ACADEMIC NOTES

The caps, gowns and hoods of the academic procession date back to the Middle Ages, when they were common dress for scholars. Monks and students wore them to keep warm in the damp and drafty twelfth-century castles and halls of learning.

The Bachelor's gown has a pleated front and long, pointed sleeves. The Master's gown, which may be worn open, is distinguished by its long, square sleeves, closed at the end and slit near the elbow to permit the forearms to come through. The Doctor's gown, which also may be worn open, is trimmed with velvet panels down the front, with three velvet bars on its bell-shaped sleeves. The hood is the key to the costume. With a tassel of the same material as the gown, it is lined in silk with a color or colors of the institution conferring the degree. The length of the hood indicates the degree: four feet for the Doctor, three-and-a-half feet for the Master, and three feet for the Bachelor. The hood is sometimes omitted on the Bachelor's gown. The width of the velvet border also indicates a degree. The widest border belongs to the Doctor's gown.

The color of the hood's border indicates the field of learning to which the degree pertains. The doctor's hood may bear a single chevron on the lining. Two narrow chevrons indicate a Bachelor while the Master may have a single chevron, or have the hood divided equally in two colors.

The various fields of learning are indicated by color as follows: arts, letters, humanities—white; commerce and accountancy—drab; economics—copper; education or pedagogy—light blue; engineering—orange; fine arts, including architecture—brown; law—pale blue; library science—lemon; medicine—green; philosophy—dark blue; science—golden yellow.

During the processional, candidates for the Bachelor's Degree wear the tassels on their mortarboard hats on their right. Upon receiving their diplomas, the tassels are moved to the left.
