Main Campus Map & Directions

From I-95 or Florida’s Turnpike
Exit at I-595, proceed west to University Drive exit. Turn left (south) onto University Drive. Proceed approximately 1 ½ miles to SW 30 Street (Abe Fischler Blvd.), turn left (east). NSU’s main campus will be on the right side.

From University Drive
From North of I-595
Take University Drive south 1 ½ miles past I-595 to SW 30 Street (Abe Fischler Blvd.). Turn left (east). NSU’s main campus will be on the right side.

From South of Griffin Road
Take University Drive north approximately 2 miles past Griffin Road to SW 30 Street (Abe Fischler Blvd.). Turn right (east). NSU’s main campus will be on the right side.

From I-75
From Miami heading north or west coast/Naples heading east
Merge onto I-595 eastbound (towards Fort Lauderdale). Exit at University Drive exit, turn right (south). Proceed approximately 1 ½ miles on University Drive to SW 30 Street (Abe Fischler Blvd.), turn left (east). NSU’s main campus will be on the right side.
Message from the Chancellor

In 1964, a progressive group of men and women united to establish an academic institution that would break new ground in educational excellence and community service. Through the years, the pioneering spirit of those founders has remained strong within the university. Today, Nova Southeastern University enters its 46th year of existence from a position of strength as the nation's seventh largest, not-for-profit, independent institution of higher education, with more than 127,000 alumni and more than 29,000 students enrolled in classes.

Since I began my tenure as president of Nova Southeastern University more than 12 years ago, through my recent appointment as Chancellor, we have remained steadfast in our goal: to continue to develop and refine quality educational programs that prepare students for leadership positions and the emerging challenges of the 21st century.

With the incredible personal attention and intimate class sizes of a small, private college, and the powerful academic resources of a well-rounded university, NSU helps students explore an almost limitless range of career paths. We offer more than 40 undergraduate programs, encompassing everything from arts and sciences, education, and the health professions to business.

NSU has always been an academic innovator. Our Dual Admission Program allows qualified students to reserve a seat in one of NSU's graduate schools while working on their undergraduate degrees. And our Honors Program provides a highly personalized and intensely engaging learning environment for NSU's best and brightest.

NSU's reputation was built on the strength of our graduate and professional programs. The university confers master's and doctoral degrees in a wide range of fields, and our graduate school facilities rank among the finest in the world.

This is an especially exciting time for our university, as many of the dreams and projects we have envisioned have become reality. In August 2007, The Commons, a new 525-bed residence hall opened its doors to undergraduate students. This year, the Rolling Hills Residence Hall, which houses students in our graduate and professional schools, became a reality in 2009.

The Don Taft University Center, which opened in 2006, is home to our NCAA Division II athletic teams; a wellness and fitness center for students to enjoy; NSU’s student union and community center; and finally, the new Performing and Visual Arts Wing. This multi-use facility has redefined NSU's relationship with our students, distinguished faculty, the NSU administration and staff, and the South Florida community at-large.
The Alvin Sherman Library, Research, and Information Technology Center, a state-of-the-art joint-use facility located on our campus, is Florida’s largest library and recently celebrated its sixth anniversary. With its high-tech capabilities and its versatility as an educational, research-oriented, and cultural hub, this library has brought NSU and the community to a whole new level of excellence.

As an institution of higher learning, NSU strives to be a valuable part of the communities we serve. In addition to career-specific technical knowledge and skills, we work to instill the qualities of compassion, dedication to service, and commitment to community in all of our students.

Everyone associated with this university can take pride in the excellence we have achieved thus far and look forward to a very exciting future. While we have done so much so quickly, we are still young and growing. We continue to seek and implement ways to better ourselves every day. And we aim to surpass even our own high standards of excellence in academics, research, technology, and community service. Excellence is our standard.

Ray Ferrero, Jr., J.D.
Chancellor
Welcome to the Graduate School of Humanities and Social Sciences at Nova Southeastern University (NSU)!

SHSS has distinguished itself nationally and internationally through its academic programs and community initiatives. We are committed to academic excellence, diversity, learner-centeredness, social justice, and reflective practice.

It is exciting that we have come together with colleagues, students and alumni from the Center for Psychological Studies (CPS), the Mailman Segal Institute (MSI), and the Criminal Justice Institute (http://www.cji.nova.edu/). By partnering with CJI, CPS, and MSI, there will be more collaborative opportunities for cross-disciplinary learning, research and practice. Understanding and betterment of human social relations is a central theme of our multidisciplinary, multi-professional, and multicultural endeavors. Our vigorous curricula have deep interdisciplinary roots. Our cutting-edge programs employ a variety of innovative technologies. In the course of addressing human challenges and social issues as an inclusive learning community, we are building up a creative bridge between theory, practice, and research drawn from different social sciences, humanities, and helping professions. We are looking forward to working with you closely on-campus, online, and in the communities. Good luck with your graduate studies and your promising careers!

Honggang Yang, Ph.D.
Dean and Professor

Nova Southeastern University, a private, not-for-profit institution, offers a diverse array of innovative academic programs at the undergraduate, graduate, and professional levels, complementing on-campus educational opportunities and resources with accessible distance learning programs, and fostering intellectual inquiry, leadership, and commitment to community through engagement of students and faculty members in a dynamic, life-long learning environment.

**NSU Philosophy/Mission**

We, at the Graduate School of Humanities and Social Sciences, apply a holistic, relational perspective to the challenges facing individuals, families, organizations, communities, and nations. With an interdisciplinary sensibility and a commitment to individual and social integrity, we seek collaborative, creative, and equitable means for resolving human problems. Our unique and talented students learn to become reflective scholars and ethical practitioners – professionals with a critical understanding of theory and method, as well as an appreciation of the diversity, responsibility, and privilege inherent in co-creating peaceful change.

**SHSS Mission Statement**
NOTICE OF NONDISCRIMINATION

Consistent with all federal and state laws, rules, regulations, and/or local ordinances (e.g., Title VII, Title VI, Title III, Rehab Act, ADA, Title IX), it is the policy of Nova Southeastern University not to engage in discrimination or harassment against any individuals because of race, color, religion or creed, sex, pregnancy status, national or ethnic origin, nondisqualifying disability, age, ancestry, marital status, sexual orientation, unfavorable discharge from the military, status as a disabled veteran, or political beliefs and to comply with all federal and state nondiscrimination, equal opportunity, and affirmative action laws, orders, and regulations.

This nondiscrimination policy applies to admissions, enrollment scholarships and loan programs, athletics, employment, and access to and treatment in all university centers, programs, and activities. NSU admits students of any race, color, religion or creed, sex, pregnancy status, national or ethnic origin, nondisqualifying disability, age, ancestry, marital status, sexual orientation, unfavorable discharge from the military, status as a disabled veteran, or political beliefs to all the rights, privileges, programs, and activities generally accorded or made available to students at NSU, and does not discriminate in the administration of its educational policies, admission policies, scholarship and loan programs, and athletic and other school-administered programs.

ACCRREDITATION

Nova Southeastern University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097: Telephone number 404-679-4501) to award bachelor’s, master’s, educational specialist, and doctoral degrees.

STUDENT RIGHTS AND RESPONSIBILITIES

All students admitted to NSU programs must be knowledgeable of, and abide by university policies and procedures. Students can access the NSU Student Handbook at: http://www.nova.edu/cwis/studentaffairs/forms/ustudenthandbook.pdf
About SHSS

At the SHSS, we focus on teaching, mentoring, researching, and applying interdisciplinary theories and creative methodologies to improve human living and social relations. We offer the following graduate and postgraduate programs:

Residential Programs
- Ph.D. in Conflict Analysis & Resolution (82 credits)
- Ph.D. in Family Therapy (96 credits)
- Doctorate in Marriage and Family Therapy (DMFT) (96 credits)
- M.S. in Family Therapy (48 credits)
- M.S. in College Student Affairs (45 credits)
- M.S. in Conflict Analysis & Resolution (45 credits)
- M.A. in Cross-disciplinary Studies (33 credits)
- Graduate Certificate in College Student Personnel Administration (24 credits)
- Graduate Certificate in Conflict Analysis & Resolution (24 credits)
- Graduate Certificate in Peace Studies (24 credits)
- Graduate Certificate in Health Care Conflict Resolution (24 credits)
- Graduate Certificate in Family Systems Health Care (24 credits)
- Graduate Certificate in Family Studies (24 credits)
- Graduate Certificate in Advanced Family Systems (24 credits)

Distance Learning Programs
- Ph.D. in Conflict Analysis & Resolution (82 credits)
- M.S. in College Student Affairs (45 credits)
- M.S. in Conflict Analysis & Resolution (45 credits)
- M.A. in Cross-disciplinary Studies (33 credits)
- Graduate Certificate in College Student Personnel Administration (24 credits)
- Graduate Certificate in Conflict Analysis & Resolution (24 credits)
- Graduate Certificate in Peace Studies (24 credits)
- Graduate Certificate in Health Care Conflict Resolution (24 credits)
- Graduate Certificate in Family Systems Health Care (24 credits)
- Graduate Certificate in Family Ministry (24 credits)
- Graduate Certificate Program in Qualitative Research (18 credits)

New Program:
- M.S. in National Security Affairs (33 credits) commencing in 2011 Please Note: This program is pending review and approval by the Southern Association of Colleges and Schools.

Graduate Minors (12 credits)
- Conflict Resolution Studies
- Family Systems

Dual Degree Programs
- M.S. in Conflict Analysis & Resolution/J.D.
- Ph.D. in Conflict Analysis & Resolution/J.D. The Criminal Justice Institute (CJI) offers an M.S. in Criminal Justice. CJI students can pursue the following concentration tracks offered through SHSS: Community Solutions and Partnership, or Conflict and Crisis Management. Please visit http://www.cji.nova.edu/ for more information.

- Summer Term ends
Tuition and Fees

2010 - 2011 Tuition and Fee Schedule

Tuition:
- Doctoral Programs: $800 per credit
- Master's and Graduate Certificate Programs: $570 per credit

Fees:
- Registration Fee: $25 per term
- Student Activity Fee: $250 per term for students enrolled in 4 or more credits. $125 per term for students enrolled in fewer than 4 credits.

Admissions, Enrollment, and Orientation

Instructions for applying to our programs are detailed in our application packet available at http://shss.nova.edu/Downloads/pros_student_downloads.htm. Students are admitted for the Fall, Winter, and Summer terms.

Admissions Criteria
Specific degree and program admissions criteria are described below. All SHSS programs require that students have a willingness to be tolerant, nonjudgmental, and open-minded towards different types of people, as well as the ability to show compassion and fairness in challenging situations.

Doctoral Programs
SHSS accepts applications to the doctoral programs from any person who possesses, or is in the process of completing a master’s degree from a regionally accredited university. Doctoral applicants should have a minimum GPA of 3.5 in their master’s program. Applicants must possess a master’s degree before beginning doctoral studies.

Applicants chosen for admission to the Ph.D. program in Conflict Analysis and Resolution demonstrate not only prior academic excellence in their undergraduate and graduate work, but also the ability to think and write analytically, communicate respectfully, as well as eagerness to explore the theory and philosophy of conflict, justice, equity, and nonviolence. Ph.D. applicants should also have some practice, teaching, or training experience; strong written and verbal communication skills; some research or evaluation experience; and a demonstrated commitment to the focused pursuit of a doctoral degree program.

The Department of Family Therapy faculty carefully consider a number of factors when choosing applicants for the Ph.D. and DMFT programs including: knowledge of systemic theory as it relates to various approaches of family therapy, level of prior clinical experience, evidence of commitment to advanced graduate training in the social sciences, interpersonal style, prior graduate GPA, and professional English writing skills.

Master's and Graduate Certificate Programs
SHSS accepts applications to the Master's and Graduate Certificate programs from any person who possesses, or is the process of completing a bachelor's degree from a regionally accredited university. Master’s and Graduate Certificate applicants should have a minimum GPA of 3.0 in their bachelor’s program. Applicants must complete all bachelor’s degree requirements before beginning graduate studies.
Criteria for acceptance into the M.S. and Graduate Certificate programs in Conflict Analysis & Resolution include high-level undergraduate academic performance and/or relevant current working experience; a life passion or practical interest in using skills and theories in specific settings after graduation; the ability to think clearly in challenging interactions; tolerant, nonjudgmental attitudes and open-mindedness toward different types of people; and the ability to combine assessment skills with compassion and fairness.

Criteria for acceptance into the M.S. in Family Therapy include a major emphasis on applicants who are familiar with and interested in learning systemic theories and therapies. They also attend to applicants’ comfort with cultural and sexual diversity and their ability to connect to people in crisis. Applicants who demonstrate significant ability to listen to others, engage in conversation, and learn from dialogue will be best prepared for admission. The admissions essay must include specific citations of family therapy literature to provide a rationale for the applicant’s decision to pursue a career in marriage and family therapy.

Criteria for acceptance to the Master’s program in Cross-disciplinary Studies include a solid undergraduate academic performance, and the desire to engage in a self-designed curriculum in more than one discipline. They should possess an intellectual curiosity and open-mindedness toward different types of people and perspectives.

Criteria for acceptance into the M.S. and Graduate Certificate programs in College Student Affairs include high-level undergraduate academic performance and/or relevant current working experience; a life passion or practical interest in using skills and theories in college and university settings after graduation; the ability to think clearly in challenging interactions; tolerant, nonjudgmental attitudes and open-mindedness toward different types of people; and the ability to combine assessment skills with compassion and fairness.

Non-degree Seeking Students
SHSS accepts applications for non-degree seeking students from any person who possesses a bachelor’s degree or is waiting for their degree to be conferred from a regionally accredited university. Non-degree seeking students may take up to three classes (9 credits). These credits may transfer into an SHSS degree program. If a non-degree seeking students wishes to enter a degree program, s/he must formally apply to the program of interest.

Please visit http://shss.nova.edu/Downloads/PDF/all/nondegreeapplication.pdf to download an application.

Graduate Minors
SHSS accepts applications for Graduate Minors from any NSU graduate student in good academic standing. Students applying for a graduate minor need only to submit a cover letter requesting admission to the graduate minor program. The graduate minor applicants should have a minimum GPA of 3.0 in their major graduate program.

Please visit http://shss.nova.edu/Downloads/applications.htm for an application.

Orientation
On-campus students receive a one day orientation at the beginning of the fall term. At that time, students meet the faculty, talk with their faculty advisor, attend computer workshops, library training, and participate in various student activities. New student orientation is intended to provide information, answer questions, and welcome students to the SHSS learning community. There are also online orientation training and materials available.
ABOUT OUR PROGRAM FORMATS

Residential Programs
All residential programs offered through SHSS are scheduled at times convenient for most working adults. All courses are held Monday through Thursday on NSU's Main Campus.

Classes in Conflict Analysis & Resolution are scheduled in the evening, 6:00 P.M. – 9:00 P.M. Full-time students attend classes three evenings per week; part-time students attend classes two evenings per week. Occasionally, courses can be taken online.

Classes in Family Therapy are scheduled 3:00 P.M. - 6:00 P.M. and 6:00 P.M. – 9:00 P.M. Students can often complete course requirements by attending classes two days per week.

Classes in the Master of Arts in Cross-disciplinary Studies program vary based on the department in which they are offered. Those required courses are offered residentially generally in the evening from 6:00 P.M.-9:00 P.M. and online. Courses available in the department and from DFT and DCAR are offered at the times mentioned above.

Classes in College Student Affairs are scheduled in the evening, 6:00 P.M. – 9:00 P.M. Full-time students attend classes three evenings per week; part-time students attend classes two evenings per week. All courses are offered residentially and online.

The Main Campus houses a full range of student support services including the Alvin Sherman Library, Research, and Information Technology Center. NSU’s computer labs provide students services to write papers, use email, and conduct research via the Internet. For more information, visit the website at http://microweb.nova.edu/.

Distance Learning Programs
The SHSS distance learning programs employ an optimal combination of dynamic learning models and flexible interactive media. Students can participate in courses via the Internet from anywhere in the world. Students are provided NSU computer accounts but must obtain their own Internet service providers.

Online DCAR and CSA students are required to attend two Residential Institutes (RIs) per academic year, each five days long. Students in MACS who take online classes in mediation and facilitation are required to attend those sessions at RI. Currently, the RIs are held in February and October. The RI helps online students build a learning community. During the RIs, students participate in experiential exercises, role-plays, group simulations, guest speaker presentations, panel discussions, career development seminars, poster presentations, social events, and much more. There is also time allotted for faculty advising and student academic reviews.

Online media and interactive methods are used throughout the instructional sequence, such as WebCT, distance library services, electronic library, plus a range of online activities that facilitate frequent student to faculty, and student to student interaction. Online activities include real-time and/or asynchronized forums using threaded bulletin boards, chatrooms, email, and electronic classroom sessions. NSU offers extensive distance and electronic library services. For more information, visit the website at http://www.nova.edu/library/.
ABOUT OUR INTERDISCIPLINARY FIELDS OF STUDY

Conflict Analysis & Resolution
The Department of Conflict Analysis & Resolution (DCAR) is committed to academic excellence, cultural diversity, social responsibility, and reflective practice in the fields of peacemaking and conflict resolution. We focus on the study, practice, and research of conflict resolution to support improved social relations among individuals, groups, organizations, and nations. The department explores a variety of conflict resolution methods, wherein parties achieve constructive agreements based on the principles of nonviolence, equity, dignity, and appreciation for human diversity. The department serves as an academic catalyst for applied research, theoretical development, and the use of culturally informed techniques in cross-cultural applications of conflict assessment and intervention. We take a learner-centered approach to the study of peacemaking and conflict resolution, and encourage mid-career learners to define and shape their intellectual and practice paths in a creative, rigorous, and structured fashion. The academic environment in the department is interdisciplinary, dynamic, and innovative, utilizing faculty expertise, student experience, learning technologies, and practitioners who are knowledgeable in conflict resolution skills and techniques.

Family Therapy
The Department of Family Therapy (DFT) is committed to creating top quality graduates who possess expertise in the art and science of human relationships. All faculty and staff are committed to creating an environment that allows for positive, respectful, and collaborative relationships with our students. Within such an atmosphere, students learn to manage human relationships in a variety of contexts, which include psychotherapy, health care, social service, education, community, and business. The department is committed to both academic and clinical excellence. Students receive closely supervised clinical experience at our own family therapy clinic and additional “real life” clinical experiences off campus at a variety of community based internship sites. A major focus of the program is helping students learn to integrate systemically oriented theories with effective approaches to clinical practice. This integration involves the proactive involvement of faculty with students in co-creating an environment of intellectual openness and curiosity. We are proud to have a diverse student body to go along with a broad range of active faculty interests. These mutually renewing intellectual resources create a learning community of constant excitement and innovation.

Multidisciplinary Studies
The Department of Multidisciplinary Studies (DMS) is committed to creating self-reflective, critical thinkers who possess the ability to recognize and understand multiple perspectives and who seek unique and thoughtful ways to address social issues and concerns. DMS strives to meet the needs of students in the current workplace environment by providing opportunities to explore interests and topics across disciplines and professions. The department places an emphasis on critical thinking, analysis, and writing. DMS has a Master of Arts in Cross-disciplinary Studies (MACS) and a Master of Science in College Student Affairs (CSA). The department also has a Graduate Certificate in College Student Personnel Administration and a Graduate Certificate in Qualitative Research.
In 2011 a new program, a Master of Science in National Security Affairs (NSA) will be offered. **Please Note:** This program is pending review and approval by the Southern Association of Colleges and Schools.

**Cross-disciplinary Studies**
The M.A. in Cross-disciplinary Studies (MACS) is multidisciplinary, experiential, and allows students to self-design their graduate studies. The program is designed to meet the needs of students who are seeking a broader learning forum and who appreciate the unique self-design of cross-disciplinary studies. MACS provides intellectual advancement and the opportunity to expand and enrich educational horizons in keeping with the liberal studies traditions. The program utilizes a multidisciplinary approach and variety of perspectives for observing, analyzing, and addressing contemporary social issues. Students focus on systemic approaches and methodologies when studying human challenges. MACS utilizes experiential learning to provide students with hands-on training where theory and practice are integrated.

**College Student Affairs**
The M.S. in College Student Affairs (CSA) prepares students for many professions related to Student Affairs in college, university, and community settings. CSA focuses on training Student Affairs professionals who take a humanistic, learner-centered approach in their work as change agents within a university and the larger society. The program explores important topics in the field of Student Affairs such as diversity, student development, student leadership, student support systems, student services, conflict management and resolution, judicial affairs, administration, on-campus and campus life, Greek affairs, peer counseling, and crisis intervention, to name a few. Students examine the current trends and historical approaches in higher education, as well as future needs for effective student affairs practices in the 21st century. In addition, students explore social and cultural issues that impact diverse populations and international students.
Ph.D. in Conflict Analysis & Resolution

Program Description
The Ph.D. program in Conflict Analysis & Resolution trains students in the skills and techniques of practice, interdisciplinary research, policy and program development, historical critique, cultural analysis, and theoretical foundations of the field. The mission of the doctoral program is to advance the study and practice of conflict analysis and resolution by mentoring and developing practitioners trained in theory, practice, research, teaching, and informed leadership in the field. Students pursue an in-depth study in the field of conflict resolution while drawing from a variety of theoretical perspectives and the knowledge of an experienced, interdisciplinary faculty.

The 82-credit-hour degree program is designed to prepare graduate students for careers as advanced practitioners, college and university educators, researchers, theoreticians, consultants, program evaluators, and organization administrators. The Ph.D. program is offered in both residential and distance learning formats. These flexible formats allow mid-career working adults and those unable to attend the residential program, to study conflict resolution in a creative, rigorous, and structured fashion. The distance learning Ph.D. program is the only one in the fields of peacemaking and conflict resolution. Students enrolled in the distance learning program participate in Residential Institutes on the main campus twice per year, as well as online Web-based courses.

The Ph.D. program focuses on improving skills for reflective practice, understanding and mastering qualitative and quantitative research knowledge and analysis, developing professional leadership skills, and producing publications of quality and substance.

In addition to core courses, students pursue concentrations in the following areas:
- Conflict & Crisis Management
- Culture and Ethnic Conflict
- International Peace and Conflict
- Conflict in Organizations and Schools

Program Formats
The PhD program is offered in both residential and distance learning formats. These flexible formats allow mid-career working adults and those unable to attend the residential program, to study conflict resolution in a creative, rigorous, and structured fashion. Students enrolled in the distance learning program participate in Residential Institutes on the main campus twice per year, as well as online Web-based courses.

Students may enroll full or part time, taking six to nine credit hours per term. Students who attend full-time can expect to complete the program in 19 months. Part-time students will complete the program in 2 ½ years. Summer attendance is mandatory.

Students taking distance learning classes are required to attend two Residential Institutes (RI) per academic year. Each RI is 5 days. Currently the RIs are held in February and October. Please visit http://shss.nova.edu/RI for current information. New students may have an additional day at RI for the Graduate Student Seminar.
Faculty Mentors
Each student upon enrollment in the program will be assigned a faculty mentor. The mentor acts as a guide to the student in terms of selection of electives and professional planning. The mentor should also be consulted for guidance in the event the student experiences difficulty in the program. After the student has been taking classes in the department, he/she may ask to be assigned to any other DCAR faculty member as a new mentor. This request should be made to the Program Coordinator. The Program Coordinator will attempt to honor the student’s request to the extent possible while striving to maintain a consistent ratio between students and mentors.

Student Advising
A student who wishes to seek advising regarding course selection or degree plan should consult with the Program Coordinator or the Practicum Coordinator. In addition to coordinating students’ practicum experience, the Practicum Coordinator maintains and updates degree plans.

Degree Plans
Below is a sample of a degree plan for a full-time student who begins their studies in Fall term. Degree plans will be modified based on a student’s enrollment date and pace of study.

Degree Plan: 82 credits hours

**Program Specifics**

**Practicum**

To complete the Ph.D in Conflict Analysis & Resolution, students must complete a total of 130 hours of practicum. Students are responsible for documenting their practicum hours, and must have these hours verified and signed by their on-site supervisor. The practicum experience is designed to provide students with an experiential opportunity to utilize conflict resolution methodology and theory within a diversity of professional settings. Students will have the opportunity to apply theoretical concepts within a practical framework.

Practicum I and II provide a community placement for the student to develop and refine practitioner skills. Using the Practicum experience, students have the opportunity to apply theoretical concepts within a practical framework under the supervision of an on-site supervisor. The Practicum Coordinator will work with students to establish a placement suited to their interests, if possible.

Practicum placements have been established in an array of settings, such as schools, prisons, court systems, parks, human services agencies, community organizations and corporations. Additionally, students are encouraged to explore and initiate a Practicum setting specific to their own individual interests. If a student finds an appropriate site, the Practicum Director will assist the student in calling the site and negotiating for a placement.

Additionally, the student will attend a Practicum class with course work and faculty supervision. The student must receive contractual approval from both the Practicum Director and the agency on-site supervisor before beginning the required Practicum hours. The student is responsible for documenting Practicum hours and receiving supervisor approval. The practice component of the student's Practicum is evaluated by the on-site supervisor each term; this evaluation is combined with the classroom performance and course requirements and converted into a final overall grade by the professor teaching the course.

Students are automatically covered by professional liability insurance provided by the University during their Practicum practice. This covers mediation and other specific activities.

Please consult the Department Chair and the Practicum Coordinator for detailed information. During each term and at every Residential Institute, one or more Practicum Advising sessions are scheduled. Students who have not yet registered for practicum courses are encouraged to attend one or more sessions. Students may also seek individual in-person or telephonic appointments with the Practicum Coordinator for assistance with practicum placements.
Please visit http://shss.nova.edu/Downloads/car.htm for the Practicum Handbook and forms.

**Examinations and Evaluations**

There are two program evaluations that students must pass in the course of their doctoral studies. Each is described in detail below.

**I. Preliminary Review**

The Preliminary Review takes place after students’ second term if full time, or after an accumulation of at least 12-15 credits if part time. In advance of the preliminary review, faculty meets to discuss student progress and evaluate students for continuance in the doctoral program. The materials used for this examination will be the faculty assessments of written course work and grade summary (supplied to the faculty by the staff) and a three- to five-page (double-spaced) self-evaluation submitted by the student at least one week in advance of the preliminary review meeting. This self-evaluation is designed to provide an in-depth accounting of the student’s accomplishments and difficulties in the practice and academic areas of the program and a clear indication of plans for the forthcoming academic year. It must be typewritten and free of errors.

The preliminary review meeting is an approximately 30 minute discussion between the student and one or two faculty members. Successes and challenges will be discussed. During these discussions faculty will review grades and any other relevant behavioral or performance based issues related to all students in consultation with the administrative staff. The focus of the preliminary review will require the student to present arguments, class materials, evaluations, papers, and any other relevant material in support of their continuance in the doctoral program. Students should come prepared to discuss what they have learned, how they are applying it in their work, dissertation preparation or relevant practice areas.

Students with a “C” in any class during the first year will remain on preliminary review status, and may be required to take additional classes such as writing or ESL, obtain a tutor, or take other remedial action. They must also work with the faculty to demonstrate evidence of progressive improvement during each successive term. Students with serious academic issues such as academic probation based on grades, poor writing, poor attendance or other serious issues, may be academically dismissed from the doctoral program as a result of this preliminary review.

Students who have shown disruptive, hostile, dangerous or other questionable behavior during the first year will be confidentially counseled by their advisor, the department Chair, the Senior Director of Student Affairs, additional faculty as appropriate, and any other person deemed to be relevant to the discussion. This process may be initiated at any time, as needed. It need not wait until the preliminary review process.

Following the meeting, the review committee will make one of the following recommendations to the faculty as a whole:

a) Pass review, effective immediately.

b) Pass review, with faculty recommendations for changes.

**Please Note:** In order to obtain one of these recommendations, all grades must be B or higher, with no grades of incomplete. Courses with a grade C may have to be retaken, pending the recommendation of the committee.
c) Repeat Preliminary Review, with continued enrollment contingent on the student satisfying one or more specified criteria in the course of a specified amount of time.
d) Dismissal from doctoral program.

II. Qualifying Exam
The qualifying examination is a written examination given after students have completed all the required course work, and before beginning dissertation hours. Successful completion of the qualifying examination is required to move to advanced standing and begin dissertation research. Doctoral Seminar, a one credit course offered in September and January help students prepare for the exam. In addition, some students find it helpful to form study groups. Students are encouraged to begin to prepare for the exam well in advance and to seek the guidance of their faculty mentor or proposed dissertation chair.

Qualifying exams are given two times per academic year, in January and June. The exam is available on-line and takes place over three weekdays, with one section per day. Students may take the examination on NSU’s campus or anywhere else of their choosing. During each of the three days, students will be able to access the exam at a specific time and their answers will be due twenty-four hours later. Students may use whatever materials they choose, but are expected to work alone. They are expected to write the exam answers in their own words and to use appropriate citations when applicable. Exam answers will be submitted to Turnitin.com to check for proper citation.

The qualifying examination takes place over three days. The content areas covered during the qualifying exam are divided into three major categories:

- Theory (day one)
- Practice (day two)
- Research and methodology (day three)

Please visit [http://shss.nova.edu/Downloads/car.htm](http://shss.nova.edu/Downloads/car.htm) to view practice questions for the qualifying examination.

Two faculty members grade each question. Students are assigned an examination number. Thus, faculty members do not know whose answers they are reviewing. Students’ answers are evaluated on the substantive content, logical and coherent style, and relevant use of class and other academic material. Both reviewers must award a passing grade, in order for it to be deemed that the student passed each section. If one reviewer submits a passing grade and the other submits a failing grade, they will be asked to confer. If they subsequently concur, then the grade has been determined. If they do not agree, the chair shall appoint a third reviewer. The third reviewer’s grade shall determine whether the student has passed or failed the section. Students may take the entire examination, or the parts that were failed a maximum of three times. However, students will be required to prepare and wait until the next examination is offered.

Following failure of a section or the entire exam, faculty may require that a student re-take a particular class, prepare a special written assignment, or other remedial tasks before the exam can be taken for the second time. After three consecutive failures, the student will be dismissed from the doctoral program.
Following the successful completion of the qualifying examination, students register for dissertation credits and work on their dissertation proposal.

**Dissertation**

**Dissertation Chairs and Committees**

A dissertation committee for all on-campus and online students will be composed of three members. At least two members must come from the DCAR faculty. One committee member from outside DCAR can serve on the dissertation committee, with the approval of the committee chair and the department chair. The dissertation chair needs to be a member of the DCAR faculty. A student may have more than one outside member if methodological or substantive topical issues make such membership advisable. All members who are not DCAR faculty must have an earned doctorate degree (e.g., Ph.D., Psy.D., Ed.D., D.P.A.), and must provide copies of their credentials to the department. Dissertation committee members may not be from among the student’s family members or close friends.

**Dissertation Process and Components**

After students pass the qualifying examination, they then register for dissertation credits and are considered to be in dissertation status. At that time they formally work with their chair and committee on their dissertation proposal. In order to be registered for dissertation credits, a student must have handed in the appropriate forms to the Program Coordinator, including the chair selection form. These forms are available online in the Student Resources pages.

Prior to passing the exam, the department does permit students in good standing who have accrued at least 45 doctoral credits, to begin the process of selecting a committee. Students should begin by speaking with faculty members about the possibility of serving as their dissertation committee chair. Once a chair has been selected, the chair will guide the student in selecting other committee members. Prior to being registered for dissertation credits, the role of the chair and the committee is to provide guidance to the student in their selection of elective courses, research, and to guide them in their preparation for the qualifying exam. The chair and committee will direct the student in the appropriate readings necessary for the development of their literature review. The dissertation chair will also automatically become the student’s faculty mentor.

**Registering for Dissertation**

Students are required to complete 12 credits of dissertation. With the dissertation Chair’s approval, the department registers dissertation students for three credits per term. If a student is still in progress after 12 credits, the department registers the student for 1 credit per term until the dissertation defense is approved. If, for some reason, the student cannot continue working on their dissertation, they must apply in writing for a leave of absence. If they request a leave for longer than a term, it may not be possible, upon their return, to continue with their original dissertation chair.

**Dissertation Proposal**

The dissertation proposal will be defended by the doctoral candidate before their full dissertation committee. All committee members must agree that the proposal is ready for defense before the defense can be scheduled. Proposal defenses may be performed using any appropriate and relevant technology, depending on the location of committee members, and the student. The student is permitted to defend their proposal by being present at SHSS in person, or via telephone or video conferencing. For the final dissertation defense, students are expected to be present at SHSS.
Length: The dissertation proposal will be 20-25 pages

Sections: Section order may vary, and individual students will make these decisions in consultation with their full dissertation committee. The following is a brief synopsis of what is expected in each section of the dissertation proposal:

(1) Abstract:
A succinct summary of the proposed study usually no longer than 5% of the total length of the narrative (e.g., if proposal is 5000 words – then abstract will not exceed 250 words). This section should highlight topic; major theories/concepts to be explored; proposed research questions/hypotheses, if qualitative study – tradition/genre; methods – sample, instruments, procedures; proposed data analysis methods; expected contribution to field (theoretical, praxis, methodology)

(2) Introduction:
Justification section (~ 2 pages). The first section of your prospectus concerns a justification for a program of research. It also offers the context or background to the study. The topic can concern a domain of behavior, a theory, or an important concept/phenomenon to be researched. The objective of this section is to offer a clear rationale for why the topic merits exploration over time in a sustained and systematic manner. Good reasons include social needs, cultural needs, introduction of a concept that is valuable for research, advancement of the field (That something has been understudied is not by itself a good reason.) Make certain to define relevant terms as necessary.

Goals: (~1-2 pages). The second section of the introduction should outline several goals that the student will accomplish in his or her research. The student should underscore why these goals are important as well. The student should begin by stating, "The first goal of this research is..." and so on. There can be a number of goals. There will generally be from 3 to 6 goals. The student should be very specific in outlining what his or her goals are and how they differ from goals underscored in past research.

(3) Literature Review:
Next, the student should present a review of literature and provide arguments for the exploration of research questions and/or hypotheses. The review will be state-of-the-art (that is, completely up-to-date at the time of proposal submission) and focus on the research that the student wishes to propose. Think of this review as a funnel, in which the student begins by broadly discussing the topic, becoming more and more specific and focused as he or she narrows down the idea.

Accordingly, this portion of the paper is not meant to be a review of individual papers. Rather, the review should synthesize what has been done to provide insight into the topic. While the student synthesizes past research he or she should think about building an argument for his or her own research. The student should discuss the strengths and weaknesses of past research while presenting an argument for the research choices. The review of literature should reflect a critical examination (stated explicitly in your paper) of past research.

Hypotheses, research questions, and/or thematic purposes for the paper should be explicitly pointed out in the paper. For example, hypotheses should be numbered systematically (H1, H2, H3, and RQ1, RQ2 and so on) and they should be placed in
appropriate sections of the literature after the student has made a justification for them. If hypothesis or research questions are comparable they may be included in sets such as H1a: H1b or Q1a, Q1b. The student must make sure that he or she builds a good argument in the literature review for his or her questions, hypotheses, or thematic purposes before he or she presents them in this section. The student should provide a couple paragraphs above each hypothesis and/or research question to justify it.

Alternatively, the student can conclude the review of the literature with his or her research questions/hypotheses. The student would then begin this section with a sentence like the following: “Based on the above, the questions that will drive this study are...” After EACH question/hypothesis, the student must present the rationale for choosing the question to study.

(4) Methodology:
Next the student needs to present a description and critical examination of a type(s) of method(s) that have traditionally been used to investigate the topic the student is proposing to research. Here the student should not only discuss what types of methodologies have been used to examine the domain of behavior (or other) in related research, but also critique the strengths and weaknesses of methodologies that have previously been employed. The idea is to make a strong case for one’s methodology. A solid methodology comes from learning about the types of methodologies that have been employed by researchers in previous work related to the topic. It is important that the student not only describes the methodology, but cite specific studies that have applied the methodology. For example, if the student is performing a phenomenological interview he or she should cite studies that have used this methodology and describe them. Students need to be very specific in this section.

Include all of the following relevant sections:
- Sample – what kind of sampling procedure, why chosen, who is in the sample, important selection criteria (e.g. age, gender, ethnicity, life experiences, location, etc.)
- Instruments (data collection methods) – e.g. surveys, semi-structured interviews, participant observations etc. Include information about the reliability/validity if it is known. It is also recommended to include a few sample questions in order to give the reader a sense of the instrument to be used. Explain why these instruments have been chosen – why are they relevant to the study?
- Proposed Process/Procedures – Give as detailed a description as possible concerning how the research will proceed. If this is a quantitative study, include Research Design (e.g. if this is an experiment, what kind; if this is a survey/correlation study – what is the design? Pre/post etc.)
- Proposed data analysis methods – How does one propose to analyze data? Be as specific as possible at this early date to lay out proposed ideas for analyzing raw data. For example, if this is a quantitative study, will analysis of variance be used, factor analysis, etc. If this is a qualitative study, will there be a content and thematic analysis etc. It is also suggested, for qualitative research proposals to provide a short example of how material might be analyzed.

Use the jargon that is specific to the methodology; however be very clear and define the terms you use.

Be very specific in discussing these sections by including a rationale for the choices made. For example, when a person states s/he will involve participants in the study...the immediate question is why? Based on past research and theory, the student should
explain why he or she made the methodological choices you have. Everything must be justified...otherwise it is an opinion, which the student will not be able to defend during a dissertation defense or in a scholarly conference. The most important question that the student needs to address throughout the entire research project is "why." Specifically, why did the student make the choices he or she did? What are the sample, instruments, ideas or data analysis and how does the student support the choices he or she has made. Different criteria are involved with different forms of research, so the student should address these in his or her proposal.

For example, criteria good scholarship in qualitative research includes:

- Confirmability, through the use of pilot tests, reflexive journals and collecting recorded data.
- Trustworthiness: A form of qualitative research validity, whereby research can be verified by participants in the study, other similar research...other examples apply
- Dependability, through the overlap of techniques and a use of an auditor
- Member-checking, in the form of an amendment phase for the participants
- Credibility, in the form of people from diverse backgrounds who are knowledgeable, and researcher’s knowledge regarding the site through prolonged engagement in the field.

There are a number of standards used to evaluate qualitative research. The student should look at some of the following to learn about their options: Altheide & Johnson, 1994; Josselson & Lieblich, 2004; Kleinman, 1991; Kvale, 1996; Lincoln & Guba, 1985; Silverman, 1993; Spradley, 1979.

Criteria for good research in quantitative research (in addition to reliability and validity) include:

- **Explanation:** Can explain why a social phenomenon occurs
- **Predictability:** Can predict social behaviors in the future (however, please bear in mind that social science is very poor at this, as a rule)
- **Control:** Controls for extraneous and intervening variables/artifacts
- **Generalizability:** From the random sample we can generalize to the larger population
- **Falsifiability:** Ability to check whether findings can be falsified.
- **Repliability:** Methodology and data operations are transparent and can be replicated and performed by other researchers (a test for reliability).
- **Validity:** Accuracy, testing for what you want actually mean to test (there are many kinds of validities – please choose the ones relevant to your study)
- **Reliability:** Consistency in the findings & survey responses (there are many strategies for evaluating reliability; please choose the ones relevant to your study)
- **Heuristic:** Research is easy to understand and can be replicated
- **Value neutral:** Researcher does not contaminate the findings, the findings are external to the researcher and need to be objectively uncovered and analyzed

There are criteria for good research in critical research; good research is:

- **Pragmatic:** Practical & relevant to current social concerns
- **In-Depth:** Detail into a topic so that social injustices can be uncovered
- **Culturally appropriate:** Describing cultural concepts accurately according to participant (emic) point of views
- **Creates understanding:** Critical research does not seek to predict, but rather to promote an understanding about a topic concerning a group of people
• **Clarify values:** Reveal what values are held and what has caused these views to be held.

• **Connection with history:** Reveals how history constructs reality, history explains the current social situation, & cannot understand without history

• **Stimulates agreement:** People begin to understand a social issue better

• **Aims to change society:** Promotes change, recognition, and empowerment

• **Improves status quo:** Betterment of lives and standards for particular populations

**Note:** It is important for the student to take these criteria in consideration and discuss them as he or she is designing his or her research. For example, when the student selects an instrument (for quantitative research) in his or her methodology section it is important to report the reliability and validity of it in past research.

**(5) Results or Analysis:**

Here the student will present a thorough description of the types of analysis he or she plans to perform in his or her research. Whether they are qualitative or quantitative analysis, the student should supply the reader with a detailed description of the types of analyses that will be performed. The student should organize this section of the paper around each research question and/or hypothesis. That is each hypothesis or research question should be followed up with a detailed description of the analysis the student plans to perform. Here the student should discuss the ethical issues involved with the research as well.

Alternatively, include this in the above methodological section.

**(6) Ethics and reflexivity section:**

If this is a qualitative or quantitative study, and the student is planning on carrying out a study on human subjects (i.e. the student does not plan on solely focusing on documents, written texts, etc.), the student should explain how to carry out an ethical study – e.g. how will the student assure that no harm will come to your participants as a result of your study; are there potential benefits – if so, what are they; will the participants receive some kind of payment for their participation (if yes, explain what and why this is necessary and how this will not lead to coercion to participate); place of participants in study; their roles in the research etc. If this is a qualitative study, then the student should discuss where he or she is in this research – discuss biases, prejudices, perspectives on life that may impact the work. The student should discuss how he or she plans to address these as the research is carried out. This section, like the above, is very specific to the student’s proposed study.

**(7) Expected contributions of the proposed research:**

The student should present an argument about what he or she expects to find after collecting data and why. Discuss the importance of the research and the expected contributions of the research. For the purpose of the proposal this section should be relatively short since the student will not have collected his or her data; however, in the dissertation project this may very well be one of the longer sections. The student would present a logical summary of why he or she found what he or she found as it relates to past research and according to the links made in the review of literature. Here the student can also include a section that addresses the expected limitations and strengths of the research.

**(8) References** - Use APA or Chicago style. Be uniform in your choice throughout the text and throughout the reference list.
(9) Appendices

In addition to the student's references, the student should include as appendices related materials as appropriate. Examples include the survey instrument (quantitative study) and sample interview questions (qualitative study).

_Students should refer to the Dissertation Guidelines for the format used in writing their dissertation._

---

**Doctorate of Philosophy (Ph.D.) in Family Therapy**

**Mission Statement**

The SHSS Doctorate of Philosophy (Ph.D.) in Family Therapy is committed to academic and clinical innovation and excellence, preparing students to become leaders in therapy, consultation, research, and teaching. In addition, the Ph.D. in Family Therapy offers high quality clinical services to individuals, families, and others in the community. Applying a systemic (holistic and contextual) perspective to our teaching and clinical supervision, we focus on the relational strengths and resources of both students and clients with an appreciation of and respect for diversity and social justice.

**Program Description**

The Ph.D. Program in Family Therapy prepares graduates for careers as professors, researchers, supervisors, and senior clinicians. The Ph.D. in Family Therapy at Nova Southeastern University is fully accredited with the:

Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE) of the American Association for Marriage and Family Therapy (AAMFT)

112 South Alfred, Alexandria, VA 22314-3061
(703) 838-9808; Fax: (703) 838-9805
http://www.aamft.org

The program’s accreditation will be reviewed in 2010.

The Ph.D. in Family Therapy is a 96-credit-hour program designed for individuals holding master’s degrees who wish to fully grasp both the historical as well as cutting edge theory informing the current practice of family therapy. The program is also dedicated to understanding the relationship between theoretical ideas and the variety of established and emerging schools of family therapy. The program is designed to enhance students’ clinical skills in order to make them top level practitioners, while at the same time demonstrating the place of qualitative and quantitative research in this pursuit. Graduates of the program should look forward to productive careers in academic, supervisory, clinic, and community based employment settings.

The Department of Family Therapy has full time faculty and supervisors that represent racial diversity as well as diversity in gender, age, and religion. Our part-time faculty and supervisors include cultural, gender, age, sexual orientation, and religious diversity. The student body of the doctoral program reflects the rich cultural diversity of South Florida as far as race, religion, gender, sexual orientation, and age.
The 96-credit-hour program integrates systemically oriented theory, clinical practice, qualitative, and quantitative research. The core curriculum includes:

- Four courses that explore the clinical contributions of three major systems paradigms: cybernetics, language-based, and natural systems. However, brief, interactional therapies such as MRI (Mental Research Institute), Solution-Focused approaches, Ericksonian hypnotherapy, and the Milan Associates receive the greatest exploration. Therapies based in narrative and intergenerational traditions are also covered.
- Four terms of continuous enrollment in clinical practica at the Brief Therapy Institute (BTI), the on-campus clinical facility. Teams of students (maximum of 6) meet weekly with a faculty member for live supervision of cases throughout the calendar year.
- Four classes in research methods, two quantitative and two qualitative, which provide comprehensive coverage of marriage and family therapy research, statistics, various research methodologies, and computer analysis and interpretation.
- Two theory courses, one devoted to the cybernetic systems ideas of Gregory Bateson, the other to the language-based systems (e.g., social constructionism, feminism, and postmodernism).
- One course in the supervision and teaching of family therapy. This class fulfills the didactic instruction component for AAMFT Approved Supervisor status.
- Clinical Internships designed to provide students with a supervised, full-time experience (at least nine months duration) that emphasizes relationally-focused practice and/or research. The majority of students’ course requirements must be completed before they can start their internship experience. They must also have successfully completed their clinical portfolio.

In keeping with the interdisciplinary philosophy of the School, students have the opportunity to take electives in various specialties, such as Family Systems Health Care. Additional courses may help students fulfill many of the course requirements for licensure in Florida (and other states) as a marriage and family therapist.

A student may choose to take more electives than degree are requirements. Elective courses available to doctoral students within the Family Therapy Department are Couples Therapy, I, and II, Family Business, Organization Consulting, Grief and Loss, Academic Writing, and all courses in the Family Systems Health Care graduate certificate program. Other courses offered within the University may be considered for elective status pending approval by the Program Director.

During the program, students may also fulfill the academic requirements for becoming a Clinical Member and Approved Supervisor in the American Association for Marriage and Family Therapy. The program’s supervision course is approved for meeting the supervision course requirement for AAMFT Approved Supervisors.

**Program Formats**

The Ph.D. in Family Therapy is a four year residential degree program. Full-time enrollment is considered to be nine credit hours for each of the three trimesters. Once students begin their dissertation, they are considered full-time when registered for at least three credit hours per term. Students must continually be enrolled in classes in order to remain in the program. If a student cannot take classes due to unforeseen circumstances, to apply for a Leave of Absence three weeks prior the start of a trimester. A Leave of Absence can be no longer than three trimesters before the student is considered inactive.
**Degree Plan**
A sample degree plan for full-time students who begin their studies in the Fall term can be viewed on the following page. Degree plans are developed during a student’s first term and modified based on a student enrollment date and pace of study.
**Ph.D. Degree Plan: 96 credit hours**

* Courses are prerequisite to the program and not included in the 96 credit hour requirement.

** Portfolio are completed by the end of the third year.

** Electives: SFTD 5311 Substance Abuse/Addictions and Critical Issues in Systems Theory, SFTD 6560 Couples Therapy I, SFTD 6570 School Based Counseling, SFTD 6580 Couples Therapy II, **Elective: SFTD 6630 Grief and Loss, and SHSS 6620 Academic Writing

**Program Specifics**

**Prerequisites**
Before entering the program, all students must document at least two graduate level three-credit-hour courses covering basic family therapy concepts, as well as one course on human development and individual and group psychotherapy. Any student who has not had these courses or their equivalent must initially take and pass, as leveling courses, the following courses in our master’s program:

- SFTD 5008: Introduction to Marital and Family Therapy
- SFTD 5009: Theories of Marital and Family Therapy
- SFTD 7313: Human Development and Individual/Group Psychotherapy

Ph.D. students may also take the following course to meet state licensure requirements
- SFTD 5311: Substance Abuse/Addictions and Critical Issues in Systems Theory

**Leveling courses must be completed prior to being fully admitted into the program.** These credit hours do not count toward the 96 credit hour degree requirement.

Before entering practicum students are required to complete Introduction to Systems Theories, Introduction to Marriage and Family Therapy, and Legal, Ethical, and Professional Issues courses, along with background check, fingerprinting, two HIPAA certificates, CITI: Course in the Protection of Human Subjects, and be fully informed on the policies and procedures at the Family Therapy Clinic. Information on these requirements is part of pre-admission and obtained through NSU and WebCT. [http://shss.nova.edu/Downloads/dmft.htm](http://shss.nova.edu/Downloads/dmft.htm)

**Practicum**
Students complete four internal practicums at our in-house Family Therapy Clinic at the Brief Therapy Institute. During this practicum sequence students see their own clients and are supervised in teams and individually. Details regarding practicum and the department clinic are available in the Policies and Procedures Manual of the Brief Therapy Institute, available from the BTI main office. ([http://shss.nova.edu/Downloads/mft.htm](http://shss.nova.edu/Downloads/mft.htm))

Nova Southeastern University and the Department of Family Therapy require that all students complete two HIPAA courses at the beginning of a student’s first trimester. These courses are located on WebCT.

Fingerprinting is required of all students and must be completed at the beginning of enrollment in the program. Students will contact the DFT Internship Coordinator for detailed information on the fingerprinting procedures.

Students progress through the four Clinical Practica is assessed each term based on a set of skills (described below) considered necessary for the successful practice of family therapy. These criteria are divided into three levels of increasing sophistication. A student’s demonstration of these skills is assessed on a five point scale. A “5” on an item means a student consistently demonstrated the described behavior or skill. A “4” means a student often demonstrated the described behavior or skill. A “3” means that a student inconsistently demonstrated the described behavior or skill. A “2” means a student seldom demonstrated the described behavior or skill. A “1” means a student never demonstrated the described behavior or skill. The practicum grade is determined in the following way:
A = no more than five 4s; nothing below 4
B = more than five 4s and/or up to two 3s; nothing below 3
C = more than two 3s and/or up to two 2s; nothing below 2
D = more than two 2s and/or up to two 1s
F = more than two 1s

Students in Internal Practica I-IV enroll for 3 credit hours of practicum per term and receive 1 hour of live supervision per week from a faculty member (working within a team). Students at level I (Practicum I and II) must be able to consistently:

1. Introduce themselves and the clinic (policies, procedures, videotaping, etc.) to clients in a warm and professional manner.
2. Follow clinic policy (paperwork, follow-up, confidentiality, legal, and/or referral issues, etc.).
3. Conduct themselves in a professional and effective manner (attendance, punctuality, presentation of self).
4. Maintain an active caseload.
5. Sensitively vary voice (tone, volume, rate, inflection) and non-verbal behavior (posture, gestures, and facial expressions) to connect with clients.
6. Empathically communicate an understanding of, and respect for, the experience of clients.
7. Ask questions in a conversational and interactive (as opposed to interrogational) way.
8. Avoid offering simplistic advice and personal opinions.
9. Limit self-disclosure to occasions of therapeutic utility.
10. Explore client stories with curiosity and demonstrate patience in developing possible interventions.
11. Attend to larger-system issues and access appropriate resources for clients.
12. Deliver supervisor/team communications with poise and sensitivity.
13. Actively solicit and implement supervision as an opportunity for learning, regardless of model.
14. Challenge their own premises and biases and expand their awareness and appreciation of cultural, gender, spiritual, and sexual diversity.
15. Actively participate in practicum, offering and requesting constructive feedback, when appropriate.
16. Demonstrate an understanding of, and respect for, multiple perspectives (clients, team, and supervisor).
17. Conceptualize and describe client conundrums in systemic, non-pathologizing ways.

Students at level II (Practicum III) begin to work more independently. In addition to the above, these students must be able to consistently:

1. Maintain caseload of at least one case outside the formal practicum experience.
2. Seek and utilize supervision appropriately.
3. Assume an active role in managing all team cases.
4. Develop and utilize effective methods of peer supervision.
5. Receive and utilize peer supervision.
6. Differentiate team differences and conflicts in a way that builds and maintains team coherence and clinical effectiveness.
7. Develop and maintain themes across sessions.
8. Spontaneously generate relational questions and comments in the therapy room.
9. Distinguish relevant information—in relation to model, client(s), goals, previous sessions, etc.—and organize the conversation accordingly.
10. Weave supervisor/team communications into the conversation in a smooth manner.
11. Contribute systemic ideas to team discussions.
12. Appropriately generalize from supervision on a particular case to other analogous situations.
13. Discuss and describe cases concisely within a systemic framework.
14. Require less detailed direction from the supervisor.
15. Identify what they wish to obtain from supervision.

Students at level III (Practicum IV) must be able to integrate the skills necessary in levels one and two in a smooth and compelling manner. In addition, they must be able to consistently:

1. Demonstrate professional and competent clinical handling of cases, including appropriate transfer/referral
2. Take calculated risks to expand their interpersonal repertoire (with humor, creativity, play, etc.).
3. Handle unexpected and crisis situations with poise and skill.
4. Describe cases and interact with clients using a variety of therapeutic models.
5. Move toward a collegial relationship with supervisors.
6. Articulate a coherent therapeutic orientation.
7. Demonstrate their orientation in practice (in team discussions, invention of ideas and/or interventions, delivery of ideas, etc.).

**Client Contact Hours**

In order to graduate, all students must document that they have a minimum of 1000 hours of appropriately supervised direct client contact hours. At least 500 of the 1000 required hours must be with couples and/or families present in the room.

Doctoral students who can document that their previous supervised clinical practice is comparable to that which would be received in a COAMFTE accredited program may petition the program to waive some or all of the required 1000 direct client contact hours. However, waiving all or part of this client contact hour requirement does not release a student from completing all of the practicum or internship requirements of the program. In order for a waiver request to be approved, the student must provide a copy of their supervisor’s vita and credentials. In order for their supervision to count, these credentials must indicate that the previous supervisor is an AAMFT Approved Supervisor, a licensed MFT, received training in MFT supervision, an AAMFT clinical member, and recognized by a state regulatory body as being an equivalent MFT supervisor.

If a waiver request is approved, students still are required to document 100 in-the-room client contact hours with individuals, couples, and/or families during their time as a student in the program before beginning clinical internship. At least half of these hours must be accrued at the Family Therapy Clinic and practicum hours may be included in the total. In order to count, all direct client contact hours must be supervised by AAMFT approved or state equivalent supervisors, who sign and document that the hours submitted are accurate. Students must follow all BTI policies and procedures.

Documentation of client contact and supervision hours must include the date, type of session (i.e., family, couple, or individual), length, and location of each session. Students must have access to case notes for all sessions listed. The necessary forms are available at the online student resources website. Students must submit their completed forms to the Internship Coordinator at the end of each term so that their file remains updated.
Students must submit the ORIGINAL SIGNED copy of the completed forms with all hours totaled, signatures in blue to the Internship Coordinator. Students must keep a copy of all completed and signed forms during their entire program.

**Practicum Confidentiality and Other Considerations (DVDs)**

Clients seen at Family Therapy Clinic sign a Therapy Agreement that gives student clinicians permission to record sessions for educational purposes. Family Therapy Clinic provides students with the necessary materials to record their sessions. Students may not use their own DVDs for recording sessions and all recordings must remain on the premises to ensure confidentiality. Viewing rooms are available for students to watch their own work; they may not view another therapist’s work without his or her prior written consent submitted to the Family Therapy Clinic Director for final approval. If students wish to show a recorded session in a class, or use them for their Clinical Portfolio, they may sign them out for a specified amount of time. This must be coordinated through the Family Therapy Clinic Director to ensure proper authorization.

If students wish to write about a case seen at Family Therapy Clinic and need to transcribe the sessions, they may schedule times in the editing suite through the Family Therapy Clinic Director. No identifying client information can appear on transcripts or written materials.

If students wish to show a recorded session to a professional audience outside of NSU, they must re-contact the clients seen on the DVD, explain to them what they intend to do, request approval, and obtain a release signed by them in advance of the presentation.

All DVDs assigned during a student’s time at BTI must be turned in to the practicum supervisor at the end of each practicum session for placement in locked storage. DVDs or any client recordings or information are not allowed off BTI premises.

**Portfolios and Evaluations**

As a requirement of completing the doctoral program, a student must submit for faculty evaluation three separate performance based portfolios. Each of these portfolios is designed to help the student assimilate and present evidence of how they met various aspects of the program’s learning objectives and outcomes. The portfolio requirement is also designed to help students become better able to present their work in professional contexts, such as seeking employment and academic exchange. Each of the three portfolios and their requirements are described in detail below.

The three components of the Portfolio process are:

1. Coursework Portfolio
2. Clinical Portfolio
3. Academic/Research Portfolio

Each portfolio is intended to address major training and academic goals of the program. The portfolio process represents a steppingstone experience for students as they prepare to undertake their dissertation. Successful completion of each successive portfolio indicates that the student is able to plan, undertake, and complete increasingly sophisticated projects, requiring independence of both thought and motivation.
While it must be recognized that a student can complete the required portfolios in any order they choose, the most common sequence of fulfillment is the one described below. A student must successfully complete all three of the required portfolios however before they may sign up for dissertation credits.

1. **Coursework Portfolio**
   This portfolio is an organized review of, and personal reflection upon, the collective body of work a student has produced during their progress through the course curriculum. The materials that make up this portfolio consist of a) a student “self-review”, which is a narrative the student creates to describe how they have integrated and assimilated all of the materials from their course requirements into their own professional development as a doctoral level marriage and family therapist, and b) the course based papers, presentations, PowerPoint’s, and other projects or course based requirements a student produced while completing class requirements. This portfolio can only be submitted for review after the student has successfully completed required coursework. A template outlining a completed Coursework Portfolio is available on the student resources section of the department website. ([http://shss.nova.edu/Downloads/index.htm](http://shss.nova.edu/Downloads/index.htm))

Once a student has successfully finished all of their required courses, they then will undertake to complete a “self-review” of their progress in the years since they began the program. The time frames will vary because of individual student schedules and choices, but generally students complete the course work portion of the program in between 2-4 years time. In the narrative of the self-review, the student should be sure to address in some detail each of the following issues: 1) Professional growth – including theoretical refinement and sophistication, increasing depth of knowledge about the field in general, and the development of their own professional “voice”; 2) Personal growth – addressing issues of maturity, empathy, and their own ability to manage complex situations and multiple demands on their time; and 3) Responses to Challenge – How in general the student believes they have responded to the challenges posed during the completion of the course curriculum. That is to say, how has the student responded when challenged by a course or a professor, or how has the student responded when they believe they are not being challenged enough. The self-review document should be between 5-15 pages in length, double spaced, utilizing the latest APA formatting style.

The materials that a student has produced to meet all of their course requirements should always be saved in electronic format, and collected in an electronic database like Microsoft OneNote for easy cataloging. These materials should be organized for faculty review by being placed in a logical or chronological order, so that the reviewer can see a progression of thought, development, and sophistication in the student’s work over time.

Once a student has prepared their Coursework Portfolio for faculty review, they then will notify the Program Coordinator. The program coordinator will convene a committee of two faculty reviewers to review the submitted materials. Their review will consist of two components: 1) A formal, checklist based review of the materials, to make sure that materials from each of the required courses are submitted for review. The faculty reviewers will check to make sure that all of the materials a student lists on their checklist are present, and in good professional order, and are a good representation of the student’s work in the classroom, and 2) Individualized feedback regarding the student’s “self-evaluation” statement. In this process, the faculty reviewers are free to give feedback to the student regarding issues of
Professional Growth, Personal Growth, and Responses to Challenge, with a particular eye toward how these issues may have been handled in classes. How a student manages these issues in the classroom may say something about the strengths or weaknesses of the student as they work toward completing their dissertation research.

The faculty review committee has a period of two weeks from the time of the committee assignment for the completion of both reviews. The results of these reviews are then submitted to the Chair of the Department, with recommendations that the Portfolio is: a) accepted as is, with the student receiving only the written feedback of the faculty reviewers, b) requires further revision and resubmission on the part of the student to be professionally acceptable, or c) requires a meeting between the student, the faculty reviewers, and the Chair in order for the review process to proceed. A Coursework Portfolio is considered to be successfully submitted only when the Chair of the Department signs off on it as such.

(http://shss.nova.edu/Downloads/index.htm)

2. Clinical Portfolio

The Clinical Portfolio is intended to provide an opportunity for students to demonstrate their clinical competence, creativity, and theoretical clarity, in a manner and setting similar to that which could be expected in a job interview situation. It should be viewed as the culmination of the in-house clinical training aspect of the doctoral program, and it is designed to allow students to demonstrate the full range and depth of their clinical skills and theoretical knowledge. To submit a Clinical Portfolio for faculty review, a student must have successfully completed the minimum of four (4) required internal practicum courses. Students wishing to enhance their clinical skills or theoretical knowledge may do so with additional practica, clinical work, or supervision before submitting their Clinical Portfolio. All students must submit a Clinical Portfolio for review no later than the end of their 4th year of enrollment in the program.

Clinical Portfolio Components

There are 4 components to a Clinical Portfolio, and they are:

- All of a student's internal practicum evaluation reviews
- Statement of Treatment Philosophy (5-7 pages, double spaced and APA formatted)
- Case Study (Written, single case from inception to treatment completion/evaluation)
- Video presentation (45 min – 1 hour, professional audience)

Internal Practicum Reviews

Students as a matter of practice should always retain any and all materials related to their work and/or performance in the program. At the end of each internal practicum, students review with their instructor a practicum evaluation form, giving detailed feedback and suggestions for future development. Students need to present the collection of these practicum evaluations over a minimum of four internal practica as the first component of their Clinical Portfolio review. Students have the option of attaching their own editorial, explanatory, or reflective comments to this document.

Statement of Treatment Philosophy

The Statement of Treatment Philosophy document should be between 5-7 pages, double spaced, and should adhere to all applicable APA formatting conventions. In this document, students should articulate their current overall philosophy of treatment as it applies to their work in the field of marriage and family therapy. This
philosophy statement assumes that the student under review is not a “fully formed” or fully finished professional, so it is allowable for the student to talk honestly and openly about the ways they assess their own current stage(s) of development. This statement may even be at odds with the case study or video materials presented in the other parts of the Portfolio, but if it is, it would be important for the statement to address how these disconnects are part of the overall development of the student. The important parts of this statement are the honesty, maturity, integrity, and clarity with which the student describes their journey throughout the years of clinical training they have received in the course of the program, as well as the accuracy of any theoretical assertions they make as well. This document can, and should, serve as a jumping off point for discussions between the student and the faculty reviewers about the current state of clinical development of the student.

**Single Case Study**

In this section of the Portfolio, the student is asked to describe, in writing, their experience as a primary therapist with a single case, from inception and introduction to completion and evaluation. The purpose of this section of the portfolio is to allow the student to describe in great detail the how they managed a case from beginning to end, and in the process of doing so, giving insight into the theories, techniques, approaches, assumptions, supervision, and feedback that guided them through the process. This component of the Portfolio will be evaluated by the faculty review committee using a rating scale that evaluates the student based on the following criteria:

1. All interactions between clients and therapist up to the point when a therapeutic contract is established. (Assesses the Admission to Treatment Core Competency Skills)
2. Activities focused on the identification of the issues to be addressed in therapy. (Assesses the Clinical Assessment and Diagnosis Core Competency Skills)
3. All activities focused on directing the course of therapy and extra-therapeutic activities. (Assesses the Treatment Planning and Case Management Core Competency Skills)
4. All activities designed to ameliorate the clinical issues identified. (Assesses the Therapeutic Interventions Core Competency Skills)
5. All aspects of therapy that involve statutes, regulations, principles, values, and mores of MFTs. (Assesses the Legal Issues, Ethics, and Standards Core Competency Skills)

Students should organize the respective sections of the written Case Study document accordingly. The Case Study document should also be written in a style that adheres to the most recent edition of APA formatting conventions.

**Video Segments Presentation**

This section of the Clinical Portfolio is designed to allow the student to demonstrate through video segments, the correlation between theory and their actual clinical practices. Each student is required to produce and display between 7-10 video segments that demonstrate the connections between “what they think” and “what they actually do”. For each segment presented, the student will assign a number to the clip, then describe the theoretical concept, construct, or technique that they believe most accurately reflects the actions that the audience is about to view. The members of the faculty review committee, after viewing the clip then offer a scaled response that reflects how accurately they believe the video segment actually
reflected the concept, construct, or technique listed by the student on the following scale:

- 5 = Very Highly
- 4 = Well
- 3 = Adequately
- 2 = Only Somewhat
- 1 = Not at All

The concepts, constructs, or techniques that the student describes and shows video clips displaying can come from any of the classes, courses, or supervision they receive during their training in the program. The clips can be arranged to represent a single clinical point of view, or they may be arranged to represent a wide variety of the clinical approaches the student has used in the course of their training. This part of the Portfolio should be representative of a range of work that best demonstrates the student’s acquisition of clinical and theoretical skills during the program, regardless of theoretical approach.

Successful completion of this exam indicates the faculty’s belief that the student is clinically prepared to perform successfully in real life situations and in outside clinical settings. It is expected that students will conduct themselves in a professional and collegial manner throughout the preparation of materials. Care should be taken regarding appropriate dress, professional demeanor, clarity of presentation, and respect for clients and colleagues.

**Faculty Advisor**

Once a student has completed all of the four (4) requirements listed above, they may then seek out the guidance of a “faculty advisor” in final preparation for their Clinical Portfolio presentation. A student can approach a current member of the full time family therapy faculty to serve in this capacity. The faculty member's ability to serve is governed by a number of factors, including how many other such requests are being made of them in the same trimester. If the faculty member agrees to serve as the student’s faculty advisor, that faculty member may not then serve as a member of the final faculty review committee.

Once selected, the student may then present their completed materials to the faculty advisor for review. The faculty advisor shall have a two week "turnaround time" to get back to the student with feedback regarding the overall professional quality of the presentation. The faculty member may suggest changes and revisions, which the student is at liberty to accept or ignore. Approval to go ahead with the final presentation from the faculty advisor should in no way be construed as an endorsement or guarantee of final approval from the full faculty review committee.

The role of the faculty advisor is simply to allow the student some kind of access to faculty guidance before the actual presentation of their clinical work. Once the student has received the comments of the faculty advisor, they may then contact the program coordinator’s office to schedule a full faculty committee review. The full faculty committee will consist of three members of the full time family therapy faculty, selected on a random, rotating basis. Once selected, the three members of the faculty committee will also receive all of the portfolio materials for review. The review will be a public event, scheduled for a maximum of two hours time. As a professional presentation, it is important that the student allocate their time for presentation and questions accordingly. Punctuality, time keeping, and facilitation are is an important part of professional presenting.
The review will be publically announced to the Department of Family Therapy community, and open for faculty and students to attend. It will be scheduled for a minimum two weeks after the announcement is formally made. These events are not only a review of the student’s portfolio of clinical work, but also an opportunity for active conversation with, and about, the clinical work of their colleagues.

Upon completion of the public presentation, the three members of the faculty review committee consider all of the materials presented in light of 1) the evaluation rubrics attached to those materials, 2) the manner in which they were presented, 3) the overall professionalism of the presenter, including dress, manner, tone, etc., and 4) the manner and substance of the ways in which the presenter handled questions, criticisms, theoretical disagreements, or ethical concerns raised by reviewers or members of the audience during the course of the review. The faculty review committee then decides whether or not, as a consensus opinion, the student has satisfactorily presented a professionally acceptable Clinical Portfolio. If the consensus reached is not unanimous among the committee members, it is incumbent upon the dissenting opinion to inform the student of their views, and the reasons for them, in a separate report. If a majority decides that the Portfolio presented is not of acceptable professional quality, it is incumbent upon the committee to fashion a detailed report of how and where the portfolio falls short of acceptable professional standards, and to make suggestions for remediation in the future. A student may only submit one Clinical Portfolio for review per trimester, and may only resubmit a Clinical Portfolio for re-review a maximum of two (2) times. Any student who is unable to submit a professionally acceptable Clinical Portfolio after this will not be allowed to continue in the program.

3. Academic/Research Portfolio

The Academic/Research Portfolio is designed to demonstrate the academic and professional research accomplishments of a student during their time in the doctoral program. As a matter of professional development and career building, students are encouraged to participate in academic publishing and professional presentations before local, statewide, and national audiences. Students who participate in these activities may petition to have some or all of these experiences count toward the successful completion of the Portfolio requirements.

All students will be required to demonstrate that they possess doctoral level competency in both writing and professional presentation skills. To do so, they may choose any one of the three paths described below to demonstrate they possess these requisite skills. The Academic/Research Portfolio may be submitted for review by a 3 person faculty review committee any time after the student completes two years of the program, but must be submitted for review no later than the student’s 5th year of enrollment in the program. An Academic/Research Portfolio that is judged not to meet minimally acceptable professional standards may be resubmitted, with appropriate revisions, no sooner than the next trimester. A student must have their Academic/Research Portfolio accepted by a faculty review committee by no later than the beginning of their 5th year of enrollment. It is strongly suggested that students submit their first Academic/Research Portfolio while they are in their 3rd year of enrollment.

There are three (3) options by which students may meet the requirements of the Academic/Research Portfolio, and they are outlined below. Every option consists of a written component and a professional presentation component, and each must be successfully presented for the student to complete this requirement.
- **Option 1**
  
  **Written Component**
  
  A student may submit an original, professional journal publishable-quality paper, on a topic relevant to the field of family therapy. This paper is then read by a committee of 3 full time family therapy faculty members, and is evaluated in accordance with the written guidelines governing the Substantive Qualifying Exam. A student must receive an average overall score of 4 or above from the 3 reviewers to successfully complete this part of the portfolio.

  The text of the paper, exclusive of the title page, abstract, and references, may not exceed 25 pages. Papers must follow stylistic guidelines of the most recent edition of the American Psychological Association Publication Manual. The topic of these academic papers may be case studies, research reports, theoretical essays, or professional issue position papers. If a student submits a case study or a research report, they must preserve the data on which the work is based (e.g., videotapes, detailed case notes of clinical work, research protocols, transcripts, signed informed-consent forms) until the paper has passed the entire process.

  **Presentation Component**
  
  The second component of Option 1 requires that the student then also present an acceptable quality professional level presentation on a topic relevant to a marriage and family therapy audience. This presentation will be 30–45 minutes long, and will be offered to the entire Department of Family Therapy community. This presentation will be evaluated by a committee of 3 faculty evaluators, who will judge its professional quality based on a set of published guidelines evaluating elements such as preparation, utilization of technology, poise, clarity of presentation, management of questions from the audience, accuracy of research, adherence to ethical standards and guidelines, and academic rigor.

  If the faculty evaluation committee determines that a student has not successfully completed this portion of the Portfolio, they as a group are responsible to give detailed and specific feedback to the student regarding their suggestions and concerns. The student may then reschedule another presentation on either the same or a different topic no sooner than the following trimester. Students may re-present a maximum of 2 times after their initial offering. Students who do not successfully complete this requirement after a maximum of 3 attempts may not continue in the program.

- **Option 2**
  
  **Written Component**
  
  In Option 2, the requirements of the written component are identical to the requirements listed above in Option 1.

  **Presentation Component**
  
  However, in Option 2, a student may satisfy the Presentation Component criteria by being a part of one or more professional presentations before local, statewide, or national audiences. To be considered as equivalent experiences, such presentations should occur in settings where submission is subject to a peer review process, and the length of the presentation is greater than 1 hour. Because of the wide variety of professional presentation options available, students will need to submit a description of their professional presentation
experience(s), along with copies of all relevant presentation materials to a committee of three (3) full time family therapy faculty reviewers. Any such presentations must be based on materials, projects, or research that the student has been involved in since they were enrolled in the family therapy program.

- **Option 3**

  **Written Component**
  In order to fulfill the written component requirement, a student may submit for review an article that they are the first author on. This article must have been accepted for publication in a peer reviewed, family therapy or other closely related professional journal. A committee of 3 full time family therapy faculty will review the article, and determine by majority vote if in their opinion it meets acceptable professional standards for doctoral level writing. If in the opinion of the faculty review committee it does not, the student will be asked to submit another article, or will be required to meet the written component of the portfolio in the manner outlined above in Options 1 and 2.

  **Presentation Component**
  In this Option, the student may meet the presentation requirement either by a) presenting on the topic of the paper that was submitted, b) submitting a list of their previous professional presentation credentials, along with any appropriate accompanying materials for faculty review, or c) presenting for the Department of Family Therapy community as described in Option 1 above.

**Portfolio Timeline Information**
There is no single guideline for the order or time frame in which portfolios are submitted. However, a student doctoral student may not begin their internship until they have successfully completed their Clinical Portfolio Review, and they may not sign up for dissertation credits until they have successfully submitted all of their Portfolio requirements. All portfolios must be completed by students by the beginning of their 5th year in the program. Failure to do so means that a student is at significantly greater risk of not completing the doctoral program within the prescribed 7 year limit, and may be grounds for the Chair of the Department to call a meeting to review the overall progress of the student.

**Individual Student Evaluations per Trimester**
Individual student evaluations are conducted at the end of each and every trimester by each instructor who has the student for class or practicum. These evaluations are based on the student’s overall performance, attitude, conduct, and preparation, and may or may not be reflective of the overall grade the student earned in the course.

Individual Student evaluations are a standard departmental form that is filled out by faculty at the end of every trimester for all the students enrolled in their class. Each student will receive a copy of their evaluations after each trimester is complete. Evaluations are based on a three system criteria:

1. Green light- the student met every requirement of the class in a way that the instructor has no lingering or overall concerns regarding the above listed criteria.

2. Yellow light- means the faculty member has recommendations to be discussed one on one with the student. The onus is on the student to seek out the
instructor to discuss their concerns about their performance, and they should do so some time before the beginning of the next trimester. If a student and the instructor are able to amicably discuss and resolve the instructor’s concerns, the yellow light evaluation can be amended into a green light evaluation. If after this meeting there is disagreement about the issue or its resolution, the yellow light evaluation may stay in place, or it may become a Red light, in which case see below.

3. Red light- means that an issue or issues between the instructor and the student has risen to the level of concern that the instructor would like to involve the Chair of the Department to become aware of the issue(s). If a student is given a Red Light evaluation, the student then must make arrangements for a meeting with the instructor and the department chair as soon as is practical.

Clinical or Research Internship
An Internship of 9 to 12 months (3 consecutive trimesters) is designed to provide the student with a supervised full-time experience, emphasizing relationally focused practice and/or research. The majority of a student’s course requirements must be completed before beginning the internship experience. Students must have successfully passed their Clinical Portfolio requirement.

The Clinical Internship is designed to provide students with a clinical experience to gain professional experience in the practice of marriage and family therapy. An AAMFT Approved Supervisor or the equivalent will supervise the intern’s clinical work. Students are required to develop a clinical contract with their AAMFT Approved Supervisor and obtain approval prior to beginning at an internship site.

Students who have met their clinical hour requirements may choose to advance their research skills by developing a research internship.

The Research Internship is designed to provide students with an opportunity to further develop their research skills and knowledge of research projects, grants, and other available resources (i.e., working with faculty on research projects). The Research Internship experience requires prior approval by the faculty member, Department Chair, and, internship site.

The institution sponsoring the internship site(s) will have been in operation for at least two years. Internship site(s) will provide adequate facilities and equipment for the intern to carry out designated responsibilities. Students will work with both a faculty supervisor and a site supervisor. When requesting supervision from a faculty AAMFT Approved Supervisor they will register for 3 credit hours per term for a minimum of 3 terms. If students have an AAMFT Approved Supervisor on site to supervise their clinical hours, or need to obtain an outside AAMFT Approved Supervisor, they will register for 1 credit hour per term for a minimum of 3 terms. They will also work with their faculty supervisor a part of their internship experience. When taking 1credit hour, students need to review their degree plan to ensure they will meet the required credit hours for their degree, and/or they will be required to take two additional elective courses to meet the credit hour degree requirement.

The Supervision and Teaching Course and Practicum
Before taking the Supervision and Teaching course students must have successfully passed their Internal Practicum II course. To be eligible to take the Supervision Practicum course, working with a full time faculty behind the mirror in a team at BTI,
students must have successfully passed their four (4) required Internal Practica. Students taking the Teaching Practicum must have successfully completed most of their coursework. Students must obtain faculty approval for taking either Supervision Practicum or Teaching Practicum. Typically, these Practica will entail assisting a faculty member in teaching or supervising a master’s level course, though in some instances, helping with doctoral courses is possible. Students are required to take either the Teaching or Supervision practicum, but can take both to expand their teaching experience in the classroom and in a supervisory capacity.

To obtain permission to take either a supervision or teaching practicum, students should seek out the full-time faculty member they wish to work with and specify what capacity they would like to work with them. If the faculty member agrees to work with the student, the student should then write a brief note or email to the faculty member detailing what they have agreed on with a copy to the Department Chair for final approval. Such notice should be given well in advance of that term’s registration period.

**Dissertation**
The Dissertation consists of original research in the Marriage and Family Therapy field. Students are encouraged to develop research topics that are of interest to them and to promote work in the field. They enroll in their Dissertation courses while completing their Clinical or Research Internship. During this time, students work closely with their Dissertation Chair and committee. Students are able to choose a full time faculty member as their Chair to formalize a research study and develop a timeline for moving through the process.

Students will have successfully completed their Portfolio processes prior to registering for dissertation credits. The Dissertation process is quite extensive and specific details about how students move through this process and write their dissertation can be found in the school's Dissertation Guidelines available online (www.shss.nova.edu/studentresources/). Students must take a total of 12 dissertation credit hours; three credit hours per term for four terms. Three hours of dissertation credits is considered by the program. Students must continually be registered for dissertation each term until they complete, successfully defend, and turn in their final bound document. This may entail taking more than the minimum of 12 dissertation credit hours as stipulated in the catalog. Once a student takes 12 dissertation credits over four terms, they register for one credit hour each term thereafter until completion of their dissertation. If, for some reason, students cannot continue working on their dissertation, they must apply in writing to their Dissertation Chair and the Department Chair requesting a leave of absence. The Leave of Absence form is located online. If a student requests a leave for longer than one term or takes a second term long leave, he/she may be unable upon return to continue with the dissertation chair with whom he/she had earlier been working. If a Leave of Absence is requested and approved, this does not extend the 7-year timeframe for completing the degree program. Students are required to adhere to the dissertation guidelines and timelines. The complete DFT Dissertation Guidelines can be found online at http://shss.nova.edu/Downloads/mft.htm.

**Individual Supervision for State Licensure or AAMFT**
There may be occasions after the completion of formal course work when doctoral students wish to seek private, individual clinical supervision from a member of the faculty. Before approaching a faculty member with such a request, students must have already successfully completed all required Practica and have successfully passed all Portfolios. Since such supervision is not considered part of the curriculum, the contract between the student and the supervisor, including frequency of meetings,
responsibilities, and costs, will be settled privately. The department stipulates that faculty members may not provide private clinical supervision for students whose dissertations they are chairing or serving as readers on. The Department works closely with an outside firm that conducts licensure exam reviews on campus periodically throughout the year. This process is designed to support our students and alumni in becoming licensed for their work in the MFT field.

**Concentration in Family Systems Health Care**

Students in the Ph.D. program in Family Therapy may choose to pursue a concentration in Family Systems Health Care. The concentration focuses on the relationships between psychosocial medicine and biomedicine in the treatment and prevention of illness and disease. Students are taught the basics of biopsychosocial theory, practice, and collaboration. The program prepares professionals to offer family therapy in a variety of medical settings, including private practices, hospitals, community clinics, primary care/specialists' offices, and hospices.

Students in the Family Systems Health Care concentration program have ample opportunities to gain practical expertise through classroom learning and hands-on clinical, research, teaching, and service experiences. Specific areas of study include: adjustment patterns of clients and their families to chronic and acute illnesses; models of collaboration between medical family therapists and other health care professionals; the role of medical family therapists in the continuum of medical services; the politics and economics of health care; understanding human systems in health care; and brief interventions and systemic assessments useful in the treatment and care of patients and their families. Additionally, the program emphasizes professional development by assisting students in strengthening their personal qualities necessary for successful participation in the medical milieu.

The student’s growth as a reflective practitioner is encouraged through clinical research in physician/client/therapist/family communication, adjustments to acute, chronic, or terminal illness, social effects and ethical dilemmas of new medical technologies, and other issues that transcend historical distinctions between physical treatment and psychosocial interventions. Program faculty and students cooperate to publish research findings and clinical experiences. Also, faculty and students of the program contribute to the growth of Family Systems Health Care and medical family therapy by supporting and participating in groups like the Collaborative Family Health Care Coalition, the Society of Teachers of Family Medicine, and others.

In addition to degree requirements, students must complete the following coursework to receive a Concentration in Family Systems Health Care:

- FSHC 5000 - Family Systems Health Care I
- FSHC 5010 - Family Systems Health Care II
- FSHC 5100 - Practicum I in Family Systems Health Care*
- FSHC 5110 - Practicum II in Family Systems Health Care*
- FSHC 5300 - Integration and Collaboration Among Health Care Systems
- FSHC 5500 - Politics and Economics of Health Care
- FSHC 6400 - Understanding Human Systems in Health Care Settings

* Students may choose to do their clinical internship in a medical setting to obtain the required 100 hours of face-to-face client contact for this concentration.

*The catalog is periodically updated online.
Doctor of Marriage and Family Therapy (DMFT)

Mission Statement
The SHSS Doctor of Marriage and Family Therapy DMFT (DMFT) is committed to academic and clinical innovation and excellence, preparing students to become proficient practitioners in therapeutic, and business arenas. Students receive comprehensive clinical supervision and mentoring that prepares them clinically to meet the needs of diverse populations including the global community. Applying a systemic perspective to teaching and supervision, we focus on the relational strengths and resources of students and clients.

Program Description
The Doctorate in Marriage and Family Therapy (DMFT) is a practitioner oriented terminal degree. The primary emphasis of the DMFT degree program is different from the Ph.D. program in that it seeks specifically to produce professionals whose chief contributions will be in the clinical rather than academic sphere. Still, there is a great deal of overlap in the core curriculum between the two programs.

The DMFT is a 96-credit-hour program designed for individuals holding master's degrees that prepares graduates for careers as private practitioners, agency administrators, clinical supervisors, and senior clinicians. The DMFT program is designed to expand and enhance a student’s existing clinical skills in order to make them top level practitioners, while at the same time demonstrating the place of program/clinical research in this pursuit.

To this end, the DMFT degree requires students to complete an Applied Clinical Project (APC) rather than a dissertation. The APC requires a student to conceive, propose, implement, and evaluate the effectiveness of a particular clinical program under the supervision of a faculty member. The program should be grounded in a systems based approach to family psychotherapy, but may include large educational and/or consultation components.

Also, the DMFT program is separate from the Ph.D. program in that it is not a Candidate for COAMFTE accreditation. As the DMFT program does not have a specific dissertation requirement, it is not eligible for consideration as a COAMFTE accredited program. This means that graduates of the DMFT program will have to apply for AAMFT Clinical membership using the standard track requirements of eligibility.

The Department of Family Therapy has full time faculty and supervisors that represent racial diversity as well as diversity in gender, age, and religion. Our part-time faculty and supervisors include cultural, gender, age, sexual orientation, and religious diversity. The student body of the master’s and doctoral programs reflects the rich cultural diversity of South Florida as far as race, religion, gender, sexual orientation, and age.

The 96-credit-hour program integrates systemically oriented theory, clinical practice, qualitative, and quantitative research. The core curriculum includes:

- Four courses that explore the clinical contributions of three major systems paradigms: cybernetics, language-based, and natural systems. However, brief, interactional therapies such as MRI (Mental Research Institute), Solution-Focused approaches, Ericksonian hypnotherapy, and the Milan Associates receive the greatest
exploration. Therapies based in narrative and intergenerational traditions are also covered.

- Four terms of continuous enrollment in clinical Practica at the Brief Therapy Institute (BTI), the on-campus clinical facility. Teams of students meet weekly with a faculty member for live supervision of cases at BTI throughout the calendar year. Two terms enrolled in External Practica, where students have the opportunity to gain clinical experiences in real-life settings outside of the University.
- Two classes in research methods, one quantitative and one qualitative. These provide an overview of the basics of marriage and family therapy research, statistics, clinical research methodologies, qualitative approaches to clinical research, and program evaluation techniques.
- Two theory courses, one devoted to the cybernetic systems ideas of Gregory Bateson, the other to the language-based systems (e.g., social constructionism, feminism, and postmodernism).
- One course in the supervision and teaching of family therapy. This course fulfills the didactic instruction component for AAMFT Approved Supervisor status.

In keeping with the interdisciplinary philosophy of the School, students have the opportunity to take electives in various specialties, such as Family Systems Health Care. Additional courses may help students fulfill many of the course requirements for licensure in Florida (and other states) as a marriage and family therapist.

A student may choose to take more electives than degree requirements. Other elective courses available to doctoral students within the Family Therapy department are Academic Writing, and all courses in the Family Systems Health Care graduate certificate program. Other courses offered within the University may be considered for elective status pending approval by the Program Director.

During the program, students may also fulfill the academic requirements for becoming a Clinical Member and Approved Supervisor in the American Association for Marriage and Family Therapy. The program’s supervision course is approved for meeting the supervision course requirement for all AAMFT Approved Supervisors.

**Program Formats**
The DMFT is a four year residential degree program. Full-time enrollment is considered to be nine credit hours for each of the three trimesters. Once students begin their Applied Clinical Project (ACP), they are considered full-time when registered for at least three credit hours per term. Students must be continually enrolled in classes in order to remain in the program. If a student cannot take classes due to unforeseen circumstances, they apply for a Leave of Absence three weeks prior to the trimester. A Leave of Absence can be no longer than three trimesters before the student is considered inactive.

**Degree Plan**
Following is a sample degree plan for full-time students who begin their studies in Fall term. Degree plans are developed during a student’s first term and modified based on student enrollment date and pace of study.

**DMFT Degree Plan: 96 credit hours**

* Course is prerequisite to the program, not part of the 96 credit hour requirement
** Portfolio completed based on pace of study

Electives: DMFT 5311 Substance Abuse/Addictions and Critical Issues in Systems Theory, DMFT 6560 Couples Therapy I, DMFT 6570 School Based Counseling, DMFT 6580 Couples Therapy II, Elective: DMFT 6630 Grief and Loss, and SHSS 6620 Academic Writing
Program Specifics

Prerequisites
Before entering the program, all students must document at least two graduate level three-credit-hour courses covering basic family therapy concepts, as well as one course on human development and individual and group psychotherapy. Any student who has not had these courses or their equivalent must initially take and pass, as leveling courses, the following courses in our master’s program:

- DMFT 5008: Introduction to Marital and Family Therapy
- DMFT 5009: Theories of Marital and Family Therapy
- DMFT 7313: Human Development and Individual/Group Psychotherapy

Leveling courses must be completed prior to being fully admitted into the program. These credit hours do not count toward the 96 credit hour degree requirement.

Before entering practicum students are required to complete Introduction to Systems Theories, Introduction to Marriage and Family Therapy, and Legal, Ethical, and Professional Issues courses, along with background check, fingerprinting, two HIPAA certificates, CITI: Course in the Protection of Human Subjects, and be fully informed on the policies and procedures at the Family Therapy Clinic. Information on these requirements is part of pre-admission and obtained through NSU and WebCT. http://shss.nova.edu/Downloads/dmft.htm

Practicum
Students complete four internal practicums at our in-house Family Therapy Clinic at the Brief Therapy Institute. During this practicum sequence students see their own clients and are supervised in teams and individually. Details regarding practicum and the department clinic are available in the Policies and Procedures Manual of the Brief Therapy Institute, available from the BTI main office. (http://shss.nova.edu/Downloads/mft.htm)

Nova Southeastern University and the Department of Family Therapy require that all students complete two HIPAA course requirements before seeing clients in the clinic. Contact the Internship Coordinator for more information. These courses are located on WebCT.

Students progress through the four Clinical Practica is assessed each based on a set of skills (described below) considered necessary for the successful practice of family therapy. These criteria are divided into three levels of increasing sophistication. A student’s demonstration of these skills is assessed on a five point scale. A “5” on an item means a student consistently demonstrated the described behavior or skill. A “4” means a student often demonstrated the described behavior or skill. A “3” means that a student inconsistently demonstrated the described behavior or skill. A “2” means a student seldom demonstrated the described behavior or skill. A “1” means a student never demonstrated the described behavior or skill. The practicum grade is determined in the following way:

A = no more than five 4s; nothing below 4
B = more than five 4s and/or up to two 3s; nothing below 3
C = more than two 3s and/or up to two 2s; nothing below 2
D = more than two 2s and/or up to two 1s
F = more than two 1s
Students in Internal Practica I-IV enroll for 3 credit hours of practicum per term and receive 1 hour of live supervision per week from a faculty member (working with a team). Students at level I (Practica I and II) must be able to consistently:

1. Introduce themselves and the clinic (policies, procedures, videotaping, etc.) to clients in a warm and professional manner.
2. Follow clinic policy (paperwork, follow-up, confidentiality, legal, and/or referral issues, etc.).
3. Conduct themselves in a professional and effective manner (attendance, punctuality, presentation of self).
4. Maintain an active caseload.
5. Sensitively vary voice (tone, volume, rate, inflection) and non-verbal behavior (posture, gestures, facial expressions) to connect with clients.
6. Empathically communicate an understanding of, and respect for, the experience of clients.
7. Ask questions in a conversational and interactive (as opposed to interrogational) way.
8. Avoid offering simplistic advice and personal opinions.
9. Limit self-disclosure to occasions of therapeutic utility.
10. Explore client stories with curiosity and demonstrate patience in developing possible interventions.
11. Attend to larger-system issues and access appropriate resources for clients.
12. Deliver supervisor/team communications with poise and sensitivity.
13. Actively solicit and implement supervision as an opportunity for learning, regardless of model.
14. Challenge their own premises and biases and expand their awareness and appreciation of cultural, gender, spiritual, and sexual diversity.
15. Actively participate in practicum, offering and requesting constructive feedback, when appropriate.
16. Demonstrate an understanding of, and respect for, multiple perspectives (clients, team, supervisor).
17. Conceptualize and describe client conundrums in systemic, non-pathologizing ways.

Students at level II (Practicum III) begin to work more independently. In addition to the above, these students must be able to consistently:

1. Maintain caseload of at least one case outside the formal practicum experience.
2. Seek and utilize supervision appropriately.
3. Assume an active role in managing all team cases.
4. Develop and utilize effective methods of peer supervision.
5. Receive and utilize peer supervision.
6. Negotiate team differences and conflicts in a way that builds and maintains team coherency and clinical effectiveness.
7. Develop and maintain themes across sessions.
8. Spontaneously generate relational questions and comments in the therapy room.
9. Distinguish relevant information—in relation to model, client(s), goals, previous sessions, etc.—and organize the conversation accordingly.
10. Weave supervisor/team communications into the conversation in a smooth manner.
11. Contribute systemic ideas to team discussions.
12. Appropriately generalize from supervision on a particular case to other analogous situations.
13. Discuss and describe cases concisely within a systemic framework.
14. Require less detailed direction from the supervisor.
15. Identify what they wish to obtain from supervision.

Students at level III (Practicum IV) must be able to integrate the skills necessary in levels one and two in a smooth and compelling manner. In addition, they must be able to consistently:

1. Demonstrate professional and competent clinical handling of cases, including appropriate transfer/referral
2. Take calculated risks to expand their interpersonal repertoire (with humor, creativity, play, etc.).
3. Handle unexpected and crisis situations with poise and skill.
4. Describe cases and interact with clients using a variety of therapeutic models.
5. Move toward a collegial relationship with supervisors.
6. Articulate a coherent therapeutic orientation.
7. Demonstrate their orientation in practice (in team discussions, invention of ideas and/or interventions, delivery of ideas, etc.).

Students enrolled in External Practicum I and II are expected to operate at the levels described above in real world settings outside of the University environment and to be able to seamlessly integrate themselves into actual practice.

Client Contact Hours
In order to graduate, all students must document that they have a minimum of 1000 hours of appropriately supervised direct client contact hours. At least 500 of the 1000 required hours must be with couples and/or families present in the room.

Doctoral students who can document that their previous supervised clinical practice is comparable to that which would be received in a COAMFTE accredited program may petition the program to waive some or all of the required 1000 direct client contact hours. However, waiving all or part of this client contact hour requirement does not release a student from completing all of the practicum requirements of the program. In order for a waiver request to be approved, the student must provide a copy of their supervisor’s vita or credentials. In order for their supervision to count, these credentials must indicate that the previous supervisor is an AAMFT Approved Supervisor, a licensed MFT, received training in MFT supervision, an AAMFT clinical member, and recognized by a state regulatory body as being an equivalent MFT supervisor.

If a waiver request is approved, students still must document 100 in-the-room client contact hours with individuals, couples, and/or families during their time as a student in the program before beginning external practicum. At least half of these hours must be accrued at the Family Therapy Clinic and practicum hours may be included in the total. In order to count, all direct client contact hours must be supervised by AAMFT approved or state equivalent supervisors, who sign and document that the hours submitted are accurate. Students must follow all BTI policies and procedures.

Documentation of client contact and supervision hours must include the date, type of session (i.e., family, couple, or individual), length, and location of each session. Students must have access to case notes for all sessions listed. The necessary forms are available at the online student resources website. Students must submit their completed forms to the Internship Coordinator at the end of each term so that their file remains updated. **Students must submit the ORIGINAL SIGNED copy of the completed forms with all hours totaled, signatures in blue to the Internship Coordinator. Students**
must keep a copy of all completed and signed forms during their entire program.

**Practicum Confidentiality and Other Considerations (DVDs)**

Clients seen at Family Therapy Clinic sign a Therapy Agreement that gives student clinicians permission to record sessions for educational purposes. Family Therapy Clinic provides students with the necessary materials to record their sessions. Students may not use their own DVDs for recording sessions and all recordings must remain on the premises to ensure confidentiality. Viewing rooms are available for students to watch their own work; they may not view another therapist's work without his or her prior written consent submitted to the Family Therapy Clinic Director for final approval. If students wish to show a recorded session in a class, or use them for their Clinical Portfolio, they may sign them out for a specified amount of time. This must be coordinated through the Family Therapy Clinic Director to ensure proper authorization.

If students wish to write about a case seen at Family Therapy Clinic and need to transcribe the sessions, they may schedule times in the editing suite through the Family Therapy Clinic Director. No identifying client information can appear on transcripts or written materials.

If students wish to show a recorded session to a professional audience outside of NSU, they must re-contact the clients seen on the DVD, explain to them what they intend to do, request approval, and obtain a release signed by them in advance of the presentation.

All DVDs assigned during a student’s time at BTI must be turned in to the practicum supervisor at the end of each practicum session for placement in locked storage. DVDs or any client recordings or information are not allowed off BTI premises.

**Portfolios and Evaluations**

As a requirement of completing the doctoral program, a student must submit for faculty evaluation three separate performance based portfolios. Each of these portfolios is designed to help the student assimilate and present evidence of how they met various aspects of the program’s learning objectives and outcomes. The portfolio requirement is also designed to help students become better able to present their work in professional contexts, such as seeking employment and academic exchange. Each of the three portfolios and their requirements are described in detail below.

The three components of the Portfolio and Exam process are:

1. Coursework Portfolio
2. Clinical Portfolio
3. Course Comprehensive Exam

Each portfolio is intended to address major training and academic goals of the program. The portfolio process represents a steppingstone experience for students as they prepare to undertake their applied clinical project work. Successful completion of each successive portfolio indicates that the student is able to plan, undertake, and complete increasingly sophisticated projects, requiring independence of both thought and motivation.

While it must be recognized that a student can complete the required portfolios in any order they choose, the most common sequence of fulfillment is the one described below. A student must successfully complete all three of the required portfolios however before they may sign up for ACP credits.
1. Coursework Portfolio
This portfolio is an organized review of, and personal reflection upon, the collective body of work a student has produced during their progress through the course curriculum. The materials that make up this portfolio consist of a). a student “self-review”, which is a narrative the student creates to describe how they have integrated and assimilated all of the materials from their course requirements into their own professional development as a doctoral level marriage and family therapist, and b). the course based papers, presentations, PowerPoint’s, and other projects or course based requirements a student produced while completing class requirements. This portfolio can only be submitted for review after the student has successfully completed required coursework. A template outlining a completed Coursework Portfolio is available on the student resources section of the department website. (http://shss.nova.edu/Downloads/index.htm)

Once a student has successfully finished all of their required courses, they then will undertake to complete a "self- review" of their progress in the years since they began the program. The time frames will vary because of individual student schedules and choices, but generally students complete the course work portion of the program in between 2-4 years time. In the narrative of the self-review, the student should be sure to address in some detail each of the following issues: 1). Professional growth – including theoretical refinement and sophistication, increasing depth of knowledge about the field in general, and the development of their own professional "voice", 2). Personal growth – addressing issues of maturity, empathy, and their own ability to manage complex situations and multiple demands on their time, and 3). Responses to Challenge - How in general the student believes they have responded to the challenges posed during the completion of the course curriculum. That is to say, how has the student responded when challenged by a course or a professor, or how has the student responded when they believe they are not being challenged enough. The self-review document should be between 5-15 pages in length, double spaced and in appropriate APA format as applicable.

The materials that a student has produced to meet all of their course requirements should always be saved in electronic format whenever possible, and collected in an electronic database like Microsoft OneNote for easy cataloging. These materials should be organized for faculty review by being placed in a logical or chronological order, so that the reviewer can see a progression of thought, development, and sophistication in the student’s work over time.

Once a student has prepared their Coursework Portfolio for faculty review, they then will notify the program coordinator. The program coordinator will convene a committee of two faculty reviewers to review the submitted materials. Their review will consist of two components: 1) A formal, checklist based review of the materials, to make sure that materials from each of the required courses are submitted for review. The faculty reviewers will check to make sure that all of the materials a student lists on their checklist are present, and in good professional order, and are a good representation of the student’s work in the classroom, and 2) Individualized feedback regarding the student’s “self-evaluation” statement. In this process, the faculty reviewers are free to give feedback to the student regarding issues of Professional Growth, Personal Growth, and Responses to Challenge, with a particular eye toward how these issues may have been handled in classes. How a student manages these issues in the classroom may say something about the strengths or weaknesses of the student as they work toward completing their ACP research.
The faculty review committee has a period of two weeks from the time of the committee assignment for the completion of both reviews. The results of these reviews are then submitted to the Chair of the Department, with recommendations that the Portfolio is, a) accepted as is, with the student receiving only the written feedback of the faculty reviewers, b) requires further revision and resubmission on the part of the student to be professionally acceptable, or c) requires a meeting between the student, the faculty reviewers, and the Chair in order for the review process to proceed. A Coursework Portfolio is considered to be successfully submitted only when the Chair of the Department signs off on it as such. (http://shss.nova.edu/Downloads/index.htm)

2. Clinical Portfolio

Clinical Portfolio is intended to provide an opportunity for students to demonstrate their clinical competence, creativity, and theoretical clarity, in a manner and setting similar to that which could be expected in a job interview situation. It should be viewed as the culmination of the in-house clinical training aspect of the doctoral program, and it is designed to allow students to demonstrate the full range and depth of their clinical skills and theoretical knowledge. A student may not submit a Clinical Portfolio for faculty review until they have successfully completed the minimum of four (4) required internal practicum courses. Student’s wishing to enhance their clinical skills or theoretical knowledge may do so with additional practica, clinical work, or supervision before submitting their Clinical Portfolio. All students must submit a Clinical Portfolio for review no later than the end of their 5th year of enrollment in the program.

Clinical Portfolio Components

There are 4 components to a Clinical Portfolio, and they are:

- All of a student’s internal practicum evaluation reviews
- Statement of Treatment Philosophy (5-7 pages, double spaced and APA formatted)
- Case Study (Written, single case from inception to treatment completion / evaluation)
- Video presentation (45 min–1 Hour, professional audience)

Internal Practicum Reviews

Students as a matter of practice should always retain any and all materials related to their work and/or performance in the program. At the end of each internal practicum, students review with their instructor a practicum evaluation form, giving detailed feedback and suggestions for future development. Students need to present the collection of these practicum evaluations over a minimum of 4 internal practica as the first component of their Clinical Portfolio review. Students have the option attaching their own editorial, explanatory, or reflective comments to this document.

Statement of Treatment Philosophy

The Statement of Treatment Philosophy document should be between 5-7 pages, double spaced, and should adhere to all applicable APA formatting conventions. In this document, students should articulate their current overall philosophy of treatment as it applies to their work in the field of marriage and family therapy. This philosophy statement assumes that the student under review is not a “fully formed” or fully finished professional, so it is allowable for the student to talk honestly and openly about the ways they assess their own current stage(s) of development. This statement may even be at odds with the case study or video materials presented in the other parts of the Portfolio, but if it is, it would be important for the statement to address how these disconnects are part of the overall development of the student. The important parts of this statement are the honesty, maturity, integrity and clarity with which the student describes their journey throughout the years of clinical training they have received in the course of the program, as well as the accuracy of any theoretical assertions they make as well. This document
can, and should, serve as a jumping off point for discussions between the student and the faculty reviewers about the current state of clinical development of the student.

**Single Case Study**

In this section of the Portfolio, the student is asked to describe, in writing, their experience as a primary therapist with a single case, from inception and introduction to completion and evaluation. The purpose of this section of the portfolio is to allow the student to describe in great detail the how they managed a case from beginning to end, and in the process of doing so, giving insight into the theories, techniques, approaches, assumptions, supervision, and feedback that guided them through the process. This component of the Portfolio will be evaluated by the faculty review committee using a rating scale that evaluates the student based on the following criteria:

1. All interactions between clients and therapist up to the point when a therapeutic contract is established. (Assesses the Admission to Treatment Core Competency Skills)
2. Activities focused on the identification of the issues to be addressed in therapy. (Assesses the Clinical Assessment and Diagnosis Core Competency Skills)
3. All activities focused on directing the course of therapy and extra-therapeutic activities. (Assesses the Treatment Planning and Case Management Core Competency Skills)
4. All activities designed to ameliorate the clinical issues identified. (Assesses the Therapeutic Interventions Core Competency Skills)
5. All aspects of therapy that involve statutes, regulations, principles, values, and mores of MFTs. (Assesses the Legal Issues, Ethics, and Standards Core Competency Skills)

Students should organize the respective sections of the written Case Study document accordingly. The Case Study document should also be written in a style that adheres to the most recent edition of APA formatting conventions.

**Video Segments Presentation**

This section of the Portfolio is designed to allow the student to demonstrate through video segments, the correlation between theory and their actual clinical practices. Each student is required to produce and display between 7-10 video segments that demonstrate the connections between “what they think” and “what they actually do”. For each segment presented, the student will assign a number to the clip, then describe the theoretical concept, construct, or technique that they believe most accurately reflects the actions that the audience is about to view. The members of the faculty review committee, after viewing the clip then offer a scaled response that reflects how accurately they believe the video segment actually reflected the concept, construct, or technique listed by the student on the following scale:

- 5 = Very Highly
- 4 = Well
- 3 = Adequately
- 2 = Only Somewhat
- 1 = Not at All

The concepts, constructs, or techniques that the student describes and shows video clips displaying can come from any of the classes, courses, or supervision they receive during their training in the program. The clips can be arranged to represent a single clinical point of view, or they may be arranged to represent a wide variety of the clinical approaches the student has used in the course of their training. This part of the Portfolio should be representative of a range of work that best demonstrates the student’s
acquisition of clinical and theoretical skills during the program, regardless of theoretical
approach.
Successful completion of this exam indicates the faculty’s belief that the student is
clinically prepared to perform successfully in real life situations and in outside clinical
settings. It is expected that students will conduct themselves in a professional and
collegial manner throughout the preparation of materials. Care should be taken regarding
appropriate dress, professional demeanor, clarity of presentation, and respect for clients
and colleagues.

Faculty Advisor
Once a student has completed all of the 4 requirements listed above, they may then seek
out the guidance of a “faculty advisor” in final preparation for their Clinical Portfolio
presentation. A student can approach a current member of the full time family therapy
faculty to serve in this capacity. The faculty member’s ability to serve is governed by a
number of factors, including how many other such requests are being made of them in
the same trimester. If the faculty member agrees to serve as the student’s faculty
advisor, that faculty member may not then serve as a member of the final faculty review
committee.

Once selected, the student may then present their completed materials to the faculty
advisor for review. The faculty advisor shall have a two week “turnaround time” to get
back to the student with feedback regarding the overall professional quality of the
presentation. The faculty member may suggest changes and revisions, which the student
is at liberty to accept or ignore. Approval to go ahead with the final presentation from the
faculty advisor should in no way be construed as an endorsement or guarantee of final
approval from the full faculty review committee. The role of the faculty advisor is simply
to allow the student some kind of access to faculty guidance before the actual
presentation of their clinical work. Once the student has received the comments of the
faculty advisor, they may then contact the program coordinator’s office to schedule a full
faculty committee review.

The full faculty committee will consist of three members of the full time family therapy
faculty, selected on a random, rotating basis. Once selected, the three members of the
faculty committee will also receive all of the portfolio materials for review. The review will
be a public event, scheduled for a maximum of two hours time. As a professional
presentation, it is important that the student allocate their time for presentation and
questions accordingly. Punctuality, time keeping, and facilitation are an important
parts of professional presenting.
The review will be publically announced to the Department of Family Therapy community,
and open for faculty and students to attend. It will be scheduled for a minimum two
weeks after the announcement is formally made. These events are not only a review of
the student’s portfolio of clinical work, but also an opportunity for active conversation
with, and about, the clinical work of their colleagues.

Upon completion of the public presentation, the three members of the faculty review
committee consider all of the materials presented in light of 1). the evaluation rubrics
attached to those materials, 2). the manner in which they were presented, 3). the overall
professionalism of the presenter, including dress, manner, tone, etc. 4). the manner and
substance of the ways in which the presenter handled questions, criticisms, theoretical
disagreements, or ethical concerns raised by reviewers or members of the audience
during the course of the review. The faculty review committee then decides whether or
not, as a consensus opinion, the student has satisfactorily presented a professionally
acceptable Clinical Portfolio. If the consensus reached is not unanimous among the
committee members, it is incumbent upon the dissenting opinion to inform the student of
their views, and the reasons for them, in a separate report. If a majority decides that the
Portfolio presented is not of acceptable professional quality, it is incumbent upon the
committee to fashion a detailed report of how and where the portfolio falls short of acceptable professional standards, and to make suggestions for remediation in the future. A student may only submit one Clinical Portfolio for review per trimester, and may only resubmit a Clinical Portfolio for re-review a maximum of 2 times. Any student who is unable to submit a professionally acceptable Clinical Portfolio after this will not be allowed to continue in the program.

**Portfolio Timeline Information**

There is no single guideline for the order or time frame in which portfolios are submitted. However, a student doctoral student may not begin their internship until they have successfully completed their Clinical Portfolio Review, and they may not sign up for credits until they have successfully submitted all of their Portfolio requirements. All portfolios must be completed by students by the beginning of their 5th year in the program. Failure to do so means that a student is at significantly greater risk of not completing the doctoral program within the prescribed 7 year limit, and may be grounds for the Chair of the Department to call a meeting to review the overall progress of the student.

**Individual Student Evaluations per Trimester**

Individual student evaluations are conducted at the end of each and every trimester by each instructor who has the student for class or practicum. These evaluations are based on the student’s overall performance, attitude, conduct, and preparation, and may or may not be reflective of the overall grade the student earned in the course.

Individual Student evaluations are a standard departmental form that is filled out by faculty at the end of every trimester for all the students enrolled in their class. Each student will receive a copy of their evaluations after each trimester is complete. Evaluations are based on a three system criteria.

1. Green light- the student met every requirement of the class in a way that the instructor has no lingering or overall concerns regarding the above listed criteria.
2. Yellow light- means the faculty member has recommendations to be discussed one on one with the student. The onus is on the student to seek out the instructor to discuss their concerns about their performance, and they should do so some time before the beginning of the next trimester. If a student and the instructor are able to amicably discuss and resolve the instructor’s concerns, the yellow light evaluation can be amended into a green light evaluation. If after this meeting there is disagreement about the issue or its resolution, the yellow light evaluation may stay in place, or it may become a Red light, in which case see below.
3. Red light- means that an issue or issues between the instructor and the student has risen to the level of concern that the instructor would like to involve the Chair of the Department to become aware of the issue(s). If a student is given a Red Light evaluation, the student then must make arrangements for a meeting with the instructor and the department chair as soon as is practical.

**3. Course Comprehensive Exam**

The Course Comprehensive Examination is a written exam assessing the student’s ability to apply the knowledge they have gained across cases and topics based on their coursework. To be eligible to register for the Course Comprehensive Exam, students must have completed their coursework and practicum experiences and be in good standing in the program. Students will register during the Summer or Fall term of their second year. The Course Comprehensive Exam will be administered on the first Monday, Tuesday, and Wednesday of July. In case of a holiday, the date will be moved forward by one day. This exam is a 3 day examination, which assesses the student’s integrative skills with regard to the 9 core doctoral curriculum courses.
The exam covers the four core family therapy courses, (DMFT 5010, 5020, 5030, & 5040) Quantitative Research I (DMFT 5410), Qualitative Research I (DMFT 6430), two theory courses, Language Systems (DMFT 5110) and Thinking Systems (DMFT 5120), and Teaching and Supervision (DMFT 6310). On day one, students will answer 4 of 5 questions from the above courses in a 5-hour period. On day two, students will answer 3 of 4 questions from courses not covered on day one in a 4-hour period. On the third day of the exam, students will be asked to critically evaluate a journal article utilizing information from their course work in a 5-hour period. Each answer will receive a grade of either “3” (excellent), “2” (adequate) or “1” (inadequate). A student may receive one grade of “1” and pass the examination. If a student receives 2-4 answers of “1”, they must undergo an oral examination based on the questions they received the “1” grade on.

This oral examination will be scheduled through the office of the Program Coordinator no sooner than 6 months and no later than 1 year after the exam is taken. If students fail to receive “adequate” scores on their oral exam, they must take the full written exam the next time it is offered, either July or December. If students receive more than four “1” scores, or if they fail to schedule their oral examination at least two months prior to the end of the one year deadline, they must take the full written examination when it is given the next year. If students fail the Course Comprehensive Examination twice, they will not be allowed to continue in the program.

Applied Clinical Project (ACP)
The Applied Clinical Project (ACP) should be seen as the capstone experience of the DMFT degree process. The ACP is the student’s demonstration of his/her ability to carry out a high quality, professional program of systemically based treatment. The ACP should be a project students carry out under SHSS faculty supervision from concept, to proposal, to implementation, and finally through eventual evaluation of the effectiveness of the program. An ACP is viewed as a career launching undertaking. At the time of its culmination, students should be able to articulate and demonstrate to other mental health professionals their unique area of systems based practice expertise.

Students select a full-time faculty supervisor and one other full-time faculty reviewer of their ACP only after they have completed the majority of their course work and have successfully passed both their Clinical and Course Comprehensive Examinations. All proposals, data collection, and analysis toward the completion of the ACP must be done under faculty supervision.

At the end of the ACP, students will develop a professional quality presentation and review of their entire project to a faculty committee and the public. The faculty committee will consist of their project supervisor, one other faculty reviewer, and any other terminally degreed professionals that the student wishes to invite. However, only full time faculty of SHSS will have the final say on the acceptability of the final product and its final presentation. Students register for a minimum of 12 credit hours of Applied Clinical Project. Students must continue to register for ACP credit hours until they complete, successfully defend, and finalize their project. This may entail taking more than the minimum of 12 Applied Clinical Project credit hours stipulated in the catalog. If for some reason, students cannot continue working on their ACP, they must apply in writing to their project faculty supervisor and the Department Chair for a leave of absence, which must be in place two weeks prior to the start of a trimester. If students request a leave for longer than one term or take a second term-long leave, they may not be able, upon their return, to continue with the project supervisor with whom they had
earlier been working. If a Leave of Absence is requested and approved, this does not extend the 7-year timeframe for completing the degree program.

**External Practicum**
The DMFT External Practicum is designed to provide the student with a supervised full-time clinical experience, emphasizing a relationally focused practice. The minimum time requirement to complete external practicum obligations is six to eight hours per week over the course of two academic terms. Before beginning External Practicum, students will work with the DFT Internship Coordinator to develop an External Practicum site and a contract with that site. Prior to beginning the external practicum experience, students must have a completed and signed copy of the internship contract signed by themselves, their internship site supervisor, their faculty supervisor, and the Department Chair. If proof of professional liability insurance coverage is needed for the Practicum site, a copy can be obtained from the Internship Coordinator. Practica will be evaluated by both the site supervisor and faculty supervisor each term, using the DFT program's practicum evaluation forms. Students will be invited to assess their own performance as well. These forms, designed by faculty, closely assess clinical skills and can be obtained online at our SHSS website and from the student's faculty supervisor.

The institution sponsoring the practicum site(s) will have been in operation for at least two years. Practicum site(s) will provide adequate facilities and equipment for the intern to carry out designated responsibilities. Students are required to have an AAMFT Approved Supervisor on site to supervise their clinical hours or obtain an outside AAMFT Approved Supervisor and meet all other practicum requirements per the SHSS/DFT Contract.

**The Supervision and Teaching Course and Practica**
Before taking Supervision and Teaching course (DMFT 6310), students must have successfully passed Internal Practicum II (DMFT 6200). Students may wish to take both the Teaching Practicum (DMFT 7360) and the Supervision Practicum (DMFT 6320); however, only one is required. Students must obtain faculty approval for taking either of these courses. Typically, these Practica will entail assisting a faculty member in teaching or supervising a master's level course, though in some instances, helping with doctoral courses is possible.

To obtain permission to take either supervision or teaching Practica, students should seek out the full-time faculty member they wish to work with and specify what capacity they would like to work with them. If the faculty member agrees to work with the student, the student should then email the faculty member detailing what they have agreed on with a copy to the Department Chair for final approval. Such notice should be given well in advance of that term’s registration period.

**Individual Supervision for State Licensure or AAMFT**
There may be occasions after the completion of formal course work when doctoral students wish to seek private, individual clinical supervision from a member of the faculty. Before approaching a faculty member with such a request, students must have already successfully completed all required Practica and have successfully passed all qualifying exams. Since such supervision is not considered part of the curriculum, the contract between the student and the supervisor, including frequency of meetings, responsibilities, and costs, will be settled privately. The department stipulates that faculty members may not provide private clinical supervision for students whose Applied Clinical Project they are supervising or serving on as readers. A Licensure Exam Review is
provided by the Department at various times throughout the year to support our alumni in becoming licensed and working in the MFT field.

**Concentration in Family Systems Health Care**

Students in the DMFT program in Family Therapy may choose to pursue a concentration in Family Systems Health Care. The concentration focuses on the relationships between psychosocial medicine and biomedicine in the treatment and prevention of illness and disease. Students are taught the basics of bio-psychosocial theory, practice, and collaboration. The program prepares professionals to offer family therapy in a variety of medical settings, including private practices, hospitals, community clinics, primary care/specialists’ offices, and hospices.

Students in the Family Systems Health Care concentration program have ample opportunities to gain practical expertise through classroom learning and hands-on clinical, research, teaching, and service experiences. Specific areas of study include: adjustment patterns of clients and their families to chronic and acute illnesses; models of collaboration between medical family therapists and other health care professionals; the role of medical family therapists in the continuum of medical services; the politics and economics of health care; understanding human systems in health care; and brief interventions and systemic assessments useful in the treatment and care of patients and their families. Additionally, the program emphasizes professional development by assisting students in strengthening their personal qualities necessary for successful participation in the medical milieu.

The student’s growth as a reflective practitioner is encouraged through clinical research in physician/client/therapist/family communication, adjustments to acute, chronic, or terminal illness, social effects and ethical dilemmas of new medical technologies, and other issues that transcend historical distinctions between physical treatment and psychosocial interventions. Program faculty and students cooperate to publish research findings and clinical experiences. Also, faculty and students of the program contribute to the growth of Family Systems Health Care and medical family therapy by supporting and participating in groups like the Collaborative Family Health Care Coalition, the Society of Teachers of Family Medicine, and others.

In addition to degree requirements, students must complete the following coursework to receive a Concentration in Family Systems Health Care:

- FSHC 5000 – Family Systems Health Care I
- FSHC 5010 - Family Systems Health Care II
- FSHC 5100 - Practicum I in Family Systems Health Care*
- FSHC 5110 - Practicum II in Family Systems Health Care*
- FSHC 5300 – Integration and Collaboration Among Health Care Systems
- FSHC 5500 - Politics and Economics of Health Care
- FSHC 6400 - Understanding Human Systems in Health Care Settings

* Students may choose to do their External Practicum in a medical setting to obtain the required 100 hours of face-to-face client contact for this concentration.

*The catalog is periodically updated online.
**ABOUT OUR MASTER’S PROGRAMS**

**M.S. in Conflict Analysis & Resolution**

**Program Description**
The M.S. in Conflict Analysis & Resolution is designed to train reflective professionals in the practice, design, and evaluation of a variety of conflict resolution applications. The M.S. program focuses on pragmatic approaches to solving problems inherent in human social relations. Students are exposed to a wide array of techniques and strategies to help people achieve nonviolent, non-litigious solutions for conflicts that arise in many personal, professional, organizational, and social environments. The M.S. program consists of a 13-course (39 credits) sequence that includes conflict resolution theory, practice skills, field placement, research design, and program evaluation.

You may elect to complete a general course of student or pursue concentrations in the following areas:
- Conflict & Crisis Management
- Culture and Ethnic Conflict
- International Peace and Conflict
- Conflict in Organizations and Schools

Students pursuing a concentration must take 6 additional credits above degree requirements.

**Program Formats**
The M.S. program is offered in both residential and distance learning formats. These flexible formats allow mid-career working adults and those unable to attend the on-campus program, to study conflict resolution in a creative, rigorous, and structured fashion. Students enrolled in the online program participate in Residential Institutes on the Fort Lauderdale campus twice per year, as well as online Web-based courses.

Students may enroll full or part time, taking six to nine credit hours per term. Students who attend full-time can expect to complete the program in 19 months. Part-time students will complete the program in 2 ½ years. Summer attendance is mandatory.

Students taking online classes are required to attend two Residential Institutes (RI) per academic year. Each RI is 5 days. Currently the RIs are held in February and October. Please visit [http://shss.nova.edu/RI](http://shss.nova.edu/RI) for current information. New students may have an additional day at RI for the Graduate Student Seminar.

**Faculty Mentors**
Each student upon enrollment in the program will be assigned a faculty mentor. The mentor acts as a guide to the student in terms of selection of electives and professional planning. The mentor should also be consulted for guidance event the event the student experiences difficulty in the program. After the student has been taking classes in the department, the student may ask to be assigned to any other DCAR faculty member as their mentor. This request should be made to the Program Coordinator. The Program
Coordinator will attempt to honor the student’s request to the extent possible while striving to maintain a consistent ratio between students and mentors.

**Student Advising**
A student who wishes to seek advising regarding course selection or their degree plan should consult with the Program Coordinator or the Practicum Coordinator. In addition to coordinating their practicum experience, the Practicum Coordinator maintains and updates degree plans.

**Degree Plans**
Below is a sample of a degree plan for a full-time student who begins their studies in the Fall term. Degree plans will be modified based on a student’s enrollment date and pace of study.

**Degree Plan: 39 credits hours**

**Program Specifics**

**Practicum**
To complete the M.S. in Conflict Analysis & Resolution, students must complete a total of 130 hours of practicum. Students are responsible for documenting practicum hours, and must have these hours verified and signed by an on-site supervisor. The practicum experience is designed to provide students with an experiential opportunity to utilize conflict resolution methodology and theory within a diversity of professional settings. Students will have the opportunity to apply theoretical concepts within a practical framework.

Practicum I and II provide a community placement for the student to develop and refine practitioner skills. Using the Practicum experience, students have the opportunity to apply theoretical concepts within a practical framework under the supervision of an
on-site supervisor. The Practicum Coordinator will work with students to establish a placement suited to each student's interests, if possible.

Practicum placements have been established in an array of settings, such as schools, prisons, court systems, parks, human services agencies, community organizations and corporations. Additionally, the student is encouraged to explore and initiate a Practicum setting specific to their own individual interests. If a student finds an appropriate site, the Practicum Coordinator will assist the student in calling the site and negotiating for a placement.

Additionally, the student will attend a Practicum class with course work and faculty supervision. The student must receive contractual approval from both the Practicum Coordinator and the agency on-site supervisor before beginning the required Practicum hours. The student is responsible for documenting Practicum hours and receiving supervisor approval. The practice component of the student's Practicum is evaluated by the on-site supervisor each term; this evaluation is combined with the classroom performance and course requirements and converted into a final overall grade by the professor teaching the course.

Please consult the Practicum Coordinator and Practicum Professor for detailed information. During each term and at every Residential Institute, one or more Practicum Advising sessions are scheduled. Students who have not yet registered for practicum courses are encouraged to attend one or more sessions. Students may also seek individual in-person or telephonic appointments with the Practicum Coordinator for assistance with practicum placements.

Please visit http://shss.nova.edu/Downloads/car.htm for the Practicum Handbook and forms.

**Master's Thesis Option**
The student may write a research thesis. The thesis is 6 credits and counts as two electives. Instead of the electives offered in the fall and winter terms of the second year, thesis students register for Master's Thesis. Entrance into the thesis track is not automatic; students must meet eligibility requirements.

Please visit http://shss.nova.edu/Downloads/car.htm for the Master's Thesis handbook.

**Examinations and Evaluations**
In addition to successfully completing all course work, and obtaining the required practicum hours discussed above, students must pass a comprehensive examination to be awarded the M.S. in Conflict Analysis & Resolution. To be eligible to sit for the exam, a student must have completed all coursework and practicum hours, have maintained a "B" average in all classes with no "incomplete" grades, and be considered in good standing with no disciplinary actions pending or disciplinary tasks to complete. Students must also have met their financial obligations to the university to be in good standing and be able to register for the exam. The comprehensive exam is an assessment of one's ability to integrate the knowledge and skills gained through course work and the practicum experience. The exam tests a student's written ability to critically analyze and apply conflict assessment, theory, and research methodology to hypothetical conflict situations. The exam also tests knowledge of material specific to the academic curriculum.
The comprehensive exam is offered twice a year: in January and June. The exam has two sections; students must answer two questions from each section. The sections are:

- Theories (morning)
- Practice (afternoon)

The exam takes an entire day. The student is given four hours to complete each section, with a lunch break in between sections. Students have the choice of sitting for the exam on NSU’s main campus, at selected NSU Educational Centers, or at another site approved by DCAR. If the student takes the exam at NSU or an NSU center, there are no assessed fees related to the exam. Some approved locations, such as testing centers, may charge a fee for proctoring the exam. Should the student choose to take the exam at such a location, that fee is the responsibility of the student.

Two faculty members grade each question. Students are assigned an examination number. Thus, faculty members do not know whose answers they are reviewing. All four questions must be answered correctly to pass the exam. Students must retake any questions failed. Students have five years to complete all degree requirements.

Both reviewers must award a passing grade, in order for it to be deemed that the student passed each question. If one reviewer submits a passing grade and the other submits a failing grade, they will be asked to confer. If they subsequently concur, then the grade has been determined. If they do not agree, the chair shall appoint a third reviewer. The third reviewer’s grade shall determine whether the student has passed or failed the section.
M.S. in Family Therapy

Program Description
The M.S. in Family Therapy is designed to help students develop clinical excellence and prepare for careers as marriage and family therapists. Students are prepared to assume professional positions in private practice, employee assistance programs, managed care and health care organizations, child care and child development systems, family service agencies, schools, churches, hospitals, and other clinical and organizational settings.

The 48-credit hour degree program consists of coursework and clinical practice. Training is concentrated on brief, interactional models of family therapy, preparing our graduates to practice in a time-sensitive, cost-effective manner. The M.S. in Family Therapy has full accreditation with the:

Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE) of the American Association for Marriage and Family Therapy (AAMFT)
112 South Alfred Street, Alexandria, VA 22314-3061
(703) 838-9809
http://www.aamft.org

The full re-accreditation period is effective July 1, 2002-June 30, 2007.

The program fulfills the academic requirements for state licensure in Florida and for clinical membership in AAMFT. Additional post-master's clinical experience is required for both credentials.

Program Formats
Students may enter the M.S. program in the Fall, Winter, or Summer term. Students may enroll full or part time, taking six to nine credit hours per term. Students who begin in the Winter or Summer term may be part time students for one or two terms.

Students who attend full-time can expect to complete the program in 2 years. Part-time students can expect to complete the program in 3 years depending on the pace of study. Summer attendance is required.

Degree Plans
Following is a sample of a degree plan for both residential and distance full-time students who begin their studies in the Fall term. Degree plans will be modified based on a student's enrollment date and pace of study.

**Program Specifics**

**Practicum**

Students in the program receive clinical training and experience at the Family Therapy Clinic, NSU’s own family therapy clinic, which serves a wide variety of clients from all life circumstances. Students cannot enroll in a practicum until they have taken Introduction to Systems Theories, Introduction to Marital and Family Therapy, and Legal, Ethical, and Professional Issues. Students enrolled in their practicum will be covered by the Department’s professional liability insurance. Students may obtain proof of professional liability insurance from the Internship Coordinator’s office. In addition, after the initial training, students are placed in an off-campus internship site for two terms or more as needed to complete the required hours of clinical experience for graduation. Available internship sites offer students the opportunity to specialize in work with individuals, couples, families of culturally diverse background, families with a child experiencing school problems, families coping with a chronically ill family member, and other special populations. The opportunity for intense, closely supervised, and widely varied clinical experience is an important feature of our program. Recently, students have been placed in various locations, including schools, agencies, hospitals, and private practices.

To complete the M.S. in Family Therapy, students must complete 500 hours of client contact, 250 of which must be with couples and families. Students also must accumulate at least 100 supervision hours, 50 of which must be based on direct observation, videotape, or audiotape. They are responsible for documenting clinical and supervision
hours, using the forms provided at Family Therapy Clinic or on the SHSS website under student resources. Students are required to keep a copy of all documentation pertaining to both Internal and External Practica. This includes their hours forms, contracts, and evaluations. A student’s first two Practica are at the Brief Therapy Institute; therefore, they are called Internal Practica. Students must pass the first two Internal Practica to be eligible to continue clinical training in two External Practica. The External Practica are internships in the community where students work in school, hospital, agency, private practice, and other settings.

Before students begin their External Practicum, they work with the DFT Internship Coordinator to identify and develop an External Practicum site and a contract with that site. Prior to beginning the external practicum experience, students must have a completed copy of the internship contract signed by themselves, their internship site supervisor, their faculty supervisor, and the Department Chair. If proof of professional liability insurance coverage is needed for the Practicum site, a copy can be obtained from the Internship Coordinator. Students may not work at their practicum site prior to the completion of their contract.

In order to obtain client contact hours at a site, students must register for an External Practicum and be supervised by a faculty AAMFT Approved Supervisor. They will meet with their faculty supervisor for one hour of face to face supervision per week. The site supervisor must be a licensed or licensed eligible mental health professional to meet our requirement. Students will also be supervised by their site supervisor.

There are four important pieces of information that students must provide the Internship Coordinator prior to beginning their internship:

1. The original signed copy of the internship contract
2. A resume of the on-site supervisor to demonstrate that he or she has a master’s degree and is a licensed mental health professional or meets the equivalent criteria and a copy of the AAMFT Supervisor Certificate, if applicable
3. A brochure or written information about the internship site
4. A written description from the on-site supervisor about internship duties and responsibilities.

Students should plan on acquiring a minimum of 15 client contact hours per week at their site to be sure of completing the 500 required client contact hours and supervision hours within two terms. Many students take a third external practicum to obtain the required hours and to follow their site contract requirement (i.e., in a school system where interns need to be throughout the year). Most students will need to schedule additional time at the internship sites to complete paperwork, allow for missed appointments, and become a valued part of their site. Thus, 20 hours a week committed to the internship site is realistic. This time may include weekdays, evenings, and/or weekends, depending on the site requirements. If students cannot commit this much time to a site, they should prepare for the possibility of accruing more hours with additional external Practica, which must be repeated indefinitely for credit until they have accumulated the required 500 client contact hours and supervision hours. If students want a more diverse experience, or are not accumulating hours rapidly enough at one internship site, it is quite possible to contract with a second site. A contract for each internship site must be completed prior to beginning at that site. The internship contract should be clearly understood by all parties.
Practica will be evaluated by both the site supervisor and faculty supervisor each term, using the program's practicum evaluation forms. Students will be invited to assess their own performance as well. These forms, designed by faculty, closely assess clinical skills and can be obtained online at the SHSS website and from the student's faculty supervisor, or the Internship Coordinator. A theoretical article detailing the construction of the practicum evaluation form and the reasons for including each item has been written by three program faculty members and is available to students. The article was published in a leading family therapy journal.

**Examinations and Evaluations**

In addition to successfully completing all coursework and obtaining the required 500 client contact hours and 100 supervision hours as discussed above, students must pass a comprehensive examination in order to be awarded the M.S. degree in Family Therapy. This clinically focused examination tests the student's ability to apply what has been learned. Students will be eligible to take the examination when they have completed 400 or more client contact hours and have completed their course work by or before the end of the term during which the examination is taken, unless they have one remaining summer course to complete. Students who have two or more courses to complete will be eligible to take their Comprehensive Exam at the end of the Fall term.

The examination consists of 11 questions. Students will need to answer 10 out of the 11 questions. A score of 8 out of 10 correct is passing; 7 out of 10 questions correct means that a student must partially retake the exam at the next scheduled exam date, repeating only the 3 questions that were previously missed. Less than 7 correct answers is a failing score and means a student must partially retake the exam at the next scheduled exam date. Each examination answer is reviewed independently and blindly by three faculty members. Two out of the three faculty reviewers must independently conclude the answer is incorrect before it is so judged. Students may appeal their Comprehensive Examination grade to the M.S. Department Chair. The Comprehensive Examination may be retaken one time after an initial failure. Scoring of the second exam follows the above requirements; two failed examinations result in dismissal from the program. The M.S. Comprehensive Examination is given twice per year, the third Friday in April and the second Friday in December. Retake exams are scheduled within three months from the original exam date or at the next examination date in December. Students are not eligible to walk in the graduation ceremony until they have successfully passed the comprehensive exam.

A student may request a Leave of Absence, which must be approved two weeks prior to taking a leave. This does not extend the 5-year timeframe for completing the degree program.

**Individual Supervision for State Licensure or AAMFT**

There may be occasions after completing the master’s degree that graduates wish to seek private, individual clinical supervision from a member of the faculty. Before approaching a faculty member with such a request, students must have already successfully completed all degree requirements.

**Concentration in Family Systems Health Care**

Students in the M.S. program in Family Therapy may choose to pursue a concentration in Family Systems Health Care. The concentration in Family Systems Health Care focuses on the relationships between psychosocial medicine and biomedicine in the treatment and prevention of illness and disease. Students are taught the basics of biopsychosocial theory, practice, and collaboration. The program prepares professionals to offer family
therapy in a variety of medical settings, including private practices, hospitals, community clinics, and primary care/specialists' offices.

Students in the concentration program have ample opportunities to gain practical expertise through classroom learning and hands-on clinical, research, teaching, and service experiences. Specific areas of study include: adjustment patterns of clients and their families to chronic and acute illnesses; models of collaboration between medical family therapists and other health care professionals; the role of medical family therapists in the continuum of medical services; the politics and economics of health care; understanding human systems in health care; and brief interventions and systemic assessments useful in the treatment and care of patients and their families. Additionally, the program emphasizes professional development by assisting students in strengthening their personal qualities necessary for successful participation in the medical milieu.

The student's growth as a reflective practitioner is encouraged through clinical research in physician/client/therapist/family communication, adjustments to acute, chronic, or terminal illness, social effects and ethical dilemmas of new medical technologies, and other issues that transcend historical distinctions between physical treatment and psychosocial interventions. Program faculty and students cooperate to publish research findings and clinical experiences. Also, faculty and students of the program contribute to the growth of Family Systems Health Care and medical family therapy by supporting and participating in groups like the Collaborative Family Health Care Coalition and the Society of Teachers of Family Medicine.

In addition to degree requirements, students must complete the following coursework to receive a Concentration in Family Systems Health Care:

- FSHC 5000 – Family Systems Health Care I
- FSHC 5010 – Family Systems Health Care II
- FSHC 5100 – Practicum I in Family Systems Health Care (replaces SFTM 6300 – External Practicum I)
- FSHC 5110 – Practicum II in Family Systems Health Care (replaces SFTM 6300 – External Practicum II)
- FSHC 5300 – Integration and Collaboration Among Health Care Systems
- FSHC 5500 – Politics and Economics of Health Care
- FSHC 6400 – Understanding Human Systems in Health Care Settings

*The catalog is periodically updated online.

---

**M.A. in Cross-disciplinary Studies**

**Program Description**

The M.A. in Cross-disciplinary Studies (MACS) is multidisciplinary, experiential, and allows students to self-design their graduate studies. The program is designed to meet the needs of students who are seeking a broader learning forum and who appreciate the unique self-design of cross-disciplinary studies. The M.A. program provides intellectual advancement and the opportunity to expand and enrich educational horizons in keeping with the liberal studies traditions. The M.A. program utilizes a multidisciplinary approach and variety of perspectives for observing, analyzing, and addressing contemporary social issues. Students focus on systemic approaches and methodologies when studying human
challenges. MACS utilizes experiential learning to provide students with hands-on training where theory and practice are integrated.

MACS consists of an 11-course (33 credits) sequence that includes core classes, practicums, and a 12-credit concentration track.

**Program Formats**
MACS aims at convenience and accommodation by utilizing online course delivery format and self-designed programs. The students enrolled in the program are afforded the greatest flexibility in self-selecting and self-directing their concentrated areas of interest, while at the same time retaining and reinforcing an emphasis on general professional skills. Students can complete the program completely online, but have a large selection of on-campus courses from which to choose.

Students may enroll full or part time, taking six to nine credit hours per term. Students who enroll in nine credits per term may complete the program in four terms. Part-time students can complete the program in 2 years. Summer attendance is mandatory.

**Student Advising**
In the MACS program it is essential for a student to seek advice regarding course selection and their degree plan. They are expected to keep in periodic contact with the Department Chair as well as the staff of the department. In addition to coordinating their practicum experience, the Practicum Coordinator assists with career planning and serves as a liaison between the department and the NSU Office of Career Development. Students are also encouraged to seek the advice of faculty in the departments in which they are taking courses.

**Master’s Thesis Option**
Students who wish to complete a 6-credit Master’s Thesis may do so by completing 3 additional credits. Students must request permission from the DMS Chair before enrolling for the Master’s Thesis. For more information about the Thesis option, please consult with the department chair.

**Degree Plans**
Below is a sample of a degree plan for a full-time student who begins their studies in the Fall term. Degree plans will be modified based on a student’s enrollment date and pace of study.

<table>

</tbody>
</table>
Practicum
To complete the M.A. in Cross-disciplinary Studies, students must complete a total of 130 hours of practicum. Students are responsible for documenting practicum hours, and must have these hours verified and signed by an on-site supervisor. The practicum experience is designed to provide students with an experiential opportunity to utilize theory and methodology within a diversity of professional settings. Students will have the opportunity to apply theoretical concepts within a practical framework.

Practicum I and II provide a community placement for the student to develop and refine practitioner skills. Using the Practicum experience, students have the opportunity to apply theoretical concepts within a practical framework under the supervision of an on-site supervisor. The Department Chair and the Practicum Coordinator will work with students to establish a placement suited to each student’s interests, if possible.

Practicum placements have been established in an array of settings, such as schools, prisons, court systems, parks, human services agencies, community organizations and corporations. Additionally, the student is encouraged to explore and initiate a Practicum setting specific to their own individual interests. If a student finds an appropriate site, the Practicum Coordinator will assist the student in calling the site and negotiating for a placement.

Additionally, the student will attend a Practicum class with course work and faculty supervision. The student must receive contractual approval from both the Practicum Coordinator and the agency on-site supervisor before beginning the required Practicum hours. The student is responsible for documenting Practicum hours and receiving supervisor approval. The practice component of the student’s Practicum is evaluated by the on-site supervisor each term; this evaluation is combined with the classroom performance and course requirements and converted into a final overall grade by the professor teaching the course.

Please consult the Department Chair and the Practicum Coordinator for detailed information. During each term and at every Residential Institute, one or more Practicum Advising sessions are scheduled. Students who have not yet registered for practicum courses are encouraged to attend these sessions. Students may also seek individual in-person or telephonic appointments with the Practicum Coordinator for assistance with practicum placements.

Please visit [http://shss.nova.edu/Downloads/car.htm](http://shss.nova.edu/Downloads/car.htm) for the Practicum Handbook and forms.

Final Portfolio Project
For students in MACS there are two options as a final project at the end of the program, the thesis or portfolio. For more information about the thesis option, please refer to the Thesis Guidelines.
The portfolio project is designed to demonstrate the cross-disciplinary perspective students acquired and honed in the program. Students will use the portfolio to present what they learned through their own personalized curriculum.

The completed portfolio will respond to the following questions:

- Why did this student choose to do graduate work in Cross-disciplinary Studies?
- How did this student decide on a concentration track?
- How did this student’s perspective on Cross-disciplinary Studies evolve over the course of the program?
- How does this student intend to utilize his/her graduate education in the professional marketplace?

The completed portfolio will contain narrative sections responding to the above questions as well as exhibit and comment on selections of the student’s work completed during his/her time in the program. Work selections must be drawn from a minimum of four different courses the student took while in the program. The portfolio must clearly identify these courses. One of these courses must be a MACS core course. Selections of the student’s work exhibited in the portfolio may include but are not limited to the following:

- Research papers
- Professional projects completed during the student’s practicum sequence
- Oral presentations
- Course journal entries

The completed portfolio will also include both the resume the student used as he/she applied for admission to the program as well as the student’s updated resume reflecting the academic expertise he/she gained as a graduate student in Cross-disciplinary Studies.

The portfolio shall contain the following:

Title Page
Table of Contents
Introduction-Here the student will introduce the theme of their portfolio
Four Narrative Sections, each responding to the four areas listed above
Final Reflections
References
Appendix-this shall be made up of copies of the work cited as well as the resumes

The Theme

Since MACS provides students with the invitation and opportunity to co-create their program using courses from multiple disciplines, the theme of the portfolio is generally an interdisciplinary perspective selected by the student regarding a particular topic. For example, a student may have focused on the environment and society, taking courses from the Oceanographic Center as well as courses such as Environmental and Public
Disputes from SHSS. In addition, the student took MACS required courses such as Practicum and may have selected an environmental action group as their site. The student may be interested in how communities and environmental groups can work together. That may become the theme and the student would select examples of their work from four of more courses related to this theme and show how the selected MACS, their concentration, how their perspectives evolved and how they intend to utilize their graduate education in the professionally.

**Four Narrative Sections**

Each section is related to one of the four questions students are asked to address (See above). Each section is a narrative and uses examples of the theories, models, literature, from the courses to substantiate the student’s points and perspectives. Examples of the student’s work should be woven throughout each narrative. Full examples will be placed in the Appendix, but parts of the work will be cited in each narrative.

**Final Reflections**

This is where students will look at their graduate study in MACS and make their final concluding remarks.

**Appendix**

The Appendix shall contain the examples of the student’s work cited in the narratives. For example the student may have cited parts of their Integrated paper from Practicum I. In the Appendix they shall place a full copy of the paper, whereas in the narratives they were citing specific parts of the paper. They will also include the resumes as mentioned above.

**Format**

The portfolio draft should be submitted to the department chair before it is placed into the final form. Once the draft has been approved, the final Portfolio should be submitted. The final portfolio should be printed with named tabs separating the sections after the Table of Contents. It should be preferably coil bound, but may be spiral bound if exceptionally large. It will be retained therefore students should produce two copies so they may retain a copy. Once the portfolio has been approved and all other requirements are met, the student may apply for conferral of degree.

**Concentration Tracks**

M.A. students choose a concentration track. Currently, concentrations are available using specific courses within the Graduate School of Humanities and Social Sciences, the College of Allied Health and Nursing (Masters of Medical Science), the Graduate School of Computer and Information Sciences, the Oceanographic Center, the Farquhar College of Arts and Sciences, the Criminal Justice Institute, and the Fischler School of Education and Human Services. Concentration tracks consist of 12 credits within a concentration.

MACS also offers a number of courses designed to help students focus on topics and areas of their academic and professional interest. MACS has initiated courses such as Transformational Narratives, Foundations of Genocide, Editing I and II, and Introduction to Institutional Assessment. In addition, MACS has introduced the Directed Readings courses. These courses are designed to provide opportunities for a student to work one-
on-one or in small group seminar format with faculty on specific topics of the student’s interest. Directed Readings are offered in topics such as Media and Public Policy, Native American Studies, Sociology, Gender, Diversity and Multiculturalism, African American Studies, Social Justice, Religion and Society, Tribal Dynamics, Human Rights, Transformational Poetry, Homeland Security, Community Development, Latin American Studies, Philosophy, Family Violence, and Political Science. See the course list for details.

Students work closely with the department in the selection of a concentration and in their choice of the courses offered within that concentration. Generally the concentration is also linked to the practicum experience to best enhance the student’s knowledge and skills in the area of their specialty.

**Graduate Assistantship**

MACS students in good standing may apply for the program’s graduate assistantship. The graduate assistant may perform research, work in community projects, and provide other services as needed by the department.

### M.S. in College Student Affairs

**Program Description**

The M.S. in College Student Affairs is designed to prepare students for the expanded roles and responsibilities of student affairs professionals in today’s diverse college and university educational environments. Students will learn and experience the practical application of the knowledge base and skill sets of student affairs administration and conflict analysis and resolution in higher education organizational settings. The program is designed for students who are interested in a career in student affairs, and for those currently working in student affairs who seek to advance their own personal knowledge and professional credentials. The M.S. program consists of a 15 course (45 credits) sequence that places emphasis on two core concentrations, Conflict Analysis and Resolution and Student Affairs in Higher Education.

*Students who are counting a concentration in Organizations and using College Student Personnel Administration courses towards their degree in Conflict Analysis and Resolution will not be able to complete the M.S. in College Student Affairs as an additional degree.*

**Program Formats**

The M.S. program is offered in both residential and distance learning formats. The flexible distance learning formats allow mid career working adults and those unable to attend the residential program, to study college student affairs in a creative, rigorous, and structured fashion. Students enrolled in the distance learning program participate in Residential Institutes on the Fort Lauderdale campus twice per year, as well as online Web-based courses. Each RI is 5 days long. Currently the RIs are held in February and October. Please visit [http://shss.nova.edu/RI](http://shss.nova.edu/RI) for current information.

Students may enroll full or part time, taking six to nine credit hours per term. Students who attend full-time can expect to complete the program in five terms. Part-time students can expect to complete the program in three years. Summer attendance is mandatory.
Degree Plans

Program Specifics
Practicum
To complete the M.S. in College Student Affairs, students must complete a total of 130 hours of practicum. Students are responsible for documenting practicum hours, and must have these hours verified and signed by an on-site supervisor. The practicum experience is designed to provide students with an experiential opportunity to utilize student affairs theory and practice within a diversity of professional settings. Students will have the opportunity to apply theoretical concepts within a practical framework.

Students complete two practicums during their course of study. Practicum I offers students the opportunity to explore a breadth of student affairs functions and gain exposure, knowledge and experience in the variety of programs and services that make up a college/university division of student affairs: residential life, housing, career services, student union, student activities, leadership development, recreation and wellness, volunteer services, special events, judicial programs and the office of the dean of students.

Practicum II will offer students the opportunity to gain in-depth exposure, knowledge and experience in a selected area of specialization in student affairs that supports their professional goals and prepares them to work in a professional student affairs position. Practicum II has a specific focus on career development in the College Student Affairs profession. Practicum experiences may take place at Nova Southeastern University or another college or university.

Graduate Assistantships
Graduate Assistantships will be available in the diverse functions within the Office of Student Affairs at NSU to students enrolled full-time in the CSA program.

Assistantships are 12-month appointments and offer partial tuition remission, a stipend, meal plan, and housing for those living on campus. Students accepted to the full-time CSA program may apply for a Graduate Assistantship position by contacting Dr. Gay Holliday, Associate Dean of Student Affairs in the Office of the Dean of Students at NSU.

Examinations and Evaluations
In addition to successfully completing all course work, and obtaining the required practicum hours discussed above, students must pass a comprehensive examination to be awarded the M.S. in College Student Affairs. When a student has completed all coursework and practicum hours, has maintained a "B" average in all classes with no "incomplete" grades, and is a "student in good standing" with no disciplinary actions pending or disciplinary tasks to complete, the student will be eligible to take the comprehensive examination. The comprehensive exam is an assessment of the student's ability to integrate the knowledge and skills gained through course work and the practicum experience. The exam tests the student's written ability to critically analyze and apply conflict assessment, theory, and research methodology to hypothetical conflict situations. The exam also tests knowledge of material specific to the academic curriculum.

The comprehensive exam is offered twice a year: in January and May. The exam has two sections; students must answer two questions from each section.

The exam takes an entire day. The student is given four hours to complete each section, with a lunch break in between sections. Students have the choice of sitting for the exam
on NSU’s main campus, at selected NSU Educational Centers, or at a testing center approved by the department. If the student takes the exam at NSU or an NSU center, there are no assessed fees related to the exam. Some approved locations may charge a fee for proctoring the exam. Should the student choose to take the exam at such a location, that fee shall be assessed to the student.

Two faculty members grade each question. Students are assigned an examination number. Thus, faculty members do not know whose answers they are reviewing. Both reviewers must award a passing grade, in order for it to be deemed that the student passed each question. If one reviewer submits a passing grade and the other submits a failing grade, they will be asked to confer. If they subsequently concur, then the grade has been determined. If they do not agree, the chair shall appoint a third reviewer. The third reviewer’s grade shall determine whether the student has passed or failed the section.

All four questions must be answered correctly to pass the exam. Students who fail any part of the exam must retake the failed sections(s) of the exam when the exam is offered. The exam is offered in January and May. They may choose the option of sitting for an oral exam in the section(s) failed prior to the next time the exam is offered. In order to choose this option they must make a formal request to the department chair within 30 days of notice of the exam results. The oral exam will be scheduled within 45 days of notice of the exam results. If the oral exam is not successfully passed, the student shall sit for the failed section(s) when the exam is next offered. Students have five years to complete degree requirements.
ABOUT OUR GRADUATE CERTIFICATE PROGRAMS

The SHSS Graduate Certificate programs prepare students for the changing nature of professions, businesses, and community services. They provide needed knowledge, methods, and skills leading to career advancement and life enlightenment in the fields of study. Graduate Certificate programs are beneficial for those who have already received a graduate degree in their current area, but would like to specialize in the new area of inquiry and practice. Graduate Certificate programs are also appropriate for those who possess an undergraduate degree and are seeking to obtain the fundamentals in the considered field of study. Many of the earned credits can also be counted toward a related master’s degree or doctoral degree program, if the student is interested in and accepted to the program at a later time. Below is a description of the various SHSS Graduate Certificate programs.

Graduate Certificate in Advanced Conflict Resolution Practice

The Graduate Certificate in Advanced Conflict Resolution Practice offers students the fundamentals of applied conflict resolution and advanced training in the conflict resolution “skill-set.” It is intended to meet the needs of those individuals who seek more expertise in conflict resolution and are mainly interested in becoming practitioners in the field. It may also be appropriate for professionals who have already earned a graduate degree in their professional area, but who would benefit from academic study of applications of conflict analysis & resolution in their current profession.

The Graduate Certificate consists of five courses (15 credits), which include conflict resolution theory and practice skills. Students who decide to continue their studies in conflict resolution may apply these credit hours toward the M.S. or the Ph.D. program in Conflict Analysis and Resolution if accepted to the program.

The Graduate Certificate in Advanced Conflict Resolution Practice is offered in both residential and distance learning formats. These flexible formats allow mid-career working adults and those unable to attend the residential program, to study conflict resolution in a creative, rigorous, and structured fashion. Students enrolled in the distance learning program participate in Residential Institutes on the main campus twice per year, as well as online Web-based courses.

Students may enroll full or part time, taking three to nine credit hours per term. Students who attend full-time can expect to complete the program in 10 months. Part-time students will complete the program in 16 months. Summer attendance is mandatory.

Degree Plans

Below is a sample of a degree plan for a full-time student who begins their studies in Fall term. Degree plans will be modified based on a student’s enrollment date and pace of study.

Graduate Certificate in Family Systems Health Care

The Graduate Certificate in Family Systems Health Care offers students the fundamentals of the application of systemic family theories and applications in health care settings. The Graduate Certificate in Family Systems Health Care is appropriate for professionals who have already earned a graduate degree in their professional field and who would benefit from academic study of applications of family systems in health care settings. It is also intended to meet the needs of those individuals who have completed graduate studies in family systems or related fields and seek introductory training in systems thinking and how to utilize this training in various health care settings.

The Graduate Certificate in Family Systems Health Care focuses on the relationships between psychosocial medicine and biomedicine in the treatment and prevention of illness and disease. This program prepares professionals to offer systemic thinking in a variety of settings, including private practices, hospitals, community clinics, primary care/specialists’ offices, health care and managed care agencies and organizations.

Specific areas of study include adjustment patterns of patients and their families to chronic and acute illnesses; models of integration and collaboration among medical systems and other health care professionals; the role of the family health care provider in the continuum of services; the politics and economics of health care; understanding human systems in health care; and brief interventions and systemic assessments useful in the treatment and care of patients, their families, and interactions within the health care milieu.

The Graduate Certificate in Family Systems Health Care consists of eight courses (24 credits), which include biopsychosocial and systemic theories, relationship skills, professional issues, and health care systems. The program is offered in a distance learning format, and some courses may also be available in a residential format. This flexible format allows mid-career working adults, and those unable to attend on-campus programs, to study in a creative, rigorous, and structured fashion. Students enrolled in the online program will be invited to participate in Residential Institutes on the main campus two times per year as part of their practical experience. Residential students can
take Practicum I and II to further apply their clinical and relational skills at a health care internship site.

Students may enroll full or part time, taking three to nine credit hours per term. Students who attend full time can expect to complete the program in one year. Students who complete Graduate Certificate courses online may wish to attend the Residential Institutes to further add to their collaboration with co-professionals and further their studies.

**Degree Plans**

Below is a sample of a degree plan for a full time student who begins studies in the Fall term. Degree plans will be modified based on a student’s enrollment date and pace of study. To complete the requirements for the Graduate Certificate in Family Systems Health Care, students must take 3 courses with prefix SFTM and 5 courses with prefix FSHC. Additional electives can be taken with the approval of the department chair.

**Degree Plan: 24 credit hours**

**Graduate Certificate in Family Studies**

The Graduate Certificate in Family Studies is designed to train individuals who want to work with families in a variety of contexts: as educators, community organizers, legal professionals, child-care workers, or EAP counselors. Human Relations professionals, business managers or supervisors, among many others, would also benefit from the application of systemic family principles to their efforts. The curriculum includes coursework on systemic thinking in family studies, topics in human and family systems development, gender issues, sexuality issues, violence in the family, and diversity issues.

This program takes advantage of our school's unique access to a multidisciplinary faculty, incorporating coursework in peace studies, violence prevention, consultation, school systems, and business systems. Our multidisciplinary approach prepares students to apply knowledge about family systems directly to their work environment and demands.

The Graduate Certificate Program in Family Studies is a 24 credit hour program (8 courses). Students who decide to continue their studies in Family Therapy may apply some of these credit hours toward the M.S. or Ph.D. in Family Therapy if accepted to the program.
Students may enroll full or part time, taking three to nine credit hours per term. Students can expect to complete the Graduate Certificate program in 10-15 months depending on the pace of study. Summer attendance is mandatory.

**Degree Plans**
Below is a sample of a degree plan for a full-time student who begins their studies in the Fall term. Degree plans will be modified based on a student’s enrollment date and pace of study.

**Graduate Certificate in Peace Studies**

The Graduate Certificate Program in Peace Studies offers interdisciplinary graduate studies for life-long learners who want to become familiar and skilled in the discourse of peace studies. This program offers an opportunity to gain a broad understanding of various aspects of peace building and conflict resolution skills. Areas of study include the history and theory of international and domestic conflict; the political, economic, cultural, and social roots of such conflict; the causes and conduct of warfare; violence prevention; and global institutions for the resolution of conflict.

The Graduate Certificate Program in Peace Studies seeks to: 1) apply an interdisciplinary approach to understanding the field of peace building and peace studies; 2) provide an opportunity for students to engage in significant study and practice within the field; and 3) prepare students for professional positions in the fields of peacemaking and peace studies. The Peace Studies program focuses on a broad range community and global issues including social oppression, economic exploitation, peace keeping, peace making, peace building, peace education, civil rights, conflict resolution, violence prevention and intervention, social justice, social change and community advocacy, to name a few. The programs in Peace Studies serve as an academic catalyst for applied research, theoretical development, and the use of culturally informed methods for transforming oppressive situations. Students are trained to identify, assess, and create interventions that respond to the desire for justice and peace.
The Graduate Certificate in Peace Studies is appropriate for those who seek graduate training in peace studies as well as those who have already earned a degree in their professional field but would benefit from academic training in the applications of peace studies to their current professions. The Graduate Certificate program collaborates closely with our sister programs in Conflict Analysis & Resolution and Family Therapy.

The Graduate Certificate is a 24-credit program. Students can tailor the Graduate Certificate to their interests. The program is offered in both residential and distance learning formats. These flexible formats allow mid-career working adults and those unable to attend the on-campus program, to study in a creative, rigorous, and structured fashion. Students enrolled in the online program participate in Residential Institutes on the main campus twice per year, as well as online Web-based courses.

Students may enroll full or part time, taking three to nine credit hours per term. Students who attend full-time can expect to complete the program in 10 months. Part-time students will complete the program in 19 months. Summer attendance is mandatory.

**Degree Plans**
Below is a sample of a degree plan for a full-time student who begins their studies in the Fall term. Degree plans will be modified based on a student’s enrollment date and pace of study. To complete the requirements for the Graduate Certificate in Peace Studies, students must take 12 credits of electives (4 courses) approved by the department as Peace Studies curriculum.

**Graduate Certificate in College Student Personnel Administration**

Our programs in College Student Personnel Administration (CSPA) prepare students for many professions related to Student Affairs in college, university, and community settings. We focus on training Student Affairs professionals who take a humanistic, learner-centered approach in their work as change agents within the university and the larger society.

The program explores important topics in the field of Student Affairs such as conflict resolution, diversity, student development, student services, judicial affairs, administration, on-campus and campus life, Greek affairs, peer counseling, and crisis intervention, to name a few. Students examine the current trends and historical approaches in higher education, as well as future needs for effective student affairs practices in the 21st century.
The Graduate Certificate appropriate for those who seek graduate training in CSPA, as well as those who have already earned a degree in their professional field but would benefit from academic training in the applications of college student personnel administration to their current professions.

The programs in CSPA seek to: 1) apply an interdisciplinary approach to understanding the field of Student Affairs; 2) provide an opportunity for student to engage in significant study and practice within the field; and 3) prepare students for professional positions in the field of Student Affairs.

The programs in CSPA collaborate closely with our sister program in Conflict Analysis & Resolution and the University’s Division of Student Affairs. The Division of Students Affairs serves as a host site for practicum and other hands-on training opportunities. Paraprofessional graduate assistantships are available for those qualifying for the program both in the on-campus and online formats.

The Graduate Certificate in CSPA consists of eight courses (24 credits). Students who decide to continue their studies may apply these credit hours toward the M.S. and Ph.D. programs in Conflict Analysis & Resolution if accepted to the program.

The Graduate Certificate in College Student Personnel Administration is offered in both residential and distance learning formats. These flexible formats allow mid-career working adults and those unable to attend the on-campus program, to study conflict resolution in a creative, rigorous, and structured fashion. Students enrolled in the online program participate in Residential Institutes on the main campus twice per year, as well as online Web-based courses.

Students may enroll full or part time, taking three to nine credit hours per term. Students can expect to complete the Graduate Certificate program in 15 months. Summer attendance is mandatory.

**Practicum**

To complete the Graduate Certificate in College Student Personnel Administration, students must complete a total of 65 hours of practicum. Students are responsible for documenting their practicum hours, and must have these hours verified and signed by an on-site supervisor. Practicum must be passed with a grade of "B" or better. The practicum experience is designed to provide students with an experiential opportunity to utilize College Student Personnel Administration methodology and theory within an educational setting. Students will have the opportunity to apply theoretical concepts within a practical framework.

Practicum provides a placement for the student to develop and refine practitioner skills. Using the Practicum experience, students have the opportunity to apply theoretical concepts within a practical framework under the supervision of an on-site supervisor. The Director of Practicum and Field research will work with you to establish a placement suited to your interests, if possible. Additionally, the student is encouraged to explore and initiate a Practicum setting specific to their own individual interests. If students find an appropriate site, the Practicum Director will assist the student in calling the site and negotiating for a placement.

Additionally, the student will attend a Practicum class with course work and faculty supervision. The student must receive contractual approval from both the Practicum Director and the agency on-site supervisor before beginning the required Practicum hours. The student is responsible for documenting Practicum hours and receiving supervisor approval.

The practice component of the student's Practicum is evaluated by the on-site supervisor each term; this evaluation is combined with the classroom performance and course requirements and converted into a final overall grade by the Practicum Faculty.

Although employment opportunities may develop from Practicum placements, students may not be paid for Practicum hours until the required number of hours is completed and grades assigned for the Practicum courses. All students are automatically covered by liability insurance provided by the University during their Practicum practice; this coverage is included in student registration fees and covers Practicum, as well as any other, training, or consulting experiences the student may become involved in during the course of their program.

Practicum experience abroad is subject to a different set of policies and procedures. Information about practicum is accessible at [http://shss.nova.edu/DCAR/practicum.html](http://shss.nova.edu/DCAR/practicum.html).

---

**Graduate Certificate in Advanced Family Systems**

The Graduate Certificate in Advanced Family Systems (AFS) is designed for people who are looking to expand their general and theoretical knowledge of current systems based intervention practices. Students who complete the Graduate Certificate will receive doctoral level exposure to both theories and techniques of intervening in relationship systems. This knowledge can be applied across a diverse range of settings or situations.
where knowledge and skills in understanding and managing human relationship systems is necessary.

The Graduate Certificate Program in Advanced Family Systems Family is a 24 credit hour program (8 courses). Students who decide to continue their studies in Family Therapy may apply these credit hours towards the Ph.D. in Family Therapy or the Doctorate of Marriage and Family Therapy (DMFT) once accepted to the program.

Students can expect to complete the Graduate Certificate program in 10-15 months depending on the pace of study. Summer attendance is required.

**Degree Plans**

**Graduate Certificate in Family Ministry**

The Graduate Certificate in Family Ministry is designed specifically for degreed laypersons and professionals in the spiritual community (i.e., churches, synagogues, mosques, temples, parishes, etc.) who are seeking to expand their knowledge of family therapy and family systems theories to enhance their current counseling ministries.

Students enrolled in the program will enrich their understanding of a systemic framework, learn how to use systems/relational models of family therapy to augment their counseling skills, and implement a systemic approach to counseling within various settings and across populations.

The primary focus of the certificate program is to assist spiritual leaders in the area of counseling with emphasis on family problems, divorce and separation, parenting problems, marital counseling, child or spouse abuse, counseling singles, sexual concerns, remarriage/stepfamily, and premarital counseling. The program's approach to families and relationships places emphasis on broadening practitioners’ perspective and increasing the possibilities for change.

The Graduate Certificate in Family Ministry is a 24 credit hour program (8 courses) that is offered in a distance learning format. However, students are required to attend one Clinical Institute, a five-day, on-campus, intensive program providing students with
hands-on clinical practice and live supervision. The Clinical Institute is scheduled each year in February and October.

Students may enroll full or part time, taking three to nine credit hours per term. Students can expect to complete the Graduate Certificate program in 10-15 months depending on their pace of study. Summer attendance is required.

**Graduate Certificate in Qualitative Research**

The Graduate Certificate in Qualitative Research consists of six three-credit hour online courses (18 credit hours) designed to prepare academics, professional research consultants, and graduate students to understand a variety of qualitative research approaches and to conduct qualitative research studies. Our certificate students will (a) gain insight into the philosophical and theoretical foundations of qualitative research; (b) distinguish and critique qualitative research approaches and products; and (c) apply best practices in qualitative research to design, propose, conduct, and compose qualitative research of their own.

Students may take three to six credit hours per term. Students can expect to complete the Graduate Certificate program in one to two years depending on their pace of study.

- Required courses are:
  - QRGP 6300 Foundations of Qualitative Research
  - QRGP 6301 Qualitative Data Collection
  - QRGP 6302 Qualitative Data Analysis I
  - QRGP 6303 Qualitative Data Analysis II
• QRGP 6305 Qualitative Research Design

Students will take an elective from the following:
• QRGP 6304 Appraising Qualitative Research
• QRGP 6306 Conducting Qualitative Research I
• QRGP 6307 Conducting Qualitative Research II

**ABOUT OUR GRADUATE MINORS**

Graduate minors foster pluralistic academic exposure and intellectual exchange. Many fields have become multidisciplinary and multi-professional. From a career angle, employers nowadays look for well-versed, well-rounded, versatile employees who can deal with ever-changing, multidimensional marketplaces. Graduate minors are areas of inquiry supplemental to the major graduate studies connected with other disciplines or professions. Graduate minors consist of 12 credits over and above a student’s major program requirements. The graduate minors are obtainable for NSU graduate students in good academic standing, pending class seat availability. Please visit the website at [http://shss.nova.edu/Academic_Programs/GradMinors/index.htm](http://shss.nova.edu/Academic_Programs/GradMinors/index.htm)

**Graduate Minor in Conflict Resolution Studies**
Offered through the Department of Conflict Analysis and Resolution (DCAR), the graduate minor in Conflict Resolution Studies emphasizes the theories and philosophies of disputing, justice, equity, and nonviolence. It is designed to introduce knowledge of the
conflict resolution field and to provide foundations for academic and professional growth. It is offered in both a residential and distance learning format. The DCAR graduate minor is designed for non-major students who are interested in getting a foundational exposure to the conflict resolution field. Applicants from any disciplinary or professional backgrounds are welcome.

**Curriculum (12 credits):**

**REQUIRED**
- CARM 5000: Foundations & Development of Conflict Resolution & Peace
- CARM 5040: Human Factors

**CHOOSE TWO:**
- CARM 5020: Theories & Philosophies of Conflict
- CARM 5100: Mediation Theory & Practice (Prerequisite: CARM 5000 and 5040)
- CARM 5140: Negotiation Theory and Practice (Prerequisite: CARM 5000 and 5040)
- CARM 6000: Organizational Conflict: Theory and Practice (Prerequisite: CARM 5000, 5040)
- CARM 6120: Culture and Conflict: Cross-Cultural Perspectives
- CARM 6170: Violence Prevention and Intervention (Prerequisite: CARM 5000)

**Graduate Minor in Family Systems**
The Graduate Minor in Family Systems in the Department of Family Therapy (DFT) is designed to introduce students to systems theory and how it is used to help individuals, couples, and families. Students taking this minor are prepared to better understand how family dynamics play a role in shaping individual and group behaviors in and outside of clinical settings. The courses are designed to familiarize students with some of the core concepts associated with systemic approaches to facilitating interpersonal change and development. Students will have a better understanding of how a systemic approach to interpersonal relationships can benefit families, communities, and large social systems.

**Curriculum (12 credits):**

**REQUIRED**
- SFTM 5310 - Introduction to Systems Theories
- SFTM 5320 - Introduction to Marital and Family Therapy
- SFTM 5321 - Theories of Marital and Family Therapy

**CHOOSE ONE**
- SFTM 6331 – Diversity in Human and Family Development
- SFTM 6332 - Human Sexuality and Gender
- SFTM 6374 – Human Development and Individual/Group Psychotherapy

**Graduate Minor in Information Systems**
The Graduate Minor in Information Systems in the Graduate School of Computer and Information Systems (SCIS) focuses on technological foundations and application related to information systems including areas such as database systems, human-computer interaction, telecommunications and computer networking, computer security, electronic commerce, decision support systems, multimedia systems, and project management. It is designed to give students a broad knowledge of the discipline and to develop skills applicable to the solution of complex real-world problems. Courses are offered in both a residential and distance learning format. The graduate minor is intended for students who are comfortable with computer applications and use of the Internet and the World-
Wide Web. Students should have knowledge and significant experience in computer applications (PC applications should suffice) and experience with the Internet.

**Curriculum (choose 4, 12 credits):**
- MMIS 620: MANAGEMENT INFORMATION SYSTEMS
- MMIS 621: INFORMATION SYSTEMS PROJECT MANAGEMENT
- MMIS 623: LEGAL AND ETHICAL ASPECTS OF COMPUTING
- MMIS 630: DATABASE SYSTEMS
- MMIS 652: COMPUTER SECURITY
- MMIS 653: TELECOMMUNICATIONS AND COMPUTER NETWORKING
- MMIS 654: ELECTRONIC COMMERCE ON THE INTERNET
- MMIS 671: DECISION SUPPORT SYSTEMS
- MMIS 680: HUMAN-COMPUTER INTERACTION
- MMIS 681: MULTIMEDIA SYSTEMS

**ABOUT OUR DUAL DEGREE PROGRAM**

**M.S. in Conflict Analysis & Resolution/J.D.**
**OR**
**Ph.D. in Conflict Analysis & Resolution/J.D.**

The Department of Conflict Analysis & Resolution will accept credits from the J.D. program offered through the Shepard Broad Law Center at NSU and apply them towards the M.S. or Ph.D. in Conflict Analysis & Resolution. The M.S. in Conflict Analysis & Resolution will accept 9 credits from the law program, and the Ph.D. program will accept 6 credits. Students must complete both programs in order to obtain the dual credits.

Students must seek admission independently to both the Department of Conflict Analysis Resolution housed in SHSS and the Shepard Broad Law Center.

**ABOUT SHSS-BASED EXPERIENTIAL TRAINING AND COMMUNITY SERVICES**

**The Brief Therapy Institute**
The Brief Therapy Institute (BTI) is South Florida's primary training center for brief counseling and family therapy, as well as the community service provider for the Department of Family Therapy. Since 1988, BTI has provided affordable, innovative, culturally-sensitive counseling services to thousands of tri-county residents of diverse ethnic and cultural backgrounds, religious affiliations, and sexual orientation.

Located in the Maltz Building on NSU's main campus, BTI offers individuals, couples, and families a sliding-fee schedule, convenient times for appointments, and quick access to therapeutic treatment.
Much of the therapy at BTI is provided by practicum teams, each comprised of an AAMFT-approved faculty member and up to six graduate-student therapists. As one of the team members—a designated primary therapist—works directly with the clients, the others join the supervisor in an observation room behind a one-way mirror. The two rooms are connected by telephone, so, as the session proceeds, the supervisor and team may call the therapist, make observations and pose questions.

Such "live supervision" of cases serves multiple purposes. The primary therapist receives ongoing, immediate feedback on his or her work. Team members behind the mirror are able to experience the session without having to conduct it, allowing them to learn from an intense, but non-demanding perspective. The supervisor is able to see clearly what the therapist is doing and how the clients are responding, making it possible to offer clear and relevant support and direction. And the clients are able to receive cutting-edge, non-pathologizing therapeutic involvement from committed professionals, helping them to resolve personal problems and interpersonal conflicts.

Our advanced doctoral students have an opportunity to participate in a more independent practicum which offers more flexibility for scheduling and seeing clients while still working with a supervisor and team.

A wide variety of individuals, couples, and families are seen at BTI. We have worked closely with our community service providers to become a therapeutic resource for children and families facing, for example, school-related issues, reunification, substance abuse challenges, and other therapeutic issues.

Please visit [http://shss.nova.edu/BTI/](http://shss.nova.edu/BTI/) for more information about BTI.

**Community Resolution Services**

Community Resolution Services (CRS) offers trainings and workshops, as well as mediation and facilitation services, to individuals, families, groups, and agencies to resolve conflicts on the NSU campus and out in the broader community. The largest practicum site for DCAR and DMS/MACS students at SHSS, CRS supports students who intend to enhance their skills and who want to participate in projects and activities rich with prospects for professional development. It also offers needed services to the community, at either no cost or based on a sliding fee scale. This enables our underserved community members to access and participate in conflict resolution services.

CRS offers professional opportunities in the community for students who want to practice mediation, facilitation, reconciliation, consensus building, policy dialogs, and training delivery beyond the classroom. It also offers opportunities for faculty to mentor students while enhancing their own practice skills.

CRS maintains five primary outreach service projects:

1. The Community Understandings and Peace Project—CUPP-reaches out to our local communities, and provides mediation to disputing parties, facilitation and dispute resolution consultation for groups and organizations, and workshops and training for groups and the public. This helps disputing parties: Identify key issues and concerns Develop options, alternatives and solutions that will best meet everyone’s needs
2. The VOICES Family Outreach Project helps families struggling with low to moderate levels of conflict and provides mediation and follow-up family education to address needs the family has identified in mediation. This encourages families to:
   - Address family relationship difficulties
   - Learn to communicate and resolve differences in non-violent ways
   - Access other needed NSU and community services

3. The Campus Conflict Resolution and Mediation Program offers services to students, student groups, and student organizations throughout all NSU academic divisions, providing mediation, coaching, facilitation, workshops, and training. This assists students to:
   - Deal with diversity issues
   - Resolve conflicts between students
   - Establish and expand strong student organizations
   - Enhance student leadership skills

4. The CRS Training and Consulting Program-TCP provides training and consulting to agencies and organizations as well as professional training and continuing education credit for mediators and other professionals. Training topics include domestic and family violence, diversity, crisis communication, anger management, mediation, mediation and professional ethics, and interpersonal conflict.

5. Peace Place is a collaboration between DCAR and the Broward County Library System. DCAR faculty and students give scholarly talks, as well as presentations, discussions, and workshops of interest to families, communities, and groups related to conflict resolution and peace studies. The library provides a public forum and DCAR uses Peace Place as an opportunity to share important research, information, and conflict resolution skills with the community.

Please visit http://shss.nova.edu/CRS/ for more information about CRS or contact Dr. Judith McKay.

**Conflict Resolution Consulting and Training Group**
The Conflict Resolution Consulting and Training Group (CRTCG) is a volunteer group of selected faculty and staff who are interested in gaining professional experience in conflict resolution training and consulting work. During our initial semester of operation in the Spring and Summer of 2010, students were able to assist Dr. Katz in his professional practice with groups such as the Cable Public Relations Association, the National League of Cities, the Defense Comptrollers Program and the Capstone Course for the Public Administration Program at Syracuse University. CRCTG students also assisted Dr. Katz in presentations on Conflict Styles and Workplace Mediation for Nova Southeastern staff members in workshops sponsored by the Office of Human Resources.

**Students United With Parents and Educators to Resolve Bullying**
SUPERB is a project supported by a targeted gift from Jeremy and Sharon Ring to the Graduate School of Humanities and Social Sciences for the development of a school
based anti-bullying program. The project helps to support two doctoral level graduate assistants from the Department of Family Therapy (DFT) and the Department of Conflict Analysis and Resolution (DCAR). The program is being piloted in 13 schools throughout Broward County, and is a training site for 14 Master's level interns from both DFT and DCAR. The interns are learning to implement the SUPERB curriculum in classrooms in the elementary grades, and they are organizing interested student groups in both the middle and high schools as well. The project is an excellent opportunity for students in both programs to work together cooperatively and collaboratively in implementing systems based solutions to difficult social problems.

To learn more about SUPERB, click on the organization web site at: www.nochildfearschool.com

Civility Project

Conflict, if managed effectively, can produce constructive change and transformation. The Civility Project provided services to help create more effective governance practices for a civil society by better addressing governmental and organizational issues. Our services and resources can promote collaboration and civility in your workplace. Civility is the foundation for communication, trust, and responsibility. This dynamic quality guides everyone to the right decision because civility promotes conflict resolution, better decision making, and effective organization processes.

Please visit http://shss.nova.edu/civility/ for more information.

Project on Culture and Creativity in Conflict and Peacebuilding

The objectives of this Project are (a) to promote research, theory-building, education, and outreach on the role of cultural production and narratives in conflict processes, (b) to generate dynamic conversations and exchange between the humanities and conflict resolution, and (c) to establish an identifiable concentration within the conflict resolution field on the role of creativity and culture in conflict and peacebuilding.

The “Project on Creativity and Culture in Conflict and Peacebuilding” addresses the role of cultural production and narratives (e.g., oral testimony, popular expressive traditions, literature, public folklore, mass media, photography, theater, music, mural painting) in (a) the escalation of social conflicts, (b) resistance to oppression, and (c) the practice of peacebuilding. Social conflicts are broadly conceived to encompass conflicts at various levels--between states, within states, and within communities. Also of interest are social divisions characterized by lack of mutual recognition, inequality, and/or oppression--for example, divisions along the lines of ethnicity, gender, sexuality, social class, or global regions.

Please visit http://shss.nova.edu/pcccp/ for more information.

**ABOUT OUR STUDENT SERVICES**

**Faculty Mentors**

Each new student is assigned a faculty mentor. Students should meet with their mentor periodically. The faculty mentor is an important resource for students’ professional development. Questions, frustrations, or constructive concerns regarding a classroom experience or the program in general, should be discussed with the mentor. The mentor
advisor will protect students’ anonymity if preferred, but may also bring student concerns to the department chair or to the faculty. Once a doctoral student selects his/her dissertation committee chair, that person automatically becomes that student’s faculty mentor.

**SHSS Student Government Association**
The SHSS Student Association (SHSS SGA) is an organization whose goal is to unify the student body by building learning communities through social activities, academic events, and clubs, etc. The SHSS SA consists of the Executive Board (President, Vice-President, Treasurer, and Secretary) and Representative Council (Student Representatives from each department, International Student Representative, Online Student Representative). Elections are held in March for these offices. A SHSS faculty member serves as SA Advisor. Please visit [http://shss.nova.edu/sa](http://shss.nova.edu/sa).

**Graduate Assistantships**
Each department offers some graduate assistantships (GA) for doctoral students. GAs must be enrolled as full time students in an on-campus degree program at the SHSS, maintain a minimum 3.0 GPA, and remain otherwise in good academic standing. The GA’s duties may include but will not be limited to assisting the faculty member in developing and conducting research, preparing and facilitating grants and contracts, conducting research relevant to course preparation, and community outreach. Positions will be for a maximum of 20 hours per week. Compensation is hourly at $15/hour. Continuation of the assistantship may be reviewed after each term based on the student's academic performance and performance as a GA.

Students enrolled in the M.A. program in Cross-disciplinary Studies are eligible to apply for the GA position with the department. The same guidelines seen above apply.

Students enrolled in the programs in College Student Affairs are eligible for GA positions through NSU’s Division of Student Affairs. Compensation for these positions is room, board, tuition waiver, and a stipend. GA's in these positions work closely with the Dean of Student Affairs and other campus life administrators. Please visit [http://www.nova.edu/cwis/studentaffairs/](http://www.nova.edu/cwis/studentaffairs/) for more information.

**Scholarships**
Students are encouraged to seeking internal and external scholarships. SHSS provides an online database of organizations that fund social science and humanities programming and research. Please visit [http://shss.nova.edu/SFSP/](http://shss.nova.edu/SFSP/) for more information.

In addition, NSU has several scholarship programs administered through the Office of Student Financial Assistance. Please visit [http://www.nova.edu/cwis/finaid/scholarships/index.html](http://www.nova.edu/cwis/finaid/scholarships/index.html) for more information.
Career Development Program and Career Connections

SHSS is concerned not only with students’ academic progress, but also with their career development. Whether a student is a master’s student newly graduated from college or a doctoral student with significant professional experience, his or her career objectives and goals will likely change during this program as opportunities increase.

Students’ academic studies will expose them to theories and concepts that may prompt them to see themselves in professional areas that had never been considered before; maybe had never even heard of before. If a student is uncertain of the best way to obtain information about new career possibilities or how to best link electives and practicum opportunities to this goal, the CDP can provide the support needed through its informative resources.

The family therapy field is expanding into business consultation, health care administration, social services, and other areas beyond the traditional arena of private practice and education. And unlike disciplines whose graduates pursue a limited number of career choices, the conflict resolution field touches almost every professional arena. Opportunities exist in areas such as business, law, education, science, public administration, government, social services, community organizations, and the arts and entertainment. Students in cross-disciplinary studies can work in positions across many professions maximizing their unique interprofessional and interdisciplinary training and skills. The field of college student affairs involves not only colleges and universities, but touches upon related organizations and communities. Our students have many creative options, but there is much to learn about these options.

Students’ previous educational, professional, community, and volunteer experiences, coupled with their own unique personality, style, and people skills, will point toward specific opportunities. The student’s career development plan is therefore a unique design with specialized long- and short-term objectives and goals. The student’s goals today will likely be different from the goals he or she will have a few years from now, so this plan must be fluid and must reflect the student’s academic and professional growth.

The Career Development Program offers periodic workshops in aptitude identification, resume writing, and interviewing techniques in collaboration with NSU’s Career Development. Career Cafes are opportunities to meet practitioners and learn more about specific career paths and opportunities. We bring in local professionals for brown bag lunches or pre-class seminars and serve as a conduit between students in the center and NSU’s Career Development. The Career Connection is an online resource for SHSS students and alumni providing lists of jobs, hyperlinks, resource lists, references to helpful books and materials, and periodically offers online chats and workshops. In order to participate in Career Connections you must be an SHSS student or graduate and you must request to be added to the WebCT environment. You may visit the Career Development Program on the World Wide Web at: http://shss.nova.edu/CDP.

The Writing Lab

SHSS provides free writing assistance for students through The Writing Lab. The lab is offered weekly on campus, online via WebCT, and on alternate Saturdays as an a live online chat. There are also workshops scheduled each term on various writing topics, including at each Residential Institute. For more information please contact the Department of Multidisciplinary Studies.
SHSS Online
In an effort to offer students, graduates, faculty, and staff members greater access to important information, SHSS provides a comprehensive World Wide Web homepage (http://shss.nova.edu), which contains all the necessary information. The SHSS Web pages are home to a number of unique online resources created and developed here at the school. The following is a list sites that students may find useful and interesting:

- Scholarships/Fellowships Search Program: http://shss.nova.edu/SFSP
- Career Development Program: http://shss.nova.edu/CDP
- SHSS Dialogs: http://www.nova.edu/shss/dialogs/
- Brief Therapy Institute: http://shss.nova.edu/BTI
- Community Resolution Services: http://shss.nova.edu/CRS
- The Civility Project: http://shss.nova.edu/civility/
- Project on Culture and Creativity in Conflict and Peacebuilding: http://shss.nova.edu/pcccp
- Employment Opportunities at SHSS: http://shss.nova.edu/AboutSHSS/employ.htm
- NSU Distance Library Services: http://www.nova.edu/library/eleclib/
- NSU Computer Help Desk: http://www.nova.edu/help/

Student Evaluation of Classes and Practica
At the end of each term, students are given the opportunity to provide the program with their comments about the courses they took. The student’s anonymity is strictly protected in the following ways: a) no names are required on the evaluation; b) all evaluations are completed on a secure website; c) faculty members do not receive summaries of the evaluations until after grades have been submitted to the registrar. Student feedback is welcomed and considered very valuable.
ABOUT OUR ACADEMIC POLICIES

Residency Requirements, Time Limits, and Leave of Absence
Doctoral students must complete degree requirements within seven calendar years. Students can petition for a maximum of three one-year extensions. These extensions will be made on a year-to-year basis and will be awarded at the discretion of the faculty. Consideration for determining whether an extension will be based on ongoing progress towards dissertation and the extenuating circumstances. If all program requirements are not completed within 10 years, the student will be dropped from the program. Leaves of absence taken during the course of the program do not automatically extend the seven year deadline.

Master’s and Graduate Certificate students must complete degree requirements within five calendar years. If after five years a student has not yet graduated, he or she will need to retake all courses for which he or she received transfer of credit. Each term thereafter the student will be responsible for the M.S./M.A. courses taken more than five years before that point in time. A one-year extension may be granted under extenuating circumstances. Leaves of absence taken during the course of the program do not automatically extend the five year deadline.

Distance learning students are required to attend 2 one-week long Residential Institutes per academic year. The Residential Institutes are held on the main campus.

Students are expected to be continuously enrolled until degree requirements are completed. If a student needs to discontinue studies, s/he must apply for a leave of absence. Any student who does not register and does not apply for a leave of absence will be considered withdrawn from the program. Withdrawn students need to petition for re-entrance into the program to which they were accepted.

Graduation Requirements
Students must complete all degree requirements within the time limit. In addition, students must have a minimum 3.0 GPA at the time of completion. Students must not be in financial arrears with any office at NSU.

Transfer of Credit
Credit hours may be accepted for transfer into the Ph.D. and M.S. programs. These must be graduate courses taken at regionally accredited colleges or universities. All courses to be transferred must be substantially equivalent to courses taught in the program to which the student is applying. Each applicant’s submissions will be reviewed on an individual basis. There are no transfer credits given for electives.

To be considered for transfer of credit, students must submit an Application for Transfer of Credit, available online. The application must be supported with a catalog course description and the syllabi that document the content of the course(s). No more than two courses may be used to establish equivalence with a NSU course. To be considered for transfer of credit, courses must have been completed less than seven years prior to the beginning of the student’s first term. Also, course grades must be “B” or higher.

Courses approved for transfer of credit are recorded on the student’s NSU transcript.
Requests for transfer of credit must be completed before the end of the student's first term. No transfer of credits are accepted after a student's first term in the program.

The following is the maximum number of transfer credits accepted by each program:

- Ph.D. in Conflict Analysis & Resolution: 27 credits
- Ph.D. in Family Therapy: 21 credits
- Doctoral Degrees in Family Therapy: 21 credits
- M.S. in College Student Affairs: 9 credits
- M.S. in Conflict Analysis & Resolution: 9 credits
- M.A. in Cross-disciplinary Studies: 12 credits
- M.S. in Family Therapy: 9 credits

Students who may not be able to receive Transfer of Credit but who believe and can demonstrate mastery of a required course, (i.e. through extensive professional experience) may be able to receive a Waiver of Requirement. The Waiver of Requirement does not provide credit, rather it enables a student to take an elective in lieu of the required course. Waivers are at the sole discretion of the department and must be requested prior to the end of the first term in the program.

Adding/Dropping/Withdrawing from Classes
Students may add a class after the registration period and before the first class meeting. After the first three hours of class meeting, a class may not be added without the consent of the class instructor.

Students may drop a class before the withdrawal date. Various refund periods are detailed on the Academic Calendar available at:
http://shss.nova.edu/Downloads/PDF/all/AcademicCalendar.pdf

Students may withdraw from a class up to a certain date. After the withdrawal date, students must receive a grade for the course. Withdrawal from a course shall lead to a W being placed for that course on the transcript. Consult the Academic Calendar for the withdrawal periods.

Auditing Classes
Students wishing to audit a class may do so if there is space and with permission of the instructor. Students who are auditing a class may participate in class discussions, but will not be required to fulfill class requirements. Auditing students do not complete class assignments and do not receive academic credit for the class. An audit notation (AU) will appear on transcripts. Auditing fees equal 60% of the regular tuition cost of the course.

Cancellation of Classes
The university reserves the right to cancel any class. If a class is cancelled and a replacement is not offered, students will receive a full refund of tuition paid for the cancelled class.

Incomplete Grades
A student must make a formal, written request for an incomplete grade. Such requests, unless there is an unexpected medical emergency, must be approved before the last regularly scheduled class. A student may request an incomplete, noted as "I" on the student’s transcript, for a period of one term only. The expected date of completion of the incomplete grade will be noted on the formal request form.
An incomplete will be granted only if the student is maintaining a passing average on all work required for the course up to the point of the request for the incomplete. Students who have an outstanding incomplete grade or who have a failing average may not receive an additional incomplete. Students must discuss an I grade with the instructor and obtain the instructor’s consent and signature before filing the Incomplete Grade Request Form.

Please note that the incomplete policies for various programs are different. For example, no incomplete grades are given for practicum courses in family therapy; however, DCAR offers consideration of an incomplete grade under extreme unexpected circumstances. The practicum handbook for each department offers accurate information about current policy.

The Incomplete Grade Request form includes a detailed description of the work that needs to be completed. Faculty members shall not be allowed to initiate I grades. They must assign a letter grade of F if a student has not filed an incomplete grade request form. At the end of the following term, if the work has not been completed, the incomplete grade will automatically be changed to an F.

Please visit http://shss.nova.edu/Downloads to obtain an Incomplete Grade Request form.

**Academic Evaluation and Standards for Progress**

Course work will be evaluated according to the following criteria:

- A grade of A shall be earned for work of excellent quality.
- A grade of B shall be earned for work of good quality.
- A grade of C shall be earned for work of average quality.
- A grade of D shall be earned for work of poor quality.
- A grade of F shall be earned for work of failing quality.
- A grade of W shall be given any student who withdraws from a course.

Dissertation hours shall be graded in the following way:  Pass, In Progress, No Progress, or Fail.

Attendance is required for all courses. Three or more unexcused absences during a classroom course will result in an automatic grade of F for the course. More than three unexcused absences during a practicum shall lead to a failure for the course. Grades of A or B are considered acceptable for graduate-level training. A grade of W shall not affect standing in a program. Any course with a grade of D or F must be repeated within one year for credit toward a degree or certificate program. Students must maintain a 3.0 GPA for graduation. Students who do not meet these requirements, or who cannot raise their GPA to a 3.0 after one year on academic probation, will be dismissed from the program.

**Probation and Dismissal**

Students shall be placed on academic probation when they receive a D or an F for a course, when they have more than two Cs, when they have more than two active incompletes, or when their GPA falls below 3.0. Academic probation is noted on the student’s transcript.

All courses with D or F must be retaken within one year. If a student has more than two Cs, course(s) must be retaken within one year to reduce the number of Cs to two. Students with more than two active Is must resolve all incomplete grades within
one term. Students who do not successfully resolve academic probation within one academic year will be dismissed from the program.

Students with more than one D or F at any time in the program will no longer be considered in good standing in the program. These students will be required to meet with the program Chair and faculty representatives in order to determine whether the student will be allowed to continue in the program. The program reserves the right to dismiss such students from the program.

Students dismissed from the program may petition for readmission after one academic year. Such students will have their records examined by the program's administration. Upon approval, the student will be readmitted to the program in effect at that time. Only those courses with grades of B or better will be applied toward the degree. Dismissal for violations of professional ethical conduct will be final. Students dismissed for such conduct will not be considered for readmission to the program.

**Code of Student Conduct Statement**

The university is a community of scholars in which the ideals of freedom of inquiry, freedom of thought, freedom of expression, and freedom of the individual are sustained. However, the exercise and preservation of these freedoms and rights require a respect for the rights of all in the community to enjoy them to the same extent. It is clear that in a community of learning, willful disruption of the educational process, destruction of property, and interference with the orderly process of the university as defined by the university administration or with the rights of other members of the university cannot be tolerated. Students enrolling in the university assume an obligation to conduct themselves in a manner compatible with the university's function as an educational institution. To fulfill its functions of imparting and gaining knowledge, the university retains the power to maintain order within the university and to exclude those who are disruptive to the educational process.

**In support of the Code of Student Conduct, any violations of the Code of Student Conduct and Academic Responsibility and/or university policies and procedures may result in disciplinary action and/or criminal prosecution. Violations of academic and/or supplementary standards will be handled through the student's academic college, center, or school. Violations of conduct standards, supplementary standards, university policies, and/or procedures will be handled by the Office of the Dean of Student Affairs or by the individual academic college, center, or school as deemed appropriate.**

Changes to the Code of Student Conduct and Academic Responsibility will be posted on the Student Affairs Web site. Students are required to be familiar with the rules, policies, and Code of Student Conduct and Academic Responsibility.

**Nova Southeastern University Statement of Student Rights and Responsibilities**

Nova Southeastern University, as a community of women and men, is committed to furthering scholarship, academic pursuits, and service to our society. As an institution, our purpose is to ensure all students an equal opportunity to fulfill their intellectual potential through pursuit of the highest standards of academic excellence.
Certain rights and obligations flow from membership in any academic community committed to such goals:

• the rights of personal and intellectual freedom, which are fundamental to the idea of a university
• scrupulous respect for the equal rights and dignity of others
• dedication to the scholarly and educational purposes of the university and participation in promoting and ensuring the academic quality and credibility of the institution

Students are responsible for obtaining, learning, and observing the established university and academic center policies as listed in all official publications. In addition, students must comply with the legal and ethical standards of the institution, as well as those of Broward County, the state of Florida, as well as any other laws, rules, and/or regulations of other jurisdictions. All members of the community should inform the appropriate official of any violation of conduct regulations.

Email Policy
In keeping with NSU policy the Graduate School of Humanities and Social Sciences (SHSS) requires its students to hold and regularly maintain one official university-assigned computer account that is used to access major computing resources, including email. Students must use their NSU email accounts when sending email to faculty and staff and must clearly identify their names and other appropriate information, e.g., course or program. When communicating with students via email, faculty and staff members will send mail only to NSU email accounts using NSU-recognized usernames. Students who forward their NSU-generated email to other email accounts do so at their own risk.

A. Academic Standards
The university is an academic community and expects its students to manifest a commitment to academic integrity through rigid observance of standards for academic honesty. The university can function properly only when its members adhere to clearly established goals and values. Accordingly, the academic standards are designed to ensure that the principles of academic honesty are upheld. The following acts violate the academic honesty standards:

1. Cheating: intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise

2. Fabrication: intentional and unauthorized falsification or invention of any information or citation in an academic exercise

3. Facilitating Academic Dishonesty: intentionally or knowingly helping or attempting to help another to violate any provision of this code

4. Plagiarism: the adoption or reproduction of ideas, words, or statements of another person as one’s own without proper acknowledgment

Students are expected to submit tests and assignments that they have completed without aid or assistance from other sources. Using sources to provide information without giving credit to the original source is dishonest. Students should avoid any
impropriety or the appearance thereof in taking examinations or completing work in pursuance of their educational goals.

Students are expected to comply with the following academic standards:

1. **Original Work:**
Assignments such as course preparations, exams, texts, projects, term papers, practicum, etc., must be the original work of the student. Original work may include the thoughts and words of another author. Entire thoughts or words of another author should be identified using quotation marks. At all times, students are expected to comply with the university and/or program center’s recognized form and style manual and accepted citation practice and policy.

Work is not original when it has been submitted previously by the author or by anyone else for academic credit. Work is not original when it has been copied or partially copied from any other source, including another student, unless such copying is acknowledged by the person submitting the work for the credit at the time the work is being submitted, or unless copying, sharing, or joint authorship is an express part of the assignment. Exams and tests are original work when no unauthorized aid is given, received, or used before or during the course of the examination, re-examination, and/or remediation.

2. **Referencing the Works of Another Author:**
All academic work submitted for credit or as partial fulfillment of course requirements must adhere to each program center’s specific accepted reference manuals and rules of documentation. Standards of scholarship require that the writer give proper acknowledgment when the thoughts and words of another author are used. Students must acquire a style manual approved by their center and become familiar with accepted scholarly and editorial practice in their program. Students’ work must comport with the adopted citation manual for their particular center.

At Nova Southeastern University, it is plagiarism to represent another person’s work, words, or ideas as one’s own without use of a center-recognized method of citation. Deviating from center standards (see above) are considered plagiarism at Nova Southeastern University.

3. **Tendering of Information:**
All academic work must be the original work of the student. Giving or allowing one’s work to be copied, giving out exam questions or answers, or releasing or selling term papers is prohibited.

4. **Acts Prohibited:**
Students should avoid any impropriety or the appearance thereof, in taking examinations or completing work in pursuance of their educational goals. Violations of academic responsibility include, but are not limited to the following:

- plagiarism
- any form of cheating
- conspiracy to commit academic dishonesty
- misrepresentation
- bribery in an attempt to gain an academic advantage
- forging or altering documents or credentials
knowingly furnishing false information to the institution

Students in violation will be subjected to disciplinary action.

**Student Conduct**
Each student is evaluated on an ongoing basis while enrolled in the school. In addition to academic evaluations given in courses, students are evaluated for their readiness for professional and scholarly work. If, for any reason, a faculty member has reason to question the satisfactory progress of any student, the faculty member shall discuss the problem with the student. If the problem persists, the faculty member may bring the issue to the attention of the program director and the faculty as a whole. Appropriate faculty members will be asked for additional review and comment. If faculty members concur that a student is exhibiting poor performance in one or more of the areas listed below, the faculty may request that the student attend a faculty meeting for an informal resolution of the problem. The faculty may make specific recommendations to the student for improvement in personal behavior, psychological, or academic performance. If the problem continues, and if the student does not comply with the conditions, he or she may be dismissed from the program.

The school has identified several categories of behaviors that are essential to professional and scholarly performance. These broad areas include:

1. Academic abilities
2. Professional and scholarly ethics
3. Responsibility, dependability, open-mindedness, and cooperation
4. Responsiveness to constructive criticism

**Student Appeals**
Students must initiate the appeals process no later than 30 days after the decision to be appealed is made. In case of a grade appeal, the appeals process must be initiated no later than 30 days after the grade is posted. As students follow the process steps and make contact with the appropriate faculty and administrators, they are encouraged to use email as a means of confirmation. Please copy the appropriate department assistant to enhance follow-up.

1. Discuss the matter with the faculty member. If the matter is not resolved within 30 days after contact is made and the student wishes to continue the appeal process, she or he should:
2. Discuss the matter with the Chair of the Department. If the matter is not resolved within 30 days after contact is made and the student wishes to continue the appeal process, she or he should:
3. Discuss the matter with the Assistant Dean. Please note that at Step 3, the student must document his/her grievance. If the matter is not resolved within 30 days after contact is made, and the student wishes to continue the appeal process, she or he should:
4. Discuss the matter with the Dean of SHSS, who is the final arbiter.

**Institutional Review Board (IRB)**
NSU encourages the conduct of research in and among its colleges and centers, and in collaboration with other educational institutions, agencies, and organizations. While respecting the right of faculty to full academic freedom in research, the
university is firmly committed to adhering to basic ethical principles underlying the acceptable conduct of research involving human subjects.

Students must process all proposed research through the SHSS IRB representative. Please consult the Chair of the department and the IRB website for additional information. The IRB website is http://www.nova.edu/irb/. Any violation of this process is considered a breach of ethics.

**Plagiarism**
The word *plagiarize* comes from the Latin *plagiarius*, kidnapper. Plagiarism is literary thievery and as such is tolerated by neither the program nor the university. In class assignments, your comprehensive exam, and any articles you write for publication, sources for your ideas must be acknowledged. Quotations, paraphrases, and summaries of the work of others must be referenced.

**Faculty/Student Collaboration**
Students are encouraged to collaborate with faculty on articles and books for publication. Authorship will follow APA guidelines. Students are also encouraged to collaborate with faculty on presentations, and may do co-therapy, co-mediation, etc. with faculty as indicated by their practicum supervisor. In general, collaborative relationships are encouraged, within the boundaries of mutual respect and appropriate roles.

**Advertising**
It is against University policy for students to advertise their business activity, even if program related, through e-mail or mail box distribution to faculty, students and staff.

**Rights and Responsibilities**
Students are expected to be knowledgeable about their rights and responsibilities. As such, students should read the NSU Student Handbook and become familiar with NSU policies. Visit http://www.nova.edu/cwis/studentaffairs/forms/ustudenthandbook.pdf for specific information.
SHSS Faculty, Staff, and Administration

Francesca Angiuli, Office Manager, Brief Therapy Institute  
B.S. in Psychology

Marcia Arango, Enrollment Manager/Admissions

Elena Bastidas, Assistant Professor of Conflict Resolution and Environmental Studies/Associate Chair of Department of Conflict Analysis and Resolution  
Ph.D. in Food and Resource Economics  
Teaching and research interests: Conflict analysis and resolution, economics, conservation and development, gender and development, development of appropriate technology for small farmers, livelihood systems and quantitative methods.

Dustin D. Berna, Assistant Professor of Conflict Resolution and Political Science  
Ph.D. in Political Science  
Teaching and research interests: Research specializations include Middle Eastern politics, Islamic fundamentalism, religious extremism, social movements, terrorism, and political institutions.

Julia Bilia, Assistant to the Dean’s Office  
Master’s in Business Administration

Tommie V. Boyd, Chair, Department of Family Therapy/Associate Professor of Family Therapy  
Ph.D. in Family Therapy  
Teaching and research interests: Family systems in healthcare, couple and relational therapy, family business consulting, clinical supervision, client-therapist collaborations, narrative therapy.

Janice Burgoyne, Assistant Dean for Operations  
Master’s in Business Administration

Christopher F. Burnett, Associate Professor of Family Therapy  
Psy.D. in Clinical Psychology  
Teaching and research interests: Application of systems thinking in organizational and social systems, human systems consulting, Bowen family systems theory, systemic approaches to quantitative and qualitative research methodologies.

Jason J. Campbell, Assistant Professor of Conflict Resolution and Philosophy  
Ph.D. in Sociopolitical Philosophy  
Teaching and research interests: genocide studies and prevention, the problem of evil, state endorsed mass extermination and the theoretical understanding of exclusionary ideologies.

Andrea Cevallos, Administrative Assistant, Department of Conflict Analysis and Resolution

Ronald J. Chenail, Vice President for Research, Planning, and Governmental Affairs/Professor of Family Therapy  
Ph.D. in Family Therapy
**Teaching and research interests:** Discourse in therapy and mediation, qualitative inquiry.

**Patricia Cole,** Associate Professor of Family Therapy and Family Business
Ph.D. in Family Therapy  
**Teaching and research interests:** Family relationships in family business and in other work contexts, gender concerns in the workplace, qualitative research.

**Crystal Darville,** Internship/Practicum Coordinator, Department of Conflict Analysis and Resolution
B.A. in

**Mark Davidheiser,** Assistant Professor of Conflict Resolution and Anthropology
Ph.D in Anthropology  
**Teaching and research interests:** socio-cultural anthropology, culture and conflict, interpersonal conflict analysis and resolution, inter-group relations and reconciliation programs, "race" and ethnicity, development and assistance, pastoralist systems, farmer-herder conflict, rural societies, governance, displacement and resettlement, legal reform, Africa, Islam, multiculturalism, community relations, and research design and methodology.

**Cheryl Duckworth,** Assistant Professor of Conflict Resolution
Ph.D in Conflict Analysis and Resolution  
**Teaching and research interests:** peace education, development, culture and conflict, qualitative methods

**Douglas Flemons,** Professor of Family Therapy
Ph.D. in Family Therapy  
**Teaching and research interests:** Relational means of creating and understanding contextual phenomena such as therapy, hypnosis, and learning, writing as inquiry, therapeutic imagination, the presence of absence and the absence of presence.

**Denise Fournier,** Administrative Assistant/Department of Family Therapy
M.S. in Mental Health Counseling

**Paul Gallant,** Associate Professor in Family Therapy/Coordinator of Consortium for Narrative Research and Practice
Ph.D. in Marriage and Family Therapy

**Adriana Garay,** Director of Marketing
Master’s in Business Administration

**Alexia Georgakopoulos,** Associate Professor of Conflict Resolution and Communication
Ph.D. in Communication  
**Teaching and research interests:** Conflict, Intercultural Communication, Organizational Communication, Pedagogy Communication, Nonverbal Communication, and Interpersonal Communication.

**Arlene Brett Gordon,** Director, Brief Therapy Institute
Ph.D. in Family Therapy  
**Teaching and research interests:** Brief solution-focused therapy and theory, supervision and training in brief systemic therapies, application of the solution-
focused approach in community settings, action research, program and curriculum development.

**Tamea Graham**, Assistant to the Department of Multi-Disciplinary Studies

**Shelley K. Green**, Professor of Family Therapy
Ph.D. in Home Economics

**Teaching and research interests**: Supervision and training in systemic therapies, the role of gender in team development, therapist learning styles and personal competence, systemic approaches to sexual issues in therapy, brief therapy with persons with AIDS.

**Erica Guterman**, Assistant to the Office of Student Services

**Noreen Hartmann**, Program Coordinator, Department of Family Therapy

**James Hibel**, Senior Director of Institutional Assessment /Associate Professor of Family Therapy
Ph.D. in Child and Family Studies

**Teaching and research interests**: Teaching and supervision of narrative systemic therapy, theoretical and practical applications of postmodern systemic therapies, application of less hierarchical models to supervision and training issues, systemic therapies with adolescents and their families, sequential response models in systemic therapy.

**Gay Holliday**, Associate Dean of NSU Student Affairs Division/College Student Affairs Program Faculty
Ed.D. in Education

**Teaching and research interests**: current issues and trends in student affairs, administration and supervision in student affairs, student success, involvement/engagement in higher education, organization development and change, student affairs and higher education, legal issues in student affairs, assessment in student affairs.

**Neil Katz**, Chair/Professor, Department of Conflict Analysis and Resolution
Ph.D. in American Studies

**Teaching and research interests**: Organizational conflict, interpersonal communication, group dynamics, leadership and power, negotiation

**Martha G. Marquez**, Assistant Professor in Family Therapy/Associate Chair of the Department of Family Therapy
Ph.D. in Marriage and Family Therapy

**Teaching and research interests**: Special interest in issues of social justice, culture and diversity as well as inclusion. Other areas of interest include work with couples, sexuality in relationships, supervision, and ethical and professional issues.

**Judith McKay**, Chair, Department of Multidisciplinary Studies/Associate Professor of Conflict Resolution and Community Studies; Director of Community Resolution Services
J.D., Ph.D. in Conflict Analysis and Resolution

**Teaching and research interests**: Violence prevention and intervention, family, civil, and community mediation, conflict coaching, family, education, and poverty

Debra Nixon, Assistant Professor of Family Therapy/Co-curriculum Faculty Advisor to the SHSS Student Government Association/Diversity & Inclusion Administrator
Ph.D. in Family Therapy

**Teaching and research interests:** The person of the therapist in practice, isomorphism of therapeutic approach to classroom instruction using narrative and relational therapeutic approaches in diversity training, faith-based multicultural diversity training, liberation or transformative pedagogical ideology.

Anne Hearon Rambo, Associate Professor of Family Therapy
Ph.D. in Family Therapy

**Teaching and research interests:** Supervision and training in systemic therapies, therapy as play and play as therapy, development of the therapist's unique personal style, rhetoric and language skills training, family therapy history.

Lee Shazier, Program Coordinator, Department of Conflict Analysis & Resolution

Jacob Shilts, Practicum Coordinator, Departments of Conflict Analysis & Resolution and Multi-Disciplinary Studies
M.S. in College Student Affairs

Marcia Sweedler, Assistant Professor of Conflict Analysis & Resolution
Ph.D. in Education Policy, Planning, and Administration

**Teaching and research interests:** Developing a systemic approach to conflict resolution through training, ADR, gender, and workplace/school climate.

Hamdesa Tuso, Associate Professor of Conflict Resolution and Sociology
Ph.D. in Sociology

**Teaching and research interests:** Cultural issues of conflict resolution, indigenous peacemaking practices, interdisciplinary models and theories, immigrant communities, refugee communities, African American communities, African studies, critical and historical analyses, challenges of sustainable development, political economic perspectives.

Brad Williams, Dean of Student Affairs Division/College Student Affairs Program Faculty
Ed.D. in Higher Education Administration

**Teaching and research interests:** 21st century college student, college student personnel and the greater community, student leadership development, student retention, student engagement.

Honggang Yang, Dean/Professor of Interdisciplinary Studies
Ph.D. in Applied Anthropology

**Teaching and research interests:** Political anthropology, comparative conflict/peace research, ethnographic/qualitative research methods, graduate distance learning.
All courses are in numerical order are three credit hours unless otherwise indicated.

**Ph.D. in Conflict Analysis & Resolution**

**CARD 5000 - Foundations and Development of Conflict Resolution & Peace Studies**
This course outlines the substantive themes, history, origins, contexts, and philosophical foundations of conflict resolution, healing, peacemaking, and problem solving. Students will examine levels of interventions and processes in the field of conflict resolution. Offered all terms.

**CARD 5040 - Communication Dynamics in Dispute Resolution: The Human Factor**
This course presents communication theories relevant to conflict resolution as well as theories about understanding, analyzing, and managing conflict. The course focuses on the human and emotional aspects of conflict, and includes the influence of gender and culture. This course is pragmatic as well as theoretical, and presents communication and conflict resolution models in a practice-based approach. Offered all terms.

**CARD 5100 - Mediation Theory and Practice**
This course examines theories, methods, and techniques of mediation. Students will have the opportunity to demonstrate their knowledge of mediation skills. Prerequisites: CARD 5040. Offered fall and winter.

**CARD 5140 - Negotiation Theory and Practice**
This course examines conflict intervention from the perspective of the disputant/negotiator. The integration of theory and practice will emphasize the tactics, strategies, and operations of effective and ineffective bargaining/negotiating behavior. The course develops negotiator skills and knowledge, leading to collaborative-based actions and solutions. Prerequisites: CARD 5000, 5040. Offered winter.

**CARD 6120 - Culture and Conflict: Cross-Cultural Perspectives**
This course examines the nature and meaning of conflict, conflict management techniques, and the assessment of conflict situations from a cross-cultural perspective. Explores various models for training third parties to function effectively in handling disputes where cultural differences are a significant factor. Also addresses various theoretical and practical implications of indigenous conflict management techniques and beliefs found in different cultural settings. Offered fall.
CARD 6130 - Practicum I: Supervised Field Experience
This course is a field research project that incorporates classroom knowledge and real-world settings. Students will demonstrate their ability to apply theory to practice and analyze situations utilizing knowledge from previous course work. Prerequisites: CARD 5000, CARD 5040, CARD 5100, CARD 6140, CARD 6130, CARD 7040, CARD 7050, CARD 7110. Co-requisite CARD 6120. Offered all terms.

CARD 6140 - Facilitation Theory and Practice
This course develops students' skills in working with groups. It incorporates theories and models of group dynamics, facilitation, and group development, as well as workshop development and delivery. This course uses a practice-based approach, including role-plays and workshop presentations. Prerequisites: CARD 5040. Offered fall online and summer on campus.

CARD 6160 - Practicum II: Supervised Field Experience
Continuation of CARD 6130 Practicum I: Supervised Field Experience. Prerequisite: CARD 5000, CARD 5040, CARD 5100, CARD 6130, CARD 6140, CARD 7040, CARD 7050, CARD 7110. Co-requisite CARD 6120. Offered all terms.

CARD 6601 - International Conflict Resolution
This course reviews international conflict resolution in many settings and includes informal mediation by private intereners and scholar-practitioners; formal mediation by individual, regional, transnational, and international organizations; and mediation within small and large states. Offered occasionally.

CARD 6602 - Resolving Environmental and Public Disputes
This course focuses on the theoretical bases, practical applications, process orientations, and actual intervention into complex multiparty, multi-issue public disputes. Focus is on social/environmental interactions and sources of political and economic conflict over human health environmental protection and natural resource scarcity. Offered occasionally.

CARD 6604 - Gender and Conflict
This course examines gender roles in conflict and how conflict is experienced and perceived by men and women. Course material includes feminist theories, men's studies, religion, literature, history, anthropology, film, television, psychology, the justice system, and alternative dispute resolution. Offered occasionally.

CARD 6605 - Introduction to Institutional Assessment
This course will introduce students to the field of institutional assessment and planning, emphasizing the higher education environment and its unique challenges. Students will explore the functions of educational institutions across systems, develop an understanding of the concepts of institutional assessment and administrative issues in higher education, learn to use core technologies and methodologies for research applications, and build experience navigating the political and interpersonal dynamics that promote effective institutional assessment. Offered occasionally.

CARD 6606 - Advanced Mediation Skills
This course will oblige students to examine conventional wisdom and the students’ own beliefs to develop a more sophisticated understanding of the potentials and
limits of mediation in a wide variety of contexts. The course will cover selected mediation issues and skills in more depth than possible in an introductory survey of mediation. Students will analyze issues such as convening mediations, eliciting and satisfying interests, maintaining impartiality, dealing with power imbalances, handling apparent impasses, identifying and handling various ethical problems, and writing agreements. Students will also discuss practical aspects of operating a practice such as getting clients, billing, developing good relationships with other professionals, and creating standard forms.

Prerequisites: CARD 5100. Offered occasionally.

CARD 6607 – Ethnopolitical and Community-Based Conflicts
This course introduces the major methods used by states, international organizations, and conflict resolution practitioners to eliminate, manage, and resolve ethnic and community-based conflicts. Case studies are used to explain conflict escalation and de-escalation, and mechanisms of conflict intervention. Offered occasionally.

CARD 6610 – Family Violence: The Effects on Families, Communities and Workplaces
This course explores the overall effects of trauma and violence on individuals, families, communities, and the workplace. Issues of abuse, violence, and systemic responses are explored in relation to their effect on individual behavior, family dynamics, service provision, and community systems. Methods for identifying such issues in the context of family mediation and other types of conflict intervention are explored. Offered occasionally.

CARD 6611 – Race and Ethnic Relations in America
This course examines the social constructionist approach toward the study of racial and ethnic conflict and conflict analysis in the U.S. It is designed to assist students in increasing their ability to analyze racial issues from a historical and contemporary perspective, and to explore the basic theoretical paradigms that have been used to conceptualize the idea of race and ethnicity from the 19th century to the present. The course will also explore the effects of contemporary policies in addressing racial and ethnic inequities, and strategies to combat racism. Offered occasionally.

CARD 6613 – Arbitration Theory and Practice
The purpose of this course is to help understand the theory and processes of arbitration for a wide variety of cases. This course will cover the nature, enforceability and scope of arbitration clauses; other requirements to arbitrate; the powers of arbitrators; issues that typically arise in arbitration; the conduct of arbitration hearings; the remedies available in awards under federal and state law; and proceedings to confirm or to modify or vacate arbitration awards.

CARD 6614 - Workshop Development
This course helps students to create a connection between the graduate program and professional life by learning how to create, develop, and present workshops and training in the field of conflict resolution. Students will learn concepts and principles necessary to create and design workshops for adults and for children. Students will actually develop and present workshops in class in order to gain experience, have a finished product, and get valuable feedback from participants. Offered occasionally.

CARD 6618 - The Reflective Practitioner: Consulting, Conflict, and Change in Organizational Settings
A hands on, clinically based course in which students will form consulting teams (like in consulting firms) and actually do consulting in the community. Offered occasionally.

**CARD 6619 - Strategic Community Planning and Partnerships**
An overview of the community from a strategic perspective, identifying: social, economic, demographic and cultural trends and patterns within the community; areas of concern for law enforcement and government; ways to initiate and develop community-wide strategic planning for peaceful community relations and growth; building community partnerships between law enforcement, the criminal justice system and community agencies and groups; community justice; and the use of data, data collection and analysis in developing and implementing collaborative long and short term plans for community development, problem solving and funding initiatives. Offered occasionally.

**SHSS 6620 - Academic Writing**
A user-friendly seminar on how to write clear, unpretentious academic prose. Covers technical issues—sentence structure, punctuation, tenses, idea development—in a non-technical manner. Includes strategies for creating and editing manuscripts and for researching, organizing, and writing literature reviews. Offered all terms.

**CARD 6621 - Introduction to Human Rights, Theory and Practice**
This course provides students with an introductory survey of political, philosophical, historical, economic, and legal considerations related to fundamental human rights concepts. Students will examine human rights issues in both domestic and international arenas. In particular, the course addresses the issues of the ideological and cultural origins of human rights theory; the sources of rights and rights violations; the impact of the nation-state system, governments and other institutions (such as corporations, churches and universities), and domestic and foreign policies particularly of the U.S.) on human rights law and enforcement. Finally, students examine the wide variety of political, civil, economic, social and cultural rights warranting protection. Offered occasionally.

**CARD 6623 - Practicum III**
This course is a more advanced field research project that incorporates classroom knowledge and real-world settings. Students will demonstrate their ability to apply theory to practice and analyze situations utilizing knowledge from previous course work. Program approval required. Offered occasionally.

**CARD 6624 - Advanced Practicum**
This practicum experience is a faculty-driven experience in which a faculty member will design a project in conjunction with another organization or university and students selected for the practicum will work on that project with the faculty member. The project may also entail a one to two week mandatory field experience in which students and the faculty member will work on the project on location. Students will be responsible for their expenses. Students will apply for this practicum and must be selected. Offered occasionally.

**CARD 6626 - Conflict Resolution for the School and School System**
This course is designed for anyone in a position to influence school policy, practice, and decision-making, from within or as a consultant. The course takes a systems approach to resolving conflicts within the school and school system, applying conflict analysis and conflict resolution models to conflict situations, using negotiation,
mediation, and facilitation processes, developing a conflict resolution culture throughout the system, providing training for parents, teachers, students, and school board. The course also examines methods to manage conflict, including using conflict resolution practices in crisis situations, and mediating and negotiating with parents, teachers, administrators, and students. The course uses a case study method. Prerequisites: CARD 5040. Offered occasionally.

**CARD 6627 - Conflict Resolution and Peer Mediation for Students: Elementary, Middle and High School Levels**
This course is designed to bring conflict resolution and peer mediation training to students at the classroom, school, or school system level with the objective of transforming student/classroom/school conflict resolution culture. Students will examine the elements of conflict resolution and peer mediation curricula, materials and resources in the field, and current research. Students will also do original curriculum/peer mediation design by integrating state-of-the-art thinking in conflict resolution methods, theories, and research into the design, implementation, and institutionalization of conflict resolution and peer mediation programs. Prerequisites: CARD 5100. Offered occasionally.

**CARD 6633 - International War and Resolution**
This course focuses on various aspects of international war and peace. Topics of discussion include defining war, historical patterns of warfare, motivations to engage in such conflict, as well as efforts to deter or resolve international war. Offered occasionally.

**CARD 6634 - Metropolitan Conflict**
This course will explore historical and theoretical explanations for the different types of conflict prevalent in various metropolitan areas. A series of case studies, focusing on both cities within the United States and abroad, students will explore such topics as the role of ethnicity in conflict, structural inequalities of the system, urban/suburban relations, urbanization, and metropolitan growth and development. Offered occasionally.

**CARD 6635 Advanced Facilitation: Facilitating Complex Group Problem Solving**
This course focuses on facilitation in complex problem situations. The focus will be on intercultural settings. Various approaches to complex facilitation are introduced, with special attention to dealing with difficult parties and principles of Interactive Management (IM). This course will provide students with the skills necessary to perform a facilitation workshop with a computer-assisted program developed to resolve complex problems. Students will gain experience as participants in problem-solving sessions, which they will study and analyze. Class sessions will consist of role-plays, discussion and analysis, and presentation of information. Prerequisites: CARD 6140. Offered occasionally.

**CARD 6638 – Conflict and Crisis Management: Theory and Practice**
This course is an overview of the theories of conflict and crisis management and the intervention models and protocols used. Conflict and crisis management will be explored among and between individuals and groups, organizations, communities, and governments around the globe. Topics will include the management of violent conflicts, such as kidnapping, hostage-barricade and terrorist acts, homeland
security, and the response to natural disasters. There will be interactive exercises as well as a case study approach used. Offered occasionally.

**CARD 6639 – Organizational Conflict Intervention**
This course will explore the diagnostic techniques and tools necessary to assess organizational conflict, and tools necessary for successful intervention.

**CARD 6640 – Critical Incidents Response**
This course will provide an in-depth analysis and understanding of inter-group and intra-group dynamics associated with the organizational response to critical incidents such as hostage/barricade management, terrorism, kidnapping, natural and other disasters, and tactical operations, which comprises the negotiations team, the tactical team, and the on-scene commander, as well as coordination of efforts with government, organizations, and the community. Topics include: inter-group and intra-group conflict intervention and communication strategies, negotiation, tactical, and command protocols, hostage/barricade resolution continuum options, and case studies. Offered occasionally.

**CARD 6641 – Conflict and Crisis Negotiation**
This course will provide an overview of law enforcement crisis negotiation and its application to crisis situations, such as domestic violence encounters on an individual level and hostage/barricade encounters on an organizational level. Lecture, expert demonstration, and interactive negotiation with role play will provide an experiential learning environment for understanding and applying active listening skills, empathy, rapport, influence, and behavioral change concepts to conflict and crisis situations. Offered occasionally.

**CARD 6643- Social Aspects of Terrorism**
This course will examine a wide range of different cultures and societies with a special emphasis placed upon political violence. Regions explored are: Basque country, Chechnya, Colombia, Northern Ireland, Palestine, Sri Lanka, and Zimbabwe. Of particular importance are the dimensions of terrorism, trauma, and violence through an understanding of colonialism, discourse, history, material culture, media, rebellion, revolution, and separatism. Additionally, the course will focus upon the causes of 9/11 and the recent fomentation of international terrorism. By exploring the subject of terrorism form an anthropological perspective will demonstrate the complexities and various interpretations concerning the political uses through the appreciation of interdisciplinary analysis.

**CARD 6645 – Indigenous Systems of Conflict Resolution**
This course is designed to make contributions to the field by exploring the processes of conflict resolution and peacemaking as practiced by the indigenous communities around the world. Class members will engage in an in-depth exploration of techniques of peacemaking, as practiced in various parts of the world. Prerequisite: CARD 6120.

**CARD 6646 – The Anthropology of Peace and Conflict**
This course will explore the social dynamics of disputing and undertaking detailed examinations of specific cases. By examining diverse expressions of conflict and different means of controlling it, students will deepen their understanding of conflict analysis and broaden their perspectives on how disputes can be managed. Course topics will include the cooperative and aggressive components of human nature, the
social construction of violence, genocide, and war, and the relationship between conflict resolution, social control, inequality, and justice. Prerequisite: CARD 6120.

CARD 6647 – Risk Management for Organizations
This course examines risks across all types of organizations, including healthcare. The course will outline various types of risk exposures including pure, operational, project, technical, business, and political. Students will learn how to develop a systemic risk management program for any organization through risk identification, qualitative impact analysis, quantitative impact analysis, risk response planning, and risk monitoring.

CARD 6648 – Researching Conflict
In this course, students and instructors will together conceptualize, design and carry out a mixed methods research study on a topic connected to violence. The students and instructors will decide on a research problem to be studied. The goals of the elective is to help students deepen their understanding of quantitative and qualitative research and hone their research skills. The course will be a collaborative effort, building on the experience, knowledge, expertise, and interests of all of the participants. Prerequisites CARD 7090, CARD 7110.

CARD 6650 - International Negotiation: Principles, Processes, and Issues
This course describes and analyzes the major principles, processes and issues of international negotiation in the twentieth and twenty-first centuries. It seeks to provide students with the analytical tools and skills required to explain and predict the outcome of specific (bilateral or multilateral) negotiations through the study of various explanatory factors, including: stability and change in the structure of the existing "international system"; the individual characteristics of the nations-states parties (power/capabilities, interests, culture/values, negotiating styles, etc.); the strategic and tactical moves of those considered as "key player"; as well as the role of smaller states and non-state actors. Prerequisite: CARD 5140.

CARD 6651- Theories of Ethnicity and Nationalism
This course is foundational for theoretical understandings of ethnicity and nationalism. Students will analyze general theories from key debates and critically examine various points of view in relation to defining boundaries, conflict, context, difference, identity, migration, minority/majority, race, and tribalism in regard to ethnicity, as well as community, fantasy, ideology, neo-Marxism, modernism, perennialism, political, primordialism, semiotic, sociocultural, socioeconomic, imagination, invention, and tradition in association with nationalism and nationalists, and the entwined and interrelation between all of these prevalent notions and themes. Upon completion of the course students will better grasp ethnic belonging, ethno-nationalist conflict, and intra/inter-group disputes from the standpoint of applied theory, cultural relativity, and humanism.

CARD 6652- History, Memory & Conflict
By exploring the significance of history, memory, and cognition, this course provides the most recent theoretical debates on these issues and their significance for understanding why populations persist in a state of violence. Students will be introduced to the basic and major theoretical interpretations and the chronology of history of ideas. Questions to be considered include: how does the past become the present and remain in it, and, how do we as researchers interpret the relevance of history and memory? Others are: how is the past invented, mythologized about, and re-invented? Why does memory have such an important role in the persistence of
intractable hostilities and how does the learning of violence become transmitted from one generation to the next?

**CARD 6653 – Conflict in Conservation and Development**
This course examines conflict in conservation and development. It covers theoretical frameworks and introduces participatory tools that will enable students to more effectively analyze and address situations of conflict in conservation and development initiatives. The course familiarizes students with concepts and methods from natural resource management, sustainable livelihood systems and collaborative learning approaches.

**CARD 6654- Islam, Conflict, and Peacemaking**
This course will provide a historical overview of Islam, including an introduction to belief systems, the different branches of the faith and schools of Islamic law with a special emphasis on Muslim doctrines related to conflict and peace. It will include the contemporary era and investigate Muslim engagements with modernity and discuss the varied responses and perspectives. There will some discussions of international relations, but the course will also emphasize micro level issues. Students will have the opportunity to develop research projects designed to extend their understanding of Islam and its potential as a resource for peace building.

**CARD 6655-The Interdisciplinary Writer**
This course is designed to assist graduate students in creating essays, thought papers, and other pieces of writing that reach an intended audience with clarity, skillful craft, and purpose. It includes reading and writing assignments for an academic setting focused on interdisciplinary perspectives. Students will be expected to participate in class discussions and improvisational writing exercises. Because this is a writing course, rather than just a course about writing, there will be a workshop component to the class. This means that all participants will bring in copies of their work to share to develop writing strengths and skills, improve editing abilities, and better understand how an author’s writing and those of others a piece’s purpose, it's organizational structure, level of craft execution, authorial voice, and engagement of the audience.

**CARD 6656- Gender, Conflict and International Development**
This course provides the student with essential understanding of the factors that shape the social, political and economic roles of women and men in developing countries. The course covers the concepts of gender in conflict resolution and peace building by examining women and men's human rights and security, and the consideration of gender within developmental policies. and provides an overview of concepts and gender analysis frameworks from a historical perspective. Students examine specific projects aimed at integrating women into community development.

**CARD 6657-Conflict Coaching Theory and Practice**
This course examines the growing use of conflict coaching as a conflict intervention process and introduces different models and related theoretical foundations. The integration of theory and practice will emphasize the various stages including identity framework, narrative, needs assessment, goal setting, and feedback, utilizing a relational and systems orientation. The course develops coaching skills, strategies, and knowledge, and uses a practice-based approach, including role-plays and case studies.

**CARD 6659-Conflict and Peace Building in Africa**
This course examines conflict and peace building dynamics in the African continent. Its content includes a survey of contemporary macro-level conflicts in Africa and an examination of their historical and more immediate causes. Class participants will explore the causes and effects of such conflicts and investigate prospects for constructive transformation. Past and ongoing resolution and peace building efforts will be discussed, and class members will propose a peace building strategy for a case of their choice.

**CARD 6710 - Exam Preparation**
This course creates an environment to promote educational advancement in the program.

**CARD 7001 - Doctoral Seminar**
This course is designed to provide support, information, resources, coaching and feedback to doctoral students in preparation for the qualifying examination. Primarily, the course focuses on preparation for the qualifying examination and assisting students in organizing their resources and time. Prerequisites: CARD 7090, 7100, 7120. Offered fall and winter.

**CARD 7020 – Systems Design: History and Contemporary Practice**
An examination of concepts of dispute resolution systems design. Includes the influence of organizational culture and prevailing social and cultural norms on the design and implementation of dispute resolution systems. Explores dispute resolution systems for neighborhoods, religious organizations, ethnic groups, business associations, and other settings that have relatively clear boundaries and shared norms. Prerequisites: CARD 5000, 5040, 5100, 6120, 7040. Offered summer.

**CARD 7040 - Theories of Conflict and Conflict Resolution I**
This course examines macro and micro theories from social science disciplines about the nature of conflict and various approaches to conflict resolution. Offered winter.

**CARD 7050 - Theories of Conflict and Conflict Resolution II**
Continuation of CARD 7040. Prerequisite: CARD 7040. Offered summer.

**CARD 7090 - Quantitative Research I: Methods and Tools**
Covers a range of quantitative research methods and designs including questionnaires, interviews and surveys, sampling, attitude and rating scales, tests of statistical significance, experiments, and the basics of descriptive statistics and univariate analysis. Offered fall.

**CARD 7100 - Quantitative Research II: Analysis and Statistics**
This course explores various methods of analyzing and presenting quantitative research data. Includes common concepts and techniques for analyzing results of surveys and experimental research projects: computer statistical programs and an in-house database, bivariate and multivariate analysis, index and scale development, and more advanced techniques such as regression analysis. Prerequisite: CARD 7090. Offered winter.

**CARD 7110 - Qualitative Research Methods I**
This course provides an introduction to the qualitative research traditions and the philosophical and ethical considerations in conducting this type of research. The
course explores a range of qualitative data collection with a focus on ethnography and biography. These are two of the five major traditions to be explored in this two-course series. Techniques used to research conflict and conflict resolution, including in-depth interviews and participant-observation, data collection and analysis, as well as review of relevant research literature in the field. Offered fall.

**CARD 7120 - Qualitative Research Methods II**
This course continues the exploration of qualitative research with a special focus on three of the five qualitative traditions, phenomenology, the case study, and grounded theory. Such traditions will also explore how to research conflict and conflict resolution. In addition, elements of the qualitative research proposal will be discussed and practiced such as formulating an abstract, research problems, research questions/objectives, and methodological analysis. Prerequisite: CARD 7110. Offered winter.

**CARD 7250 - Public Policy**
Analysis of current policy issues in the field of conflict resolution with an emphasis on the design, implementation, evaluation and analysis of legislation, including state and local policy initiatives in Florida, the United States, and abroad. Offered summer.

**CARD 7500 - Teaching and Training**
An introduction to teaching and training. Reviews instructional models and teaching literature with emphasis on teaching the adult learner. Prerequisites: CARD 5000, CARD 5040, CARD 5100, CARD 5140, CARD 6120, CARD 6130, CARD 6160, CARD 7040, CARD 7050, CARD 7090, CARD 7110, CARD 7120. Offered fall.

**CARD 7510 - Teaching and Training Practicum**
Provides an opportunity for supervised teaching and training experience in graduate, undergraduate, continuing education, video and curriculum development, seminar, online course delivery, and/or workshop instruction in conflict resolution or related field. Prerequisite: CARD 5000, CARD 5040, CARD 5100, CARD 5140, CARD 6120, CARD 6130, CARD 6160, CARD 7040, CARD 7050, CARD 7090, CARD 7110, CARD 7120, CARD 7500. Offered fall.

**CARD 7900 - Dissertation**
Focuses on the development, writing, and defense of the dissertation. When approved, students register for at least three credits per term for a minimum of 12 credits. Prerequisites: successful completion of all coursework, the qualifying examination, and the approval of the Program Director and Dissertation Committee.
Ph.D. in Family Therapy

SFTD 5001 - Doctoral Seminar I (1 credit hour)
General orientation to doctoral study. Students learn research, writing, and library skills necessary for authoring papers in doctoral courses. Offered fall or more if needed.

SFTD 5002 - Doctoral Seminar II (1 credit hour)
Continuation of SFTD 5001. Students receive professional development opportunities and learn specific details regarding the preliminary and qualifying exams, internship, and dissertation. Prerequisite: SFTD 5001. Offered winter or more if needed.

SFTD 5003 - Doctoral Seminar III (1 credit hour)
Continuation of SFTD 5002. Students are tutored in the skills necessary to develop a clinical qualifying exam, and to prepare for the research and substantive qualifying exams. Prerequisite: SFTD 5002. Offered fall or more if needed.

SFTD 5006 - Introduction to Systems Theory
Overview of theories that use metaphors of system, pattern, interaction, and communication to describe human behavior and relationships. Study of the emergence of theories from cybernetics to language studies. Offered each term.

SFTD 5007 - Research in Marriage and Family Therapy
Reviews quantitative and qualitative methods of inquiry, as exemplified in recent marital and family therapy research studies. Focuses on teaching students to be intelligent, critical consumers of research in the field. Offered winter and summer.

SFTD 5008 - Introduction to Marital and Family Therapy
Reviews the history of marital and family therapy and the clinical approaches of interactional therapies. Focuses on basic therapeutic concepts and skills. Offered fall and winter.

SFTD 5009 - Theories of Marriage and Family Therapy
Offers a comparative study of theories of marital and family therapy, including systemic, structural, strategic, intergenerational, contextual, behavioral, and experiential therapies. Survey of differences in clinical practice. Prerequisite: SFTD 5006. Offered fall and winter.

SFTD 5010 - Systemic Family Therapy I
Study of those systemic therapies informed by cybernetics and oriented to the social organization of communication. Emphasizes the work of the Mental Research Institute and more recent developments such as solution-focused therapy. Prerequisites: Leveling courses and co-requisite SFTD 5006. Offered fall.

SFTD 5020 - Systemic Family Therapy II
This course centers on Narrative Therapy theory and practice. Students will extensively explore assumptions, including distinctions between structuralist and post-structuralist thought, which underlie this model and contrast with other therapeutic models. Practice methods will focus on various maps and scaffolds which describe and organize Narrative practices. Students will explore the application of
these assumptions and practices to a range of therapeutic problems as well as diversity and community issues. Offered winter.

SFTD 5030 - Systemic Family Therapy III
Acquaints students with the basic concepts of the natural systems approach to family therapy. Emphasizes family-of-origin issues, multigenerational systems processes, and biological/evolutionary contributions to the understanding of human systems. Prerequisite: SFTD 5020. Offered fall.

SFTD 5040 - Systemic Family Therapy IV
Study of the complexities and subtleties of language and the art of therapeutic implication. Discusses the relationships between hypnosis and brief therapy; draws on the work of Milton Erickson as a primary resource. Prerequisite: SFTD 5030. Offered winter.

SFTD 5110 - Language Systems
Locates the practice of therapy within cultural, philosophical, and scientific domains. Uses notions about the relational nature of language as a means of examining, critiquing, and explicating therapeutic practice. Prerequisite: SFTD 5006. Offered winter.

SFTD 5120 - Thinking Systems
Study of systemic theory, particularly the ideas of relationship, difference, and context. Emphasizes the ideas of Gregory Bateson. Prerequisites: SFTD 5006 or co-requisite: SFTD 5110. Offered fall.

SFTD 5300 - Legal, Ethical, and Professional Issues in Marriage and Family Therapy
Explanation of accreditation and licensure organizations and the ethical codes they promote in family therapy and related fields; review of therapists' legal responsibilities and liabilities in mental health and family law, insurance claims, and private practice management; overview of professional opportunities in public service and training programs. Offered fall and winter term.

SFTD 5311 – Substance Abuse/Addictions and Critical Issues in Systems Theories
Addresses the application of modern and postmodern ideas to substance abuse/addiction research, theories, practice and, treatment. Also included are other critical issues such as gender, race, religion, and violence. Prerequisite: SFTD 5200. Offered winter.

SFTD 5410 - Quantitative Research I
Covers fundamental concepts and practices in quantitative research methods. Introduces measurement and statistics, questionnaire development, and experimental and quasi-experimental research designs for the human sciences. Exemplary studies from family therapy literature are included. Prerequisite: SFTD 5007 or equivalent. Prerequisite: SFTD 5007. Offered summer.

SFTD 6200 – Internal Practica I - IV
Supervised clinical work in systemic therapy. Prerequisites: SFTD 5006, SFTD 5008, SFTD 5300. Offered each term.
SFTD 6310 - Supervision and Teaching
Introduction to supervision and instruction in systemic therapies. Review of supervision and teaching literature and didactic training in live supervision, case consultation, and instruction. Prerequisite: Internal Practicum I and II; Should be taken second year. Prerequisites: SFTD 6200 I and II. Offered summer.

SFTD 6320 - Supervision Practicum
Extensive live supervision and case consultation experience with clinicians in learning systemic therapies. Students receive supervision of their supervision of others. Students may repeat the course for credit. \textit{Offered each term with faculty approval.} Prerequisite: SFTD 6310. Offered each term.

SFTD 6410 - Quantitative Research II
An overview of the principles and techniques of computer-aided data analysis. Introduces the use of univariate, bivariate, and multivariate statistics for hypothesis testing. Provides an in-depth look at the theory and assessment of reliability and validity. Prerequisite: SFTD 5410. Offered fall.

SFTD 6430 - Qualitative Research I
Introduction to qualitative research methodologies. Focuses on the use of the investigator as the research instrument of choice. Participant observation and interviewing strategies are discussed. Introduces methods for transcribing and organizing interviews and field notes. Exemplary studies from other disciplines are used; however, studies from the family therapy literature, when available, are offered. Prerequisites: SFTD 6410. Offered winter.

SFTD 6520 - Diversity in Human Development
Reviews human development in the context of family transitions such as childbirth, childhood, adolescence, courtship, marriage, maturity, old age, and death. Focuses on the diversity of psychosocial development across ethnicity, class, gender, and culture. Discussion of implications for interactional therapies. Prerequisite or co-require: SFTD 6200 I. Offered fall.

SFTD 6530 – Family Therapy Topics
Special topics course on family therapy, with content determined by instructor. Prerequisite: Should be taken second year. Prerequisite: SFTD 5040. Offered most terms.

SFTD 6540 - Independent Study in Family Therapy
Independent study with faculty of choice on mutually determined family therapy issue. Prerequisite: Should be taken second year. Prerequisite: Can be taken second year with faculty approval. Offered each term.

SFTD 6560 – Couples’ Therapy I
Coverage of couples’ therapy issues to include marital research, evidence-based models, and attention to diversity issues in working with couples.

SFTD 6570 – School Based Counseling
Many of our M.S. in MFT graduates find employment as ESE family counselors in the public school system. Others work in independent school setting or private practice. This course prepares family therapists to work in educational settings. The approach used is brief and solution focused. This course will also assist those MFT’s seeking the certified educational planner credential.
Offered winter.

**SFTD 6580 – Couples’ Therapy II**
Coverage of couples’ therapy issues to include divorce, remarriage, trauma, infertility, infidelity, gender, power, intimate partner violence, GLBT couples, diversity & multicultural issues, substance abuse, mental illness, physical health, aging, technology, spirituality, death, professional, ethical and legal issues, and resources for couples. Prerequisite: Couples Therapy I. Offered summer.

**SFTD 6600 – Preliminary Exam**
The preliminary exam entails a formal assessment by the faculty of a student’s progress in the program. Some of the data for it may include grades, practicum, and writing evaluations from the first two trimesters.

**SFTD 6630 – Grief and Loss**
Grief and Loss: Personal beliefs and philosophies regarding dying, loss, and death will be explored. Bereavement across the life cycle, including developmental issues relating to adults and children and their understanding of loss, will be reviewed. The manner in which other cultures create meaningful rituals for life and death will be presented. Offered summer.

**SFTD 6650 – Coursework Portfolio**
An organized review of and personal reflection of the collective body of work a student has produced during progress through the course curriculum.

**SFTD 6700 – Clinical Qualifying Exam**
The Clinical Qualifying Exam offers student’s a forum for developing a professional clinical presentation similar to that which might be expected in a job interview situation. Successful completion of this exam indicates the faculty’s belief that the student is clinically prepared to perform successfully in real life situations and outside clinical settings.

**SFTD 6750 – Clinical Portfolio**
Demonstration of clinical competence, creativity, and theoretical clarity of work produced during progress through the clinical curriculum.

**SFTD 6710 – Exam Preparation**
Creates an environment to promote educational advancement in the program. Offered each term.

**SFTD 6800 – Substantive Qualifying Exam**
This exam requires a student to write a publishable-quality paper on a topic that is relevant to the field of family therapy.

**SFTD 6825 – Academic/Research Portfolio**
Demonstration of academic and profession research accomplishments throughout the time in the doctoral program, including presentations, publications, and research projects.

**SFTD 6900 - Dissertation**
The development, writing, and defense of the dissertation. When approved, students register for three credits per term for four terms, or 12 credits. Prerequisites: Course requirements and successful completion of the Coursework Portfolio, Clinical Portfolio, and Academic/Research Portfolio and Dissertation Chair approval. Offered each term.
SFTD 7301 - Assessment in Marital and Family Therapy
Overview of methods and instruments used to define problems and indicate solutions. Comparative study of interactional approaches and individual and family dysfunction assessments. Prerequisite: SFTD 6200. Offered summer.

SFTD 7302 - Personality Theories and Psychopathology
Review of major theories of personality theory and psychopathology, emphasizing psychiatric diagnostic classification systems. Study of implications for treatment and comparisons with interactional approaches. Prerequisite or co-requisite: SFTD 5006. Offered summer.

SFTD 7311 - Human Sexuality and Gender
Review of the psychosocial development of sexuality and gender from childhood through old age. Summary of clinical approaches to sexual and gender problems comparing interactional approaches with psychodynamic and behavioral models. Prerequisite: SFTD 5006 co-requisite. Offered summer.

SFTD 7313 – Human Development and Individual/Group Psychotherapy
Reviews major theories of psychotherapy and understanding of psychosocial development on which they are based. Explores individual and group techniques from psychodynamic, behavioral/cognitive, humanist/experiential, and systemic approaches. Prerequisite: SFTD 5006. Offered winter.

SFTD 7350 - Qualitative Research II
Explores how qualitative data are transformed and categorized during description, explanation, and interpretation. Introduces a variety of inductive, deductive, and abductive methods for categorizing meaning and interactive processes. Computer-assisted qualitative data analysis methods are addressed. Family therapy-related studies are offered. Prerequisite: SFTD 6430. Offered summer.

SFTD 7360 - Teaching Practicum
Supervised teaching experience in undergraduate or graduate instruction in family therapy or related field. May be repeated for credit. Prerequisites: SFTD 6310 and faculty approval. Offered each term.

SFTD 7410 – Clinical or Research Internship
Students must enroll for one to three hours of internship credit each term for nine months. Prerequisites: All core course work, successful completion of clinical qualifying exam, submission of research and substantive qualifying exams. Prerequisite: Passing Clinical Portfolio. Offered each term with faculty approval. Offered each term.

SHSS 6620 - Academic Writing (Elective)
A user-friendly seminar on how to write clear, unpretentious academic prose. Covers technical issues—sentence structure, punctuation, tenses, idea development—in a non-technical manner. Includes strategies for creating and editing manuscripts and for researching, organizing, and writing literature reviews. Offered each term.
DMFT: Doctorate in Marriage and Family Therapy

DMFT 5001 - Doctoral Seminar I (1 credit hour)
General orientation to doctoral study. Students learn research, writing, and library skills necessary for authoring papers in doctoral courses. Offered fall or more if needed.

DMFT 5002 - Doctoral Seminar II (1 credit hour)
Continuation of DMFT 5001. Students receive professional development opportunities and learn specific details regarding the preliminary and qualifying exams, internship, and dissertation. Prerequisite: DMFT 5001. Offered winter or more if needed.

DMFT 5003 - Doctoral Seminar III (1 credit hour)
Continuation of DMFT 5002. Students are tutored in the skills necessary to develop a clinical qualifying exam, and to prepare for the research and substantive qualifying exams. Prerequisite: DMFT 5002. Offered fall or more if needed.

DMFT 5006 - Introduction to Systems Theory
Overview of theories that use metaphors of system, pattern, interaction, and communication to describe human behavior and relationships. Study of the emergence of theories from cybernetics to language studies. Offered each term.

DMFT 5007 - Research in Marriage and Family Therapy
Reviews quantitative and qualitative methods of inquiry, as exemplified in recent marital and family therapy research studies. Focuses on teaching students to be intelligent, critical consumers of research in the field. Offered winter and summer.

DMFT 5008 - Introduction to Marital and Family Therapy
Reviews the history of marital and family therapy and the clinical approaches of interactional therapies. Focuses on basic therapeutic concepts and skills. Offered fall and winter.

DMFT 5009 - Theories of Marriage and Family Therapy
Offers a comparative study of theories of marital and family therapy, including systemic, structural, strategic, intergenerational, contextual, behavioral, and experiential therapies. Survey of differences in clinical practice. Prerequisite: DMFT 5006. Offered fall and winter.

DMFT 5010 - Systemic Family Therapy I
This course will explore the therapy models of MRI and Solution-focused as well as other models of therapy influenced by them. The study of these systemic therapies will be informed by ideas infused throughout the doctoral program, particularly the ideas of cybernetics, 2nd order cybernetics, social constructionism, and diversity issues. Prerequisites: Leveling courses and co-requisite DMFT 5006. Offered fall.

DMFT 5020 - Systemic Family Therapy II
This course centers on Narrative Therapy theory and practice. Students will extensively explore assumptions, including distinctions between structuralist and post structuralist thought, which underlie this model and contrast with other therapeutic models. Practice methods will focus on various maps and scaffolds which describe and organize Narrative practices. Students will explore the application of
these assumptions and practices to a range of therapeutic problems as well as diversity and community issues. Offered winter.

**DMFT 5030 - Systemic Family Therapy III**
Acquaints students with the basic concepts of the natural systems approach to family therapy. Emphasizes family-of-origin issues, multigenerational systems processes, and biological/evolutionary contributions to the understanding of human systems. **Prerequisite: DMFT 5020.** Offered fall.

**DMFT 5040 - Systemic Family Therapy IV**
Study of the complexities and subtleties of language and the art of therapeutic implication. Discusses the relationships between hypnosis and brief therapy; draws on the work of Milton Erickson as a primary resource. **Prerequisite: DMFT 5030.** Offered winter.

**DMFT 5110 - Language Systems**
Locates the practice of therapy within cultural, philosophical, and scientific domains. Uses notions about the relational nature of language as a means of examining, critiquing, and explicating therapeutic practice. **Prerequisite or co-requisite: DMFT 5006.** Offered winter.

**DMFT 5120 - Thinking Systems**
Study of systemic theory, particularly the ideas of relationship, difference, and context. Emphasizes the ideas of Gregory Bateson. **Prerequisites: DMFT 5006, DMFT 5110.** Offered fall.

**DMFT 5300 - Legal, Ethical, and Professional Issues in Marriage and Family Therapy**
Explanation of accreditation and licensure organizations and the ethical codes they promote in family therapy and related fields; review of therapists' legal responsibilities and liabilities in mental health and family law, insurance claims, and private practice management; overview of professional opportunities in public service and training programs. Offered fall and winter.

**DMFT 5311 – Substance Abuse/Addictions and Critical Issues in Systems Theories**
Addresses the application of modern and postmodern ideas to substance abuse/addiction research, theories, practice and, treatment. Also included are other critical issues such as gender, race, religion, and violence. **Prerequisite: DMFT 6200.** Offered winter.

**DMFT 5410 - Quantitative Research I**
Covers fundamental concepts and practices in quantitative research methods. Introduces measurement and statistics, questionnaire development, and experimental and quasi-experimental research designs for the human sciences. Exemplary studies from family therapy literature are included. **Prerequisite: DMFT 5007 or equivalent.** **Prerequisite: DMFT 5007.** Offered summer.

**DMFT 6200 – Internal Practicum I - IV**
Supervised clinical work in systemic therapy. **Prerequisites: DMFT 5006, DMFT 5008, DMFT 5300.** Offered each term.
DMFT 6300 - External Clinical Practicum
Supervised clinical work in systemic therapy. Prerequisites: DMFT 6200 and passing Clinical Portfolio. Offered each term.

DMFT 6310 - Supervision and Teaching
Introduction to supervision and instruction in systemic therapies. Review of supervision and teaching literature and didactic training in live supervision, case consultation, and instruction. Prerequisite: Internal Practicum I and II; Should be taken second year. Prerequisites: DMFT 6200 I and II. Offered summer.

DMFT 6320 - Supervision Practicum
Extensive live supervision and case consultation experience with clinicians in learning systemic therapies. Students receive supervision of their supervision of others. Students may repeat the course for credit. Offered each term with faculty approval. Prerequisite: DMFT 6310. Offered each term.

DMFT 6430 - Qualitative Research I
Introduction to qualitative research methodologies. Focuses on the use of the investigator as the research instrument of choice. Participant observation and interviewing strategies are discussed. Introduces methods for transcribing and organizing interviews and field notes. Exemplary studies from other disciplines are used; however, studies from the family therapy literature, when available, are offered. Prerequisites: DMFT 6410. Offered winter.

DMFT 6520 - Diversity in Human Relationships
The primary aim of this course is to increase and enhance MFT students’ awareness of issues of diversity and how such awareness may influence therapists’ professional and personal perspectives. A secondary aim of this course is to assist students in their efforts to respond to Difference/Others in more appreciative, respectful, and honoring ways, which will hopefully lead to better therapist-client relationships and more effective therapy. Prerequisite: DMFT 6200 I. Offered fall.

DMFT 6530 - Family Therapy Topics
Special topics course on family therapy, with content determined by instructor. Prerequisite: Should be taken second year. Prerequisite: DMFT 5040. Offered most terms.

DMFT 6540 – Independent Study in Family Therapy
Independent study with faculty of choice on mutually determined family therapy issue. Prerequisite: Should be taken second year. Prerequisite: Can be taken second year with faculty approval. Offered each term.

DMFT 6560 – Couples’ Therapy I
Coverage of couples’ therapy issues to include marital research, evidence-based models, and attention to diversity issues in working with couples.

DMFT 6570 – School Based Counseling
Many of our M.S. in MFT graduates find employment as ESE family counselors in the public school system. Others work in independent school setting or private practice. This course prepares family therapists to work in educational settings. The approach
used is brief and solution focused. This course will also assist those MFT’s seeking the certified educational planner credential.

**DMFT 6580 – Couples’ Therapy II**
Coverage of couples’ therapy issues to include divorce, remarriage, trauma, infertility, infidelity, gender, power, intimate partner violence, GLBT couples, diversity & multicultural issues, substance abuse, mental illness, physical health, aging, technology, spirituality, death, professional, ethical and legal issues, and resources for couples. Prerequisite: Couples Therapy I.

**DMFT 6630 – Grief and Loss**
Grief and Loss: Personal beliefs and philosophies regarding dying, loss, and death will be explored. Bereavement across the life cycle, including developmental issues relating to adults and children and their understanding of loss, will be reviewed. The manner in which other cultures create meaningful rituals for life and death will be presented. Offered summer.

**DMFT 6650 Coursework Portfolio**
An organized review of and personal reflection of the collective body of work a student has produced during progress through the course curriculum.

**DMFT 6725 – Clinical Portfolio**
Demonstration of clinical competence, creativity, and theoretical clarity of work produced during progress through the clinical curriculum.

**DMFT 6750 – Course Comprehensive Exam**
Three day exam that covers all of the DMFT doctoral courses took in the program.

**DMFT 6950: Applied Clinical Project**
A capstone experience of a student’s demonstration of ability to be able to articulate and demonstrate to other mental health professionals their unique area of systems based practice expertise. The ACP should be a project the student carries out under SHSS faculty supervision from concept, to proposal, to implementation, and finally through eventual evaluation of the effectiveness of the program. Offered each term.

**DMFT 7301 - Assessment in Marital and Family Therapy**
Overview of methods and instruments used to define problems and indicate solutions. Comparative study of interactional approaches and individual and family dysfunction assessments. Prerequisite: DMFT 6200. Offered summer.

**DMFT 7302 - Personality Theories and Psychopathology**
Review of major theories of personality theory and psychopathology, emphasizing psychiatric diagnostic classification systems. Study of implications for treatment and comparisons with interactional approaches. Prerequisite: DMFT 5006. Offered summer.

**DMFT 7311 - Human Sexuality and Gender**
Review of the psychosocial development of sexuality and gender from childhood through old age. Summary of clinical approaches to sexual and gender problems comparing interactional approaches with psychodynamic and behavioral models. Prerequisite: DMFT 5006. Offered summer.
DMFT 7313 – Human Development and Individual/Group Psychotherapy
Reviews major theories of psychotherapy and understanding of psychosocial development on which they are based. Explores individual and group techniques from psychodynamic, behavioral/cognitive, humanist/experiential, and systemic approaches. Prerequisite: DMFT 5006. Offered winter.

DMFT 7360 - Teaching Practicum
Supervised teaching experience in undergraduate or graduate instruction in family therapy or related field. May be repeated for credit. Prerequisites: DMFT 6310 and faculty approval. Offered each term.

SHSS 6620 - Academic Writing (Elective)
A user-friendly seminar on how to write clear, unpretentious academic prose. Covers technical issues—sentence structure, punctuation, tenses, idea development—in a non-technical manner. Includes strategies for creating and editing manuscripts and for researching, organizing, and writing literature reviews. Offered each term.

M.S. in Conflict Analysis & Resolution

CARM 5000 - Foundations and Development of Conflict Resolution & Peace Studies
This course outlines the substantive themes, history, origins, contexts, and philosophical foundations of conflict resolution, healing, peacemaking, and problem solving. Students will examine levels of interventions and processes in the field of conflict resolution. Offered all terms.

CARM 5020 - Theories and Philosophies of Conflict and Peace
This course is designed as a survey course on contemporary theories of conflict and conflict resolution. Students will examine a variety of theories that center primarily on the fields of history, economics, sociology, social psychology, anthropology, political sciences, and social relations. Offered winter.

CARM 5040 – Communication Dynamics in Dispute Resolution: The Human Factor
This course presents communication theories relevant to conflict resolution as well as theories about understanding, analyzing, and managing conflict. The course focuses on the human and emotional aspects of conflict, and includes the influence of gender and culture. This course is pragmatic as well as theoretical, and presents communication and conflict resolution models in a practice-based approach. Offered all terms.

CARM 5100 - Mediation Theory and Practice
This course examines theories, methods, and techniques of mediation. Students will have the opportunity to demonstrate their knowledge of mediation skills. Prerequisites: CARM 5040. Offered fall and winter.

CARM 5140 - Negotiation Theory and Practice
This course examines conflict intervention from the perspective of the disputant/negotiator. The integration of theory and practice will emphasize the tactics, strategies, and operations of effective and ineffective bargaining/negotiating.
behavior. The course develops negotiator skills and knowledge, leading to collaborative-based actions and solutions. Prerequisites: CARM 5000, 5040. Offered winter.

**CARM 5200 - Research Design and Program Evaluation**
This course focuses on the development of applied research skills appropriate for dispute resolution practitioners, including basic research tools, assessment, social science research, current research in the field, and an introduction to program evaluation through analysis of published work. Offered winter and summer.

**CARM 6000 – Organizational Conflict: Theory and Practice**
This course examines organizations, the causes and manifestations of organizational conflict, and interventions including: organizational theories, organizational development, systems theories, group dynamics, and dispute systems design. Students will learn to apply theory to the assessment of conflict and the design of appropriate intervention models within organizations, and will be introduced to consultation models. Prerequisites: CARM 5000, 5040. Offered summer.

**CARM 6120 - Culture and Conflict: Cross-cultural Perspectives**
This course examines the nature and meaning of conflict, conflict management techniques, and the assessment of conflict situations from a cross-cultural perspective. Explores various models for training third parties to function effectively in handling disputes where cultural differences are a significant factor. Also addresses various theoretical and practical implications of indigenous conflict management techniques and beliefs found in different cultural settings. Offered fall.

**CARM 6130 - Practicum I: Supervised Field Experience**
This course is a field research project that incorporates classroom knowledge and real-world settings. Students will demonstrate their ability to apply theory to practice and analyze situations utilizing knowledge from previous course work. Prerequisites: CARM 5000, 5020, 5040, 5100, 6120. Offered all terms.

**CARM 6140 - Facilitation Theory and Practice**
This course develops students' skills in working with groups. It incorporates theories and models of group dynamics, facilitation, and group development, as well as workshop development and delivery. This course uses a practice-based approach, including role-plays and workshop presentations. Prerequisites: CARM 5000, 5040. Offered fall (online) and summer (on-campus).

**CARM 6160 - Practicum II: Supervised Field Experience**
Continuation of CARM 6130. Prerequisites: CARM 5000, 5020, 5040, 5100, 6120, 6130. Offered all terms.

**CARM 6170 - Violence Prevention and Intervention**
This course examines various theories of human aggression and violence, exploring their underlying assumptions about human nature and the causes of violence. Also included is an introduction to a range of violence intervention and prevention approaches developed for use at the interpersonal, intergroup, and societal level. Prerequisites: CARM 5000, 5040. Offered fall.

**CARM 6300 –Master's Thesis: (six credits) (optional)**
This course is taken over a two-semester period in lieu of two electives required for completion of the degree program. The thesis may be an extended literature review of an approved subject, an approved independent research project, or a combination of the two (for further information, including prerequisites, see master's thesis handbook) Prerequisites: students must have 27 credits.

**CARM 6400 - Comprehensive Exam in Progress**
Students who need to take any part of the comprehensive examination will be enrolled in this course.

**CARM 6601 - International Conflict Resolution**
This course reviews international conflict resolution in many settings and includes informal mediation by private interveners and scholar practitioners; formal mediation by individual, regional, transnational, and international organizations; and mediation within small and large states. Offered occasionally.

**CARM 6602 - Resolving Environmental and Public Disputes**
This course focuses on the theoretical bases, practical applications, process orientations, and actual intervention into complex multiparty, multi-issue public disputes. Focus is on social/environmental interactions and sources of political and economic conflict over human health environmental protection and natural resource scarcity. Offered occasionally.

**CARM 6604 - Gender and Conflict**
This course examines gender roles in conflict and how conflict is experienced and perceived by men and women. Course material includes feminist theories, men's studies, religion, literature, history, anthropology, film, television, psychology, the justice system, and alternative dispute resolution. Offered occasionally.

**CARM 6605 - Introduction to Institutional Assessment**
This course will introduce students to the field of institutional assessment and planning, emphasizing the higher education environment and its unique challenges. Students will explore the functions of educational institutions across systems, develop an understanding of the concepts of institutional assessment and administrative issues in higher education, learn to use core technologies and methodologies for research applications, and build experience navigating the political and interpersonal dynamics that promote effective institutional assessment. Offered occasionally.

**CARM 6606 - Advanced Mediation Skills**
This course will oblige students to examine conventional wisdom and the students’ own beliefs to develop a more sophisticated understanding of the potentials and limits of mediation in a wide variety of contexts. The course will cover selected mediation issues and skills in more depth than possible in an introductory survey of mediation. Students will analyze issues such as convening mediations, eliciting and satisfying interests, maintaining impartiality, dealing with power imbalances, handling apparent impasses, identifying and handling various ethical problems, and writing agreements. Students will also discuss practical aspects of operating a practice such as getting clients, billing, developing good relationships with other professionals, and creating standard forms. Prerequisites: CARM 5100. Offered occasionally.
CARM 6607 - Ethnopolitical and Community-Based Conflicts
This course introduces the major methods used by states, international organizations, and conflict resolution practitioners to eliminate, manage, and resolve ethnic and community-based conflicts. Case studies are used to explain conflict escalation and de-escalation, and mechanisms of conflict intervention. Offered occasionally.

CARM 6610 – Family Violence: The Effects on Families, Communities and Workplaces
This course explores the overall effects of trauma and violence on individuals, families, communities, and the workplace. Issues of abuse, violence, and systemic responses are explored in relation to their effect on individual behavior, family dynamics, service provision, and community systems. Methods for identifying such issues in the context of family mediation and other types of conflict intervention are explored. Offered occasionally.

CARM 6611 – Race and Ethnic Relations in America
This course examines the social constructionist approach toward the study of racial and ethnic conflict and conflict analysis in the U.S. It is designed to assist students in increasing their ability to analyze racial issues from a historical and contemporary perspective, and to explore the basic theoretical paradigms that have been used to conceptualize the idea of race and ethnicity from the 19th century to the present. The course will also explore the effects of contemporary policies in addressing racial and ethnic inequities, and strategies to combat racism. Offered occasionally.

CARD 6613 – Arbitration Theory and Practice
The purpose of this course is to help understand the theory and processes of arbitration for a wide variety of cases. This course will cover the nature, enforceability and scope of arbitration clauses, other requirements to arbitrate; the powers of arbitrators, issues that typically arise in arbitration, the conduct of arbitration hearings, and the remedies available in awards under federal and state law and proceedings to confirm or to modify or vacate arbitration awards.

CARM 6614 - Workshop Development
This course helps students to create a connection between the graduate program and professional life by learning how to create, develop, and present workshops and training in the field of conflict resolution. Students will learn concepts and principles necessary to create and design workshops for adults and for children. Students will actually develop and present workshops in class in order to gain experience, have a finished product, and get valuable feedback from participants. Offered occasionally.

CARM 6618 - The Reflective Practitioner: Consulting, Conflict, and Change in Organizational Settings
A hands on, clinically based course in which students will form consulting teams (like in consulting firms) and actually do consulting in the community. Offered occasionally.

CARM 6619 - Strategic Community Planning and Partnerships
An overview of the community from a strategic perspective, identifying: social, economic, demographic and cultural trends and patterns within the community; areas of concern for law enforcement and government; ways to initiate and develop community-wide strategic planning for peaceful community relations and growth; building community partnerships between law enforcement, the criminal justice
system and community agencies and groups; community justice; and the use of
data, data collection and analysis in developing and implementing collaborative long
and short term plans for community development, problem solving and funding
initiatives. Offered occasionally.

**SHSS 6620 - Academic Writing**
A user-friendly seminar on how to write clear, unpretentious academic prose. Covers
technical issues—sentence structure, punctuation, tenses, idea development—in a
non-technical manner. Includes strategies for creating and editing manuscripts and
for researching, organizing, and writing literature reviews. Offered all terms.

**CARM 6621 - Introduction to Human Rights, Theory and Practice**
This course provides students with an introductory survey of political, philosophical,
historical, economic, and legal considerations related to fundamental human rights
concepts. Students will examine human rights issues in both domestic and
international arenas. In particular, the course addresses the issues of the ideological
and cultural origins of human rights theory; the sources of rights and rights
violations; the impact of the nation-state system, governments and other institutions
(such as corporations, churches and universities), and domestic and foreign policies
particularly of the U.S.) on human rights law and enforcement. Finally, students
examine the wide variety of political, civil, economic, social and cultural rights
warranting protection. Offered occasionally.

**CARM 6623 - Practicum III**
This course is a more advanced field research project that incorporates classroom
knowledge and real-world settings. Students will demonstrate their ability to apply
theory to practice and analyze situations utilizing knowledge from previous course
work. **Department approval required.**

**CARM 6624 - Advanced Practicum**
This practicum experience is a faculty-driven experience in which a faculty member
will design a project in conjunction with another organization or university and
students selected for the practicum will work on that project with the faculty
member. The project may also entail a one to two week mandatory field experience
in which students and the faculty member will work on the project on location.
Students will be responsible for their expenses. Students will apply for this practicum
and must be selected. Offered occasionally.

**CARM 6626 - Conflict Resolution for the School and School System**
This course is designed for anyone in a position to influence school policy, practice,
and decision-making, from within or as a consultant. The course takes a systems
approach to resolving conflicts within the school and school system, applying conflict
analysis and conflict resolution models to conflict situations, using negotiation,
mediation, and facilitation processes, developing a conflict resolution culture
throughout the system, providing training for parents, teachers, students, and school
board. The course also examines methods to manage conflict, including using
conflict resolution practices in crisis situations, and mediating and negotiating with
parents, teachers, administrators, and students. The course uses a case study
method. Prerequisites: CARM 5040. Offered occasionally.

**CARM 6627 - Conflict Resolution and Peer Mediation for Students:**
Elementary, Middle and High School Levels
This course is designed to bring conflict resolution and peer mediation training to students at the classroom, school, or school system level with the objective of transforming student/classroom/school conflict resolution culture. Students will examine the elements of conflict resolution and peer mediation curricula, materials and resources in the field, and current research. Students will also do original curriculum/peer mediation design by integrating state-of-the-art thinking in conflict resolution methods, theories, and research into the design, implementation, and institutionalization of conflict resolution and peer mediation programs. Prerequisites: CARM 5100. Offered occasionally.

CARM 6633 - International War and Resolution
This course focuses on various aspects of international war and peace. Topics of discussion include defining war, historical patterns of warfare, motivations to engage in such conflict, as well as efforts to deter or resolve international war. Offered occasionally.

CARM 6634 - Metropolitan Conflict
This course will explore historical and theoretical explanations for the different types of conflict prevalent in various metropolitan areas. A series of case studies, focusing on both cities within the United States and abroad, students will explore such topics as the role of ethnicity in conflict, structural inequalities of the system, urban/suburban relations, urbanization, and metropolitan growth and development. Offered occasionally.

CARM 6635 Advanced Facilitation: Facilitating Complex Group Problem Solving
This course focuses on facilitation in complex problem situations. The focus will be on intercultural settings. Various approaches to complex facilitation are introduced, with special attention to dealing with difficult parties and principles of Interactive Management (IM). This course will provide students with the skills necessary to perform a facilitation workshop with a computer-assisted program developed to resolve complex problems. Students will gain experience as participants in problem-solving sessions, which they will study and analyze. Class sessions will consist of role-plays, discussion and analysis, and presentation of information. Prerequisites: CARM 6140. Offered occasionally.

CARM 6638 – Conflict and Crisis Management: Theory and Practice
This course is an overview of the theories of conflict and crisis management and the intervention models and protocols used. Conflict and crisis management will be explored among and between individuals and groups, organizations, communities, and governments around the globe. Topics will include the management of violent conflicts, such as kidnapping, hostage-barricade and terrorist acts, homeland security, and the response to natural disasters. There will be interactive exercises as well as a case study approach used. Offered occasionally.

CARM 6639 – Organizational Conflict Intervention
This course will explore the diagnostic techniques and tools necessary to assess organizational conflict, and tools necessary for successful intervention. CARM 6000.

CARM 6640 – Critical Incidents Response
This course will provide an in-depth analysis and understanding of inter-group and intra-group dynamics associated with the organizational response to critical incidents such as hostage/barricade management, terrorism, kidnapping, natural and other
disasters, and tactical operations, which comprises the negotiations team, the tactical team, and the on-scene commander, as well as coordination of efforts with government, organizations, and the community. Topics include: inter-group and intra-group conflict intervention and communication strategies, negotiation, tactical, and command protocols, hostage/barricade resolution continuum options, and case studies. Offered occasionally.

**CARM 6641 – Conflict and Crisis Negotiation**
This course will provide an overview of law enforcement crisis negotiation and its application to crisis situations, such as domestic violence encounters on an individual level and hostage/barricade encounters on an organizational level. Lecture, expert demonstration, and interactive negotiation with role play will provide an experiential learning environment for understanding and applying active listening skills, empathy, rapport, influence, and behavioral change concepts to conflict and crisis situations. Offered occasionally.

**CARM 6643- Social Aspects of Terrorism**
This course will examine a wide range of different cultures and societies with a special emphasis placed upon political violence. Regions explored are: Basque country, Chechnya, Colombia, Northern Ireland, Palestine, Sri Lanka, and Zimbabwe. Of particular importance are the dimensions of terrorism, trauma, and violence through an understanding of colonialism, discourse, history, material culture, media, rebellion, revolution, and separatism. Additionally, the course will focus upon the causes of 9/11 and the recent fomentation of international terrorism. By exploring the subject of terrorism form an anthropological perspective will demonstrate the complexities and various interpretations concerning the political uses through the appreciation of interdisciplinary analysis.

**CARM 6645 – Indigenous Systems of Conflict Resolution**
This course is designed to make contributions to the field by exploring the processes of conflict resolution and peacemaking as practiced by the indigenous communities around the world. Class members will engage in an in-depth exploration of techniques of peacemaking, as practiced in various parts of the world. Prerequisite: CARM 6120.

**CARM 6646 – The Anthropology of Peace and Conflict**
This course will explore the social dynamics of disputing and undertaking detailed examinations of specific cases. By examining diverse expressions of conflict and different means of controlling it, students will deepen their understanding of conflict analysis and broaden their perspectives on how disputes can be managed. Course topics will include the cooperative and aggressive components of human nature, the social construction of violence, genocide, and war, and the relationship between conflict resolution, social control, inequality, and justice. Prerequisite: CARM 6120.

**CARM 6647- Risk Management for Organizations**
This course examines risks across all types of organizations, including healthcare. The course will outline various types of risk exposures including pure, operational, project, technical, business and political. Students will learn how to develop a systemic risk management program for any organization through risk identification, qualitative impact analysis, quantitative impact analysis, risk response planning, and risk monitoring.
CARM 6648 – Researching Conflict
In this course, students and instructors will together conceptualize, design and carry out a mixed methods research study on a topic connected to violence. The students and instructors will decide on a research problem to be studied. The goal of the elective is to help students deepen their understanding of quantitative and qualitative research and hone their research skills. The course will be a collaborative effort, building on the experience, knowledge, expertise, and interests of all of the participants. Prerequisite: CARM 5200.

CARM 6650 – International Negotiation: Principles, Processes, and Issues
This course describes and analyzes the major principles, processes and issues of international negotiation in the twentieth and twenty-first centuries. It seeks to provide students with the analytical tools and skills required to explain and predict the outcome of specific (bilateral or multilateral) negotiations through the study of various explanatory factors, including: stability and change in the structure of the existing "international system"; the individual characteristics of the nations-states parties (power/capabilities, interests, culture/values, negotiating styles, etc.); the strategic and tactical moves of those considered as "key player"; as well as the role of smaller states and non-state actors. Prerequisite: CARM 5140.

CARM 6651- Theories of Ethnicity and Nationalism
This course is foundational for theoretical understandings of ethnicity and nationalism. Students will analyze general theories from key debates and critically examine various points of view in relation to defining boundaries, conflict, context, difference, identity, migration, minority/majority, race, and tribalism in regard to ethnicity, as well as community, fantasy, ideology, neo-Marxism, modernism, perennialism, political, primordialism, semiotic, sociocultural, socioeconomic, imagination, invention, and tradition in association with nationalism and nationalists, and the entwinement and interrelation between all of these prevalent notions and themes. Upon completion of the course students will better grasp ethnic belonging, ethno-nationalist conflict, and intra/inter-group disputes from the standpoint of applied theory, cultural relativity, and humanism.

CARM 6652- History, Memory & Conflict
By exploring the significance of history, memory, and cognition, this course provides the most recent theoretical debates on these issues and their significance for understanding why populations persist in a state of violence. Students will be introduced to the basic and major theoretical interpretations and the chronology of history of ideas. Questions to be considered include: how does the past become the present and remain in it, and, how do we as researchers interpret the relevance of history and memory? Others are: how is the past invented, mythologized about, and re-invented? Why does memory have such an important role in the persistence of intractable hostilities and how does the learning of violence become transmitted from one generation to the next?

CARM 6653- Conflict in Conservation and Development
This course examines conflict in conservation and development. It covers theoretical frameworks and introduces participatory tools that will enable students to more effectively analyze and address situations of conflict in conservation and development initiatives. The course familiarizes students with concepts and methods from natural resource management, sustainable livelihood systems and collaborative learning approaches.
CARM 6654- Islam, Conflict, and Peacemaking
This course will provide an historical overview of Islam, including an introduction to belief systems, the different branches of the faith and schools of Islamic law with a special emphasis on Muslim doctrines related to conflict and peace. It will include the contemporary era and investigate Muslim engagements with modernity and discuss the varied responses and perspectives. There will some discussions of international relations, but the course will also emphasize micro level issues. Students will have the opportunity to develop research projects designed to extend their understanding of Islam and its potential as a resource for peace building.

CARM 6655- The Interdisciplinary Writer
This course is designed to assist graduate students in creating essays, thought papers, and other pieces of writing that reach an intended audience with clarity, skillful craft, and purpose. It includes reading and writing assignments for an academic setting focused on interdisciplinary perspectives. Students will be expected to participate in class discussions and improvisational writing exercises. Because this is a writing course, rather than just a course about writing, there will be a workshop component to the class. This means that all participants will bring in copies of their work to share to develop writing strengths and skills, improve editing abilities, and better understand how an author's writing and those of others, a piece's purpose, it's organizational structure, level of craft execution, authorial voice, and engagement of the audience.

CARM 6656- Gender, Conflict and International Development
This course provides the student with essential understanding of the factors that shape the social, political and economic roles of women and men in developing countries. The course covers the concepts of gender in conflict resolution and peace building by examining women and men's human rights and security, and the consideration of gender within developmental policies. and provides an overview of concepts and gender analysis frameworks from a historical perspective. Students examine specific projects aimed at integrating women into community development.

CARM 6657-Conflict Coaching Theory and Practice
This course examines the growing use of conflict coaching as a conflict intervention process and introduces different models and related theoretical foundations. The integration of theory and practice will emphasize the various stages including identity framework, narrative, needs assessment, goal setting, and feedback, utilizing a relational and systems orientation. The course develops coaching skills, strategies, and knowledge, and uses a practice-based approach, including role-plays and case studies.

CARM 6659-Conflict and Peace Building in Africa
This course examines conflict and peace building dynamics in the African continent. Its content includes a survey of contemporary macro-level conflicts in Africa and an examination of their historical and more immediate causes. Class participants will explore the causes and effects of such conflicts and investigate prospects for constructive transformation. Past and ongoing resolution and peace building efforts will be discussed, and class members will propose a peace building strategy for a case of their choice.
### M.S. in Family Therapy

**SFTM 5310 - Introduction to Systems Theories**  
 Presents an overview of systems theories that use metaphors of system, pattern, interaction, communication, and language to describe human behaviors and relationships. Offered each term.

**SFTM 5311 - Substance Abuse/Addictions and Critical Issues in Systems Theories**  
 Addresses the application of modern and postmodern ideas to substance abuse/addiction research, theories, practice, and treatment. Also included are other critical issues such as gender, race, religion, and violence. Prerequisites: SFTM 5400 I; SFTM 5321; Co-requisite: SFTM 6300. Offered winter.

**SFTM 5320 - Introduction to Marital and Family Therapy**  
 Reviews the history of marital and family therapy and the clinical approaches of interactional therapies. Focuses primarily on teaching basic, therapeutic concepts and skills to include joining, listening, and conducting the initial interview through termination. Offered fall and winter terms.

**SFTM 5321 - Theories of Marriage and Family Therapy**  
 Offers a comparative study of theories of marital and family therapy, including systemic, structural, strategic, intergenerational, contextual, behavioral, and experiential therapies. Survey of differences in clinical practice. Prerequisite: SFTM 5310. Offered fall and winter.

**SFTM 5322 - Clinical Practices in Marriage and Family Therapy**  
 Examines applications of family therapy methods and counseling theories/techniques in specific situations including divorce, child rearing, and school problems. Prerequisite: SFTM 5400 II. Co-requisites: SFTM 6300. Must be taken with SFTM 6300. Offered fall and summer.

**SFTM 5350 - Research in Marriage and Family Therapy**  
 Reviews quantitative and qualitative methods of inquiry, as exemplified in recent marital and family therapy research studies. Focuses on teaching students to be intelligent, critical consumers of research in the field. Prerequisite: SFTM 5310. Offered winter and summer.

**SFTM 5400 - Internal Practicum I - II**  
 Provides the opportunity for practice of marital and family therapy at Brief Therapy Institute (BTI), under faculty supervision. Prerequisites: SFTM 5310, SFTM 5320, SFTM 6340. Offered each term.

**SFTM 5700 - Comprehensive Exam**  
 A comprehensive exam of coursework in the program.

**SFTM 6300 - External Practicum I - II**  
 Provides the opportunity for practice of marital and family therapy at Brief Therapy Institute or at an approved off-campus internship site, under supervision of faculty members and qualified professionals. Prerequisites: SFTM 5400 II, Program Chair approval of internship contracts. Offered each term.
SFTM 6320 – Assessment in Marital and Family Therapy
An overview of methods and instruments used to define problems and indicate solutions. Includes diagnosis, appraisal, assessment, and testing appropriate to the practice of marriage and family therapy. Comparative study of interactional approaches and individual and family dysfunction assessments. Prerequisites: SFTM 5310, SFTM 5321, SFTM 5400 I. Offered summer.

SFTM 6331 – Diversity in Human and Family Development
The primary aim of this course is to increase and enhance MFT students’ awareness of issues of diversity and how such awareness may influence therapists’ professional and personal perspectives. A secondary aim of this course is to assist students in their efforts to respond to Difference/Others in more appreciative, respectful, and honoring ways, which will hopefully lead to better therapist-client relationships and more effective therapy. Prerequisite: SFTM 5400. Offered fall.

SFTM 6332 - Human Sexuality and Gender
Reviews the psychosocial development of sexuality and gender from childhood through old age. Summary of clinical approaches to sexual and gender problems, comparing interactional approaches with psychodynamic and behavioral models. Prerequisite: SFTM 5310 Offered summer.

SFTM 6333 - Theories of Personality and Psychopathology
Reviews the major theories of personality and psychopathology, emphasizing psychiatric diagnostic classification systems. Focuses on the study of implications for treatment and comparisons with interactional approaches. Prerequisite: SFTM 5310. Offered summer.

SFTM 6340 – Legal, Ethical, and Professional Issues in Marriage and Family Therapy
An explanation of accreditation and licensure organizations and the ethical codes they promote in family therapy and related fields; reviews therapists’ legal responsibilities and liabilities in mental health and family law, insurance claims, and private practice management; and offers an overview of professional opportunities in public service and training programs. Offered fall and winter.

SFTM 6374 – Human Development and Individual/Group Psychotherapy
Reviews individual human development theories throughout the life cycle. Also reviews major theories of psychotherapy and understanding of psychosocial development on which they are based. Explores individual and group techniques from psychodynamic, behavioral/cognitive, humanist/experiential, and systemic approaches. Prerequisite or Co-requisite: SFTM 5310. Offered winter.

SFTM 6560 Couples Therapy I
Coverage of couples’ therapy issues to include marital research, evidence-based models, and attention to diversity issues in working with couples. Offered summer.

SFTM 6570 – School Based Counseling
Many of our M.S. in MFT graduates find employment as ESE family counselors in the public school system. Others work in independent school setting or private practice. This course prepares family therapists to work in educational settings. The approach used is brief and solution focused. This course will also assist those MFT’s seeking the certified educational planner credential.
SFTM 6580 – Couples’ Therapy II
Coverage of couples’ therapy issues to include divorce, remarriage, trauma, infertility, infidelity, gender, power, intimate partner violence, GLBT couples, diversity & multicultural issues, substance abuse, mental illness, physical health, aging, technology, spirituality, death, professional, ethical and legal issues, and resources for couples. Prerequisite: Couples Therapy I.

SFTM 6630 – Grief and Loss
Grief and Loss: Personal beliefs and philosophies regarding dying, loss, and death will be explored. Bereavement across the life cycle, including developmental issues relating to adults and children and their understanding of loss, will be reviewed. The manner in which other cultures create meaningful rituals for life and death will be presented. Offered summer.

SHSS 6620 - Academic Writing
A user-friendly didactic course on how to write clear, unpretentious academic prose. Covers technical issues such as sentence structure, punctuation, tenses, idea development in a non-technical manner. Includes strategies for creating and editing manuscripts and for researching, organizing, and writing literature reviews. Offered each term.

M.A. in Cross-disciplinary Studies

MACS 5020 - Theories and Philosophies of Conflict and Peace
This course is designed as a survey course on contemporary theories of conflict and conflict resolution. Students will examine a variety of theories that center primarily on the fields of history, economics, sociology, social psychology, anthropology, political sciences, and social relations. Offered winter.

MACS 5200 - Research Design and Program Evaluation
This course focuses on the development of applied research skills, including basic research tools, assessment, social science research, current research in the field, and an introduction to program evaluation through analysis of published work. Offered fall and winter.

MACS 5310 - Introduction to Systems Theories
Presents an overview of systems theories that use metaphors of system, pattern, interaction, communication, and language to describe human behavior and relationships. Offered all terms.

MACS 5400 – The Interdisciplinary Writer
This course is designed to assist graduate students in creating essays, thought papers, and other pieces of writing that reach an intended audience with clarity, skillful craft, and purpose. It includes reading and writing assignments for an academic setting focused on interdisciplinary perspectives. Students will be expected to participate in class discussions and improvisational writing exercises. Because this is a writing course, rather than just a course about writing, there will be a workshop component to the class. This means that all participants will bring in copies of their work to share to develop writing speaks to others. At the end of this course you will be better able to recognize, in your own writings and those of others, a piece’s
purpose, its organizational structure, level of craft execution, authorial voice, and engagement of the audience.

**MACS 6130 - Practicum I: Supervised Field Experience**
This course is a field research project that incorporates classroom knowledge and real-world settings. Students will demonstrate their ability to apply theory to practice and analyze situations utilizing knowledge from previous course work. Offered all terms.

**MACS 6160 - Practicum II: Supervised Field Experience**
This course is a field research project that incorporates classroom knowledge and real-world settings. Students will demonstrate their ability to apply theory to practice and analyze situations utilizing knowledge from previous course work. This is a continuation of MACS 6130. Prerequisites: MACS 6130. Offered all terms.

**Elective Courses:** Please note the courses listed below are not the complete list of all courses available to MACS students. Students should consult with the department when creating their degree plan.

**MACS 0501 – Introduction to Java Programming**
This course is an introduction to the Java programming language. The course will include an introduction to the concepts of object-oriented programming and will show how Java supports this programming paradigm. You will learn about the Java environment and will write both applets (programs that execute in a web browser) and applicants (stand-alone programs). In addition to learning about basic language statements, you will also learn how Java provides support for such diverse applications as web pages, multimedia, education, etc.

**MACS 0603 – Ocean and Coastal Law**
A hodgepodge of laws and approaches apply to the oceans and coasts. Essentially all the legal attention arose within the past six decades. Rights divide among private landowners, resource extractors, local governments, national governments, or international authorities. Today a great period of legal adjustment is in motion as many living systems collapse, bearing social and economic consequences. Much ocean and coastal law is already a story of failure followed by rethinking or reconstruction. This background law is now asked to rise to the task of enabling prevention of global climate change, and to the task of adaptation to its impacts which elude prevention. Other courses in the distance program address science or policy for living and non-living resources. This course is about how law copes with emerging science and policy. It depicts examples of legal success and of disappointment to highlight the mechanisms and principles of law. From the examples, we understand and can recollect how these laws are created, revised, processed into regulations and administered. Limits on agencies and courts to make interpretation, apply science in legal settings, and enforce are evaluated.

**MACS 0612 – Coastal Policy**
This web-based distance education course explores the issues, problems, and potential political and public policy solutions to the challenges of achieving smart, sustainable stewardship of the seashores. Primary emphasis is on the United States experience. Students read two outstanding books and participate in on-line activities.
including original case studies, on-line tests, and selected interactive discussion with each other, the professor, and guests. Optional weekend or extended 3-credit field trips to experience and examine coastal policy venues in Fort Lauderdale and Palm Beach (Florida, USA) and other coastal locations will also be available.

**MACS 0614 – Intl Coastal Zone Management**

International Integrated Coastal Zone Management: This web-based distance education course focuses on the international dimensions of integrated coastal zone management. Students will examine the major "big picture" issues affecting the world's coastal areas and oceans, and will examine seven case studies that will help to bring alive the grave problems of mismanaging coastal and economic resources: the Black Sea, Newfoundland, the Louisiana Region of the Gulf of Mexico, Belize, the Marshall Islands, and Antarctica.

**MACS 0630 – Life on a Water Planet**

Life on a Water Planet has four broad aims: (1) to provide a holistic and current perspective on key water issues that includes ecological, socio-economic, historical and cultural perspectives, together with consideration of the water needs of other species; (2) to provide a forum for sharing understandings and perspectives; (3) to help you shift your perception of our planet from "the earth" to "water"; (4) to encourage you to take information and knowledge about water issues from a broad base and apply it to your own community or individual situation. The course is organized into ten units which involve readings available as direct links with the course homepage, online activities and discussion, and optional web resources for further exploration and study.

**MACS 0636 – Marine Mammal Management**

This course is essentially a interdisciplinary approach to examining the present state of the relationship between marine mammals, people and the environment: as this has evolved over time, as it stands today and as it is likely to be for the future, whether by default or by design.

**MACS 0647 – Iraq: Restoring the Marshlands**

International Coastal Zone Restoration in the Marshlands of Iraq: Throughout the 1990's the regime of Saddam Hussein committed genocide and ecocide against the people and environment of Mesopotamia-the vast marshlands between the Tigris and Euphrates rivers in Southern Iraq. The government did this through a secret "Plan for the Marshes" to drain away its life-giving water and attack, kill and scatter its half-million inhabitants who were predominantly Sunni Moslem. Today, the former regime is gone and the country is occupied by other forces, but Mesopotamia is still a depopulated wasteland.

**MACS 0655 – Environmental Remote Sensing**

Environmental Remote Sensing & Geographic Information System: This course assumes that you have an interest in Remote Sensing (RS), Geographic Information System (GIS) and large-scale Earth observation, and wish to learn about using these tools to study the Earth and its processes. It doesn't matter whether you consider yourself a chemist, physicist, biologist, geologist or geographer, or simply have a reasonable grounding and interest in the Earth Sciences. Nonetheless, you must be prepared to grapple with some basic ideas of Physics. The distance-learning course is designed to be accessible and to give a general induction to a wide scope of relevant topics.
MACS 0664 – Internship in Coastal Policy
Students enrolled in this course are expected to invest the equivalent of 3 hours per week for 14 weeks (i.e. at least 42 hours) in their internship. This can be done at a research organization, private company or consulting firm; local, county, state or federal agency; or other approved venue that is related to coastal zone activities. In addition to hands-on work, each intern will also keep an academic journal of internship activities. The journal will be submitted for review for the final grade. The student's supervisor at the internship venue will also evaluate the student. Permission and approval of supervising Professor is required before you enroll in this class.

MACS 0665 – Environmental Sustainability
This web-based distance education course highlights more than 25 years of international discussion, debate and ideas, with regard to the state of the environment and our actions towards it. Key considerations and voices are included, from both North and South. This unusual and challenging course avoids the usual categorizations, and instead examines in a cross-cutting approach the environmental and social issues that affect our lives.

MACS 0667 – Coastal Zone Interpretation
This is a web-based course that offers an exploration of communication and experiential learning theories and their application to the interpretation of coastal zone environments. This course provides the student with learning opportunities that will require them to, “go outside, sniff around,” explore the coastal zone and thereby be engaged in hands-on interpretive experiences.

MACS 0672 – Biology of Sharks and Rays: Part 1: Form and Function
In this course, we will explore the general biology of sharks and rays by examining topics concentrating on their anatomy, physiology and biochemistry with the goal of understanding how exquisitely adapted these animals are to their environment.

MACS 0673 – Biology of Sharks and Rays: Part 2: Ecology and Evolution
In this course, we will survey the evolution and diversity of past and present sharks and rays and also examine distributions, environments inhabited, ecological roles, interactions within and among species, and review the life history characteristics of sharks and rays I relation to their occurrence and sustainability in fisheries with the overall goal of understanding the diversity of sharks and rays, their role in marine ecosystems and their interactions with humans (other than in terms of shark attack).

MACS 0676 – Chemical Biology of Coastal Zn.
Chemical Biology of Coastal Zones: This course deals with the application of chemistry to the biology of coastal zones. It consists of 10 units, 10 quizzes, 1 written assignment and a final exam. Each unit is followed by a quiz.

MACS 0677 – Coastline Environmental Security
Traditional terrorist targets include human assets (such as political leaders and foreign diplomatic staff), physical assets (such as aircraft, buildings, factories, power stations), and institutional assets such as legislatures and courts of law. However, we seek here to expand the notion of threat beyond these traditional determinants to include activities which target the natural environment. Although we may consider Eco-Terrorism (people and organizations which target the built environment and act in the defense of nature), this course will concentrate on the natural environment as a target. In this time of global instability, where people sacrifice themselves by
strapping on explosives and where civilian aircraft are used as missiles, we must force ourselves to look beyond traditional threats and evaluate the risk confronting our greatest asset, our environment. This involves particular considerations for those who are concerned with maintaining and managing the sustainability and health of the coastal zone. For S1 level students only.

**MACS 0686 – Ocean Observing**
The Ocean Observing course sets the stage for this new program. It is intended to give students a broad view to how the physical and biological factors are governing the distribution of the marine life and how the ocean influences climate variability. Human activities impact the orderly functioning of the ocean (and other components of the Earth system) by altering cycling rates and disturbing the equilibrium of biochemical cycles. Students will learn how society is attempting to minimize these impacts, remediate past damage, and avoid future problems. Answers to these and other questions require observational data on the ocean's properties and processes.

**MACS 0687 – Coastal Ecology**
The course provides a thorough synthesis of the physical processes in relation to biological functioning in near-shore environments. Course elements include consideration of; introductory level coastal oceanography and adaptations of marine organisms, principles for understanding the ecological structure and dynamics of coastal marine communities, ecological descriptions of major coastal marine ecosystems, and scientific principles relating to management and decision-making processes.

**MACS 0690 – Tropical Marine Fish Ecology**
This course will cover the ecology of tropical fishes, including coastal, estuarine, mangrove and pelagic fishes. Emphasis is on identification and natural history of local species. Current theories on distribution and abundance will be discussed in addition to ecological theory. Field work will take place at the Keys Marine Laboratory, Long Key, Florida. On return to the Oceanographic Center a one week self directed and self-scheduled laboratory study will be required. Students will complete the lab on August 11th. Date of final exam to be determined.

**MACS 0699 – Environmental Risk Assessment**
The emphasis is on the coastal zone manager's understanding of pollution sources, relative risk and potential effects on human and marine life. Sources, measurement, and control.

**MACS 0735 – Oil Pollution and the Marine Environment**
This course will cover the chemistry and environmental impacts of oil spills and pollution on the marine environment. Topics will include the effects of oil on various organisms and ecosystems. Current and historical oil spills and other major pollution events and their clean-up will be analyzed and evaluated.

**MACS 0745 – Ocean Debris Science**
This class describes and analyzes coastal zone management and coastal policy through the analysis of human debris. Also called flotsam and jetsam, debris can be a valuable tool in the analysis of ecosystem degradation through human activity. The class will require each student to propose numerous concrete policy solutions to the problems of human garbage and debris in the coastal and ocean environments.

**MACS 0790 – Aspects of Marine Pollution**
The course deals with various forms of environmental pollution as they affect both the land and maritime environment. Sources, measurement and control of pollution in marine and coastal environments are discussed. It examines the fate of chemicals and their biological effects on marine organisms. It also examines environmental toxicology and the general mechanisms of transport and transformation of chemicals in water/sediment systems and within marine organisms.

**MACS 0806 – Coastal Pollution & Env. Toxic**
The course deals with various forms of environmental pollution as they affect both the land and maritime environment. The emphasis is on the coastal zone manager's understanding of pollution sources, relative risk and potential effects on human and marine life. Sources, measurement, and control of pollution in marine and coastal environments are discussed. It examines the fate of chemicals and their biological effects on marine organisms. We will discuss environmental toxicology and the general mechanisms of transport and transformation of chemicals in water/sediment systems and within marine organisms.

**MACS 0945 – Marine Protected Areas: Science, Siting and Monitoring**
The online course consists of several power point presentations with voice-over as well as discussion topics and class interactive hypothetical scenarios. Lectures will address the logic of Marine Protected Areas (MPA) and their advantages and disadvantage. The science of MPA will be presented as well an overview of traditional approaches to fisheries management. The importance of ecological principles when creating an MPA will be emphasized. An overview of sampling theory and need for empirical data to document the success or failure of MPA will be presented.

**MACS 0955 – Archaeological Oceanography: Reefs and Wrecks**
Archaeological Oceanography: Reefs and Wrecks will examine human interest in the tension of natural and cultural treasures. Students explore the dynamics of ocean systems, human systems, natural and artificial reefs. Legal, ethical and preservation considerations will be examined. Mapping, navigation through time and tools and technology through time will be featured as well as present day conservation of artifacts, archives and the nature of evidence. A self-selected student project will be a requirement. For the Oceanography major, the student project will focus on ocean science and/or engineering. For the Coastal Zone Management major, Certificate Program or Education Degree student, the focus for the student project can be from a broad range of relevant topics.

**MACS 0957 – Archaeological Oceanography: Reefs and Wrecks; Field Experience Component**
This distance learning and field-based course will examine human interest in the tension of natural and cultural treasures. Students will experience the dynamics of ocean systems and human systems, as well as natural and artificial reefs, within the context of legal, ethical and preservation considerations. Present day conservation of artifacts, archives and the nature of evidence will be highlighted. The distance learning portion of the course will be for delivery of on-line learning materials as well as dialogue with students/faculty prior to the field-based component and afterwards.

**MACS 0960 – Alaska Coastal Ecology**
This course takes place at a remote field laboratory at the southern tip of the Kenai Peninsula along the south central coast of Alaska. Each day will consist of a combination of lectures and lab exercises at the laboratory and field trips to the surrounding bays, beaches, glaciers and riparian environments. Topics include
zooplankton productivity, intertidal environments, fish and invertebrate ecology, marine mammals and bird populations, high latitude ecosystem management and detection and impacts of climate change. You will explore the environment via boat and on foot. You will also visit the Alaska SeaLife Center to view marine mammals and birds up-close and learn about in-depth research and rehabilitation being conducted. Students will have opportunities to sea kayak, fish, glacier hike and even cold water snorkeling.

MACS 0965 – Water World Revisited: Exploring Coastal Futurology
This short course will feature readings, discussions, short digital video interviews and video case studies, and short lectures by the instructors. You will examine the context of futurology of coastal zones and oceans. Students will be assessed for participation in on-line discussions, short student video contributions to the class and weekly written brainstorming notes on the weekly topics. The major themes of the course are (1) Climate change and the urgency for humans to restore climate balance; (2) The interaction of human activity and climate; (3) Futuristic oceanic and coastal zone settlement and manufacturing ideas; (4) Futuristic energy systems, climate and the ethics of proposed human engineering of climate and habitat.

MACS 0985 – Climate Change at High Latitudes
High latitudes are undergoing rapid and significant change associated with climate warming. Climatic changes in these regions interact with and affect the rate of the global change through atmospheric circulation, biogeophysical, and biogeochemical feedbacks. Changes in environmental conditions are often first exhibited in high latitudes and more sensitive to fluctuations. This course will explore the impacts of current and projected long-term environmental changes in both the northern and southern hemispheres’ bodies of water. Primary literature will be read and discussed covering a range of topics from the physical, chemical and biological perspectives as well as predictive models. Web sites and links of organizations and agencies studying high latitudes will be provided. Students will be responsible for active discussions weekly online and a term paper discussing a chosen topic related to high latitude environmental change.

MACS 5000 – Foundations and Development of Conflict Resolution & Peace Studies
This course outlines the substantive themes, history, origins, contexts, and philosophical foundations of conflict resolution, healing, peacemaking, and problem solving. Students will examine levels of interventions and processes in the field of conflict resolution.

MACS 5040 – Human Factors
This course presents communication theories relevant to conflict resolution as well as theories about understanding, analyzing, and managing conflict. The course focuses on the human and emotional aspects of conflict, and includes the influence of gender and culture. This course is pragmatic as well as theoretical, and presents communication and conflict resolution models in a practice-based approach.

MACS 5100 – Mediation Theory & Practice
This course examines theories, methods, and techniques of mediation. Students will have the opportunity to demonstrate their knowledge of mediation skills. Prerequisites: MACS 5040. Offered fall and winter.

MACS 5140 – Negotiation Theory and Practice
This course examines conflict intervention from the perspective of the disputant/negotiator. The integration of theory and practice will emphasize the tactics, strategies, and operations of effective and ineffective bargaining/negotiating behavior. The course develops negotiator skills and knowledge, leading to collaborative-based actions and solutions. Offered winter.

**MACS 5300 – Fundamental Concepts of Climate Change**
Climate change is increasingly at the forefront of scientific and policy considerations worldwide, but the basic dynamics of the atmosphere and climate processes are not generally understood. This course will be one of the core courses in the Graduate Certificate and Coastal Climate Change, and an elective within the MS in Coastal Zone Management degree program. It will introduce simple concepts and observations regarding weather and the marine and coastal environment, and build into more complex enquiries and investigations regarding the physical, chemical, biological and geographical aspects. Upon course completion, students will better comprehend the science behind marine and coastal climate change and be able to make use of this knowledge in their decision-making within their communities and work environment.

**MACS 5350 – Fundamental Concepts of Climate Change II**
The social consequences of a changing climate are numerous and have the potential to significantly alter human-livelihood and even create community conflict and unrest. In this course, which is one of the two required (core) courses for the Graduate Certificate in Marine and Coastal Climate Change, students will explore climate change from a social perspective. Where appropriate, the course will be explored in the context of the marine and coastal environment.

**MACS 5401 – Editing I**
This course engages students in the principles and practices that create and sustain hard copy and online journals. These may vary from a fully-academic focus to literary materials, but all will create and deliver content that promotes contributions to their fields. Coursework will encompass all the steps that connect a publication with its intended audience. Coursework will vary depending on the current stage of a journal’s development, focusing on duties consistent with the ongoing production of a professional journal. The research, contributor enlistment, practical development, delivery, and distribution of both hard copy and online journals will fall within the expertise cultivated in this course. Students, who wish to pursue editorial positions with journals, or simply improve their understanding of what it takes to successfully publish in journals, will have an insider’s understanding of the realities and opportunities that journals provide for their communities. (Prerequisite MACS 5401).

**MACS 5402 – Editing II**
This course will guide students further through the process of developing a journal that represents an academic program step by step to its delivery. Coursework will vary depending on the current stage of a journal’s development, focusing on duties consistent with the ongoing production of a professional journal. The research, contributor enlistment, practical development, delivery, and distribution of both hard copy and online journals will fall within the expertise cultivated in this course. Students, who wish to pursue editorial positions with journals, or simply improve their understanding of what it takes to successfully publish in journals, will have an insider’s understanding of the realities and opportunities that journals provide for their communities. (Prerequisite MACS 5401).

**MACS 5500 – Directed Readings in Media and Public Policy**
This course examines specific aspects of the media and the role it plays in influencing and being influenced by public policy. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5501 – Directed Readings in Narrative and Community Development**
This course examines specific aspects of the use of narrative and the role it plays in community development. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5502 – Directed Readings in National Security Affairs**
This course examines specific aspects of national security affairs. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5503 – Directed Readings in African American Studies**
This course examines specific aspects of the African American experience in the United States. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5504 – Directed Readings in Native American Studies**
This course examines specific aspects of the Native American experience in the United States. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5505 – Directed Readings in Sociology**
This course examines specific aspects of sociology and the role of social groups. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5506 – Directed Readings in Anthropology**
This course examines specific aspects of anthropology and the study of the human experience. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project,
and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5507 – Directed Readings in Public Policy**
This course examines specific aspects of public policy. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5508 – Directed Readings in Gender**
This course examines specific aspects of gender. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5509 – Directed Readings in Diversity**
This course examines specific aspects of diversity. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5510 – Directed Readings in Environmental Studies**
This course examines specific aspects of environmental studies. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5511 – Directed Readings in Children, Youth and Families**
This course examines specific aspects of children, youth and families. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5512 – Directed Readings in Crime and Society**
This course examines specific aspects of crime and its impact on society. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5513 – Directed Readings in Poetry**
This course examines specific aspects of poetry. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5514 – Directed Readings in Transformational Poetry
This course examines specific aspects of poetry and its use as a means of transformation. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5515 – Directed Readings in Short Stories
This course examines specific aspects of the short story. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5516 – Directed Readings in Philosophy
This course examines specific aspects of philosophy. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5517 – Directed Readings in Family Violence and Society
This course examines specific aspects of family violence and its impact on individuals, families, and society. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5518 – Directed Readings in Creative Writing
This course examines specific aspects of creative writing and the writing process. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5519 – Directed Readings in Political Science
This course examines specific aspects of political science. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be
set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5520 – Directed Readings in Fantasy Fiction and Society**
This course examines specific aspects of fantasy fiction and how it may be used to depict various social issues. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5521 – Directed Readings in African Studies**
This course examines specific aspects related to Africa. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5522 – Directed Readings in Multiculturalism**
This course examines specific aspects of multiculturalism. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5523 – Directed Readings in Communication**
This course examines specific aspects of communication. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5524 – Directed Readings in African Diaspora**
This course examines specific aspects of the African Diaspora. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5526 – Directed Readings in Asian Studies**
This course examines specific aspects related to Asia. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor's guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.
This course examines specific aspects related to Latin America. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5528 – Directed Readings in Middle Eastern Society
This course examines specific aspects related to the Middle East. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5529 – Directed Readings in Caribbean Studies
This course examines specific aspects related to the Caribbean region. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5530 – Directed Readings in Social Justice
This course examines specific aspects related to social justice. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5531 – Directed Readings in Humanitarian Relief
This course examines specific aspects related to humanitarian relief across the globe. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5532 – Directed Readings in Human Rights
This course examines specific aspects related to human rights domestically or internationally. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

MACS 5533 – Directed Readings in Economics
This course examines specific aspects related to economics. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be
set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5534 – Directed Readings in Economic Development**
This course examines specific aspects related to economic development. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5535 – Directed Readings in Community Development**
This course examines specific aspects of community development. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5536 – Directed Readings in International Development**
This course examines specific aspects of international development. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5537 – Directed Readings in Intelligence and Counterintelligence**
This course examines specific aspects related to intelligence and counterintelligence as related to national and international security. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5538 – Directed Readings in Homeland Security**
This course examines specific aspects related to homeland security. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5539 – Directed Readings in History**
This course examines specific aspects related to history. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5540 – Directed Readings in American History**
This course examines specific aspects related to American history. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5541 – Directed Readings in Religion and Society**  
This course examines specific aspects related to religion and its impact and role in society. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5542 – Directed Readings in Spirituality and Society**  
This course examines specific aspects related to society and its impact and role in society. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5543 – Directed Readings in Genocide**  
This course examines specific aspects related to genocide and its causes and impact on society. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5544 – Directed Readings in Writing and Art**  
This course examines specific aspects of writing and the writer's relationship with artists and their work. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5545 – Directed Readings in Slavery**  
This course examines specific aspects related to slavery, including its causes and impact on society. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5546 – Directed Readings in Human Trafficking**  
This course examines specific aspects related to human trafficking, including causes, social, political, and economic implications and the effects on society. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other
assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5547 – Directed Readings in Tribal Dynamics**
This course examines specific aspects related to tribal dynamics. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5548 – Directed Readings in Islam and the State**
This course examines specific aspects related to Islam and the State. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5549 – Directed Readings in Environmental and Governmental Affairs**
This course examines specific aspects related to the environment and governmental affairs. It is designed so it may be taken as an independent study or with a small group of students so topics of individual research interest in this area may be pursued. Under the instructor’s guidance, the directed readings, the final project, and any other assignments will be set forth. The course will provide an opportunity for the enhancement of subject matter knowledge and expertise.

**MACS 5602 – Marine Ecosystems**
A study of the major plankton, nektonic, and benthic groups and associations, including their diversity, distribution, metabolism, production, trophic relationships, and ecological roles, with emphasis on coastal communities.

**MACS 5603 – Biostatistics**
This web-based distance education course introduces students to the fundamentals of statistics. More specifically, this course is designed to teach students: 1. how statistics relates to science and life in general. 2. Basic terminology and notations used in statistics. 3. Techniques for describing and summarizing large amounts of data. 4. Methods for using a limited set of observed data (sample) to make inferences about a broader set of data (population). 5. Techniques for conducting statistical tests of scientific hypotheses at the end of this course, students should be able to identify appropriate procedures for examining different types of data, analyze data and interpret results, use statistical results to draw reasonable conclusions about data, and evaluate the appropriateness of statistical tests conducted by others.

**MACS 5604 – Marine Geology**
The objectives of the course are (1) to enable students to examine the structure, evolution and stratigraphy of the ocean basins and continental margins, and (2) to provide an understanding of the dynamic processes that shape the surface of the earth under the ocean surface.

**MACS 5605 – Marine Chemistry**
A web based study of the properties, composition, and origin of seawater; the importance, distribution, relationships, and cycling of major inorganic nutrients,
dissolved gases, carbonate species, trace metals, radiotracers and organic compounds. The course is designed for students pursuing careers in marine biology and coastal management. It includes unit quizzes, online discussions, a literature research paper and a final exam.

MACS 5608 – Introduction to Physical Oceanography
This course is intended to give students a view of how wind, radiation, gravity, friction, and the Earth's rotation determine the ocean's temperature and salinity patterns and currents. Some important processes we will study include heat budget of the oceans, exchange of heat with the atmosphere and the role of the ocean in climate, surface mixed layer, waves in the ocean, geostrophy, Ekman transport, Rossby waves. Students will learn how to explain physical features of the ocean ranging from microscopic turbulence to global circulation.

MACS 6000 – Organizational Conflict: Theory & Practice
This course examines consultation as used by dispute resolution professionals through the exploration of various consultation models: process, third party, expert, and systemic approaches to program and organizational evaluation. Students are oriented to the ways in which consultants establish, market, and develop their professional practices.

MACS 6110 – Public Policy and Strategic Planning
This course focuses on the theories and the analysis of public policy including the design, implementation and evaluation of legislation on the local, state, national and international levels. It includes current policy issue analysis emphasis with an emphasis on the role of public policy and strategic planning.

MACS 6120 – Culture and Conflict: Cross-Cultural Perspectives
This course examines the nature and meaning of conflict, conflict management techniques, and the assessment of conflict situations from a cross-cultural perspective. Explores various models for training third parties to function effectively in handling disputes where cultural differences are a significant factor. Also addresses various theoretical and practical implications of indigenous conflict management techniques and beliefs found in different cultural settings.

MACS 6140 – Facilitation Theory & Practice
This course develops students' skills in working with groups. It incorporates theories and models of group dynamics, facilitation, and group development, as well as workshop development and delivery. This course uses a practice-based approach, including role plays and workshop presentations. Prerequisites: MACS 5040

MACS 6170 – Violence Prevention & Intervention
This course examines various theories of human aggression and violence, exploring their underlying assumptions about human nature and the causes of violence. Also included is an introduction to a range of violence intervention and prevention approaches developed for use at the interpersonal, intergroup, and societal level.

MACS 6299 – Foundations of Qualitative Research
This course introduces students to the epistemological, theoretical, methodological, and procedural foundations of qualitative research. Students will learn common factors qualitative approaches to inquiry share as well as learning the specifics of the major qualitative research methodologies such as generic qualitative description, grounded theory, phenomenology, ethnography, narrative analysis, and discourse.
analysis. Students will also be introduced to the variety of professional settings in which qualitative research is utilized including academia, business and organizations, international development, and private consultation.

**MACS 6300 – Master’s Thesis**
Focuses on the development and writing of the master’s thesis. When approved, students register for three credits per term. Prerequisites: approval of the program director and thesis committee.

**MACS 6303 – Qualitative Data Analysis II**
This course covers best practices in phenomenology, narrative inquiry, and discursive analysis. Students will learn how to conduct thematic analyses, phenomenological reduction, creative synthesis, microanalysis, and report writing. Students will also learn quality control measures such as bracketing, époché, and verisimilitude.

**MACS 6322 – Food Web Dynamics**
A food chain is simply “who eats what”. A food web weaves together many food chains to form a complicated network of feeding relationships. Many animals eat more than one thing, and each link in each chain is important and integral to the entire system. The interactions in a food web are far more complex than the interactions in a food chain. This course is designed to study the basic components and processes of trophic dynamics, how these comprise different marine ecosystems and how these systems can be altered.

**MACS 6332 – Human Sexuality and Gender**
Reviews the psychosocial development of sexuality and gender form childhood through old age. Summary of clinical approaches to sexual and gender problems, comparing interactional approaches with psychodynamic and behavioral models.

**MACS 6340 – Marine Mammals**
This course provides an overview of the anatomy, biomedicine evolution, husbandry, natural history, pathology, and physiology of the cetaceans, pinnipeds, sirenians, and allies.

**MACS 6600 – International Conflict Resolution**
This course reviews international conflict resolution in many settings and includes informal mediation by private intereners and scholar practitioners; formal mediation by individual, regional, transnational, and international organizations; and mediation within small and large states.

**MACS 6601 – Special Topics in MACS I**
This course introduces a range of topics related to the content areas of existing MACS concentration tracks to give MACS students the opportunity to add further depth to their academic experience. Selected course topics may include special topics in the Humanities; special topics in Sociology; special topics in Social Work; special topics in Communications; and special topics in Pedagogy.

**MACS 6602 – Special Topics in MACS II**
This course continues to deepen students’ understanding of a range of topics related to the content areas of existing MACS concentration tracks to give MACS students the opportunity to continue to add further depth to their academic experience. Selected course topics may include special advanced topics in the Humanities;
special advanced topics in Health; special advanced topics in Sociology; special advance topics in Social Work; special advanced topics in Communications; and special advanced topics in Pedagogy.

MACS 6603 – Resolving Environmental & Public Disputes
This course focuses on the theoretical bases, practical applications, process orientations, and actual intervention into complex multiparty, multi-issue public disputes. Focus is on social/environmental interactions and sources of political and economic conflict over human health environmental protection and natural resource scarcity.

MACS 6604 – Gender & Conflict
This course examines gender roles in conflict and how conflict is experienced and perceived by men and women. Course material includes feminist theories, men's studies, religion, literature, history, anthropology, film, television, psychology, the justice system, and alternative dispute resolution.

MACS 6605 – Introduction to Institutional Assessment
Introduction to Institutional Assessment: This course will introduce students to the field of institutional assessment and planning, emphasizing the higher education environment and its unique challenges. Students will explore the functions of educational institutions across systems, develop an understanding of the concepts of institutional assessment and administrative issues in higher education, learn to use core technologies and methodologies for research applications, and build experience navigating the political and interpersonal dynamics that promote effective institutional assessment.

MACS 6607 – Ethnopoli
tical and Community Based Conflicts
This course introduces the major methods used by states, international organizations, and conflict resolution practitioners to eliminate, manage, and resolve ethnic and community-based conflicts. Case studies are used to explain conflict escalation and de-escalation, and mechanisms of conflict intervention.

MACS 6610 – Family Violence: The Effects of Families, Communities & Workplaces
This course explores the overall effects of trauma and violence on individuals, families, communities, and the workplace. Issues of abuse, violence, and systemic responses are explored in relation to their effect on individual behavior, family dynamics, service provision, and community systems. Methods for identifying such issues in the context of family mediation and other types of conflict intervention are explored.

MACS 6611 – Race and Ethnic Relations in America
The course examines the social constructionist approach toward the study of racial and ethnic conflict and analysis in the U.S. It is designed to assist students in increasing their ability to analyze racial issues from a historical to a contemporary perspective and to explore some of the basic theoretical paradigms that have been used to conceptualize the idea of race and ethnicity from the 19th Century to the present in the U.S. The course will also explore the affects of contemporary policies in addressing racial and ethnic inequities and strategies used to combat racism.

MACS 6614 – Workshop Development
This course helps students to create a connection between the graduate program and professional life by learning how to create, develop, and present workshops and
training in the field of conflict resolution. Students will learn concepts and principles necessary to create and design workshops for adults and for children. Students will actually develop and present workshops in class in order to gain experience, have a finished product, and get valuable feedback from participants.

**MACS 6615 – Storytelling: Identity, Power & Transformation**
This course will examine the role of narrative and storytelling in the conflict resolution theory, research, and practice: (1) Theory regarding the relationship between language and power will be reviewed. How storytelling and narrative can be a part of destructive conflict or constructive conflict resolution will be explored. (2) The nature of narrative-based research and how such research can be empowering will be examined. (3) Case studies and possibilities for using storytelling-based projects as a means of peace building will be discussed.

**MACS 6616 – Trauma & Violence: Global Perspectives**
This course will look at issues of war, regional violence, torture, forced relocation, ethnic cleansing, rape and other issues related to regional conflict, and then focus on conflict intervention models. Relief and assistance programs from humanitarian relief, the Red Cross, UN programs, Quaker NGO's, Christian relief efforts, and others will be examined with a focus on trauma intervention as a conflict resolution career option. Discussion will center on how conflict specialists can connect, work with, and influence humanitarian aid efforts, capacity building, democratization efforts, and conflict transformation projects.

**MACS 6619 – Strategic Community Planning**
An overview of the community form a strategic perspective, identifying: social, economic, demographic and cultural trends and patterns within the community; areas of concern for law enforcement and government; ways to initiate and develop community-wide strategic planning for peaceful community relations and growth; building community partnerships between law enforcement, the criminal justice system and community justice; and the use of data, data collection and analysis in developing and implementing collaborating long and short terms plans for community development, problem solving and funding initiatives.

**MACS 6621 – Introduction to Human Rights Theory & Practice**
This course provides students with an introductory survey of political, philosophical, historical, economic, and legal considerations related to fundamental human rights concepts. Students will examine human rights issues in both domestic and international arenas. In particular, the course addresses the issues of the ideological and cultural origins of human rights theory; the sources of rights and rights violations; the impact of the nation-state system, governments and other institutions (such as corporations, churches, and universities), and domestic and foreign policies particularly of the U.S. on human rights law and enforcement. Finally, students examine the wide variety of political, civil, economic, social and cultural rights warranting protection.

**MACS 6622 – Legal Concepts**
This course will provide an overview of the U.S. legal system as it relates to alternative methods of resolving conflicts. Students will learn legal terminology, the judicial system, judicial procedures, the fundamentals of legal research and legal writing, and where alternative methods such as mediation and arbitration relate to legal processes. Students will also explore legal and procedural concepts such as: collaborative legal practices, state and federal authority, restorative justice, victim-
offender programs, and the relationship between U.S. and international legal procedures. The class will be interactive with research, writing, class presentations, and guest presentations.

**MACS 6623 – Practicum III**
This course is a more advanced field research project that incorporates classroom knowledge and real-world settings. Students will demonstrate their ability to apply theory to practice and analyze situations utilizing knowledge from previous course work. Pre-requisite: Program Approval Required.

**MACS 6624 – Advanced Practicum**
This practicum experience is a faculty-driven experience in which a faculty member will design a project in conjunction with another organization or university and students selected for the practicum will work on that project with the faculty member. The project may also entail a one to two week mandatory field experience in which students and the faculty member will work on the project on location. Students will be responsible for their expenses. Students will apply for this practicum and must be selected.

**MACS 6626 – Conflict Resolution for the School and School System**
This course is designed for anyone in a position to influence school policy, practice, and decision-making, from within or as a consultant. The course takes a systems approach to resolving conflicts within the school and school system, applying conflict analysis and conflict resolution models to conflict situations, using negotiation, mediation, and facilitation processes, developing a conflict resolution culture throughout the system, providing training for parents, teachers, students, and school board. The course also examines methods to manage conflict, including using conflict resolution practices in crisis situations, and mediating and negotiating with parents, teachers, administrators, and students. The course uses a case study method.

**MACS 6627 – Conflict Resolution & Peer Mediation for Students: Elementary, Middle and High School Levels**
This course is designed to bring conflict resolution and peer mediation training to students at the classroom, school, or school system level with the objective of transforming student/classroom/school conflict resolution culture. Students will examine the elements of conflict resolution and peer mediation curricula, materials and resources in the field, and current research. Students will also do original curriculum/peer mediation design by integrating state-of-the-art thinking in conflict resolution methods, theories, and research into the design, implementation, and institutionalization of conflict resolution and peer mediation programs. Pre-requisites: MACS 5100.

**MACS 6630 – Foundations of Genocide Studies**
This course is a survey of the causes, forms, and nature of genocide. The course addresses the complexities in differentiating human rights violations and crimes against humanity, from genocide and government sponsored mass murder. Theoretical and applied cases studies will facilitate student engagement. The course will serve as an introduction to the theories and applied practices utilized in analyzing acts of genocide. Issues addressed throughout the course will include: genocidal intent, eugenics and genocide, demographic purging, as well as mass and public extermination.

**MACS 6633 – International War and Resolution**
This course focuses on various aspects of internal war and peace. Topics of discussion include defining war, historical patterns of warfare, motivations to engage in such conflict, as well as efforts to deter or resolve international war.

MACS 6635 – Advanced Facilitation: Facilitating Complex Group Problem Solving
This course focuses on facilitation in complex problem situations. The focus will be on intercultural settings. Various approaches to complex facilitation are introduced, with special attention to dealing with difficult parties and the principles of Interactive Management (IM). This course will provide students with the skills necessary to perform a facilitation workshop with a computer-assisted program developed to resolve complex problems. Students will gain experience as participants in problem-solving sessions, which they will study and analyze. Class sessions will consist of role-plays, discussion and analysis, and presentation of information. Prerequisites: MACS 6140.

MACS 6638 – Conflict & Crisis Management Theory & Practice
This course is an overview of the theories of conflict and crisis management and the intervention models and protocols used. Conflict and crisis management will be explored among and between individuals and groups, organizations, communities, and governments around the globe. Topics will include the management of violent conflicts, such as kidnapping, hostage-barricade and terrorist acts, homeland security, and the response to natural disasters. There will be interactive exercises as well as a case study approach used.

MACS 6639 – Organizational Conflict Intervention
This course will explore the diagnostic techniques and tools necessary to assess organizational conflict, and tools necessary for successful intervention. Pre-requisite: MACS 6000.

MACS 6640 – Critical Incidents Response
This course will provide an in-depth analysis and understanding of inter-group and intra-group dynamics associated with the organizational response to critical incidents such as hostage/barricade management, terrorism, kidnapping, natural and other disasters, and tactical operations, which comprises the negotiations team, the tactical team, and the on-scene commander, as well as coordination of efforts with government, organizations, and the community. Topics include: inter-group and intra-group conflict intervention and communication strategies, negotiation, tactical, and command protocols, hostage/barricade resolution continuum options, and case studies.

MACS 6641 – Conflict and Crisis Negotiation
This course will provide an overview of law enforcement crisis negotiation and its application to crisis situations, such as domestic violence encounters on an individual level and hostage/barricade encounters on an organizational level. Lecture, expert demonstration, and interactive negotiation with role play will provide an experiential learning environment for understanding and applying active listening skills, empathy, rapport, influence, and behavioral change concepts to conflict and crisis situations.

MACS 6643 – Social Aspects of Terrorism
This course will examine a wide range of different cultures and societies with a special emphasis placed upon political violence. Regions explored are: Basque country, Chechnya, Colombia, Northern Ireland, Palestine, Sri Lanka, and Zimbabwe.
Of particular importance are the dimensions of terrorism, trauma, and violence through an understanding of colonialism, discourse, history, material culture, media, rebellion, revolution, and separatism. Additionally, the course will focus upon the causes of 9/11 and the recent fomentation of international terrorism. By exploring the subject of terrorism form an anthropological perspective will demonstrate the complexities and various interpretations concerning the political uses through the appreciation of interdisciplinary analysis.

**MACS 6644 – Consulting with Leaders in Organizational Conflict: A Four Framed Approach**
Studies clearly show that successful leaders of twenty-first century organizations need to make sense of complex conflict situations before taking action. This course combines theory and practice to equip students to assist organizational leaders in developing both diagnostic and behavioral sophistication by using multiple frames before taking action. Participants will engage in classroom learning, on-line assistance, and leadership coaching with a client and organization of their own choosing.

**MACS 6645 – Indigenous Systems of Conflict Resolution**
This course is designed to make contributions to the field by exploring the processes of conflict resolution and peacemaking as practiced by the indigenous communities around the world. Class members will engage in an in-depth exploration of techniques of peacemaking, as practiced in various parts of the world.

**MACS 6646 – The Anthropology of Peace and Conflict**
This course will explore the social dynamics of disputing and undertaking detailed examinations of specific cases. By examining diverse expressions of conflict and different means of controlling it, students will deepen their understanding of conflict analysis and broaden their perspectives on how disputes can be managed. Course topics will include the cooperative and aggressive components of human nature, the social construction of violence, genocide, and war, and the relationship between conflict resolution, social control, inequality, and justice.

**MACS 6647 – Risk Management for Organizations**
This course examines risks across all types of organizations, including healthcare. The course will outline various types of risk exposures including pure, operational, project, technical, business and political. Students will learn how to develop a systemic risk management program for any organization through risk identification, qualitative impact analysis, quantitative impact analysis, risk response planning, and risk monitoring.

**MACS 6648 – Researching Conflict**
In this course, students and instructors will together conceptualize, design and carry out a mixed methods research study on a topic connected to violence. The students and instructors will decide on a research problem to be studied. The goal of the elective is to help students deepen their understanding of quantitative and qualitative research and hone research skills. The course will be a collaborative effort, building on the experience, knowledge, expertise, and interest of all of the participants. Prerequisites: MACS 5200

**MACS 6650 – International Negotiation: Principles, Process and Issues**
This course describes and analyzes the major principles, processes and issues of international negotiation in the twentieth and twenty-first centuries. It seeks to
provide students with the analytical tools skills required to explain and predict the outcome of specific (bilateral or multilateral) negotiations through the study of various explanation factors, including: stability and change in the structure of the existing "international system"; the individual characteristics of the nations-states parties (power/capabilities, interests, culture/values, negotiating styles, etc.; the strategic and tactical moves of those considered as "key players"; as well as the role of smaller states and non-state actors.

MACS 6651 – Theories of Ethnicity & Nationalism
Theories of Ethnicity and Nationalism: This course is foundational for theoretical understandings of ethnicity and nationalism. Students will analyze general theories from key debates and critically examine various points of view in relation to defining boundaries, conflict, context, difference, identity, migration, minority/majority, race and tribalism in regard to ethnicity, as well as community, fantasy, ideology, neo-Marxism, modernism, perennialism, political, primordialism, semiotic, sociocultural, socioeconomic, imagination, invention, and tradition in association with nationalism and nationalists, and the entwinement and interrelation between all of these prevalent notions and themes. Upon completion of the course students will better grasp ethnic belonging, ethno-nationalist conflict, and intra/inter-group disputes from the standpoint of applied theory, cultural relativity, and humanism.

MACS 6653 – Conflict in Conservation and Development
This course examines conflict in conservation and development. It covers theoretical frameworks and introduces participatory tools that will enable students to more effectively analyze and address situations of conflict in conservation and development initiatives. The course familiarizes students with concepts and methods from natural resource management, sustainable livelihood systems and collaborative learning approaches.

MACS 6654 – Islam, Conflict, and Peacemaking
This course will provide an historical overview of Islam, including an introduction to belief systems, the different branches of the faith and schools of Islamic law with a special emphasis on Muslim doctrines related to conflict and peace. It will include the contemporary era and investigate Muslim engagements with modernity and discuss the varied responses and perspectives. There will some discussions of international relations, but the course will also emphasize micro level issues. Students will have the opportunity to develop research projects designed to extend their understanding of Islam and its potential as a resource for peace building.

MACS 6656 – Gender, Conflict and International Development
This course provides the student with essential understanding of factors that shape the social, political and economic roles of women and men in developing countries. The course covers the concepts of gender in conflict resolution and peace building by examining women and men’s human rights and security, and the consideration of gender within developmental policies. The course provides an overview of concepts and gender analysis frameworks from a historical perspective. Students examine specific projects aimed at integrating women into community development.

MACS 6657 – Conflict Coaching Theory and Practice
This course examines the growing use of conflict coaching as a conflict intervention process and introduces different models and related theoretical foundations. The integration of theory and practice will emphasize the various stages including identity framework, narrative, needs assessment, goal setting, and feedback, utilizing a
relational and systems orientation. The course develops coaching skills, strategies, and knowledge, and uses a practice-based approach, including role-plays and case studies.

**MACS 6658 – Transformational Narratives**
Across cultures, people effectively communicate about their conflicts and issues through narratives. In any helping profession, it is effective to create useful change with a clear understanding of the strategies of transformational narratives. By understanding what creates change in stories, we can help people rewrite their own accounts in ways that redefine their possibilities. This course offers analyses of narratives from traditions of conflict resolution and other interdisciplinary perspectives, promoting the ability to re-frame, refocus, and creatively intervene in stories of a personal and social nature to open useful possibilities for people who carry stories of unresolved struggle.

**MACS 6659 – Conflict and Peace Building in Africa**
This course examines conflict and peace building dynamics in the African continent. Its content includes a survey of contemporary macro-level conflicts in Africa and an examination of their historical and more immediate causes. Class participants will explore the causes and effects of such conflicts and investigate prospects for constructive transformation. Past and ongoing resolution and peace building efforts will be discussed, and class members will propose a peace building strategy for a case of their choice.

**MACS 7220 – Fundamental Concepts of Climate Change II**
The social consequences of a changing climate are numerous and have the potential to significantly alter human-livelihood and even create community conflict and unrest. In this course, which is one of the two required (core) courses for the Graduate Certificate in Marine and Coastal Climate Change, students will explore climate change from a social perspective. Where appropriate, the course will be explored in the context of the marine and coastal environment.

**QRGP 6300 Foundations of Qualitative Research**
This course introduces students to the epistemological, theoretical, methodological, and procedural foundations of qualitative research. Students will learn common factors qualitative approaches to inquiry share as well as learning the specifics of the major qualitative research methodologies such as generic qualitative description, grounded theory, phenomenology, ethnography, narrative analysis, and discourse analysis. Students will also be introduced to the variety of professional settings in which qualitative research is utilized including academia, business and organizations, international development, and private consultation.

**QRGP 6301 Qualitative Data Collection**
The course provides students an opportunity to learn the basics of qualitative research design with a focus on qualitative data generation, collection, and preparation. Students will learn how to select appropriate research sites, gain access to data sources, design and manage sampling strategies, conduct individual and group interviews, carry out field observations, collect documents, transcribe, and compose field notes. Students will also learn quality control measures such as maintaining research journals and diaries.
QRGP 6302 Qualitative Data Analysis I
This course covers best practices in generic qualitative, ethnographic, and grounded theory analysis. Students will learn how to conduct within-case and across case analysis, coding and conceptualization, transforming data, and report writing. Students will also learn quality control measures such as constant comparison, member checking, peer debriefing, and conducting audit trails.

QRGP 6303 Qualitative Data Analysis II
This course covers best practices in phenomenology, narrative inquiry, and discursive analysis. Students will learn how to conduct thematic analyses, phenomenological reduction, creative synthesis, microanalysis, and report writing. Students will also learn quality control measures such as bracketing, epoché, and verisimilitude.

QRGP 6304 Appraising Qualitative Research
This course covers the appraisal and review of products emanating from qualitative research including papers, articles, posters, grant proposals, books, book prospectus, dissertations, theses, and systematic reviews. Students will learn how to assess the quality of qualitative research products, construct and use criterion-based rubrics, and compose reviews. Students will also serve as ad hoc reviewers for The Qualitative Report (TQR).

QRGP 6305 Qualitative Research Design
This course covers knowledge and skills needed to design a qualitative research study and compose a qualitative research proposal. Students will learn how to construct and justify a qualitative research study, synthesize the relevant research literature, generate discovery-oriented research questions, select sites and samples, create a manageable method including a quality control system, address ethical issues, and discuss potential implications and limitations. Students will compose their own qualitative research proposals and Institutional Review Board for the Protection of Human Subjects (IRB) protocols and consent forms.

QRGP 6306 Conducting Qualitative Research I
This course covers the activities involved in the initiation of a qualitative research study. Students will start the study they proposed in QRGP 6305 Qualitative Research Design.

QRGP 6307 Conducting Qualitative Research II
This course covers the activities involved in the culmination of a qualitative research study. Students will complete the study they proposed in QRGP 6305 Qualitative Research Design and started in QRGP 6306 Conducting Qualitative Research I.

M.S. in College Student Affairs

CSPA 5040 - Human Factors
This course presents communication theories relevant to conflict resolution as well as theories about understanding, analyzing, and managing conflict. The course focuses on the human and emotional aspects of conflict, and includes the influence of gender.
and culture. This course is pragmatic as well as theoretical, and presents communication and conflict resolution models in a practice-based approach.

**CSPA 5100 - Mediation Theory and Practice**
This course examines theories, methods, and techniques of mediation. Students will have the opportunity to demonstrate their knowledge of mediation skills.
Prerequisite: CSPA 5040.

**CSPA 5200 - Research Design and Program Evaluation**
This course focuses on the development of applied research skills appropriate for dispute resolution practitioners, including basic research tools, assessment, social science research, current research in the field, and an introduction to program evaluation through analysis of published work.

**CSPA 6000 - Organizational Conflict: Theory and Practice**
This course examines organizations, the causes and manifestations of organizational conflict, and interventions including: organizational theories, organizational development, systems theories, group dynamics, and dispute systems design. Students will learn to apply theory to the assessment of conflict and the design of appropriate intervention models within organizations, and will be introduced to consultation models.

**CSPA 6140 - Facilitation Theory and Practice**
This course develops students' skills in working with groups. It incorporates theories and models of group dynamics, facilitation, and group development, as well as workshop development and delivery. This course uses a practice-based approach, including role-plays and workshop presentations.

**CSPA 5001 - The 21st Century College Student**
An examination is made of students in higher education to prepare professionals for the various groups they will serve. Focus is given to the ever-changing student clientele, its subgroups and cultures. Along with student development theories, student characteristics, attitudes, values and broad issues regarding their participation in the educational experience will be explored.

**CSPA 5002 - Current Issues and Trends in Higher Education**
Staying abreast of current issues and trends in higher education is critical to becoming a competent student affairs educator. This course is designed to expose students to a variety of current issues and trends in higher education that have a dramatic impact on the student affairs profession and on our work as student affairs educators. Strategies to address major issues will be discussed.

**CSPA 5003 - The College Student and the Law**
Increasingly the courts play a pivotal role in the lives of student affairs practitioners. From student judicial cases to Supreme Court decisions on activity fees, a broad-based understanding of the law related to higher education is essential. This course will examine the impact of the legal system on both public and private colleges and universities as well as explore model student codes of conduct.

**CSPA 5004 - Administration in College Student Affairs Work**
This course will examine attributes, skills and institutional conditions within student personnel work that impact effective administration. Some of the major areas to be explored include personnel practices, supervision, budget, finance, program
development, short/long range planning, and internal and external governing bodies. An interactive course design will allow for "hands-on" practical applications and the development of well-grounded practitioners.

**CSPA 5005 - College Student Affairs and the Greater University**

Comprehensive professional training involves a working knowledge of the total educational environment. Frequently, practitioners miss opportunities for collaboration due to a lack of understanding of the mission of other university functions. Included within this course are the roles of faculty, athletics, development, business, and physical plant among others. Students will gain greater insight into the inner workings of institutions.

**CSPA 5006 - Student and Adult Development in College**

This course will focus on developing an understanding of students’ intellectual, cognitive, social, moral, and identity development during the college years. Issues related to adult student development in the college setting will also be explored. Student development theories, research and current practices related to student development will be presented.

**CSPA 6130 - Practicum I**

This supervised practicum experience offers students the opportunity to explore a breadth of student affairs functions thereby gaining exposure, knowledge and experience in the variety of services and programs that make up a college/university division of student affairs. Students may select to generally explore all of the functional departments within the division, or select specific functions they wish to learn more about: residential life, housing, career services, student union, student activities, leadership development, recreation and wellness, volunteer services, special events, judicial programs, and the office of the dean of students. By experiencing the "big picture" of the functions, programs and services of the division of student affairs, students will have the opportunity to be exposed to the numerous professional positions and opportunities available to them upon graduation.

**CSPA 6160 - Practicum II**

This supervised practicum experience offers students the opportunity to gain in-depth exposure, knowledge and practical experience in a selected area of specialization in student affairs that supports their professional goals, and will assist them in being prepared to work in a professional student affairs position in a college or university upon graduation. Students may select to focus their experience in: residence life (including conflict resolution and mediation services), housing, career services, student union, student activities, student leadership training and development, recreation and wellness, volunteer services, student judicial affairs, special events, orientation, and professional program student services. Students may elect to complete this phase of their practicum experience at Nova Southeastern University or at another college or university.

**CSPA 6300 - Applied Research & Assessment in Student Affairs I**

This course is designed to provide actual experience in designing and conducting an assessment or research project in a student affairs organization. The course is delivered in two 3-credit hours segments. This segment is designed to provide guidance in the conceptualization and writing of a student affairs assessment or research project. Project design topics discussed are: the research process, conceptualizing the project topic and proposal, developing a project proposal.
prospectus, and clear and effective writing. At the end of this segment, a project proposal prospectus focused on conducting assessment or research in an actual student affairs organization will be completed.

**CSPA 6330 - Applied Research & Assessment in Student Affairs II**
This course is designed to provide actual experience in designing and conducting an assessment or research project in a student affairs organization. The course is delivered in two 3-credit hours segments. In this segment the project proposal will be used as a basis to conduct the proposed assessment or research. With the guidance of a faculty member or student affairs administrator, students will conduct the research, analyze the results, and based upon the results, make recommendations related to the research topic to the organization. Students will write a paper that will describe the project, discuss related research and literature, describe the methodology used to collect data, discuss the results of the research, and draw conclusions from the study that lead to recommendations to the organization. Prerequisite: CSPA 6300.

**CSPA 6720 – Bridging the Gap from Graduate School to CSA Professional**
The course is designed to assist students completing the CSA program in their transition from graduate student/graduate assistant to College Student Affairs professional. The course will focus on career search and career opportunities and dialogue with those in the CSA field. It affords students the further opportunity to enhance their career development. (1 credit)

---

**Qualitative Research**

**QRGP 6300 Foundations of Qualitative Research**
This course introduces students to the epistemological, theoretical, methodological, and procedural foundations of qualitative research. Students will learn common factors qualitative approaches to inquiry share as well as learning the specifics of the major qualitative research methodologies such as generic qualitative description, grounded theory, phenomenology, ethnography, narrative analysis, and discourse analysis. Students will also be introduced to the variety of professional settings in which qualitative research is utilized including academia, business and organizations, international development, and private consultation.

**QRGP 6301 Qualitative Data Collection**
The course provides students an opportunity to learn the basics of qualitative research design with a focus on qualitative data generation, collection, and preparation. Students will learn how to select appropriate research sites, gain access to data sources, design and manage sampling strategies, conduct individual and group interviews, carry out field observations, collect documents, transcribe, and compose field notes. Students will also learn quality control measures such as maintaining research journals and diaries.

**QRGP 6302 Qualitative Data Analysis I**
This course covers best practices in generic qualitative, ethnographic, and grounded theory analysis. Students will learn how to conduct within-case and across case analysis, coding and conceptualization, transforming data, and report writing. Students will also learn quality control measures such as constant comparison, member checking, peer debriefing, and conducting audit trails.
QRGP 6303 Qualitative Data Analysis II
This course covers best practices in phenomenology, narrative inquiry, and discursive analysis. Students will learn how to conduct thematic analyses, phenomenological reduction, creative synthesis, microanalysis, and report writing. Students will also learn quality control measures such as bracketing, epoché, and verisimilitude.

QRGP 6304 Appraising Qualitative Research
This course covers the appraisal and review of products emanating from qualitative research including papers, articles, posters, grant proposals, books, book prospectus, dissertations, theses, and systematic reviews. Students will learn how to assess the quality of qualitative research products, construct and use criterion-based rubrics, and compose reviews. Students will also serve as ad hoc reviewers for The Qualitative Report (TQR).

QRGP 6305 Qualitative Research Design
This course covers knowledge and skills needed to design a qualitative research study and compose a qualitative research proposal. Students will learn how to construct and justify a qualitative research study, synthesize the relevant research literature, generate discovery-oriented research questions, select sites and samples, create a manageable method including a quality control system, address ethical issues, and discuss potential implications and limitations. Students will compose their own qualitative research proposals and Institutional Review Board for the Protection of Human Subjects (IRB) protocols and consent forms.

QRGP 6306 Conducting Qualitative Research I
This course covers the activities involved in the initiation of a qualitative research study. Students will start the study they proposed in QRGP 6305 Qualitative Research Design.

QRGP 6307 Conducting Qualitative Research II
This course covers the activities involved in the culmination of a qualitative research study. Students will complete the study they proposed in QRGP 6305 Qualitative Research Design and started in QRGP 6306 Conducting Qualitative Research I.

College Student Personnel Administration

CSPA 5001 - The 21st Century College Student
An examination is made of students in higher education to prepare professionals for the various groups they will serve. Focus is given to the ever-changing student clientele, its subgroups and cultures. Along with student development theories, student characteristics, attitudes, values and broad issues regarding their participation in the educational experience will be explored. Offered fall.
CSPA 5002 - Current Issues and Trends in Higher Education
Staying abreast of current issues and trends in higher education is critical to becoming a competent student affairs educator. This course is designed to expose students to a variety of current issues and trends in higher education that have a dramatic impact on the student affairs profession and on our work as student affairs educators. Strategies to address major issues will be discussed. Offered winter.

CSPA 5003 - The College Student and the Law
Increasingly the courts play a pivotal role in the lives of student affairs practitioners. From student judicial cases to Supreme Court decisions on activity fees, a broad-based understanding of the law related to higher education is essential. This course will examine the impact of the legal system on both public and private colleges and universities as well as explore model student codes of conduct. Offered summer.

CSPA 5004 - Administration in College Student Personnel Work
This course will examine attributes, skills and institutional conditions within student personnel work that impact effective administration. Some of the major areas to be explored include personnel practices, supervision, budget, finance, program development, short/long range planning, internal and external governing bodies. An interactive course design will allow for "hands-on" practical applications and the development of well-grounded practitioners. Offered fall.

CSPA 5005 - College Student Personnel and the Greater University
Comprehensive professional training involves a working knowledge of the total educational environment. Frequently, practitioners miss opportunities for collaboration due to a lack of understanding of the mission of other university functions. Included within this course are the roles of faculty, athletics, development, business, and physical plant among others. Students will gain greater insight into the inner workings of institutions. Offered winter.

CSPA 5006 - Student and Adult Development in College
This course will focus on developing an understanding of students’ intellectual, cognitive, social, moral, and identity development during the college years. Issues related to adult student development in the college setting will also be explored. Student development theories, research and current practices related to student development will be presented. Offered fall.

Family Systems Health Care

FSHC 5000 – Family Systems Health Care I
Students receive an orientation to the field of family systems in health care that focuses on the biopsychosocial model for understanding health care issues for patients, families, medical professionals, and health care providers. An in-depth study of relationship and clinical skills that translate well within health care settings will be presented. A case study method will be used to examine the impact of language, culture, beliefs, and specific chronic, debilitating, and terminal diseases upon the experience of illness. The biopsychosocial issues surrounding specific medical conditions throughout the life cycle will be presented. Offered winter.
FSHC 5010 – Family Systems Health Care II  
Personal beliefs and philosophies regarding dying, loss, and death will be explored. Bereavement across the life cycle, including developmental issues relating to adults and children and their understanding of loss, will be reviewed. The manner in which other cultures create meaningful rituals for life and death will be presented. Offered summer.

FSHC 5100 – External Practicum I - Family Systems Health Care  
A clinical practicum focusing on the transdisciplinary practice of family systems and therapy in health care settings will be offered with field placements in hospitals, medical schools, community clinics, and specialist’s offices. This practicum is for one term. Prerequisites: FSHC 5000, FSHC 5010. Offered each term.

FSHC 5110 – External Practicum II - Family Systems Health Care  
A continuation of Practicum I with a focus on advancing and refining relationship, clinical, and collaborative skills will enhance the integration and collaboration of health care systems within medical settings. This practicum is for one term. Prerequisite: FSHC 5000, 5010, and 5100. Offered each term.

FSHC 5300 – Integration and Collaboration Among Health Care Systems  
This course is an introduction to health care delivery systems through an investigation of medical models, terminology, and approaches used by physicians, medical specialists, and other health care professionals to diagnose and treat disease and to care for the human condition. Students will be oriented to health care systems and settings including hospitals, clinics, hospices, and private practices. Alternative approaches to health care will also be addressed. Offered fall.

FSHC 5500 - Politics and Economics of Health Care Systems  
An overview of the history of medicine will be presented to give students an understanding of how social and political changes affect medical care. Current issues in the health care field will be discussed, such as the growth in managed care companies, proposed nationalized health care, patient/physician/health care system relationships, and the rise in malpractice litigation. The potential roles of a Family Systems Health Care professional within these complex systems will be presented. Offered winter.

FSHC 6400 - Understanding Human Systems in Health Care Settings  
This course will introduce students to the fundamentals of relationship management within complex organizational settings, with special appreciation of the dynamics that apply within the world of health care. Students will learn to identify, assess, and intervene principles at both macro and micro levels of operation. Offered fall.
Health Care Conflict Resolution

HCCR 5000 – Health Care Conflict Resolution I
Students receive an orientation to the field of family systems in health care that focuses on the biopsychosocial model for understanding health care issues for patients, families, medical professionals, and health care providers. An in-depth study of relationship and clinical skills that translate well within health care settings will be presented. A case study method will be used to examine the impact of language, culture, beliefs, and specific chronic, debilitating, and terminal diseases upon the experience of illness. The biopsychosocial issues surrounding specific medical conditions throughout the life cycle will be presented. Offered in the winter.

HCCR 5010 – Health Care Conflict Resolution II
Personal beliefs and philosophies regarding dying, loss, and death will be explored. Bereavement across the life cycle, including developmental issues relating to adults and children and their understanding of loss, will be reviewed. The manner in which other cultures create meaningful rituals for life and death will be presented. This course is open to students throughout the department. Offered in the summer.

HCCR 5300 – Integration and Collaboration Among Health Care Systems
This course is an introduction to health care delivery systems through an investigation of medical models, terminology, and approaches used by physicians, medical specialists, and other health care professionals to diagnose and treat disease and to care for the human condition. Students will be oriented to health care systems and settings including hospitals, clinics, hospices, and private practices. Alternative approaches to health care will also be addressed. Offered in the fall.

HCCR 5500 – Politics and Economics of Health Care Systems
An overview of the history of medicine will be presented to give students an understanding of how social and political changes affect medical care. Current issues in the health care field will be discussed, such as the growth in managed care companies, proposed nationalized health care, patient/physician/health care system relationships, and the rise in malpractice litigation. The potential roles of a Family Systems Health Care professional within these complex systems will be presented. Offered in the winter.

HCCR 6400 – Understanding Human Systems in Health Care Settings
This course will introduce students to the fundamentals of relationship management within complex organizational settings, with special appreciation of the dynamics that apply within the world of health care. Students will learn to identify, assess, and intervene principles at both macro and micro levels of operation. Offered in the fall.
### Advanced Family Systems

**AFS 5010 – Solution-Focused Therapy**
Study of those systemic therapies informed by cybernetics and oriented to the social organization of communication. Emphasizes the work of the Mental Research Institute and more recent developments such as solution-focused therapy. Offered in fall.

**AFS 5020 – Narrative-Based Therapy**
Study of those systemic therapies oriented to the meaning expressed in communication, emphasizing the work of the Milan team and current developments such as narrative therapies and the reflecting team. Offered in winter.

**AFS 5030 – Bowenian Family Systems**
Acquaints students with the basic concepts of the natural systems approach to family therapy. Emphasizes family-of-origin issues, multigenerational systems processes, and biological/evolutionary contributions to the understanding of human systems. Offered in fall.

**AFS 5040 – Ericksonian-Based Therapy**
Study of the complexities and subtleties of language and the art of therapeutic implication. Discusses the relationships between hypnosis and brief therapy; draws on the work of Milton Erickson as a primary resource. Offered in winter.

**AFS 5110 - Language Systems**
Locates the practice of therapy within cultural, philosophical, and scientific domains. Uses notions about the relational nature of language as a means of examining, critiquing, and explicating therapeutic practice. Offered in winter.

**AFS 6310 - Supervision and Teaching**
Introduction to supervision and instruction in systemic therapies. Review of supervision and teaching literature and didactic training in live supervision, case consultation, and instruction. Offered in summer.

**AFS 6430 – Systems Inquiry Through Qualitative Means**
Introduction to qualitative research methodologies. Focuses on the use of the investigator as the research instrument of choice. Participant observation and interviewing strategies are discussed. Introduces methods for transcribing and organizing interviews and field notes. Exemplary studies from other disciplines are used; however, studies from the family therapy literature, when available, are offered. Offered in winter.

**AFS 7311 - Human Sexuality and Gender**
Review of the psychosocial development of sexuality and gender from childhood through old age. Summary of clinical approaches to sexual and gender problems comparing interactional approaches with psychodynamic and behavioral models. Offered in summer.
**Family Ministry**

**CFM 5310 – Introduction to Family Systems**
Presents an overview of systems theories that use metaphor of system, pattern interaction and communication, and language to describe the human behaviors and relationships with emphasis on how these ideas may be useful in faith-based contexts.

**CFM 5320 – Introduction to Pastoral Care**
Reviews the history of marital and family therapy. Focuses on basic therapeutic concepts and skills with an emphasis on the spiritual community.

**CFM 6330 – Applied Family Ministry**
The course is designed to allow students to practice systemic ideas in their faith-based community. Focuses on expanding systemic ideas and practices in the faith-based community.

**CFM 6331 – Diversity in Human Systems and Relationships**
Explore issues of difference that impact social and therapeutic relationships with emphasis on increasing and enhancing students’ spiritual awareness of multiculturalism.

**CFM 6332 – Human Sexuality Counselors of Faith**
Approaches sexuality from psychosocial perspectives that allow counselors to examine a variety of sexual expressions contextually; the course offers a Relational Model as a lens through which to examine sexuality, and is sensitive to individual and corporate spirituality.

The provisions set forth in this document are not to be regarded as an irrevocable contract between the student and Nova Southeastern University. Regulations and requirements, including tuition and fees, are necessarily subject to change without notice at any time at the discretion of the administration. The university further reserves the right to require a student to withdraw at any time, as well as the right to impose probation on any student whose conduct is unsatisfactory. Any admission on the basis of false statements or documents is void upon discovery of the fraud, and the student is not entitled to any credit for work that he or she may have done at the university. Upon dismissal or suspension from the university for cause, there will be no refund of tuition or fees. The balance due Nova Southeastern University will be considered receivable and will be collected. An official transcript of a student's academic record cannot be released until all of his or her accounts, academic and nonacademic, are paid.
