President’s Message

Nova Southeastern University is committed to providing an educational environment that encourages students to be the best they can be. Historically NSU has provided quality education through a diverse array of delivery systems ranging from the traditional to state-of-the-art electronic technologies. Consistent with our mission statement, we prepare students for leadership roles in the professions and provide support for research and community service while maintaining an environment fostering creativity and innovation. We recognize that as Will Rogers once noted, "even if you're on the right track, if you just sit there you'll get run over."

Given our commitment to providing educational opportunities that prepare tomorrow's professionals to serve optimally their professions, clients, and society, it is essential that curricula be designed at each level to effectuate this mission. Tomorrow's professionals must possess not only the traditional attributes - expertise, ethical sensibilities, and commitment to furthering professional and societal values - but also the capacity to utilize contemporary technology, apply and appreciate relevant findings and approaches of other disciplines, and to operate in a culturally diverse milieu.

Nova Southeastern's goal is to maintain and enhance the array of professional schools and concomitant programs required to fulfill its mission. It must support, enhance, and expand existing professional centers and, where appropriate, reorganize University components to facilitate synergy and enhance the education of professionals. We believe that education is not merely a means to an end, but is itself intrinsically valuable. Accordingly, the time spent at Nova Southeastern by students, faculty, and staff should be informative, exciting, and rewarding.

Ovid C. Lewis, J.S.D.
President
Nova Southeastern University

We welcome you in joining in our common mission of creating the best possible educational setting.
Nova Southeastern University

Nova Southeastern University is an independent, nonsectarian, nonprofit university chartered by the State of Florida in 1964. It is located on a 227-acre main campus west of Fort Lauderdale at 3301 College Avenue in Davie, 10 miles inland from the Atlantic Ocean and easily accessible from major highways, including I-75, I-95, I-595, the Sawgrass Expressway, and Florida's Turnpike. Additional locations are in downtown Fort Lauderdale, Coral Springs, and Port Everglades. Its 15 centers of study offer campus-based pre-kindergarten through grade 12 and undergraduate and graduate programs leading to degrees in education, law, psychology, oceanography, computer sciences, social sciences, business and public administration, osteopathic medicine, dentistry, pharmacy, optometry, and allied health (physician assistant, occupational therapy, and physical therapy). As an acknowledged leader in field-based degree programs, NSU offers courses of study leading to the bachelor's, master's, educational specialist, and doctoral degrees in education, in business and public administration, in psychology, in the health professions, and in physical, social, and computer sciences.

The Family and School Center is a community resource that provides education and therapeutic services for families and their children. The center comprises three units: University School, the Ralph J. Baudhuin Oral School, and The Family Center. University School is a demonstration school serving children from preschool through high school, preparing them in the upper grades for college. The Baudhuin Oral School provides programs for children with specific learning needs and/or hearing disabilities. The Family Center provides a spectrum of family-related programs designed to promote positive interaction between parents and children.

From the beginning, the University has distinguished itself by its innovative outlook, its unique programs that provide both traditional and nontraditional choices in educational programs, and its research in many fields aimed at solving problems of immediate concern to mankind.

The University's centers and programs share a common mission to educate students for leadership roles in a variety of professions. In the Nova Southeastern University educational continuum, preprofessional training begins as early as University School, continues through the college level, and culminates in the various centers for professional studies. Through the Nova Southeastern University education plan, students master appropriate skills and disciplines at each academic level, develop a sense of professional ethics and responsibility, and learn to appreciate the role of the professional as a key individual in society.

"The NSU Plan" stresses the critical relationship between theory and practice; it reinforces and tests the classroom experience through applied research and community service as integral parts of academic experience. Consistent with its mission, the University extends its resources to provide educational opportunities to working professionals nationwide, with faculty teaching at corporate and other locations across the country. NSU also delivers programs through a variety of educational technologies, including telecommunications. Nova Southeastern University is committed to the idea that education should not be timebound or placebound. Through its educational offerings, research projects, and programs of public service, the University encourages the free exchange of ideas and the search for knowledge that is the cornerstone of the academic tradition.

Mission Statement: Nova Southeastern University

Nova Southeastern University provides educational programs of distinction from prekindergarten through the doctoral level at times and in locations convenient to students, prepares students for leadership roles in business and the professions, encourages research and community service, and fosters an atmosphere of creativity and innovation utilizing technology where appropriate.

Approved by the Board of Trustees, June 22, 1992

iv
Dean's Message

We at the School of Social and Systemic Studies welcome your interest in our academic center and invite you to join us in our efforts to create new and better ways of helping people improve their lives. To meet this challenge, we have developed a number of innovative degree, certificate, and post-graduate programs, all of which integrate scholarly inquiry with the provision of direct clinical services for the citizens of South Florida.

If you choose to become part of our school, I think you will be greatly impressed with our faculty and students. They are a friendly, helpful, and productive group of scholars who have distinguished themselves in their clinical work and in their various academic pursuits. I truly believe that the number of significant joint projects carried out among members of the faculty and student body clearly reflects the type of thriving academic community we strive to nurture here in the school. Furthermore, recent surveys of our program graduates indicate that most have successfully gone on to employment as faculty, researchers, and practitioners within their field.

I encourage you to come visit us and gain first-hand experience of the quality programs and people we have. I think you will be pleased with what you see and feel at our school.

Mission Statement: School of Social and Systemic Studies

The School of Social and Systemic Studies focuses on academic excellence and leadership in the education of professionals who provide effective intervention in difficult and problematic human relationships. The school offers innovative and creative programs in professional training, practicum and community service, and applied research.

The School develops curriculum and teaching methods of undergraduate, graduate, post-graduate, and continuing education. The cornerstone of academic education in the School is the teaching and learning of professional ethics and social responsibility. Students and faculty together integrate theory and practice through the free exchange of ideas in class and seminar discussion, applied research projects, and community service activities.
School of Social and Systemic Studies

The School of Social and Systemic Studies is one of the university’s 15 centers, each of which functions as an autonomous unit, and has a specific educational focus. The School of Social and Systemic Studies focuses on teaching, researching, and applying social theories to improve human living. It operates graduate and postgraduate programs in family therapy and dispute resolution. The School also sponsors community service clinical programs and conducts research to understand social interaction and enhance human services.

Within the School, the Department of Family Therapy offers the M.S. for applicants who plan to practice family therapy. The M.S. in Family Therapy prepares graduates for internship and employment where they can accumulate supervised experience toward state licensure as a marriage and family therapist. The M.S. degree program in marriage and family therapy has candidacy status with the Commission on Accreditation for Marriage and Family Therapy Training and Education of the American Association for Marriage and Family Therapy, effective 1993-1998.

The School also offers the Ph.D. for those who plan to supervise, teach, and research family therapy. The Ph.D. in Family Therapy prepares graduates to provide leadership for community practices and agencies, training programs at universities and institutes, and professional organizations and associations. Doctoral students learn scholarly inquiry through qualitative research training in methods of human communication study. Students begin their clinical training at Family Therapy Associates, our clinical facility, and then serve in a variety of internship sites.

The Department also offers postgraduate programs for those who wish to be licensed in family therapy. Additionally, the Medical Family Therapy program, a specialization available in both the M.S. and Ph.D. Family Therapy programs, has created training and research projects to encourage collaboration among physicians, family therapists, and family members.

The School offers programs in conflict resolution through the Department of Dispute Resolution. As an alternative to costly and difficult legal disputes, mediation, arbitration, negotiation, collaborative public problem solving, and conciliation have emerged as some of the useful forms of dispute resolution. The Graduate Certificate in Dispute Resolution provides professionals an opportunity to learn the basics of mediation and negotiation skills, while the M.S. and Ph.D. in Dispute Resolution both offer comprehensive education in nonadversarial problem resolution for reflective practitioners. The School also provides consultation and training for business, government, and the community.

Also, the School has developed a research program, The Family, Work, and Business Program. One aspect of this program is the Institute for Family Business at Nova Southeastern University, now administered by the School of Business and Entrepreneurship in cooperation with the School of Social and Systemic Studies. The Program is designed to study the relationship of family interactions within work and business contexts.

Funded school research projects have included family therapy services for the neurologically injured, juveniles placed by the court in diversionary programs, and women in family businesses. The School publishes The Qualitative Report, a print and electronic periodical for articles and news in qualitative research in family therapy and related areas.

The School of Social and Systemic Studies conducts a variety of continuing education programs in support of its academic study areas. The faculty of the Department of Family Therapy hold a yearly Scholarship Series, with presentations on an array of topical issues and with proceeds supporting scholarships for academic students. Other seminars and workshops have addressed topics such as basic and advanced hypnosis techniques, working within a managed care setting, and diversity issues for therapists.
Within the Department of Dispute Resolution, mediation trainings have been provided for educational, governmental, and professional groups. Trainings, in both English and Spanish, have brought the expertise of the department's faculty to professionals in the United States and South America, enabling them to apply for mediation certification in their locale. The School has also sponsored community-related activities, such as presenting acclaimed speakers on topics related to the fields of family therapy and dispute resolution, and has established a Winterhostel program for the large elder population of the South Florida area. This year, the School will also present seminars, both to mental health professionals and the local elder population, on promoting self-worth during one’s older years.

All research initiatives, training programs, and clinical services emphasize respect for clients and colleagues. The programs avoid pathologizing or stereotyping any person and encourage all students, staff, and faculty to promote human welfare through social criticism and action. We welcome applications from qualified candidates of both genders and all races, ages, religions, and ethnicities.

School of Social and Systemic Studies Online

In order to give students, faculty, and staff greater access to important information, the School of Social and Systemic Studies provides a comprehensive World Wide Web Home Page (http://www.nova.edu/cwis/centers/ssss/index.html), which contains the School’s Catalog, Student Handbooks, Policies and Procedures, Academic Calendar, and E-Mail Addresses. In addition, the SSSS Web Pages are home to a number of unique online resources, which were created and developed here at the School:

◇ **The Conflict Resolution Resource Service (CRRS)**
(http://www.nova.edu/ssss/crrs.html)
offers a series of papers and lists which have become a leading source of information on the World Wide Web for conflict resolution scholars and practitioners. Composed by Bill Warters, these resources include the papers—"Guidelines for Giving or Receiving Criticism and Feedback Without Getting Hurt or Hurting Others," "Beginning Thoughts on The Values and Ethics of a Campus Mediation Center," "Making a Referral to Campus Mediation: Guidelines for Residential Assistants," and "Bibliography on Dispute Resolution in Higher Education (Version 2);" and the databases--Campus Mediation Centers, and Campus Mediation Sites on the Web.

◇ **The Department of Dispute Resolution**
(http://www.nova.edu/ssss/DR/adr.html)
Web Page is home to these outstanding World Wide Web Dispute Resolution Resources: Conflict Resolution Programs in Higher Education, ADR Web Sites, Online Discussion Groups, ADR Online Papers, Newsletters, Journals, Membership Organizations, Resource Organizations.

◇ **The Department of Marriage and Family Therapy (MFT)**
(http://www.nova.edu/ssss/FT/web.html)
Resources on the World Wide Web Page includes one of the largest collections of hyperlinked pages on Marriage and Family Therapy and MFT-related Web sites, MFT Journal Home Pages, and full-text, online papers on systems, therapy, and constructivist ideas.
The Institute for Family Business at Nova Southeastern University
(http://www.nova.edu/sss/FBI/index.html)
Home Page contains current and back issues of *Family BUSINESS*, the Institute’s newsletter, full-text papers on family business such as "Dual Relationships in Family Business" by Patricia Cole, "Connecting and Separating Family and Business" and "Playing with Contextual Complexity" by Douglas G. Flemons and Patricia M. Cole, and links to Web pages on University-Based Institutes and Centers, Family Business Organizations, and Resources for the Entrepreneur.

The Qualitative Research Project
(http://www.nova.edu/sss/qualinq.html)
is the vehicle the School uses to house one of the most extensive collections of online resources for qualitative researchers in the world. As part of this project, the School offers *The Qualitative Report* (ISSN 1052-0147), an online journal devoted to writing and discussion of and about qualitative and critical inquiry; and the Qualitative Research Resources on the Internet, an online source for links to Qualitative Research Web Pages, Papers and Other Textual Sources, Calls for Qualitative Research Papers, and Syllabi.
Academic Calendar for 1996-1997

Fall Semester 1996

Start Classes: Tuesday, September 3

Holidays: Rosh Hashanah, Saturday, September 14
Yom Kippur, Monday, September 23
Thanksgiving, Thursday, November 28 and Friday, November 29

Finish Classes: Monday, December 9

Winter/Spring Semester 1997

Start Classes: Monday, January 6

Holidays: Martin Luther King Day, Monday, January 20
Good Friday, Friday, March 28

Reading Week: Monday, March 3 to Saturday, March 8

Finish Classes: Saturday, April 12

Summer Semester 1997

Start Classes: Monday, April 21

Holidays: Memorial Day, Monday, May 26
Independence Day, Friday, July 4

Finish Classes: Saturday, July 12

Fall Semester 1997

Start Classes: Tuesday, September 2

Finish Classes: Monday, December 8
The M.S. in Family Therapy

The Master of Science in Family Therapy Program is designed to help students develop clinical excellence. In 48 credit hours of classes and clinical practice, students prepare for careers as marriage and family therapists. Training is concentrated on brief, interactional models of family therapy, qualifying our graduates to practice in a time-sensitive, cost-effective manner. Our graduates find employment in private practice, employee assistance programs, managed care and health maintenance organizations, family service agencies, schools, churches, hospitals, and other clinical settings (records are kept on graduates’ employment, and a brief summary of these employment statistics is available on request).

Students in the program receive clinical training and experience at Family Therapy Associates, NSU’s own family therapy clinic, which serves a wide variety of clients from all life circumstances. Please note that all students enrolled in a practicum must provide proof of professional liability insurance. In addition, after this initial training, students may be placed in an off-campus internship site. Available internship sites offer the opportunity for students to specialize in work with bilingual families, families with a developmentally delayed child, families coping with a chronically ill family member, and with other special populations. The opportunity for intense, closely supervised, and widely varied clinical experience is an important feature of our program.

Applications are accepted from any person with a bachelor’s degree from a regionally accredited university. Criteria for acceptance into the master’s program include a major emphasis on student interest in learning systemic theories and therapies. The second major emphasis in master’s admission is on interviewing ability. Applicants who demonstrate significant ability to listen to others, lead conversation, and learn from dialogue will be best prepared for admission. Detailed information on applications and admissions may be found on page 50 of this catalog.

Students enroll for at least 6 credits per semester; however, they are encouraged to register for 9 or 12 credits per semester. Taking 9 credits per term, students can expect to complete the program in two years. Taking 6 credits per term, students complete the program in three years. Both plans include study during the summer semester. Students usually apply in the spring to begin their programs in the fall of the year. All systems theories and family therapy course sequences begin in the fall.

In the last semester of their degree program, all M.S. students complete a comprehensive examination. The examination is a series of questions that cover all courses and practica. The examination serves as a time of reflection and integration prior to graduation. Students who fail the examination twice will not graduate.

The Master of Science degree program in Marriage and Family Therapy has candidacy status with the Commission on Accreditation for Marriage and Family Therapy Training and Education of the American Association for Marriage and Family Therapy (AAMFT), effective 1993-1998. The program fulfills all the academic requirements for state licensure in Florida and for clinical membership in AAMFT (additional post-master’s experience is required for both credentials).

For specifics regarding the comprehensive examination, the internship experience, and all other aspects of this program, please refer to the student handbook compiled for this program.

Course Descriptions

(All courses are 3 credit hours unless otherwise specified)

**SFTM 5310 - Introduction to Systems Theories**

Presents an overview of theories that use metaphors of system, pattern, interaction, and communication to describe human behavior and relationships, with an emphasis on cybernetics. Offered in fall.

**SFTM 5311 - Critical Issues in Systems Theories**

Addresses critical issues in systems theories, including biological, narrative, and feminist critiques of cybernetics. Prerequisite: Introduction to Systems Theories (SFTM 5310). Offered in winter.

**SFTM 5320 - Introduction to Marital and Family Therapy**

Reviews the history of marital and family therapy and the clinical approaches of interactional therapies. Focuses on basic counseling concepts and skills. Offered in fall.
SFTM 5321 - Theories of Marital and Family Therapy
Offers a comparative study of theories of marital and family therapy, including systemic, structural, strategic, intergenerational, contextual, behavioral, and experiential therapies. Survey of differences in clinical practice. Offered in winter.

SFTM 5322 - Clinical Practice in Marital and Family Therapy
Examines applications of family therapy methods in specific situations, such as divorce, child rearing, school problems, chronic illness, teen runaways, elderly care, substance abuse, suicide, family violence, and medical trauma. Prerequisites: Introduction to Marital and Family Therapy (SFTM 5320) and Theories of Marital and Family Therapy (SFTM 5321). Offered in summer and fall.

SFTM 5350 - Research in Marital and Family Therapy
Reviews quantitative and qualitative methods of inquiry, as exemplified in recent marital and family therapy research studies. Focuses on teaching students to be intelligent, critical consumers of research in the field. Offered in winter.

SFTM 5360 - Practicum I
Provides the opportunity for practice of marital and family therapy at Family Therapy Associates, under faculty supervision. Prerequisites: Introduction to Systems Theories (SFTM 5310), Introduction to Marital and Family Therapy (SFTM 5320), and Legal, Ethical, and Professional Issues (SFTM 6340). Offered in winter.

SFTM 5510 - Academic Writing
A seminar on how to write well. Offered in summer.

SFTM 6320 - Assessment in Marital and Family Therapy
An overview of methods and instruments used to define problems and indicate solutions. Comparative study of interactional approaches and individual and family dysfunction assessments. Prerequisites: Introduction to Marital and Family Therapy (SFTM 5320) and Theories of Marital and Family Therapy (SFTM 5321). Offered in summer.

SFTM 6331 - Diversity in Human and Family Development
Focuses on the diversity of psychosocial development across ethnicity, class, gender, and culture, from childhood through old age. Discusses the implications for interactional therapies. Offered in fall.

SFTM 6332 - Human Sexuality and Gender
Reviews the psychosocial development of sexuality and gender from childhood through old age. Summary of clinical approaches to sexual and gender problems, comparing interactional approaches with psychodynamic and behavioral models. Offered in summer.

SFTM 6333 - Theories of Personality and Psychopathology
Reviews the major theories of personality and psychopathology, emphasizing psychiatric diagnostic classification systems. Focuses on the study of implications for treatment and comparisons with interactional approaches. Offered in summer.

SFTM 6340 - Legal, Ethical, and Professional Issues
An explanation of accreditation and licensure organizations and the ethical codes they promote in family therapy and related fields; reviews therapists' legal responsibilities and liabilities in mental health and family law, insurance claims, and private practice management; offers an overview of professional opportunities in public service and training programs. Offered in fall.
SFTM 6360 - Practicum II
Provides the opportunity for practice of marital and family therapy at Family Therapy Associates, under faculty supervision. Prerequisites: Practicum I (SFTM 5360), Critical Issues in Systems Theories (SFTM 5311), and Theories of Marital and Family Therapy (SFTM 5321). Offered in summer.

SFTM 6361 - Practicum III
Provides the opportunity for practice of marital and family therapy at Family Therapy Associates or at an approved off-campus internship site, under supervision of faculty members and qualified professionals. Prerequisites: Practicum II (SFTM 6360), Clinical Practice in Marital and Family Therapy (SFTM 5322), and faculty approval. Offered in fall.

SFTM 6362 - Practicum IV
Provides the opportunity for practice of marital and family therapy at Family Therapy Associates or at an approved off-campus site, under supervision of faculty and qualified professionals. Must be repeated until the student achieves a total of 500 client contact hours, or may be repeated if the student wishes additional experience beyond the requisite 500 hours. Prerequisite: Practicum III (SFTM 6361). Offered in winter.

SFTM 6374 - Individual and Group Psychotherapy
Reviews major theories of psychotherapy and understanding of psychosocial development on which they are based. Explores individual and group techniques from psychodynamic, behavioral/cognitive, humanist/experiential, and systemic approaches. Offered in winter.
The Ph.D. in Family Therapy

The Ph.D. program in family therapy prepares graduates for careers as teachers, researchers, supervisors, and senior clinicians. The 91-credit-hour program entwines systemically oriented theory, clinical practice, and qualitative research. The core curriculum includes:

- Two philosophy classes, one devoted to the cybernetic ideas of Gregory Bateson, the other to the issues of social constructionism, feminism, and postmodernism.

- Four courses that explore the theoretical and clinical applications of the notions discussed in the philosophy courses. Particular attention is paid to brief interactional therapies, such as MRI and solution-focused approaches, Ericksonian hypnotherapy, the work of the Milan Associates, and a variety of reflecting-team formats.

- Two years of continuous enrollment in clinical practica at Family Therapy Associates. Each semester, teams of five or six students meet weekly with a faculty member for six hours of live supervision of cases at one of our two off-campus clinics.

- Four classes in qualitative research, where students are taught the theory and practice of research, including the logic of research design, the art of ethnographic interviewing and participant observation, and a variety of means for analyzing and organizing data.

- One course in the supervision and teaching of family therapy. This class, which fulfills the didactic instruction component for AAMFT-approved supervisor status, may be followed by either a supervision and/or a teaching practicum.

Students have the opportunity to take electives in various specialties, such as medical family therapy and dispute resolution, one of which may be included as part of the curriculum. Other electives include courses that help students fulfill many of the academic requirements for licensure in Florida (and other states) as a Marriage and Family Therapist. During the program, students may also fulfill the academic requirements for becoming a Clinical Member and Approved Supervisor in the American Association for Marriage and Family Therapy. The program's supervision class has been approved by the Commission on Supervision of the AAMFT. Students who wish further training in the supervision and teaching of systemic therapies may apply to the faculty for permission to take supervision and/or teaching practica. If approved, students may supervise beginning clinicians and/or may assist in instructing master's students in the school.

Before beginning their second year, students go through the Preliminary Examination process, during which the faculty assess evaluations of written class assignments and practicum evaluations. At the beginning of July of their second year, students submit their Qualifying Examination, a publishable-quality paper that makes an original contribution to the field of family therapy. The following are students who have had their papers published in leading family therapy journals:

Once students have passed their Qualifying Examination, they are eligible to begin the dissertation process. Students proceed to hone their area of interest and to conduct their research and analyze the results. The final defense presents the completed study to the members of the committee and interested members of the academic community.

Students must enroll full time in the program, taking 9 to 15 credit hours per semester. Those who take 9 hours per term can expect to complete the program in approximately four years. It is possible for students who take 12 or more hours per term to graduate in three years. All students must be continuously enrolled, taking classes in fall, winter, and summer semesters. Students enrolled only in dissertation may take a minimum of 2 credits per semester and be considered full-time.

Interested applicants should complete their application to the program during the winter preceding their desired fall start date. Detailed information on applications and admissions may be found on page 50 of this catalog. The faculty carefully consider a number of factors when choosing applicants for the Ph.D. program: knowledge of systemic theory as it relates to various approaches of family therapy, strong writing skills, clinical experience, interpersonal style, and grades earned in previous undergraduate/graduate programs.

Students accepted for the fall who do not possess a strong background in systemic approaches to family therapy take their first orientation class in the summer prior to their regular start of classes. Applicants accepted for fall admission who are interested in taking classes prior to the commencement of their programs may obtain permission to take electives as postgraduate students.

Detailed information on all aspects of this program may be found in the Student Handbook.
Ph.D. in Family Therapy Curriculum

Orientation
Courses: 
(13 credits)
Introduction to Systemic Family Therapy (SFTD 5005)
Introduction to Systems Theories (SFTD 5006)
Research in Marital and Family Therapy (SFTD 5007)
Legal, Ethical, and Professional Issues (SFTD 5300)
Doctoral Seminar (SFTD 5000)

Systemic Family Therapies:
(12 credits)
Systemic Family Therapy I (SFTD 5010)
Systemic Family Therapy II (SFTD 5020)
Systemic Family Therapy III (SFTD 5030)
Systemic Family Therapy IV (SFTD 5040)

Systems Studies:
(6 credits)
Language Systems (SFTD 5110)
Thinking Systems (SFTD 5120)

Clinical Practica:
(18 credits)
Clinical Practicum I (SFTD 5210)
Clinical Practicum II (SFTD 5220)
Clinical Practicum III (SFTD 6210)
Clinical Practicum IV (SFTD 6220)
Clinical Practicum V (SFTD 6230)
Clinical Practicum VI (SFTD 6240)

Supervision and Teaching:
(9 credits)
Supervision and Teaching (SFTD 6310)
Supervision Practicum (SFTD 6320)
Teaching Practicum (SFTD 7360)

Research Methods:
(12 credits)
Logic and Methods of Research (SFTD 5410)
Data Gathering and Organization (SFTD 6410)
Data Analysis (SFTD 6430)
Assessing and Presenting Research (SFTD 7350)

Dissertation:
(12 credits)
Dissertation (SFTD 6900)

Students choose a total of 9 credits from the following electives:

Professional Electives:
Diversity in Human and Family Development (SFTD 6520)
Assessment in Marital and Family Therapy (SFTD 7301)
Personality Theories and Psychopathology (SFTD 7302)
Human Sexuality and Gender (SFTD 7311)
Individual and Group Psychotherapy (SFTD 7313)

Specialty Electives:
Academic Writing (SFTD 6510)
Other approved courses, including specialization courses.

Advanced Electives:
Advanced Topics in Systemic Studies (SFTD 6530)
Advanced Topics in Systemic Family Therapies (SFTD 6540)
Course Descriptions
(All courses are 3 credit hours unless otherwise specified)

SFTD 5000 - Doctoral Seminar
General orientation to doctoral study. Students learn research, writing, and library skills necessary for authoring papers in doctoral courses. This course is required for the first term and may be repeated in future terms. 1 credit hour. Offered in fall.

SFTD 5005 - Introduction to Systemic Family Therapy
Orients the incoming student to the core ideas and essential clinical skills of the various systemic approaches to family therapy taught in the SSSS Family Therapy Program. Offered in summer.

SFTD 5006 - Introduction to Systems Theories
Overview of theories that use metaphors of system, pattern, interaction, and communication to describe human behavior and relationships. Study of the emergence of theories from cybernetics to language studies. Offered in fall.

SFTD 5007 - Research in Marital and Family Therapy
Reviews quantitative and qualitative methods of inquiry, as exemplified in recent marital and family therapy research studies. Focuses on teaching students to be intelligent, critical consumers of research in the field. Offered in winter.

SFTD 5010 - Systemic Family Therapy I
Acquaints students with the basic concepts of the natural systems approach to family therapy. Emphasizes family-of-origin issues, multigenerational systems processes, and biological/evolutionary contributions to the understanding of human systems. Prerequisite: Introduction to Marital and Family Therapy (SFTD 5005) or equivalent. Offered in fall.

SFTD 5020 - Systemic Family Therapy II
Study of those systemic therapies informed by cybernetics and oriented to the social organization of communication. Emphasizes the ideas of Gregory Bateson. Prerequisite: Systemic Family Therapy I (SFTD 5010). Offered in winter.

SFTD 5030 - Systemic Family Therapy III
Study of those systemic therapies oriented to the meaning expressed in communication, emphasizing the work of the Milan team and current developments such as narrative therapies and the reflecting team. Prerequisite: Systemic Family Therapy II (SFTD 5020). Offered in winter.

SFTD 5040 - Systemic Family Therapy IV
Study of the complexities and subtleties of language and the art of therapeutic implication. Discusses the relationships between hypnosis and brief therapy; draws on the work of Milton Erickson as a primary resource. Prerequisite: Systemic Family Therapy III (SFTD 5030). Offered in winter.

SFTD 5110 - Language Systems
Locates the practice of therapy within cultural, philosophical, and scientific domains. Uses notions about the relational nature of language as a means of examining, critiquing, and explicating therapeutic practice. Systems Theories (SFTD 5006) or equivalent. Offered in winter.

SFTD 5120 - Thinking Systems
Study of systemic theory, particularly the ideas of relationship, difference, and context. Emphasizes the ideas of Gregory Bateson. Prerequisite: Introduction to Systems Theories (SFTD 5006) or equivalent. Offered in fall.
SFTD 5210 - Clinical Practicum I
Supervised clinical work in systemic therapy. (To be taken concurrently with SFTD 5010.) Offered in fall.

SFTD 5220 - Clinical Practicum II
Supervised clinical work in systemic therapy. (To be taken concurrently with SFTD 5020.) Prerequisite: Clinical Practicum I (SFTD 5210). Offered in winter.

SFTD 5300 - Legal, Ethical, and Professional Issues
Explanation of accreditation and licensure organizations and the ethical codes they promote in family therapy and related fields; review of therapists' legal responsibilities and liabilities in mental health and family law, insurance claims, and private practice management; overview of professional opportunities in public service and training programs. Offered in fall.

SFTD 5410 - Logic and Methods of Research
Introduces key distinctions from philosophers of science and discusses the characteristics of, and differences between, qualitative and quantitative research designs, in terms of their respective logic and methods. Surveys the extant research directions in family therapy. Prerequisite: Research in Marital and Family Therapy (SFTD 5007) or equivalent. Offered in fall.

SFTD 6210 - Clinical Practicum III
Supervised clinical work in systemic therapy. Prerequisite: Clinical Practicum II (SFTD 5220). Offered in summer.

SFTD 6220 - Clinical Practicum IV
Supervised clinical work in systemic therapy. (To be taken concurrently with SFTD 5030.) Prerequisites: Clinical Practicum III (SFTD 6210) and Legal, Ethical, and Professional Issues (SFTD 5300). Offered in fall.

SFTD 6230 - Clinical Practicum V
Supervised clinical work in systemic therapy. (To be taken concurrently with SFTD 5040.) Prerequisite: Clinical Practicum IV (SFTD 6220). Offered in winter.

SFTD 6240 - Clinical Practicum VI
Supervised clinical work in systemic therapy. Prerequisite: Clinical Practicum V (SFTD 6230). Offered in summer.

SFTD 6310 - Supervision and Teaching
Introduction to supervision and instruction in systemic therapies. Review of supervision and teaching literature and didactic training in live supervision, case consultation, and instruction. Prerequisites: Clinical Practicum II (SFTD 5220) and instructor permission. Offered in summer.

SFTD 6320 - Supervision Practicum
Extensive live supervision and case consultation experience with clinicians in learning systemic therapies. Students receive supervision of their supervision of others. Students may repeat the course for credit. Prerequisite: Supervision and Teaching (SFTD 6310) and faculty approval. Offered in fall.

SFTD 6410 - Data Gathering and Organization
Focuses on the use of the investigator as the research instrument of choice. Participant observation and interviewing strategies are discussed. Introduces methods for transcribing and organizing interviews and field notes. Exemplary studies from other disciplines are used; however, studies from the family therapy literature, when available, are offered. Prerequisite: Logic and Methods of Research (SFTD 5410). Offered in winter.
SFTD 6430 - Data Analysis
Explores how data are transformed and categorized during description, explanation, and interpretation. Introduces a variety of inductive, deductive, and abductive methods for categorizing meaning and interactive processes. Exemplary studies from other disciplines are used; however, studies from the family therapy literature, when available, are offered. Prerequisite: Data Gathering and Organization (SFTD 6410). Offered in summer.

SFTD 6510 - Academic Writing
A seminar on how to write well. Offered in summer.

SFTD 6520 - Diversity in Human and Family Development
Reviews human development in the context of family transitions such as childbirth, childhood, adolescence, courtship, marriage, maturity, old age, and death. Focuses on the diversity of psychosocial development across ethnicity, class, gender, and culture. Discussion of implications for interactional therapies. Offered in fall.

SFTD 6530 - Advanced Topics in Systemic Studies
An advanced examination of the application of systemic understanding to a variety of topics. (May be repeated for credit.)

SFTD 6540 - Advanced Topics in Systemic Family Therapy
Advanced topics relevant to the field of systemic family therapy. (May be repeated for credit.)

SFTD 6900 - Dissertation
The development, writing, and defense of the dissertation. When approved, students register for at least 2 credits per term for a minimum of 12 credits. Prerequisites: Systemic Family Therapy IV (SFTD 5040), Thinking Systems (SFTD 5120), Language Systems (SFTD 5110), Research Strategies IV (SFTD 5420), Clinical Practicum VI (SFTD 6240), successful completion of the qualifying examination, and Dissertation Committee approval.

SFTD 7301 - Assessment in Marital and Family Therapy
Overview of methods and instruments used to define problems and indicate solutions. Comparative study of interactional approaches and individual and family dysfunction assessments. Offered in summer.

SFTD 7302 - Personality Theories and Psychopathology
Review of major theories of personality theory and psychopathology, emphasizing psychiatric diagnostic classification systems. Study of implications for treatment and comparisons with interactional approaches. Offered in summer.

SFTD 7311 - Human Sexuality and Gender
Review of the psychosocial development of sexuality and gender from childhood through old age. Summary of clinical approaches to sexual and gender problems comparing interactional approaches with psychodynamic and behavioral models. Offered in summer.

SFTD 7313 - Individual and Group Psychotherapy
Review of major theories of psychotherapy, emphasizing psychodynamic, behavioral, humanistic, and cognitive approaches. Exploration of individual and group techniques from each approach. Investigation of theories of personality upon which the psychotherapies are based. Comparison of these ideas with interactional theories. Offered in winter.
SFTD 7350 - Assessing and Presenting Research
Brings together and integrates material from the three previous research classes. Deals with the ethics of research, as well as with questions of reliability and validity in both quantitative and qualitative methods. Emphasis is placed on the problems of coherently and succinctly presenting research results in proposals, posters, brief reports, and articles. Exemplary studies from other disciplines are used; however, studies from the family therapy literature, when available, are offered. Prerequisite: Data Analysis (SFTD 6430). Offered in fall.

SFTD 7360 - Teaching Practicum
Supervised teaching experience in undergraduate or graduate instruction in family therapy or related field. May be repeated for credit. Prerequisites: Supervision and Teaching (SFTD 6310) and faculty approval.
Certificate in Systemic Family Therapy

For students with graduate degrees in family therapy and related fields, the Department of Family Therapy offers programs for initial training, advanced practice, and specialization in systemic and family therapies. The department offers an organized, integrated sequence of postgraduate study in the Systemic Family Therapy Certificate Program. Qualified applicants may register for single courses or sequences of classes to achieve professional development goals or to fulfill the requirements of state licensing boards and national professional associations. Postgraduate studies are highly individualized and each student crafts a course plan in consultation with faculty and staff.

The Systemic Family Therapy Certificate Program is a series of four foundational courses and at least four electives that lead to a certificate in systemic family therapy. The certificate program prepares clinicians in the fundamentals of systemic therapies and provides opportunities for intensive clinical training and specialization. The foundational courses begin with introductory courses in systems theories and therapies, continue with a survey of the range of family therapy theories, and end with a course on the application of systemic theories to clinical practice. In addition to the foundational courses, students select at least four additional courses. The additional courses may be drawn from master’s-level courses in ethics, assessment, human development, and practicum. With approval, qualified students may register for doctoral-level supervision training. The following courses serve as a base of study (course descriptions may be found in the M.S. in Family Therapy section):

<table>
<thead>
<tr>
<th>Foundational Courses</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Introduction to Marital and Family Therapy (SFTM 5320)</td>
<td></td>
</tr>
<tr>
<td>Introduction to Systems Theories (SFTM 5310)</td>
<td></td>
</tr>
<tr>
<td>Theories of Marital and Family Therapy (SFTM 5321)</td>
<td></td>
</tr>
<tr>
<td>Clinical Practice in Marital and Family Therapy (SFTM 5322)</td>
<td></td>
</tr>
</tbody>
</table>

The above courses provide a broad study of systems concepts in clinical practice. The Introduction to Marital and Family Therapy orients students to the fundamentals of problem-focused and solution-focused therapies. Students then study systems and cybernetic ideas in Introduction to Systems Theories. In Theories of Marital and Family Therapy, students survey the range of transgenerational, symbolic-experiential, structural, strategic, Milan, narrative, and reflecting team therapies. Clinical Practice in Marital and Family Therapy enables students to apply systems therapies to various dilemmas, such as divorce, school problems, family violence, substance abuse, and medical illness. With these courses, students are prepared to begin utilizing systems ideas in practica and clinical specializations.
Medical Family Therapy Specialization

The Medical Family Therapy Program focuses on the relationships between psychosocial medicine and biomedicine in the treatment and prevention of illness and disease. In their course work, mental health students and professionals are taught the basics of biopsychosocial theory, practice, and collaboration. The program prepares professionals to offer medical family therapy in a variety of settings, including private practices, hospitals, community clinics, and primary care/specialists’ offices.

Students in the specialization program have ample opportunities to gain practical expertise through classroom learning and hands-on clinical, research, teaching, and service experiences. Specific areas of study include: adjustment patterns of patients and their families to chronic and acute illnesses; models of collaboration between medical family therapists and other health care professionals; the role of medical family therapists in the continuum of medical services; research relevant to family systems medicine; and brief interventions and systemic assessments useful in the treatment and care of patients and their families. Additionally, the program emphasizes professional development by assisting students in strengthening their personal qualities necessary for successful participation in the medical milieu.

The student’s growth as a reflective practitioner is encouraged through clinical research in doctor/patient/therapist/family communication; adjustments to acute, chronic, or terminal illness; social effects and ethical dilemmas of new medical technologies; and other issues that transcend historical distinctions between physical treatment and psychosocial interventions. Program faculty and students cooperate to publish research findings and clinical experiences. Also, faculty and students of the program contribute to the growth of medical family therapy by supporting and participating in groups like the Working Group for Family Therapists Practicing in Medical Settings and the Collaborative Family Health Care Coalition.

The Medical Family Therapy Specialization consists of 12 credit hours of course work and 6 credit hours of practica. The medical family therapy specialization is an advanced course of study for family therapists, social workers, counselors, psychologists, and other mental health professionals and graduate students. Applicants for the specialization program should have a graduate or terminal degree in their field, or may be current students in professional training programs. Those applicants who have not completed the family therapy orientation courses, or their equivalent, would be required to do so.

Medical Family Therapy Specialization Curriculum

Specialist Courses:

FSHC 5000 - Medical Family Therapy I
FSHC 5010 - Medical Family Therapy II
SFTM 6361 - Practicum I in Medical Family Therapy
SFTM 6362 - Practicum II in Medical Family Therapy
FSHC 5200 - Research in Medical Family Therapy
FSHC 5300 - Health Care Concepts
Orientation Courses:

SFTM 5320 - Introduction to Marital and Family Therapy
SFTM 5321 - Theories of Marital and Family Therapy
SFTM 5322 - Clinical Practice in Marital and Family Therapy
SFTM 6340 - Legal, Ethical, and Professional Issues

Course Descriptions

(All courses are 3 credit hours unless otherwise specified)

FSHC 5000 - Medical Family Therapy I
An orientation to the field of family systems health care that focuses on the collaboration between family therapists, health care providers, patients, and their families. An in-depth study of clinical skills that translate well within health care settings will be presented. A case study method will be used to examine the impact of language, culture, and specific chronic, debilitating, and terminal diseases upon the experience of illness. Offered in winter.

FSHC 5010 - Medical Family Therapy II
Personal beliefs and philosophies regarding dying, loss, and death will be explored. Bereavement across the life cycle, including developmental issues relating to children's understanding of loss, will be reviewed. The manner in which other cultures create meaningful rituals for life and death will be presented. This course is open to students throughout the department. Offered in summer.

SFTM 6361 - Practicum I in Medical Family Therapy
Clinical seminar on transdisciplinary practice of family therapy and health care with field placements in hospitals, medical schools, community clinics, and specialist offices. Practicum lasts for one semester. 
Prerequisites: FSHC 5000 and FSHC 5010. Offered in fall.

SFTM 6362 - Practicum II in Medical Family Therapy
A continuation of Practicum I with a focus on advancing and refining clinical collaborative skills. Prerequisite: SFTM 6361. Offered in winter.

FSHC 5300 - Health Care Concepts
This course is an introduction to health care delivery systems through an investigation of medical models, terminology, and approaches used by physicians, medical specialists, and other health care professionals to diagnose and treat disease and to care for the human condition. Students will be oriented to health care systems and settings including hospitals, clinics, hospices, and private practices. Offered in fall.

FSHC 5200 - Research in Family Systems Health Care
Application of qualitative research methods in the clinical study of family systems health care. Students will each complete a specific research project. Prerequisite: FSHC 5010. Offered in winter.
The Department of Dispute Resolution
The Department of Dispute Resolution

The Department of Dispute Resolution is committed to the study, practice, and research of conflict resolution as a process for achieving improved societal relations among individuals and organizations. The goal of the department is to explore and promote alternative methods for the resolution of disputes, wherein parties achieve consensual agreements that are based on the principles of nonviolence, equity, dignity and the appreciation of human diversity. To that end, the department serves as an academic catalyst for applied research, theory development in mediation practice and other dispute resolution approaches, and the application of culturally-informed techniques to the cross-cultural application of conflict assessment and intervention.

Nova Southeastern University has developed a strong national reputation for offering innovative academic programs to meet the needs of students and professionals in emerging fields of study. The graduate programs in dispute resolution offer an eclectic approach to the study of conflict resolution. Instructors draw upon the fields of sociology, education, business, law, anthropology, family therapy, social work, and psychology in presenting course offerings. Students obtain the advanced skills and techniques necessary for the practice of dispute resolution and develop opportunities for rewarding careers in corporate and community dispute settlement, human resources, private and public education, court-related mediation, public policy development, and private practice. The Department is committed to maintaining a balance in its teaching and training, so that students and faculty work collaboratively within the local community and on both statewide and international issues as appropriate and available.

The Graduate Certificate in Dispute Resolution comprises a series of eight courses that offer students the fundamentals of conflict resolution and practical training in a series of supervised practicum settings. The Master's Program is designed to produce an educated, reflective professional skilled in the practice, design, and evaluation of a variety of ADR applications. The Doctoral Program focuses on training ADR professionals who, in addition to practice, are skilled in the areas of applied research, policy and program development, and the theoretical foundations of the field.

The Department of Dispute Resolution provides dynamic and effective pedagogical approaches to the study of alternative dispute resolution. The learning environment is interdisciplinary and innovative, utilizing the expertise of university faculty members and practicing professionals, knowledgeable in conflict resolution skills and techniques, and the latest computer technology.

The Department seeks qualified applicants from either gender, and all races, classes, cultures, age groups, and nationalities. Applicants should have, at a minimum, a bachelor's degree, for admission to the master's program, or a master's degree, for admission to the doctoral program, from a regionally accredited college or university, or the foreign equivalent. Further admissions requirements may be found on page 50 of this catalog. Students may apply for admission to the M.S., graduate certificate, and Ph.D. programs for the fall semester only.

Students in the graduate certificate or M.S. programs may enroll either full time or part time. Ph.D. students must enroll full time. Full-time students take 9 or more credit hours each semester and part-time students take at least 6 credit hours a semester. Full-time students can expect to complete the M.S. program in two years or the certificate program in one year. Part-time students can complete the M.S. program in three years and the certificate program in one and one-half years. Students are expected to take classes during the fall, winter, and summer semesters. Most classes are offered evenings and weekends.
The M.S. in Dispute Resolution

The M.S. in Dispute Resolution is designed for the serious graduate student seeking intensive study in the practice of conflict resolution in a variety of fields. The degree program focuses on pragmatic approaches to solving problems inherent in human relationships. Students are exposed to a wide array of techniques and strategies for helping others to achieve nonviolent, nonlitigious solutions for conflicts that arise in many personal and professional environments. The course of study requires no prior practice or research in the field, and includes a strong emphasis on practice with practicum experiences in various supervised settings.

Criteria for acceptance into the master's program include high level undergraduate academic performance in a related field or relevant current working experience. Potential master's students should have a practical, applied interest in using their skills and theory in a particular type of training or practice after graduation. Applicants should also possess the ability to think clearly in stressful interactions, display or develop tolerant, non-judgmental attitudes toward different types of people, and the ability to combine tactical decision-making skills with compassion and fairness. Further admissions information may be found on page 50 of this catalog.

The M.S. degree program consists of a 15-course (45 credits) sequence that includes alternative dispute resolution theory, practice skills from a variety of fields, research design, and program evaluation. In the last semester of their degree program, all M.S. students complete a comprehensive examination. The written examination is a series of questions that cover all courses and practica, and serves as a time of reflection and integration prior to graduation. Detailed information on all aspects of this program may be found in the Student Handbook.

The Graduate Certificate in Dispute Resolution

The graduate certificate in Dispute Resolution is a one-year program that offers students the fundamentals of conflict intervention assessment and practice. It is intended to meet the needs of those individuals who seek introductory graduate training in Alternative Dispute Resolution (ADR). It may also be appropriate for professionals who have already earned a graduate degree in their professional field, but who would benefit from an academic study of the application of ADR to their profession.

The certificate consists of an eight-course sequence (24 credits), which includes ADR theory, practice, and research. Students who decide to continue their studies in ADR may apply these credit hours toward the department’s M.S. in Dispute Resolution Program.

Graduate Certificate Curriculum

Theoretical Foundations:
Introduction to Alternative Dispute Resolution and Ethical Practice (ADRM 5000)
Legal Concepts (ADRM 5010)
Communication Dynamics in Dispute Resolution: Understanding the Human Factor (ADRM 5040)

ADR Practice and Applications:
Family Mediation (ADRM 5100) or
Civil and Commercial Mediation (ADRM 5110)
Culture and Conflict: Cross-Cultural Perspectives (ADRM 6120)
Violence Prevention and Intervention (ADRM 6170)

Supervised Practice:
ADR Practicum I: Laboratory Simulation (ADRM 5130)
M.S. and Certificate Course Descriptions
(All courses are 3 credit hours unless otherwise specified)

ADRM 5000 - Introduction to Alternative Dispute Resolution and Ethical Practice
A survey of the history of and philosophical foundations of healing, peacemaking, problem solving and dispute resolution. Students will explore personal issues related to hostility and conflict and gain basic insights into the specific skills and techniques applicable in the ADR field. Offered in fall and winter.

ADRM 5010 - Legal Concepts
A basic introduction to legal concepts, rules, research methods, and practice in the U.S. This course focuses primarily on the operation of the legal system, an important system of dispute resolution in our society. Also discussed is how legal concepts and processes relate to other dispute resolution processes. Offered in fall.

ADRM 5040 - Communication Dynamics in Dispute Resolution: Understanding The Human Factor
An in-depth study of communication skills and techniques used in dispute resolution sessions. Students are introduced to a variety of interpersonal communication and interviewing models. Attention will be focused on guiding students to understanding the range of human emotions encountered in these sessions and the effect of these emotions on reaching accord. Offered in fall.

ADRM 5100 - Family Mediation
Examines mediation techniques used to settle divorce, custody, parent-child, and other disputes involving family members. May be substituted for ADRM 5110. Offered in winter.

ADRM 5110 - Civil and Commercial Mediation
Examines civil and commercial mediation techniques used to settle nondomestic cases involving such issues as personal injury, medical malpractice, contracts, construction, real estate, and product liability. May be substituted for ADRM 5100. Offered in winter.

ADRM 5130 - ADR Practicum I: Laboratory Simulation
Provides an introduction to a variety of skills, procedures, and settings in which disputes are handled in society. Includes exercises aimed at developing skills in ethical decision-making, assessment, intake, and mediation processes. Prerequisites: ADRM 5000, 5100 or 5110, and 6120. Offered in summer.

ADRM 5140 - Negotiation Theory and Practice
This course examines conflict intervention from the perspective of the disputant/negotiator. The integration of theory and practice will emphasize the tactics, strategies, and operations of effective and ineffective bargaining behavior. The course develops negotiator skills and knowledge leading to collaborative based behavior and solutions. This is complimented by facilitation/mediation research, which aids the intervener in moving the process toward integrative or "win-win" outcomes. Prerequisite: ADRM 5000. Offered in fall.

ADRM 5200 - Research Design and Program Evaluation
Focuses on the development of basic research skills appropriate for dispute resolution practitioners, including basic research tools, how to read and evaluate social science research, current research in the ADR field, and an introduction to program evaluation through analysis of published work. Offered in winter.

ADRM 6000 - Consultation
An examination of consultation as used by ADR professionals through the exploration of various consultation models: process, third-party, expert, and systemic approaches to program and organizational evaluation. Students are oriented to the ways in which consultants establish, market, and expand their professional practices. Prerequisite: ADRM 5000. Offered in summer.

25
ADRM 6120 - Culture and Conflict: Cross-Cultural Perspectives
Examines the nature and meaning of conflict, conflict management techniques, and the assessment of conflict situations from a cross-cultural perspective. Explores various models for training intervenors to function effectively in disputes where cultural differences are a significant factor; addresses various theoretical and practical implications of indigenous conflict management techniques and beliefs found within different cultural settings. Prerequisite or corequisite: ADRM 5000. Offered in winter.

ADRM 6130 - ADR Practicum II: Supervised Observation and Practice
Provides the opportunity for observation of ADR specialists in a variety of supervised settings and initial observation and/or practice opportunities with close supervision. Prerequisite: ADRM 5130. Offered in fall.

ADRM 6140 - Collaborative Problem Solving and Group Facilitation
A study of the theories and methodologies relevant to resolving shared problems. Students will examine the application of these skills to governmental, organizational, and personal relationships. Specific attention is paid to the development of group facilitation skills for use in meetings and when intervening in multiparty disputes. Prerequisite: ADRM 5000. Offered in summer.

ADRM 6160 - ADR Practicum III: Supervised Practice Internship
Provides supervised but more independent opportunities to co-mediate and provide direct intervention and service delivery in the field placement setting under the supervision of in-house personnel and with faculty overview. Prerequisite: ADR 5130, 6130. Offered in winter.

ADRM 6170 - Violence Prevention and Intervention
This course examines various theories of human aggression and violence, exploring their underlying assumptions about human nature and the causes of violence. Also included is an introduction to a range of violence intervention and prevention approaches developed for use at the interpersonal, intergroup, and societal level. Prerequisite: ADRM 5000. Offered in winter.

ADRM 6300 - Master Thesis
This course is taken over a two-semester period in lieu of the two electives required for completion of the degree program. The thesis may be an extended literature review of an approved subject, an approved independent research project, or a combination of the two (for further information, including prerequisites, see student handbook). 6 credits. Offered in summer and fall.

ADRM 6601 - International Conflict Resolution
This course reviews international conflict resolution in many settings and includes informal mediation by private intervenors and scholar-practitioners, formal mediation by individual, regional, transnational and international organizations; it also looks at mediation within small and large states. Offered occasionally.

ADRM 6602 - Resolving Environmental and Public Disputes
This course focuses on the theoretical bases, practical applications, process orientations, and actual intervention into complex multi-party, multi-issue public disputes. Special consideration is given to social/environmental systems interactions and non obvious sources of political and economic conflict over human health, environmental protection, and natural resource scarcity. Offered occasionally.
The Ph.D. in Dispute Resolution

The mission of the doctoral program is to advance the study and practice of dispute resolution by mentoring and developing practitioners trained in practice, research, theory, and informed leadership in the field. Students accepted into the program are provided the opportunity to pursue a substantive area of study in dispute resolution while drawing from a variety of theoretical perspectives and the knowledge of an experienced interdisciplinary faculty. The 82-credit-hour degree program is designed to prepare graduate students for careers as advanced practitioners, college and university educators, researchers, theoreticians, consultants and program evaluators, and program administrators.

In addition to a range of theoretical and practical dispute resolution foundation courses, the program features multiple practica in which students have the opportunity to apply classroom theory and models to real life disputes in supervised laboratory simulations and a variety of conflict resolution settings. The program also includes a pragmatic and supportive approach to conducting research and completing the doctoral dissertation.

Applicants chosen for admission to the Ph.D. program not only demonstrate prior academic excellence in their graduate work, but also have the ability to think and write analytically and are eager to explore the theory and philosophy of disputing, justice, equity and nonviolence. Doctoral applicants should also have some practice, teaching, or training experience in an ADR related activity, strong written and verbal communication skills, some research or evaluation experience, and a demonstrated commitment to the focused pursuit of a four to five year doctoral degree program. Detailed information on admissions may be found on page 50 of this catalog.

The focus of the Ph.D. training, while committed to improving skills for reflective practice in negotiation, mediation, arbitration, ombudsing or related fields, requires students to understand and master qualitative and quantitative research knowledge and analysis, develop professional leadership skills for the future, and produce written publications of quality and substance.

All entering students are offered the opportunity to take a three-day orientation program, which includes writing and computer skills seminars, prior to the first fall semester. Attendance in strongly encouraged since this is an opportunity to begin to explore the technological opportunities available through the department and university, and refresh writing skills at the expected graduate level.

Students are admitted for entrance in the Fall semester only, and must take a full time program of 9 credit hours, or three courses, per semester. Interested applicants can apply for application deadlines of January 1 (for early admissions) or March 1 (for regular admissions) of the year in which they will matriculate. Admission decisions are made no later than June 1, although a waiting list may be used to fill available slots as late as July. Each prospective Ph.D. student will be interviewed by a committee of at least three full-time faculty members; if a personal interview is not possible, phone interviews will be arranged.

All other specific policies for the Ph.D. program may be found in the student handbook compiled for this program.

ADRD 7000 - Doctoral Seminar

Provides a general orientation to doctoral study. Students explore research, writing, and library skills necessary for authoring papers in doctoral courses and designing a doctoral dissertation. This course is required in the first semester of the first year for students with Master’s in dispute resolution and in the first semester of the second year for students with a Master’s in another discipline. 1 credit. Offered in winter.

ADRD 7010 - Philosophical and Social Issues in ADR

A review of philosophical and social contexts and issues relevant to the understanding and practice of ADR. The nature of peace, conflict, neutrality, third party involvement, race, gender, and power are discussed. Offered in summer.

ADRD 7020 - Dispute Resolution Systems Design: History and Contemporary Practice

An introduction to the basic concepts of dispute resolution systems design. Includes an exploration of the influence of organizational culture and prevailing social and cultural norms on the design and implementation of ADR systems. Examines dispute resolution systems for neighborhoods, religious organizations, ethnic groups, business associations, and other settings that have relatively clear boundaries and shared norms. Offered in summer.
ADRD 7030 - Comparative Legal and Conflict Resolution Systems
Offers a cross-cultural and historical study of diversity in the meaning of conflict and conflict management in relation to various types of family and social organization. Provides an in-depth review and analysis of alternatives to common law and western legal systems, including Muslim law (Egypt), traditional African law (Botswana), socialist legal systems (China) and various traditional and modern forms of arbitration, mediation, and conciliation. Offered in winter.

ADRD 7100 - Theories of Conflict and Conflict Resolution
A foundation course examining macro and micro theories from sociology, psychology, and other disciplines about the nature of conflict and various approaches to conflict resolution. Offered in fall.

ADRD 7110 - Qualitative Research I: Data Collection
Provides an introduction to a range of qualitative data collection methods with particular focus on techniques used in research on conflict and conflict resolution, including participant observation, content analysis, behavioral mapping, and nonintrusive measures, as well as a review of relevant research literature in the field. Students will perform various data collection tasks for use in Qualitative Research II. Offered in fall.

ADRD 7120 - Qualitative Research II: Data Analysis
Provides an in-depth look at additional methods used to analyze qualitative research data, including content and discourse analysis, the case study, descriptive ethnography, archival measures, and community studies. Introduction to several computer programs designed to assist researchers with analysis of qualitative data. This course allows students to use the data collected during ADRD 7100 as a basis for their analysis. Prerequisite: ADRD 7100. Offered in fall.

ADRD 7090 - Quantitative Research I: Methods and Tools
Covers a range of quantitative research methods including questionnaires, interviews and surveys, sampling, attitude and rating scales, tests of statistical significance, experiments and the basics of descriptive statistics and uni-variate analysis. Offered in winter.

ADRD 7100 - Quantitative Research II: Analysis and Statistics
Building on ADRD 7120, this course explores various methods of analyzing and presenting quantitative research data. Includes common concepts and techniques for analyzing results of survey and experimental research projects: computer statistical programs and an in-house database, bi-variate and multi-variate analysis, index and scale development, and more-advanced techniques such as regression analysis. Prerequisite: Quantitative Research I (ADRD 7120). Offered in summer.

ADRD 7200 - Communication Patterns in Dispute Resolution
A study of language and discourse systems, linguistic analysis, theories, and practices in conflict resolution. Includes overview of various systems theories. Offered in winter.

ADRD 7250 - Policy Research and Development
Analysis of current policy issues in the ADR field with an emphasis on the design, implementation and evaluation and analysis of legislation, state and local policy initiatives in Florida, the United States and abroad. Offered in winter.

ADRD 7500 - Teaching and Training in ADR
An introduction to teaching and training in ADR. Reviews instructional models and teaching literature with an emphasis on teaching the adult learner. Offered in summer.
ADRD 7510 - Teaching and Training in ADR Practicum
Provides an opportunity for supervised teaching and training experience in graduate, undergraduate, continuing education, video and curriculum development, seminar, and/or workshop instruction in ADR or related field. 
Prerequisite: Teaching and Training in ADR (ADRD 7010). Offered in fall.

ADRD 7900 - Dissertation
Focuses on the development, writing, and defense of the dissertation. When approved, students register for at least 3 credits per semester for a minimum of 12 credits. Prerequisites: successful completion of the qualifying examination and the approval of the Dissertation Committee.
Clinical and Community Outreach Center
Clinical and Community Outreach Center

The School of Social and Systemic Studies operates the Clinical and Community Outreach Center, a community-based clinical facility serving the residents of Broward County. The Center includes Family Therapy Associates (FTA), which offers both in-clinic and in-home family therapy throughout the county, and the Conflict Resolution Resource Service (CRRS), which offers the campus and external community mediation and other conflict resolution services. The School also provides interdisciplinary programs combining the skills of therapy and mediation.

Family Therapy Associates

Family Therapy Associates (FTA) is committed to offering professional therapeutic assistance to couples and families in South Florida. Utilizing people’s own natural resources, we provide practical and, often, brief ways to solve dilemmas and problems. The therapeutic staff is trained in brief, short-term methods of problem solving. The goal of the therapists is to effectively assist families with their concerns within 10-12 sessions.

Nova Southeastern University faculty and clinicians with master’s- and doctoral-level training are committed to providing the finest therapeutic services to families. In our first five years, FTA has developed several unique programs to meet the special needs of our community:

Home-based Counseling
In this program, a family therapist travels to the home of the family or the therapist and family meet at an agreed upon location for family sessions. The therapist joins with the family in its own environment to more fully understand difficult and complex family situations and problems.

Getting A Second Chance
Youth who commit crimes on school property are given the opportunity to choose family therapy as an alternative to adjudication. This program emphasizes setting consequences for behavior, returning to school, and improving family involvement in the child’s life.

Therapy in Education: Alternative for Middle School Crises
Our therapists serve as liaisons in middle schools to mediate solutions for adolescents in trouble. We directly address the complex interaction among the school, family, and adolescent to resolve disputes and difficulties.

Project Genesis
Adolescents waiting in the Broward County Jail for adjudication as adults can participate in family therapy as one aspect of their rehabilitation. Therapists help these adolescents by addressing their need for education, drug prevention, and family involvement.

Court-Mandated Couples Program
This program assists families and couples trying to cope with the struggles of divorce or separation. Family therapists help them to better manage concerns about shared parental responsibility, visitation, and settlement.
The Conflict Resolution Resource Service

Drawing upon the expertise of the faculty and graduate students in the M.S. and Ph.D. programs in NSU's Department of Dispute Resolution, a unique conflict resolution service has been developed for members of the Nova Southeastern community, both on and off campus. Acknowledging that conflict is an integral part of life and can have value if handled effectively, the Conflict Resolution Resource Service (CRRS) provides direct assistance in creatively and nonviolently resolving interpersonal or intergroup conflicts.

One of the major tasks of the CRRS is to provide NSU students, staff, and faculty with an impartial, confidential, and easily accessible forum to voluntarily express, clarify, and resolve their disputes. Typical conflict resolution issues include: noise, interpersonal differences, misunderstandings, harassment and threats, roommate conflicts, landlord-tenant disputes, group conflicts, and individual conflicts between students, staff, and faculty. The goal is to provide a voluntary and mutually acceptable conflict resolution service that complements - and does not interfere with or obstruct - established employee and student grievance and disciplinary processes, and which can provide local community residents with an important additional problem-solving resource.

In addition to mediation services, the CRRS also provides training (i.e. workshops) and assistance in peaceful conflict resolution methods that are useful in a wide range of settings. These approaches include negotiation, mediation, collaborative problem-solving, communication skills training, and group facilitation. Dispute Resolution students interested in volunteering with the Center should contact the CRRS Coordinator at (954) 475-7336 for more information.

Interdisciplinary Programs

The Clinical and Community Outreach Center (CCOC) provides the opportunity for several interdisciplinary projects between the Departments of Family Therapy and Dispute Resolution. In our Family Mediation project, families are provided with the opportunity to come together during a mediation session to discuss, problem solve, and reach consensus regarding an issue in dispute or conflict. This service can be coordinated with the families' participation in therapy services or is offered separately as in the case of divorce settlement. In our Juvenile Dependency Project, families and community professionals participate in mediation to discuss the progress and direction of child protection cases. Many of these families go on to attend family therapy at CCOC. Lastly, the center is the site for a court sponsored program, "Growing Up With Divorce," which offers information and guidance to assist families who are in the process of divorce. These families find CCOC a useful resource for resolution of post-divorce issues or when family therapy is requested.
Family, Work, and Business Program
Family, Work, and Business Program

The School of Social and Systemic Studies at Nova Southeastern University has developed the Family, Work, and Business Program, designed to study the relationship of family interactions with work and business contexts. The main purpose of the program is to help families cope with the stress of work-related problems that spill over into family life or other significant relationships. Likewise, this program is interested in addressing the stress from family and other relationship problems that affect work performance. The program contains the following projects:

Family Business Project

The Family Business Project focuses on assistance for families who work together and encounter the stress of managing their business/family relationship. Patricia M. Cole, Ph.D., Assistant Professor at the School of Social and Systemic Studies, completed her funded dissertation research in family relationships and gender issues in family business. She has published articles in the Family Business Review and Nations Business. She has also presented at national AAMFT and Family Firm Institute conferences on a variety of topics related to family business. Dr. Cole was the Founding Director of the Institute for Family Business at Nova Southeastern University, which is described below.

The Institute for Family Business at Nova Southeastern University

The Institute was founded by the School of Social and Systemic Studies and is now managed through the School of Business and Entrepreneurship. This educational program for business families is a cooperative effort between the two schools. The main purpose of the Institute is to provide workshops and forums for family members who work together. Educational programs include such topics as improving communication among family members, managing family and business relationship confusion, and succession planning. The Institute is supported by family business memberships and corporate sponsorship. Faculty members of the School of Social and Systemic Studies provide counseling, consultation and educational services for business families.

Working Family Project

This Project is separate from the Family Business Project described above. The Working Family Project is designed for families who do not work together, and therefore, require a different approach for coping with their work-family problems. These problems refer to the growing stress in our society of how do individuals, couples, and families manage the demands of both work and personal relationships. The economy, divorce, single parenthood, meeting others, children's problems, couples's problems, elder care problems, substance abuse, etc, can put a strain on a person's ability to be an effective employee at work. Conversely, the stress of work: corporate downsizing, management problems, co-worker tensions, etc. may spill over into one's personal life, thereby, limiting the employee's ability to have rewarding family or other relationships.

The School of Social and Systemic Studies is helping to address this problem by placing student interns from the Family Therapy Program in local businesses. These interns provide counseling, consultation, and educational services to families and businesses involved in this Project.

For further information, contact Patricia M. Cole, Ph.D., Faculty Coordinator at (954) 424-5700.
University Services and School Policies
Student Services

Library Resources

The Albert and Birdie Einstein Library, located in the Parker Building, houses the University’s major collection of books and journals. Its more than 200,000 volume equivalents can be searched through the library’s online catalogue. Also, specialized indexes in CD-ROM format are available, as is dial-up access to the online catalog and to First Search. The Einstein Library is equipped to perform online literature searches using DIALOG information databases. Assistance in structuring searches is available from the reference librarians.

The library is a member of SEFLIN and FLIN, cooperative library networks that speed access to materials from other institutions throughout Florida. The Einstein Library has also been named a cooperating library of the Foundation Center in New York, giving students access to a special collection for grants and foundation research. The library has an agreement with Wayne State University in Detroit for priority access to their vast collection of research materials.

Through the Distance Library Services Office (DLS), students off campus have access to books, journal articles, Educational Resources Information Center (ERIC) documents, interlibrary loans, database searches, and reference librarians specializing in research services to remote student locations. Students may call the DLS to request materials 24 hours a day, using mail, phone, fax, or home computer. To contact DLS by phone, call (800) 541-6682, extension 7388 or (954) 475-7388. E-mail: library@nsu.acast.nova.edu

The Health Professions Division Library is located on the Main Campus. It contains card and computerized catalogs of holdings, more than 11,000 book titles, 783 active journals, and more than 800 audio and video tapes. The library is a member of DOCLINE, which is the National Library of Medicine’s online, interlibrary loan service, coordinating with medical libraries in the United States. Full membership in the Miami Health Sciences Library Consortium permits free exchange of materials among local medical libraries for all patrons. Membership in the Association of Visual Sciences Librarians includes a cooperative lending relationship, so patrons have free access to nearly all vision-related resources. Also, a Drug Information Center, based in the College of Pharmacy Building, is available for student use evenings and Saturdays.

The Law Library of the Shepard Broad Law Center, with a collection numbering more than 261,000 volumes and volume equivalents, contains the standard martials required for legal study and research. It is one of the few collections in the country designated as a depository for United Nations documents. It is also designated as a depository for state and federal documents.

The William Springer Richardson Library, at the Oceanographic Center, houses a specialized collection of books and periodicals in physical, biological, geological, and chemical oceanography.

The University School Media Center maintains an integrated collection of print and nonprint materials designed to provide curriculum enrichment resources for students from preschool through high school.
Additionally, a new East Campus Branch of the Einstein Library has recently opened, with reference and reserve materials, journals, and electronic resources which specifically support academic programs offered on the university's East Campus. The following services are currently available: library instruction; electronic resources; reference services; reserve materials; document delivery; and networks.

**Electronic Library**

The Einstein Library at Nova Southeastern University offers the library's resources to NSU's on- and off-campus students via a computer resource known as the Electronic Library. Students may use the Electronic Library to:

- access the library catalog
- search electronic databases
- obtain selected full-text journal articles
- check the periodical holdings of various NSU libraries
- search the book catalogs of other libraries
- request materials
- ask for help with the research from Reference Librarian Distance

**ELECTRONIC REFERENCE**

You can use e-mail to access electronic reference services. These include help in solving information problems, identifying library resources, and locating factual information. Services also include guidance in efficient use of library databases and help with research topics and search strategies.

**NOVA SOUTHEASTERN UNIVERSITY'S BOOK CATALOG**

This selection allows you to access NovaCat, the catalog for the Nova Southeastern University Libraries. This catalog contains a listing of all of the books and serials available in the NSU Library system.

**WORLDCAT**

WorldCat is a catalog of 30,000,000 items available in more than 15,000 libraries in both the United States and other countries. It includes information about which libraries subscribe to each item.

**LIBRARY CATALOGS via Inter-Links**

You can search in libraries in Florida or specific libraries throughout the world using hytelnet or gopher.

**FIRSTSEARCH**

FirstSearch is an electronic information system designed for faculty and students. It offers research flexibility with access to a number of online, subject-specific databases, including PsychFirst, Social Sciences Index, Sociological Abstracts, and MEDLINE. Several databases offer some selected full-text articles. These databases -- ABI/Inform, Business Dateline, and Periodical Abstracts -- are offered as special menu choices in the FirstSearch menu.
INFOTRAC
Infotrac is another source that supplies electronic databases and selected full-text articles. The searching strategies are different from those of FirstSearch and easier. Infotrac contains Expanded Academic Index ASAP (selected full-text articles), General BusinessFile ASAP (selected full-text articles), Health Desk ASAP (selected full-text articles), Computer Database ASAP (selected full-text articles), and LegalTrac (no full text).

CATALOG OF PERIODICALS: MAGAZINES, NEWSPAPERS and JOURNALS
This selection allows students to search the holdings of the Nova Southeastern University Library periodical collection. You can get a listing of the periodicals that the NSU libraries subscribe to, including the volumes and years that are available. Students can access the holdings of the Einstein Library, the Law Library, and the Health Professions Library.

LIBRARY MATERIALS REQUEST
Students are given the choice of ordering books, periodicals or ERIC documents. Simply choose the materials you wish to order from the menu and fill out an online form.

Center for Media and Technology

Consisting of a TV studio equipped to video record in color, a well-equipped audio studio, and a graphics room, the center provides media production services for students and faculty. The video recording facilities of the studio are used regularly as a means of enriching student learning.

Microlab

The Microlab provides computer facilities for the University to deliver graduate and undergraduate courses, non-credit and continuing education credit workshops, staff training, and complete degree programs based on applied and emerging technologies. The facilities are available to all currently enrolled students and members of the International Alumni Association. All labs are networked to the University’s online computer systems; online connectivity provides student and faculty access to the Campus-Wide Information System, the Electronic Library, and to the Internet.

The computer labs are located, on the main campus in the Parker Building, the Sonken Building, the Leo Goodwin Residence Hall, and the Microlab Annex. Computer labs are also located at the University East Campus. In addition to the computer labs, an innovative computer-based Executive Group Decision Support Lab has been established at the East Campus. The multi-lab design of the Microlab and the choice of technology platforms provides flexibility for students and faculty to apply the use of technology to meet program requirements. Computer systems include MS-DOS, Windows, Windows 95, OS-2, Macintosh, Sun OS, Ultrix and multimedia work stations. Peripherals such as CD-ROMs, color scanners, touch screens, digital cameras, and laser disc players are also available for student use. An extensive software collection is housed in the labs, the collection provides students with access to a broad range of programs and multimedia applications.

Additional information on Microlab locations and hours can be obtained by calling (954) 475-7463 or through “lynx” on the University online systems.
Student Access to Telecommunications

Graduate programs within the School of Social and Systemic Studies expect or require their students to avail themselves of the University’s electronic resources. NSU’s UNIX system enables users to communicate with others in their program through electronic mail (e-mail), request university electronic library services, participate in electronic classroom course experiences (when scheduled), discuss issues in computer conferences (as offered), and access world-wide resources including practitioners, bulletin boards, library catalogs, full-text materials, databases, the Internet, and the World Wide Web.

Access to the NSU network is available from anywhere in the world. Sixty-four (64) high-speed dial-up modems are available to users in the local 954 area code. Elsewhere in the U.S., Hawaii, Alaska, Puerto Rico, Virgin Islands, and Canada, users may make a local phone call to the AT&T Information Access Service, which provides network connectivity to NSU at speeds of 14.4 Kbs. The NSU network is connected to the Internet via a T-1 phone line, allowing access from any Internet site in the world.

To get online, students need an MS-DOS compatible or Macintosh* computer, VT100 terminal emulation software (Kermit is provided by NSU), and a 14,400 baud ** or faster modem (or Telnet capability) for connection to NSU over local telephone lines. Students are provided NSU UNIX accounts; however, students may have to pay an access fee to reach the Internet to connect to NSU resources.

To be assigned an account on the UNIX system, students need to complete an Account Request Form, which is available at the Receptionist’s desk in the School of Social and Systemic Studies Building. Students will also be asked to read the Student Code of Computer Ethics (see page 65) and sign an Academic Computing Account Security Agreement. The signed forms should be returned to the School’s Operation Manager, who will process the application and assign an account.

For information about the system’s capabilities or answers to technical questions, call the Helpdesk, in the Office of Academic Computing and Strategic Technologies, at (954) 475-7668, (954) 475-4747, or (800) 541-6682, extension 7668. Your call will be transferred to the Helpdesk and handled by the staff member on duty.

* Limited Macintosh support is available from NSU.
** Moderns as slow as 2400 baud may be used.

Textbooks

The university’s bookstore (Nova Books) is located on the main campus in the Rosenthal Student Center and carries all the required books for courses at Nova Southeastern University. Students may call the bookstore at (954) 476-4750, fax to (954) 476-4759, or e-mail to novabook@nsu.acast.nova.edu.
Financial Aid

To assist the greatest number of students in meeting the direct and indirect costs of their education, Nova Southeastern University provides several forms of financial aid. These sources of financial aid include scholarship assistance, loan programs, and employment opportunities, including work study programs. A number of programs of financial aid are administered through NSU’s Office of Student Financial Aid. These programs include Federal Subsidized and Unsubsidized Stafford Loans, Federal Perkins Loans, and the Federal Work-Study Program. Students interested in these forms of financial aid should contact the Office of Student Financial Aid for information, application materials, and deadlines:

Nova Southeastern University
Office of Student Financial Aid
3301 College Avenue
Fort Lauderdale, Florida 33314-7796
(954) 452-3380 or toll free 800-522-3243

Housing

All full-time students are eligible for on-campus housing. Furnished apartments are available for graduate students, who may choose from among single or double accommodations in either one-, or two-bedroom apartments. More traditional style housing is also available, offering a room with a private bath. Amenities include local phone service, cable tv, air conditioning, and all utilities. Students are encouraged to apply early for housing, since space is limited. Interested students are invited to obtain further information from:

Nova Southeastern University
Office of Residential Life
3301 College Avenue
Fort Lauderdale, Florida 33314-7796
(954) 475-7052

Veterans’ Benefits

The Office of the University Registrar oversees the processing of veterans’ benefits. The degree programs offered through the School of Social and Systemic Studies are approved for veterans’ benefits. Each veteran student will be provided a grade/progress report at the end of every evaluation period (e.g., term, semester, quarter). A copy of each report will be placed in the student’s permanent file maintained by the school.

The School of Social and Systemic Studies maintains up-to-date progress records on each student. The University periodically furnishes each student with a working transcript that shows current status of grades and earned semester credit hours for all courses completed and/or attempted, plus grades for courses in which the student is currently enrolled.
For additional information concerning veterans' benefits, contact:

Nova Southeastern University
Veterans' Affairs
Office of the University Registrar
3301 College Avenue
Fort Lauderdale, Florida 33314-7796
(954) 452-7241 or toll free 800-541-6682, Option 2 (Registrar's Office)

International Students

International students, who intend to reside in the United States and who are required to obtain an I-20, must be full-time, degree-seeking students and must attend either the main or east campus in Fort Lauderdale, Florida. For further information, contact:

Nova Southeastern University
International Student Adviser
3301 College Avenue
Fort Lauderdale, Florida 33314-7796
(954) 452-7240 or toll free 800-541-6682, Option 2 (Registrar's Office)

Career Resource Center

The Career Resource Center (CRC) provides career counseling and job search assistance to NSU students and alumni. The Center helps individuals identify their unique abilities, interests, and skills, and combine them creatively into a desirable career.

A variety of companies, organizations, educational institutions, and government agencies post full-time and part-time positions at the CRC. Most jobs are posted on a computerized program called Jobline. Students must register with the CRC by purchasing a Disc Resume program or by registering a PIN with the Center. Once registered, students can view job vacancies in the CRC, Parker Microlab, East Campus computer lab, or the Goodwin Hall computer lab. Additional resources available in the CRC library include: graduate school information, study abroad programs, international employment opportunities, access to the World Wide Web, and reference material on job searching organizational information, and career guides.

For further information, or to arrange an appointment with a counselor, contact the Career Resource Center at (954) 475-7504. The Career Resource Center is located in the Horvitz Administration Building on the main campus.
Disability Services

Nova Southeastern University is committed to achieving equal educational opportunity and full participation for persons with disabilities. It is the University’s policy that no qualified person be excluded from participating in any University program or activity, or otherwise be subjected to discrimination with regard to any University program or activity. This policy derives from the University’s commitment to nondiscrimination for all persons in employment and access to facilities, student programs, activities, and services.

Achieving full participation and integration of people with disabilities requires the cooperative efforts of all of the University’s departments, offices, and personnel. To this end, the University will continue to strive to achieve excellence in its services and to assure that its services are delivered equitably and efficiently to all of its members.

Services are provided to students with physical, visual, hearing, speech, learning, and temporary disabilities. Students must request services by meeting with the designee for DSS in their program of study, preferably before enrollment, in order to assess student needs and coordinated appropriate services and accommodations. All services are provided based upon individual need.

In order to receive services, all students with disabilities must submit appropriate medical, psychological, or educational documentation to substantiate the need for services.

Confidentiality of records is maintained. Upon the student’s written release, the disabilities designee at each center can verify the disability and make recommendations for necessary accommodations.

For further information about accommodations available and procedures to follow, please contact the School of Social and Systemic Studies’ disability designee, Assistant Dean Gale Bouchillon, at (954) 424-5700.
Academic and Financial Policies

Catalogs and Handbooks

All enrolled students are entitled to receive a copy of the school catalog and the program handbook that outlines all requirements, policies, procedures, and information relevant to their study. Copies of the most recent catalogs and handbooks are available from your program office.

Admissions

All of the academic degree programs specify admissions criteria for prospective students, which may be found on that program's description page in this catalog. The School welcomes applications from qualified candidates, regardless of race, color, sex, age, nondisqualifying disability, religion or creed, or national or ethnic origin. To enable faculty to determine an applicant's readiness for a program, all applicants (to all of the School's academic programs) will be asked to submit the following:

- A signed application, with fee, noting all relevant educational, occupational, and volunteer service history.
- Official transcripts of all prior academic work at regionally accredited colleges and universities, indicating minimum undergraduate and graduate grade point averages of 3.0 for all programs in the center. Lower grade point averages may be considered in rare circumstances upon receipt of written explanation.
- Letters of reference from colleagues, supervisors, or instructors (not family, friends, or service providers). Letters should specifically evaluate the candidate's potential for graduate academic achievement.
- Samples of academic writing, job evaluations, or other examples of scholarly or professional capability. Writing samples should give evidence of correct grammar and style and clear expression. Job evaluations should give evidence of respectful interactions with clients/customers and colleagues, professionalism, pragmatic planning ability, and integration of theory into practice.
- An essay that states the intent of the applicant for the course of study and which answers the specific questions asked on the admissions application. Essays should demonstrate accurate understanding of the program to which the applicant is applying.

After signed and completed applications have been received, applicants will be evaluated for eligibility. Eligibility criteria include attainment of minimum academic and/or professional experience, appropriate motivation and preparedness for graduate study, and willingness and ability to complete the program. Eligible applicants will be scheduled for a personal interview.

When recommended for an interview, applicants will meet with one or more members of the faculty and/or administration. Phone interviews may be acceptable for out-of-state applicants, but face-to-face interviews are recommended. Applicants will be interviewed to determine their prior knowledge and experience in the area of the program and for their academic potential.
After all required admissions documentation has been received, and subsequent interviews have been completed, applicants are numerically rated by the faculty to determine how well they meet admissions criteria. Applicants are then designated as being accepted, rejected, or placed on a waiting list, and are notified by mail. Accepted applicants have 30 days to notify the School of their intent to attend or not to attend a program. Students declaring their intention to attend need to sign a letter of matriculation (see below) and forward a reservation fee, applicable to the first semester’s tuition, to hold a position in the next entering class. Students on a waiting list will be notified if a position becomes available. Students who do not enter the program during the year of admission may defer their admission for a maximum of one year. After one year, reapplication will be required and must include all new documentation and a new application fee.

For master’s-level programs, all admissions are conditional for the first semester. During their first semester, students must complete all course work for which they register with an average of "B" or better. Students will be reviewed by the faculty at the end of their first semester for full admission. Criteria for full acceptance will include not only a "B" average in academic work, but also demonstrated professionalism and respect in interactions with clients, students, and faculty. Students who do not gain full admission at the end of their first semester may continue with conditional status for a second semester at the discretion of the faculty. Students who do not gain full admission after their second semester may not continue in the program.

For Ph.D.-level programs, all students are admitted conditionally for their first year, until the student has successfully completed the Preliminary Review. During this examination process, students complete a self-evaluation and evaluations of written assignments for classes and practicum evaluations are assessed as a whole by the faculty, who then meet with each student to discuss his or her standing and future in the program. Specific criteria used in determining whether students pass the examination can be found in the program student handbook.

Admission to one program in the school does not constitute admission to any other program in the school. Each program has separate admission standards. Students may not concurrently enroll in both master’s and doctoral programs within one department. Upon completion of a required master’s degree, students may apply for doctoral study. Students may concurrently enroll in degree and certificate/specialization programs, provided that the certificate/specialization does not interfere with the degree program, and that the student has met the requirements for the specific program.

Matriculation

After an offer of conditional acceptance has been tendered to an applicant, the applicant becomes a student (i.e., matriculates) upon signing the "acceptance of admission" form. Each student is entitled to receive a copy of the current catalog and program student handbook. The Department in which the student is enrolled reserves the right to amend, modify, add to, or delete its rules, policies, and procedures affecting its institutional relationship with students as deemed necessary by the administration. Any such amendment, modification, addition, or deletion shall not be considered a violation of the relationship between the University, the department, and the student. Such right includes modification to academic requirements, course sequencing, time scheduling, curriculum, tuition, and/or fees, when, in the judgment of the administration, such changes are required in the exercise of its educational and pedagogical responsibility. The only exception to this rule is that the student will remain bound by the total number of credit hours required for the completion of the degree for the year in which the student entered.
Residency and Scheduling

All degree programs are offered in Broward County, Florida, at campuses and facilities of Nova Southeastern University. To complete program requirements, students may need to develop flexible schedules at their places of employment. A minimum of one year of residency is required for a graduate certificate in the center, a minimum of one and one half years of residency is required for all master's degrees in the center, and a minimum of two years of residency is required for all doctoral degrees in the center.

Transfer of Credit/Courses at Other Universities

Each program specifies the amount and type of transfer credit allowed. However, each course being evaluated must have been:

1. A graduate-level course equivalent in content to a course offered in the degree program;
2. Completed at a regionally accredited university;
3. Passed with a grade of "B" or better; and
4. Completed within the last seven years.

No course credit will be granted for portfolio-based experiential learning.

A request for approval of transfer credit should be submitted to the program office with the following minimum information:

1. An official transcript from the institution where the course was taken;
2. Catalog course descriptions and official class syllabi; and
3. Other information as requested.

After admission, students may not register for courses at other universities for credit in degree or certificate programs without faculty approval. In extreme situations, faculty may approve, on a case by case basis, courses taken at other universities during the degree program. In no case shall more than two courses taken at other universities be credited toward degree or certificate programs. Credits earned at Nova Southeastern University are transferable only at the discretion of the receiving school.

Class Registration/Adding and Dropping Classes

Students register for class on designated days and at designated times. There is no early registration. Late registration entails additional fees. All students must be officially registered by having a student transaction form processed in accordance with University policy. An officially registered student is a student whose transaction form has been accepted by the Office of the Bursar for payment in accordance with University payment procedures and has been computerized by the Office of the University Registrar. A student transaction form may be processed only if it has been completed by the student and is accompanied by approved payment.
All students must be officially registered prior to their first class meeting. At the time of registration, students must make payment or show evidence of financial aid. Students also pay required registration, lab fees, and other fees as required. Students must take sequenced classes in the order designated by the school’s curriculum. The dean will designate a minimum and maximum number of students for each class. Independent study courses must be approved by the instructor and the program director. Students must register for an approved independent study course with prior permission of the course instructor.

Students may add a class after the registration period and before the first class meeting. After the first 3 hours of class meeting, a class may not be added without the consent of the program director and the class instructor. Students may drop a class after the registration period and before the beginning of classes for a complete refund. Dropping a class after the first class session leads to a 75% refund, and dropping a class after the second class session leads to a 50% refund. Students may drop a class after the third or the fourth class, but they receive no refund. Academic program offices will provide an academic calendar each semester, which lists the exact dates for dropping and adding classes, as well as the financial and grade consequences associated with the date of dropping a class. All adds and drops must be processed in writing and must be received by 5:00 p.m. on the date listed. Phone calls to announce add and drop intentions are insufficient. Written forms must be completed by announced deadlines. The following chart indicates the drop/refund schedule for the 1996-97 academic year:

<table>
<thead>
<tr>
<th>Fall, 1996</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Friday, September 3</td>
<td>Last day to drop fall class with 100% refund.</td>
</tr>
<tr>
<td>Monday, September 10</td>
<td>Last day to drop fall class with 75% refund.</td>
</tr>
<tr>
<td>Tuesday, September 17</td>
<td>Last day to drop fall class with 50% refund.</td>
</tr>
<tr>
<td>Monday, October 7</td>
<td>Last day to withdraw from a fall class and receive a grade of “W.” After this date a letter grade will be given.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Winter, 1997</th>

<td>Last day to drop summer class with 50% refund.</td>
</tr>
<tr>
<td>Monday, May 19</td>
<td>Last day to withdraw from a summer class and receive a grade of “W.” After this date a letter grade will be given.</td>
</tr>
</tbody>
</table>

Audit Policy

Students wishing to audit a class may do so only at the discretion of the instructor; the instructor also has sole discretion as to how many students may audit any particular class. Students who are auditing a class may participate in class discussions, but will not be required to fulfill class requirements. Auditing students do not complete class assignments and do not receive academic credit for the class, but an "audit" notation will appear on their transcripts. Auditing fees equal 60% of the regular tuition cost of the course.

Refund Policy

Students have three working days from the date of signing an enrollment contract or financial agreement with the University to cancel the contract and receive a full refund of any tuition and registration fees paid. Further, a student shall receive a full refund of tuition and registration fees, paid by the student prior to the commencement of instruction, if the student submits a written request to the institution within three working days of the payment. Refund schedules for tuition and fees after the commencement of instruction may be found above in the section entitled "Class Registration/Adding and Dropping Classes."

Withdrawals and Incomplete Grades

Any student who does not attend the first two class sessions, and does not communicate a satisfactory explanation for these two initial absences, will be administratively withdrawn from the course. Students may drop a class before completion of 12 hours of class meetings; after that time, students who wish to drop that class must formally withdraw by completing an official withdrawal form that requires the signature of the instructor and the program coordinator. Students may withdraw up to the withdrawal date set for a term. After the withdrawal date, students must receive a grade for the course. Withdrawal from a course shall lead to a "W" being placed for that course on the transcript.
A student must make a formal, written request for an "Incomplete" grade for family and other pre-approved emergencies; such requests, unless there is an unexpected medical emergency, must be approved before the last regularly scheduled class. A student may request an incomplete, or "I" grade for a period of one semester only; the expected date of completion of the incomplete grade will be noted on the formal request form. An incomplete will be granted only if the student is maintaining a passing average on all work required for the course up to the point of the request for the incomplete. Students who have an outstanding incomplete grade or who have a failing average may not receive an additional incomplete; they must either withdraw from the class or receive a failing course grade.

Forms to request an "I" are available in the program office. Students must discuss an "I" with the instructor and obtain the instructor's consent and signature before filing the incomplete application form. The decision of the instructor may be appealed to the program director; the director's decision is final, although formal grievance procedures may be pursued through the dean of the School [see the student handbook].

The incomplete form includes a detailed description of the work that needs to be completed. Faculty shall not be allowed to initiate "I" grades. They must assign a letter grade of "F" if a student has not filed an "I" request form. Incomplete grades shall be resolved within the following semester. At the end of the following semester, if the work has not been completed, the grade will automatically be changed to an "F."

Full- and Part-Time Status

Students are considered full-time if they register for 9 or more semester hours. Master's students must enroll for at least 6 hours per semester (considered part-time). Doctoral students must enroll full-time for at least 9 hours per semester until registration for dissertation, when they must register for at least 2 dissertation hours per semester if they are in the family therapy program or 3 dissertation hours per semester if they are in the dispute resolution program. With faculty approval, doctoral students may request a full-time registration for "work in progress" to complete qualifying examination papers. Doctoral students may request such a registration for only two semesters.

Reduced Status and Leave of Absence

Students who wish to reduce their number of registered semester hours below required minimums, or who wish to take a leave of absence for part or all of a semester, shall apply to the program director for approval. Students must write a statement of explanation regarding the need for the reduction or the leave. If approved, the program director will recommend the term of reduced hours or leave of absence. Students who do not have the approval of the program director for reduction or leave will not be allowed to register for courses until they have resolved the matter to the director's satisfaction. If a student does not have the required approval for a leave of absence, and the student's file remains inactive for two semesters, the program will reserve the right to terminate the enrollment of that student and close the file.
Academic Evaluation and Standards for Progress

Course work will be evaluated according to the following criteria:

A grade of "A" shall be earned for work of excellent quality.
A grade of "B" shall be earned for work of good quality.
A grade of "C" shall be earned for work of average quality.
A grade of "D" shall be earned for work of poor quality.
A grade of "F" shall be earned for work of failing quality.
A grade of "W" shall be given any student who withdraws from a course.
Dissertation hours shall be graded in the following way: Pass, In Progress, No Progress, or Fail.

Attendance is required for all courses. Three or more unexcused absences during a classroom course will result in an automatic grade of "F" for the course. More than three unexcused absences during a practicum shall lead to a failure for the course. Grades of "A" or "B" are considered acceptable for graduate-level training. A grade of "W" shall not affect standing in a program. Any course with a grade of "D" or "F" must be repeated for credit toward a degree or certificate program. Students must maintain a 3.0 GPA for graduation.

Probation and Dismissal

Students shall be placed on academic probation when they receive a "D" or an "F" for a course, when they have more than two "C"s, when they have more than two active "I"s, or when they fail degree program examinations. Academic probation is noted in writing in students' records. All courses with "D" or "F" must be retaken within one year. If a student has more than two "C"s, course(s) must be retaken within one year to reduce the number of "C"s to two. Students with more than two active "I"s must resolve all incomplete grades within one semester. Students who do not successfully resolve academic probation will be dismissed from the program.

Students dismissed from the program may petition for readmission after one academic year. Such students will have their records examined by the program's administration. Upon approval, the student will be readmitted to the program in effect at that time. Only those courses with grades of "B" or better will be applied toward the degree.

Dismissal for violations of professional ethical conduct will be final. Students dismissed for such conduct will not be considered for readmission to the program.
Academic Freedom

The school uses the definition of academic freedom in university policy and in the *Criteria for Accreditation of the Southern Association of Colleges and Schools*:

Academic freedom does not require neutrality. Institutions may endorse particular religious or philosophical beliefs, or specific social principles as they relate to the institutional statement of purpose. Nonetheless, the protection of the freedom for faculty and students to examine all pertinent data, to question assumptions, to be guided by the evidence of scholarly research, and to teach and study the substance of a given discipline is crucial to the integrity of an educational institution.

Course and Program Evaluation

At the end of each semester, students are given the opportunity to provide the program with evaluations of the courses taken. Anonymity is protected in the following ways: a) students are asked not to sign the evaluation; b) all evaluations are completed and sealed in an envelope while the faculty member remains outside of the room; c) the envelope is delivered directly to the staff by a student volunteer, and the handwritten comments are typed into the computer; d) the original, handwritten sheets are destroyed; e) faculty members do not receive typed copies of the evaluations until after grades have been submitted to the registrar.

Student Evaluation

Each student is evaluated on an ongoing basis while enrolled in the school. In addition to academic evaluations given in courses, students are evaluated for their readiness for professional and scholarly work. If faculty members concur that a student is exhibiting poor performance in one or more of the areas listed below, the faculty may request that the student attend a faculty meeting for an informal resolution of the problem. The faculty may make specific recommendations to the student for improvement. If the problem continues, or if the issue is of sufficient concern, faculty members may communicate their grievance to the dean and request a formal review of the student’s status in the school. The Dean shall investigate the situation and make a determination on the student's continued participation in the program. Conditions for continuing may be assigned, and, if the student does not comply with the conditions, he or she may be dismissed from the program.

If, for any reason, a faculty member has reason to question the satisfactory progress of any student, the faculty member shall discuss the problem with the student. If the problem persists, the faculty member may bring the issue to the attention of the program director and the faculty as a whole. Appropriate faculty members will be asked for additional review and comment.

The school has identified several categories of behaviors that are essential to professional and scholarly performance. These broad areas include:

1. Academic abilities
2. Professional and scholarly ethics
3. Responsibility, dependability, and cooperation
4. Responsiveness to constructive criticism
Minimal Technological Qualifications for Graduation

All master's and doctoral students must demonstrate minimal mastery of the following areas of technological practice before they are allowed to sit for the comprehensive or qualifying examination:

- be competent in using word processing, including the ability to edit, spell and grammar check, and make basic editorial changes to written work (margins, page numbers, etc.);
- be conversant in the university e-mail system, able to upload and download documents from within and outside the system, send messages to faculty and staff, and be responsible for reading messages sent on a regular basis to the student’s assigned e-mail address with announcements, job opportunities, and other departmental items of interest;
- be able to access the Internet, searching for topics relevant to research papers and class projects; and
- know how to access web pages of various interest groups and organizations that are relevant to the field of study.

These skills and exercises will be introduced during the computer training in new student orientation, and both practiced and evaluated throughout the academic programs in classroom assignments and exercises. Computers are available for student use in the School's Conflict Resolution Resource Service room, the computer lab in the business school building (on the east campus), and on main campus. University personnel are also available at these locations to assist those who need additional or refresher instruction in these areas. There is, therefore, no excuse for not checking e-mail messages or for being unable to complete computer-related assignments even though the student may not have a computer and modem at home.

Graduation

When students have successfully completed all degree program requirements, they will be sent an application for degree form. Students may neither obtain the form nor complete it on their own. The form will be filled out by the academic program office and sent for student signature and graduation fee. When the form is returned to the academic program office, the office will make a final check on degree completion and will forward the application for degree to the registrar. Students will not be allowed to participate in commencement ceremonies until they have finished all graduation requirements (as listed in the student handbook) and have completed the degree application form.

Degree Completion Limits

Master’s courses apply toward a master’s degree only within five years after matriculation in the master’s program. Graduate courses apply toward a postgraduate certificate only within three years of matriculation in a certificate program. Doctoral courses apply toward a doctoral degree only within seven years of matriculation in a doctoral program. After a time limit has been exceeded, students must reregister for classes taken earlier than the specified time limit.
Privacy of Records

The school follows the regulations stipulated in Individual and Institutional Responsibilities: The Family Education Rights and Privacy Act - Student Records and Privacy. Records are available for review by present and former students upon written request to the Program Coordinator. However, the Program Coordinator will not be allowed to release transcripts of students’ academic records until all of their accounts have been paid; the School considers each student’s file confidential, and will release only those documents specifically requested in writing by the student. If the student has waived the right to see his/her letters of recommendation, the letters cannot be released, even at your request.

University Equipment and Utilities

Students may not use University equipment such as copy machines, computers, faxes, and telephones. Audio- or videotapes of clinical work are considered confidential and must be kept in University facilities. Students and faculty may not use clinical videotapes for publication or public presentation without permission from all parties involved.

Student Appeals

Students may grieve policies, procedures, evaluations, and administrative actions having a direct impact upon them. Prior to initiating a formal appeal, a student must meet with a faculty member or the Program Director and attempt to informally resolve the situation. If this does not result in an acceptable resolution, the student may bring the matter to the attention of the director, who may, in turn, bring the matter to the dean. The dean may continue efforts at informal resolution.

If informal attempts fail to provide an acceptable resolution, the student may file a written appeal with the dean. The document should contain a concise statement of all relevant facts regarding the matter. Upon receipt of a written appeal, the dean will review the appeal to determine whether an investigation is warranted. If the dean decides to investigate the complaint, the dean may then meet with the parties involved, interview others, convene a faculty or staff meeting, seek a recommendation from the faculty, and/or request a recommendation from the University administration.

The dean will make a final determination on the complaint and will direct what, if any, further action shall be taken. The dean will respond to the student in writing and explain the determination on the complaint. After the determination by the dean, a student has the right to make a final appeal to the Office of the Vice President for Student Affairs (see Grievances, page 77).

If, at any time during the appeals process, the student should seek the advice of legal counsel, the appeals process will terminate and all further dealings will be addressed to the university’s attorney. Once matters have been turned over to the university attorney, no faculty or administrator within the Center will be free to discuss the matter any further with the student.
School of Social and Systemic Studies
Tuition and Fees
1996-1997

Tuition:

Master’s level  $355.00 per credit hour
Doctoral level  $499.00 per credit hour

Fees:

Application fee  $ 45.00
Reservation fee (applicable to first semester tuition)  $200.00
Registration fee  $ 25.00 per semester
Practicum fee (family therapy)  $ 20.00 per practicum course
Dispute Resolution Practicum Liability fees  $ 35.00 per semester
Application for degree fee  $ 65.00 per semester

Other fees that may be incurred, and the amounts of which are determined by other University departments or private organizations, include: cap and gown fees for graduation; dissertation binding fees; cost of books, and family therapy practicum liability insurance fees.

Payment of tuition, registration, and other fees may be made by check or money order, payable to Nova Southeastern University. Tuition fees may also be charged to MasterCard, VISA, Discover, or American Express accounts. Please note that all fees are subject to change without notice.
Policies Governing Student Relations

General

Nova Southeastern University has established specific policies, procedures, and guidelines defining its relationship with its students. The term students as used in this catalog defines the student or parents of the student if the student qualifies as a dependent under the provisions of the Internal Revenue Code.

Institutional and Academic Information

NSU and its composite academic units periodically publish bulletins or catalogs describing University programs. These bulletins are available to enrolled and prospective students through the various admissions offices associated with the academic units or from the Office of the University Registrar. Each academic unit, group of units, and/or the Office of the University Registrar maintains at least one full-time employee to assist all students in obtaining information.

Nondiscrimination

Nova Southeastern University admits students of any race, color, sex, age, nondisqualifying disability, religion or creed, or national or ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the school, and does not discriminate in administration of its educational policies, admissions policies, scholarship and loan programs, and athletic and other school-administered programs. The University registrar is designated as the policy coordinator to assure compliance with all federal, state, and local laws and regulations relative to nondiscrimination.

Student Rights and Responsibilities

The Code of Student Conduct and Academic Responsibility

Purpose: This code seeks to promote high standards of academic integrity by setting forth the responsibilities of students as members of the University community. Abiding by the code ensures a climate wherein all members of the University community can exercise their rights of membership.
Nova Southeastern University Statement of Academic Rights and Responsibilities

Nova Southeastern University, as a community of women and men, is committed to furthering scholarship, academic pursuits, and service to our society. As an institution, our purpose is to assure all students an equal opportunity to fulfill their intellectual potential through pursuit of the highest standards of academic excellence.

Certain rights and obligations flow from membership in any academic community committed to such goals:

- The rights of personal and intellectual freedom, which are fundamental to the idea of a university. While students will be guided by faculty in their educational experiences, they are free to examine all pertinent data, to question assumptions, to be guided by the evidence of scholarly research, and to formulate their own opinions;
- A scrupulous respect for the equal rights and dignity of others; and
- Dedication to the scholarly and educational purposes of the University and participation in promoting and assuring the academic quality and credibility of the institution.

Students are responsible for obtaining, learning, and observing the established University and center policies as listed in all official publications. In addition, students must comply with the legal and ethical standards of the institution as well as those of Broward County and the State of Florida. All members of the community should inform the appropriate official of any violation of conduct regulations.

A. Academic Standards

The University expects its students to manifest a commitment to academic integrity through rigid observance of standards for academic honesty. Academic honesty standards include:

1. Original Work. Assignments such as course preparations, exams, texts, projects, term papers, practica, etc., must be the original work of the student. Original work may include the thoughts and words of another author, but if that is the case, those ideas or words must be indicated in a manner consistent with a University-recognized form and style manual.

Work is not original that has been submitted previously by the author or by anyone else for academic credit. Work is not original that has been copied or partially copied from any other source, including another student, unless such copying is acknowledged by the person submitting the work for the credit at the time the work is being submitted or unless copying, sharing, or joint authorship is an express part of the assignment. Exams and tests are original work when no unauthorized aid is given, received, or used prior to or during the course of the examination.

2. Referencing the Works of Another Author. All academic work submitted for credit or as partial fulfillment of course requirements must adhere to each center's specific accepted reference manuals and rules of documentation. Standards of scholarship require that proper acknowledgement be given by the writer when the thoughts and words of another author are used. Students must acquire a style manual approved by their center and become familiar with accepted scholarly and editorial practice in their program. Students' work must conform with the adopted citation manual for their center.
At Nova Southeastern University, it is plagiarism to represent another person’s work, words, or ideas as one’s own without use of a center-recognized method of citation. Deviating from center standards (A) (1) or (A) (2) is considered plagiarism at Nova Southeastern University.

3. **Tendering of Information.** All academic work must be the original work of the student. Giving or allowing one’s work to be copied, giving out exam questions or answers, or releasing or selling term papers is prohibited.

4. **Acts Prohibited.** Students should avoid any impropriety, or the appearance thereof, in taking examinations or completing work in pursuance of their educational goals.

   Violations of academic responsibility include, but are not limited to:
   a. Plagiarism;
   b. Any form of cheating;
   c. Conspiracy to commit academic dishonesty;
   d. Misrepresentation;
   e. Bribery in an attempt to gain an academic advantage;
   f. Forging or altering documents or credentials; and
   g. Knowingly furnishing false information to the institution.

5. **Additional Matters of Ethical Concern.** Where circumstances are such as to place students in positions of power over University personnel, inside or outside the institution, students should avoid any reasonable suspicion that they have used that power for personal benefit or in a capricious manner.

B. **Conduct Standards**

1. Students should not interfere with the rights, safety, or health of members of the University community nor interfere with other students’ right to learn. Students are expected to abide by all University, center, and program rules and regulations and all local, state, and federal laws. Violations of conduct standards include, but are not limited to:

   a. Theft
   b. Vandalism
   c. Disruptive behavior
   d. Possession or use of firearms, fireworks, explosives, or other dangerous substances or items
   e. Possession, transfer, sale, or use of illicit drugs
   f. Appearance in class or on campus under the apparent influence of alcohol or illicit drugs or chemicals
   g. Violations of housing regulations
   h. Any act or conspiracy to commit an act which is harassing or abusive or which invades an individual’s right to privacy, including, but not limited to, sexual harassment and abuse against members of a particular racial, ethnic, religious, or cultural group
   i. Threats of or actual damage to property or physical harm to others
j. Nova Southeastern University prohibits any activity that may be construed as hazing ("Hazing" is defined as: any action or situation which recklessly or intentionally endangers the mental or physical health or safety of a student for the purpose of initiation or admission into or affiliation with any organization operating under the sanction of a university)

k. Failure to pay tuition and fees in a timely manner

2. Students must have authorization from the University to have access to University documents, data, programs, and other types of information and information systems. Any use of the above without authorization is prohibited.

C. Supplementary Standards

Students are expected to comply with the legal and ethical standards of this institution and those of their chosen field of study, including the code of ethics for computer usage. The University and each center or program may prescribe additional standards for student conduct as would comport with the letter and spirit of this code.

D. Violations

Any violation(s) of any of the academic standards, conduct standards, or supplemental standards may result in a complaint being filed against a student to enforce the Code of Student Conduct and Academic Responsibility. Deans or directors may, in their discretion, immediately suspend students pending a hearing on charges of academic conduct or supplemental standard violations. Any student found guilty of a violation of the academic, conduct, or supplemental standards will be subject to disciplinary action, including expulsion from the University.

Student Publications

Nova Southeastern University, as publisher, bears the legal responsibility for the contents of student publications. In the delegation of editorial responsibility to students, the university provides sufficient editorial freedom for the student publications to maintain their integrity of purpose as vehicles of free inquiry and free expression in the Nova Southeastern University academic community.

The delegated editorial freedom of student editors and managers is subject to corollary responsibilities to be governed by the canons of responsible journalism, such as the avoidance of libel, indecent, undocumented allegations, attacks on personal integrity, and the techniques of harassment and innuendo.

As safeguards for the delegated editorial freedom of student publications, the following provisions are made:

1. The student press shall be free of censorship and advance approval of copy, and its editors and managers shall be free to develop their own editorial policies and news coverage.
2. Editors and managers of student publications shall be protected from arbitrary suspension and removal because of student, faculty, administrative, or public disapproval of editorial policy or content. Only for proper and stated causes shall editors and managers be subject to removal, and then by orderly and prescribed procedures.

3. All university published and financed student publications shall explicitly state on the editorial page that the opinions therein expressed are not necessarily those of Nova Southeastern University or of the student body.

Student Participation in University Governance

In furtherance of its commitment to teaching and learning, Nova Southeastern University encourages student participation in institutional decision making.

Within each center, elected student government bodies provide vehicles for student expression of views and opinions on issues of institutional policy. Officers of the student governments are members of the President’s Student Advisory Committee which meets monthly with the President and appropriate senior administrative staff to discuss university matters of general interest to the student body.

Additionally, students are regularly appointed to committees, task forces, and ad hoc groups dealing with issues of concern to students, including appointment to each self study subcommittee.

Student Code of Computer Ethics

Nova Southeastern University provides computer systems with access to hardware, software, and networks to enhance academic experience. The University’s computer systems are vital to the University’s programs of instruction, research, and administration. Nova Southeastern University’s computer systems refer to all computers owned or operated by the University and include hardware, software, data, and communication networks associated with these systems. In particular, computer systems refer to systems ranging from multi-user time-sharing systems to single-user terminals and personal computers, whether free standing or connected to a network.

Ethical conduct by students in the use of this technology is the same as in all other areas of University life and it is of equal importance. All students are expected to abide by the Nova Southeastern University Code of Student Conduct and Academic Responsibility. Students as part of their academic preparation toward specific professional career goals must be aware of and abide by the professional code of ethics associated with that chosen profession. Therefore, student technology users must apply standards of normal academic and professional ethics and considerate conduct to their use of the University’s computing systems and resources, including respect of other users’ rights to privacy.

The student user must be aware of the legal and moral responsibility for ethical conduct in the use of technology. Student users of Nova Southeastern University’s computer systems are subject to all applicable federal, state, and international computer laws. A copy of the Florida Computer Crimes Act and referenced Florida State Statutes may be examined online or in a student’s academic program office.
In addition, a student accessing any Nova Southeastern University computer systems, whether a multi-user time-sharing system or a single-user terminal or personal computer, must:

- Have proper authorization for use or attempted use of accounts within the Nova University computer systems;
- Limit the use of Nova Southeastern University computer systems to academic activities as defined by the student’s academic program office;
- Refrain from attempting to tamper with or obstruct the operation of Nova University’s computer systems;
- Be aware that accessing or using another person’s computer account without that person’s permission is illegal and unethical;
- Refrain from any attempt to use Nova Southeastern University’s computer systems as a means for the unauthorized access to computer systems outside the University’s systems;
- Be aware that the use of invasive software, such as worms and viruses destructive to hardware, software, or data files, is illegal and unethical;
- Be aware that using Nova Southeastern University’s computer systems to act or behave in a rude, obscene, or harassing manner will be dealt with by appropriate University policy, procedures, and agents;
- Use only legally obtained or licensed data or software in accordance with the license or purchase agreement; and
- Be in compliance with federal copyright laws and the Nova Southeastern University Copyright Code.

As with all matters of law and ethics, ignorance of the rules does not excuse violations. Inappropriate conduct and violations will be dealt with under the guidelines of the Nova Southeastern University Code of Student Conduct and Academic Responsibility as defined and determined by the Office of the Academic Vice President and the Office of the Dean of a student’s academic program.

Drug-Free Schools and Campuses

In order to comply with the Drug-Free Schools and Communities Act (P.L. 101-226, Title 34 C.F.R., part 86), Nova Southeastern University has adopted the following policy for all workplace, school, campus, and field-based programs.
The unlawful manufacture, distribution, dispensation, possession, or use of illicit drugs and the abuse of alcohol are prohibited in and on Nova Southeastern University owned or controlled property and as a part of any of its activities. No Nova Southeastern University employee or student is to report to work or school while under the influence of illicit drugs or alcohol. There are serious health risks associated with the abuse of drugs and alcohol (see attached "Controlled Substances—Uses and Effects"). If you, a fellow student, teacher, or co-worker has a problem with abuse of drugs and/or alcohol, help can be provided at the following locations:

**On Campus**
- Nova Southeastern University Wellness Center
  - (954) 452-6401
- Nova Southeastern University Community Mental Health Clinics
  - Coral Springs......... (954) 753-7020
  - Davie.................. (954) 475-7070
  - Lauderdale Lakes....... (954) 486-3663

**Community**
- Florida Department of Education
  - Educational Prevention Center
  - Knott Building
  - Tallahassee, Florida 32399
  - (904) 488-6304
- Department of Health and Rehabilitative Services
  - Alcohol and Drug Abuse Program
  - 1317 Winewood Boulevard
  - Tallahassee, Florida 32399
  - (904) 488-0900

When you use or deal in drugs, you also risk incarceration and/or fines. The attached federal sentencing guidelines indicate federal penalties for trafficking in drugs.

In addition to the federal sanctions, Florida state statutes provide sanctions in regard to the use, possession, and/or sale of illicit drugs and the abuse of alcohol. Punishment varies dependent upon the amount and type of drug and/or alcohol involved. Felony convictions range from one year to life imprisonment. Possession of not less than 20 grams of cannabis is punishable as a misdemeanor of the first degree. Punishment for misdemeanors ranges from less than 60 days to one year imprisonment.

Under §893.13 (1) (e), Florida Statutes, it is unlawful for any person to sell, purchase, manufacture, deliver, or to possess with the intent to sell, purchase, manufacture, or deliver a controlled substance in, on, or within 1,000 feet of a public or private elementary, middle, or secondary school. Punishment for a violation of this statute may include a minimum three-year imprisonment.

The term "illicit drugs" refers to all illegal drugs and to legal drugs obtained or used without a physician's order. It does not prohibit the use of prescribed medication under the direction of a physician.
Under §316.1936, Florida Statutes, it is unlawful for any person to possess an open container of alcoholic beverage while operating a vehicle in the state or while a passenger in or on a vehicle being operated in the state. Violation of this law will result in a noncriminal moving traffic violation, punishable as provided in Chapter 318 of the Florida Statutes, with fines and points on a driving record leading to driver’s license suspension.

Under §316.193, Florida Statutes, a person is guilty of driving under the influence if such a person is driving or in actual physical control of a vehicle within the state and the person is under the influence of alcoholic beverages or any controlled substance when affected to the extent that his or her normal faculties are impaired or the person has a blood alcohol level of .10 percent or higher. First conviction on such a DUI charge shall result in a fine not less than $250 or more than $500 and imprisonment not more than six months. A second conviction results in a fine of not less than $500 or more than $1,000 and not more than nine months’ imprisonment. Third conviction will result in not less than a $1,000 fine or more than a $2,500 fine and imprisonment for not more than 12 months.

By applying for a driver’s license and accepting and using a driver’s license, a person holding the driver’s license is deemed to have expressed his or her consent to submit to breath, blood, and urine tests for alcohol, chemical substances, or controlled substances.

Nova Southeastern University requires that an employee notify the employer of any criminal drug statute conviction for a violation occurring in the work place no later than five (5) days after such conviction. In order to comply with federal law, Nova Southeastern University must notify any federal contracting agency within 10 days of having received notice that an employee engaged in the performance of a federal contract or grant has had a criminal drug statute conviction for a violation occurring in the work place. Any criminal drug convictions in the work place must be reported by the employee to his or her University supervisor or department head within five (5) days of the date of such conviction. The University will discipline any employee who is so convicted or require the employee’s satisfactory participation in a drug/alcohol abuse assistance or rehabilitation program within thirty (30) days of notice of such conviction.

Any Nova Southeastern University employee or student determined to have violated this policy shall be subject to referral for prosecution by the appropriate authorities. Other sanctions include evaluation/treatment for drug use disorder, which may include mandatory completion of a drug/alcohol abuse rehabilitation program, expulsion, and/or termination.

All Nova Southeastern University faculty and staff members will, as a condition of their employment, abide by the terms of this policy. All Nova Southeastern University students will, as a condition of their enrollment, abide by the terms of this policy.

Smoking and Nonsmoking

Smoking is prohibited in any Nova Southeastern University facility where, regardless of physical separation, nonsmokers share a ventilation system with smokers.

This policy does not apply to living quarters (dormitories), which are subject to a separate smoking policy. Nor does this policy in any way supersede the Florida Clean Indoor Air Act.
Alcohol and Other Drugs

Nova Southeastern University, as an institution of higher education, is dedicated to the well-being of all members of the University community—students, faculty, staff, and administrators. Concerned with the misuse of alcohol and other drugs (both licit and illicit), it is the policy of the University to endeavor to prevent substance abuse through programs of education and prevention.

The University recognizes alcoholism and drug abuse as illnesses or treatable disorders, and it is the University’s policy to work with members of the university community to provide channels of education and assistance. However, it is the individual’s responsibility to seek help. The University also recognizes that the possession and/or use of certain substances is illegal, and the University is obligated to comply with local, state, and federal laws.

1. While on campus or engaged in any University related activity, members of the University community must be in a fit condition to perform appropriately. Being under the influence of alcohol and/or drugs is prohibited and may subject the individual to disciplinary action including the possibility of dismissal.

2. Employees will be evaluated only on their work performance. If alcohol consumption or the use of any other drug affects an employee’s performance, assistance is available. However, if an employee’s performance continues to deteriorate, the University will discipline the employee based on his or her job performance. Poor job performance will lead to discharge.

3. Professional assistance for substance abuse is given on a confidential, professional, and voluntary basis. The purpose of this assistance is to help the individual member of the University community who has a substance abuse problem lead a productive work and/or academic life free of substance abuse.

4. Members of the University community who engage in any illegal activity involving alcohol or other drugs are subject to dismissal.

Substance Abuse Awareness, Education, and Prevention

Nova Southeastern University’s activities in substance abuse awareness, education, and prevention exist to encourage members of the University community to avoid the use of illicit drugs, to use alcohol and other licit drugs in a responsible manner, and to avert the need for direct intervention. The specific goals of the program are the following:

- To educate all members of the community that the use and possession of certain substances are illegal and may result in adverse consequences;

- To inform members of the University community concerning the physical and psychological effects of alcohol and other drugs and to develop an awareness of potential problems that can result from the use of these substances;

- To support those who choose not to drink alcohol or to use other drugs;

- To teach those who choose to drink alcohol to do so responsibly; and
To help those who abuse alcohol or other drugs.

In order to achieve these goals, the University operates and/or engages in the following programs and activities:

1. **Alcohol and Drug Abuse Resource Center.** The Alcohol and Drug Abuse Resource Center is directed by an existing staff member. Additional staff consists of student employees, practicum students, and/or student volunteers. The center has the primary responsibility for the University's prevention and education programs. It coordinates the various activities and serves as a clearinghouse for alcohol and drug information. Each academic center designates a contact person who works with the resource center staff to disseminate information within their centers.

2. **Advisory Committee.** This is a group of administrators, faculty, and student leaders who are appointed by the Vice President for Academic Affairs to serve as advisers and resource persons. The committee is chaired by the Director of the Alcohol and Drug Abuse Resource Center. The group meets monthly to discuss and develop program plans and activities.

3. **Alcohol and Drug Awareness Activities.** Under the direction of the Alcohol and Drug Abuse Resource Center, there are regular and ongoing activities designed to disseminate information about alcohol and drug use. The audience of the information is all students, employees, and faculty of the University, both on and off campus. The awareness activities can include posters, media campaigns, films, exhibits, and literature. The University supports the National Alcohol Awareness Week and schedules activities at that time to promote awareness on campus.

4. **Student Organizations.** The student governments are encouraged to establish chapters of organizations such as BACCHUS (Boost Alcohol Consciousness Concerning the Health of University Students) and SADD (Students Against Drunk Driving).

5. **Alcohol and Drug Abuse Workshops.** These are provided for student leaders and for employees as part of the University's staff development program. These workshops provide the opportunity for participants to discuss the information they receive. Student leaders are required to complete such workshops before they can plan parties that involve drinking.

6. **Academic Courses.** Several academic centers have put identifiable units on alcohol and drugs into appropriate existing courses. Additionally, several academic centers have established elective courses in substance abuse and/or recommend students to take such courses in other centers. Assistance is available to the academic centers from the Alcohol and Drug Abuse Resource Center to ensure the substance abuse content of courses is consistent with University policies.

7. **Orientation.** Academic centers include information on drugs and alcohol in the orientation sessions and materials for new students. The orientation provides a general orientation to the problems of substance abuse and includes a statement of the University's policy on drugs and alcohol. The information is presented in a positive manner. The Resource Center works with the academic centers to prepare the materials presented.

Communicable Diseases Policy Guidelines

It is the intent of the University to protect students and employees from exposure to communicable diseases that pose reasonable risk of harm to members of the University community. It is also the intent of the University to protect the rights of those infected with a communicable disease pursuant to the Sick Leave Policy of the University. Employees and students of the University who do become infected with a communicable disease are subject to the guidelines listed below.

All employees diagnosed with any communicable disease will receive the same benefits and privileges extended to any employee under the Sick Leave Policy and shall be afforded confidentiality for all related issues.

The University will be flexible in its response to incidents of communicable disease, evaluating each occurrence in light of this policy and current available medical information.

Guidelines

1. For the purpose of this policy, the term “employee” shall include all persons employed by the University, either full time or part time, including adjuncts and off-site coordinators, but shall not include the following persons:

   a. Members of the Board of Trustees
   b. Guest lecturers
   c. Vendors

   The term “student” shall include all persons enrolled at the University, either part-time or full-time, from preschool through graduate studies.

   The term “infected person” shall include students and employees who have been medically diagnosed as infected with a communicable disease.

   In the event that any employee, administrator, or student has a concern about the potential for the spread of a communicable disease within the University community, those concerns should be brought to the assistant director of human resources for review consistent with the current available information on the spread of the particular communicable disease. After review and evaluation of the concerns, if there appears to be a reasonable likelihood of the spread of the disease within the University community by an infected person, the assistant director of human resources will, after notification of the issues presented to the University president, contact the Broward County Health Department for recommendations of appropriate action consistent with state law.

   The University will make available to its employees and students information about the transmissibility of communicable diseases and precautions that can be taken to prevent the spread of various communicable diseases.
2. An infected person can continue to work and study so long as he or she is able to continue to perform regular responsibilities satisfactorily and so long as the best available medical evidence indicates that his or her continued status does not present a health or safety threat to self or others. Infected employees with diseases that threaten the safety of others are eligible for the same leave of absence provisions of current University policy for sick or annual leave.

3. An infected person returning to work or school after a leave of absence for reasons related to a communicable disease must provide a statement from his or her treating physician indicating current medical status. An employee shall submit the physician’s statement to the director of human resources or a delegated representative. Students shall submit their statement to their program dean.

4. Within reason, the University shall make accommodations to the infected persons, whenever possible, to ensure continuity in employment or in the classroom. Such measures may include, subject to administrative limitations, job reassignment or class reassignment to place the infected person in a less demanding position.

5. No infected person (employee or student) may be dismissed from the University solely on the basis of a diagnosis of an infection of a contagious disease. A decision to dismiss or discharge will only be made after reasonable accommodation has been attempted and an examination of facts demonstrate that the infected person can no longer perform as required or poses a reasonable threat to the health and safety of those around him or her.

6. Disciplinary measures are available to the University when any employee fails or refuses to work at his or her assigned job with an infected person who has not been deemed to pose a present health or safety threat to self or to others. Student disciplinary measures shall range from counseling to expulsion.

7. As with any medical condition, employees must not disclose information regarding another employee or student to anyone except those employees with a medical or administrative need to know. The University shall take every precaution to ensure that confidentiality is maintained. Breach of such confidentiality by any employee shall result in disciplinary action.

Policy on Sexual Harassment

It is the intent of Nova Southeastern University to protect all employees and students from sexual harassment. Sexual harassment is a violation of Title VII. Sexual harassment undermines the integrity of the employment and academic environment, debilitates morale, and interferes with the effectiveness of employees and students. In accordance with Equal Employment Opportunity Commission-promulgated guidelines, unwelcome sexual advances, unwanted requests for favors of a sexual nature, and any other verbal or physical conduct of a sexual nature are considered sexual harassment if:

(a) Explicit or implicit submission to sexual overtones is made a term or condition of employment.
(b) Employment decisions are made on the basis of whether submission to or rejection of sexual overtones occurred.

(c) An individual's work performance is unreasonably interfered with by a sexually intimidating, hostile, or offensive atmosphere.

A. At Nova Southeastern University, sexual harassment of or by employees includes:

1. Unwelcome or unwanted sexual advances. This includes unwelcome physical contact or sexual advances considered unacceptable by another individual.

2. Requests or demands for sexual favors. This includes subtle or blatant pressures or requests for any type of sexual favor accompanied by an implied or stated promise of preferential treatment or negative consequence concerning one's employment status.

3. Verbal abuse that is sex-oriented or considered unacceptable by another individual, as well as sexually derogatory comments. This includes commenting about an individual's body or appearance when such comments go beyond mere courtesy; telling jokes that are clearly unwanted and considered offensive by others; or other tasteless, sexually-oriented comments or innuendoes or actions that offend others.

4. Engaging in any type of sexually-oriented conduct that would unreasonably interfere with another's work performance. This includes extending unwanted sexual attention to someone that reduces personal productivity or time available to work at assigned tasks.

5. Creating a work environment that is intimidating, hostile, or offensive because of unwelcome or unwanted sexually-oriented conversations, suggestions, requests, demands, physical contacts or attentions.

Nova Southeastern University will not tolerate sexual harassment. Sexual harassment is an insidious practice. It demeans individuals being treated in such manner and creates unacceptable stress for the entire organization. Persons harassing others will be dealt with swiftly and vigorously.

Normal, noncoercive interaction that is acceptable to both parties is not considered to be sexual harassment.

All allegations of sexual harassment of or by an employee, client, or vendor will be promptly and thoroughly investigated by the Human Resources Department and should be reported promptly to the director of human resources.

B. At Nova Southeastern University, sexual harassment by employees of students is defined as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when:

1. Submission to such conduct is made to appear to be a term or condition of enrollment, attendance, or participation in a class;

2. Submission to or rejection of such conduct affects academic decisions;
3. Such conduct has the purpose or effect of unreasonably interfering with a student’s academic performance or creating an intimidating, hostile, or offensive academic environment;

4. Unwelcome patting, pinching, or touching;

5. Offensive or demeaning sexual remarks, jokes, or gestures.

Students aggrieved by a violation of this policy may file a grievance under their center’s grievance procedure.

Any employee who violates any portion of this policy shall be subject to disciplinary action.

At Nova Southeastern University, romantic and sexual relationships between a faculty member and a student are subject to the prohibition against sexual harassment.

Romantic or sexual relationships between a faculty member and a student then enrolled in the faculty member’s class (including supervised student activities for which academic credit is given) may appear to be coercive and are discouraged. Even when no coercion is present, such relationships create an appearance of impropriety and favoritism that can impair the academic experience of all students in that class. It is, therefore, improper conduct for a faculty member to engage in a romantic or sexual relationship with a student then enrolled in the faculty member’s class.

Privacy of Records

Nova Southeastern University maintains a system of records that includes application forms, letters of recommendation, admission test scores, and official transcripts of students’ previous academic records and performance while in residence. These records are available for review by present and former students upon written request to the registrar’s office. However, the registrar will not release official transcripts of students’ academic records until all their accounts, both academic and nonacademic, have been paid.

The law limits access by and disclosure to a third party. Such access is given only upon consent of the student or if required by law, except for the following information, which may be released as directory information: a) student’s name; b) dates of attendance; c) degree and awards received. Requests for such information must be submitted in writing to the registrar. The University reserves the right to refuse the above information if the reason for the request is not considered to be a sufficient need to know.

Any student or parent not wishing to have this information disclosed should notify the Office of the University Registrar in writing prior to September I of the relevant school year. A person does not have the right of access to educational records until he or she has been admitted to and has actually begun attending Nova Southeastern University. There is no prohibition from disclosing such information to the parents of students who are listed on their parents’ federal income tax forms.
Parents or eligible students will be provided a hearing by the University if they wish to challenge the content of the record. If they are still not satisfied, the parents or eligible students may add explanatory or rebuttal matter to the record.

If the students or parents are denied access to a hearing or if the records are alleged to have been illegally disclosed to a third party, the students or parents may file a complaint with the U.S. Department of Education.

Grievances

The purpose of this procedure is to promote the orderly resolution of problems arising out of a student complaint concerning a policy, procedure, or administrative action of Nova Southeastern University. Students and faculty are encouraged to resolve disputes informally prior to instituting a formal grievance (see Student Appeals, page 59).

A. Any student who has a grievance concerning administrative action or a member of the faculty or staff shall file such a grievance in writing with the director of student affairs.

The written grievance will contain a short and concise statement of all relevant facts, and the relief sought, on forms available from the Student Affairs Office.

B. Upon receipt of a written grievance, the director of student affairs shall request proof supporting the grievance and request a reply/response with supporting evidence from the party the complaint is against. An administrative review panel will review the grievance and evidence to determine whether the grievance presents a complaint upon which action should be taken. If the grievance is found to have no basis, to be insubstantial, or wholly a question of academic discretion, the grievance shall be dismissed without further action. The student will be advised in writing as to whether the grievance was dismissed or whether additional steps will be taken.

1. If the administrative review panel decides that further inquiry should be made, then the director of student affairs may invoke one of the following procedures:

   a. Informal Resolution Procedure: The director of student affairs may meet informally with all parties and try to resolve the issues raised.

   b. Formal Resolution Procedure: If the director of student affairs is unable to resolve the issue informally, then a grievance committee will be convened to make a final determination of the issue.

2. The grievance committee shall consist of three members. Two members shall be taken from a center alumni list and will be chosen by rotation sequence and availability from a resource panel of alumni who have consented to serve as impartial arbitrators. The third member will be a faculty member or center administrator of Nova Southeastern University. The third member will have no immediate knowledge of the facts in the case.
3. The parties will attend the grievance hearing before the panel, at which time both parties shall submit their evidence and arguments concerning the matter. The parties shall be notified of the time, date, and place of the hearing. All hearing shall be conducted on the main campus during normal working hours. There will be no meeting of the committee unless an active appeal has been filed in accordance with this procedure.

The grievance committee hearing shall be subject to the following procedures:

a. The committee shall have no right to modify, add to, or subtract from this grievance procedure.

b. A majority vote of the committee shall be determinative.

c. The committee may not substitute its judgement for the qualitative academic decision of the faculty member rendering the grade or assessing the student’s work, the committee may recommend only to uphold or reverse the center’s decision. In the event the committee reverses the center’s decision, the program director shall fashion a remedy consistent with sound academic principles, which shall be final. The committee may not address sanctions, which are wholly within the program director’s discretion.

d. The committee shall render its decision in writing on forms provided.

e. The committee shall be obliged to render a decision within fourteen (14) calendar days following the close of the hearing.

4. The decision of the committee shall be final and binding. Any student filing a grievance shall be notified of the committee decision by certified mail to their last official address. Any suit filed to challenge a procedure or determination under these proceedings shall be filed in a court of competent jurisdiction in Broward County, Florida, and the laws of the State of Florida shall apply.

Reservation of Power

Nova Southeastern University reserves the right to amend, modify, add to, or delete its rules, policies, and procedures affecting its institutional relationship with students as deemed necessary by the administration. Any such amendment, modification, addition, or deletion shall not be considered a violation of the relationship between the University and the student. Such right includes modification to academic requirements, course sequencing, time scheduling, curriculum, tuition, and/or fees when in the judgment of the administration such changes are required in the exercise of its educational and pedagogical responsibility. The only exception to this rule is that the student will remain bound by the total number of credit hours required for completion of the degree program for the year in which the student entered the program.
School of Social and Systemic Studies
Faculty, Administration, and Staff

Ronald J. Chenail, Dean
Ph.D. in Family Therapy, M.Ed. in Educational Psychology with Counseling Specialization
Teaching interests: Discourse in therapy and mediation; qualitative inquiry.

Sharon Boesl, Associate Dean, Clinical and Community Services
Ph.D. Candidate in Family Therapy, M.A. in Psychology
Teaching interests: Systemic approaches to court-ordered evaluation and treatment; management of mental health agencies; conduct of initial intake process with clients.

Ann Booth, M.S., Program Coordinator/M.S. and Ph.D. Programs in Dispute Resolution

Gale R. Bouchillon, Assistant Dean, Administrative and Academic Support Services
Director of Continuing Education
M.S. in Child and Youth Care Administration

Thomas Boudreau, Visiting Assistant Professor of Dispute Resolution
Ph.D. in Social Science, M.A. in Political Science
Teaching interests: International law; world politics; interpersonal communications; nonviolence in America.

Jon Breedlove, B.S., Assistant to the Chair, Department of Dispute Resolution

Christopher F. Burnett, Assistant Professor of Family Therapy
Psy.D. in Clinical Psychology, M.A. in Psychology
Teaching interests: Linguistic approaches to Bowenian and other multigenerational family therapies; the interface of qualitative and quantitative research methodologies; Bowenian approaches to live team supervision.

Sean Byrne, Assistant Professor of Dispute Resolution
Ph.D. and M.A. in International relations, M.S.Sc. in Irish Political Studies.
Teaching interests: Introduction to ADR; ADR applications; international conflict management; institutional & organizational analysis; theories of conflict and conflict resolution; ethnic and intergroup conflict; qualitative research methods; and children, education, and conflict.

Patricia Cole, Assistant Professor of Family Therapy
Ph.D. in Family Therapy, M.Ed. in Counseling Education
Teaching interests: Family relationships in family business and in other work contexts; gender concerns in the work place; qualitative research.

Tresha Daise, B.S., Assistant to the Deans

Rosy DeBernardo, M.S.W., Practicum Coordinator for Dispute Resolution Programs

79
Barry Duncan, Visiting Assistant Professor of Family Therapy
Psy.D. in Clinical Psychology
Teaching interests: Brief applications of systems theory; practical applications of the empirical literature; integration of different systemic models; common factors across treatments.

Nora Femenia, Assistant Professor of Dispute Resolution
Ph.D. in Social Science, M.S. in Political Science
Teaching interests: Communication; consultation.

Douglas Flemons, Associate Professor of Family Therapy
Ph.D. in Family Therapy, M.A. in Counseling Psychology
Teaching interests: Relational means of creating and understanding contextual phenomena such as therapy, hypnosis, and learning; writing as inquiry; therapeutic imagination; the presence of absence and the absence of presence.

Shelley K. Green, Director, Ph.D. Program in Family Therapy,
Associate Professor of Family Therapy
Ph.D. in Marriage and Family Therapy, M.S. in Family Studies
Teaching interests: Supervision and training in systemic therapies; the role of gender in team development; therapist learning styles and personal competence; systemic approaches to sexual issues in therapy; brief therapy with persons with AIDS.

Nancy Holland, Receptionist

John Lande, Assistant Professor of Dispute Resolution
Ph.D. in Sociology, J.D. in Law, M.S. in Sociology
Teaching interests: Legal issues in dispute resolution; dispute resolution in the courts; the role of lawyers in dispute resolution; professional and ethical issues; dispute resolution in organizations; family mediation; civil and commercial dispute resolution; dispute resolution theory and practice; policy issues and evaluation in dispute resolution.

Heidi Levinson, Program Coordinator, M.S. and Ph.D. Programs in Family Therapy

Estella Martinez, Operations Manager

Brian D. Polkinghorn, Assistant Professor of Dispute Resolution
Ph.D. in Social Science, M.S. in Conflict Resolution
Teaching interests: Environmental/public policy dispute resolution; multi-party conflict intervention; negotiation theory and practice; ethics of third-party intervention.

Anne Hearon Rambo, Associate Professor of Family Therapy
Ph.D. in Family Therapy, M.S. in Social Work
Teaching interests: Supervision and training in systemic therapies; therapy as play and play as therapy; development of the therapist’s unique personal style; rhetoric and language skills training; family therapy history.

Karen Schwartzman, Assistant to the Director, Clinical and Community Outreach Center
Lee Shilts, Chair, Department of Family Therapy, Associate Professor  
Ph.D. in Family Therapy, M.Ed. in School Psychology  
**Teaching interests:** Brief solution-focused theory and therapy; supervision and training in systemic therapies; the use of solution-focused therapy in nontraditional settings; Ericksonian hypnotherapy; use of letter writing in therapeutic settings.

Arlene Skerrit, B.A., Assistant to the Directors, Department of Family Therapy

Marcia Sweedler, Visiting Assistant Professor of Dispute Resolution  
Ph.D. in Education Policy, Planning, and Administration, M.S. in Education  
**Teaching interests:** Developing a systemic approach to conflict resolution through training, ADR, and workplace/school climate.

Chantay Tanner, Receptionist

William C. Warters, Assistant Professor of Dispute Resolution  
Ph.D. in Social Science, B.A. in Conflict Resolution  
**Teaching interests:** Conflict resolution theory and practice; dispute resolution in higher education; violence prevention; dispute resolution systems design.

Margo Weiss, Director, M.S. in Family Therapy Program and Medical Family Therapy Program,  
Assistant Professor of Family Therapy  
Ph.D. in Family Therapy, M.S. in Family Therapy, M.S. in Community Counseling  
**Teaching interests:** Medical family therapy; chronic illness and families; narrative analysis; autism; brief interventions in health care settings.

Cathie J. Witty, Chair, Department of Dispute Resolution, Assistant Professor  
Ph.D. in Anthropology, M.P.A. in Public Administration  
**Teaching interests:** Legal anthropology; cross-cultural and comparative dispute resolution; qualitative research; gerontology.

The provisions set forth in this document are not to be regarded as an irrevocable contract between the student and Nova Southeastern University. Regulations and requirements, including tuition and fees, are necessarily subject to change without notice at any time at the discretion of the administration. The University further reserves the right to require a student to withdraw at any time, as well as the right to impose probation on any student whose conduct is unsatisfactory. Any admission on the basis of false statements or documents is void upon discovery of the fraud, and the student is not entitled to any credit for work that he or she may have done at the University. Upon dismissal or suspension from the University for cause, there will be no refund of tuition or fees. The balance due Nova Southeastern University will be considered receivable and will be collected. An official transcript of a student’s academic record cannot be released until all of his or her accounts, academic and nonacademic, are paid.

Any Nova Southeastern University student has the right to inspect and review his or her educational record. The policy of the University is not to disclose personally identifiable information contained in a student’s educational record without prior written consent from the student, except to University officials, to officials of another school in which the student seeks enrollment, to authorized representatives of federal or state agencies, to accrediting organizations, to parents of dependent students, under judicial order, to parties in a health or safety emergency, or when verifying graduation with a particular degree.

A student also has the right to petition Nova Southeastern University to amend or correct any part of his or her educational record that he or she believes to be inaccurate, misleading, or in violation of the privacy or other rights of students. If the University decides it will not amend or correct a student’s record, the student has a right to a hearing to present evidence that the record is inaccurate, misleading or in violation of the privacy or other rights of students.

If these rights are violated, a student may file a complaint with the Department of Education. A student may obtain a copy of the Educational Privacy Act policy by requesting it in writing from the Office of the University Registrar, Nova Southeastern University, 3301 College Avenue, Fort Lauderdale, Florida 33314-7796. A schedule of fees and a listing of the types and locations of educational records are contained in this policy.

Nova Southeastern University does not discriminate on the basis of handicap, sex, race, religion, or national or ethnic origin in admission, access, or employment for any of its programs and activities. The university registrar and director of human resources have been designated as student and employee coordinators, respectively, to assure compliance with the provisions of the applicable laws and regulations relative to nondiscrimination.

The school is authorized under federal law to enroll nonimmigrant alien students.

The Nova Southeastern University general policies on student relations are on file in the Office of the University Registrar. Nova Southeastern University programs are approved for the training of veterans and other eligible persons by the Bureau of State Approval For Veterans Training, Florida Department of Veterans’ Affairs. Eligible veterans and veterans’ dependents should contact the Office of the University Registrar, 3301 College Avenue, Fort Lauderdale, Florida 33314-7796, telephone (954) 370-5685.
