This Mailer is brought to you for free and open access by the NSU Course Catalogs and Course Descriptions at NSUWorks. It has been accepted for inclusion in Fischler Postgraduate Course Catalogs by an authorized administrator of NSUWorks. For more information, please contact nsuworks@nova.edu.
Nova University, in Fort Lauderdale, Florida, is an independent, not-for-profit institution that is not tax-supported. It offers courses of study leading to bachelor's, master's, educational specialist, and doctoral degrees on its main campus, throughout Florida, and across the nation. Nova also provides community services and conducts research in a variety of fields.

Nova University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award bachelor's, master's, educational specialist, and doctoral degrees. Nova University admits students of any race, color, and national or ethnic origin.
THE COMMITMENT OF THE PROGRAM IS TO PROVIDE QUALITY DOCTORAL EDUCATION.

The Programs for Higher Education provide a field-based Doctor of Education (Ed.D.) degree program for practitioners working in three specialized areas of education: Higher Education; Adult Education; and Vocational, Technical, Occupational Education. Many of the Adult Education students are involved in business, industrial, and military training.

The goal of Programs for Higher Education is to provide quality doctoral education. The intent is to foster more rational decision making in educational programs and systems, by improving the skills of those who are currently involved in the planning, management, and delivery of them. Thus, these offerings are designed exclusively for the practitioner who is employed in a position related to one of the areas of specialization.

CURRICULUM

The programs employ a field-based delivery system combining formal instruction, supervised independent study, and applied research. The integrated curriculum has been designed to be completed in approximately three years.

Students must attend and pass eight seminars, including six core seminars. Two specialization seminars are unique to each specialization.

Core Seminars
- Curriculum and Program Planning
- Governance and Management
- Research Methodology
- Human Resource Development
- Societal Factors Affecting Education
- Leadership

Specialization Seminars
- Higher Education
  - Politics, Law and Economics of Higher Education
  - Emergence of Higher Education in America
- Adult Education
  - History, Philosophy, and Practices of Adult Education
  - Theory and Methods of Adult Education
- Vocational, Technical, Occupational Education
  - Trends and Issues in Vocational, Technical, Occupational Education
  - Emergence of Vocational, Technical, Occupational Education in America

Summer Institute
Each student must attend two summer institutes. Summer institutes are weekday concentrations that bring together students, cluster coordinators, practicum evaluators, major applied research project advisors, national lecturers, central staff members, and nationally known educators to share ideas.

PRACTICUMS

Practicums are applied research projects that are designed to promote the solutions to current problems in the students’ work settings. They are highly structured opportunities to put theory into practice and to submit to the test of reality newly gained knowledge and skills. Students must successfully complete four practicums, one related to each of four different seminars, including one in Research Methodology and at least one in a specialization seminar.

COMPREHENSIVE EXAMINATION

All students must pass a comprehensive examination before being assigned a major applied research project committee.

MARP

The major applied research project (MARP) is the capstone of the Programs for Higher Education doctoral studies. MARPs are much like practicum, only much more ambitious and rigorous. Whereas the practicums are designed to sharpen skills in planning and conducting applied research, the MARP is the final demonstration that those skills have been mastered.

ADMISSION

Admission to the program requires a master’s degree from an accredited institution, current full-time employment in a job related to the applicant’s area of specialization, and three letters of recommendation from senior academic or administrative personnel in the applicant’s place of employment. The letters of recommendation are to be written on forms provided by the Programs for Higher Education. An interview with a central staff member or cluster coordinator and a portfolio are also required.

FINANCIAL AID

Nova University maintains an Office of Student Financial Planning and Resource to assist students in meeting educational expenses. Students in the Programs for Higher Education may be eligible for Guaranteed Student Loans and veterans’ benefits.
