A MESSAGE FROM THE PRESIDENT

On December 4, 1979, Nova University will celebrate its 15th anniversary as a leader in higher education.

This page is specifically a tribute to the first graduates of the University—the five men and women who received their Ph. D. in 1970. It is also a tribute to the 6022 graduates and to the 7835 students currently enrolled at Nova who have followed in their footsteps. Nova University can now boast of having distinguished graduates who live and contribute to their professions in 36 states, the District of Columbia and Puerto Rico, and in eight foreign countries.

This year, Nova University will reach another milestone through the efforts and commitment of literally thousands of people, every one of them a special individual who has made a unique contribution.

Abraham S. Fischler, President

In its fifteenth year, Nova University honors its first graduates.

Earl F. Hughes, Ph.D., Nova University, 1970. Dr. Hughes is an Associate Professor of Psychology and Director of the Ph. D. Program in Research and Evaluation at Nova University. His specialty is program evaluation and he has been actively involved with evaluating Nova's clinics, several grants and academic programs. He also consults as an evaluator and has published in professional journals.

T. Robert Kendall, Ph.D., Nova University, 1970. Dr. Kendall is currently Senior Ocean Engineer, Interstate Electronics, Anaheim, California. He is the author of the textbook *Photographs Underwater*. He has recently returned from an assignment on an exploratory drilling ship in the Far East.

Marilyn M. Segal, Ph.D., Nova University, 1970. Dr. Segal is currently Professor of Psychology and the Director of the Institute of Child Center Education at Nova. Recognized as an expert in child development, she has published books and articles on early childhood, secured and directed various grants working with parents and children, and has consulted widely. She also serves on many community boards and advisory groups.

Clarice Moreth Yentsch, Ph.D., Nova University, 1970. Dr. Yentsch is a Research Scientist with Bigelow Laboratory for Ocean Sciences, West Boothbay Harbor, Maine. She is a member of the Steering Committee, Second International Conference on Toxic Dinoflagellate Blooms.

Michael Yost, Jr., Ph.D., Nova University, 1970. Dr. Yost is an Associate Professor in the Department of Education of Trinity University, San Antonio, Texas. In addition to his faculty status, Dr. Yost serves as an educational consultant.

ACADEMIC NOTES

The caps, gowns and hoods of the academic procession date back to the Middle Ages, when they were common dress for scholars. Monks and students wore them to keep warm in the damp and drafty twelfth-century castles and halls of learning.

The Bachelor's gown has a pleated front and long, pointed sleeves. The Master's gown, which may be worn open, is distinguished by its long, square sleeves, closed at the end and slit near the elbow to permit the forearms to come through. The Doctor's gown, which also may be worn open, is trimmed with velvet panels down the front, with three velvet bars on its bell-shaped sleeves. The hood is the key to the costume. With a tassel of the same material as the gown, it is lined in silk with a color or colors of the institution conferring the degree. The length of the hood indicates the degree: four feet for the Doctor, three-and-a-half feet for the Master, and three feet for the Bachelor. The hood is sometimes omitted on the Bachelor's gown. The width of the velvet border also indicates a degree. The widest border belongs to the Doctor's gown.

The color of the hood's border indicates the field of learning to which the degree pertains. The doctor's hood may bear a single chevron on the lining. Two narrow chevrons indicate a Bachelor while the Master may have a single chevron, or have the hood divided equally in two colors.

The various fields of learning are indicated by color as follows: arts, letters, humanities—white; commerce and accountancy—drab; economics—copper; education or pedagogy—light blue; engineering—orange; fine arts, including architecture—brown; law—pale blue; library science—lemon; medicine—green; philosophy—dark blue; science—golden yellow.

During the processional, candidates for the Bachelor's Degree wear the tassels on their mortarboard hats on their right. Upon receiving their diplomas, the tassels are moved to the left.
