Nova University, in Fort Lauderdale, Florida, is an independent, nonprofit institution that is not tax-supported. It offers courses of study leading to bachelor's, master's, educational specialist, and doctoral degrees, on its main campus, throughout the State of Florida, and across the nation. Nova also provides community services and conducts research in a variety of fields.

Nova University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award bachelor's, master's, educational specialist, and doctoral degrees. Nova University admits students of any race, color, and national or ethnic origin.
Nova University's Master's Program for Child and Youth Care Administrators is designed to meet the needs of busy professionals. The program provides you with management training; a field-based, guided study format; a chance to use your work environment as a learning laboratory and leads to the degree of Master of Science in Child and Youth Care Administration.

In Nova University's Master's Program for Child and Youth Care Administrators you can get the management training you want without leaving your job. You work within each study area using study guides specially designed by Nova faculty and nationally-recognized experts in each field. The guides integrate the texts and articles sent to you at the beginning of each set of courses. Nova faculty remain in regular contact with you through scheduled telephone conferences and detailed analyses of your assignments. Assignments and projects are directly related to your ongoing managerial responsibilities.

Your studies will cover administration of children's programs; policy and politics of child care; budgeting, legal compliance, and evaluation; and therapeutic programs for children and adolescents. You will have an opportunity to apply what you have learned in a Practicum, in which you identify a problem in your setting and develop and implement a solution to the problem. You will share your progress through the program with other administrators entering at the same time as you. You will meet other members of your cohort at the institute and opportunities for joint problem solving will be provided. The 40 semester hour program is designed to be completed in two years.

At a one-week intensive institute, held in July each year in Fort Lauderdale, you will work with fellow students, Nova faculty, and leading national figures in therapeutic programming and management of programs for children and adolescents. Nova University is a leader in adaptation of computer technology to the needs of both child care administrators and graduate students who live and work at a distance from the main campus. Those of you with access to microcomputers can send your assignments and receive detailed faculty responses by electronic mail through Nova's computer-based network. This method of communication is used as an adjunct to the regularly scheduled telephone conferences. Although some students avail themselves of this opportunity, ownership or use of microcomputer equipment is not a requirement for program matriculation.

Admission
Admission is open to administrators of residential treatment, group care, and community-based programs for children and youth who:
1. have a baccalaureate degree from a regionally accredited institution;
2. have two years of full-time experience as a child or youth care worker in a residential or community setting;
3. presently have administrative or supervisory responsibility in a youth or child care program;
4. provide evidence of ability for successful independent study at the graduate level.

Degree
Master of Science in Child and Youth Care Administration

Costs
The current tuition rate for the 40 credit hour program is $165 per credit. Each of the four modules of study requires a $200 materials fee. The materials fee for the practicum is $50. The total cost of the program is $7450, which includes tuition and all texts, study guides, and supporting curriculum materials.
