Welcome

This Eleventh Annual Summer Institute begins the second decade of service by the Center for Higher Education. It seems very fitting that this decade of challenge and opportunity for the Center for Higher Education be based on the solid foundation that was laid during the last ten years. The theme "New Technology--How New Is It?" is the direct result of one of last year's sub-themes.

The 1983 Summer Institute promises to be one of the best yet. I encourage you to attend as many sessions as possible, raise questions and participate in the discussions. If you do this, I am confident you will find this Institute to be one of the most exciting and meaningful educational conferences you have ever experienced.

A handwritten signature in black ink, appearing to read "R. E. Moreton". The signature is fluid and cursive, with a long horizontal stroke at the end.

Ross E. Moreton
Director
