How to Survive Drowning in a Sea of Projects Using Asana as Your LifeSaver

Jaime Goldman
The Problem

Inefficiencies in Project Management
The Problem

• Too many emails asking what’s going on
  • Lose track of what’s what and project progression

• Meetings too long
  • Spend too much time creating meeting agendas trying to figure out what we all did over the past month
  • Spend too much time discussing the actual work accomplished

• Forgotten Projects

• Too many to-do lists that never got checked off
The Solution

asana
The Solution

• All of our back and forth about a project or task is tracked within the task itself, including attachments.
The Solution

• Our monthly meetings last about 15 minutes

• Creating an agenda for the meetings is greatly reduced as well.
  • All tasks and projects are in Asana rather than in a million different places (email, libstats, folders, notebooks, etc)
The Solution

• Projects are not lost or forgotten
  • Due Dates are assigned
  • Additional information is added when needed
• Add-ons to track time it takes to complete a task
The Solution

• Checklist is more organized.
• Easier to accomplish set goals.

To Do List
1) Make to do list ✓
2) Check off first thing on to do list ✓
3) Realize you’ve already accomplished 2 things ✓
4) Reward yourself with nap (in progress)
