THE STATE OF THE UNIVERSITY

Gold Key members, several prominent bankers of Broward County, and other key citizens recently heard Dr. Abraham S. Fischler, President of Nova University, report on the present status of the school. (Pictures of the luncheon on Pages 4 and 5 this issue.)

New, impressive and important facts:

(1) Nova University through its affiliation with the New York Institute of Technology will increase its vital services to business and industry for off-campus training courses for valued personnel;

(2) Ph.D. degrees in life sciences will be offered at the Life Sciences Center. Curricula will consist of formal lectures and seminars in biochemistry, pathogenic bacteriology, virology, immunology and related areas; a major step forward.

(3) It is presently expected that the Life Sciences Center, already one of the fastest growing cancer research facilities in the southern part of America, will be augmented by important additions in staff and facilities from the mid-west. (Approximately $190,000 in local support will be required, Dr. Fischler explained to the banking and financial interests present.)

(4) The recent affiliation of Nova with the New York Institute of Technology, an accredited private university of Old Westbury, will aid Nova to speed up by several years the timetable for the accomplishment of its original goals adopted when it was founded.

(a) Bachelor of Technology degrees, with specialties in computer technology, electronics, management technology and Master's in business education will be offered by the New York Institute of Technology on the Nova University Campus. (Continued page 8)
GOLD KEY AND NOVA LOSE VALUED FRIENDS IN GOODMAN AND BARZILAY

GOLD KEY now in its sixth year, Nova University's most prestigious support group, has until now been fortunate in that all of its members have been with us.

But 1971 has been a sad year. The organization lost Aaron Barzilay and Leo Goodwin, Sr.

Deepest sympathies from President John E. Morris, his office and directors, and the entire GOLD KEY members, are extended to the families of these fine men.

We were fortunate in procuring statements made by Dr. Edward P. Downey at the Leo Goodwin services at the Church-By-The-Sea Wednesday, June 2nd, and are re-printing part of it.

Mr. Goodwin helped make possible the establishment of the Life Sciences Cancer Research Laboratory on the third floor of the Parker Building, on the Nova Campus.

"Picture a man with head in the clouds and feet firmly planted on the earth and you have Leo Goodwin."

"He could think big, but he did not forget the infinite number of details which give meaning to bigness. Many of those details are the simple Puritan virtues so time-honored in the past and so often disparaged today. . . This remarkable man was a person who combined high ideals with common sense ways of life.

"Mr. Goodwin believed in simple virtues like honesty, responsibility in keeping a promise, the necessity of constant self-improvement, and hard work. He took much from life, but he always tried to give a little more than he received . . . His better-mouse-trap-plan was to give a client a full dollar's worth in value and make the client come back again . . . "Give the customer every possible favor in settling a claim" is a good combination of high idealism and bed-rock business sense.

"As an organization grows it is increasingly difficult for the men at the top to maintain a personal relationship with the employees, but Mr. Goodwin had rapport with the "average worker". They knew him, and felt he had a personal interest in them . . ."

"This concern was evident in a pension plan then considerably ahead of common business practice; and in a profit-sharing plan which might well be the answer to many of our labor-management problems today . . ."
BARZILAY WAS EARLY GOLD KEY MEMBER

Aaron Barzilay was sixty when he died in mid-June.

His home was at 3610 Bayview Drive and he was President of Aaron Barzilay, Inc., an investment firm specializing in estate planning and mutual funds.

He was a native New Yorker and once was a jewelry firm executive there. Sixteen years ago at age 44, he came to Fort Lauderdale. His handsome suite of offices was in Foy Flemings' American National Bank Building. His seminars were famous, and widely known in the estate planning field.

He and Dorothy were delightful additions to various GOLD KEY affairs.

GORDON BECKMAN IS NEW BARZILAY HEAD

(Note:) Gordon W. Beckman has been nominated President of Aaron Barzilay, Inc., the State Pioneers and Mutual Fund specialists, members of the Philadelphia - Baltimore - Washington Stock Exchange. He succeeds the late Aaron Barzilay.

TO PUT THE FUTURE IN DEBT TO YOU

The way to get out of debt is to "Pay our debt to the past by putting the future into debt ourselves."

So said Lord Tweedsmuir of Canada.

Many individuals are settling their share of the debt we owe the past. Scientists wipe out diseases, welfare experts evolve new ways to eliminate poverty and ignorance.

More and more responsible citizens are writing meaningful bequests into their wills, enjoying the satisfaction that, in some measure the future will be in debt to them.

NEWSY DOTS

---

Between 1958 and 1970 Fort Lauderdale's population grew from 77,225 to 140,000; tourists have increased from 210,798 to 1,620,589.

---

FORMER GOLD KEY SPEAKER MAKES PREDICTION

Dr. Glenn T. Seaborg, member of Nova University's National Advisory Board, who addressed Gold Key at a recent annual dinner and who is chairman of the Atomic Energy Commission, speaking in Honolulu, "estimates that if air pollution were reduced 50% - which he says is feasible through nuclear power - cash savings to the nation in reduced death and diseases alone would amount to 'at least $2-billion'"...

OCEANOGRAPHY GRANT

In mid-June Nova received a $280,000 grant to study current and eddies in the North Atlantic for the Federal Government.

The award came from the NSF.

The program is called Mid-Ocean Dynamic Experience (MODE).

MIKE MORGAN QUOTES SIDNEY BANKS

“Sidney Banks tells the yarn of the wealthy midget who took up golf but couldn’t find equipment his size. He had special half-sized clubs built, at heavy cost, handmade golf shoes for his half-size feet, special golf clothing half regular size, and an expensive fine tooled leather bag to fit his dimensions.

Finally, accoutered in his splendid new clothes, with a pint-sized caddy carrying his costly equipment, the midget strode to the first tee, took out his diminutive driver, cupped a hand to mouth and yelled down the fairway: “Two!”

BOB GILL, SPORTSMAN

George W. “Bob” Gill was on a bird shooting expedition in Czechoslovakia… He is an active member of the African Safari Group.

FORMAN BUYS MARBLE IN ITALY

Ham Forman was in Italy earlier this year with his Doris.

Part of his trip through Europe was to look at marble and statuary for his cemetery now practically completed.

GOLD KEY welcomes back Sidney Banks.

Horvitz Featured

William Horvitz, Nova University trustee, was featured in the Sunday, July 4th *Fort Lauderdale News* as President of Hollywood Inc., one of Broward Counties largest land development companies, located in Hollywood, and possibly the county’s largest. He was described as “an excellent business man, fair, honorable and he strikes a hard bargain”.

Mailman and Anderson

A.L. Mailman, Chairman and Robert Anderson, President of the Hollywood Bank and Trust Co. announced that it has been acquired by the Barnett Banks of Florida. Mailman and Anderson will stay with the Bank, in their present official capacities. The transaction was the largest bank acquisition of the year in Florida. The Hollywood Bank has assets of more than $80-million.

NEWSY DOTS

Gilbert P. Edwards, President and Chairman of the Board of Realtex, Inc., has announced plans for the acquisition and development of 10 acres north of Lago Mar Hotel - Port Everglades Inlet into “Florida’s most unusual and luxurious condominium colony on the 800-foot beachfront site.

Richard E. “Dick” Welch and Mrs. Welch celebrated their 50th wedding anniversary in Evanston recently, and are now on a North Cape cruise.

Robert L. Elmore is one of the key officials of the Executives Association.

E.A. Adomat and Gene Whiddon are members of the “Class of ’72”, Directors of the Board of the Broward County Chapter, of the American Red Cross.

Travis Dungan was presented his GOLD KEY pin by President Morris at the Fischler luncheon. (See Picture)
Dr. Katzenbach (Continued)

He has been Vice President for Research and Public Service at the University of Oklahoma; Vice President of Raytheon at Boston; and Director of the Commission on Administrative Affairs of the American Council on Education in Washington.

In 1961 he was appointed by President Kennedy as Deputy Assistant Secretary of Defense for Education and Manpower Resources, and was a writer in 1960-61 for the then Senator John F. Kennedy.

He has supervised a network of 207 radio stations and 46 TV stations.

He has served as a consultant to the National Academy of Science; the Institute for Defense Analysis; and the Brookings Institution. He directed the Defense Studies Program at Harvard University, and in the 1940's was an Instructor at Princeton.

He has had many honors, belongs to many associations and learned societies, and his writings have been published in the New York Times Magazine, Saturday Review, Current History and other important publications.

He and his brother, Nicholas de Belleville Katzenbach, former U.S. Attorney General and Under Secretary of State, are both in Who's Who in America.

Welcome to Nova, Dr. Katzenbach.

George W. English (Continued)

Living memorials to his untiring efforts include the Fort Lauderdale Public Beach, the Sunrise Boulevard Causeway, the acquisition of Bahia Mar Yacht Basin and the George W. English Park, and the establishment of Broward General Hospital and Nova University;

And has served as a Founding Trustee of Nova University and continues to serve in an honorary capacity and has substantially contributed to the establishment of the Nova University Library, which is named in his honor. He has played a significant role in the higher education of Florida on the Board of Control of Florida Institutions of Higher Learning;

THE NOVACRAT

(b) Nova will offer Master's programs in three education areas; counseling and guidance, early childhood education, and educational engineering.

(c) Independent study programs leading to Master's in business administration are expected to inaugurate a new approach to teaching.

(5) Nova University is on correspondent status with the Southern Association of Colleges and Schools and the regional accrediting body is currently considering accreditation for Nova. The Nova University dream, Fischler said, thanks to GOLD KEY, and other groups and individual supporters, is becoming a reality.

Dr. Katzenbach, Jr. distinguished new Vice President of N.Y.I.T. on the Southern, or Nova Campus, was introduced to the group.

The University (Continued)

Another Important Session Scheduled

GOLD KEY is planning a further luncheon session for medical men, scientists and others interested in cancer research and progress, medical library facilities and publications. President Morris, of GOLD KEY, will announce the date of this gathering shortly.

THEREFORE, BE IT RESOLVED, THAT the Trustees of Nova University confer upon him the degree of Doctor of Humanities, honoris causa, with all the rights and privileges pertaining thereto.
