The mission of Nova Southeastern University, a private, not-for-profit institution, is to offer a diverse array of innovative academic programs that complement on-campus educational opportunities and resources with accessible, distance-learning programs to foster academic excellence, intellectual inquiry, leadership, research, and commitment to community through engagement of students and faculty members in a dynamic, lifelong learning environment.

NOVA SOUTHEASTERN UNIVERSITY—synonymous with dynamic innovation and intellectual challenge—is the second largest, private, nonprofit university in the Southeast and 1 of only 37 universities (out of more than 4,000) that have earned designations for both High Research Activity and Community Engagement from the Carnegie Foundation for the Advancement of Teaching. Situated on a beautiful, 314-acre campus in Fort Lauderdale, Florida, the university is experiencing a sustained period of academic growth, fiscal strength, and commitment to the challenges of the 21st century.

In this environment of expansion and stability, the university is capitalizing on its strengths in such areas as academic innovation, comprehensive clinical training, and flexible educational delivery systems. Founded in 1964 as Nova University, the institution merged with Southeastern University of the Health Sciences in 1994, creating Nova Southeastern University. To date, the institution has more than 170,000 alumni and current enrollment of more than 23,000 students. Fully accredited by the Commission on Colleges of the Southern Association of Colleges and Schools, the university awards associate's,
bachelor's, master's, educational specialist, and doctoral degrees in a wide range of fields including the health professions, law, business, marine sciences, psychology, social sciences, computer and information sciences, and education.

The university's degree programs are administered through academic units that offer courses at the Fort Lauderdale/Davie Campus, at NSU's regional campuses, and at field-based locations throughout Florida; across the nation; and at selected international sites in Europe, Mexico, the Pacific Rim, Central and South America, and the Caribbean.

With a budget of more than $570 million per year, the university will continue to maintain a solid record of academic and fiscal strength and excellence in teaching and community service, while expanding its mission in research and scholarship.

OVER THE PAST two decades, NSU's Health Professions Division has evolved into a dynamic and innovative, interprofessional, academic health center that comprises seven colleges (the Colleges of Osteopathic Medicine, Pharmacy, Optometry, Medical Sciences, Dental Medicine, Health Care Sciences, and Nursing) and more than 60 degree and certificate programs.

Our colleges and programs are nationally and internationally recognized due to our esteemed faculty and staff members, who are dedicated to working closely with students, nurturing them along as they progress through the academic experience. When students truly know their professors are there for them on a daily basis, it makes a big difference in their educational experience.

Our educational paradigm is both academically and technologically robust. Because of this, we're able to provide our students with the knowledge and skills they will need to become compassionate and dedicated health care professionals. Our current students are fully aware and appreciative of this fact. And as a new student, you will be as well.

Fred Lippman, R.Ph., Ed.D.
Health Professions Division Chancellor
Health Professions Division

As a student in the Health Professions Division (HPD) of Nova Southeastern University, you can anticipate a remarkable experience. You will train, study, interact, and share faculty and resources (either campus-based or online) with students from diverse backgrounds and disciplines. This interprofessional approach distinguishes the Health Professions Division as unique and will better prepare you to master your discipline with a sensitivity and understanding of the entire health care system.

The HPD occupies a $70-million complex, covering 21 acres of the university campus. The division includes eight buildings totaling more than 900,000 square feet of space for classrooms, laboratories, offices, the Health Professions Division Library, an outpatient health center, and a pharmaceutical care center. The adjacent 1,800-vehicle parking garage overlooks the Miami Dolphins Training Camp.

The Health Professions Division, with a student body of more than 5,800, is home to seven colleges.

College of Osteopathic Medicine
- Doctor of Osteopathic Medicine (D.O.)
- Master of Public Health (M.P.H.)
- Master of Science in Biomedical Informatics (M.S.B.I.)
- Master of Science in Disaster and Emergency Management (M.S.)
- Master of Science in Medical Education (M.S.)
- Master of Science in Nutrition (M.S.)
- Graduate Certificate in Health Education
- Graduate Certificate in Medical Informatics
- Graduate Certificate in Public Health Informatics
- Graduate Certificate in Social Medicine

College of Pharmacy
- Master of Science in Pharmaceutical Affairs (M.S.)
- Doctor of Pharmacy (Pharm.D.)
- Doctor of Philosophy in Pharmaceutical Sciences (Ph.D.)
  - Concentration in Drug Development (Pharmaceutics)
  - Concentration in Molecular Medicine and Pharmacogenomics
  - Concentration in Social and Administrative Pharmacy

College of Optometry
- Doctor of Optometry (O.D.)
- Master of Science in Clinical Vision Research (M.S.)
- Graduate Certificate in Clinical Vision Research

College of Health Care Sciences
- Bachelor of Science in Athletic Training (B.S.)
- Bachelor of Science—Cardiovascular Sonography (B.S.)
- Bachelor of Science in Exercise and Sport Science (B.S.)
- Bachelor of Health Science (B.H.Sc.)
- Bachelor of Science—Medical Sonography (B.S.)
- Bachelor of Science in Respiratory Therapy (B.S.)
- Bachelor of Science in Speech-Language and Communication Disorders (B.S.)
- Master of Science in Anesthesia (M.S.)
- Master of Science in Health (M.H.Sc.)
- Master of Medical Science in Physician Assistant (M.M.S.)
- Master of Occupational Therapy (M.O.T.)
- Master of Science in Speech-Language Pathology (M.S.)
- Doctor of Audiology (Au.D.)
- Doctor of Health Science (D.H.Sc.)
- Doctor of Philosophy in Health Science (Ph.D.)
- Entry-Level Doctor of Occupational Therapy (O.T.D.)
- Doctor of Occupational Therapy (Dr.O.T.)
- Doctor of Philosophy in Occupational Therapy (Ph.D.)
- Doctor of Physical Therapy (D.P.T.)
  - Professional Doctor of Physical Therapy (D.P.T.)
  - Professional Doctor of Physical Therapy: Hybrid (D.P.T.)
  - Professional Doctor of Physical Therapy: Transition (D.P.T.)
- Doctor of Philosophy in Physical Therapy (Ph.D.)
- Doctor of Speech-Language Pathology (S.L.P.D.)

College of Medical Sciences
- Master of Biomedical Sciences (M.B.S.)

College of Dental Medicine
- Doctor of Dental Medicine (D.M.D.)
- Master of Science in Dental Medicine (M.S.)
- Postgraduate Certificate in Advanced Education in General Dentistry
- Postgraduate Certificate in Endodontology
- Postgraduate Certificate in Operative Dentistry
- Postgraduate Certificate in Oral and Maxillofacial Surgery
- Postgraduate Certificate in Orthodontics
- Postgraduate Certificate in Pediatric Dentistry
- Postgraduate Certificate in Periodontics
- Postgraduate Certificate in Prosthodontics

College of Nursing
- Bachelor of Science in Nursing (B.S.N.)
  - Entry Nursing
  - R.N. to B.S.N.
- Master of Science in Nursing (M.S.N.)—Major of Advanced Practice Registered Nurse
  - Concentration in Family Nurse Practitioner
  - Concentration in Gerontology—Adult Acute Care
- Master of Science in Nursing (R.N. to M.S.N. or M.S.N.)
  - Concentration in Health Systems Leadership
  - Concentration in Nursing Education
  - Concentration in Nursing Informatics
- Doctor of Nursing Practice (D.N.P.)
- Doctor of Philosophy in Nursing (Ph.D.)
  - Focus on Nursing Education

Dual Degrees
- Bachelor of Science—Cardiovascular Sonography (B.S.) and Master of Health Science (M.H.Sc.)
- Bachelor of Science—Medical Sonography (B.S.) and Master of Health Science (M.H.Sc.)
- Master of Health Science (M.H.Sc.)/Doctor of Health Science (D.H.Sc.)
- Doctor of Osteopathic Medicine (D.O)/Doctor of Dental Medicine (D.M.D.)

Concurrent Degrees
- Doctor of Osteopathic Medicine (D.O)/Juris Doctorate (J.D.)
- Doctor of Osteopathic Medicine (D.O)/Master of Business Administration (M.B.A.)
- Doctor of Osteopathic Medicine (D.O)/Master of Public Health (M.P.H.)
- Doctor of Osteopathic Medicine (D.O)/Master of Science in Biomedical Informatics (M.S.B.I.)
- Doctor of Osteopathic Medicine (D.O)/Master of Science in Disaster and Emergency Management (M.S.)
- Doctor of Osteopathic Medicine (D.O)/Master of Science in Disaster and Emergency Management (M.S.)
- Doctor of Osteopathic Medicine (D.O)/Master of Business Administration (M.B.A.)
- Doctor of Pharmacy (Pharm.D)/Master of Public Health (M.P.H.)
- Doctor of Pharmacy (Pharm.D)/Master of Science in Biomedical Informatics (M.S.B.I.)
- Doctor of Optometry (O.D)/Master of Public Health (M.P.H.)
- Doctor of Audiology (Au.D)/Master of Business Administration (M.B.A.)
- Master of Medical Science (M.M.S.)/Master of Public Health (M.P.H.)
- Doctor of Dental Medicine (D.M.D.)/Master of Public Health (M.P.H.)
NOVA SOUTHEASTERN UNIVERSITY’S College of Health Care Sciences provides the highest quality of education to students in a variety of health care disciplines, including occupational, physical, and respiratory therapy; physician assistant; audiology; medical and cardiovascular sonography; anesthesiologist assistant; speech-language pathology; athletic training; exercise and sport science; and health sciences. We offer entry-level programs to advanced health care studies that allow professionals to continue with their lifelong learning. The cutting-edge curricula offered in our programs will help our students gain future success in their fields.

The college is committed to providing health care educational opportunities in formats that meet the needs of prospective students in the community. These formats include both the standard, face-to-face classroom approach and innovative distance electronics. By combining the most contemporary teaching modalities with state-of-the-art technology, our students are assured of obtaining the most comprehensive education possible.

The College of Health Care Sciences believes in excellence and innovation in teaching, research, service, and learning. This is made possible by having an academically skilled and professionally qualified faculty and staff. We have diverse faculty members. They come from different backgrounds, have different degrees, and possess a wide range of educational experiences. Our faculty members are eager to share their knowledge of and expertise in the health care arena with their students. We also have an open door policy that encourages students to seek answers to their questions, allowing them to develop a solid understanding of the materials that they study.

All of these opportunities make the College of Health Care Sciences truly unique. The health care market is undergoing a rapid change. The pace of this change has provided a formidable challenge for institutions that provide the educational programs for future health care professionals. We are proud of the fact that we are training our students to become skilled and compassionate health care providers who are certain to make valuable contributions to the communities they serve. If you wish to become a graduate who is adequately prepared to assume a leadership role in health care, I encourage you to apply to our programs.

Stanley Wilson, Ed.D., PT, CEAS
Dean, College of Health Care Sciences
Physical Therapy Facts

- Physical therapists practice in a variety of settings such as hospitals, private physical therapy outpatient practices, community health centers, nursing homes, pediatric centers, sports facilities, rehabilitation centers, home health agencies, schools, and research institutions as well as in academic settings including colleges and universities.

- Physical therapists also work as consultants to industry, insurance companies, athletic organizations, and many health-related federal and state organizations.

- Opportunities in physical therapy offer the integration of science, medicine, and holistic philosophies in providing interventions for enhanced function and well-being.

- More than 188,000 physical therapists practice in the United States today. The median annual income is $80,000, depending on geographic location and practice setting. Physical therapists in private practice, as well as other settings, may earn more than $100,000 annually.

- The NSU Physical Therapy faculty members are actively involved in peer-reviewed presentations and publications on state, national, and international levels.

The excitement of this academically integrated, state-of-the-art environment is contagious. Both students and faculty members are energized and motivated to be part of the frontline effort to elevate the level of health care for everyone, everywhere.

MISSION STATEMENT
NSU Physical Therapy Department

Nova Southeastern University's Department of Physical Therapy prepares professional and postprofessional physical therapists with the skills, knowledge, and values to effectively practice, educate, lead, and conduct physical therapy education and research in interprofessional environments. The curricula foster clinical inquiry and reasoning, professionalism, and evidence-based practice. The programs facilitate accessibility to physical therapist education through innovative instructional delivery models and promote intellectual curiosity, reflection, and lifelong learning skills. Faculty members, students, and alumni actively participate in the profession through scholarship, service, collaboration, mentoring, and serving those in need of PT services locally, nationally, and globally.
The Professional Doctor of Physical Therapy (D.P.T.) programs at Nova Southeastern University are offered on two different campuses. **The Fort Lauderdale program is a campus-based, 36-month curriculum in which students attend classes five days per week.** Students in this program are taught using a combination of traditional instruction, interactive learning, and clinical lab skills training.

**The Tampa program is a 48-month, hybrid curriculum that uses a blend of online and face-to-face instruction.** Students come to the Tampa location from Thursday through Sunday once per month. Online instruction includes interactive videos, discussions, cases, and assignments, while on-campus sessions focus on clinical lab skills training and clinical reasoning.

In both programs, students are exposed to integrated patient experiences throughout the curriculum. These take the form of patient experiences within the classroom and faculty and clinician experiences within the community. Both programs culminate in eight months of full-time clinical internships.

Students in Fort Lauderdale have the option of completing a faculty member-mentored research capstone project. Graduates are awarded a D.P.T. degree upon satisfactory completion of all graduation requirements.

**STUDENTS ARE provisionally admitted to a degree-seeking program based on a review of unofficial transcripts or other specific program admission requirements. However, this admission includes a condition that final and official transcripts, documents, and requirements must be received within 90 calendar days from matriculation. If these final and official transcripts, documents, and/or requirements are not received by that time, the student will not be allowed to continue class attendance. Financial aid will not be disbursed to a provisional/conditional student until he or she has been fully admitted as a regular student (all admissions requirements have been approved by the college/program admissions office). Students who have an unpaid balance 30 days from the start of the term will be assessed a $100 fee.**

**Total Credit Hours for Program... 117**

*These courses include integrated patient experiences.

**This course includes a one-week integrated clinical experience.

***Students do not attend classes in Tampa during clinical internships.

† Students return to Tampa for one week to prepare for graduation and licensure examination.

The course sequence outlined is preliminary and subject to revision. The final approved curriculum sequence will be posted on our website (nova.edu/pt).

### ACCREDITATIONS

The Physical Therapy Program at Nova Southeastern University is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 1111 North Fairfax Street, Alexandria, Virginia 22314; telephone: 703-706-3245; email: accreditation@apta.org; website: http://www.capteonline.org.

Nova Southeastern University is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate's, baccalaureate, master's, educational specialist, doctorate, and professional degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Nova Southeastern University.

### NONDISCRIMINATION

Consistent with all federal and state laws, rules, regulations, and/or local ordinances (e.g., Title VII, Title VI, Title III, Title II, Rehab Act, ADA, and Title IX), it is the policy of Nova Southeastern University not to engage in any discrimination or harassment against any individuals because of race, color, religion or creed, sex, pregnancy status, national or ethnic origin, nondisqualifying disability, age, ancestry, marital status, sexual orientation, unfavorable discharge from the military, veteran status, or political beliefs or affiliations, and to comply with all federal and state nondiscrimination, equal opportunity, and affirmative action laws, orders, and regulations.

This nondiscrimination policy applies to admissions; enrollment; scholarships; loan programs; athletics; employment; and access to, participation in, and treatment in all university centers, programs, and activities. NSU admits students of any race, color, religion or creed, sex, pregnancy status, national or ethnic origin, nondisqualifying disability, age, ancestry, marital status, sexual orientation, unfavorable discharge from the military, veteran status, or political beliefs or affiliations, to all the rights, privileges, programs, and activities generally accorded or made available to students at NSU, and does not discriminate in the administration of its educational policies, admission policies, scholarship and loan programs, and athletic and other school-administered programs.
Facts and Requirements • Professional D.P.T.

PROFESSIONAL DOCTOR OF PHYSICAL THERAPY PROGRAMS
The Professional Doctor of Physical Therapy Programs selects students based on cumulative grade point average (GPA), prior academic performance, work experience, references, completed application, and recommendations.

OBJECTIVE
The programs prepare competent, flexible, entry-level physical therapists who can practice as professionals in the 21st century.

TARGET APPLICATION
Individuals who are interested in a career in the dynamic profession of physical therapy should apply.

DELIVERY
- Fort Lauderdale: Campus-based design using a combination of interactive classroom and online instruction, clinical lab skills training, and clinical education (36 months)
- Tampa: Hybrid design using a combination of interactive, online instruction with four-to-five-day, on-campus institutes each month and clinical education (48 months)

ADMISSIONS REQUIREMENTS
- completed applications, both PTCAS and supplementary, with fees
- a grade of C or better on all prerequisite courses
- minimum 3.0 cumulative, prerequisite, and science GPA on a 4.0 scale
- official GRE scores (analytical writing score is required)
- baccalaureate degree from regionally accredited institutions

ADMISSIONS REQUIREMENTS (CONTINUED)
- three letters of recommendation on required forms (from nonrelatives), with at least one from a physical therapist
- official transcripts from all graduate or undergraduate institutions attended
- official copy of TOEFL scores (international students only)

PREREQUISITE COURSES
All prerequisite courses MUST be completed before the first day of classes. No exceptions will be made.
- Introduction to Statistics—one semester
- English composition or writing—one semester

Sciences (must be taken in their respective departments; cannot be “applied” courses)
- biology, anatomy, physiology—three semesters, at least two in anatomy and physiology
- physics with lab—two semesters
- chemistry with lab—two semesters
- psychology/sociology—two semesters (one general psychology and an additional psychology or sociology)

The dean is empowered to evaluate the total qualifications of every student and to modify requirements in unusual circumstances.

RECOMMENDATIONS
Students should have a working knowledge of medical terminology.

EXPENSES*
Students should anticipate approximately $19,000 per 12-month academic year for living expenses.
Additional expenses for books, equipment, professional conferences, miscellaneous

Fort Lauderdale
Year one—$6,334
Year two—$6,334
Year three—$6,334

Tampa
Year one—$4,750
Year two—$4,750
Year three—$4,750
Year four—$4,750

*Tuition costs and expenses are approximate and are subject to change.
Both Professional Doctor of Physical Therapy programs participate in the Physical Therapist Centralized Application Service (PTCAS). The PTCAS may take up to six weeks verifying supporting documents. Therefore, early application is highly recommended. The D.P.T. programs also participate in the PTCAS early decision program. Please contact PTCAS for further information.

Applicants must

- complete the online PTCAS application between July 15 and December 15 (All applicants to the Professional D.P.T. program should apply online at ptcas.org.)

- send the following supporting documents directly to PTCAS at the address below
  
  - an official transcript from the registrars of all colleges and universities attended (mailed directly to PTCAS by the college or university)

Applicants with international transcripts must have their credentials evaluated by World Education Services, Inc. (see page 28); this is the ONLY agency that is approved by PTCAS.

- three completed evaluations, on the required forms, from individuals (other than relatives) such as academic instructors and professors, health professionals, work supervisors, or volunteer supervisors (At least one completed evaluation form must be from a physical therapist.)

- official Graduate Record Exam (GRE) scores (less than five years old)

  PTCAS
  P.O. Box 9112
  Watertown, MA 02471
  Email: ptcasinfo@ptcas.org
  Phone: (617) 612-2040

Once the PTCAS application has been received by Nova Southeastern University, a supplemental online application will be made available to applicants. There are separate applications for the Fort Lauderdale and Tampa programs. Students who want to be considered for both programs must apply to each program separately. The deadline for completion of the supplemental application is January 31.

Once NSU receives the supplemental application and the $50 fee, the applicant's file will be reviewed by the admissions counselor. The applicant's file will not be reviewed until all of the requirements have been met.

Please note that PTCAS may take up to six weeks to verify supporting documents. The university does not receive the application from PTCAS until the verification has been completed. Once received by the university, the application is processed in a timely manner, but there may be a lag time of three–four months between the time the application is submitted and the time the student receives a decision from the admissions committee.

**INTERVIEWS**

Upon receipt of the completed application and required credentials, the Committee on Admissions will select applicants to be interviewed. Applicants to the Fort Lauderdale Professional D.P.T. program may be interviewed on a case-by-case basis. Selected applicants to the Tampa Professional Hybrid D.P.T. program will be interviewed. Those selected will be notified by phone or in writing of the time of the interview. The Committee on Admissions may require a phone or personal interview. An invitation for an interview should not be construed by the applicant as evidence of acceptance.
ESSENTIAL FUNCTIONS OF THE D.P.T. STUDENT

The Professional D.P.T. programs have a responsibility to the public to assure that graduates can become fully competent and caring physical therapists capable of providing benefit and doing no harm. Individuals admitted and retained in these programs must possess the intelligence, integrity, compassion, humanitarian concern, physical and emotional capacity, communication skills, and professionalism necessary to practice physical therapy. To this end, all Professional D.P.T. students must meet the requirements outlined in the Essential Functions of the D.P.T. Student document (nova.edu/chcs/pt/forms/nsu-dpt-essential-functions.pdf) on admission and while matriculating through the programs.
TUITION AND FEES
Tuition for 2017–2018 will be posted on our website (nova.edu/pt/dpt). A Health Professions Division general access fee of $145 is required each year. An NSU student services fee of $1,050 is also required annually. All tuition and fees are subject to change by the board of trustees without notice.

Acceptance Fee—$1,000. This fee is required to reserve the accepted applicant’s place in the entering first-year class. This advance payment will be deducted from the tuition payment due on registration day, but is nonrefundable in the event of a withdrawal. This is due within two weeks of receiving the acceptance letter.

Accepted students are expected to notify the program immediately if they decline the acceptance or decide to withdraw from the program, in order to open seats for other qualified applicants.

The first semester’s tuition and fees, less the $1,000 previously paid, are due on or before the appropriate registration day. Tuition for each subsequent semester is due on or before the appropriate registration day. Students will not be admitted until their financial obligations have been met. The financial ability of applicants to complete their training is important because of the limited number of positions available in each class. Applicants should have specific plans for financing the entire professional program. This should include tuition, living expenses, books, equipment, and miscellaneous expenses.

It is required that each student carry adequate personal medical and hospital insurance. Students may avail themselves of the hospitalization insurance plan obtainable through the university.
The primary financial responsibility for a student's education rests with the student and his or her family, but economic circumstances for some families may make it necessary for the student to obtain assistance from other sources.

The Office of Student Financial Assistance at Nova Southeastern University is there to help as many qualified students as possible to complete their health professions education. Various loans, scholarships, and grants are available to qualified students to help ease the high cost of a health professions education. These financial assistance programs are described on our website (nova.edu/financialaid).

For information on financial assistance, contact

Nova Southeastern University
Office of Student Financial Assistance
3301 College Avenue
Fort Lauderdale, Florida 33314-7796
(954) 262-3380
nova.edu/financialaid/

The Professional Hybrid D.P.T. program in Tampa was designed for individuals who need to work at least part time. There are limited work-study jobs available in both D.P.T. programs. Please contact the financial aid office and program directors regarding these opportunities. For students in the Fort Lauderdale D.P.T. program, the demands of the full-time program limit the number of hours students can work per week.

HEALTH PROFESSIONS DIVISION
CHANCELLOR'S SCHOLARSHIPS

Funded by NSU-HPD, this program is designed to attract and encourage disadvantaged students to attend NSU-HPD and to enhance the diversity of the student body, faculty, and staff through the provision of financial assistance. This scholarship is available to Florida residents only. For further information, visit nova.edu/financialaid/scholarships/forms/chancellors_scholarship.pdf.
The Physical Therapy Department at Nova Southeastern University is proud to offer two postprofessional programs for practicing physical therapists: the Doctor of Philosophy in Physical Therapy (Ph.D.) Program and the Transition Doctor of Physical Therapy (T-D.P.T.) Program. These two distinct programs are designed to meet the diverse needs of physical therapists who are seeking to advance their education and skills from an accredited institution. Semesters for the Ph.D. and T-D.P.T. programs begin in August (fall), January (winter), and May (summer). Admission to the Ph.D. program occurs twice a year, in August and January. Admission to the T-D.P.T. program occurs three times a year, in January, May, and August. Applications for both programs are accepted year-round.

DOCTOR OF PHILOSOPHY IN PHYSICAL THERAPY (PH.D.)

Program Objective
To prepare leaders in the profession of physical therapy that can serve as change agents in the profession, to address health issues through the life span, negotiate/advocate services for clients, educate clients and students, consult with organizations, and contribute to the profession through research.

Target Application
This program is for physical therapists interested in obtaining skills needed for academic/research careers.

Course of Study

| Required HPD core courses | 12 credit hours |
| Required PT core courses  | 23 credit hours |
| Specialty and elective courses | 9 credit hours |
| Dissertation              | 16 credit hours |

Note: Students with a postprofessional doctoral degree, including a postprofessional Doctor of Physical Therapy (T-D.P.T.) from an accredited university, may transfer up to 6 credit hours at the discretion of the program director.

Time for Completion
Students have seven years to complete the Ph.D. degree.

Contact
M. Samuel Cheng, PT, M.S., Sc.D.
Program Director
800-356-0026, ext. 21273
ningshun@nova.edu
TRANSITION DOCTOR OF PHYSICAL THERAPY (T-D.P.T.)

Program Objective
To advance the knowledge, skills, and beliefs of existing physical therapists to those commensurate with the entry-level clinical doctorate in physical therapy. The T-D.P.T. program prepares therapists to engage in evidence-based practice; address health, wellness, and prevention issues; and adopt the roles of the clinical doctor in physical therapy.

Target Application
Physical therapists who wish to enhance their skills in patient/client management in order to practice autonomously and in a direct access environment.

Delivery
This primarily online program allows students to participate from anywhere in the world. For the core courses, classes are held online with an on-campus component halfway through the term (October, June, and March). During the on-campus institute, students spend two days on campus for each core course taken that semester. Attendance at the on-campus portion of the core courses is mandatory. Elective classes generally do not have on-campus time, except for core courses taken as electives.

Admissions Requirements
- graduation from a CAPTE-accredited PT program (B.S. or M.S.)
- licensed (or eligible) in the United States
- GRE not required unless GPA <75 percent

Foreign-trained physical therapists not currently licensed in the United States must submit a credential report on international coursework from an approved external agency (see page 28) and TOEFL or equivalent English proficiency test scores, if applicable.

Graduation Requirements
- applicants with a Ph.D.: 5 classes (20 credit hours)
- applicants with an NSU M.P.T. degree: 6 classes (24 credit hours)
- applicants with an M.S. or M.A. degree: 7 classes (27 credit hours)
- applicants with a B.S. degree: 13 classes (45 credit hours)

Time for Completion
- Full-time: 1.5–3 years
- Students have six years to complete the T-D.P.T. program.

Curriculum
The core curriculum focuses on skills needed for autonomous practice: clinical reasoning and differential diagnosis, evidence-based practice, patient/client management, prevention and wellness, teaching, administration/consultation, radiology, and pharmacology.

Contact
Bini Litwin, PT, D.P.T., Ph.D., M.B.A.
Program Director
800-356-0026, ext. 21274
blitwin@nova.edu
APPLICATION PROCEDURES

1. a completed application form along with a nonrefundable application fee of $50

2. official transcripts from all undergraduate, professional, and graduate institutions attended, sent directly to the EPS from the other institutions

3. three letters of evaluation from individuals who can evaluate the applicant's performance as a physical therapist and/or the applicant's potential for doctoral studies (For Ph.D. applicants, at least one of the references must come from a physical therapy faculty member with a terminal research doctoral degree.)

4. official GRE scores or other standardized test scores when appropriate; TOEFL scores, if appropriate

After an evaluation of credentials, qualified applicants may be contacted for a telephone interview.

Applicants who have completed international coursework are required to have coursework evaluated for U.S. equivalence. Please refer to page 28.

TUITION AND FEES

Tuition for 2017–2018 will be posted on our website (nova.edu/pt/dpt)*. A Health Professions Division general access fee of $145 is required each year. An NSU student services fee of $175 to $350 per semester is also required; fees will vary by the number of courses taken per semester. All tuition and fees are subject to change by the board of trustees without notice.

*APTA members receive a 15 percent discount.

This is only applicable to the T.-D.P.T. program.
ADVANCED DOCTORAL DEGREE

A strong need for a doctoral program to encourage the professional growth of physical therapists has been identified. As our health care delivery systems change and our knowledge base broadens, it becomes important for licensed physical therapists to continue their formal studies to assume roles as consultants, educators, researchers, advanced clinicians, and health care leaders.

Nova Southeastern University's Doctor of Philosophy in Physical Therapy Program addresses these needs in a curriculum that will prepare its students to become leaders of the profession. The distance hybrid education format enables students to continue their practice as physical therapists and/or physical therapy educators while earning a degree.

Graduates of the program will be able to

• serve as change agents in health care organizations
• negotiate and advocate for patients, self, and others for the provision of health care services
• address health care issues of patients through the life cycle
• educate patients, students, peers, and other health care providers in order to accomplish treatment goals and the goals of the program
• consult with organizations for the development of health care services
• contribute to physical therapy practice through clinical research
• critically appraise the evidence from scientific literature, synthesize findings across studies, and draw appropriate inferences based on current knowledge
• formulate study questions that will advance scientific knowledge about topics of importance
• ensure that the study meets accepted standards for the use of human subjects and ensures the responsible conduct of research in design, implementation, and dissemination
The Doctor of Philosophy in Physical Therapy (Ph.D.) Program is a distance, hybrid education program. It requires 60 credit hours beyond an entry-level master's or doctoral degree. Requirements include satisfactory completion of all courses, seminars, independent study, and research. Coursework is divided into required core courses and elective courses.

We seek students who have qualities such as assertiveness, initiative, leadership, self-understanding, openness, and strong communication skills. Students must also be motivated and self-directed critical thinkers.

This distance education program requires students to be on campus twice per year for up to five days each time. Faculty members and students are expected to communicate by computer, fax, or telephone when not in the classroom. Students will be able to complete course requirements with minimal on-campus time.

Students have up to seven years to complete the degree requirements. Students must earn a B grade in each course to continue in the doctoral program and to graduate.
1. Applicants must be graduates of schools accredited by the Commission on Accreditation of Physical Therapy Education (CAPTE). Graduates of physical therapy schools in other countries are also eligible with review of academic credentials by an appropriate agency and review of TOEFL scores.

2. Selection of students for the Ph.D. program is based on prior academic performance, clinical experience, and references.

3. An applicant must hold either a D.P.T. (Professional Doctor of Physical Therapy) degree, an advanced or entry-level master's degree in physical therapy, or a bachelor's degree in physical therapy with a master's degree in any other discipline.

4. Completion of the Graduate Record Examination (GRE) and the TOEFL, when appropriate, is required.

*Required Core Course
**HPH 7410 Required if dissertation contains qualitative research
***Course required for four consecutive semesters

This course begins after the 16 credits for PHT 7800 have been fulfilled.

Courses will be conducted in an institute format and as independent study under faculty supervision. The distance education format enables students to continue their practice as physical therapists while earning their degree.

Detailed course descriptions are available on the Internet at nova.edu/pt. Click on “Doctoral Program.”

**PROGRAM DELIVERY AND CURRICULUM OVERVIEW**

The transition D.P.T. is delivered using a primarily online format so that practicing physical therapists can advance their education without interrupting their work or home life. The program uses Blackboard and advanced interactive technology to deliver an innovative curriculum to students anywhere in the world.

To supplement the online learning, students spend two days on our Fort Lauderdale campus for each core course taken each semester. During the on-campus time, students practice clinical skills, engage in lively discussions, give presentations, and listen to dynamic speakers on contemporary PT topics. Typical assignments include engaging in class discussion boards, analyzing questions from a case study, writing a paper, conducting a literature review or case report, and analyzing/designing programs related to the work setting.

The required coursework and total number of credit hours required to graduate vary depending on the previous educational background of each student. Applicants with a baccalaureate degree must complete thirteen classes (45 credit hours)—seven core classes and six elective classes. Applicants with a master's degree must complete seven core classes (27 credit hours). Applicants with an M.P.T. degree from Nova Southeastern University must complete six core classes (24 credit hours). Those with a Ph.D. must complete five core classes (20 credit hours). Students can enroll on a part-time basis (3–7 credit hours) or a full-time basis (8–12 credit hours). All students must achieve a minimum of 80 percent in all required coursework in order to graduate with the Doctor of Physical Therapy (D.P.T.) degree. There are three semesters per year: winter (January–May), summer (May–July), and fall (August–December). The summer semester is generally for elective classes (baccalaureate students) and selected core course offerings, including manual therapy courses.

Students can transfer up to 6 credit hours, with approval of the program director. The patient/client management core course requirement is waived for those holding an APTA specialty certification.

T-D.P.T. students that serve as clinical instructors for NSU entry-level D.P.T. students can earn tuition “vouchers” that can be applied toward the tuition of their T-D.P.T. courses.

**PROGRAM OUTCOMES**

The transition D.P.T. program will prepare graduates to

- make clinical decisions based on experience and evidence in the research literature by
  - posing clear clinical questions
  - selecting appropriate databases to find peer-reviewed literature
  - interpreting the evidence
- engage in clinical reasoning, including the use of deductive reasoning or disablement models, as part of the patient/client-management process
- select valid/reliable tests and outcome measures, as well as interventions, that are supported by the literature and are appropriate for the patient, setting, and diagnostic classification
- plan and implement prevention, wellness, and health promotion activities for individual patients, clients, and the community using the principles of behavior change theory and sound teaching strategies
- screen patients for medical disease and distinguish musculoskeletal from medical conditions in order to identify when referral to other practitioners is needed
- identify key pharmacologic classifications and their relevance to physical therapy
- interpret and/or understand radiology/imaging tests as they relate to normal/abnormal anatomy and clinical signs/symptoms of pathology
- use contemporary principles of motor control and motor learning when teaching a patient a novel skill or retraining a motor task—including recognition
Admissions Requirements • Transition D.P.T.

of task, individual, and environmental variables; identification of control parameters; and employment of various practice schedules and feedback strategies—to enhance patient learning

- develop an appropriate wellness exercise program for any patient/client that is based on
  - principles of sound and accurate exercise testing
  - a patient's specific problems or potential problems
- engage in consultative activities using objective outcome measurement processes and apply effective principles of organizational management, administration, and group processes to effect meaningful change
- demonstrate skills that support lifelong learning, including
  - accessing current research literature
  - utilizing technology to access resources or to communicate with peers
  - self-assessing to identify learning needs and generate professional goals to enhance their role as a D.P.T.

ADMISSIONS REQUIREMENTS

1. Students must have graduated from an entry-level physical therapy (PT) program that is accredited by the Commission on Accreditation of Physical Therapy Education (CAPTE), or have a current license to practice physical therapy in the United States. Graduates from physical therapy schools in other countries are also eligible after review of academic credentials by an appropriate agency (see page 28) and a review of the Test of English as a Foreign Language (TOEFL) scores.

2. A cumulative grade point average of 75 percent or higher from the entry-level physical therapy coursework is required. If the cumulative GPA is lower than 75 percent, applicants must achieve a minimum score of 500 on both the verbal and quantitative portions (145 on the revised scale) of the Graduate Record Examination (GRE). The GRE is only required for students whose cumulative GPA is below 75 percent.

3. Students who are within two months (60 days) of graduation from an entry-level PT program are also eligible for admission. These individuals must provide proof of graduation by the 61st day of their first T-D.P.T. semester or they will have to withdraw from classes until the subsequent semester after the proof is provided.

4. Physical therapists can also apply to be non-matriculated students in the T-D.P.T. program. Nonmatriculated students can take up to three courses, but are not officially admitted to the program as a degree-seeking student. To apply to be a nonmatriculated student, an applicant must submit a nonmatriculated application and provide proof that he or she is a physical therapist (e.g., a notarized PT diploma or academic transcript). Official transcripts and records are not required for application as a nonmatriculated student.

A nonmatriculated student who wants to become a matriculated T-D.P.T. student must submit an official matriculated student application, transcripts, and/or official credentialing evaluation, if applicable, to the Office of Admissions, as well as meet all entering requirements for a degree-seeking student. Once the student is accepted as a degree-seeking student, courses taken as a nonmatriculated student with an earned grade of 80 percent or higher will be counted toward the T-D.P.T. graduation requirements.

**Total Credit Hours Required for Students with B.S.**

|                      | 45 |

³Ph.D., Ed.D., D.H.Sc., Sc.D., or other doctoral degrees
²NSU M.P.T. graduates
³Available through the health science program.

The total number of courses required is determined by the highest degree the applicant has earned prior to admission to the program.

- applicants with doctoral degrees: 5 courses, 20 credit hours
- applicants with master's degrees: 7 courses, 27 credit hours
- applicants with bachelor's degrees: 13 courses, 45 credit hours

*Students in the T-D.P.T. program can choose additional elective courses from the Ph.D. PT program or the Doctor or Master of Health Science programs upon approval of the T-D.P.T. program director.
Coursework taken at a non-U.S. CAPTE-accredited institution must be evaluated for U.S. institution equivalence. International coursework must be evaluated by one of the agencies listed below. Applicants should contact one of the following:

**World Education Services, Inc.**
Bowling Green Station
P.O. Box 5087
New York, New York 10274-5087
(212) 966-6311
wes.org

**Josef Silny & Associates, Inc.**
International Education Consultants
7101 SW 102nd Avenue
Miami, Florida 33173
(305) 273-1616
jsilny.com

**Educational Credential Evaluators, Inc.**
P.O. Box 514070
Milwaukee, Wisconsin 53203-3470
(414) 289-3400
ece.org

**International Consultants of Delaware, Inc.**
3600 Market Street
Suite 450
Philadelphia, Pennsylvania 19104
(215) 243-5858, ext. 603
icdeval.com

**Foreign Credentialing Commission on Physical Therapy (FCCPT)**
124 West Street South
Third Floor
Alexandria, Virginia 22314
(703) 684-8406
fccpt.org

*This agency specializes in evaluation for U.S. PT licensure. (This agency cannot be used for course evaluation for application into NSU Professional D.P.T. program.)*

It is the applicant's responsibility to have this coursework evaluated, and an official evaluation must be sent to the EPS.

Please note: Application and acceptance into a postprofessional physical therapy program does not qualify foreign-trained physical therapists to obtain a physical therapist license in the United States. For more information on becoming credentialed to practice physical therapy in the United States, please contact the Federation of State Boards of Physical Therapy (FSBPT).
