SPECIAL BULLETIN!
GROUNDBREAKING WEDNESDAY, MAY 18
FOR THE PHYSICAL SCIENCES CENTER
OF THE UNIVERSITY

On the campus west of Nova High School
at 11 a.m. All friends and supporters
of the University are invited to attend.

* * * *

This will be one of the most significant University activities of the year
-- the turning of the first spadeful of earth for the construction of the Louis W.
Parker Physical Sciences Center.

Mr. Parker, the Fort Lauderdale inventor and manufacturer who has
made this building possible with his gift of \$1 million, will be the guest of honor,
along with Mr. Edwin M. Rosenthal, the Hollywood philanthropist who has given
\$300,000 for the building of the Student Activities Center.

Principal speaker will be a leading American industrialist, Mr. Thomas
F. Morrow, vice president of the Chrysler Corporation in charge of its Defense-
Space and Diversified Products Group. Since this group embraces missile oper-
ation, our speaker was a particularly good choice for this event in the history of
a university oriented to the physical sciences.

Mr. Frank C. Adler, chairman of the Broward County Commission,
also will be a speaker. The Nova High School Band and the Chorus of the Junior
College of Broward County will participate.

* * * *

A special event of the ceremony will
be the sinking of a time capsule to

To be placed in the capsule, a glass container especially fabricated for this occasion by the Corning Glass Works, Corning, N. Y., are local newspapers, photographs showing the full length of the coastline of this county, a science publication and various documents and articles symbolic of this era.
BE PRESENT AND BRING YOUR FRIENDS.

The Nova University Association, the countywide organization of friends and supporters organized last winter, has elected its first officers. We are pleased to welcome to these positions Dick Doty, WTVJ newscaster, as president; Tom Evans, Deerfield Beach banker, first vice president; Joe Packo, Fort Lauderdale business executive, second vice president, and Mrs. Jeanette Maracic, executive secretary of the Hallandale Chamber of Commerce, secretary.

The officers are conferring informally and the date of the next meeting soon will be announced, along with plans for the formation of committees, a schedule of activities and the acceptance of new members.

All who now belong to the association are Charter Members. . .

* * * *

Dr. Warren J. Winstead, the University president, has announced the appointment of another faculty member. Dr. Pearn Peter Niiler, now at Harvard University, will become an assistant professor of mathematics, beginning Sept. 1.

Dr. Niiler holds a Bachelor's degree in engineering mechanics from Lehigh University in Pennsylvania, and earned his Ph. D. in applied mathematics at Brown University. During 1960-61 he was a Fulbright Scholar at Cambridge University in England, and he has performed research work in oceanography at the famous Woods Hole Oceanographic Institution in Massachusetts. . .
