A PROUD DAY! "GOLD KEY CHAIR OF CHEMICAL OCEANOGRAPHY" CREATED; CARRITT, PROFESSOR

A major first!
The GOLD KEY CHAIR OF CHEMICAL OCEANOGRAPHY will be sponsored by the GOLD KEY organization of Nova University.

The announcement, with the confirming approval by the University Administration, was released today jointly by Dr. Warren J. Winstead, president, by James Farquhar, chairman of the board of trustees, and by M. R. "Cy" Young, GOLD KEY president.

Mr. Young hailed the announcement as a milestone — and as the realization of a goal toward which his organization has striven since its inception... a truly significant achievement.

"Our individual members can point with pride to their most impressive accomplishment for the University," Young declared.

"We now have a paternal, almost proprietary, interest in this phase of oceanographic development. GOLD KEY can relate to it, watch it grow and develop, aid it, and learn from it," he said. "We are delighted with this important demonstration and recognition of our strength and growth."

Nova's expanding program under Dr. William S. Richardson, professor of Physical Oceanography, Dean of the Graduate Faculty and Director of the Oceanographic Laboratory of Nova University, includes Charles S. Yentsch, associate professor of Marine Biology; Dr. Pearn P. Niiler, mathematician, assistant professor of Theoretical Oceanography; Dr. Russell M. Snyder, assistant professor of Physical Oceanography, Dr. Dennis W. Moore, assistant professor of Theoretical Oceanography, and, of course —

The GOLD KEY CHAIR OF CHEMICAL OCEANOGRAPHY, which will be occupied this fall by Dr. Dayton Cariott.

The distinguished Dr. Carritt will come to Nova from M.I.T., where he has served the last five years as professor of chemical oceanography. He received his Ph.D. degree in chemistry from Harvard in 1948.

SIDNEY BANKS HEADS
CHAMBER OF COMMERCE GROUP

"Housing, feeding and entertaining visitors — taking proper care of tourists — is Fort Lauderdale's biggest and most important business.

"... Each good hotel room pours an estimated $15,000 into the local economy.

"Fort Lauderdale has the facilities and know-how to handle 75% to 80% of all the conventions staged in the United States ... and expects to see 1,500 new hotel rooms added this year."

GOLD KEYSMAN Sidney Banks made the above statements in connection with his duties as Chairman of the Convention Bureau's Executive Committee.

Banks, owner-director of the Largo Mar Hotel, is a director of the Fort Lauderdale Chamber of Commerce and Vice President — Conventions.

(Bob Gill, of the Gill Hotels, Inc., another GOLD KEY member, is also on the Executive Committee of the Convention Bureau.)

Banks recently appealed to the general public for cooperation in bringing conventions here, and for consideration in the matter of courtesy and helpfulness to visitors.

As they say in the great tourist industry: "You can always Bank on Sidney."

CONGRATULATIONS

The Stetson University News Letter for December, 1967 announces that a grant of Five Hundred Dollars has been received by Stetson University to establish a RING, MAHONY AND ARNER Accounting Scholarship in the School of Business Administration. A fine gesture. Robert C. Elyson, GOLD KEYSMAN and Nova University Trustee, is a member of this statewide firm of accountants.

And on a more personal note, Bob is also due congratulations. He is newly wed!

WORLD FAMED BOARD
ASSEMBLES HERE

Director R. O. Barber offered GOLD KEY the use of closed-circuit TV equipment from Univis to record, for GOLD KEY's Annual Spring Dinner, the world vision of the need in Southeast America for an institution such as Nova as expressed by Nova's distinguished Advisory Board, which assembles here this month.

This Board, which includes two Nobel Laureates, has James R. Killian, Jr., Chairman of the Corporation, Massachusetts Institute of Technology; Richard G. Folsom, President, Rensselaer Polytechnic Institute; Abram L. Sachar, President, Brandeis University;

Frederick Seitz, President, National Academy of Sciences; Athelstan Spilhaus, President, Franklin Institute; Robert B. Gilmore, Vice President — Business Affairs, California Institute of Technology; Burton R. Clark, Professor of Sociology, Yale University; Philip Handler, Chairman, Department of Biochemistry, Duke University;

J. Hans D. Jensen, Director of the Institute of Theoretical Physics, University of Heidelberg (1963 Nobel Laureate in Physics); T. R. McConnell, Director, Center of Higher Education, University of California, Berkeley; Emilio Segré, Professor of Physics, University of California, Berkeley (1959 Nobel Laureate in Physics); Paul F. Brandwein, Consultant in the Development of Nova High School and Director of the Pinchot Institute.

MEET NEW MEMBERS

RICHARD O. "DICK" KEARNS

Dick Kearns, a second generation restaurant man, came to Fort Lauderdale five years ago. A year later he moved the national headquarters for the Red Barn System here.

He has seen his interest expand from a local company to a huge international operation. Its first unit was opened in Springfield, Ohio. Now there are 190 limited menu, self-service restaurants open and 50 more under construction. They range from Calgary to San Francisco, to Philadelphia and to Fort Lauderdale, and are growing at the rate of one per week.

In March, 1966, Red Barn was acquired by Servomation, mammoth food service and vending company, and

continued page 3
NEW MEMBERS continued

Dick was elected a Servomation Vice President, and continues to head Red Barn.

He and his Virginia have a son and a daughter. He graduated from the U.S. Marine Academy and Miami University of Oxford. He is president, Chairman or Vice President of eight food, restaurant and investment corporations. Dick was active in the United Fund in Dayton, Ohio, and was a Division Chairman of the combined drives of the Universities of Dayton and Wright State.

The Kearns are members of the Coral Ridge Yacht club. The Kearns' Yacht, Desefinado, cruises the Bahamas and has been a visitor at ports along the entire east coast and throughout the Great Lakes. Dick was President of Miami Valley and Ohio Restaurant Associations, and is active in church, community and national organizations.

ALVAR HAGEN

Alvar Hagen’s home has piped in music... live!

It's from a mocking bird which perches on top of his chimney. This chimney makes an "echo chamber" which amplifies the bird's song for human listeners below in rooms with fireplace openings.

Hagen has turned his swimming pool into a great aquarium... sand on bottom, water lilies planted, and hundreds of Goldfish beauties! Other hobbies are golf and bridge.

He came to Florida 31 years ago, and entered the investment field in Wilton Manors after three years in Miami. Earlier he represented the Simplex Electric Manufacturing Co. in the Chicago area from Berwyn, Ill.

He and his Virginia made a handsome addition to the Nova University rendezvous at Expo-67, Montreal last fall, celebrating Canada's One Hundredth birthday.

FREDERICK L. VAN LENNEP

Fred Van Lennep is a Philadelphian, a Princetonian, an Air Force veteran, and a horseman since the age of nine.

He is master of the 2,300 acre Castleton Farm, Lexington, Ky., where some of America’s finest harness horses are bred. He has controlling interest in three harness and one dog tracks.

Fred is treasurer of the Lexington Trot Breeders Association, a Director of the U.S. Trotting Association, a member of the Hambletonian Society, a Grand Circuit Steward, and a Director of the Harness Tracks of America.

The Van Lenneps own beautiful Pompano Park Harness Raceways, Pompano Industrial Park, and Lauderdale '70—about 6,000 prime acres adjacent to Plantation, north of Nova University.

Fred is also a yachtsman and a fresh water and big game fisherman.

DR. BRUNO CARL SCHMIDT

Dr. Schmidt founded "The Academy of American Poets." He is a man of wide interests and many talents. He is a poet, a writer, a columnist, a baritone, and an artist in copper and decorative bronze. He composed "This Verdant Land" and "Fort Lauderdale Love," with music by his wife, Ruth.

Born in Flensburg on the Baltic near the Danish border, he came to the U.S. in 1926 and to Fort Lauderdale in 1951. He toured Europe and Russia in 1935 with the Cleveland Orpheus Male Chorus. He has published "Song of Broward" and "Grains of Rime."

He has been a banker, an accountant, and in the depression he studied to be a Chiropractor and a Mechanotherapist. He had voice training under teachers of Vienna and Metropolitan Opera soloists. He sang with the Cleveland Orchestra Chorus in the presentation of Beethoven's Ninth Symphony.

Bruno Schmidt supports the Fort Lauderdale Symphony, F.A.U. Music Guild, the Opera Guild, the Historical Society, Nova University Chamber Music, Community Concerts, the Museum of the Arts, Parker Playhouse and Holyroad, Inc., and the Civic Ballet.

He and Ruth are listed in "Florida Lives" and she is in "Who's Who in American Women."
A. J. Ryan, Sr.

A. J. Ryan came to Dania 44 years ago — in 1924 — and that same year he got married to his Genevieve.

Today "Art" is a realtor, a rancher and a banker. He has three ranches, is a Director of The Dania Bank and of the First Federal Savings and Loan Association of Broward County, Ft. Lauderdale.

He is a Past District Commander of the American Legion and a member of its National Americanism Commission. He is a past president of the Dania Board of Realtors, the Chamber of Commerce, and is a B.P.O.E. member. He is active in the Hollywood-South Broward Board of Realtors.

Mrs. Ryan was National Commander of the American Legion Auxiliary. Their son, A. J. "Red" Ryan, Jr., is also distinguished. A Broward attorney, he has served the county as a State Representative and State Senator.

Dr. Dayton Carritt continued

He served the Woods Hole (Mass.) Oceanographic Institution as a chemical technician, Research Chemist, staff member and associate professor of Oceanography. He was a teaching fellow at Harvard, and taught at Rhode Island State College and at Johns Hopkins. He was an instructor and assistant professor at the University of California's Scripps Institution of Oceanography.

His impressive professional and consulting experience included: Manhattan District, Los Alamos project (scientist); E. I. DuPont de Nemours & Co., Inc.; Bay Food Products, Inc., Baltimore (oyster quality standards); U. S. Atomic Energy Commission (radioactive waste disposal);

Dr. Carritt has served on advisory panels and committees of the National Academy of Sciences; the American Association for the Advancement of Science; the Joint Committee of the Special Committee on Oceanic Research (SCOR) of the International Council of Scientific Unions and the International Association of Physical Oceanographers;

The International Association of Physical Oceanographers Committee on Chemical Oceanography; the President's Science Advisory Committee; the Sears Foundation and the National Academy of Sciences.

"Wonderful!" . . . "Deeply appealing" . . . "Eminently fitting" . . . "How appropriate!" . . . are a few of the almost unanimous expressions of approval to the great news that GOLD KEY will sponsor a Chair in Oceanography for Nova University.

Tropical and subtropical seas have lured men since time began. Many GOLD KEYSMEN are yachtsmen. For others, love of the sea is equally deep, but more passive. Most of those here in southeast Florida came because of the proximity to the ocean. The appeal is universal.

So, the opportunity to help foster oceanography, this newest and most scientific study of the mysteries of the seas; the opportunity to be affiliated with, and close to, these brilliant men whose very special training, experience and devotion are making more understandable and more useful to mankind the secrets of these vast bodies of water — the oceans — which cover and hide a full three-quarters of the earth's surface — that indeed is something in which GOLD KEY can take pride and continuing pleasure.

M. R. "Cy" Young, President GOLD KEY of Nova University

Dr. Carritt continued

He holds a U.S. patent on an Electrode measuring device; belongs to a number of learned societies; and has many publications, reports and treatises to his credit.

Dr. Carritt married Jeanne R. Brooks in 1939. They have one son. They will come here from Cambridge, Mass., and his duties and activities at Nova University are scheduled to begin in early September, 1968.

Atoms of Rime

by

Dr. Bruno C. Schmidt

Break with the old, Foster the new, Stand firm and bold; Gung-ho, Nova U!
