathic medicine (D.O.) degree. The College of Osteopathic Medicine also awards the master of public health (M.P.H.) and the master of science in biomedical informatics (M.S.BI) degrees. The College of Pharmacy offers the doctor of pharmacy (Pharm.D.) degree to entry-level, international, and postbaccalaureate students. The College of Optometry is the only institution in the state of Florida that awards the doctor of optometry (O.D.) degree as well as the master in clinical vision research (M.S.). The College of Allied Health and Nursing offers an entry-level bachelor of science degree in nursing (B.S.N.), as well as an R.N. to B.S.N. program, a master of science in nursing (M.S.N.) degree, a post-M.S.N. certificate, and a Ph.D. in nursing education. The college offers a physician assistant program that awards the master of medical science in physician assistant (M.M.S.) degree, and a master of occupational therapy (M.O.T.) degree, as well as the entry-level doctor of physical therapy (D.P.T.) degree. Doctoral programs are offered in occupational therapy (Ph.D./O.T., Dr.OT), physical therapy (Ph.D./P.T., D.P.T.), and audiology (Au.D.). In addition to these programs, the College of Allied Health and Nursing offers the bachelor of health science (B.H.Sc.), master of health science (M.H.Sc.), and doctor of health science (D.H.Sc.) degrees—open to midlevel clinicians and allied health professionals. There are also courses of study in bachelor of health science—vascular sonography and master of health science—anesthesiologist assistant. The College of Medical Sciences grants the master of biomedical sciences (M.B.S.) degree. In the fall of 1997, the College of Dental Medicine admitted its charter class into the doctor of dental medicine (D.M.D.) program. Now, the college also offers a master of science in dentistry (M.Sc.D.) degree, as well as postgraduate programs in endodontics, oral surgery, orthodontics, pediatric dentistry, periodontics, and prosthodontics.

The Health Professions Division occupies a \$70 million complex, covering 21 acres of the university campus. The division includes eight buildings totaling more than 900,000 square feet of space for classrooms, laboratories, offices, the Health Professions Division Library, an outpatient health center, and a pharmaceutical care center. The adjacent 1,500-vehicle parking garage overlooks the Miami Dolphins Training Camp.

letter from the chancellor

If you wish to be a leader in the health professions, Nova Southeastern University can help you reach your potential.

In less than two decades, NSU's Health Professions Division has developed into a multidisciplinary academic health center of international stature. Composed of the Colleges of Osteopathic Medicine, Pharmacy, Dental Medicine, Optometry, Allied Health and Nursing, and Medical Sciences, the Health Professions Division has redoubled its commitment to academic excellence, innovation, and community service, while expanding its mission in research and scholarship. Working together, our distinguished faculty members prepare students for an exciting career on tomorrow's dynamic health care team.

Fred Lippman, R.Ph., Ed.D.
Chancellor

audiology

PROGRAM OVERVIEW

The doctorate in audiology (Au.D.) establishes audiologists in a clearly defined and prominent role within the hearing health care delivery system and strengthens their position as autonomous practitioners. The degree provides the academic foundation and diverse clinical experiences necessary to enter professional practice today and in the future. Audiologists specialize in the evaluation, diagnosis, management, and treatment of people of all ages with auditory and vestibular disorders. At Nova Southeastern University, the audiology department benefits from the integrated multidisciplinary health care programs of the university's Health Professions Division. Doctor of audiology students will enroll in a clinically focused professional doctoral program where students complete a rigorous academic curriculum coupled with extensive and diverse clinical experiences.

COURSE OF STUDY

The doctor of audiology degree is awarded after successful completion of four years of professional study. Beginning in the first semester, students are given clinical assignments and experiences. There will be increased clinical involvement throughout the program as students prepare for direct patient care at our clinics and at locations throughout the community. The fourth year is designed to be a full-time externship work experience that prepares the graduate to enter the profession at graduation. Successful completion of the Doctor of Audiology Program, coupled with a passing score on the National Praxis Examination for audiology, will enable graduates to be licensed and eligible for professional certification.

NSU COLLEGE OF ALLIED HEALTH AND NURSING MISSION STATEMENT

In the spirit of improving and maintaining optimum health conditions in the community, the College of Allied Health and Nursing prepares professionals with the skills necessary for the diagnosis, treatment, and prevention of diseases; for the support of the populace in maintaining proper health and safety; for the management of rehabilitative processes; and for the education of the community in understanding the interdependency of health, environment, social and political factors. The College of Allied Health and Nursing endeavors to train both graduate and undergraduate professionals in the arts of improving the quality of life in the community.

letter from the dean

The health care marketplace is undergoing a rapid change. The pace of this change has provided a formidable challenge for institutions that provide the educational programs for future health care professionals.

Nova Southeastern University's College of Allied Health and Nursing is committed to providing the highest quality of education to students in a variety of health care disciplines, including occupational therapy, physical therapy, and physician assistant studies, as well as audiology and the newly added nursing programs. In addition, the college is committed to a lifelong learning philosophy through the Ph.D. in physical therapy and the Dr.OT and Ph.D. in occupational therapy. We also have the bachelor of health science (B.H.Sc.), master of health science (M.H.Sc.), doctor of health science (D.H.Sc.), and transition doctor of physical therapy (T.-D.P.T.) programs, as well as the bachelor of health science—vascular sonography and the master of health science—anesthesiologist assistant courses of study. These degrees for practicing health care professionals are delivered mainly through the use of innovative distance technology.

Professional associations in audiology agree that audiologists need to hold a doctorate in order to practice. The NSU Department of Audiology has developed a nationally recognized doctoral (Au.D.) program that is flexible and of the highest quality. This makes it an obvious choice to enhance your experience and qualify you for competitive positions in audiology.

The College of Allied Health and Nursing is committed to providing health care educational opportunities in formats that meet the needs of prospective students in the community and adequately prepare graduates to assume greater leadership roles in health care delivery systems.

Richard E. Davis, PA-C, Ed.D.

Dean, College of Allied Health and Nursing

chair's message

The U.S. Department of Labor classifies the profession of audiology as among the fastest growing professions in the United States with a growth rate expected to exceed 36 percent by 2010. The recent *Jobs Almanac* ranked audiology in the top 5 percent of all occupations and *U.S. News & World Report* states that audiology is “the best career” for 2007–08.

Our program at NSU is designed to prepare graduates to enter the profession of audiology ready to practice. We offer diverse clinical experiences and coursework that prepare graduates for today and tomorrow. In addition to our traditional audiology curriculum, we are among the few Au.D. programs offering coursework in genetics and hearing loss, pharmacology, business/practice management and leadership, and gerontology. A federal grant reviewer commented that the NSU Au.D. program has “a most impressive collection of distinguished faculty, experts, and researchers...creating a diversity of expertise that may have never been assembled before within a single institution.”

Our NAFDA student chapter was recognized as the “2007 Most Outstanding Chapter in the Nation” by the American Academy of Audiology. This chapter is active in international humanitarian and community activities. Most recently, our students have participated in trips to Guatemala through the Ronald McDonald Foundation to fit children with hearing aids and to Trinidad to evaluate children, fit them with hearing aids, and participate in teacher training workshops on the effects of hearing loss on communication. Future missions are in the planning stage.

Personally, as a past-president of the American Academy of Audiology and a member of the first task-force in the profession to design and develop a model doctor of audiology program, I am proud of what we have built and are offering at Nova Southeastern University.

Barry A. Freeman, Ph.D.
Chair and Professor

postbachelor's doctor of audiology program

Prospective doctor of audiology students are selected by an admissions committee. Selection is based on preprofessional academic performance, written application, letters of recommendation, and a personal interview.

The Audiology Department requires applicants to have completed a bachelor's degree from a regionally accredited college or university. Preference will be given to students with a cumulative grade point average (GPA) of 3.2 or higher.

Applicants for admission must submit or be responsible for the submission of

1. a completed application form along with a \$50 nonrefundable application fee
2. three letters of recommendation from instructors, supervisors, and/or coworkers
3. official transcripts sent directly from all previously attended undergraduate, professional, and graduate institutions
4. copies of all professional certifications, registrations, licenses, or relevant credentialing materials

All admissions materials must be sent to

NOVA SOUTHEASTERN UNIVERSITY

Enrollment Processing Services (EPS)

College of Allied Health and Nursing

Audiology Program Admissions

3301 College Avenue

P.O. Box 299000

Fort Lauderdale, Florida 33329-9905

The audiology committee on admissions will review applications after required fees, credentials, transcripts, and recommendations have been received by the Audiology Office of Admissions.

Applications can be accessed and downloaded at www.nova.edu/aud.

PERSONAL INTERVIEW

Completed applications are reviewed by the admissions committee and invitations are extended for a personal interview to those applicants meeting the initial admission criteria. Interviews are held on campus and provide the student an opportunity to meet faculty members and students and to visit the campus.

Notice of acceptance or action by the committee on admissions will be on a rolling or periodic schedule; therefore early completion of the application is in the best interest of the student.

Inquiries should be directed to

united kingdom program

The audiology department offers the Doctor of Audiology Program for audiological scientists and other qualified audiology practitioners. Faculty from the United Kingdom and United States are partnering to offer the most diverse and advanced professional degree program in the world. Courses are offered in London every other month in an extended weekend format. By earning the Au.D., the graduate will enter one of the fastest growing professions in the world. Our program at NSU is designed to prepare current audiology practitioners in the UK to respond to the expanding scope of professional practice and the anticipated technological advancements facing the profession. Applicants must complete an application and adhere to admissions policies. Contact the audiology admissions department for tuition information at www.nova.edu/aud.

AU.D. PROGRAM FACTS

- Internationally acclaimed teaching faculty
- Clinically focused professional degree
- Courses and class schedule designed for the working practitioner
- Recognized for advancement to the consultant practitioner and consultant director level by the UK Education and Training Skills Escalator
- 34 credits for post-master's degree in audiology program (M.Sc.)
- 43 credits for the postbachelor's degree in audiology program (B.Sc.)

B.SC. IN AUDIOLOGY OR M.SC. IN AUDIOLOGIC SCIENCE TO AU.D.

NSU is providing audiological scientists with M.Sc. degrees and audiologists with B.Sc. degrees in audiology with the opportunity to earn a doctor of audiology (Au.D.) degree. Earning the Au.D. will give audiologists the opportunity to advance in the NHS or an independent practice and to acquire the knowledge and skills of a doctoral-level practitioner.

CURRICULUM

This curriculum is for students with M.Sc. and B.Sc. degrees who are enrolled in the NSU Doctor of Audiology Program offered in the United Kingdom.

COURSE #	COURSE TITLE	CREDIT HOURS	
		UK M.Sc.	UK B.Sc.
AUD 5003	Neuroanatomy of the Central and Peripheral Nervous Systems		3
AUD 6075	Seminar in Ethics and Professionalism		3

Total Credit Hours		34	43

computer requirements

All students are required to have a computer with the following recommended minimum specifications:

- Pentium; 400MHz minimum processor
- 64 MB RAM
- Video capable of 800 x 600 screen display or better
- CD-ROM capability
- Full duplex sound card and speakers
- 56.6 baud modem
- Internet connection with private Internet service provider (ISP) for access from home to the Internet
- Windows 95/98/2000/ME/XP or NT
- Microsoft Office 97 with PowerPoint, Word, and Excel minimum
- Surge suppresser electrical outlet
- Suggested option: Zip Drive
- Suggested option for doctoral programs: laptop computer with wireless Internet capability for use during on-campus coursework

accreditation and nondiscrimination

The audiology program is accredited by the Council on Academic Accreditation (CAA) of the American Speech-Language-Hearing Association (ASHA). Graduates will have completed the academic and clinical requirements necessary to be eligible to apply for a license as an audiologist, pursue board certification in audiology from the American Board of Audiology, and seek the Certificate of Clinical Competence from the ASHA.

Nova Southeastern University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097, Telephone number: 404-679-4501) to award associate's, bachelor's, master's, educational specialist, and doctoral degrees. ■ Consistent with all federal and state laws, rules, regulations, and/or local ordinances (e.g., Title VII, Title VI, Title III, Title II, Rehab Act, ADA, and Title IX), it is the policy of Nova Southeastern University not to engage in any discrimination or harassment against any individuals because of race, color, religion or creed, sex, pregnancy status, national or ethnic origin, non-disqualifying disability, age, ancestry, marital status, sexual orientation, unfavorable discharge from the military, veteran status, or political beliefs or affiliations, and to comply with all federal and state nondiscrimination, equal opportunity, and affirmative action laws, orders, and regulations.

This nondiscrimination policy applies to admissions; enrollment; scholarships; loan programs; athletics; employment; and access to, participation in, and treatment in all university centers, programs, and activities. NSU admits students of any race, color, religion or creed, sex, pregnancy status, national or ethnic origin, nondisqualifying disability, age, ancestry, marital status, sexual orientation, unfavorable discharge from the military, veteran status, or political beliefs or affiliations, to all the rights, privileges, programs, and activities generally accorded or made available to students at NSU, and does not discriminate in the administration of its educational policies, admission policies, scholarship and loan programs, and athletic and other school-administered programs.

tuition and fees

1. Payment of tuition and fees is expected at the time of registration. Students receiving financial aid are responsible for making sure that they have completed all applications for financial aid and that it has been granted.
2. The tuition for the on-campus postbachelor's program for 2008–2009 (subject to change by the board of trustees without notice) is \$18,375. A Health Professions Division general access fee of \$145 is required each year. An NSU student services fee of \$750 is also required annually.
3. The tuition for the doctor of audiology program in the United Kingdom for 2008–2009 (subject to change by the board of trustees without notice) is \$500 (U.S.D.) per credit hour plus university fee.
4. Upon acceptance, students planning to enroll are required to complete an intent to enroll form with a nonrefundable deposit of \$500. This advance payment will be deducted from the tuition payment due at registration.

The financial ability of applicants to complete their training is important because of the limited number of positions available. Applicants should have specific plans for financing four years of professional education. This should include provision for tuition, living expenses, books, and related expenses.

transfer students

Individuals seeking to transfer to the NSU Doctor of Audiology Program must submit an application and follow the application and admissions process. The audiology department will consider the transfer of credits from another academic institution. Eligibility for course transfer requires a grade of B or better and must be accompanied by an official course description. Credits must be earned within six years prior to program admission.

Students are provisionally admitted to a degree-seeking program based on a review of unofficial transcripts or other specific program admission requirements. However, this admission includes a condition that final and official transcripts, documents, and requirements must be received within 90 calendar days from matriculation. If these final and official transcripts, documents, and/or requirements are not received by that time, the student will not be allowed to continue class attendance. Financial aid will not be disbursed to a provisional/conditional student until he or she has been fully admitted as a regular student (all admissions requirements have been approved by the college/program admissions office). Students who have an unpaid balance 30 days from the start of the term will be assessed a \$50 fee.
