This Course Schedule is brought to you for free and open access by the NSU Course Catalogs and Course Descriptions at NSUWorks. It has been accepted for inclusion in College of Engineering and Computing Course Catalogs by an authorized administrator of NSUWorks. For more information, please contact nsuworks@nova.edu.

NSU College Engineering and Computing Curriculum 2016

Curriculum

Core courses and electives for the Master's Degree in Software Engineering are listed below. Students must take all six core courses and six electives. If the thesis option is elected, students take four electives plus six thesis credits. Students who wish to take an additional elective must request approval from the program office prior to registration.

[Software Engineering Core \(three credits each\)](#)

[Electives \(three credits each\)](#)

Students may select any six 600-level courses at the school with prefix CISC, MSIT, ISEC, or MMIS (except MMIS 630, 653, 656, 660 or MSIT 660).
