MD ANDERSON UNIVERSITY OUTREACH SUMMER PROGRAM

What: The MD Anderson University Outreach program is an exciting summer internship opportunity that allows NSU students to gain research experience in the biomedical field. Before the program begins, students are assigned a mentor in a specific department. Students will receive a project and work with their mentor and their respective research team. Students will have the opportunity to attend program workshops conducted by physicians and scientists as well as employee lecture series. The experience will culminate with a poster presentation at the conclusion of the program.

Where: The MD Anderson University Outreach Summer Program will take place at MD Anderson Cancer Center in Houston, Tx. Housing is not provided for students in the program.

When: The program spans 10 weeks from the beginning of June till the beginning of August. Work hours will vary depending on the lab the student is placed. Students can typically expect a workday from 9am-5pm from Mon-Fri.

Application details: Application deadline is October 31, 2019. Process will consist of application, interview & selection
