Graduate Certificate in Marine and Coastal Climate Change 2016

About the Certificate

The Graduate Certificate in Marine and Coastal Climate Change (MCCC) will be awarded after successful (C grade or higher) completion of four graduate level courses in the field of Marine and Coastal Zone Studies. Entry is at any of the NSU Halmos College of Natural Sciences and Oceanography’s three start terms: Fall, Winter, and Summer.

Applicants require a baccalaureate degree to be considered for admission. NSU’s programs are fully accredited by the Southern Association of Colleges and Schools, and students accepted into the Marine and Coastal Zone Studies certificate program may be eligible for financial aid.

Courses may be chosen from NSUOC graduate courses offered on-line or in-house with a MCCC or MAMC prefix.

Gainful Employment Disclosure

Students in the MCCC Certificate are required to take the following courses:

- MCCC 5300 Climate Change: The Scientific Basis
- MCCC 5350 Climate Change: The Societal Perspective

Students Courses are offered in five sessions: 3 12-week session (Fall 1, Winter 1, or Summer) and 2 4-week sessions (Fall 2 and Winter 2). Planned courses for the Academic year July 1, 2014 to June 30, 2015, on-line courses can be found in the here under Course Offerings.

As for all NSU Halmos College of Natural Sciences and Oceanography Graduate Certificates, courses do not need to be taken sequentially. Students can enroll according to the schedule most convenient for them. The Certificate can be gained in less than one year. All course work must be completed within five years of initial registration.

This Graduate Certificate Provides:

- Introduction and diverse knowledge of key ecological and socio-environmental issues related to the oceans and coastal zone.
- Understanding of the international, national, and local nature, importance, and impact of ocean and coastal issues.
- Web-based delivery and forum for course presentation and sharing information, perspectives, and case studies.
- Interaction as relevant with peers and professionals in a variety of related fields and locations.
- Stand-alone Certificate documenting completion from an accredited university for students and working professionals of a variety of related fields.
- Credit if accepted for Master's programs at the NSU Halmos College of Natural Sciences and Oceanography. Programs include online (M.A. in Marine and Coastal Studies, M.S. in Coastal Zone Management; and in-house M.S. in Coastal Zone Management, Marine Biology, Marine
Environmental Sciences.). Credit may also be applied if accepted in an M.A. in Cross-Disciplinary Studies (Coastal Environment and Society track) offered in partnership with NSU Graduate School of Humanities and Social Sciences.
