AN OVERVIEW OF NOVA UNIVERSITY

Nova University is an institute of higher learning, chartered by the State of Florida in 1964, as an independent, nonsectarian, nonprofit university. The University awards bachelor's, master's, educational specialist, and doctoral degrees in education, business and public administration, psychology, oceanography, law, and a number of computer-based programs, both on and off campus.

Based on the philosophy that institutions are vehicles designed and redesigned to meet personal, social, and career needs of people in a changing society, Nova continually questions traditional education and strives to find alternative delivery methods. With students studying in Florida, in 32 other states, and in several foreign countries, as well as seven Canadian provinces and territories, Nova University is truly an international institution.

Nova is a "learner's university," using the student's experience to make education meaningful and exciting. The University has distinguished itself by its innovative outlook, its unique systems of delivery, and its research in many fields aimed at solving problems of immediate concern to mankind.

In addition to the University's degree programs at the undergraduate and graduate levels, The University School is a culturally integrated, nonprofit school for children from early childhood through twelfth grade. Community services include the Family Center, the Institute for Retired Professionals (IRP), the Institute for Social Services to Families, psychological clinics, and clinical research facilities.

PHILOSOPHY AND MISSION

The Ed.D., Ed.S., and M.S. degrees in computer education use the capabilities of high technology in the form of computers, modems, satellites, and phone lines to connect graduate students and faculty around the world. The UNIX* operating system and the TYMNET packet switching network facilitate communication and exchange of ideas between students and faculty in Nova's computer-based graduate programs.

In addition, our videotapes, the online electronic classroom sessions, and our intensive one-week institutes each January and July provide us with an opportunity to create an intense two-way learning environment and the time to develop professional friendships. This "high touch" aspect of our program is extremely important in helping students maintain their commitment and motivation as they study and work in their home settings.

We are as excited as you are as we meet again in Orlando to participate in the FICC conference sessions and to "experience" the intense evening and weekend class sessions and seminars. I trust you are ready to be challenged and motivated.

Now, let the institute begin!

Al D. Mizell

HIGH TOUCH TIME

In a world that now focuses so heavily on "High Tech," I thought that I would add a little "High Touch" to our own environment. In the following pages, you will get to know your fellow computer education classmates a little better. In addition to our standard cohort data and graphics, we have some bits of text that you will be able to take a byte out of. This new data includes: Buddy/Buddees, Birthdates, Vocations, and a section detailing the various type of computers, modems, and software that you are using.

I know that you like to grep a lot, so I am going to ascii you a few questions to help you debug your database and add to your personal knowledge index. No fair using artificial intelligence, but you can do this interactively. Using either natural language processing or assemblylanguage see if you can randomly access the data you need to answer these compiled questions.

- How many states and countries do our students represent?
- What is the average age of our students?
- What is the ratio of men to women?
- How many Ed.D., Ed.S., and M.S. students do we have?
- Who was our first Ed.D. graduate?
- Who is our newest faculty member?
- Can you name all of the teaching assistants and cohort reps?
- What country is our first Fulbright Scholar from, and who is it?
- Who has had his or her own band for approximately 20 years?
- Which school system has 6 CED students (both master's and doctorate) representing it and who are the students?
- Who are the next students ready to graduate in 1988?
- How many husband/wife teams do we have registered in the program?
- Which student in the program competes in the U.S. and Canada on Bagpipes?
- Which student travels extensively in France as part of his school responsibilities?
- How many DoDDS students do we have in the program and who are they?
- Who traveled the farthest to get to the institute?
- Who lives the farthest north?
- Who lives the farthest south?
- Who has been shaking, rattling, and rolling recently?

Have fun ...

Bobbi ☺

COMPUTER EDUCATION PROGRAMS
INSTITUTE EVALUATION

Winter - 1988

Name: _____

Date Submitted: _____

Dates you attended this Institute: _____

What is your specialty area? _____

Study areas in which you are currently enrolled:

_____

_____

Circle your current degree program: Ed.D Ed.S.

Indicate the degree to which you agree or disagree with each of the following statements by circling the appropriate number.

		Strongly Disagree	Disagree	No Opinion	Agree	Strongly Agree
I.	ADVANCE INFORMATION AND PRINTED PROGRAM					
1.	The advance information I received on this Institute was timely and sufficiently complete.	1	2	3	4	5
2.	The Institute program was attractive, well organized, and let me know when and where I had to be.	1	2	3	4	5
II.	STUDY GUIDES AND TAPES					
3.	The Study Guides and Video Tapes for my study areas arrived in sufficient time for me to view them and prepare my pre-institute assignments.	1	2	3	4	5
4.	I understand that the study guides couldn't be mailed to me until I submitted my registration form and tuition payment.	1	2	3	4	5

		Strongly Disagree	Disagree	No Opinion	Agree	Strongly Agree
III.	THE INSTITUTE ACTIVITIES					
5.	The conference sessions and guest speakers were a valuable portion of this institute.	1	2	3	4	5
6.	There was a good balance among the number of class sessions.	1	2	3	4	5
7.	The breaks between sessions were long enough to allow me to "network" with my colleagues.	1	2	3	4	5
IV.	STUDY AREA					
8.	The advance materials, guides and tapes, were well done and look like they will provide me with the needed guidance to complete my study areas successfully.	1	2	3	4	5
9.	The video tapes on my study areas were in sufficient depth and breadth to give me the needed overview and advance information, as well as an orientation to the National Faculty Member.	1	2	3	4	5
10.	The study guide is thorough, complete, and accurate as it currently is.	1	2	3	4	5
11.	The types of activities conducted duringthe Institute class meetings were "on target" and were what I needed to help me become enthusiastic about the area and to be ready to work online after the Institute so that I can complete the area successfully.	1	2	3	4	5
12.	My instructors are generally helpful and responsive. I would recommend them to future students.	1	2	3	4	5

	Strongly Disagree	Disagree	No Opinion	Agree	Strongly Agree
V. THE INSTITUTE					
13. The location and time of the Institute is suitable when the needs of all are considered.	1	2	3	4	5
14. The presence and participation of our Advisory Board Members is a valuable portion of the institute experience.	1	2	3	4	5
15. The PDK and cohort meetings have been useful to me.	1	2	3	4	5

Any comments and/or suggestions for future institutes would be appreciated:
