**GOLD KEY GETS READY FOR MAJOR ROLE**

**The Many Faces of Education**

There is something about a University campus.

As Nova prepares for its first student body this fall, the members of GOLD KEY will have the opportunity to participate in discussions on the Nova University plans and programs.

President Warren Winstead is looking forward to counsel and guidance in Nova's formative years from the calibre of men represented in the GOLD KEY organization.

Gilbert Chesterton says that the main fact about education is that there is no such thing. Education is a word like "transmission" or "inheritance;" it is not an object, but a method.

Those who like to remind their audiences that education is a drawing out and not a putting in are not quite right in their etymology.

It is true that the Latin word educere, the primary meaning of which is to draw out, was also used in the sense of to rear, but that verb would have given us "education." Education is derived from a different word, educare, the primary meaning of which is to bring up, to educate.

Dick Welch, one of our newer members who is experienced in the John Evans Club of Northwestern, says that some of their finest programs are presented by faculty members with unusual situations to report.

One who traveled to Alaska to photograph and record an eclipse. Another, a psychology professor, told of behavior patterns of modern youth.

One thing is sure, as has been pointed out, with the professors and experience assembled at Nova, GOLD KEY members will be afforded unusual opportunities to stay younger, to keep abreast, to peep into the world of tomorrow — and to help shape it.

**Inaugural Dinner Outstanding**

"A truly delightful affair!"

That is the way most described the GOLD KEY'S first general dinner party.

Capt. L. L. Jackson, nuclear-powered attack submarine... Continued on Page 4

As GOLD KEY approaches maturity, important programs and forward strides, long in the formative stages, will soon be ready for activation.

GOLD KEY'S growth has been steady, carefully controlled, (membership is by invitation), and is now of sufficient strength to allow the early issuance of its first annual Membership Roster.

In keeping with the Trustee's decision that GOLD KEY is to be the most important, most knowledgeable organization supporting the University, plans are underway to stage a program in the magnificent Edwin M. and Ester L. Rosenthal Student Center on the westside campus.

This will probably be in the early fall, following its completion.

GOLD KEY will be the first to use this beautiful building. Students and faculty members will be introduced, and a discussion of programs offered leading to doctoral degrees in physics, physical oceanography and science education, will highlight the meeting.

Ahead of this event, a late spring dinner honoring the ladies of GOLD KEY, will be held.

GOLD KEY will become an organization in fact with the selection of a governing board and the adoption of by-laws.

A Nominating Committee to select a slate of Directors will be announced.

The Directors, as soon as elected, will name a president and other officers.

Important committees to be named will include Program, Membership and Hospitality.

GOLD KEY'S major purpose is directed to creating a climate through Nova University, conducive to the greater intellectual growth of Broward County and southeast Florida.

The counsel and support of GOLD KEY will guide the development of Nova University during these formative years.
The Mystique of Immortality

Man since recorded time has sought to perpetuate his name, his memory, his goals and his accomplishments. In great works in thousands of historic places, down through all the ages, and in all parts of the world, the compelling power of this most human of all drives is demonstrated again and again. From the deification of the early kings of the remotest Sumerian past, the grandeur of the burial quarters of Queen Shub-ad in the royal graves of Ur to the Tower of Babel, the Code of Hammurabi, Nebuchadnezzar's Dictionary, and in the production of the Rosetta Stone and the Obelisk of Philae man has projected himself into the future.

There were the Scaen Gate at the Palace of Priam, the Sumerian-Babylonian ziggurats, some sixty-seven Egyptian pyramids, the Colonnade in the Temple of Karnak, the colossal statues of King Amenophis III, and the Tombs in the valley of Biban el-Muluk.

Everywhere and all the time the search goes on to discover and insure the best method to achieve unending life and enduring fame. Witness the statue now in the Louvre of the Priest King Gudea from a culture older than the Egyptian.

In our own hemisphere the huge temple-complex of Copan in Honduras, the Temple of the Warriors in Chichen-Itza and the Mexican and Central American pyramids. In mighty buildings and vast works man has striven to impel his name forward through time.

Then what finer way toward immortality is now available on this, the eve of the Twenty-First Century than participation in this creation of a great University?

A major establishment such as NOVA UNIVERSITY?
Dedicated to the pursuit of excellence—
To pushing back the frontiers of knowledge—
To bringing understanding—
To training and inspiring future teachers—
To furnishing and developing essential leadership—

A University which will go on and on into the unforeseeable future, enriching, stimulating, bringing greatness?

Here indeed is offered the opportunity to identify with a program in which finite man can lay hold on the infinite... Here indeed a man's reach can exceed his grasp.

Here indeed is the way to Immortality.

Wear Your Gold Key Emblem

It is most important that each member display his GOLD KEY. It may be worn as a tie clasp, or as a lapel pin. This key is not only a symbol of status. It proclaims to the world that you are participating in the creation of an outstanding University.

Wear your KEY with pride!

Inaugural Dinner Outstanding

Continued from Page 1

expert, principal speaker, proved articulate, personable, witty. His color pictures of the Caribbean and of his AUTEC bases on Andros Island were outstanding, his presentation impressive.

This marked Captain Jackson's first formal appearance in Southeast Florida—something of a feather in GOLD KEY'S cap. The following Sunday in Palm Beach the Vice President of the United States, a handful of top admirals and Navy Department heads, a U.S. Senator and Congressmen, and Bahamian heads of state came to pay tribute to him and to commission the $125,000,000 U.S. under-and-above water installation he will head in The Tongue of the Ocean.

Member Bob Gill's Sheraton furnished the roof top setting and an out-of-this-world gourmet dinner which met even the GOLD KEY standards.
