UNIVERSITY NEWS
November 15, 1965

This is an important and challenging week for the University. Tuesday (Nov. 16) brings on our first seminar - the inauguration of a series of seminars and institutes which will continue indefinitely, covering vital phases of national and regional life.

This first event, splendidly planned by Chairman D. B. Cotton and his committee, will be concerned with the proper selection of stocks and bonds and the management of a good securities portfolio. Both audience and speakers will represent a high level of authority in this field. Sessions are being held Tuesday evening through Friday at the Hollywood Beach Hotel. Registration fee for the full seminar is \$100, and for any daily session, \$25 . . .

* * *

Dr. Ray Pepinsky, our noted research professor of physics and chemistry, is in Germany this week. He is being accorded the signal honor of an honorary doctorate from the ancient University of Giessen, which has given only three previously in all its 460-year history. Dr. Pepinsky, being accorded this degree for his internationally distinguished work in crystal and solid state physics, is also well known in Germany for his deep interest in the poetry and folk music of the land.

* * *

Yachtsman Bob Cox, president of the Marine Industries Association of Broward County, now is working very closely with the University in an exploration of our potential role in the field of oceanography . . . Association members are providing excellent cooperation . . .

On Nov. 23 the University will be visited by a team of scientists and engineers coming to inspect the site near Andytown which we have proposed as the location of the new \$280 million U. S. nuclear accelerator. Community leaders and experts in this field will meet with them to supply whatever information they need . . .

THE INSTITUTE OF PUBLIC SAFETY being jointly sponsored by the University and the Pilot Club of Hollywood is off and running. Beginning with the Pilot Club, a number of women's organizations in the county are to be surveyed for their views on the subject of traffic safety - and later on, safety in other areas. Results will be channeled to the proper public officials. . .

* * *

And in connection with this, the Pilot Club has delivered a third contribution of \$1,000 to this institution. George Kennedy of Hollywood, head of the insurance firm of Kennedy & Ely, and Mrs. Kennedy have made the donation on behalf of the Pilots . . .

Prominent Fort Lauderdalean Dwight L. Rogers, Jr., a member of a pioneer family long associated with vital civic activities in this area, has become Advance Gifts Chairman for the fund campaign within the city. Formation of organizations for other areas of the county is speeding along . . .

KEEP DECEMBER 11 OPEN! That will be a big day for the University. Details will be revealed next week . . .

* * *

Dr. Charles Gauss will deliver the fourth lecture of his fall series Wednesday (Nov. 17) at 8 p.m. at the Fort Lauderdale High School, instead of on Thursday. His topic, which promises a fascinating discourse, is "The Theatre of the Absurd" . . .

Dr. Winstead will be a participant in the President's Round Table session at the First National Bank Tuesday, Nov. 16, speaking on "The University in Your Community" . . .
