The Adult Learner:
A New Majority
—A New Challenge

August 3 - August 9, 1980
DIPLOMAT HOTEL
Hollywood Beach
Florida
This Eighth Annual Summer Institute is another first for the Center for Higher Education. The Institute theme, "The Adult Learner: A New Majority-A New Challenge," not only calls attention to the students we serve in higher education but provides a special welcome to the participants in the Adult Education specialization.

We have national lecturers and other speakers with great expertise in three areas of post-secondary study, adult education; higher education; and vocational, technical and occupational education. You are urged to be a "participant" in this Institute in the truest sense of the word. Ask questions, take part in the discussions, and put forth a real effort to exchange ideas with participants from other parts of the country as well as those from the other specializations. To a very considerable degree, what you take home from this conference will depend upon you.
