HONR 1010B: THE HEALTHY WOMAN - MOTHERS TO CYBORGS

DR. AILEEN MIYUKI FARRAR
NSU DEPARTMENT OF HUMANITIES AND POLITICS

Honors 1010B, “The Healthy Woman: Mothers to Cyborgs,” is a medical humanities course offered at Nova Southeastern University that focuses on the question, “What defines a healthy woman?” Since the Enlightenment and its rapid developments in medicine, the conception of Woman has been in flux. What is “natural”? What is “normal”? What is a woman’s cultural responsibilities and how does her body shape those expectations? As one of our final projects in the class, students were asked to compose creative artifacts that apply the history, concepts, and theories covered throughout the course as well as communicate what it means to be Woman.
