DEAR LOWER SCHOOL STUDENTS, PARENTS, AND FACULTY,

New writers are commonly advised to “write what you know.” At the Lower School, our teachers encourage students to use their personal experiences as starting points for writing. Students learn to observe the world keenly, as writers do. Students are then taught to record and embellish these observations with interesting details and description. You will find the results of this fine instruction on the following pages.

The student staff members of the magazine are recommended by the classroom teachers in grades two through five. They are chosen for their interest in art and their responsibility. They have been a very enthusiastic group, and their talents are visible on every page. It has been a pleasure working with them!

Thank you to the administration for their continued support of this publication. Thank you to the classroom teachers who submitted many more pieces than we had room to print, and for inspiring your young writers. None of this would be possible without your expertise.

Sincerely,

Nancy Cantor, editor

P.S. Here are two more experiential pieces for your enjoyment:

Climbing onto the board with a chill down my spine, I wait for the other divers to do their dives. I imagine me smacking the cold blue water and getting hurt. Mi-ti and Jessie tell me that I can do it. I am so cold my lips are purple. I start blubbering with tears. I rub my towel against my cold salty tears. My coach yells it is my turn. I start my approach, but once I get to the end of the board, I am so scared I can’t move. Slowly I walk to the end of the board. My heart’s pounding as fast as it can. I do a front entry. The water is cold. I swim to the wall and jump out of the water. The dive was great! I can’t wait to go to the dive meet and win.

Dancing to Rhianna with my friend and my cousin, I move like a famous dancer. My feet make me dance the night away, like a maniac. Suddenly I hear my favorite music—JUSTIN BIEBER!!! Oh my gosh—my feet drag me back on the floor. I go to the back entrance where my dad, my mom and I make our way to the grand entrance. Whoa, I am thinking, I am famous! Everybody’s clapping for me! It’s a miracle! Finally my brother and sister appear! My sister looks like a rainbow, and my brother has a smile on his face for once!

Halloween
Knock, knock
Who's there?
I open the door
And there are spirits everywhere
I do a jump,
Right then, I hear a bump
I turn around
I hear a different sound
It is skeletons, zombies, and ghouls too,
I bet you would be scared
if I switched bodies with you.

The Best Halloween Ever!

I was so excited for Halloween
because I was going to Xiya’s party.
I wanted to dress up and see my friends there.
I also wanted to see the Indian Village
because I had never been there.
I was Frankie from the movie Monster High.
I looked so scary because my hair was black
and white and I had stitches on my face.
I entered a contest for the prettiest costume
but I actually won for the scariest.
That was so funny! Xiya's grandma was speaking to
the crowd but I did not understand her
because she was speaking in Miccosukee.
It sounded very different!
We walked around the party and were spraying crazy string.
That was so cool until we got it stuck in her eye.
There were so many activities and people I met.
I have so many new friends too.
It was so much fun and it was the best Halloween ever!

**The Spooky Night**

It was a spooky night. There was a blue moon.
The walnut wood on the floor was cracking.
I heard noisy music out of nowhere.
Then I heard a ghost calling my name loudly.
The night was black as mud, followed by the
fluffy clouds that turned gray.
Next, the plants started swishing very fast.
The trees were hitting the window softly.
The loud door started opening and closing.
The night grew darker and darker.
I heard wind splashing the window.
Then I heard my voice again.
I was so scared I could not go to sleep!
Then the special shining sun came out and it was all over.
Finally, I said let's start a new day.

**Creepy Crawly**

I live in a haunted house that has ghosts, goblins, vampires, monsters, and witches.
I get scared every single night because of the monsters so I crawl around with my eight legs.
I am black with red arrows on my back but I am poisonous so beware.
Oh no, I must run because the ghouls and monsters are coming.
I might get hurt so I must hide by going outside as fast as I can go.
Yes, I made it. Don't you get scared when ghosts are in your house?
I am in the cemetery! Aah!!!

My Passion

I am most passionate about playing baseball. Jordan and Naomi inspired me to play baseball because they would talk about it all the time in class and they are as good as LeBron James. I enjoy basketball because it’s as fun as jumping on a trampoline on the top of the water! When I am at home we go outside where our tall basketball hoop is. Sometimes I have practice and games! I enjoy playing basketball because it is really fun and when you play you always get better. Basketball is an amazing sport and you should really play it.

Trail Adventure

Yay! I went bike riding in the trails with my family. I was very excited. My eyes were wide open and I was jumping up and down. It was fun, but I fell down a bunch of times and I tried not to cry. It hurt my bottom and it felt sore from the bike seat. Even though I wanted to stop, I kept on riding my golden bike. We saw a bunch of tiny crabs and one big crab. When I was riding, my dad, brother and I got wet by a hose. It was hot and my face was sweaty, so it felt good getting wet. When we stopped riding, we went to Friday’s for lunch. I had a great time with my family!

Spearfishing

Diving in Bimini, the water is as clear as a diamond. When the boat hits the waves, the front of the boat goes up. When we arrive at the coral reef we jump in to the crystal blue water. My feet are kicking the water as hard as I can, while my hands are holding on to the spear. I see a hogfish. I corner the hogfish against a rock. My hands pull back as far as I can. Then, I let go of the pole. I hit the hogfish. I was so happy. I did not notice that it got off of the spear. I thought to myself that I was determined to get it. Finally, with all my might I pulled back and hit the hogfish. We all had a great time.

Going Fishing in Key West

Flying over the waves, I felt anxious. Was I going to fall in the water? My feet were shaking like a rumbling volcano. The boat was churning back and forth. I felt like I was going overboard. I was thinking, I might fall over the edge of the boat. Finally, the boat stopped in the dark blue murky water for us to fish.

I Know HANUKAH

I know Hanukah:
I taste brown yummy chicken, delicious white matzo, little white rice, brown-yellow potato, and the steaming hot fish.
I hear the Blessing Jewish singing, my heart loving family talking, the wrapping of the presents, and I hear the flicker as the candles are being lit.
I see lots of presents, good food, my wonderful family, and my hat kippah.
I smell the chocolate coins, the salty fish, the warm bread, and the crispy chicken.
I feel my mom and dad’s love, my grandparents near, and the heavy boxes of presents on my hands.

Dylan Asiiag

The Menorah

The menorah lights up with sparkle.
When you breathe in you smell the fire burning through the night. When the first candle is lit you feel the chizzle in your nose tickle a bit. While you open the big, wrapped boxes of gifts, your mom wraps you in a woolen, cozy, soft, warm blanket so that you can keep warm. I grab the gelt that are rich and creamy and swallow them right down my throat. Right before I go to bed I take one last sniff, give one more kiss, and tiptoe my way to bed.

I Know HANUKAH

My favorite holiday is Christmas. I celebrate with my awesome family at my fancy house. In the morning, after I wake up, I open the presents that Santa brought me. It makes me so happy! Later in the day, I sing songs by the tree with my mom. I hope to celebrate Christmas again soon!

I Love Spring

Lying on the green grass, I feel the wind
blowing on me. My hands are picking flowers
on the ground, while my feet are glued to the
roots of the maple tree. Spring showers are
falling on me. The birds are singing a beautiful
lullaby. When the sweet vegetables grow they
taste delicious. Next, it is time for planting
daisies. I bend down and dig a whole and place
the seeds in the ground. Then I water the seeds.
The bees were buzzing in harmony above my
head. Finally, I sit under the tree which protects
me from the heat.

Fall

The orange leaves are falling from the
tree as I gather them in a big leaf pile. Then
when the pile is high enough I jump inside and
play with the leaves until my mom calls me in
for Thanksgiving dinner. Once I’m inside I smell
the roasted juicy turkey with baked potatoes
and vegetables--YUM! After, my mom serves
me dinner. Taking a scrumptious bite I think to
myself it is so delicious I don’t even know what
to say! Dinner is over so I go outside to see the
tree but there are no more orange leaves.
Probably all the leaves dropped off and it is
almost snowy winter. Looking at the rest of the
trees I notice their leaves are falling too, so I
play in them because that’s my favorite thing
to do in Fall!

**Horse Riding**

“Pick up the canter, Naava.” Lin said to me. Lin is my horse instructor. Today, I am learning how to canter. A canter is between a trot and a gallop. I learned to canter so that my horse can go over jumps better. Sophie is the name of my horse. She is very energetic and she is enjoyable to ride. Sophie is my favorite horse in Lin’s barn. I love Sophie. We are the best of friends. I can’t wait to learn more with Sophie!

As I trotted around my friend’s backyard, the wonderful wind blew in my face. At first I was a little scared but then I finally was doing it. I was frightened because he was found in the wild and was put in captivity and now I was riding him. When I was riding Josie, his orange yellow mane brushed against my face. His body was as soft as velvet. Finally he came to a fast stop like a racecar. But it wasn’t over; he started to gallop this time. When he finally stopped, I jumped off with a gentle thud onto the tree trunk brown sand. That was the first time I rode a wild mustang!!

**Guinea Pigs**

A girl I know has a guinea pig as a pet. Guinea pigs need homes. Your guinea pigs will live in a cage or hutch. A hutch usually has two rooms. Guinea pigs need food. Guinea pigs eat hay and also pellets. My friend brought a guinea pig at a pet store. If you want a guinea pig and you have a cat then you should not get a guinea pig as a pet.

**Kate and Her Dog**

Kate was an ordinary child. She didn’t have a sibling so she was kinda lonely. She was walking around her block and she saw a pet store. Obviously, she entered. She looked at the cats. “Naa.” She looked at the rabbits. “Naa.” Finally, she found a perfect dog. She ran home as fast as she could and when she arrived she asked her mom, “Can I have a dog?” Her mom said, “Yes.” So they ran back to the store. Her mom saw the dog and bought it. “Her name is Lovely,” said Kate. Kate was not lonely anymore. She had Lovely. They play together, they do everything together. Kate loves Lovely so much because Lovely has white, furry fur, a shiny coat, and pink, sparkly clothes and accessories.

Do you want to hear about Happy? He always likes to lick me. His fur always sticks to me. Happy likes to be happy all of the time. Happy always wants to go outside and play with me. He always wants me to take him for a walk too. Do you know who Happy is? Happy is my German shepherd dog. My dog Happy is my very best friend. He sure knows how to make me happy too!

You are the U in Unique

My slogan to help everybody get involved at school would be “You are the U in Unique.” I chose this slogan because it makes me feel good about being different and special in my own amazing ways. It makes me feel that I am just as important as anybody else. Everybody has different and special personalities, interests, passions, and talents that make up who they are. I think it is important to appreciate that being different is good because the world needs a variety of different people to help other people do many different things. It would make my school better because my school would be more diverse instead of everybody being the same and acting the same. It would keep kids from feeling like they have to be the same as other people just because they think the other person is cooler. Nobody should ever feel like they aren’t cool enough.

My Favorite Special Job

I have a job for the month of November. Do you know my job? I am the Head Munchkin who leads the line for my class. I like my job because it is fun and awesome. I like to hold my teacher’s hand when we walk to lunch or to the library. Sometimes our hands are very cold. My job is being responsible to have everyone in back of me. I get sweaty when I go out in the sun. I also have to move very fast. I am happy I am the line leader. I wonder what I will be next time.

Cool School

Putting words on a paper, thinking long and hard, creating a whole new world—people find that fairly boring, but it’s right up my alley! I’ve loved writing ever since I was little. When I grow up, I want to be an author. I have a true passion for it and writing has become a really great hobby for me. Expressing all your feelings, letting everything just flow on to a piece of paper is amazing.

I come from a family of great writers. My dad’s an honors English teacher, my mom’s an English major, and my older brother has a huge imagination and loves to make up stories like me. I got inspired when Mary Amato came to our school and told us about her life, how she started writing, and other things. Soon, I hope to publish a book on the internet. I have learned writing takes a lot of time and dedication. It’s all worth it!!

What Geometry Means to Me

When you’re not in school you may not notice it, but geometry is all around you! When you wake up in the morning you are sitting in a cube. When you go to brush your teeth your sink is a circle. In your closet your hangers are triangular and your drawers are rectangular. When you’re in school geometry is still everywhere! The rug is rectangular, the pencil bins are cylinders, the tables are hexagons, and the books are rectangular. Geometry is really everywhere. You just have to look a little closer.

Alaska

Crunch, a huge boat flowing upon the chilly cement-grey water is smashing the ice. The boat is candy-apple red, vanilla, and navy blue. Icy water is as cold as a snow white glacier. The icebergs are chunks of pearl clouds. Small forest green trees are standing as still as statues on the ragged shoreline. It’s one of the most beautiful places I’ve ever seen! Snow on the mountains in the distance is thin stretched blankets trying to swallow them whole. There are giant rocky bluffs floating on the water trying to touch the glistening stars. If you look up high, you can see an enormous robin’s egg blue blanket surrounding the earth. This is Alaska, the coldest place I know.

My Special Trip

I went to the ocean in Miami with my Grandpa and my Dad. When we got to the ocean, we met my Dad’s friend. First, we all ate lunch at a restaurant. At the restaurant, there was pool so I swam in the water. Then, we went on my dad’s friend’s boat. When I was riding the boat, I saw a jellyfish in the water. Next, I saw a big fish swimming to the boat. It was so big it was taller than me. It was the biggest fish in the world. Soon, I saw many other fish. One was orange, and another was black. There were hundreds of little fish swimming around. The needle fish was moving and it camouflaged the water. It was awesome! I had the best day.

The Greatest Vacation

Splash! I got soaked! I was on my favorite ride at Universal in Orlando. It was the Superman ride. I was in the front row and it felt like it would be the end of my life. It felt very good to go straight down after going up, up and up. I was screaming “Help!” when we went underground. I had just eaten cotton candy and the ride made my stomach feel like I was going to vomit. The ride is dark around you but the lights were so bright it made my eyes shine. The 3D glasses made the lights brighter and so pretty. Some other rides I went on were Harry Potter and The Mummy. I didn’t get to go on The Hulk because I was too small. My trip to Universal was awesome!

Alaska’s Waterfall

CRASH! SPLASH! BOOM! The water thunders down, and the spray rises as if there were a magnet pulling it towards the sky. A colorful rainbow hangs over the trees like an elegant visor. The last paper-thin ice sheet melts in the afternoon sunshine, as tiny, tiny squirrels crawl in the dirt looking for acorns. The sweet smell of the spray was as fresh as dew. The humongous rocks were a tall cage around the falls. As little emerald green sprouts grow, pebbles race down the steep ice sheet into the icy cold water. This was the most beautiful sight I have ever seen. WOW!!! Look at Alaska’s Great Waterfall.

Football is an amazing sport because it is so fun to run with the ball as the defensive line and offensive line are tackling each other. I hope to be a receiver in the NFL when I grow up. I have been playing football with my dad since I was five years old. My parents encourage me to play football because they think I’m very active. In third grade, I am playing flag football for cultural arts and it’s great practice for when I’m a real football player. I want to play in middle school, high school, and college so I’m ready for the NFL. I wish I could time travel to when I’m twenty years old so I could already be in the NFL as a receiver.

Kicking the football over the goal post, I score my team 3 points. The ball moves as fast as a wrecking ball and makes a crash. I feel the wind blowing of me and I feel warm as cold rain comes falling down. I get the ball and run it for a touchdown. I make it! I am so happy! My coach goes for two. We do my center sneak. I am thinking this is awesome! Then I go on defense and I am thinking I will pull the first two flags. Finally, I pull my two flags and we win.

Down by three runs, and I was up next. As the pitch-black sky settled over our heads, the only thing keeping it bright was the glowing moon. As I stepped up to the plate I looked out over the field. The bright lights hung over the field like tree branches in the forest. I was confident I was going to crush it. With a man on first and third, the pitcher goes into his windup. As he releases the marshmallow-white ball I realize it’s outside. “Ball!” hollers the umpire. The next pitch is right down the middle. I send it flying over the center fielder’s head like a bird flying over the field. As I round first base the sunset-orange clay flies from the back of my feet. I halt at second... YES! I scored two runs. At the end of the game we lost by one run, but we would’ve lost by five if it wasn’t for me. I was ecstatic with joy!

Making that wonderful day was a surprise. We drove into the green Okeechobee woods. It was as cold as ice in the morning. The dogs barked as loudly as thunder in their cages. The truck stopped. My heart was beating fast. We let the dogs out of their cages. We waited quietly until we heard barking. Finally, we found the dogs with a struggling hog. I was thinking, those dogs probably got a hog! Finally, we found the dogs with a struggling hog. I was jumping with joy!

The Pressures on Me

"Owl!" Stop leaning on me. You should be sitting up straight with only one hand on me, and if you don't think I'm strong, well...think again. I fractured a little girl's toe. It wasn't my fault; she had all her weight on me. Every time you go to ballet, jazz, or hip-hop class, you see me. I'm straight as a yardstick. People use me to stretch before they dance. If you don't see me at the dance studio, the place has problems! Why should you be thankful to have me? If you didn't, you would not be able to move onto Pointe, and you would not be able to balance.
