

# Internship at Clear Vision Center of South Florida

Optometry Internship  
with Dr. Bitá Sabripour  
-Taylor Veneza

# Overview

---

- An Optometry internship at Clear Vision Center of South Florida is an opportunity to gain experience in the professional world of work in optometry.
- This internship is an experience that allows you to gain knowledge, skills and research within the field of Optometry.
- Students will have the opportunity to shadow, scribe and build your resume along side a professional Optometrist.
- You will learn business management skills within a practice
- You will also have the opportunity to work with a non-profit organization geared to helping those with eye care needs

# My Experience

---

- Gained clinical experience by conducting exams with children to determine if they may need glasses/contacts
- Shadowed alongside Dr. Bitra Sabripour during her exams with real patients
- Referred patients to Ophthalmologist

- Experienced the business side of Optometry (business management)
- Learned how to pick/order frames

- Learned how to make orders of glasses/contacts for patients

# How To Start

---
