SR Education Group, a leading education research publisher, ranked Nova Southeastern University (NSU) within their 2019 lists of best online colleges

SR Education Group, a leading education research publisher, ranked Nova Southeastern University (NSU) within their 2019 lists of best online colleges. The group recognized NSU's College of Computing and Engineering for its Master of Science in Computer Science and Engineering program, ranking it 13 out of 19 in "Best Online Master's in Computer Science Programs." The college was also ranked 6 out of 8 for "Best Online Master's in Information Technology (IT) Degrees."

The rankings, published on www.GuidetoOnlineSchools.com, are based on mid-career salary data from recent alumni surveys, as well as manually researched tuition rates. According to the website, the group researched 723 schools in order to publish more than 250 degree-level and program-specific rankings.

"It's great to have the recognition that supports how well our programs translate to the world today," said Meline Kevorkian, Ed.D., interim dean of the College of Computing and Engineering. "Companies seeking new sources of talent are looking at our college because of our commitment to our students. Our programs support discipline experts and foster strong communication, teamwork, and life-long learning skills."
