Type of Training Services Provided to Persons Rehabilitated in FY 1989

More than half (53.3 percent) of the clients rehabilitated during FY 1989 received some type of training. The most common type of training is personal and vocational adjustment training, which was provided to 21.8 percent of the FY 1989 rehabilitants. The three newly reported services: job referral, job placement, and transportation, were provided to 41.6 percent, 34.9 percent, and 33.7 percent, respectively.

Type of Training Services Provided to Persons Rehabilitated in FY 1989

NOTE: Percentages are not additive because some clients receive more than one type of training service
