President’s Message

Nova Southeastern University is committed to providing an educational environment that encourages students to be the best they can be. Historically Nova has provided quality education through a diverse array of delivery systems ranging from the traditional to state-of-the-art electronic technologies. Consistent with our mission statement, we prepare students for leadership roles in the professions and provide support for research and community service while maintaining an environment fostering creativity and innovation. We recognize that as Will Rogers once noted, "even if you’re on the right track, if you just sit there you’ll get run over."

Given our commitment to providing educational opportunities that prepare tomorrow’s professionals to serve optimally their professions, clients, and society, it is essential that curricula be designed at each level to effectuate this mission. Tomorrow’s professionals must possess not only the traditional attributes — expertise, ethical sensibilities, and commitment to furthering professional and societal values — but also the capacity to utilize contemporary technology, apply and appreciate relevant findings and approaches of other disciplines, and to operate in a culturally diverse milieu.

Nova Southeastern’s goal is to maintain and enhance the array of professional schools and concomitant programs required to fulfill its mission. It must support, enhance, and expand existing professional centers and, where appropriate, reorganize University components to facilitate synergy and enhance the education of professionals. We believe that education is not merely a means to an end, but is itself intrinsically valuable. Accordingly, the time spent at Nova Southeastern by students, faculty, and staff should be informative, exciting, and rewarding.

Ovid C. Lewis
Interim President

We welcome you in joining in our common mission of creating the best possible educational setting.
Nova Southeastern University

Nova Southeastern University is an independent, nonsectarian, nonprofit university chartered by the State of Florida in 1964. It is located on a 200-acre main campus west of Fort Lauderdale at 3301 College Avenue in Davie, 10 miles inland from the Atlantic Ocean and easily accessible from major highways, including I-75, I-95, I-595, the Sawgrass Expressway, and Florida's Turnpike. Additional locations are in downtown Fort Lauderdale, Coral Springs, and Port Everglades. Its thirteen centers of study offer campus-based undergraduate and graduate programs leading to degrees in education, law, psychology, oceanography, computer sciences, social sciences, business and public administration, osteopathy, pharmacy, optometry, and allied health. As an acknowledged leader in field-based degree programs, Nova offers courses of study leading to the bachelor's, master's, educational specialist, and doctoral degrees in education, in business and public administration, in psychology, in the health professions, and in physical, social, and computer sciences.

The Family and School Center is a community resource that provides education and therapeutic services for families and their children. The center comprises three units: the University School, the Ralph J. Baudhuin Oral School, and The Family Center. The University School is a demonstration school serving children from preschool through high school preparing them in the upper grades for college. The Baudhuin Oral School provides programs for children with specific learning needs and/or hearing disabilities. The Family Center provides a spectrum of family-related programs designed to promote positive interaction between parents and children.

From the beginning, the University has distinguished itself by its innovative outlook, its unique programs that provide both traditional and nontraditional choices in educational programs, and its research in many fields aimed at solving problems of immediate concern to mankind.

The University's centers and programs share a common mission - to educate students for leadership roles in a variety of professions, such as law, education, psychology, medicine, optometry, pharmacy, allied health, business and public administration, oceanography, and computer and information science. In the Nova Southeastern University educational continuum, preprofessional training begins as early as the University School, continues through the college level, and culminates in the various centers for professional studies. Through the Nova Southeastern University education plan, students master appropriate skills and disciplines at each academic level, develop a sense of professional ethics and responsibility, and learn to appreciate the role of the professional as a key individual in society.

"The NSU Plan" stresses the critical relationship between theory and practice; it reinforces and tests the classroom experience through applied research and community service as integral parts of academic experience. Consistent with its mission, the University extends its resources to provide educational opportunities to working professionals nationwide, with faculty teaching at corporate and other locations across the country. NSU also delivers programs through a variety of educational technologies, including telecommunications. Nova Southeastern University is committed to the idea that education should not be timebound or placebound. Through its educational offerings, research projects, and programs of public service, the University encourages the free exchange of ideas and the search for knowledge that is the cornerstone of the academic tradition.

Mission Statement

Nova Southeastern University provides educational programs of distinction from prekindergarten through the doctoral level at times and in locations convenient to students, prepares students for leadership roles in business and the professions, encourages research and community service, and fosters an atmosphere of creativity and innovation utilizing technology where appropriate.

Approved by the Board of Trustees, June 22, 1992
Dean’s Message

We at the School of Social and Systemic Studies welcome your interest in our academic center and invite you to join us in our efforts to create new and better ways of helping people improve their lives. To meet this challenge, we have developed a number of innovative degree, certificate, and postgraduate programs, all of which integrate scholarly inquiry with the provision of direct clinical services for the citizens of South Florida.

If you choose to become part of our school, I think you will be greatly impressed with our faculty and students. They are a friendly, helpful, and productive group of scholars who have distinguished themselves in their clinical work and in their various academic pursuits. I truly believe that the number of significant joint projects carried out among members of the faculty and student bodies clearly reflects the type of thriving academic community we strive to nurture here in the school. Furthermore, recent surveys of our program graduates indicate that most have successfully gone on to employment as faculty, researchers, and practitioners within their field.

I encourage you to come visit us and gain first-hand experience of the quality programs and people we have. I think you will be pleased with what you see and feel at our school.

Ronald J. Chenail, Ph.D.
Dean
School of Social and Systemic Studies
Introduction

The School of Social and Systemic Studies is one of thirteen centers of Nova Southeastern University. Each center functions as an autonomous unit, and each has a specific educational focus. The School of Social and Systemic Studies focuses on teaching, researching, and applying social theories to improve human living. It operates degree and postgraduate programs in family therapy and alternative dispute resolution. The School also sponsors a community service clinic and conducts research to understand social interaction and enhance human services.

Within the school, the Department of Family Therapy offers the M.S. for applicants who plan to practice family therapy. The M.S. in Family Therapy prepares graduates for internship and employment where they can accumulate supervised experience toward a license to independently practice marriage and family therapy. The M.S. degree program in marriage and family therapy has candidacy status with the Commission on Accreditation for Marriage and Family Therapy Training and Education of the American Association for Marriage and Family Therapy, effective 1993 - 1998.

The school offers the Ph.D., as well, for those who plan to also supervise, teach, and research family therapy. The Ph.D. in Family Therapy prepares graduates to provide leadership for community practices and agencies, training programs at universities and institutes, and professional organizations and associations. Doctoral students learn scholarly inquiry through qualitative research training in conversation analysis, ethnography, and other methods of human communication study. Students begin their clinical training at Family Therapy Associates, our clinical facility, and then serve in a variety of internship sites.

The department also offers postgraduate programs for those who wish to be licensed in family therapy or specialize in family and business consultation. The Clinical Specialist degree program in Family Systems Health Care has created training and research projects to encourage collaboration among physicians, family therapists, and family members. The specialization program in Family, Work, and Business has developed approaches to assist family businesses and help families and employers work with one another. Degree students and qualified postgraduate students may enroll in Family Systems Health Care and other specializations.

The school offers programs in alternative dispute resolution through the Department of Dispute Resolution. As an alternative to costly and difficult legal disputes, mediation, arbitration, negotiation, and conciliation have emerged as some of the useful forms of dispute resolution. The Graduate Certificate in Dispute Resolution provides professionals an opportunity to learn the basics of mediation and negotiation skills, and the M.S. and Ph.D. in Dispute Resolution offer comprehensive education in nonadversarial problem resolution for reflective practitioners. The School also offers Florida Supreme Court approved certification training in family and circuit civil mediation, as well as provides consultation and training for business, government, and the community.

Also, through the central administration of the dean's office, the School has developed research initiatives and research publications. Funded projects have included research on family therapy services for the neurologically injured, juveniles placed by the court in diversionary programs, and women in family businesses. The school publishes The Qualitative Report, a print and electronic periodical for articles and news in qualitative research in family therapy and related areas.

All research initiatives, training programs, and clinical services emphasize respect for clients and colleagues. The programs avoid pathologizing or stereotyping any person and encourage all students, staff, and faculty to promote human welfare through social criticism and action. We welcome applications from qualified candidates from either gender and all races, ages, religions, and ethnicities.
Academic Calendar for 1994-1995

Fall Semester 1994

Start Classes:               Wednesday, September 7

Holidays:                   Yom Kippur, Thursday, September 15
                            Thanksgiving, Thursday, November 24 and Friday, November 25

Finish Classes:             Tuesday, December 13

Spring Semester 1995

Start Classes:               Monday, January 9

Holidays:                   Martin Luther King Day, Monday, January 16
                            Good Friday, Friday, April 14

Reading Week:               Monday, March 6 to Saturday, March 11

Finish Classes:             Saturday, April 15

Summer Semester 1995

Term I:                     Monday, May 8 - Saturday, June 24

Term II:                    Monday, June 26 - Saturday, August 12

Holidays:                   Memorial Day, Monday, May 29
                            Independence Day, Tuesday, July 4

Fall Semester 1995

Start Classes:              Tuesday, September 5

Finish Classes:             Monday, December 11
The Department of Family Therapy
The Master of Science in Family Therapy Program is designed to help students develop clinical excellence. In 48 credit hours of classes and clinical practice, students prepare for careers as marriage and family therapists. Training is concentrated on brief, interactional models of family therapy, qualifying our graduates to practice in a time-sensitive, cost-effective manner. Our graduates find employment in private practice, employee assistance programs, managed care and health maintenance organizations, family service agencies, schools, churches, hospitals, and other clinical settings (records are kept on graduates’ employment, and a brief summary of these employment statistics is available on request).

Students in the program receive clinical training and experience at Family Therapy Associates, Nova’s own family therapy clinic, which serves a wide variety of clients from all life circumstances. Please note that all students enrolled in a practicum must provide proof of professional liability insurance. Additional information about the insurance may be found on the listing of tuition and fees, page 46. In addition, after this initial training, students may be placed in an off-campus internship site. Available internship sites offer the opportunity for students to specialize in work with bilingual families, families with a developmentally delayed child, families coping with a chronically ill family member, and with other special populations. The opportunity for intense, closely supervised, and widely varied clinical experience is an important feature of our program.

Applications are accepted from any person with a bachelor’s degree from a regionally accredited university. Criteria for acceptance into the master’s program include a major emphasis on student interest in learning systemic theories and therapies. The second major emphasis in master’s admission is on interviewing ability. Applicants who demonstrate significant ability to listen to others, lead conversation, and learn from dialogue will be best prepared for admission. Detailed information on applications and admissions may be found on page 38.

Students enroll for at least 6 credits per semester; however, they are encouraged to register for 9 or 12 credits per semester. Taking 9 credits per term, students can expect to complete the program in two years. Taking 6 credits per term, students complete the program in three years. Both plans include study during summer semesters. Students usually apply in the spring to begin their programs in the fall of the year. All systems theories and family therapy course sequences begin in the fall.

In the last semester of their degree program, all M.S. students complete a comprehensive examination. The examination is a series of questions that cover all courses and practica. The examination serves as a time of reflection and integration prior to graduation. Students who fail the examination twice shall not graduate.

The Master of Science degree program in Marriage and Family Therapy has candidacy status with the Commission on Accreditation for Marriage and Family Therapy Training and Education of the American Association for Marriage and Family Therapy (AAMFT), effective 1993 - 1998. The program fulfills all the academic requirements for state licensure in Florida, and for clinical membership in AAMFT (additional post-master’s experience is required for both credentials).

For specifics regarding the comprehensive examination and the internship experience, please refer to the student handbook compiled for this program.

Course Descriptions

(All courses are 3 credit hours unless otherwise specified)

**SFTM 5310 - Introduction to Systems Theories**

Presents an overview of theories that use metaphors of system, pattern, interaction, and communication to describe human behavior and relationships, with an emphasis on cybernetics. Offered in fall.

**SFTM 5311 - Critical Issues in Systems Theories**

Addresses critical issues in systems theories, including biological, narrative, and feminist critiques of cybernetics. Prerequisite: Introduction to Systems Theories (SFTM 5310). Offered in winter.

**SFTM 5320 - Introduction to Marital and Family Therapy**

Reviews the history of marital and family therapy and the clinical approaches of interactional therapies. Focuses on basic counseling concepts and skills. Offered in fall.

**SFTM 5321 - Theories of Marital and Family Therapy**

Offers a comparative study of theories of marital and family therapy, including systemic, structural, strategic, intergenerational, contextual, behavioral, and experiential therapies. Survey of differences in clinical practice. Offered in winter.
SFTM 5322 - Clinical Practice in Marital and Family Therapy
Examines applications of family therapy methods in specific situations, such as divorce, child rearing, school problems, chronic illness, teen runaways, elderly care, substance abuse, suicide, family violence, and medical trauma. Prerequisites: Introduction to Marital and Family Therapy (SFTM 5320) and Theories of Marital and Family Therapy (SFTM 5321). Offered in summer and fall.

SFTM 5350 - Research in Marital and Family Therapy
Reviews quantitative and qualitative methods of inquiry, as exemplified in recent marital and family therapy research studies. Focuses on teaching students to be intelligent, critical consumers of research in the field. Offered in winter.

SFTM 5360 - Practicum I
Provides the opportunity for practice of marital and family therapy at Family Therapy Associates, under faculty supervision. Prerequisites: Introduction to Systems Theories (SFTM 5310), Introduction to Marital and Family Therapy (SFTM 5320), and Legal, Ethical, and Professional Issues (SFTM 6340).

SFTM 5510 - Academic Writing
A seminar on how to write well. Offered in summer.

SFTM 6320 - Assessment in Marital and Family Therapy
An overview of methods and instruments used to define problems and indicate solutions. Comparative study of interactional approaches and individual and family dysfunction assessments. Prerequisites: Introduction to Marital and Family Therapy (SFTM 5320) and Theories of Marital and Family Therapy (SFTM 5321). Offered in summer.

SFTM 6331 - Diversity in Human and Family Development
Focuses on the diversity of psychosocial development across ethnicity, class, gender, and culture, from childhood through old age. Discusses the implications for interactional therapies. Offered in fall.

SFTM 6332 - Human Sexuality and Gender
Reviews the psychosocial development of sexuality and gender from childhood through old age. Summary of clinical approaches to sexual and gender problems, comparing interactional approaches with psychodynamic and behavioral models. Offered in summer.

SFTM 6333 - Theories of Personality and Psychopathology
Reviews the major theories of personality and psychopathology, emphasizing psychiatric diagnostic classification systems. Focuses on the study of implications for treatment and comparisons with interactional approaches. Offered in summer.

SFTM 6340 - Legal, Ethical, and Professional Issues
An explanation of accreditation and licensure organizations and the ethical codes they promote in family therapy and related fields; reviews therapists' legal responsibilities and liabilities in mental health and family law, insurance claims, and private practice management; offers an overview of professional opportunities in public service and training programs. Offered in fall.

SFTM 6360 - Practicum II
Provides the opportunity for practice of marital and family therapy at Family Therapy Associates, under faculty supervision. Prerequisites: Practicum I (SFTM 5360), Critical Issues in Systems Theories (SFTM 5311), and Theories of Marital and Family Therapy (SFTM 5321).

SFTM 6361 - Practicum III
Provides the opportunity for practice of marital and family therapy at Family Therapy Associates or at an approved off-campus internship site, under supervision of faculty members and qualified professionals. Prerequisites: Practicum II (SFTM 6360), Clinical Practice in Marital and Family Therapy (SFTM 5322), and faculty approval.
SFTM 6362 - Practicum IV
Provides the opportunity for practice of marital and family therapy at Family Therapy Associates or at an approved off-campus site, under supervision of faculty and qualified professionals. Must be repeated until the student achieves a total of 500 client contact hours, or may be repeated if the student wishes additional experience beyond the requisite 500 hours. Prerequisite: Practicum III (SFTM 6361).

SFTM 6374 - Individual and Group Psychotherapy
Reviews major theories of psychotherapy and understandings of psychosocial development on which they are based. Explores individual and group techniques from psychodynamic, behavioral/cognitive, humanist/experiential, and systemic approaches. Offered in winter.
The Ph.D. in Family Therapy

The Ph.D. program in family therapy prepares graduates for careers as teachers, researchers, supervisors, and senior clinicians. The 90-credit-hour program entwines systemically oriented theory, clinical practice, and qualitative research. The core curriculum includes:

- Two philosophy classes, one devoted to the cybernetic ideas of Gregory Bateson, the other to the issues of social constructionism, feminism, and postmodernism.

- Four courses that explore the theoretical and clinical applications of the notions discussed in the philosophy courses. Particular attention is paid to brief interactional therapies, such as MRI and solution-focused approaches, Ericksonian hypnotherapy, the work of the Milan Associates, and a variety of reflecting-team formats.

- Two years of continuous enrollment in clinical practicums at Family Therapy Associates. Each semester, teams of five or six students meet weekly with a faculty member for six hours of live supervision of cases at one of our two off-campus clinics.

- Four classes in qualitative research, where students are taught the theory and practice of research, including the logic of research design, the art of ethnographic interviewing and participant observation, and a variety of means for analyzing and organizing data.

- One course in the supervision and teaching of family therapy. This class, which fulfills the didactic instruction component for AAMFT approved supervisor status, may be followed by either a supervision and/or a teaching practicum.

Students have the opportunity to take electives in various specialties, such as family-focused health care, family and business studies, and dispute resolution, one of which may be included as part of the curriculum. Other electives include courses that help students fulfill many of the academic requirements for licensure in Florida (and other states) as a Marriage and Family Therapist. During the program, students may also fulfill the academic requirements for becoming a Clinical Member and Approved Supervisor in the American Association for Marriage and Family Therapy. The program's supervision class has been approved by the Commission on Supervision of the AAMFT. Students who wish further training in the supervision and teaching of systemic therapies may apply to the faculty for permission to take supervision and/or teaching practicums. If approved, students may supervise beginning clinicians and/or may assist in instructing master's students in the school.

Before beginning their second year, students go through the Preliminary Examination process, during which the faculty assess evaluations of written class assignments and practicum evaluations. At the beginning of July of their second year, students submit their Qualifying Examination, a publishable-quality paper that makes an original contribution to the field of family therapy. A number of the papers that have passed this examination have subsequently been accepted as articles in juried journals, including Family Process and the Journal of Marital and Family Therapy, and/or for presentation at conferences, including the Fifth International Congress on Ericksonian Approaches to Hypnosis and Psychotherapy.

Once students have passed their Qualifying Examination, they are eligible to begin the dissertation process. Students proceed to hone their area of interest and to conduct their research and analyze the results. The final defense presents the completed study to the members of the committee and interested members of the academic community.
Students must enroll full time in the program, taking 9 to 15 credit hours per semester. Those who take 9 hours per term can expect to complete the program in approximately four years. It is possible for students who take 12 or more hours per term to graduate in three years. All students must be continuously enrolled, taking classes in fall, winter, and summer semesters.

Interested applicants should complete their application to the program during the winter preceding their desired fall start date. Detailed information on applications and admissions may be found on page 38. The faculty carefully consider a number of factors when choosing applicants for the program: knowledge of systemic theory as it relates to various approaches of family therapy, strong writing skills, clinical experience, interpersonal style, and grades earned in previous undergraduate/graduate programs.

Students accepted for the fall who do not possess a strong background in systemic approaches to family therapy take their first orientation class in July and August. Applicants accepted for fall admission who are interested in taking classes prior to the commencement of their programs may obtain permission to take electives as post-graduate students.

Course Descriptions
(All courses are 3 credit hours unless otherwise specified)

SFTD 5000 - Doctoral Seminar
General orientation to doctoral study. Students learn research, writing, and library skills necessary for authoring papers in doctoral courses. This course is required for the first term and may be repeated in future terms. 1 credit hour.

SFTD 5005 - Introduction to Systemic Family Therapy
Orients the incoming student to the core ideas and essential clinical skills of the various systemic approaches to family therapy taught in the SSSS Family Therapy Program. Offered in summer.

SFTD 5006 - Introduction to Systems Theories
Overview of theories that use metaphors of system, pattern, interaction, and communication to describe human behavior and relationships. Study of the emergence of theories from cybernetics to language studies. Offered in fall.

SFTD 5007 - Research in Marital and Family Therapy
Review of quantitative, qualitative, and narrative methods of inquiry. Focus on the use of research in the development of family therapy theories, practices, and professions. Offered in winter.

SFTD 5010 - Systemic Family Therapy I
The systemic therapies are studied in the wider context of nonsystemic and related therapies. Structural, strategic, psychoeducational, and family of origin approaches are reviewed as well as the interactional and linguistic approaches discussed in SFTD 5020 and SFTD 5030. Prerequisite: Introduction to Marital and Family Therapy (SFTD 5005) or equivalent. Offered in fall.

SFTD 5020 - Systemic Family Therapy II
Study of those systemic therapies oriented to the social organization of communication, emphasizing the work of the Mental Research Institute and current developments such as solution-focused therapy. Prerequisite: Systemic Family Therapy I (SFTD 5010). Offered in winter.

SFTD 5030 - Systemic Family Therapy III
Study of those systemic therapies oriented to the meaning expressed in communication, emphasizing the work of the Milan team and current developments such as the reflecting team. Prerequisite: Systemic Family Therapy II (SFTD 5020). Offered in fall.

SFTD 5040 - Systemic Family Therapy IV
The complexities and subtleties of language and the art of therapeutic implication are studied, with a focus on the student's own clinical style. The work of Milton Erickson serves as a primary resource. Prerequisite: Systemic Family Therapy III (SFTD 5030). Offered in winter.

SFTD 5110 - Language Systems
Locates the practice of therapy within cultural, philosophical, and scientific domains. Uses notions about the relational nature of language as a means of examining, critiquing, and explicating therapeutic practice. Systems Theories (SFTD 5006) or equivalent. Offered in winter.

SFTD 5120 - Thinking Systems
Study of systemic theory, particularly the ideas of relationship, difference, and context. Emphasizes the ideas of Gregory Bateson. Prerequisite: Introduction to Systems Theories (SFTD 5006) or equivalent. Offered in fall.

SFTD 5210 - Clinical Practicum I
Supervised clinical work in systemic therapy. Offered in fall. (To be taken concurrently with SFTD 5010.)
SFTD 5220 - Clinical Practicum II
Supervised clinical work in systemic therapy. Offered in winter. (To be taken concurrently with SFTD 5020.) Prerequisite: Clinical Practicum I (SFTD 5210).

SFTD 5300 - Legal, Ethical, and Professional Issues
Explanation of accreditation and licensure organizations and the ethical codes they promote in family therapy and related fields; review of therapists' legal responsibilities and liabilities in mental health and family law, insurance claims, and private practice management; overview of professional opportunities in public service and training programs. Offered in fall.

SFTD 5410 - Logic and Methods of Research
Introduces key distinctions from philosophers of science and discusses the characteristics of, and differences between, qualitative and quantitative research designs, in terms of their respective logic and methods. Surveys the extant research in family therapy and charts new directions. Prerequisite: Research in Marital and Family Therapy (SFTD 5007) or equivalent. Offered in fall.

SFTD 6210 - Clinical Practicum III
Supervised clinical work in systemic therapy. Offered in summer. Prerequisite: Clinical Practicum II (SFTD 5220).

SFTD 6220 - Clinical Practicum IV
Supervised clinical work in systemic therapy. Offered in fall. (To be taken concurrently with SFTD 5030.) Prerequisites: Clinical Practicum III (SFTD 6210) and Legal, Ethical, and Professional Issues (SFTD 5300).

SFTD 6230 - Clinical Practicum V
Supervised clinical work in systemic therapy. Offered in winter. (To be taken concurrently with SFTD 5040.) Prerequisite: Clinical Practicum IV (SFTD 6220).

SFTD 6240 - Clinical Practicum VI
Supervised clinical work in systemic therapy. Offered in summer. Prerequisite: Clinical Practicum V (SFTD 6230).

SFTD 6310 - Supervision and Teaching
Introduction to supervision and instruction in systemic therapies. Review of supervision and teaching literature and didactic training in live supervision, case consultation, and instruction. Prerequisites: Clinical Practicum V (SFTD 6230) and instructor permission. Offered in summer.

SFTD 6320 - Supervision Practicum
Extensive live supervision and case consultation experience with clinicians in learning systemic therapies. Students receive supervision of their supervision of others. Students may repeat the course for credit. Prerequisite: Supervision and Teaching (SFTD 6310) and faculty approval. Offered in fall.

SFTD 6410 - Data Gathering and Organization
Covers various interviewing strategies and techniques, as well as participant observation. Questionnaire design is also discussed. Also, methods of organizing data, such as transcription, are explored. Exemplary studies from other disciplines are used; however, studies from the family therapy literature, when available, are offered. Prerequisite: Logic and Methods of Research (SFTD 5410). Offered in winter.

SFTD 6430 - Data Analysis
A variety of categorical and sequential analytical methods are presented, including analysis of variance (ANOVA), discourse and conversation analyses, thematic analysis, grounded theory, and so on. Exemplary studies from other disciplines are used; however, studies from the family therapy literature, when available, are offered. Prerequisite: Data Gathering and Organization (SFTD 6410). Offered in summer.
SFTD 6510 - Academic Writing
A seminar on how to write well. Offered in summer.

SFTD 6520 - Diversity in Human and Family Development
Reviews human development in the context of family transitions such as childbirth, childhood, adolescence, courtship, marriage, maturity, old age, and death. Focuses on the diversity of psychosocial development across ethnicity, class, gender, and culture. Discussion of implications for interactional therapies. Offered in fall.

SFTD 6530 - Advanced Topics in Systemic Studies
An advanced examination of the application of systemic understanding to a variety of topics. (May be repeated for credit.)

SFTD 6540 - Advanced Topics in Systemic Family Therapy
Advanced topics relevant to the field of systemic family therapy. (May be repeated for credit.)

SFTD 6900 - Dissertation
The development, writing, and defense of the dissertation. When approved, students register for at least 3 credits per term for a minimum of 12 credits. Prerequisites: Systemic Family Therapy IV (SFTD 5040), Thinking Systems (SFTD 5120), Language Systems (SFTD 5110), Research Strategies IV (SFTD 5420), Clinical Practicum VI (SFTD 6240), successful completion of the qualifying examination, and Dissertation Committee approval.

SFTD 7301 - Assessment in Marital and Family Therapy
Overview of methods and instruments used to define problems and indicate solutions. Comparative study of interactional approaches and individual and family dysfunction assessments. Offered in summer.

SFTD 7302 - Personality Theories and Psychopathology
Review of major theories of personality theory and psychopathology, emphasizing psychiatric diagnostic classification systems. Study of implications for treatment and comparisons with interactional approaches. Offered in summer.

SFTD 7311 - Human Sexuality and Gender
Review of the psychosocial development of sexuality and gender from childhood through old age. Summary of clinical approaches to sexual and gender problems comparing interactional approaches with psychodynamic and behavioral models. Offered in summer.

SFTD 7313 - Individual and Group Psychotherapy
Review of major theories of psychotherapy, emphasizing psychodynamic, behavioral, humanistic, and cognitive approaches. Exploration of individual and group techniques from each approach. Investigation of theories of personality upon which the psychotherapies are based. Comparison of these ideas with interactional theories. Offered in winter.

SFTD 7350 - Assessing and Presenting Research
Brings together and integrates material from the three previous research classes. Deals with the ethics of research, as well as with questions of reliability and validity in both quantitative and qualitative methods. Emphasis is placed on the problems of coherently and succinctly presenting research results in proposals, posters, brief reports, and articles. Exemplary studies from other disciplines are used; however, studies from the family therapy literature, when available, are offered. Prerequisite: Data Analysis (SFTD 6430). Offered in fall.

SFTD 7360 - Teaching Practicum
Supervised teaching experience in undergraduate or graduate instruction in family therapy or related field. May be repeated for credit. Prerequisites: Supervision and Teaching (SFTD 6310) and faculty approval.
Certificate in Systemic Family Therapy

For students with graduate degrees in family therapy and related fields, the Department of Family Therapy offers programs for initial training, advanced practice, and specialization in systemic and family therapies. The department offers an organized, integrated sequence of postgraduate study in the Systemic Family Therapy Certificate Program. Qualified applicants may register for single courses or sequences of classes to achieve professional development goals or to fulfill the requirements of state licensing boards and national professional associations. Postgraduate studies are highly individualized and each student crafts a course plan in consultation with faculty and staff.

The Systemic Family Therapy Certificate Program is a series of four foundational courses and at least four electives that lead to a certificate in systemic family therapy. The certificate program prepares clinicians in the fundamentals of systemic therapies and provides opportunities for intensive clinical training and specialization. The foundational courses begin with introductory courses in systems theories and therapies, continue with a survey of the range of family therapy theories, and end with a course on the application of systemic theories to clinical practice. In addition to the foundational courses, students select at least four additional courses. The additional courses may be drawn from master's-level courses in ethics, assessment, human development, and practicum. With approval, qualified students may register for doctoral-level supervision training. The following courses serve as a base of study (course descriptions may be found in the M.S. in Family Therapy section):

<table>
<thead>
<tr>
<th>Foundational Courses</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Introduction to Marital and Family Therapy (SFTM 5320)</td>
<td></td>
</tr>
<tr>
<td>Introduction to Systems Theories (SFTM 5310)</td>
<td></td>
</tr>
<tr>
<td>Theories of Marital and Family Therapy (SFTM 5321)</td>
<td></td>
</tr>
<tr>
<td>Clinical Practice in Marital and Family Therapy (SFTM 5322)</td>
<td></td>
</tr>
</tbody>
</table>

The above courses provide a broad study of systems concepts in clinical practice. The Introduction to Marital and Family Therapy orients students to the fundamentals of problem-focused and solution-focused therapies. Students then study systems and cybernetic ideas in Introduction to Systems Theories. In Theories of Marital and Family Therapy, students survey the range of transgenerational, symbolic-experiential, structural, strategic, Milan, narrative, and reflecting team therapies. Clinical Practice in Marital and Family Therapy enables students to apply systems therapies to various dilemmas, such as divorce, school problems, family violence, substance abuse, and medical illness. With these courses, students are prepared to begin utilizing systems ideas in practicums and clinical specializations.
Clinical Specialist Degree
in Family Systems Health Care

The Family Systems Health Care Program focuses on the relationships between psychosocial medicine and biomedicine in the treatment and prevention of illness and disease. In their course work, mental health professionals, nurses, and physicians are taught the basics of biopsychosocial theory, practice, and collaboration. The program prepares professionals to offer medical family therapy in a variety of settings, including private practices, hospitals, community clinics, and primary care/specialists' offices.

Students in the Clinical Specialist degree program have ample opportunities to gain practical expertise through classroom learning and hands-on clinical, research, teaching, and service experiences. To prepare for their medical practicum placements, students are given the opportunity to participate in a clinical rotation in partnership with Cleveland Clinic Hospital in Fort Lauderdale. Specific areas of study include: adjustment patterns of patients and their families to chronic and acute illnesses; models of collaboration between medical family therapists and other health care professionals; the role of medical family therapists in the continuum of medical services; research relevant to family systems medicine; and brief interventions and systemic assessments useful in the treatment and care of patients and their families. Additionally, the program emphasizes professional development by assisting students in strengthening their personal qualities necessary for successful participation in the medical milieu.

The student's growth as a reflective practitioner is encouraged through clinical research in doctor/patient/therapist/family communication, adjustments to acute, chronic, or terminal illness, social effects and ethical dilemmas of new medical technologies, and other issues that transcend historical distinctions between physical treatment and psychosocial interventions. Program faculty and students cooperate to publish research findings and clinical experiences. Also, faculty and students of the program contribute to the growth of family systems health care by supporting and participating in groups like the Working Group for Family Therapists Practicing in Medical Settings.

The Clinical Specialist degree program consists of 30 credit hours in a 10-course sequence. The Clinical Specialist degree in Family Systems Health Care is an advanced course of study for family therapists, social workers, counselors, psychologists, nurses, physicians, and other allied health professionals. Applicants for the Clinical Specialist degree should have a graduate or terminal degree in their field, or may be students in professional training programs. Detailed information on application and admissions may be found on page 38.
Clinical Specialist Curriculum

Specialist Courses:

FSHC 5000 - Family Systems Health Care I
FSHC 5005 - Theories of Brief Systems Therapy
FSHC 5010 - Family Systems Health Care II
FSHC 5100 - Practicum I in Family Systems Health Care
FSHC 5020 - Behavioral Health Care Groups
FSHC 5030 - Special Topics in FSHC
FSHC 5110 - Practicum II in Family Systems Health Care
FSHC 5200 - Research in Family Systems Health Care
FSHC 5300 - Health Care Concepts
FSHC 5400 - Teaching Family Systems to Health Care Providers

Course Descriptions
(All courses are 3 credit hours unless otherwise specified)

FSHC 5000 - Family Systems Health Care I
An orientation to the field of family systems health care that focuses on the collaboration between family therapists, health care providers, patients, and their families will be presented. A survey of the literature reviewing a biopsychosocial approach to illness will be explored. Offered in fall.

FSHC 5005 - Theories of Brief Systems Therapy
An overview of theories including solution focused, narrative, Milan, and other brief systemic paradigms that integrate systems theories into the biopsychosocial model. Offered in fall.

FSHC 5010 - Family Systems Health Care II
An in-depth study of clinical skills that translate well within health care settings will be presented. A case study method will be used to examine the impact of language, culture, and specific chronic, debilitating, and terminal diseases upon the experience of illness. Prerequisite: FSHC 5000. Offered in winter.

FSHC 5020 - Behavioral Health Care Groups
This course provides a framework for practical application of brief systemic therapy in a group setting. Students will acquire skills and training in the development and implementation of group therapy techniques through course work and participation in a variety of community illness support groups. Offered in winter.

FSHC 5030 - Special Topics in Family Systems Health Care
This course will provide an in-depth survey of major acute and chronic illnesses. Presentations by health care professionals and explorations of relevant research will provide an understanding of the etiology, course of illness, and psychosocial implications for patients and families. Offered in summer.
FSHC 5100 - Practicum I in Family Systems Health Care
Clinical seminar on transdisciplinary practice of family therapy and health care with field placements in hospitals, medical schools, community clinics, and specialist offices. Practicum lasts for one semester. Prerequisites: FSHC 5000, FSHC 5005, and FSHC 5010. Offered in fall.

FSHC 5110 - Practicum II in Family Systems Health Care
A continuation of Practicum I with a focus on advancing and refining clinical collaborative skills. Prerequisite: FSHC 5100. Offered in winter.

FSHC 5200 - Reflections on Family Systems Health Care
Application of qualitative and/or quantitative research methods in the clinical study of family systems health care. Students will each complete a specific research project. Prerequisites: FSHC 5005 and FSHC 5100. Offered in winter.

FSHC 5300 - Health Care Concepts
This course is an introduction to health care delivery systems through an investigation of medical models, terminology, and approaches used by physicians, medical specialists, and other health care professionals to diagnose and treat disease and to care for the human condition. Students will be oriented to health care systems and settings including hospitals, clinics, hospices, and private practices. Offered in summer.

FSHC 5400 - Teaching Family Systems to Health Care Providers
This course will enable students to develop strategies for teaching family systems concepts to health care providers. Opportunities for implementation will occur through presentations to physicians, nurses, and other health care professionals, as well as to illness support groups and other community forums. Prerequisite: FSHC 5010. Offered in fall.
Center for Family, Work, and Business

The School of Social and Systemic Studies at Nova Southeastern University has developed the Center for Family, Work, and Business designed to study the relationship of family interactions with work and business contexts. Three separate areas of interest are contained in the center:

Family Business Institute:

The main focus of the center is to provide a variety of workshops and forums for family members who work together. Educational topics include improving communication among family members, managing family and business relationship confusion, and succession planning.

Issues in Work and Family Program:

The main focus of the program is to provide education concerning the impact of work-related stress on family relationships and, conversely, the impact of family-related stress on work performance. Topics of interest include balancing work and home issues, such as dual career couples, elder care, and child care.

Women in Business Project:

The main focus of the project is to understand the gender concerns of working women. Topics of interest include gender communication at work, the glass ceiling, and the mommy track.

In each of these, the primary concern focuses on the impact of work stress on the family and ways of preserving family relationships. Addressing these concerns involves the following:

- Workshops and forums for families or professionals working with family/work issues.
- Consulting and counseling for families undergoing work-related stress.
- Research projects concentrating on ways of understanding and improving family relationships in a variety of work and business contexts.

The center sponsors the Family and Business Specialization, which trains and informs therapists and business professionals to work collaboratively in work settings with a variety of business issues.
Family Therapy Associates

Family Therapy Associates is the clinical site for the School of Social and Systemic Studies at Nova Southeastern University. The center is committed to offering professional therapeutic assistance to couples and families in South Florida. Utilizing people’s own natural resources, we provide practical and, often, brief ways to solve dilemmas and problems. The therapeutic staff is trained in brief, short term methods of problem solving. The goal of the therapists is to effectively assist families with their concerns within 10-12 sessions.

We provide family therapy services under the auspices of a short term intensive counseling grant, offered by the Broward County Board of Commissioners through its Children’s Services Board. In-home family therapy services are available through the homebased grant from Broward County Board of Commissioners through its Children’s Services Board. If the family meets the eligibility criteria of the grant, a therapist travels to the family’s home. Crisis situations in which an HRS caseworker assesses and requests homebased services are referred to the ICCP grant. In addition, we offer our therapy services at a reduced rate to families who do not meet the requirements of the grant services.

A team of professional family therapists, Nova Southeastern University faculty, and clinicians with master’s- and doctoral-level training are committed to providing the finest therapeutic services to families. In our first five years, Family Therapy Associates has developed several unique programs to meet the special needs of our community:

*Getting a Second Chance.* Youth who commit crimes on school property are given the opportunity to select family therapy as an alternative to adjudication. The program emphasizes family involvement in setting consequences.

*Therapy in Education: Alternatives for Middle School Crises.* Therapists travel to local middle schools to serve as a liaison to mediate solutions for adolescents in trouble. The approach embraces the complexity of interaction between the school, family, and adolescent.

*Project Genesis.* Incarcerated adolescents who are adjudicated as adults are given an opportunity to participate in family therapy as one aspect of rehabilitation. This program, housed at the Broward County Jail, combines education, drug prevention, and family involvement as its cornerstones.

*Court-Mandated Couples Program.* This program was developed to identify and assist families or couples who are struggling with issues of shared parental responsibility, visitation, and settlement following separation or divorce.

*Juvenile Arbitration Program.* A therapy program initiated by the Juvenile Mediation and Arbitration Division to offer an alternate resource for youth charged with a first offense or misdemeanor. The focus is on preventing further legal involvement through strengthening the family’s own ability to address and manage life situations.
The Department of Dispute Resolution
Introduction

The Department of Dispute Resolution is committed to the study, practice, and research of conflict resolution as a process for achieving improved societal relations among individuals and organizations. The goal of the department is to explore and promote alternative methods for the resolution of disputes, wherein parties achieve mutuality of agreement based upon equity, rationality, and nonviolence. To that end, the department serves as an academic catalyst for applied research and theory development in mediation practice and other dispute resolution approaches.

Nova Southeastern University has developed a strong national reputation for offering innovative academic programs to meet the needs of students and professionals in emerging fields of study. The graduate programs in dispute resolution offer an eclectic approach to the study of conflict resolution. Instructors draw upon the fields of sociology, education, business, law, family therapy, and psychology in presenting course offerings. Students obtain the advanced skills and techniques necessary for the practice of dispute resolution, and find opportunities for rewarding careers in corporate and community dispute settlement, human resources, private and public education, court-related mediation, public policy development, and private practice.

The academic offerings of the Department of Dispute Resolution include a Ph.D., an M.S., and a Graduate Certificate in Dispute Resolution. The course offerings are designed to assure that the student will learn not only the philosophical basis for the practice of ADR, but also the practical, specific tools of the trade. All students participate in a series of structured experiential opportunities. The graduate certificate and M.S. degree programs have been created to allow students the opportunity to apply their study of ADR to a variety of relevant professional fields. The Ph.D. program offers students the opportunity to become skilled reflective practitioners who can offer leadership in a newly emerging field. Their practical dispute resolution experience is enhanced through the study of applicable dispute resolution theory, research, and teaching modalities.

The Department of Dispute Resolution provides dynamic and effective pedagogical approaches to the study of alternative dispute resolution. The learning environment is interdisciplinary and innovative, utilizing the expertise of University faculty members, as well as practicing professionals knowledgeable in conflict resolution skills and techniques.

The department seeks qualified applicants from either gender, and all races, classes, cultures, age groups, and nationalities. Applicants should have, at a minimum, a bachelor’s degree from a regionally accredited college or university, or the foreign equivalent. Students may apply for admission to the M.S. and graduate certificate programs for the fall or winter semesters. Students may apply for admission to the Ph.D. program for the fall semester only. Specific application/admissions details may be found on page 38.

Students in the graduate certificate or M.S. programs may enroll either full time or part time. Ph.D. students must enroll full time. Full-time students take 9 or more credit hours each semester and part-time students take at least 6 credit hours a semester. Full-time students can expect to complete the M.S. Program in two years or the certificate program in just over one year. Part-time students can complete the M.S. Program in three years and the certificate program in two years, with classes taken during the fall, winter, and summer semesters. Most classes are offered evenings and weekends.
The Graduate Certificate in Dispute Resolution

The graduate certificate in Dispute Resolution comprises a series of nine courses that offer students the fundamentals of conflict resolution and hands-on experience through clinical training. It is intended to meet the needs of those individuals who seek introductory graduate training in Alternative Dispute Resolution (ADR). It may also be appropriate for professionals who have already earned a graduate degree in their professional field, but who would benefit from an academic study of the application of ADR to their profession.

The certificate consists of a nine-course sequence (27 credits), which includes ADR theory, practice, and research. Students who decide to continue their studies in ADR may apply these credit hours toward the M.S. in Dispute Resolution.

Certificate Curriculum

| Theoretical Foundations: | Introduction to Alternative Dispute Resolution (ADRM 5000) |
|                         | Legal Concepts for Non-Attorneys (ADRM 5010) |
|                         | Communication Dynamics in Dispute Resolution: Understanding the Human Factor (ADRM 5040) |
| ADR Practice and Applications: | Family Mediation (ADRM 5100) or Civil and Commercial Mediation (ADRM 5110) |
|                         | ADR Applications (ADRM 5120) |
|                         | Negotiation Theory and Practice (ADRM 5140) |
| Research: | ADR Research I: Tools for Practitioners (ADRM 5200) |
| Ethics: | Ethical and Professional Issues in ADR (ADRM 5210) |
| Supervised Clinical Practice: | ADR Practicum I (ADRM 5130) |

The M.S. in Dispute Resolution

The M.S. in Dispute Resolution is an extension of the graduate certificate designed for the serious graduate student seeking an intensive study of the field of conflict resolution. The degree program focuses on pragmatic approaches to solving problems inherent in human relationships. Students are exposed to a wide array of techniques and strategies for helping others to achieve nonviolent, nonlitigious solutions for conflicts that arise in many personal and professional environments. The course of study includes a strong emphasis on clinical practice, with supervised practicum experiences in various professional settings. The M.S. degree program consists of a 15-course (45 credits) sequence that includes alternative dispute resolution theory, practice, and research.
**M.S. Curriculum**

**Theoretical Foundations:**
- Introduction to Alternative Dispute Resolution (ADRM 5000)
- Legal Concepts for Non-Attorneys (ADRM 5010)
- Communication Dynamics in Dispute Resolution: Understanding the Human Factor (ADRM 5040)
- Theories of Conflict and Conflict Resolution (ADRM 6100)
- Cross-Cultural Conflict Resolution: Issues and Approaches (ADRM 6120)

**ADR Practice and Applications:**
- Family Mediation (ADRM 5100) or
- Civil and Commercial Mediation (ADRM 5110)
- ADR Applications (ADRM 5120)
- Negotiation Theory and Practice (ADRM 5140)
- Consultation (ADRM 6000) *
- Non-Mediation Approaches to ADR - Arbitration, Fact-Finding, Mini-Trials, Ombudsing (ADRM 6105)
- Collaborative Problem Solving and Group Facilitation (ADRM 6140) *

**Research:**
- ADR Research I: Tools for Practitioners (ADRM 5200)
- ADR Research II: Logic and Methods of ADR Research (ADRM 6200)
- Directed Reading (ADRM 6150) *

**Ethics:**
- Ethical and Professional Issues in ADR (ADRM 5210)

**Supervised Clinical Practice:**
- ADR Practicum I (ADRM 5130)
- ADR Practicum II (ADRM 6130)

* Students must choose one of these three courses.

**Course Descriptions**

(All courses are 3 credit hours unless otherwise specified)

**ADRM 5000 - Introduction to Alternative Dispute Resolution Methods**
A survey of the history of, and philosophical basis for, dispute resolution. Students will also gain a basic understanding of ADR specific skills and techniques applicable to problem solving in work, community, and personal environments. Offered in fall and winter.

**ADRM 5010 - Legal Concepts for Non-Attorneys**
An introduction to law and legal processes, as they relate to ADR, through the examination of legal philosophies, practices, language, and systems. Offered in fall.

**ADRM 5040 - Communication Dynamics in Dispute Resolution: Understanding The Human Factor**
An in-depth study of communication skills and techniques used in dispute resolution sessions. Students are introduced to a variety of interpersonal communication and interviewing models. Attention will be focused on guiding students to understanding the range of human emotions encountered in these sessions, and the effect of these emotions on reaching accord. Offered in fall.
ADRM 5100 - Family Mediation
Explores the psychological factors and dynamics prompting conflict within the family system. May be substituted for ADRM 5110. Offered in winter.

ADRM 5110 - Civil and Commercial Mediation
Examines civil and commercial mediation techniques used to settle nondomestic cases involving such issues as personal injury, medical malpractice, contracts, construction, real estate, and product liability. May be substituted for ADRM 5100. Offered in winter.

ADRM 5120 - ADR Applications
Examines the application of dispute resolution methods to specific contexts such as education, community, business, environment, and law. Prerequisite: ADRM 5000. Offered in winter.

ADRM 5130 - ADR Practicum I
Provides the opportunity for an introductory 60 hours of supervised clinical work in a dispute resolution setting, with classroom supervision and critique. Prerequisites: ADRM 5000, 5040, and 5210. Offered in fall.

ADRM 5140 - Negotiation Theory and Practice
A study of negotiation theories and practical applications. Includes an examination and comparison of the critical skills needed to be an effective "competitive" and "collaborative" or "win-win" negotiator. Prerequisite: ADRM 5000. Offered in winter.

ADRM 5200 - ADR Research I: Tools for Practitioners
Focuses on the development of research skills appropriate for practitioners, including how to read and evaluate research, a review of current research of interest to practitioners, and an introduction to program evaluation research techniques. Offered in summer.

ADRM 5210 - Ethical and Professional Issues in ADR
An explanation of certifications and organizations and the ethical codes they promote; review of ADR professionals' legal and moral responsibilities and liabilities; overview of professional opportunities in public service and private practice. Offered in summer.

ADRM 6000 - Consultation
An examination of consultation, as used by ADR professionals, through the exploration of various consultation models, such as process, third-party, expert, and systemic approaches. Students will also be oriented to the ways in which consultants establish, market, and expand their professional practices. Prerequisite: ADRM 5000. May be substituted for ADRM 6140 or 6150. Offered in winter.

ADRM 6100 - Theories of Conflict and Conflict Resolution
A foundation course examining macro and micro theories from sociology, psychology, and other disciplines about the nature of conflict and various approaches to conflict resolution. Prerequisite: ADRM 5000. Offered in fall.

ADRM 6110 - Non-Mediation Approaches to ADR
Provides a comparison of mediation to other popular ADR approaches and presents the theoretical basis for, and practical applications of, non-mediation approaches to ADR including Arbitration, Fact-Finding, Mini-Trials, and Ombudsing. Prerequisite: ADRM 5000 Offered in fall.
ADRM 6120 - Cross-Cultural Conflict Resolution: Issues and Approaches
Examines inter- and cross-cultural conflict resolution issues and their impact on the choice and effectiveness of various conflict resolution strategies. Explores various models for training mediators to intervene in disputes where cultural differences are a significant factor, and addresses various theoretical and practical concerns related to culture and conflict. **Prerequisite:** ADRM 5000. Offered in winter.

ADRM 6130 - ADR Practicum II
Provides the opportunity for advanced supervised clinical work in ADR. **Prerequisite:** ADRM 5130. Offered in winter.

ADRM 6140 - Collaborative Problem Solving and Group Facilitation
A study of the theories and methodologies relevant to resolving shared problems. Students will examine the application of these skills to governmental, organizational, and personal relationships. Specific attention is paid to the development of group facilitation skills for use in meetings and when intervening in multiparty disputes. **Prerequisite:** ADRM 5120. May be substituted for ADRM 6000 or 6150. Offered in winter.

ADRM 6150 - Directed Reading
A collaboratively designed reading and research course wherein the student, with faculty feedback and support, explores a specialized area of ADR research or practice. May be substituted for ADRM 6000 or 6140. Offered in winter.

ADRM 6200 - ADR Research II: Logic and Methods of ADR Research
An introduction to various qualitative and quantitative concepts and methods appropriate for the formal study of the processes and outcomes of conflict and alternative dispute resolution approaches. Explores key distinctions from philosophers of science regarding the logic of social research and the characteristics of various research designs. **Prerequisite:** ADRM 5200. Offered in summer.

ADRM 6550 - Special Topics in ADR
Offered occasionally, this elective course provides an in-depth exploration of a special topic in dispute resolution not normally covered in the curriculum.
The Ph.D. in Dispute Resolution

The Department of Dispute Resolution will initiate a Ph.D. degree in dispute resolution in the fall of 1994. The mission of the doctoral program is to advance the study and practice of dispute resolution by supporting the development of skilled reflective practitioners who can offer quality service and informed leadership in the field of dispute resolution. Students accepted into the program are provided the opportunity to pursue a substantive area of study in dispute resolution while drawing from a variety of theoretical perspectives and the knowledge of an experienced interdisciplinary faculty. The 82-credit hour degree program is designed to prepare graduate students for careers as advanced practitioners, college and university educators, researchers, theoreticians, and dispute resolution program supervisors and administrators.

In addition to a range of theoretical and practical dispute resolution foundation courses, the program features multiple practica in which students have the opportunity to apply classroom theory and models to real-life disputes in community-based conflict resolution settings. The program also includes a pragmatic and supportive approach to conducting research and developing one's dissertation.

Ph.D. Curriculum

Theoretical Foundations:
- Introduction to Alternative Dispute Resolution (ADRD 5000)
- Legal Concepts for Non-Attorneys (ADRD 5010)
- Communication Dynamics in Dispute Resolution: Understanding the Human Factor (ADRD 5040)
- Theories of Conflict and Conflict Resolution (ADRD 6100)
- Cross-Cultural Conflict Resolution: Issues and Approaches (ADRD 6120)
- Philosophical and Social Issues in ADR (ADRD 7010)
- Comparative Legal and Conflict Resolution Systems (ADRD 7030)
- Communication Patterns in Dispute Resolution (ADRD 7200)

ADR Practice and Applications:
- Family Mediation (ADRD 5100) or
- Civil and Commercial Mediation (ADRD 5110)
- Non-Mediation Approaches to ADR - Arbitration, Fact-Finding, Mini-Trials, Ombudsing (ADRD 6105)
- Dispute Resolution Systems Design (ADRD 7020)
- Teaching and Training in ADR (ADRD 7500)
- Administration and Supervision in ADR (ADRD 7520)

Research:
- ADR Research I: Tools for Practitioners (ADRD 5200)
- ADR Research II: Logic and Methods of ADR Research (ADRD 6200)
- Doctoral Seminar (ADRD 7000)
- Quantitative and Statistical Methods (ADRD 7100)
- Qualitative Research Methods I (ADRD 7110)
- Qualitative Research Methods II (ADRD 7120)
- Dissertation (ADRD 7900)

Ethics:
- Ethical and Professional Issues in ADR (ADRD 5210)
Supervised Clinical Practice:
ADR Practicum I (ADRD 5130)
ADR Practicum II (ADRD 6130)
Teaching and Training In ADR Practicum (ADRD 7510)
Administration and Supervision in ADR Practicum (ADRD 7530)

Course Descriptions
(All courses are 3 credit hours unless otherwise specified)
(All ADRD 5000 and 6000-level courses are described in the Master's degree section)

ADRD 5000 Introduction to ADR
ADRD 5010 Legal Concepts for Non-Attorneys
ADRD 5040 Communication Dynamics in Dispute Resolution: Understanding The Human Factor
ADRD 5100 Family Mediation
ADRD 5110 Civil and Commercial Mediation
ADRD 5130 ADR Practicum I
ADRD 5200 ADR Research I: Tools for Practitioners
ADRD 5210 Ethical and Professional Issues in ADR
ADRD 6100 Theories of Conflict and Conflict Resolution
ADRD 6110 Non-Mediation Approaches to ADR
ADRD 6120 Cross-Cultural Conflict Resolution: Issues and Approaches
ADRD 6130 ADR Practicum II
ADRD 6200 ADR Research II: Logic and Methods of ADR Research

ADRD 7000 - Doctoral Seminar
Provides a general orientation to doctoral study. Students explore research, writing, and library skills necessary for authoring papers in doctoral courses. This course is required for the first semester and may be repeated in future semesters. 1 credit. Offered in fall.

ADRD 7010 - Philosophical and Social Issues in ADR
A review of philosophical and social contexts and issues relevant to the understanding and practice of ADR. The nature of peace, conflict, neutrality, third party involvement, race, gender, and power are discussed. Offered in summer II.
ADRD 7020 - Dispute Resolution Systems Design: History and Contemporary Practice
An introduction to the basic concepts of dispute resolution systems design. Includes an exploration of the influence of organizational culture and prevailing social and cultural norms on the design and implementation of ADR systems. Examines dispute resolution systems for neighborhoods, religious organizations, ethnic groups, business associations, and other settings that have relatively clear boundaries and shared norms. Offered in summer I.

ADRD 7030 - Comparative Legal and Conflict Resolution Systems
Offers a cross-cultural and historical study of diversity in conflict conceptualization and resolution system construction. Provides an in-depth review and analysis of alternatives to common law and western ways of dealing with conflict, including canon law, code nations, Muslim law, and various indigenous forms of arbitration, mediation, and conciliation. Offered in winter.

ADRD 7100 - Quantitative and Statistical Methods
Covers methods of quantitative analysis used in research on conflict and conflict resolution. Includes common concepts and techniques for analyzing results of survey and experimental research projects, including uni-variate, bi-variate and multi-variate analysis, index and scale development, tests of statistical significance, and more-advanced techniques such as regression analysis. Offered in fall.

ADRD 7110 - Qualitative Research I
An examination of a variety of qualitative research approaches from anthropology, sociology, education, and communication studies. Studies methodologies such as ethnography, discourse analysis, participant observation, interviewing, and frame analysis. Focuses on data gathering techniques. Prerequisite: ADR Research II: Logic and Methods of ADR Research (ADRM 6200). Offered in winter.

ADRD 7120 - Qualitative Research II
Building on ADRD 7110, this course explores various methods of analyzing and presenting qualitative research data. Includes an examination of a range of qualitative research reports and monographs, and an introduction to several computer programs designed to assist researchers with the management of qualitative data. Prerequisite: Qualitative Research I (ADRD 7110). Offered in summer I.

ADRD 7200 - Communication Patterns in Dispute Resolution
A study of language and discourse systems, theories, and practices in conflict resolution. Includes overview of various systems theories. Offered in winter.

ADRD 7500 - Teaching and Training in ADR
An introduction to teaching and training in ADR. Reviews instructional models and teaching literature with an emphasis on teaching the adult learner. Offered in summer II.

ADRD 7510 - Teaching and Training in ADR Practicum
Provides an opportunity for supervised teaching and training experience in graduate, undergraduate, continuing education, seminar, and/or workshop instruction in ADR or related field. Prerequisite: Teaching and Training in ADR (ADRD 7010). Offered in fall.

ADRD 7520 - Administration and Supervision in ADR
Introduces theories and models of administration and supervision in ADR. Reviews relevant literature and didactic training in live supervision, case consultation, team building, program administration, evaluation, and leadership. Offered in fall.
ADRD 7530 - Administration and Supervision in ADR Practicum
Provides an opportunity for extensive supervision and administration experiences with conflict resolution practitioners. **Prerequisite:** Administration and Supervision in ADR (ADRD 7030). Offered in winter.

ADRD 7550 - Special Topics in ADR
Offered occasionally, this elective course provides an in-depth exploration of a special topic in dispute resolution not normally covered in the curriculum.

ADRD 7900 - Dissertation
Focuses on the development, writing, and defense of the dissertation. When approved, students register for at least 3 credits per semester for a minimum of 12 credits. **Prerequisites:** successful completion of the qualifying examination and the approval of the Dissertation Committee.
University Services and School Policies
Student Services

Library Resources

The Albert and Birdie Einstein Library, located in the Parker Building, houses the University’s major collection of books and journals. Its more than 138,000 volume equivalents can be searched through the library’s computer catalogue, considerably more sophisticated than the traditional card catalog. Also, more than 25 specialized indexes in CD-ROM format are available, as is dial-up access to the on-line catalog. The Einstein Library is equipped to perform on-line literature searches using DIALOG information databases, and reference librarians will assist students in structuring searches.

The library is a member of SEFLIN and FLIN, cooperative library networks that speed access to materials from other institutions throughout Florida. The Einstein Library has also been named a cooperating library of the Foundation Center in New York, giving students access to a special collection for grants and foundation research.

Through the Off-Campus Library Services Office, students off campus have access to books, journal articles, Educational Resources Information Center (ERIC) documents, interlibrary loans, database searches, and reference librarians specializing in services to remote student locations. Students may request materials 24 hours a day, using mail, phone, FAX, or home computer.

Nova’s Information Retrieval Service (IRS) was recently merged with the Off-Campus Library Services Office. The entire microfiche collection of ERIC, more than 300,000 documents, will be available to students during the same extended hours that the library is open. The IRS does computer searches for these files for program students, graduates, and staff. This service helps users identify journal articles, books, doctoral dissertations, research reports, government publications, and other print and nonprint materials needed for practica and other projects.

Other university library resources include: The University School Media Center, with an integrated collection of print and nonprint materials designed for preschool through high school students; The William Springer Richardson Library, at the Oceanographic Center at port Everglades, which houses a specialized collection of books and periodicals related to research in physical, biological, and chemical oceanography; and the Law Library, in the Leo Goodwin, Sr., Hall, which houses 254,000 volumes and volume equivalents related to legal study and research, and which is designated as a depository for United Nations and state and federal documents.

Academic Support Center

The Academic Support Center of Nova College is open to graduate students from the School of Social and Systemic Studies. The ASC offers individualized assistance, computer-assisted instruction, and workshops. Students may receive assistance with spelling, punctuation, grammar and usage, APA style, essay organization, and research projects. The ASC is located in the ASC Modular building. Walk-ins are welcome at the ASC. Appointments are recommended to ensure prompt assistance. Call (305) 475-7479 or (305) 476-8926.
**MicroLab**

The Office for Computer and Information Technology sponsors a range of services in a facility known as the MicroLab. The MicroLab maintains a comprehensive software collection for student and faculty use. Students may use the software in completing course requirements. Computer applications include the following:

- **Word processors**
- **Electronic thesaurus**
- **Statistical analyses**
- **Electronic dictionaries**
- **Databases**
- **Telecommunications**
- **Grammar checkers**
- **Spreadsheets**
- **Desktop publishing**

Lab monitors are available to help students familiarize themselves with the programs and to assist students as needed. IBM, Apple, and Macintosh formats are supported. Also, through the UNIX network of the University, students may access INTERNET, an electronic classroom, international electronic mail, databases, writing aids, and many other professional programming and computing tools.

The Nova Microlab has four locations including two in the Parker Building, one in University Hall on the main campus, and one located on the east campus. Services of the MicroLab are available seven days a week on the main campus and Monday through Saturday on the east campus. For further information and location hours, call (305) 475-7463.

**Financial Aid**

To assist the greatest number of students in meeting the direct and indirect costs of their education, Nova Southeastern University provides several forms of financial aid. These sources of financial aid include scholarship assistance, loan programs, and employment opportunities, including work study programs. A number of programs of financial aid are administered through Nova's Office of Student Financial Aid. These programs include veterans' benefits, Guaranteed Student Loans, Health Education Assistance Loans, National Direct Student Loans, and the College Work-Study Program. Students interested in these forms of financial aid should contact the Office of Student Financial Aid for information, application materials, and deadlines:

Nova Southeastern University  
Office of Student Financial Aid  
3301 College Avenue  
Fort Lauderdale, Florida 33314  
(305) 475-7410 or toll free (800) 522-3243
Veterans’ Benefits

The Office of the University Registrar oversees the processing of veterans’ benefits. The degree programs offered through the School of Social and Systemic Studies are approved for veterans’ benefits. Each VA student will be provided a grade/progress report at the end of every evaluation period (e.g., term, semester, quarter). A copy of each report will be placed in the student’s permanent file maintained by the school.

The School of Social and Systemic Studies maintains up-to-date progress records on each student. The University periodically furnishes each student with a working transcript that shows current status of grades and earned semester credit hours for all courses completed and/or attempted, plus grades for courses in which the student is currently enrolled.

For additional information concerning veterans’ benefits, contact:

Nova Southeastern University
Veterans’ Affairs
Office of the University Registrar
3301 College Avenue
Fort Lauderdale, Florida 33314
(305) 370-5685 or toll free (800) 541-6682, Option 2

International Students

International students who intend to reside in the United States and who are required to obtain an I-20 must be full-time, degree-seeking students and must attend either the main or east campus in Fort Lauderdale, Florida. For further information, contact:

Nova Southeastern University
International Student Adviser
3301 College Avenue
Fort Lauderdale, Florida 33314
(305) 370-5695 or toll free (800) 541-6682, Option 2 (Registrar’s Office)

Housing

All full-time students are eligible for on-campus housing. Furnished apartments are available for graduate students, who may choose from among single, shared single, double, or quad accommodations in either a one- or a two-bedroom apartment. Interested students are invited to obtain further information from:

Nova Southeastern University
Office of Residential Life
3301 College Avenue
Fort Lauderdale, Florida 33314
(305) 475-7052 or toll free (800) 541-6682
Career Resource Center

The Career Resource Center (CRC) provides career counseling and job placement services to undergraduate students, graduate students, and alumni. The center helps individuals identify their unique abilities, interests, and skills, and to combine these creatively into a desirable career.

A variety of companies, organizations, educational institutions, and government agencies post full-time and part-time positions at the CRC. Workshops and seminars are offered throughout the academic year, including Resume Writing, Interviewing Techniques, Career Planning, Summer Employment, Studying Abroad, Applying to Graduate School, and more.

Tools used to identify students' interests include the Strong Campbell Interest Inventory and SIGI-Plus. SIGI-Plus is a computerized career guidance program that aids in assessing and evaluating an individual's career and educational goals.

Special events sponsored by the CRC include Career Expo; an annual job fair; guest speakers; and on-campus recruiting program. For more information, contact the Career Resource Center at (305) 475-7504.
Academic and Financial Policies

Catalogs and Handbooks

All enrolled students shall receive a copy of the school catalog and program handbook that outlines all requirements, policies, procedures, and information relevant to their study. Copies of the most recent catalogs and handbooks are available from the academic office.

Admissions

All programs specify admissions criteria for applicants. The school welcomes applications from qualified candidates, regardless of race, color, sex, age, nondisqualifying handicap, religion or creed, or national or ethnic origin. To enable faculty to determine an applicant's readiness for a program, each applicant shall submit the following:

- A signed application, with fee, noting all relevant educational, occupational, and volunteer service history.
- Transcripts of prior academic work at regionally accredited colleges and universities.
- Letters of reference from colleagues, supervisors, or instructors (not family, friends, or service providers). Letters shall specifically evaluate the candidate's potential for graduate academic achievement.
- Samples of academic writing, job evaluations, or other examples of scholarly or professional capability. Writing samples shall give evidence of correct grammar and style, and clear expression. Job evaluations shall give evidence of respectful interactions with clients and colleagues, professionalism, pragmatic planning ability, and integration of theory into practice.
- An essay that states the intent of the applicant for the course of study and which answers the specific questions asked on the admissions application. Essays shall demonstrate accurate understanding of the program to which the applicant is applying.

After signed and completed applications have been received, applicants shall be evaluated for eligibility for a faculty interview. Eligibility criteria include attainment of minimum academic or professional experience, appropriate motivation for graduate school, and willingness and ability to complete the program. Eligible applicants shall be recommended for faculty interview.

When recommended for a faculty interview, applicants shall meet with one or more members of the faculty. Phone interviews are acceptable for out-of-state applicants, but face-to-face interviews are recommended. Faculty shall interview applicants for their prior knowledge and experience in the area of the program and for their academic potential. Each program designates specific criteria for the selection of applicants.

After all required admissions documentation has been received, and subsequent faculty interviews have been completed, applicants shall be informed that they have been accepted, rejected, or placed on a waiting list. Accepted applicants have 30 days to notify the School of their intent to attend or not to attend a program. Students declaring their intent to attend shall sign a letter of matriculation (see below) and shall forward a reservation fee, applicable to the first semester's tuition, to hold a position in the next entering class. Students on a waiting list shall be notified if a position becomes available.
Students who do not enter the program during the year of admission may reapply within one year without submitting new documentation. Reapplication after one year must include all new documentation and a new application fee.

For master's-level and clinical specialist-level programs, all admissions are conditional for the first semester. During their first semester, students shall complete all course work for which they register with an average of "B" or better. Students shall be reviewed by the faculty at the end of their first semester for full admission. Criteria for full acceptance shall include not only a "B" average in academic work, but also demonstrated professionalism and respect in interactions with clients, students, and faculty. Students who do not gain full admission at the end of their first semester may continue with conditional status for a second semester at the discretion of the faculty. Students who do not gain full admission after their second semester may not continue in the program.

For Ph.D.-level programs, all students are admitted conditionally for their first year, until the student has successfully completed the Preliminary Examination. During this examination process, evaluations of written assignments for classes and practicum evaluations are assessed as a whole by the faculty, who then meet with each student to discuss his or her standing and future in the program. Specific criteria used in determining whether students pass the examination can be found in the program student handbook.

Admission to one program in the school does not constitute admission to any other program in the school. Each program has separate admission standards. Students may not concurrently enroll in both master's and doctoral programs within one department. Upon completion of a required master's degree, students may apply for doctoral study. Students may concurrently enroll in degree and certificate programs, provided that the certificate program does not interfere with the degree program.

Nondiscrimination

Nova Southeastern University fully subscribes to and practices a policy of nondiscrimination in admissions and enrollment. Nova Southeastern University admits students of any race, color, sex, age, nondisqualifying handicap, religion or creed, or national or ethnic origin. The University registrar is the policy coordinator to assure compliance with all federal, state, and local laws and regulations relative to nondiscrimination.

Matriculation

After an offer of conditional acceptance has been tendered to an applicant, the applicant becomes a student (i.e., matriculates) upon signing the "acceptance of admission" form. Each student shall receive a copy of the current catalog and program student handbook and shall sign a statement of acceptance of all policies and procedures indicated in that catalog and the handbook. The catalog and handbook in force at time of matriculation shall govern the student's participation in a program. Any subsequent changes in the catalog and/or handbook by program faculty or administration shall not be required of matriculated students, but may be voluntarily accepted by them through signing an acceptance of policy changes. If catalog and/or program changes are being made at the time of the applicant's matriculation, the applicant's acceptance letter may specify that the applicant is being accepted under the new guidelines. In such an instance, the proposed changes will be outlined in the acceptance letter.
Residency and Scheduling

All degree programs are offered in Broward County, Florida, at campuses and facilities of Nova Southeastern University. To complete program requirements, students may require flexible schedules at their places of employment.

Transfer of Credit/Courses at Other Universities

Each program specifies the amount and type of transfer credit allowed. However, each course being evaluated must have been:

1. A graduate-level course equivalent in content to a program course
2. Taken at a regionally accredited university
3. Passed with a grade of "B" or better
4. Completed within the last seven years

A request for approval of transfer credit should be submitted to the program office with the following minimum information:

1. An official transcript from the institution where the course was taken
2. Catalog course descriptions and official class syllabi
3. Other information as requested

After admission, students may not register for courses at other universities for credit in degree or certificate programs without faculty approval. In extreme situations, faculty may approve, on a case by case basis, courses taken at other universities during the degree program. In no case shall more than two courses taken at other universities be credited toward degree or certificate programs.

Credits earned at Nova Southeastern University are transferable only at the discretion of the receiving school.

Class Registration/Adding and Dropping Classes

Students register for class on designated days and at designated times. There is no early registration. Late registration entails additional fees. All students must be officially registered by having a student transaction form processed in accordance with University policy. An officially registered student is a student whose transaction form has been accepted by the Office of the Bursar for payment in accordance with University payment procedures and has been computerized by the Office of the University Registrar. A student transaction form may be processed only if it has been completed by the student and is accompanied by approved payment.

All students must be officially registered prior to their first class meeting. At time of registration, students must make payment or show evidence of financial aid. Students also pay required registration, lab fees, and other fees as required. Students shall take sequenced classes in the order designated by the school’s curriculum. The dean shall designate a minimum and maximum number of students for each class. Independent study courses must be approved by the instructor and the program director. Students must register for an approved independent study course with prior permission of the course instructor.
Students may add a class after the registration period and before the first class meeting. After the first 3 hours of class meeting, a class may not be added without the consent of the program director and the class instructor. Students may drop a class after the registration period and through the first 3 hours of class for a complete refund. Dropping a class before the end of the second 3 hours of class leads to a 75% refund, and dropping a class before the third 3 hours of class leads to a 50% refund. Students may drop a class during the fourth 3 hours of class, but they receive no refund. All adds and drops must be processed in writing. Phone calls to announce add and drop intentions are insufficient. Written forms must be completed by announced deadlines.

Refund Policy

Students have three working days from the date of signing an enrollment contract or financial agreement with the University to cancel the contract and receive a full refund of any tuition and registration fees paid. Further, a student shall receive a full refund of tuition and registration fees paid by the student prior to the commencement of instruction if the student submits a written request to the institution within three working day of the payment. Refund schedules for tuition and fees after the commencement of instruction may be found above in the section entitled "Class Registration/Adding and Dropping Classes."

Withdrawals and Incomplete Grades

Students may drop a class before completion of 12 hours of class meetings. After 12 hours of class, students who wish to drop that class must formally withdraw. Students withdraw by completing an official withdrawal form, which requires the signature of the instructor and the program coordinator. Students may withdraw up to the withdrawal date set for a term. After the withdrawal date, students must receive a grade for the course. Withdrawal from a course shall lead to a "W" being placed for that course on the transcript.

If, during the last 6 hours of class meetings, a student finds that unexpected circumstances prevent the successful completion of the class, the student may request an incomplete, or "I" grade for a period of one semester. Incomplete grades shall be granted only if the student has been maintaining a passing average on all work required for the course up to the point of the request for the incomplete. Students who have not completed required work or who have a failing average must either withdraw from the class or receive a failing course grade. Forms needed to request an "I" are available in the program office. Students must discuss an "I" with the instructor and obtain the instructor's consent and signature before filing the incomplete form. The form must include a detailed description of the work needing to be completed. Faculty shall not be allowed to initiate "I" grades. They must assign a letter grade if a student has not filed an "I" request form. Incomplete grades shall be resolved within the following semester. At the end of the following semester, a grade shall be assigned.

Administrative Withdrawal

At times, faculty or administration shall withdraw a student from a course or courses due to an error in registration or new information about a student’s application. In these instances, students shall be administratively withdrawn. Refund of tuition, if any, shall follow the published refund policy.
Full- and Part-Time Status

Students are considered full time if they register for 9 or more semester hours. Doctoral students are also considered full time if they register for dissertation. Master's students shall enroll for at least 6 hours per semester. Doctoral students shall enroll full time for at least 9 hours per semester until registration for dissertation, when they shall register for at least 3 dissertation hours per semester. With faculty approval, doctoral students may request a full-time registration for "work in progress" to complete qualifying examination papers. Doctoral students may request such a registration for only two semesters.

Reduced Status and Leave of Absence

Students who wish to reduce their number of registered semester hours below required minimums or who wish to take a leave of absence for part or all of a semester shall apply to the program director for approval. Students shall write a statement of explanation regarding the need for the reduction or the leave. If approved, the program director shall recommend the term of reduced hours or leave of absence. Students who do not have the approval of the program director for reductions or leaves shall not be allowed to register for courses until they have resolved the matter to the director's satisfaction. If a student does not have the required approval for a leave of absence, and the student's file remains inactive for two semesters, the program shall reserve the right to terminate the enrollment of that student and close the file.

Academic Evaluation

Course work shall be evaluated according to the following criteria:

- A grade of "A" shall be earned for work of excellent quality.
- A grade of "B" shall be earned for work of good quality.
- A grade of "C" shall be earned for work of average quality.
- A grade of "D" shall be earned for work of poor quality.
- A grade of "F" shall be earned for work of failing quality.
- A grade of "W" shall be given any student who withdraws from a course.

Dissertation hours shall be graded in the following way: Pass, In Progress, No Progress, or Fail.

Attendance is required for all courses. More than two unexcused absences during a classroom course shall result in a grade no higher than "C" for the course. More than four unexcused absences during a classroom course shall lead to a failure for the course. More than three unexcused absences of a clinical practicum shall lead to a failure for the course. Grades of "A" or "B" are considered acceptable for graduate-level training. A grade of "W" shall not affect standing in a program. Any course with a grade of "D" or "F" must be repeated for credit toward a degree or certificate program. Students must maintain a 3.0 GPA for graduation.
Academic Freedom

The school uses the definition of academic freedom in university policy and in the *Criteria for Accreditation* of the Southern Association of Colleges and Schools:

Academic freedom does not require neutrality. Institutions may endorse particular religious or philosophical beliefs, or specific social principles as they relate to the institutional statement of purpose. Nonetheless, the protection of the freedom for faculty and students to examine all pertinent data, to question assumptions, to be guided by the evidence of scholarly research, and to teach and study the substance of a given discipline is crucial to the integrity of an educational institution.

Course and Program Evaluation

Students evaluate courses, instructors, and programs, providing the school with constructive feedback. The school uses course and program evaluations to improve the educational efforts of faculty.

Probation and Expulsion

Students shall be placed on academic probation when they receive a "D" or an "F" for a course, when they have more than two "C"s, when they have more than two active "I"s, or when they fail degree program examinations. Academic probation is noted in writing in students' records. All courses with "D" or "F" must be retaken within one year. If a student has more than two "C"s, course(s) must be retaken within one year to reduce the number of "C"s to two. Students with more than two active "I"s must resolve all incomplete grades within one semester. Students who do not successfully resolve academic probation shall not be allowed to continue in the program.

Student Evaluation

Each student is evaluated on an ongoing basis while enrolled in the school. In addition to academic evaluations given in courses, students are evaluated for their readiness for professional and scholarly work. If faculty members concur that a student is exhibiting poor performance in one or more of the above areas, the faculty may request that the student attend a faculty meeting for an informal resolution of the problem. The faculty may make specific recommendations to the student for improvement. If the problem continues or if the issue is of sufficient concern, faculty members may communicate their grievance to the dean and request a formal review of the student's status in the school. The dean shall investigate the situation and make a determination on the student's continued participation in the program. Conditions for continuing may be assigned, and, if the student does not comply with the conditions, he or she may be dismissed from the program.

If, for any reason, a faculty member has reason to question the satisfactory progress of any student, the faculty member shall discuss the problem with the student. If the problem persists, the faculty member may bring the issue to the attention of a program director and the faculty as a whole. Appropriate faculty members will be asked for additional review and comment.
The school has identified several categories of behaviors that are essential to professional and scholarly performance. These broad areas include:

1. Academic abilities
2. Professional and scholarly ethics
3. Responsibility, dependability, and cooperation
4. Responsiveness to constructive criticism

**Graduation**

When students have successfully completed all degree program requirements, they shall be sent an application for degree form. Students may not obtain the form nor may they complete it on their own. The form shall be filled out by the academic office and sent for student signature and graduation fee. When the form is returned to the academic office, the office shall make a final check on degree completion and shall forward the application for degree to the registrar. Students shall not be allowed to participate in commencement ceremonies until they have finished all degree requirements and have completed the degree application form.

**Degree Completion Limits**

Master’s courses apply toward a master’s degree only within five years after matriculation in the master’s program. Graduate courses apply toward a postgraduate certificate only within three years of matriculation in a certificate program. Doctoral courses apply toward a doctoral degree only within seven years of matriculation in a doctoral program. After a time limit has been exceeded, students shall reregister for classes taken earlier than the specified time limit.

**Privacy of Records**

The school follows the regulations stipulated in the *Individual and Institutional Responsibilities: The Family Education Rights and Privacy Act - Student Records and Privacy*. Students have the right of access to their student records unless a waiver has been signed relinquishing such rights. Students may make an appointment with the academic office to review their file at any time. To obtain the contents of an entire file, students must request a complete copy in writing and pay a copying fee.

**University Equipment and Utilities**

Students shall not use University equipment such as copy machines, computers, faxes, and telephones. Audio- or videotapes of clinical work are considered confidential and must be kept in University facilities. Students and faculty shall not use clinical videotapes for publication or public presentation without permission from clients and therapists.
Student Appeals

Students may grieve policies, procedures, evaluations, and administrative actions having a direct impact upon them. Prior to initiating a formal appeal, a student must meet with a faculty member or administrator and attempt to informally resolve the situation. If this does not result in an acceptable resolution, the student shall bring the matter to the attention of the dean. The dean may continue efforts at informal resolution.

If informal attempts fail to provide an acceptable resolution, the student shall file a written appeal with the dean. The document should contain a concise statement of all relevant facts regarding the matter. Upon receipt of a written appeal, the dean shall review the appeal to determine whether an investigation is warranted. If the dean decides to investigate the complaint, the dean may then meet with the parties involved, interview others, convene a faculty or staff meeting, seek a recommendation from the faculty, and/or request a recommendation from the University administration.

The dean shall make a final determination on the complaint and shall direct what, if any, further action shall be taken. The dean shall respond to the student in writing and explain the determination on the complaint. After the determination by the dean, a student has the right to make a final appeal to the Office of the Vice-President for Academic and Student Affairs.
Tuition and Fees
1994 - 1995

Tuition:

Master's level $326.00 per credit hour
Clinical Specialist level $326.00 per credit hour
Doctoral level $457.00 per credit hour

Fees:

Application fee $45.00
Registration fee $25.00 per semester
Practicum lab fees $20.00 per practicum course
Family Therapy Practicum Liability $109.00 for initial enrollment and $84.00 for subsequent years
Insurance fees (including student membership in AAMFT) $65.00 per semester

Other fees that may be incurred, and the amounts of which are determined by other University departments, include: cap and gown fees for graduation; dissertation binding fees; and cost of books.

Payment of tuition, registration, and other fees may be made by check or money order, payable to Nova Southeastern University. Tuition fees can be charged to MasterCard, VISA, Discover, or American Express accounts. Please note that all fees are subject to change without notice.
Student Rights and Responsibilities

The Code of Student Conduct and Academic Responsibility

Purpose: This code seeks to promote high standards of academic integrity by setting forth the responsibilities of students as members of the University community. Abiding by the code ensures a climate wherein all members of the University community can exercise their rights of membership.

Nova University Statement of Academic Rights and Responsibilities

Nova Southeastern University, as a community of women and men, is committed to furthering scholarship, academic pursuits, and service to our society. As an institution, our purpose is to assure all students an equal opportunity to fulfill their intellectual potential through pursuit of the highest standards of academic excellence.

Certain rights and obligations flow from membership in any academic community committed to such goals:

- The rights of personal and intellectual freedom, which are fundamental to the idea of a university;
- A scrupulous respect for the equal rights and dignity of others; and
- Dedication to the scholarly and educational purposes of the University and participation in promoting and assuring the academic quality and credibility of the institution.

Students are responsible for obtaining, learning, and observing the established University and center policies as listed in all official publications. In addition, students must comply with the legal and ethical standards of the institution as well as those of Broward County and the State of Florida. All members of the community should inform the appropriate official of any violation of conduct regulations.

A. Academic Standards

The University expects its students to manifest a commitment to academic integrity through rigid observance of standards for academic honesty. The academic honesty standards include:

1. Original Work. Assignments such as course preparations, exams, texts, projects, term papers, practicums, etc., must be the original work of the student. Original work may include the thoughts and words of another author, but if that is the case, those ideas or words must be indicated in a manner consistent with a University-recognized form and style manual.
Work is not original that has been submitted previously by the author or by anyone else for academic credit. Work is not original that has been copied or partially copied from any other source, including another student, unless such copying is acknowledged by the person submitting the work for the credit at the time the work is being submitted or unless copying, sharing, or joint authorship is an express part of the assignment. Exams and tests are original work when no unauthorized aid is given, received, or used prior to or during the course of the examination.

2. Referencing the Works of Another Author. All academic work submitted for credit or as partial fulfillment of course requirements must adhere to each center’s specific accepted reference manuals and rules of documentation. Standards of scholarship require that proper acknowledgement be given by the writer when the thoughts and words of another author are used. Students must acquire a style manual approved by their center and become familiar with accepted scholarly and editorial practice in their program. Students’ work must comport with the adopted citation manual for their particular center.

At Nova Southeastern University, it is plagiarism to represent another person’s work, words, or ideas as one’s own without use of a center-recognized method of citation. Deviating from center standards (A) (1) or (A) (2) is considered plagiarism at Nova Southeastern University.

3. Tendering of Information. All academic work must be the original work of the student. Giving or allowing one’s work to be copied, giving out exam questions or answers, or releasing or selling term papers is prohibited.

4. Acts Prohibited. Students should avoid any impropriety, or the appearance thereof, in taking examinations or completing work in pursuance of their educational goals.

Violations of academic responsibility include, but are not limited to:

a. Plagiarism;
b. Any form of cheating;
c. Conspiracy to commit academic dishonesty;
d. Misrepresentation;
e. Bribery in an attempt to gain an academic advantage;
f. Forging or altering documents or credentials; and
g. Knowingly furnishing false information to the institution.

5. Additional Matters of Ethical Concern. Where circumstances are such as to place students in positions of power over University personnel, inside or outside the institution, students should avoid any reasonable suspicion that they have used that power for personal benefit or in a capricious manner.

B. Conduct Standards

1. Students should not interfere with the rights, safety, or health of members of the University community nor interfere with other students’ right to learn. Students are expected to abide by all University, center, and program rules and regulations and all local, state, and federal laws. Violations of conduct standards include, but are not limited to:
a. Theft
b. Vandalism
c. Disruptive behavior
d. Possession or use of firearms, fireworks, explosives, or other dangerous substances or items
e. Possession, transfer, sale, or use of illicit drugs
f. Appearance in class or on campus under the apparent influence of alcohol or illicit drugs or chemicals
g. Violations of housing regulations
h. Any act or conspiracy to commit an act which is harassing or abusive or which invades an individual’s right to privacy, including, but not limited to, sexual harassment and abuse against members of a particular racial, ethnic, religious, or cultural group
i. Threats of or actual damage to property or physical harm to others
j. Nova Southeastern University prohibits any activity that may be construed as hazing. "Hazing" is defined as: any action or situation which recklessly or intentionally endangers the mental or physical health or safety of a student for the purpose of initiation or admission into or affiliation with any organization operating under the sanction of a university.
k. Failure to pay tuition and fees in a timely manner

2. Students must have authorization from the University to have access to University documents, data, programs, and other types of information and information systems. Any use of the above without authorization is prohibited.

C. Supplementary Standards

Students are expected to comply with the legal and ethical standards of this institution and those of their chosen field of study, including the code of ethics for computer usage. The University and each center or program may prescribe additional standards for student conduct as would comport with the letter and spirit of this code.

D. Violations

Any violation(s) of any of the academic standards, conduct standards, or supplemental standards may result in a complaint being filed against a student to enforce the Code of Student Conduct and Academic Responsibility. Deans or directors may, in their discretion, immediately suspend students pending a hearing on charges of academic conduct or supplemental standard violations. Any student found guilty of a violation of the academic, conduct, or supplemental standards will be subject to disciplinary action, including expulsion from the University.

Student Code of Computer Ethics

Nova Southeastern University provides computer systems with access to hardware, software, and networks to enhance academic experience. The University’s computer systems are vital to the University’s programs of instruction, research, and administration. Nova Southeastern University’s computer systems refer to all computers owned or operated by the University and include hardware, software, data, and communication networks associated with these systems. In particular, computer systems refer to systems ranging from multiuser time-sharing systems to single-user terminals and personal computers, whether free standing or connected to a network.
Ethical conduct by students in the use of this technology is the same as in all other areas of University life and it is of equal importance. All students are expected to abide by the Nova Southeastern University Code of Student Conduct and Academic Responsibility. Students as part of their academic preparation toward specific professional career goals must be aware of and abide by the professional code of ethics associated with that chosen profession. Therefore, student technology users must apply standards of normal academic and professional ethics and considerate conduct to their use of the University’s computing systems and resources, including respect of other users’ rights to privacy.

The student user must be aware of the legal and moral responsibility for ethical conduct in the use of technology. Student users of Nova Southeastern University’s computer systems are subject to all applicable federal, state, and international computer laws. A copy of the Florida Computer Crimes Act and referenced Florida State Statutes may be examined on-line or in a student’s academic program office.

In addition, a student accessing any Nova Southeastern University computer systems, whether a multiuser time-sharing system or a single-user terminal or personal computer, must:

- Have proper authorization for use or attempted use of accounts within the Nova University computer systems
- Limit the use of Nova Southeastern University computer systems to academic activities as defined by the student’s academic program office
- Refrain from attempting to tamper with or obstruct the operation of Nova University’s computer systems
- Be aware that accessing or using another person’s computer account without that person’s permission is illegal and unethical
- Refrain from any attempt to use Nova Southeastern University’s computer systems as a means for the unauthorized access to computer systems outside the University’s systems
- Be aware that the use of invasive software, such as worms and viruses destructive to hardware, software, or data files, is illegal and unethical
- Be aware that using Nova Southeastern University’s computer systems to act or behave in a rude, obscene, or harassing manner will be dealt with by appropriate University policy, procedures, and agents
- Use only legally obtained or licensed data or software in accordance with the license or purchase agreement
- Be in compliance with federal copyright laws and the Nova Southeastern University Copyright Code.
As with all matters of law and ethics, ignorance of the rules does not excuse violations. Inappropriate conduct and violations will be dealt with under the guidelines of the Nova Southeastern University Code of Student Conduct and Academic Responsibility as defined and determined by the Office of the Academic Vice-President and the office of the dean of a student’s academic program.

Drug-Free Schools and Campuses

In order to comply with the Drug-Free Schools and Communities Act (P.L. 101-226, Title 34 C.F.R., part 86), Nova Southeastern University has adopted the following policy for all workplace, school, campus, and field-based programs.

The unlawful manufacture, distribution, dispensation, possession, or use of illicit drugs* and the abuse of alcohol are prohibited in and on Nova Southeastern University owned or controlled property and as a part of any of its activities. No Nova Southeastern University employee or student is to report to work or school while under the influence of illicit drugs or alcohol. There are serious health risks associated with the abuse of drugs and alcohol (see attached "Controlled Substances—Uses and Effects"). If you, a fellow student, teacher, or co-worker has a problem with abuse of drugs and/or alcohol, help can be provided at the following locations:

On Campus

Nova Southeastern University Student Counseling Service
Mailman Building
(305) 475-7552
Nova Southeastern University Community Mental Health Clinics
Coral Springs................. 753-7020
Davie......................... 475-7070
Lauderdale Lakes............. 486-3663

Community

Florida Department of Education
Educational Prevention Center
Knott Building
Tallahassee, Florida 32399
(904) 488-6304

Department of Health and Rehabilitative Services
Alcohol and Drug Abuse Program
1317 Winewood Boulevard
Tallahassee, Florida 32399
(904) 488-0900

When you use or deal in drugs, you also risk incarceration and/or fines. The attached federal sentencing guidelines indicate federal penalties for trafficking in drugs.

*The term "illicit drugs" refers to all illegal drugs and to legal drugs obtained or used without a physician’s order. It does not prohibit the use of prescribed medication under the direction of a physician.
In addition to the federal sanctions, Florida state statutes provide sanctions in regard to the use, possession, and/or sale of illicit drugs and the abuse of alcohol. Punishment varies dependent upon the amount and type of drug and/or alcohol involved. Felony convictions range from one year to life imprisonment. Possession of not less than 20 grams of cannabis is punishable as a misdemeanor of the first degree. Punishment for misdemeanors ranges from less than 60 days to one year imprisonment.

Under §893.13 (1) (e), Florida Statutes, it is unlawful for any person to sell, purchase, manufacture, deliver, or to possess with the intent to sell, purchase, manufacture, or deliver a controlled substance in, on, or within 1,000 feet of a public or private elementary, middle, or secondary school. Punishment for a violation of this statute may include a minimum three-year imprisonment.

Under §316.1936, Florida Statutes, it is unlawful for any person to possess an open container of alcoholic beverage while operating a vehicle in the state or while a passenger in or on a vehicle being operated in the state. Violation of this law will result in a noncriminal moving traffic violation, punishable as provided in Chapter 318 of the Florida Statutes, with fines and points on a driving record leading to driver’s license suspension.

Under §316.193, Florida Statutes, a person is guilty of driving under the influence if such a person is driving or in actual physical control of a vehicle within the state and the person is under the influence of alcoholic beverages or any controlled substance when affected to the extent that his or her normal faculties are impaired or the person has a blood alcohol level of .10 percent or higher. First conviction on such a DUI charge shall result in a fine not less than $250 or more than $500 and imprisonment not more than six months. A second conviction results in a fine of not less than $500 or more than $1,000 and not more than nine months’ imprisonment. Third conviction will result in not less than a $1,000 fine or more than a $2,500 fine and imprisonment for not more than 12 months.

By applying for a driver’s license and accepting and using a driver’s license, a person holding the driver’s license is deemed to have expressed his or her consent to submit to breath, blood, and urine tests for alcohol, chemical substances, or controlled substances.

Nova Southeastern University requires that an employee notify the employer of any criminal drug statute conviction for a violation occurring in the work place no later than five (5) days after such conviction. In order to comply with federal law, Nova Southeastern University must notify any federal contracting agency within 10 days of having received notice that an employee engaged in the performance of a federal contract or grant has had a criminal drug statute conviction for a violation occurring in the work place. Any criminal drug convictions in the work place must be reported by the employee to his or her University supervisor or department head within five (5) days of the date of such conviction. The University will discipline any employee who is so convicted or require the employee’s satisfactory participation in a drug/alcohol abuse assistance or rehabilitation program within thirty (30) days of notice of such conviction.
Any Nova Southeastern University employee or student determined to have violated this policy shall be subject to referral for prosecution by the appropriate authorities. Other sanctions include evaluation/treatment for drug use disorder, which may include mandatory completion of a drug/alcohol abuse rehabilitation program, expulsion, and/or termination.

All Nova Southeastern University faculty and staff members will, as a condition of their employment, abide by the terms of this policy. All Nova Southeastern University students will, as a condition of their enrollment, abide by the terms of this policy.

1 Designated a narcotic under the CSA  
2 Not designated a narcotic under the CSA
Smoking and Nonsmoking

Smoking is prohibited in any Nova Southeastern University facility where, regardless of physical separation, nonsmokers share a ventilation system with smokers.

This policy does not apply to living quarters (dormitories), which are subject to a separate smoking policy. Nor does this policy in any way supersede the Florida Clean Indoor Air Act.

Alcohol and Other Drugs

Nova Southeastern University, as an institution of higher education, is dedicated to the well-being of all members of the University community--students, faculty, staff, and administrators. Concerned with the misuse of alcohol and other drugs (both licit and illicit), it is the policy of the University to endeavor to prevent substance abuse through programs of education and prevention.

The University recognizes alcoholism and drug abuse as illnesses or treatable disorders, and it is the University's policy to work with members of the university community to provide channels of education and assistance. However, it is the individual's responsibility to seek help. The University also recognizes that the possession and/or use of certain substances is illegal, and the University is obligated to comply with local, state, and federal laws.

1. While on campus or engaged in any University related activity, members of the University community must be in a fit condition to perform appropriately. Being under the influence of alcohol and/or drugs is prohibited and may subject the individual to disciplinary action including the possibility of dismissal.

2. Employees will be evaluated only on their work performance. If alcohol consumption or the use of any other drug affects an employee's performance, assistance is available. However, if an employee's performance continues to deteriorate, the University will discipline the employee based on his or her job performance. Poor job performance will lead to discharge.

3. Professional assistance for substance abuse is given on a confidential, professional, and voluntary basis. The purpose of this assistance is to help the individual member of the University community who has a substance abuse problem lead a productive work and/or academic life free of substance abuse.

4. Members of the University community who engage in any illegal activity involving alcohol or other drugs are subject to dismissal.

Substance Abuse Awareness, Education, and Prevention

Nova Southeastern University's activities in substance abuse awareness, education, and prevention exist to encourage members of the University community to avoid the use of illicit drugs, to use alcohol and other licit drugs in a responsible manner, and to avert the need for direct intervention. The specific goals of the program are the following:
• To educate all members of the community that the use and possession of certain substances are illegal and may result in adverse consequences

• To inform members of the University community concerning the physical and psychological effects of alcohol and other drugs and to develop an awareness of potential problems that can result from the use of these substances

• To support those who choose not to drink alcohol or to use other drugs

• To teach those who choose to drink alcohol to do so responsibly

• To help those who abuse alcohol or other drugs.

In order to achieve these goals, the University operates and/or engages in the following programs and activities:

1. **Alcohol and Drug Abuse Resource Center.** The Alcohol and Drug Abuse Resource Center is directed by an existing staff member. Additional staff consists of student employees, practicum students, and/or student volunteers. The center has the primary responsibility for the University’s prevention and education programs. It coordinates the various activities and serves as a clearinghouse for alcohol and drug information. Each academic center designates a contact person who works with the resource center staff to disseminate information within their centers.

2. **Advisory Committee.** This is a group of administrators, faculty, and student leaders who are appointed by the vice-president for academic affairs to serve as advisers and resource persons. The committee is chaired by the director of the Alcohol and Drug Abuse Resource Center. The group meets monthly to discuss and develop program plans and activities.

3. **Alcohol and Drug Awareness Activities.** Under the direction of the Alcohol and Drug Abuse Resource Center, there are regular and ongoing activities designed to disseminate information about alcohol and drug use. The audience of the information is all students, employees, and faculty of the University, both on and off campus. The awareness activities can include posters, media campaigns, films, exhibits, and literature. The University supports the National Alcohol Awareness Week and schedules activities at that time to promote awareness on campus.

4. **Student Organizations.** The student governments are encouraged to establish chapters of organizations such as BACCHUS (Boost Alcohol Consciousness Concerning the Health of University Students) and SADD (Students Against Drunk Driving).

5. **Alcohol and Drug Abuse Workshops.** These are provided for student leaders and for employees as part of the University’s staff development program. These workshops provide the opportunity for participants to discuss the information they receive. Student leaders are required to complete such workshops before they can plan parties that involve drinking.
6. **Academic Courses.** Several academic centers have put identifiable units on alcohol and drugs into appropriate existing courses. Additionally, several academic centers have established elective courses in substance abuse and/or recommend students to take such courses in other centers. Assistance is available to the academic centers from the Alcohol and Drug Abuse Resource Center to ensure the substance abuse content of courses is consistent with University policies.

7. **Orientation.** Academic centers include information on drugs and alcohol in the orientation sessions and materials for new students. The orientation provides a general orientation to the problems of substance abuse and includes a statement of the University's policy on drugs and alcohol. The information is presented in a positive manner. The Resource Center works with the academic centers to prepare the materials presented.

### Communicable Diseases Policy Guidelines

It is the intent of the University to protect students and employees from exposure to communicable diseases that pose reasonable risk of harm to members of the University community. It is also the intent of the University to protect the rights of those infected with a communicable disease pursuant to the Sick Leave Policy of the University. Employees and students of the University who do become infected with a communicable disease are subject to the guidelines listed below.

All employees diagnosed with any communicable disease will receive the same benefits and privileges extended to any employee under the Sick Leave Policy and shall be afforded confidentiality for all related issues.

The University will be flexible in its response to incidents of communicable disease, evaluating each occurrence in light of this policy and current available medical information.

### Guidelines

1. For the purpose of this policy, the term "employee" shall include all persons employed by the University, either full time or part time, including adjuncts and off-site coordinators, but shall not include the following persons:

   a. Members of the Board of Trustees
   b. Guest lecturers
   c. Vendors

The term "student" shall include all persons enrolled at the University, either part time or full time, from preschool through graduate studies.

The term "infected person" shall include students and employees who have been medically diagnosed as infected with a communicable disease.
In the event that any employee, administrator, or student has a concern about the potential for the spread of a communicable disease within the University community, those concerns should be brought to the assistant director of human resources for review consistent with the current available information on the spread of the particular communicable disease. After review and evaluation of the concerns, if there appears to be a reasonable likelihood of the spread of the disease within the University community by an infected person, the assistant director of human resources will, after notification of the issues presented to the University president, contact the Broward County Health Department for recommendations of appropriate action consistent with state law.

The University will make available to its employees and students information about the transmissibility of communicable diseases and precautions that can be taken to prevent the spread of various communicable diseases.

2. An infected person can continue to work and study so long as he or she is able to continue to perform regular responsibilities satisfactorily and so long as the best available medical evidence indicates that his or her continued status does not present a health or safety threat to self or others. Infected employees with diseases that threaten the safety of others are eligible for the same leave of absence provisions of current University policy for sick or annual leave.

3. An infected person returning to work or school after a leave of absence for reasons related to a communicable disease must provide a statement from his or her treating physician indicating current medical status. An employee shall submit the physician’s statement to the director of human resources or a delegated representative. Students shall submit their statement to their program dean.

4. Within reason, the University shall make accommodations to the infected persons, whenever possible, to ensure continuity in employment or in the classroom. Such measures may include, subject to administrative limitations, job reassignment or class reassignment to place the infected person in a less demanding position.

5. No infected person (employee or student) may be dismissed from the University solely on the basis of a diagnosis of an infection of a contagious disease. A decision to dismiss or discharge will only be made after reasonable accommodation has been attempted and an examination of facts demonstrate that the infected person can no longer perform as required or poses a reasonable threat to the health and safety of those around him or her.

6. Disciplinary measures are available to the University when any employee fails or refuses to work at his or her assigned job with an infected person who has not been deemed to pose a present health or safety threat to self or to others. Student disciplinary measures shall range from counseling to expulsion.

7. As with any medical condition, employees must not disclose information regarding another employee or student to anyone except those employees with a medical or administrative need to know. The University shall take every precaution to ensure that confidentiality is maintained. Breach of such confidentiality by any employee shall result in disciplinary action.
Policy on Sexual Harassment

It is the intent of Nova Southeastern University to protect all employees and students from sexual harassment. Sexual harassment is a violation of Title VII. Sexual harassment undermines the integrity of the employment and academic environment, debilitates morale, and interferes with the effectiveness of employees and students. In accordance with Equal Employment Opportunity Commission-promulgated guidelines, unwelcome sexual advances, unwanted requests for favors of a sexual nature, and any other verbal or physical conduct of a sexual nature are considered sexual harassment if:

(a) Explicit or implicit submission to sexual overtones is made a term or condition of employment.

(b) Employment decisions are made on the basis of whether submission to or rejection of sexual overtones occurred.

(c) An individual’s work performance is unreasonably interfered with by a sexually intimidating, hostile, or offensive atmosphere.

A. At Nova Southeastern University, sexual harassment of or by employees includes:

1. Unwelcome or unwanted sexual advances. This includes unwelcome physical contact or sexual advances considered unacceptable by another individual.

2. Requests or demands for sexual favors. This includes subtle or blatant pressures or requests for any type of sexual favor accompanied by an implied or stated promise of preferential treatment or negative consequence concerning one’s employment status.

3. Verbal abuse that is sex-oriented or considered unacceptable by another individual, as well as sexually derogatory comments. This includes commenting about an individual’s body or appearance when such comments go beyond mere courtesy; telling jokes that are clearly unwanted and considered offensive by others; or other tasteless, sexually-oriented comments or innuendoes or actions that offend others.

4. Engaging in any type of sexually-oriented conduct that would unreasonably interfere with another’s work performance. This includes extending unwanted sexual attention to someone that reduces personal productivity or time available to work at assigned tasks.

5. Creating a work environment that is intimidating, hostile, or offensive because of unwelcome or unwanted sexually-oriented conversations, suggestions, requests, demands, physical contacts or attentions.

Nova Southeastern University will not tolerate sexual harassment. Sexual harassment is an insidious practice. It demeans individuals being treated in such manner and creates unacceptable stress for the entire organization. Persons harassing others will be dealt with swiftly and vigorously.

Normal, noncoercive interaction that is acceptable to both parties is not considered to be sexual harassment.
All allegations of sexual harassment of or by an employee, client, or vendor will be promptly and thoroughly investigated by the Human Resources Department and should be reported promptly to the director of human resources.

B. At Nova Southeastern University, sexual harassment by employees of students is defined as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when:

1. Submission to such conduct is made to appear to be a term or condition of enrollment, attendance, or participation in a class;

2. Submission to or rejection of such conduct affects academic decisions;

3. Such conduct has the purpose or effect of unreasonably interfering with a student’s academic performance or creating an intimidating, hostile, or offensive academic environment;

4. Unwelcome patting, pinching, or touching;

5. Offensive or demeaning sexual remarks, jokes, or gestures.

Students aggrieved by a violation of this policy may file a grievance under their center’s grievance procedure.

Any employee who violates any portion of this policy shall be subject to disciplinary action.

At Nova Southeastern University, romantic and sexual relationships between a faculty member and a student are subject to the prohibition against sexual harassment.

Romantic or sexual relationships between a faculty member and a student then enrolled in the faculty member’s class (including supervised student activities for which academic credit is given) may appear to be coercive and are discouraged. Even when no coercion is present, such relationships create an appearance of impropriety and favoritism that can impair the academic experience of all students in that class. It is, therefore, improper conduct for a faculty member to engage in a romantic or sexual relationship with a student then enrolled in the faculty member’s class.

Privacy of Records

Nova Southeastern University maintains a system of records that includes application forms, letters of recommendation, admission test scores, and transcripts of students’ previous academic records and performance while in residence. These records are available for review by present and former students upon written request to the registrar’s office. However, the registrar will not release transcripts of students’ academic records until all their accounts, both academic and nonacademic, have been paid.
The law limits access by and disclosure to a third party. Such access is given only upon consent of the student or if required by law, except for the following information, which may be released as directory information: a) student's name; b) dates of attendance; c) degree and awards received. Requests for such information must be submitted in writing to the registrar. The University reserves the right to refuse the above information if the reason for the request is not considered to be a sufficient need to know.

Any student or parent not wishing to have this information disclosed should notify the Office of the University Registrar in writing prior to September I of the relevant school year. A person does not have the right of access to educational records until he or she has been admitted to and has actually begun attending Nova University. There is no prohibition from disclosing such information to the parents of students who are listed on their parents' federal income tax forms.

Parents or eligible students will be provided a hearing by the University if they wish to challenge the content of the record. If they are still not satisfied, the parents or eligible students may add explanatory or rebuttal matter to the record.

If the students or parents are denied access to a hearing or if the records are alleged to have been illegally disclosed to a third party, the students or parents may file a complaint with the U.S. Department of Education.

**Reservation of Power**

Nova reserves the right to amend, modify, add to, or delete its rules, policies, and procedures affecting its institutional relationship with students as deemed necessary by the administration. Any such amendment, modification, addition, or deletion shall not be considered a violation of the relationship between the University and the student. Such right includes modification to academic requirements, curriculum, tuition, and/or fees when in the judgment of the administration such changes are required in the exercise of its educational responsibility.
Faculty and Administrative Staff

Ronald J. Chenail, Dean
Ph.D. in Family Therapy, M.Ed. in Educational Psychology with Counseling Specialization
Teaching interests: discourse in therapy and mediation; qualitative inquiry.

Sharon Boesl, Assistant Dean, Clinical and Community Services
Ph.D. Candidate in Family Therapy, M.A. in Psychology
Teaching interests: systemic approaches to court-ordered evaluation and treatment; management of mental health agencies; conduct of initial intake process with clients.

Anne Booth, Program Coordinator/M.S. program in Dispute Resolution and C.S. program in Family Systems Health Care

Marti I. Bonneau, Director/Master’s program in Dispute Resolution, Assistant Professor
M.S. in Social Work
Teaching interests: supervision and training in alternative dispute resolution processes; consultation, design and implementation of conflict management systems for government, businesses, and organizations.

Gale R. Bouchillon, Director/Academic Services and Continuing Education
M.S. in Child and Youth Care Administration

Douglas G. Buck, Director/Human Resources (Nova Southeastern University), Assistant Professor
D.P.A. in Public Administration
Teaching interests: Business arbitration and mediation, labor relations, and human resource management.

Christopher F. Burnett, Assistant Professor
Psy.D. in Clinical Psychology, M.A. in Psychology
Teaching interests: linguistic approaches to Bowenian and other multigenerational family therapies; the interface of qualitative and quantitative research methodologies; Bowenian approaches to live team supervision.

Pat Cole, Visiting Assistant Professor
Ph.D. in Family Therapy, M.Ed. in Counseling Education
Teaching interests: family relationships in family business and in other work contexts; gender concerns in the work place; qualitative and quantitative research.

Douglas Flemons, Director/Doctoral program in Family Therapy, Associate Professor
Ph.D. in Family Therapy, M.A. in Counseling Psychology
Teaching interests: relational means of creating and understanding contextual phenomena such as therapy, hypnosis, and learning; writing as inquiry; therapeutic imagination; the presence of absence and the absence of presence.

Shelley K. Green, Assistant Professor
Ph.D. in Marriage and Family Therapy, M.S. in Family Studies
Teaching interests: supervision and training in systemic therapies; the role of gender in team development; therapist learning styles and personal competence; systemic approaches to sexual issues in therapy; brief therapy with persons with AIDS.
Estella Martinez, Operations Manager

Sherri Muchnick, Director/Family Systems Health Care Program, Assistant Professor
Ph.D. in Counseling, M.A. in Counseling
Teaching interests: gender and intergenerational issues in therapy; family transitions; therapeutic change as belief pattern and world view transformation; family play therapy; client-designed interventions.

Anne Hearon Rambo, Director/Master’s program in Family Therapy, Assistant Professor
Ph.D. in Family Therapy, M.S. in Social Work
Teaching interests: supervision and training in systemic therapies; therapy as play and play as therapy; development of the therapist’s unique personal style; rhetoric and language skills training; family therapy history.

Lee Shilts, Assistant Professor
Ph.D. in Family Therapy, MS.Ed. in School Psychology
Teaching interests: brief solution-focused theory and therapy; supervision and training in systemic therapies; the use of solution-focused therapy in nontraditional settings; Ericksonian hypnotherapy; use of letter writing in therapeutic settings.

JOHN J. SANTULLI, II, Associate Vice-President for Administration
JEFFREY SCHNEIDER, Vice-President for Finance
JOHN A. SCIGLIANO, Ed.D., Vice-President for Computer and Information Technology
The provisions set forth in this document are not to be regarded as an irrevocable contract between the student and Nova Southeastern University. Regulations and requirements, including tuition and fees, are necessarily subject to change without notice at any time at the discretion of the administration. The University further reserves the right to require a student to withdraw at any time, as well as the right to impose probation on any student whose conduct is unsatisfactory. Any admission on the basis of false statements or documents is void upon discovery of the fraud, and the student is not entitled to any credit for work that he or she may have done at the University. Upon dismissal or suspension from the University for cause, there will be no refund of tuition or fees. The balance due Nova Southeastern University will be considered receivable and will be collected.

A transcript of a student's academic record cannot be released until all of his or her accounts, academic and nonacademic, are paid.

Any Nova Southeastern University student has the right to inspect and review his or her educational record. The policy of the University is not to disclose personally identifiable information contained in a student's educational record without prior written consent from the student, except to University officials, to officials of another school in which the student seeks enrollment, to authorized representatives of federal or state agencies, to accrediting organizations, to parents of dependent students, under judicial order, to parties in a health or safety emergency, or when verifying graduation with a particular degree.

A student also has the right to petition Nova Southeastern University to amend or correct any part of his or her educational record that he or she believes to be inaccurate, misleading, or in violation of the privacy or other rights of students. If the University decides it will not amend or correct a student's record, the student has a right to a hearing to present evidence that the record is inaccurate, misleading or in violation of the privacy or other rights of students.

If these rights are violated, a student may file a complaint with the Department of Education. A student may obtain a copy of the Educational Privacy Act policy by requesting it in writing from the Office of the University Registrar, Nova Southeastern University, Parker Building, 3301 College Avenue, Fort Lauderdale, Florida 33314. A schedule of fees and a listing of the types and locations of educational records are contained in this policy.

Nova Southeastern University does not discriminate on the basis of handicap, sex, race, religion, or national or ethnic origin in admission, access, or employment for any of its programs and activities. The university registrar and director of human resources have been designated as student and employee coordinators, respectively, to assure compliance with the provisions of the applicable laws and regulations relative to nondiscrimination.

The school is authorized under federal law to enroll nonimmigrant alien students.

The Nova Southeastern University general policies on student relations are on file in the Office of the University Registrar.

Nova Southeastern University programs are approved for the training of veterans and other eligible persons by the Bureau of State Approval For Veterans Training, Florida Department of Veterans' Affairs. Eligible veterans and veterans' dependents should contact the Office of the University Registrar, 3301 College Avenue, Fort Lauderdale, Florida 33314, telephone (305) 370-5685.
