WELCOME

It is a pleasure to welcome you to the Ninth Annual Summer Institute held by the Center for Higher Education of Nova University. The theme "Educational Research: Problems-Practices-Potential," emphasizes the importance of two Center goals -- translating theory to practice and establishing a base through educational research for more rational decision making.

If you attend as many sessions as possible, raise questions, and participate in the discussions, I am confident that you will find this Institute to be one of the most exciting and meaningful educational conferences you have ever experienced.

Ross E. Moreton
Director
