CENTER FOR THE ADVANCEMENT OF EDUCATION

Nova University is accredited by the Southern Association of Colleges and Schools and admits students of any race, color, and national or ethnic origin.

Nova University's Masters Program for Child Care Administrators is designed to meet the needs of busy directors.

The program provides you with management training; a guided study, off-campus format; a chance to use your program as a learning laboratory.

THE PROGRAM

In Nova University's Masters Program for Child Care Administrators you can get the management training you want without leaving your job. You work at your own pace within each study area using study guides specially designed by Nova faculty and nationally-recognized experts in each field. The guides integrate the texts, audio tapes, and articles sent to you at the beginning of each set of courses. Nova faculty remains in constant contact with you through regular telephone conferences and detailed written analyses of your assignments. Assignments and projects are directly related to your ongoing managerial responsibilities. At a week-long annual institute held by the program you will meet and talk with leading national figures in child care and early education.

Your studies will cover: administration of children's programs; policy and politics of child care; budgeting, legal compliance, and evaluation; child development and curriculum. You will have an opportunity to apply what you have learned in a "Practicum," in which you identify a problem in your setting and develop and implement a solution to the problem.

You will share your progress through the program with other administrators entering at the same time as you. You will meet other members in your cohort at the institute and opportunities for joint problem solving will be provided. The program is designed to take less than 2 years of part-time study.

ADMISSION

Admission is open to administrators of programs for young children who:

1. Have a baccalaureate degree from a regionally accredited institution.
2. Are presently in an administrative position in a program for young children.

COSTS

At current tuition rates, the total cost for the 36-credit program is \$2,580. Payment is made for each unit of study at the time that you register.
