Campus resources you should know about

Since you are new to these waters, you may not know the ins and outs of services offered at NSU. Check out some important information about additional services that are available to you around campus.

Printing services

Students have a preloaded allotment of \$75 for printing services on campus. The amount is automatically loaded onto your Shark Card at the beginning of the school year and the balance is lost at the end of the school year, so be sure to use it. In order to use your funds, visit a printing lab on campus. Once you have your document up on a computer, click print and you will be asked for your credentials. Your credentials are your NSU email without the suffix, or everything before the @ symbol, and the password to your email account. Once you have verified your credentials, visit any printing station on campus to retrieve your prints through your account. Stored documents are available for printing from your account for up to 24 hours, but after that they are deleted. Your account will automatically be charged for the prints when you hit submit. There are printers on multiple levels of the Alvin Sherman Library, the first floor of the Don Taft University Center, the first floor of Parker, the second floor of DeSantis and the first

floor of the residence halls.

Laptop rentals

Students can check out laptops from the Alvin Sherman Library. The laptops are available to borrow at the OIIT desk on the first floor of the library, but the laptops must stay in the library. The laptops are free to borrow, but be sure to have them returned on time to avoid late fees. Check out periods last for three hours at a time, but students can check out the laptops afterward if there is no one waiting.

Reserve study rooms

If you are finding it hard to locate a quiet place to study or if your group is looking for a meeting place for your project, consider renting a study room in the library. Study rooms offer students a quiet place to work, study and collaborate as needed. To book a study room, visit the library's website at sherman.library.nova.edu or ask a librarian for more information.

Shark Shuttle

The shark vans are not only for shuttling to and from classes. The Shark Shuttle also offers students free rides to various malls, the beach, Las Olas, museums, Publix and Walmart. Get your shop on or explore downtown with friends

without having to drive or deal with the hassle of finding parking. Be sure to check the route schedules online to ensure that you don't miss your bus.

Water refill stations

Florida is known for its sunny skies, but with all of the UV rays shining down on you, you will want to keep hydrated. There are hydration stations set up in most buildings for students to refill their plastic or reusable water bottles with filtered water. The stations are attached to the water fountains and have a sensor that distributes water. These stations can be found in the residence halls, the first floor of the Don Taft University Center, the first floor of DeSantis and the first floor of Parker.

Free feminine hygiene products/condoms

NSU also offers complementary feminine hygiene products in some restrooms throughout campus. The products are available in bathrooms on the first floor of DeSantis, Assembly I of HPD, the first floor of the Don Taft University Center, the second floor of Parker and the first floor of the Alvin Sherman Library. The RecPlex also offers free condoms to students.

Main features include bottled drinks to grab on the go, candy, fruit, sushi and other snack foods.

Pizza Loft

Pizza Loft is in the University Center. Pizza Loft serves pizza, breadsticks and soft drinks. Though you can't use your declining balance at the Pizza Loft location in the University Park Plaza, that location offers a larger menu, including pasta and meats, and can be delivered

to campus free of a delivery charge.
