It has been accepted for inclusion in Undergraduate Programs Course Catalogs by an authorized administrator of NSUWorks. For more information, please contact nsuworks@nova.edu.
NOVA COLLEGE

1992-1993 Catalog

THE JAMES M. FARQUHAR CENTER FOR UNDERGRADUATE STUDIES
Policies and programs in this catalog are effective through June 1993. Regulations and requirements, including fees, are necessarily subject to change without notice at any time at the discretion of the Nova University administration.

Nova University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award bachelor's, master's, educational specialist, and doctoral degrees. Nova University admits students of any race, color, sex, age, nondisqualifying handicap, religion or creed, or national or ethnic origin.

Nova University is a member of the American Association of Colleges for Teacher Education.
Nova University has distinguished itself as an innovative, student-oriented private institution. The University's growth in just over a quarter-century has been remarkable, and equally impressive are its ambitious plans for expansion of both its academic programs and physical plant.

Several new construction projects on the main campus in Fort Lauderdale have recently been completed, including the Law Center's Leo Goodwin, Sr., Hall; a new dormitory; a state-of-the-art science laboratory; a central services building; and additions to the student center, the University School, and the Ralph J. Baudhuin Oral School. Nova has an exciting new "look"—in keeping with a progressive institution conscious of its commitment to future generations and its role in society.

At a time when many universities and colleges are experiencing funding constraints and cutbacks, it is heartening to know that Nova is prospering and looking to the future. Among the reasons for this growth is Nova's adherence to its mission of educating professionals in an ethical manner, while placing the student at the center of the educational process.

With an outstanding faculty, new facilities, and dedicated trustees and administrators, Nova is well positioned to continue its expansion into the 21st century.

_Stephen Feldman, Ph.D._
_President, Nova University_

NOVA UNIVERSITY

MISSION

Nova University provides educational programs of distinction from prekindergarten through the doctoral level at times and in locations convenient to students, prepares students for leadership roles in business and the professions, encourages research and community service, and fosters an atmosphere of creativity and innovation utilizing technology where appropriate.

Approved by the Board of Trustees
June 22, 1992

NOVA COLLEGE

MISSION

As part of Nova University, Nova College is known for its innovative educational mission. Nova is not just another college. It was selected in 1981 as one of 18 universities and colleges in the country to participate in a three-year project at the University of Chicago on quality in nontraditional education. In 1987, Nova College entered into a cooperative arrangement with the state of Florida to develop a liberal studies program to provide a coherent and integrated curriculum of interdisciplinary studies.

Nova College provides quality education leading to the bachelor of science or bachelor of arts degree. Studies at Nova College are designed to produce students who think clearly, communicate effectively, understand new technology and ideas, and analyze and solve problems. Knowledge and skills are acquired in the areas of behavioral and social sciences, communications, humanities and arts, economics, science, mathematics, and technology. Moreover, students will specialize in a preferred area of concentration, preparing them to enter or advance in careers or continue with graduate studies.

Faculty and administration are sensitive and responsive to the needs of the individual. They are available to students throughout the day. Faculty are chosen because of their commitment to teaching and learning. They challenge students to excel in their studies and maintain an openness to new information. Students receive thoughtful academic and personal guidance by professional advisers. Classes are small and interactive.

At Nova, students will have the advantage of studying at a major university with nationally recognized graduate programs and research. Eligible Nova College graduates will have the opportunity to move directly into Nova’s graduate degree programs, which include an array of master’s, educational specialist, and doctoral programs. Graduates will enter their chosen career or graduate program highly qualified; they will have acquired the skills, knowledge, and understanding necessary to excel in a rapidly changing international, multicultural, and technological society.

ORGANIZATION

Liberal and Professional Studies

The Liberal and Professional Studies Program provides recent high school graduates a quality education leading to either the bachelor of science or the bachelor of arts degree. Students enroll in a general education program that combines an integrated curriculum of interdisciplinary core studies emphasizing effective writing, communication, and critical analysis, with a required distribution of courses in the areas of literature, art, history, science and technology, oral communication, and hemispheric and global diversity.

The general education program is intended to help students think clearly, communicate effectively, understand new technologies, solve problems effectively, and appreciate the connections that bind us as individuals into a community and that enhance the quality of life. Equally important, students study and work in major fields that prepare them to enter careers or to continue with graduate studies. Students have the additional opportunity for instruction and guidance from faculty in graduate centers of Nova University in the areas of business, education, behavioral sciences, law, oceanography, science, and computer science. Also, students are encouraged to study independently with experts in their chosen fields either in academic settings or through intern experiences. This unique programming is made possible through individualized attention by a professional advising staff committed to optimal academic achievement.

Career Development Studies

The Career Development Studies Program of Nova College has been designed for adults. Courses are offered in the evenings and on weekends on campus and at institutional, industrial, and other off-campus locations convenient to the student. Although course content meets traditional educational requirements, courses are scheduled to meet the needs of employed students and are taught by University professors as well as knowledgeable professionals in the community.

Most of the approximately 2,500 students currently enrolled in the Career Development Studies Program are employed and have families. They bring with them a mature, stable, and determined interest in enhancing themselves through acquiring new knowledge and skills. They have considerable practical experience and a desire to play an active role in their future education.
Institute for Retired Professionals

In order to serve the special needs of the growing retirement community in South Florida, the Farquhar Center for Undergraduate Studies has established the Institute for Retired Professionals (IRP). The program focuses attention on how the educated person can creatively occupy newly found full-time leisure.

Modeled after the highly successful IRP at the New School for Social Research in New York City, Nova's institute offers an opportunity for retired professionals to renew their education. Because of their varied interests and life experiences, IRP members act as teachers and students, thus sharing with and learning from one another. In the IRP, retirees from all walks of life explore new interests and directions.

The institute meets from mid-October through May, followed by a summer session of four to six weeks. Two different classes meet each day, one from 10:00 A.M. to 11:30 A.M. and the other from 12:30 P.M. to 2:00 P.M.

Discussion Groups and Seminars. During the week, there are discussion groups, seminars, and classes on a wide variety of subjects ranging from fine arts and music appreciation to politics, current events, self-awareness, and the law. The areas of study are chosen by the IRP membership, and group leaders and discussion leaders are members.

Lecture Series and Workshops. Members attend lecture courses and workshops conducted by Nova University faculty and other experts exclusively given for the IRP.

Field Trips, Social Gatherings, and Special Events. IRP members enjoy travel! Day field trips and weekend, and weeklong jaunts are planned by a committee. Some recent visits have included St. Augustine, Asolo State Theatre in Sarasota, the Edison Home in Fort Myers, and the Spoleto Festival in Charleston, South Carolina. IRP members enjoy parties! Luncheons and parties are planned and hosted by members.

Summer Program. Each year, a summer study program is designed to meet the membership's needs. In addition, a travel/study experience abroad is part of the program. Recent summer trips have included Israel and Egypt, as well as China and Russia.

Additional printed information is available about the IRP by calling (800) 541-6682, Ext. 7036.

RESOURCES

The administrative offices of Nova College are located in the Parker Building, 3301 College Avenue, Fort Lauderdale, Florida 33314. The telephone number for the main campus is (305) 475-7360 or (800) 541-6682.

Campus and Off-Campus Locations

The main campus of Nova University, including Nova College, is southwest of Fort Lauderdale, Florida, approximately 10 miles inland from the Atlantic Ocean and is easily accessible from major U.S. and state highways, including I-95 and Florida's Turnpike. The Oceanographic Center is located on the south side of the marine entrance to Port Everglades at 8000 North Ocean Drive, Dania.

Libraries

Nova University provides appropriate learning resources at each of its academic centers. In addition, many resources within the broader community are utilized to enrich students' learning environment.

The Einstein Library, on the first floor of the Parker Building, contains a thorough collection of books and journals to support the research needs of Nova University students and faculty. This facility also includes individual study carrels and microform readers. The card catalog is on compact disc, as well as more than 20 specialized indexes and reference materials. Instruction is available in the use of this new technology.

The Richardson Library at the Oceanographic Center contains a specialized collection of books and periodicals related to research in physical, biological, and chemical oceanography.

The Law Library is housed in the Leo Goodwin, Sr., Law Building. The library collection, with more than 235,000 volume equivalents, contains the standard materials required for legal study and research: English, American, and state periodicals, treatises, and loose leaf services. In addition to this basic collection, the library includes extensive materials in the area of taxation, land use planning, and international law. It is one of the few collections designated as a depository for United Nations documents. The Law Center also houses a majority of the U.S. government documents that are deposited with Nova University.

The combined holdings of the University library system contain extensive collections in the law, business, computer sciences, and psychology. Through computer terminals, the Nova libraries are connected with the DIALOG Information Retrieval System, as well as OCLC and other national databases and networks.

Through special cooperative arrangements, Nova University students have access to other libraries in the South Florida Educational Consortium, the Florida Library Information Network, and the Southeast Florida Library Information Network. In support of maximum interchange of community
educational resources, Nova University also maintains cooperative arrangements with other academic libraries in the area, including the Professional Library of the Broward County Public Schools.

Computing and Laboratory Facilities

Laboratory experience is available in electronics, computer science, and engineering, as well as in general physics and life science.

An "ethernet" computer network connecting individual computers and terminals to each other and to the university computing system has been established on campus allowing the development of a local area network for electronic interaction among students, faculty, and administration. Computing resources include several DEC VAX servers and SUN servers and workstations. Laboratories contain personal computers and Macintosh systems for student use. The UNIX operating system serves as the host for numerous computing and communication activities. Nova University is a member of SURA net and maintains a T1 connection to the Internet.

Academic Support Center

Academic Support Centers are located on the main campus in Fort Lauderdale and at the WR Thomas Community School. These centers provide students with individual help in English, critical thinking, reading, study skills, mathematics, statistics, and accounting. Students who are writing papers and need help with planning, organizing, and structuring the paper can make arrangements to work with a tutor. The center, staffed by full-time writing specialists, provides a comfortable and supportive on-campus environment for interactive writing sessions in which writing specialists and students collaborate on improving students' communication skills. The integration of the computer in the support center facilitates the tutoring process, allowing for customization of support strategies for each student. Other services offered by the centers include computer-assisted instruction, diagnostic testing, practice exercises for mathematics and English recency examinations, skill-building workshops, and other personalized programs for academic development. The centers offer individualized programs and group workshops in the following study skills areas: goal setting and time management; critical reading; text and lecture note taking; and test-taking strategies.

Students attending Nova University at an off-campus site other than Dade County should contact the site coordinator for information regarding available dates and times for mathematics and English tutors. All other students are encouraged to make appointments during the centers' regular hours.

College Language Skills Program

In addition to the above services, the Academic Support Center also administers a College Language Skills Program designed for students who require a more fundamental knowledge of the English language. The CLS program offers a structured curriculum intended to serve as a transition for bilingual students into the standard collegiate program, with its greater demand for sophisticated language skills. The program therefore provides academic support for those students who are among Nova's rapidly increasing bilingual population.

Following admission to Nova College, all students are required routinely to complete placement tests in the areas of reading, writing, and mathematics. Based upon placement scores in these areas, along with available scores on standardized admissions tests such as the TOEFL, SAT, ACT, or Michigan tests, students will be advised into the CLS curriculum. The CLS curriculum extends for two semesters and affords students ample opportunity to further develop English language skills through ESL instruction while simultaneously earning college credit in the academic program. At the conclusion of each semester's work, program faculty and advisers will evaluate the progress of individual students to determine the appropriate academic placement in future courses requiring higher levels of English proficiency.

Textbooks

Texts should be purchased before the first class and are available at Nova Books, Inc., in the Rosenthal Student Center on campus. Textbooks are available for students at off-campus locations on the first day of class. For more information call, (305) 476-4750.

MEMBERSHIP

Nova University is a member of the Florida Association of Colleges and Universities, the Independent Colleges and Universities of Florida, the American Council on Education, the College Entrance Examination Board, the Council for Adult and Experiential Learning, the Southeast Florida Educational Consortium, the American Association of Colleges for Teacher Education, and the Association of American Colleges. Programs in undergraduate education are approved by the Florida Department of Education.

ACCREDITATION

Nova University is accredited by the Commission on College of the Southern Association of Colleges and Schools to award bachelor's, master's, educational specialist, and doctoral degrees. Nova University admits students of any race, color, sex, age, nonqualifying handicap, religion or creed, or national or ethnic origin. Courses in education have program approval from the Florida Department of Education.
HOUSING

Nova University offers a residential living program that is designed to meet the basic needs of students. Undergraduate students are housed in the newest four-story residence hall. This 304-bed facility offers double accommodations (two students) with a private bathroom. A limited number of singles are available on a first-come, first-served basis at additional cost. All rooms are furnished with twin beds, desks, dressers, chairs, shelving, and ample closet space. Rooms are cable TV-ready and are wired for computer hook-up. Air conditioning, heating, and local phone service are also included.

Located within the residence hall are a spacious lobby area, TV lounge, the Office of Residential Life, ample laundry facilities, the mailroom, a kitchen, two classrooms, a computer lab, and study lounges on every floor. All undergraduate residents residing in this residence hall are required to purchase a minimum of a 14 meals-per-week plan. Apartment-style housing is also available for married students.

For further information about housing and residential life, call the Office of Residential Life, (305) 475-7052 or (800) 541-6682, Ext. 7052.

MEAL PLANS

The University offers three meal plans that provide students with the convenience of eating in the newly constructed dining hall on campus. The three plans are 19 meals per week, 15 meals per week, and 14 meals per week. Meal plans are available to all Nova College students. For additional meal plan information, call or write the Office of Residential Life, (305) 475-7052, or (800) 541-6682, Ext. 7052.

COOPERATIVE EDUCATION PROGRAM

The Cooperative Education Program combines professional experience with academic study. Cooperative Education students alternate trimesters at Nova with trimesters of work in a professional assignment that is related to their field of study. This program offers students additional preparation for their future careers in industry and business.

To be eligible for participation in the Cooperative Education Program, a student must have:
1. Completed 45 semester hours of credit including transfer credit
2. Earned a CQPA of 2.5 or higher
3. Completed specific required courses in his or her major as specified by the program office.

For further information, contact the Cooperative Education office at (305) 476-1962 or stop by Parker 204.

REGISTRATION

LIBERAL AND PROFESSIONAL STUDIES PROGRAM

Each semester at Nova has a designated registration period that is listed in the Schedule of Classes. Students should schedule an appointment with their adviser once the Schedule of Classes become available in order to review their choice of classes. All students must have their student transaction forms signed by their adviser prior to completing the registration process. Students who register after the designated registration period will pay a late fee.

Priority registration is a service offered to our continuing Nova students. Priority registration allows you to secure your classes before new students are allowed to register. Payment is not required at the time of priority registration. To qualify for priority registration, you must have no outstanding balance for the current semester. Winter priority registration is conducted in November, and fall priority registration is held in April.

To register in person, submit your completed registration form to the Office of the University Registrar, Parker Building, third floor. The office is open Monday through Thursday 8:30 A.M. to 7:00 P.M., Friday 8:30 A.M. to 6:00 P.M., and Saturday 9:00 A.M. to 12:00 NOON. Tuition and fees must be paid at the time of registration to the Accounts Receivable Office, Parker Building, third floor. Accounts Receivable is open Monday through Thursday 8:30 A.M. to 7:00 P.M., Friday 8:30 A.M. to 6:00 P.M., and Saturday 9:00 A.M. to 12:00 P.M. The registration form with payment for tuition and fees may also be mailed to the Office of the University Registrar, Nova University, 3301 College Avenue, Fort Lauderdale, Florida 33314.
CAREER DEVELOPMENT PROGRAM

Each term at Nova has a designated registration period. Any student who completes registration after the close of the official registration period will be assessed a late fee.

To register in person, submit your completed registration form to the Office of the University Registrar, Parker Building, third floor. The office is open Monday through Thursday 8:30 A.M. to 7:00 P.M., Friday 8:30 A.M. to 6:00 P.M., and Saturday 9:00 A.M. to 12:00 NOON. Tuition and fees must be paid at the time of registration to the Accounts Receivable Office, Parker Building, third floor. Accounts Receivable is open Monday through Thursday 8:30 A.M. to 7:00 P.M., Friday 8:30 A.M. to 6:00 P.M., and Saturday 9:00 A.M. to 12:00 P.M. The registration form with payment for tuition and fees may also be mailed to the Office of the University Registrar, Nova University, 3301 College Avenue, Fort Lauderdale, Florida 33314.

PAYMENT POLICY

Nova University requires that tuition for all courses be paid in full at the time of registration. Checks should be made payable to Nova University. Students may choose to pay tuition and fees by cash, check, MasterCard, VISA, American Express, or Discover. To pay by charge card when mailing a registration, clearly print the account number and the expiration date in the designated area of the registration form.

Students receiving financial aid are allowed to consider certain types of loans and other aid, as confirmed on the financial aid computer, to satisfy their bills at registration even though the aid or loans have not yet been physically disbursed to them or posted to their accounts.

Students eligible for employee-sponsored tuition reimbursement benefits may defer tuition payment until five weeks after the end of each course; however, at the time of registration, the student must submit postdated checks or future credit card authorizations (for processing five weeks after the end of the course) and furnish a statement of eligibility from the employer. There is a $50 fee for this option; this fee and other charges (excluding tuition) must be paid at the time of registration.

Full-time undergraduates may also elect to pay in three installments: 50 percent of tuition plus all fees including $50 for this option at registration, 25 percent 60 days after registration and 25 percent 90 days after registration. Post dated checks or credit card authorizations for the two later payments must be provided at the time of registration.

Change of Registration

The Change of Registration Period is the first week of a term. A student may drop one course and add another course in its place during the first week of the term without a financial penalty by submitting a Student Transaction Form, available in the Registrar's Office. To add a course after the first class meeting, written permission must be obtained from the instructor or program adviser.

Withdrawal Period with a Refund

Students who wish to receive a refund of tuition upon withdrawal from a course must complete a Student Transaction Form, available in the Registrar's office. The following schedule will apply:

Liberal and Professional Studies Students:
100 percent refund: notice of drop in writing before the first class meeting
75 percent refund: notice of drop in writing by the end of the first week, regardless of class attendance
50 percent refund: notice of drop in writing by the end of the second week, regardless of class attendance.

No refund will be made after the end of the second week. The $200 deposit paid in the Liberal and Professional Studies Program is not refundable.

Career Development Students:
100 percent refund: notice of drop in writing before the first class meeting
75 percent refund: notice of drop in writing before the second class meeting, regardless of class attendance
50 percent refund: notice of drop in writing before the third class meeting, regardless of class attendance.

Refunds will be based on the postmark date or the registrar's stamped date of written notification, not the last date of attendance. Fees other than tuition are not refundable.

To withdraw from a course after the refund period, see the Withdrawal policy on page 37.
Refund Policy for Students in the Paralegal/Legal Assistant Studies Program

Students are held financially responsible only for those courses taken. Students who wish to receive a refund of tuition upon dropping a course must complete an official Student Transaction Form. The following schedule will apply:

100 percent refund: before the first class meeting
75 percent refund: before the second class meeting
50 percent refund: before the third class meeting

Refunds will be based on the last date of attendance. All monies will be refunded if the applicant cancels the enrollment agreement within three business days after signing. All monies will be refunded if the applicant is rejected as a student.

Exceptional Circumstances

Refunds or credits to your account for exceptional circumstances after the first day of class will be considered only when the following terms are satisfied:

1. MEDICAL - A doctor's explanation should be submitted indicating why you should not continue in class or why your school load should be decreased. Dates of illness are required to determine if this illness occurred during the term. For a hospital stay, receipts (with dates) must be provided.

2. EMPLOYMENT EMERGENCY - A letter from the personnel office of your employer should be submitted stating dates and reasons you were unable to attend.

3. Other reasons must be supported by a written explanation of why you were unable to attend. Dates and receipts, if appropriate, must be included. Each situation will be handled on an individual basis.

It is the responsibility of the student to provide the necessary documentation to the director of student services, who will then approve or disapprove the request and submit it to the registrar's office.

If a 100 percent refund or credit is granted, the course or courses will be removed from the student's record.

INTERRUPTION OF STUDIES

A student who enrolls at Nova University has the option of graduating by meeting program requirements in the University catalog that was in effect when the student entered or when he/she graduates. When there is a major break in attendance (one calendar year from the end of the last term enrolled), the student will then meet the requirements of the catalog in effect when he or she returns or graduates, or as agreed upon by the academic program director and the student.

STUDENT FINANCIAL AID 1992-93

The Office of Student Financial Aid administers the University's financial aid programs of grants, loans, scholarships, and student employment. In addition, professional financial aid advisers can help students plan for the most efficient use of their financial resources for education.

To the extent that financial aid funds are available, it is the purpose of the Office of Student Financial Aid to provide needy, qualified students with financial aid in the form of loans, grants, and employment. In order to make the best use of funds, awards normally consist of a "package" of two or more of these types of aid.

Underlying the awarding of financial assistance is the accepted philosophy that students have a responsibility for contributing, from earnings and savings, toward their own costs. Financial aid resources serve to supplement the student's resources.

A student must be a U.S. citizen or be in the United States for other than temporary purposes and must be enrolled at least half time (six hours per semester) in a degree-granting program in order to receive financial aid.

A prospective student who will require financial aid in order to attend the University should apply for financial assistance while a candidate for admission. Students must complete the University's Financial Aid Application, and submit the Financial Aid Form (FAF) to the College Scholarship Service (CSS) for need analysis.

Financial aid applications are accepted throughout the year, but it is important to note that the priority deadline date for receipt of aid applications is April 1. New applications must be filed each year, whether or not funds were received previously. In awarding available funds, preference is given to students who file their applications by the priority deadline date. Generally, full-time students must earn 24 credits each academic year and maintain a cumulative GPA of 2.0 or higher in order to qualify for renewal of financial assistance.

The following is a brief, general description of the major financial assistance programs available through the Office of Student Financial Aid:
FEDERAL PROGRAMS

Pell Grant. The Pell Grant Program provides federal grant aid to needy undergraduate students who are enrolled at least half time (six credits per term). Awards range from $250 to $2,400 per year, and no repayment is required. All undergraduates who apply for need-based assistance are required to apply for a Pell Grant, as it is the basis upon which all other aid is awarded.

Supplemental Educational Opportunity Grant (SEOG). The SEOG program provides additional grant assistance to needy undergraduate students. Funds are limited, and priority is given to full-time students who meet the April 1 deadline.

Stafford Guaranteed Student Loans (GSL). The Stafford Loan program provides low-interest, need-based loans through participating banks, credit unions, and other financial institutions. Undergraduate students who are enrolled at least half time are eligible to apply. The interest rate is 8 percent. For students who borrow their first GSL after July 1, 1988, the interest rate will rise to 10 percent during the fifth year of repayment. Freshmen and sophomores can borrow up to $2,625 per year; juniors and seniors may receive up to $4,000 per year. Repayment begins six months after the student is no longer enrolled at least half time.

Perkins Loans (NDSL). This program offers long-term, 5 percent interest loans to students who are enrolled at least half time. Eligibility is based on financial need. Repayment begins nine months after the student is no longer enrolled at least half time if the student did not have a loan prior to July 1, 1987. Priority is given to students who meet the April 1 deadline.

Supplemental Loans for Students/Loans for Parents (SLS/PLUS). This provides non-need-based loans to independent students and parents of dependent students. The annual maximum loan limit is $4,000. Repayment begins 30 to 60 days after disbursement of the loan; however, payments may be deferred while the student is enrolled full time. Unlike the Stafford, the interest on the SLS/PLUS does accrue during deferment. The interest rate is variable, but will not exceed 12 percent.

College Work-Study (CWS). Part-time jobs on campus are available for needy students through the CWS program. Generally, students work 15 to 20 hours per week. The rate of pay varies according to the job.

STATE PROGRAMS

State Tuition Voucher Fund (STV) Full-time students may receive up to $1,200 per year to offset the cost of tuition and fees, regardless of financial need. Students must be at least one-year Florida residents to qualify. A separate application form is required.

Florida Student Assistance Grant (FSAG). FSAG provides grants of up to $1,300 to needy undergraduates. Students must be enrolled full time, be at least one-year Florida residents, and meet the April 15 deadline.

Florida Undergraduate Scholars Fund. This program rewards outstanding high school achievement by offering scholarships of up to $2,500 per year. Students must be Florida residents and must be enrolled full time. These awards are renewable provided the student maintains a 3.2 grade point average. A separate application, available from Florida high schools, is required.

Florida Teacher Scholarship/Loan. Students who are enrolled as juniors or seniors in a teacher education program and majoring in a critical teacher shortage area are eligible for this program. The maximum scholarship/loan award is $4,000 per year for up to two years. Students who teach full time after graduation in a Florida school will not be required to repay the loan. Students who do not meet these requirements must repay the loan at the designated interest rate. A separate application form is required and must be submitted by March 15 to the Office of Student Financial Aid. SAT or ACT scores must be on file at Nova University before the deadline in order for applications to be processed.

Chappie James Most Promising Teacher Scholarship Program. This scholarship is offered to one top graduating senior from each public secondary school in Florida. Priority will be given to candidates who plan to teach in critical teacher shortage areas identified by the State Board of Education. The maximum award is $4,000 per year for up to four years. The recipient must agree to enter the public teaching profession in Florida for a minimum number of years equal to the number of years the scholarship was received. Application forms are available from high school guidance offices.

Seminole and Miccosukee Indian Scholarships. Grants to cover educational expenses are available each year to qualified members of the Seminole or Miccosukee Indian tribes, based on financial need. Applications are available from the higher education committee of either tribe.

Florida College Career Work Experience Program (CCWEP). Part-time jobs off campus are available through this program for needy undergraduate students. Students must be at least one-year Florida residents to qualify, and the positions held must be related to their academic majors.
NOVA UNIVERSITY SCHOLARSHIPS AND GRANTS

Nova annually offers scholarships and grants to both incoming and returning students. Eligibility and academic qualifications vary according to the award. In order to be considered for selection, applicants must have a completed file, including the Financial Aid Form, and be officially accepted. Awards will be made on a first-come, first-served basis. These scholarships will be combined with other federal and state financial aid programs to help meet the financial need of students.

Matching Fund Scholarships. These are matching fund scholarships restricted to community service organizations or recognized organizations with scholarship funds. Nova College will match the amount granted to an eligible full-time student by the organization. The maximum award is $1,000 per academic year and may not exceed the student’s unmet need as stated in his or her Nova financial aid file.

Donor Scholarships. The University offers a number of academic scholarships that are made possible by donations to our scholarship fund. Awards are made to eligible students who have filed an FAF and a scholarship application by April 1 and have at least a 3.0 grade point average.

The Joseph W. Fordyce Scholarship. This is a full tuition scholarship awarded annually to a full-time student from Broward Community College’s Honors Program. This scholarship is funded by Nova College Career Development Studies Program. To be eligible, a student must be an adult learner who has excelled academically and has earned an honors certificate upon graduation from Broward Community College.

IRP Endowed Scholarship Fund. This fund, established by the Institute for Retired Professionals, provides annual grants to new and returning undergraduate students. A 3.25 high school or college GPA, high financial need (based on the Nova financial aid file), two letters of recommendation, and an essay are required. Applications are available from the Offices of Student Affairs or Student Financial Aid.

Nova College Honor Awards (new students in Liberal and Professional Studies)

I. Nova Honor Award - Freshman Qualifications ($1,000 - $6,000): (1) cumulative grade point average (GPA) of 3.0 or above; (2) counselor/faculty recommendation; (3) renewable with a 3.0 Nova GPA.

II. Nova Honor Award - Transfer Qualifications ($2,000 - $6,000): (1) 24 or more semester hours earned from a regionally accredited institution; (2) minimum cumulative GPA of 3.2; (3) counselor/faculty recommendation; (4) renewable with a 3.0 Nova GPA.

III. Nova Honor Award - Minority Qualifications ($1,000 - $6,000): (1) minority students; (2) cumulative GPA of 3.0 or above; (3) counselor/faculty recommendations; (4) renewable with a 3.0 Nova GPA.

IV. Nova Service Award ($1,000): (1) for new (incoming) students who have displayed outstanding leadership and/or service in high school; (2) high financial need; (3) counselor recommendation; (4) nonrenewable.

Nova College Scholars (Liberal and Professional Studies)

Retaining students (up to $1,000): (1) continuing Liberal and Professional Studies Students; (2) 24 credit hours completed at Nova by the end of the winter term; (3) cumulative GPA at Nova of 3.0 or above; (4) SAT/ACT scores on file; (5) completed scholarship application. This scholarship is for one year only; recipients must reapply each year for renewal.

Scholarship recipients will be notified by mail and need to respond within one month. Renewal of scholarships is dependent upon a 3.0 Nova cumulative GPA and full-time status.

For more information, contact the Nova College Admissions Office or the Office of Student Financial Aid. To request the necessary forms, call:

Admissions (305) 475-7360 (local) or (800) 541-6682, Ext. 7360 (toll free)
Student Financial Aid (305) 475-7410 (local) or (800) 541-6682, Ext. 7410 (toll free)

RENEWAL OF AWARDS

Nova Honor Awards are automatically renewed as long as the student maintains a 3.0 cumulative grade point average and remains a full-time student. All other awards made by the University are not automatically renewed, and students must reapply for aid each academic year. Applications are available in January each year for the upcoming academic year.

OTHER SOURCES OF ASSISTANCE

The Office of Student Financial Aid maintains a Scholarship Source Library at the main campus office. Students may use this library’s reference books to locate private sources of funding. A file of pamphlets and brochures is also maintained announcing special awards, fellowships, and grants. All students are invited to use these materials. Please call for an appointment. The University and public libraries, as well as commercial book stores, also provide financial aid reference books listing private scholarships. In addition, many high school guidance counselors and chambers of commerce are familiar with scholarships available for students from their areas.
DEADLINES

Applications for aid received by the Office of Student Financial Aid by April 1, 1992, will be given priority consideration for the upcoming academic year. Applications received after that date will be considered on a funds-available basis only.

Applications for the Florida Student Assistance Grant must be received by the College Scholarship Service in Princeton by April 15, 1992.

Applications for the State Tuition Voucher fund for the fall term must be received in the Office of Student Financial Aid no later than September 1, 1992. Applications for the winter State Tuition Voucher fund must be received by January 4, 1993.

GENERAL ELIGIBILITY REQUIREMENTS

In order to participate in the financial aid programs a student must:

1. Be a citizen, a national, or a permanent resident of the United States or be in the United States for other than a temporary purpose. Proof must be provided to the Office of Student Financial Aid.
2. Be enrolled or accepted for enrollment at Nova University
3. Be carrying or planning to carry at least one-half the full-time workload for the course of study being pursued
4. Be making satisfactory progress in the course of study
5. Not be in default of, or owe a refund for, any aid received previously
6. Sign a Statement of Educational Purpose and Anti-Drug Certification
7. Be registered for the draft if required to do so by federal law.

Additional eligibility requirements are noted in the descriptions of the programs.

NOTIFICATION OF AWARDS

Students who have applied before April 1, 1992, and are awarded aid by the University should receive notification by July 1 of that year. Students who have applied for a Pell Grant will receive a Student Aid Report (SAR). Students should submit all copies of the SAR to the Nova Office of Student Financial Aid for processing. Students who have applied for a Florida Student Assistance Grant will be notified by the Florida Department of Education.

The application process normally takes 6 to 8 weeks and possibly up to 12 weeks. It is extremely important that applicants fill out all forms completely and correctly and that they respond promptly to all inquiries in order to prevent delays in processing. Awards are made only for the academic year. Students requesting aid for the summer must complete a separate summer aid application.

ACADEMIC REQUIREMENTS FOR FINANCIAL AID

CLAST

Undergraduates who receive financial aid from any of the Florida-funded programs must take and pass the College Level Academic Skills Test (CLAST). CLAST must be taken during the term in which the students become a junior (i.e., earn 60 credit hours). Students who have earned a minimum of 18 credits, to include passing grades in LAN 111/112 and MAT 102/133, are encouraged to take the CLAST. Students are exempt from this requirement ONLY if they earned an A.A. degree or had junior standing at Nova prior to August 1, 1985. Contact the Nova College Testing Center for test information. Failure to take the test will result in the loss of Florida funding.

STANDARDS OF ACADEMIC PROGRESS

Nova University, in compliance with federal regulations, has established standards of academic progress that must be met by students to receive financial assistance. Satisfactory progress means making measurable progress toward a specified educational objective within a specified time frame. Listed below are condensed criteria of the satisfactory progress requirements at Nova.

Qualitative Measure. Students must earn the following cumulative grade point average after completion of each increment:

<table>
<thead>
<tr>
<th>Credits</th>
<th>Minimum GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 to 30</td>
<td>1.50</td>
</tr>
<tr>
<td>30 to 60</td>
<td>1.85</td>
</tr>
<tr>
<td>60+</td>
<td>2.00</td>
</tr>
</tbody>
</table>

Some financial aid programs, especially Florida Student Assistance Grant and other programs funded by the State of Florida, require a minimum GPA of 2.0 regardless of class standing. Most academic scholarships require a minimum GPA of 3.0.
Quantitative Measure. The maximum number of semesters a student will be awarded aid is 12. Full-time students receiving state aid are required to complete 12 credits per term for the number of terms for which state aid was received. Full-time students not receiving Florida state aid must complete 20 credits each year. Less than full-time students must complete 70 percent of attempted credits.

PLEASE NOTE: These are minimum criteria for maintenance of satisfactory progress. Please contact the Office of Student Financial Aid for specific details.

Process of Appeals. If your financial aid application is turned down because of failure to meet these standards, you have the opportunity to appeal to the Standards of Academic Progress Appeals Committee. The appeal should be in writing, addressed to the committee in care of the Office of Student Financial Aid, and include the following documentation:

1. An academic transcript from the registrar
2. A letter written by you describing mitigating circumstances
3. A physician’s note and/or records if the appeal is based on a medical circumstance
4. Additional optional support documents.

Only appeals in writing will be considered. No personal appeals will be heard. Decisions of the committee are final and you will receive written notification of the decision. If a probationary award is granted, it is valid for only one academic year. Only one probationary award is allowed during your attendance at Nova University.

FOR MORE INFORMATION

Contact the Office of Student Financial Aid, 3301 College Avenue, Fort Lauderdale, Florida 33314 (Parker Building, third floor), phone (305) 475-7411 or (800) 541-6682, Ext. 7411. Office hours are 8:30 A.M. to 7:00 P.M. Monday through Thursday, 8:30 A.M. to 6:00 P.M. Friday, and 9:00 A.M. to 12:00 NOON Saturday.

VETERANS BENEFITS

All programs described in this catalog are approved for the training of veterans and other eligible persons by the Bureau of State Approval for Veterans’ Training, Florida Department of Veterans’ Affairs. Eligible veterans and veterans dependents should contact the Office of the University Registrar, 3301 College Avenue, Fort Lauderdale, Florida 33314, telephone (305) 370-5685 or toll free (800) 541-6682, Ext. 5685.

INTERNATIONAL STUDENTS

International students who intend to reside in the United States and who are required to obtain an I-20 must be full-time, degree-seeking students and must attend the main campus in Fort Lauderdale, Florida. For further information, contact the international students adviser, Nova University, 3301 College Avenue, Fort Lauderdale, Florida 33314, telephone (305) 370-5695 or toll free (800) 541-6682, Ext. 5695.

UNDERGRADUATE DEGREE

Nova University awards two undergraduate degrees, the bachelor of arts degree and the bachelor of science degree. A student can earn only one undergraduate degree and one diploma from Nova University. The diploma indicates the student has earned a bachelor of arts degree or a bachelor of science degree; it does not indicate the major. The academic transcript, the official record of work at Nova University, indicates degree earned, major field of study, and specialty if any.

REQUIREMENTS FOR GRADUATION

All degree-seeking students must complete the minimum credits as designated for the chosen major. The following requirements are also required:

1. Admission as a degree-seeking candidate in one of the majors
2. Completion of general education, specialty, and elective requirements as specified by the major program
3. Completion of major requirements as specified
4. Attainment of a 2.00 Cumulative Quality Point Average
5. Attainment of a 2.25 Quality Point Average (2.50 in Education) in the major area
6. Completion, at Nova College, of at least 30 credits (not including CLEP, proficiency examination, or experiential learning credits)
7. Completion of at least 50 percent of the credits in the major area and specialty at Nova (not including CLEP, Proficiency Examination, or experiential learning credits)
8. Submission of a graduation form and payment of the diploma fee prior to completing registration for the last term
9. Fulfillment of all obligations to the library, the student’s program, and the comptroller’s office.
Graduation With Honors

A graduating student with a Cumulative Quality Point Average of 3.80 or higher who has completed at least 54 credits at Nova is eligible to receive the degree "with distinction." Students who have earned fewer than 54 credits at Nova may petition for graduation with distinction if they have maintained at least a 3.8 GPA in all course work accepted toward their degree program at Nova.

Degree candidates must complete all of the requirements as specified above.

Commencement

A ceremony is held once a year for all Nova University undergraduate students who have completed graduation requirements within the academic year. In order to participate, students must file a graduation application. There is an additional fee for rental of the cap and gown.

THE CODE OF STUDENT CONDUCT AND ACADEMIC RESPONSIBILITY

Purpose: This code seeks to promote high standards of academic integrity by setting forth the responsibilities of students as members of the University community. Abiding by the code ensures a climate wherein all members of the University community can exercise their rights of membership.

I. NOVA UNIVERSITY STATEMENT OF ACADEMIC RIGHTS AND RESPONSIBILITIES

Nova University, as a community of women and men, is committed to furthering scholarship, academic pursuits, and service to society. As an institution, its purpose is to assure all students an equal opportunity to fulfill their intellectual potential through pursuit of the highest standards of academic excellence.

Certain rights and obligations flow from membership in any academic community committed to such goals:

- The rights of personal and intellectual freedom, which are fundamental to the idea of a university;
- A scrupulous respect for the equal rights and dignity of others; and
- Dedication to the scholarly and educational purposes of the University and participation in promoting and assuring the academic quality and credibility of the institution.

Students are responsible for obtaining, learning and observing the established University and center policies as listed in all official publications. In addition, students must comply with the legal and ethical standards of the institution as well as those of Broward County and the state of Florida. All members of the community should inform the appropriate official of any violation of conduct regulations.

A. Academic Standards

The University expects its students to manifest a commitment to academic integrity through rigid observance of standards for academic honesty. The academic honesty standards include:

1. Original Work. Assignments such as course preparations, exams, texts, projects, term papers, practicums, etc. must be the original work of the student. Original work may include the thoughts and words of another author, but if that is the case, those ideas or words must be indicated in a manner consistent with a University-recognized form and style manual.

   Work is not original that has been submitted previously by the author or by anyone else for academic credit. Work is not original that has been copied or partially copied from any other source, including another student, unless such copying is acknowledged by the person submitting the work for credit at the time the work is being submitted or unless copying, sharing, or joint authorship is an express part of the assignment. Exams and tests are original work when no unauthorized aid is given, received, or used prior to or during the course of the examination.

2. Referencing the Works of Another Author. All academic work submitted for credit or as partial fulfillment of course requirements must adhere to each center's specific accepted reference manuals and rules of documentation. Standards of scholarship require that proper acknowledgement be given by the writer when the thoughts and words of another author are used. Students must acquire a style manual approved by their Center and become familiar with accepted scholarly and editorial practice in their Program. Students' work must comport with the adopted citation manual for their particular Center.

   At Nova University, it is plagiarism to represent another person's work, words or ideas as one's own without use of a center-recognized method of citation. Deviating from Center standards I(A)(1) or I(A)(2) are considered plagiarism at Nova University.
3. Tendering of Information. All academic work must be the original work of the student. Giving or allowing one’s work to be copied, giving out exam questions or answers, or releasing or selling term papers is prohibited.

4. Acts Prohibited. Students should avoid any impropriety, or the appearance thereof, in taking examinations or completing work in pursuance of their educational goals. Violations of academic responsibility include, but are not limited to:
   a. Plagiarism
   b. Any form of cheating
   c. Conspiracy to commit academic dishonesty
   d. Misrepresentation
   e. Bribery in an attempt to gain an academic advantage
   f. Forging or altering documents or credentials
   g. Knowingly furnishing false information to the institution.

5. Additional Matters of Ethical Concern. Where circumstances are such as to place students in positions of power over University personnel, inside or outside the institution, students should avoid any reasonable suspicion that they have used that power for personal benefit or in a capricious manner.

B. Conduct Standards

1. Students should not interfere with the rights, safety or health of members of the University community nor interfere with other students’ right to learn. Students are expected to abide by all University, Center, and Program rules and regulations and all local, state, and federal laws. Violations of conduct standards include, but are not limited to:
   a. Theft
   b. Vandalism
   c. Disruptive behavior
   d. Possession or use of firearms, fireworks, explosives, or other dangerous substances or items
   e. Possession, transfer, sale, or use of illicit drugs
   f. Appearance in class or on campus under the apparent influence of alcohol or illicit drugs or chemicals
   g. Violations of housing regulations
   h. Any act of conspiracy to commit an act which is harassing or abusive or which invades an individual’s right to privacy, including, but not limited to, sexual harassment and abuse against members of a particular racial, ethnic, religious, or cultural group
   i. Threats of actual damage to property or physical harm to others
   j. Timely payment of tuition and fees.

2. Students must have authorization from the University to have access to University documents, data, programs, and other types of information and information systems. Any use of the above without authorization is prohibited.

C. Supplementary Standards

Students are expected to comply with the legal and ethical standards of this institution and those of their chosen field of study, including the code of ethics for computer usage. The University and each Center or Program may prescribe additional standards for student conduct as would comport with the letter and spirit of this code.

D. Violations

Any violation(s) of any of the academic standards, conduct standards or supplemental standards may result in a complaint being filed against a student to enforce the Code of Student Conduct and Academic Responsibility. Deans or directors may, in their discretion, immediately suspend students pending a hearing on charges of academic conduct or supplemental standard violations. Any student found guilty of a violation of the academic, conduct, or supplemental standards will be subject to disciplinary action, including expulsion from the University.

STUDENT CODE OF COMPUTER ETHICS

Nova University provides computer systems with access to hardware, software, and networks to enhance academic experience. The University’s computer systems are vital to the University’s programs of instruction, research and administration. Nova University’s “computer systems” refer to all computers owned or operated by the University and include hardware, software, data, and communication networks associated with these systems. In particular, “computer systems” refer to systems ranging from multi-user timesharing systems to single-user terminals and personal computers, whether freestanding or connected to a network.

Ethical conduct by students in the use of this technology is the same as in all other areas of University life and it is of equal importance. All students are expected to abide by the Nova University Code of Student Conduct and Academic Responsibility. Students as part of their academic preparation toward specific professional career goals must be aware of and abide by the professional code of ethics associated with that chosen profession. Therefore, student technology users must apply standards of normal academic and professional ethics and considerate conduct to their use of the University’s computing systems and resources, including respect of other users’ rights to privacy.
The student user must be aware of the legal and moral responsibility for ethical conduct in the use of technology. Student users of Nova University's computer systems are subject to all applicable federal, state and international computer laws. A copy of the Florida Computer Crimes Act and referenced Florida State Statutes may be examined on line or in a student's academic program office.

In addition, a student accessing any of Nova University computer systems, whether a multi-user time-sharing system or a single-user terminal or personal computer, must:

- Have proper authorization for use or attempted use of accounts within the Nova University computer systems
- Limit the use of Nova University computer systems to academic activities as defined by the student's academic program office
- Refrain from attempting to tamper with or obstruct the operation of Nova University's computer systems
- Be aware that accessing or using another person's computer account without that person's permission is illegal and unethical
- Refrain from any attempt to use Nova University's computer systems as a means for the unauthorized access to computer systems outside the University's systems
- Be aware that the use of invasive software, such as worms and viruses destructive to hardware, software or data files is illegal and unethical
- Be aware that using Nova University's computer systems to act or behave in a rude, obscene or harassing manner will be dealt with by appropriate University policy, procedures and agents
- Use only legally obtained or licensed data or software in accordance with its license or purchase agreement
- Be in compliance with federal copyright laws and the Nova University Copyright Code.

As with all matters of law and ethics, ignorance of the rules does not excuse violations. Inappropriate conduct and violations will be dealt with under the guidelines of the Nova University Code of Student Conduct and Academic Responsibility as defined and determined by the Office of the Academic Vice-President and the Office of the Dean of a student's academic program.

PRIVACY OF RECORDS

Nova University maintains a system of records that includes application forms, letters of recommendation, admission test scores, and transcripts of students' previous academic records and performance while in residence. These records are available for review by present and former students upon written request to the registrar's office. However, the registrar will not release transcripts of students' academic records until all their accounts, both academic and nonacademic, have been paid.

The law limits access by and disclosure to a third party. Such access is given only upon consent of the student or if required by law, except for the following information, which may be released as directory information: (a) student's name; (b) dates of attendance; (c) degree and awards received. Requests for such information must be submitted in writing to the registrar. The University reserves the right to refuse the above information if the reason for the request is not considered to be a sufficient need to know.

Any student or parent not wishing to have this information disclosed should notify the Office of the University Registrar in writing prior to September of the relevant school year.

A person does not have the right of access to educational records until he or she has been admitted to and has actually begun attending Nova University. There is no prohibition from disclosing such information to the parents of students who are listed on their parents' federal income tax forms.

Parents or eligible students will be provided a hearing by the University if they wish to challenge the content of the record. If they are still not satisfied, the parents or eligible students may add explanatory or rebuttal matter to the record.

If the students or parents are denied access to a hearing or if the records are alleged to have been illegally disclosed to a third party, the students or parents may file a complaint with the U.S. Department of Education.

The Nova University general policies on student relations are on file in the Office of the University Registrar.

RESERVATION OF POWER

Nova University reserves the right to amend, modify, add to, or delete its rules, regulations, policies, and procedures affecting its institutional relationship with students as deemed necessary by the administration. Any such amendment, modification, addition or deletion shall not be considered a violation of the relationship between the University and the student. Such right includes modification to academic requirements, curriculum, tuition, and/or fees when in the judgment of the administration such changes are required in the exercise of its educational responsibility.
STUDENT LIFE

Activities

Nova students have an excellent opportunity to become involved in the extracurricular programs of the College. A few of the current clubs and organizations include:

- Alpha Chi (national college honor society)
- Bacchus
- Campus Program Board
- Catholic Campus Ministries
- Cheerleaders
- Hillel
- Newspaper (Nova Knight)
- Nova Playhouse
- Nova University Black Student Association (NUBSA)
- Outdoor Club
- Phi Alpha Delta (law fraternity)
- The Poetry Club
- The Psychology Club
- Radio Station Staff (WNKR)
- Residential Student Association
- Student Government Association
- Yearbook (Paladin)

Each student organization has a faculty or staff member serving as an adviser and supporter.

All students are encouraged to become involved in the extracurricular activities of Nova College as active members of the various organizations or by running for office in such organizations.

Campus Sports and Recreation consists of intramural sports, club sports, special events, leisure sports classes, and informal sports. Campus sports and recreation will offer the following intramural sports for the coming school year: touch football, volleyball, co-rec volleyball, golf, basketball, table tennis, billiards, college bowl, swimming, softball, and co-rec softball. Campus champions will be recognized and rewarded in each sport.

Intercollegiate Athletics

The Athletic Program at Nova University consists of:

- Men's Baseball
- Men's Basketball
- Cross-Country
- Women's Cross-Country
- Golf
- Soccer
- Tennis
- Volleyball
THE LIBERAL AND PROFESSIONAL STUDIES PROGRAM

The Liberal and Professional Studies Program is a unique undergraduate experience combining a comprehensive general education program with study in a major area of concentration. As part of the general education program, students take a curriculum of core studies organized around seven interdisciplinary themes. Taught by faculty from a number of academic disciplines, core study areas are designed to provide a context for studying and analyzing problems of significant intellectual and social concern.

In the first year, in addition to core studies, students will spend time developing competencies in mathematics and composition. Students use computer programs that permit self-paced learning, self-assessment, and access to faculty when problems arise.

Students in Nova's Liberal and Professional Studies program will understand how the behavioral and social sciences, humanities and arts, and science and technology can serve to enhance their career and life. The program challenges undergraduates with the fundamental questions of living and inspires them to cultivate a life of intellectual integrity, personal concern, and social responsibility.

General Education Program

The General Education Program contains the following elements: a curriculum of core studies; a mathematics sequence; a composition sequence; and a series of distribution courses. All areas making up the general education program have shared objectives. The program is designed to foster critical and creative responsiveness by developing the ability to solve problems, think analytically, and communicate clearly. Students will develop effective communication skills in speaking, listening, writing, reading, and interpretation. The general education program also helps students place ideas in their proper context and appreciate the role of values within a cultural tradition.

Students will spend approximately eight weeks in each of seven thematic areas with faculty from several academic disciplines working in concert to provide cross-disciplinary experiences. By encouraging dialogue among various disciplines on a central theme, students will achieve a convergence of perspectives often lacking in more traditional programs.

a. Core Studies

These objectives will be met in part through a sequence of courses taken over four years in the following thematic areas (at least three must be completed in the freshman year).

Freshman Year:

CORE 141 Journey I: Introduction to the Undergraduate Experience
This interdisciplinary course is the first course all freshmen will encounter at Nova. It provides an academic and social context for examining intellectual and personal issues. The metaphor of life as a journey provides the vehicle for this exploration. Students will examine literary and other creative works as well as participate in the process of documenting their own undergraduate journey. Students are encouraged to maintain a portfolio of educational "artifacts" (papers, exams, notes, drawings, journal entries, musical compositions, poetry, etc.) throughout their undergraduate experience at Nova. This portfolio provides a basis for Journey II: The Capstone Experience, a required course to be taken in the senior year.

CORE 142 Human Nature, Human Behavior
This course addresses the question, "What is the nature of the individual?" and examines the biological and environmental influences that shape the individual. An analysis of classic and contemporary sources will help the student think critically about basic theories and issues such as nature versus nurture, the mind-body dichotomy, cognitivism, behaviorism, and the scientific exploration of human behavior.

CORE 143 The Living Earth: An Environmental Perspective
In this course, students will study the science of ecology and the impact made by humans on the environment. The course will make obvious the fact that there are no simple answers or quick solutions to the environmental problems now faced. It will, however, help students gain a more complete and genuine understanding of the cause-and-effect relationships that operate in the environment, thereby providing a basis by which they can evaluate their own responsibility to the long-term sustainability of the biosphere.

CORE 144 Other Voices, Other Visions: Multicultural Perspectives
This course will examine the role of "world view," encourage an appreciation of different people and cultures, and foster respect for diversity in local, national, and international environments.
b. Mathematics Sequence
The mathematics sequence (MAT 110/MAT 115) in the general education program is a two-part sequence designed to provide students with a global perspective of mathematics and to give them an opportunity to learn many useful applications of mathematics in solving real-world problems. Topics studied include set theory, logic, linear programming, probability, and statistics. Students whose majors require more advanced courses in mathematics (Computer Science/Engineering, Pre-Med, Ocean Studies) will be placed in sequences of Precalculus or Calculus, depending on major requirements and placement testing criteria.

c. Composition Sequence
Nova College students meet composition requirements by taking two composition courses. Students enrolled in the Liberal and Professional Studies Programs must enroll in the first composition/mathematics course during the first semester. The first course, LAN 111: Critical Reading and Writing I, combines instruction in the principles of effective expository writing with emphasis on an ability to read critically selections from essays and imaginative literature. The second course, LAN 112: Critical Reading and Writing II, emphasizes argumentative writing, use of the library, and development of a documented research essay along with more advanced instruction in reading and interpreting texts. In the composition sequence, students have an opportunity to integrate writing instruction with currently available computer technology. Both courses require students' use of computers for word processing and text analysis.

Students whose final grade in a composition and/or mathematics course falls below a C (2.0) will receive a grade of NP (No Progress) and, if eligible, may repeat the course the following semester with no additional charge for tuition.

d. Required Distributions
The objectives of the general education program are also met through a series of distribution courses in the areas of humanities, science and technology, oral communication, and hemispheric and global diversity. Students must complete distribution requirements by the end of the junior year. Students must select courses from the following list in order to fulfill the distribution requirement.

Majors

In addition to studies in the General Education Program, students study and work in major fields that prepare them to enter careers or to continue formal education in either graduate or professional school. Although many students enter Nova having already selected a major course of study and have established career goals, many students also enter the undergraduate program undecided. In most instances the majors are flexible enough to permit students the opportunity to experience a number of diverse areas prior to deciding upon a particular course of study.

The following majors are available to students in the Liberal and Professional Studies Program:

- Accounting
- Applied Professional Studies
- Computer Engineering
- Computer Science
- Education
- Liberal Arts
- Life Sciences (premedical)
- Ocean Studies
- Psychology
- Administrative Studies
- Business Administration
- Computer Information Systems
- Computer Systems
- Legal Studies (prelaw)

BECOMING A STUDENT IN THE LIBERAL AND PROFESSIONAL STUDIES PROGRAM

ADMISSION

Information and Admission Counseling

Choosing a college is not a paper process; it requires a dialogue with people who are knowledgeable about the many choices to be made. We strongly urge you to talk with one of our counselors either in person or by phone, to discuss questions that have career, financial, and academic implications.

Call 475-7360 (in Fort Lauderdale) for an application or a personal counseling appointment. Students from other locations should call (800) 541-6682, Ext. 7360.
Applying for Admission

In keeping with a humanistic philosophy valuing individual worth and differences, Nova College considers applicants in terms of their potential for success. The University does not discriminate on the basis of race, color, sex, age, nondisqualifying handicap, religion or creed, or national or ethnic origin.

Applicants are required to:

1. Submit a completed application form and the $40 nonrefundable application fee to:
   Nova University
   Office of Undergraduate Admissions
   3301 College Avenue
   Fort Lauderdale, Florida 33314

2. Submit official high school or college transcript(s) (proof of high school graduation is required).

3. Speak with a counselor in person or by telephone.

4. Submit one of the following test scores:
   Scholastic Aptitude Test (SAT)
   American College Test (ACT)

INTERNATIONAL STUDENTS

International students are required to obtain a Student (F-1) Visa or an Exchange Visitor (J-1) Visa. Students are not permitted to study in the United States on a Visitor (B-2) Visa.

As an international student, you must:

1. Submit all secondary school and college-level transcripts. Transcripts must be an official English language translation (this applies to transcripts that are not already in English). Applicants must have the equivalent of an American high school diploma.

2. Achieve a score of 500 or higher on the TOEFL exam or 400 on the SAT (verbal section).

3. Submit a letter from a financial institution indicating that you are able to meet all costs of your education without financial aid from Nova University. The minimum amount is determined by the budget prepared by the Nova University Office of Student Financial Aid. A notarized letter from a sponsor is required if you are sponsored by a public or private organization or an individual.

4. Purchase medical insurance (F-1 Visas only). Contact the international student advisor for further information concerning insurance.

After all of the above information is received and you are accepted, an acceptance letter will be sent to you. An I-20 will be issued after we receive a $200 tuition deposit.

ACCEPTANCE

You may apply for admission and be accepted to Nova throughout the entire year. You may begin classes at the beginning of any academic period. Notification of acceptance normally occurs within one month after completing all admission requirements. Upon receiving notification of acceptance, you should promptly inform the Admissions Office, in writing, of your intention to attend and forward a $200 nonrefundable deposit to be credited toward tuition. If there are any further questions, call the Admissions Office at (305) 475-7360 or (800) 541-6682, Ext. 7360.

SPECIAL STUDENT

You may want to take one course or several courses or a specialty program without enrolling for a degree program. In this case, indicate "special student" on the application form. You may then register for a course after submitting an application and application fee. As a special student, you are not eligible for a degree or financial aid.

COMBINED MAJORS, MINORS, AND SPECIALTIES

Nova College offers you the opportunity to acquire substantial credit in a second major or specialty area. You should check with an adviser as to which majors may be combined. When requirements for a specialty or permissible second major are completed, you need to request, through a student action form, that this information be made a permanent part of your official academic transcript.
SECOND BACHELOR'S DEGREE

If you have a bachelor's degree from a regionally accredited institution other than Nova University, you may earn a second bachelor's degree from Nova by completing a minimum of 30 additional credits at Nova. At least 50 percent of all credits required in the selected major must be taken at Nova.

TRANSFER CREDITS

Nova College welcomes students who have earned college credits at another regionally accredited college or university. Students who plan to transfer should contact a Nova admissions counselor to discuss how prior college credits can be used for their Nova degree. Community college students should contact a Nova admissions counselor as early in their college career as possible so they can choose courses for their associate's degree that will transfer to Nova and be appropriate for their intended bachelor's degree.

Transfer students must provide official transcripts from their previous colleges; their previous academic work will then be evaluated. Nova College will transfer a maximum of 90 eligible credits (including credit for CLEP, Proficiency Exams, and prior experiential learning) toward a degree; a maximum of 66 transfer credits from community colleges will be accepted. Remaining credits and at least 50 percent of the credits in the student's major area and specialty must be earned at Nova in regular academic offerings.

Evaluation of CLEP examinations will be made upon admission but will be recorded on the student's permanent record only after the student has registered for and completed 12 credits at Nova. Under exceptional circumstances, students may be permitted to take courses at another college while enrolled at Nova. However, credit will be transferred only if there is prior written approval from the academic director or program adviser and an earned grade of C or better. Students taking courses at more than one center within Nova University must also receive written approval from a counselor.

TESTING CREDITS

Students may earn college credit through the College Level Examination Program (CLEP), the Proficiency Examination Program (PEP), Defense Activity for Non-Traditional Education Support (DANTES), and Advanced Placement Examinations (AP). CLEP is administered at Nova University through the College Board. To receive credit through CLEP examinations, a student must score in at least the 50th percentile. Before applying to take any of the above examinations, a student should consult an academic counselor to be sure that the credits granted are applicable to the student's course of study. Requests for AP, PEP and DANTES credit should be discussed with the Testing Specialist in the Testing Center.

ACADEMIC INFORMATION

REQUIREMENTS.

New Student Skill Requirements Students are expected to demonstrate skills appropriate for college work in all courses. Before or during the first 8-week term of enrollment, students are required to complete placement tests in the areas of reading, writing, and mathematics and will then be advised as to appropriate course selection. The placement test must be taken before completion of more than six semester hours. Students needing further development of skills will be counseled as to opportunities available for assistance. While a student is acquiring these skills, his or her enrollment is limited to courses approved by an adviser, generally at the 100 and 200 levels. The passing of placement tests is prerequisite to enrollment in many courses including all initial mathematics and communication courses.

For specific placement test procedures and practice exams, refer to the brochure on skill and competency requirements available in the Student Services Office. Assistance in mathematics and communication is available through the Academic Support Center to help students attain necessary skills for college work.

Transfer Student Recency Requirements (see page 198).

</tbody>
</table>

(not assigned by instructor)
Quality Point Averages. A student's academic standing for a specific term is the Quality Point Average (QPA). The QPA is calculated by dividing the total quality points earned by the total quality point credits in a term. The student's overall academic standing is the Cumulative Quality Point Average (CQPA). The CQPA is calculated by dividing the total quality points earned by the total quality point credits.

Progress/Grade Reports. Students will be provided a progress/grade report at the end of every term. A copy of the report will be placed in the student's permanent file maintained by the school. Students are protected by legal provisions that prohibit the release of personally identifiable information to other than legally authorized persons and to inspect, review, and challenge such information as provided by law.

Standards of Progress for VA Students. VA students are expected to satisfactorily complete the programs within the number of training hours approved by the State Approving Agency for Veterans' Training. They also must meet any academic, skill, and/or technical requirements of their particular program. If at any point in time it is determined that a VA student cannot satisfactorily complete the program within the approved number of hours, the student's VA educational benefits will be terminated for unsatisfactory progress.

A VA student who, at the end of any 16-week period, has not attained and maintained satisfactory progress will be placed on academic probation for the next 16-week period. Should the student not attain and maintain satisfactory progress by the end of the probationary 16-week period, the student's VA educational benefits will be terminated for unsatisfactory progress.

Satisfactory Academic Progress

To remain in good academic standing, undergraduate students must maintain the minimum quality point average or higher on all credits attempted (quality point average on a 4.0 scale) each semester. In addition to the minimum quality point average (see next page) for a baccalaureate degree at Nova, students must conform to the degree requirements of their declared major.

INDEPENDENT STUDIES AND TUTORIALS

Independent Study (course numbered 499) provides the qualified student an opportunity to research a question of interest under faculty supervision. A Tutorial enables a qualified student to take a regular course from an instructor on an individual basis rather than in a classroom format. Tutorials are allowed only in exceptional circumstances. Students interested in either Independent Study or a Tutorial should see their program adviser to draw up a contract outlining student responsibilities. It must be signed by the student, the instructor, and the academic division director. Regular tuition rates apply to both Independent Study and Tutorial Study.
PROBATION AND SUSPENSION

Student Responsibility. Students are responsible for adhering to the policies set forth in this catalog. Probation and suspension are effective as soon as grades are submitted by the instructors. Students who fall in either category as a result of these grades may be asked to withdraw from courses already begun in a succeeding term of registration.

Academic Probation. Students failing to earn the minimum quality point average or higher after their first 12 credits of work attempted or to maintain at least the minimum quality point average thereafter will be placed on probation by the Academic Progress Committee. Academic probation is removed when the student earns a cumulative quality point average above the minimum quality point average based on the number of credits earned.

Qualitative Requirements

<table>
<thead>
<tr>
<th>Credits</th>
<th>QPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-29</td>
<td>1.50</td>
</tr>
<tr>
<td>30-59</td>
<td>1.85</td>
</tr>
<tr>
<td>60+</td>
<td>2.00</td>
</tr>
</tbody>
</table>

Progress Probation. Students failing to complete at least 70 percent of their attempted credits each academic year will be placed on probation by the Academic Progress Committee. Progress probation is removed when the student completes at least 70 percent of the attempted credits in a subsequent trimester. Students attempting less than 12 credits in the academic year will be evaluated on their previous registrations.

SUSPENSION. Students are placed on suspension when their academic progress places them in danger of probation.

Suspension. To avoid suspension, a student on probation must maintain the minimum quality point average as stated above and complete at least 70 percent of all courses attempted for each trimester of subsequent enrollment until probation is lifted. Otherwise, the student will be placed on suspension for one trimester. Following this suspension, the student must request permission to be readmitted. Failure of a student to maintain the minimum quantity and quality point requirements in each of the two terms subsequent to being readmitted will result in FINAL SUSPENSION.

Appeal. Any student placed on probation or suspension may file a petition for review by the Academic Progress Committee. A student placed on final suspension may, after a two-term absence, request to be readmitted.

LIBERAL AND PROFESSIONAL STUDIES

PROGRAMS OF STUDY

BEHAVIORAL SCIENCES

The bachelor of science degree is offered through the Behavioral Sciences Division with a major in:

Psychology

Psychology is the study of individuals, including their behavior, thought processes, and emotions. The psychology major emphasize scientific research and applications to significant areas of human activities. The psychology major provides students with a solid grounding in the knowledge base of psychology, allows flexibility in course selection to meet students' career goals, and encourages students to integrate and apply knowledge.

Students who are planning to work in the mental health field are encouraged to take abnormal psychology, a counseling course, behavior modification, tests and measurements, and at least one substance abuse studies course. Students who plan to take the GRE and/or plan to enter a doctoral program should take experimental psychology and as many of the foundation courses as possible. Students who are hoping to become substance abuse counselors should take the six substance abuse specialty courses. Students who are not sure which specialty they are most interested in should take as many of the foundation courses as possible at the start of their program of studies. Departmental advisers will help students design individual courses of study that will help students meet their career goals.

This major may be combined with law school preparatory courses or with courses leading to certification in secondary education, as well as with prerequisite courses for admission to graduate studies in speech-language pathology.

The Behavioral Sciences Department also supervises the Speech-Language Pathology Specialty, the Legal Assistant/Paralegal Specialty, and the Substance Abuse Studies Specialty. For each of these specialties, a certificate is granted upon completion, and this is noted on the student's academic transcript. The courses in each specialty program may be taken in conjunction with a student's baccalaureate studies, or they may be taken by individuals who simply wish to earn a certificate in one of these fields.

- PSY 380 Current Psychotherapies 3
- PSY 405 Psychological Tests and Measurements 3
BUSINESS AND ADMINISTRATIVE STUDIES

The bachelor of science degree is offered through the Business and Administrative Studies Division with the following major concentrations:

Accounting

Administrative Studies

Business Administration

The Accounting major is offered for those students who wish to pursue a career in accounting. The major will also serve as the foundation for those preparing for the CPA examinations. The State Board of Accountancy in Florida requires an additional 30 credits beyond the bachelor's degree to qualify for the examination. Nova University offers a master's degree designed to satisfy the additional CPA requirements.

The Administrative Studies major is offered for those students who are already practitioners or are potential practitioners and need a general degree or certificate to prepare for a wide range of career opportunities.

The Business Administration major is offered for practitioners in the field who need a specialized bachelor's degree and/or certificate for advancement or possible career shift in business administration. Students who intend to enter the business field or plan to attend graduate school and want a strong academic base for study in business, computer science, law, and other related fields are also candidates for this degree.

Accounting for Liberal and Professional Studies Students

GENERAL EDUCATION REQUIREMENTS:

MAJOR REQUIREMENTS:

ACT 205 Principles of Accounting I
ACT 207 Principles of Accounting II
ACT 303 Cost Accounting
ACT 305 Intermediate Accounting I
ACT 306 Intermediate Accounting II
ACT 411 Federal Taxation I
ACT 412 Federal Taxation II
ACT 421 Advanced Accounting
ACT 421 Auditing
BUS 101 Introduction to Business
BUS 215 Business Law I
BUS 216 Business Law II
BUS 355 Introduction to International Business
BUS 408 Quantitative Methods
BUS 468 Business Strategy and Policy
CAP 113 Business Applications of Microcomputers
ECO 201 Principles of Macroeconomics
ECO 202 Principles of Microeconomics
FIN 301 Corporation Finance
MAT 302 Applied Statistics
MGT 205 Principles of Management
MKT 101 Introduction to Marketing

TOTAL DEGREE REQUIREMENTS: 120

In addition to the transfer and graduation policies for all majors, Accounting students should be aware that to qualify for graduation, a student must earn at least a 2.25 GPA in his or her major and at least a 2.25 GPA in accounting prefix courses. Transfer grades do not count in GPA unless a student may transfer only 50 percent of major or accounting prefix courses.

Students are cautioned to plan their schedule carefully since the upper division accounting courses are offered only once per year.

TOTAL DEGREE REQUIREMENTS: 120
COMPUTER AND INFORMATION SCIENCES

The bachelor of science degree is offered through the Center for Computer and Information Sciences in the following areas:

Computer Engineering  Computer Information Systems
Computer Science  Computer Systems

Computer Engineering concentrates on the architecture, design, and development of computer hardware. The curriculum is consistent with Association of Computing Machinery recommendations for model curricula in computer science and engineering. Areas covered in the curriculum include fundamentals of logic analysis and design, computer architecture, circuit design, firmware, networks, digital signal processing, microprocessor applications, and the tradeoff between hardware and software engineering in computer systems. The major also requires specific prerequisites and corequisites in mathematics, including discrete mathematics, differential and integral calculus, and probability and statistics.

Computer Information Systems prepares the student for a career in business applications as a programmer/analyst, systems analyst, or an information center specialist. Emphasis is placed on programming languages, data structures, distributed data processing, application software analysis, systems analysis and design, database management, and information systems organization. The Computer Information Systems curriculum is consistent with combined recommendations of a model information systems curriculum outlined by the Association for Computing Machinery and the Data Processing Management Association.

Computer Science deals with the systematic study of algorithms and data structures. The curriculum is consistent with Association for Computing Machinery recommendations for model curricula in computer science and engineering. The curriculum integrates theory, abstraction, and design to bridge the gap between hardware and software issues. The computer science major encompasses software engineering, operating systems design, database management, programming language organization, and computer architecture. This concentration requires specific prerequisites and corequisites in mathematics, including discrete mathematics, differential and integral calculus, and probability and statistics.

The Computer Systems major is designed for students who intend to combine business knowledge with an applications approach to computer science. Besides providing a background in computer functions, languages, and programming, this major focuses on the use of computers in the business environment. On the computer science level, emphasis is placed on software design, computer environment, operating systems, database management, and microcomputer applications interfacing. On the business level, areas examined include principles of economics, applied microeconomics, applied statistics, marketing, management, and organizational behavior.

* Choose one course.

** Computer Engineering and Computer Science majors must take MAT 210 and MATH 220
Computer Information Systems majors must take MAT 208 and MAT 302.
Computer Systems majors must take MATH 210 and MAT 302.

** Computer Engineering and Computer Science majors must take PHYS 240 and PHYS 250.
Computer Information Systems and Computer Systems majors are not required to take PHYS 240/250 and may choose any two courses from the Science and Technology menu.

**Telecommunications Specialty**

This certificate program is designed for those students who are employed or are interested in working in telecommunications. This specialty focuses on the design, planning, organization, and control of data and voice communications networks, with emphasis on distributed computer networks. Students can complete this specialty in conjunction with a major concentration in order to earn a B.S. degree, or they can complete the certificate specialty without seeking a degree.

The following courses are required for this specialty:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSTC 200</td>
<td>Mathematical Foundations of Telecommunications</td>

</tr>
<tr>
<td>CSTC 400</td>
<td>Telecommunications Economics and Policy</td>
<td></td>
</tr>
</tbody>
</table>

**EDUCATION**

The bachelor of science degree is offered through the Education Division with the following major concentrations:

- **Elementary Education**
- **Exceptional Education**
- **Secondary Education**

These education degree programs are approved by the State of Florida and prepare students for teacher certification in the areas of Elementary Education, Exceptional Education with specialties in learning disabilities, mental handicaps, and emotional handicaps, and Secondary Education with specialties in math, social studies, and English. Students who have already completed a bachelor's degree in an area other than education may apply for admission to one of the education certificate programs that will prepare them for state teacher certification.

The role of Nova College is to provide the student with appropriate courses that have been approved by the state for specific certification purposes. Actual teacher certification is awarded by the state Department of Education, not by Nova University.

Any student interested in pursuing a major in Education must contact the Education Office before declaring the major to ensure that the requirements for acceptance are met. Scholastic Aptitude Test (SAT) or American College Test (ACT) scores must be submitted when the student earns the 60th credit hour.

**Internship Requirement**

The Education Internship Program (student teaching and seminar) is offered each academic year in the fall and winter terms as EDU 452.

Students are eligible for the internship if they have earned 108 credits, including the required methods courses; have passed the SAT with a minimum score of 840 or the ACT with a minimum score of 20; have a minimum QPA of 2.5; and have a minimum QPA of 2.5 in their major. Internship dates are published in Nova College class schedules.

Applications for Internship should be received by March 15 for the fall term and August 1 for the winter term. Application forms may be obtained in the Education Office or from off-campus site coordinators.

All questions about the Internship program should be directed to the Education Office. Main campus students call 475-7354; all other students may call (800) 541-6682, Ext. 7354.

LIBERAL ARTS

The bachelor of science degree is offered through the Liberal Arts Department with the following major concentration:

Legal Studies

The bachelor of arts degree is offered through the Liberal Arts Department with the following major concentration:

Liberal Arts

The Legal Studies major is designed for students interested in preparing for law school or other graduate study and for those who want to pursue a liberal arts major with a legal perspective. The courses in the major area are designed to assist students in developing analytical and communication skills and an understanding of economic, political, and social contexts within which legal issues arise.

The Liberal Arts major is designed for students wishing to gain a broad background in the various disciplines included in the liberal arts, such as literature, the arts, history, political studies, philosophy, psychology, sociology, and anthropology, as well as a concentration in one particular area. The courses in this major are intended to aid students in developing analytical and communication skills, aesthetic responsiveness, moral imagination, and intellectual integrity.

**ELECTIVES: 18**

**TOTAL DEGREE REQUIREMENTS: 120**

(Major is continued on next page)
COMMUNICATIONS SPECIALTY

The undergraduate specialty in communications will prepare students (a) to have an understanding of the liberal arts and an appreciation of the value of learning, (b) to develop ideas and communicate them effectively to the appropriate audience, and (c) to have a preparation in the essential skills necessary for the communications professions.

To complete the specialty, students must take one of the three introductory courses: COM 201, COM 202, or COM 203, in conjunction with the remaining four courses, for a total of 15 hours.

- COM 201 Introduction to Journalism
- COM 202 Introduction to Broadcast Journalism
- COM 203 Introduction to Broadcast Technology
- COM 210 Mass Media
- COM 251 Intermediate Telecommunication
- COM 301 Ethical Issues in Communication
- COM 401 Information Theory

LEGAL STUDIES SPECIALTY

This program is designed to provide a sound understanding of the American legal system and its interaction with other aspects of American culture. It is especially suggested for those students who plan careers in business or government or intend to go to law school (Prerequisite: LAN 112).

- LGS 201 Law in Action: Introduction to Legal Reasoning
- LGS 210 The Legal Profession
- LGS 301 Constitutional History I
- LGS 302 Constitutional History II
- LGS 333 History of Political Thought OR
- LGS 326 Law and American Culture OR
- LGS 426 Law and the American Mind

LATIN AMERICAN AND CARIBBEAN STUDIES SPECIALTY

This program provides a broad cultural base for students who plan careers involving Latin American and Caribbean peoples in business, government, psychological services, or education. The certificate program is not a major but must be completed in conjunction with one of the Nova College majors. The requirements for this program are as follows:

The student will complete 24 credits of courses with a Latin American and Caribbean emphasis. Appropriate courses taken within the major may satisfy part of these requirements. Spanish language courses at the 200 level or above also may satisfy part of this requirement. The student will take at least 9 of the 24 required credits outside his or her major.

The student will have to demonstrate competency in an appropriate foreign language. This requirement may be satisfied either through course work or by examination.

Courses currently offered as part of the Nova College curriculum that are automatically applicable toward the specialty in Latin American and Caribbean Studies are as follows:

- SOC 112 Human Origins and Diversity
- LAC 213 Latin American and Caribbean Studies
- LAN 223 Intermediate Spanish
- LAC 240 Comparative Legal Systems
- BUS 355 Introduction to International Business
- LGS 261 Cultural Minorities and the Law
- HUM 323 Contemporary Latin American Fiction
- HIS 410 Emerging Nations
- LGS 441 International Law
- LAC 485-488 Field Study in Latin America
- LAC 491-498 Advanced Special Topics

In addition to the above-mentioned courses, a large number of existing courses may be approved by the program coordinator as applicable toward the specialty in Latin American and Caribbean Studies.

Women's Studies Specialty

The Women's Studies Program is designed to explore the challenges and issues that confront women in society. An interdisciplinary program, it covers such topics as business, law, philosophy, science, literature, anthropology, psychology, gerontology, and the arts. Students may complete a specialty with five of the courses offered for a total of 15 credits. In most instances, women's studies courses may satisfy humanities electives in the core curriculum. Individual courses are also open to the general student population.

Courses that may be used toward a women's studies specialization are:

- WMS 260 Women and Law
- WMS 305 Feminist Theory
- WMS 302 Women's Studies Practicum
- WMS 306 Women and Literature
- WMS 311 Women and Society: Cross-Cultural Perspectives
- WMS 319 Women and Aging
- WMS 324 Women and Business
- WMS 336 Psychology of Women
- WMS 400 Women in the Arts and Humanities
- WMS 402 Women and Political Theory
- WMS 405 Women and Science
MATH, SCIENCE, AND TECHNOLOGY

The bachelor of science degree is offered through the Math, Science, and Technology Department with the following major concentrations:

Life Sciences (premedical)

Ocean Studies

The Life Sciences major, with a premedical emphasis, provides a strong curriculum in biology with significant study in the physical sciences. This major can provide the basis for graduate study in specialized fields of biology, for professional training in medical fields and for teaching. Professional careers in the medical fields and in biology involve graduate study beyond the baccalaureate degree; therefore, both the core and the major have been designed to meet the admission requirements of many medical, dental and veterinary schools and of schools for graduate study in the biological sciences. The curriculum for this major does not appear in this catalog as it is currently in the final stages of development.

The Ocean Studies major is designed to prepare students for a career or further graduate study. The curriculum consists of a set of core courses in physical and natural science leading to a specialty in marine biology that is designed as a solid basis for entering the field of ocean science as well as preparation for further graduate study in this area.

CAREER DEVELOPMENT STUDIES

Adult undergraduate learners are people who often have limited access to higher education, whether they are employed managers, technicians with "terminal" education, service workers who need specific training and career credentials, housewives who have full-time commitments, teacher aides who want to become teachers, or individuals seeking career changes who are trapped by their present responsibilities. These people are faced with changing careers; transitional roles; new technology; increasing information demands; and intellectual, leisure, cultural, and social needs. Usually they are returning to education to increase their competency in a variety of adult roles and to expand their career opportunities.

Nova recognizes that most adults seek higher education to enhance their career status as workers, students, spouses, parents, even as children concerned, for example, with aging parents. A successful educational program for these individuals must make each of these roles rewarding.

Two elements of the adult educational design, therefore, are related to this reward. One, the program must increase the skills and performance of the student in career-related areas. Two, the program must be built around the student's present condition of family and employment. Research continues to show that the reasons adults choose not to go to school are time, travel, and family responsibilities—in other words, inconvenience. In order for higher education to be palatable for adults—particularly for adults in greatest need—it must not come at the sacrifice of their responsibilities on the job or in the home. Nova has successfully developed specific educational programs with this purpose and condition in mind.

Uniqueness. The following characteristics help to make the Career Development Studies Programs both unique and effective:

Flexible Course Scheduling. Because most of the program's students are busy working or raising families during the day, courses meet principally in the evenings and on weekends. Flexible scheduling provides students with the opportunity to enroll frequently throughout the year.

Courses in the 8-and 9-week terms meet once each week in 4-and four-and-a-half-hour sessions. Courses in 16-week terms meet for two hours each week.

Occasionally it becomes necessary to close classes because of capacity enrollment or to cancel classes because of insufficient enrollment. In these cases, Nova College makes every effort to notify affected students prior to the first class meeting, thereby allowing them to register for other courses if they so desire.

Special Programs. Nova College has designed specialized credit and noncredit programs for working adults. Baccalaureate degree-granting programs are offered in accelerated curricula to holders of the associate degree or its equivalent. Nova College also has the ability to respond to special requests for training and education from business, government, and nonprofit agencies by designing career programs to meet specific needs. The bachelor of science in professional management, as well as adaptations of specialty certificate and other degree programs, are offered in a cluster format wherever there is sufficient interest shown by qualified students.

Convenient Locations. Nova undergraduates meet on the main campus of Nova University in Fort Lauderdale and at various off-campus locations including Clearwater, Cocoa Beach, Fort Pierce, Gainesville, Jacksonville, Miami, Ocala, Orlando, Tampa, West Palm Beach, and a number of corporate sites.

Pragmatic Teaching. Undergraduate programs at Nova are designed to be meaningful to the adult student. The faculty consists primarily of working professionals who are fully qualified to teach. They therefore bring to the classroom both academic expertise and first-hand knowledge of the pragmatic application of the subject matter of their courses.

Student Population. Ninety percent of our students are over 21 years of age. Sixty per cent are over 30. Most have families and jobs. They are rich in experience and very diverse in background. They are highly motivated and very interested in helping each other succeed. Most have attended college previously and are now finishing a bachelor's degree in anticipation of new opportunities and possibly graduate education.

Responsive Counseling. The staff of Nova College is committed to assisting students in the achievement of their educational goals. Counselors, faculty, and staff are eager to advise students in setting career and personal growth goals and planning for optimal progress in working toward them. Counselors are available in the evening by appointment.

Experiential Learning. Through RECALL (review and evaluation of career and lifelong learning), Nova College allows students to gain credit for certain learning experiences they have had throughout their lives. Most credit from previous college work is transferable. Credit can also be gained from the CLEP testing program and from past experience that have produced college-level learning. As much as 90 hours of college credit may be granted through RECALL.

Locations. Nova undergraduates meet on the main campus of Nova University in Fort Lauderdale and at various off-campus locations including Clearwater, Cocoa Beach, Fort Pierce, Gainesville, Jacksonville, Miami, Ocala, Orlando, Tampa, West Palm Beach, and a number of corporate sites.
ADMISSION

In keeping with a humanistic philosophy valuing individual worth and differences, the Career Development Studies Program considers applicants in terms of their potential for success. Nova University admits students regardless of race, color, nondisqualifying handicap, sex, age, religion or creed, or national or ethnic origin. Applicants are required to:

1. Submit a completed application form and the $40 nonrefundable application fee to:
   Nova University Career Development Studies Program
   Office of Undergraduate Admissions
   3301 College Avenue
   Fort Lauderdale, Florida 33314
2. Submit official high school or college transcript(s)
3. Speak with a counselor in person or by telephone.

Acceptance to the Career Development Studies Program. As soon as we have the completed application form and fee on file, and proof of high school graduation (or its equivalent), you are admitted to the Career Development Studies Program as a degree-seeking student. Acceptance to a major program of study can be effected only after you have:

1. Submitted official transcripts of all previous college work
2. Declared a major and had your program evaluated by a counselor
3. Completed required placement tests and/or competency tests
4. Freshmen, new students: Completed 30 semester hours at Nova with at least a 2.0 QPA. Transfer students must complete 12 semester hours at Nova with at least a 2.0 QPA.
5. Met any additional requirements as specified by an academic department for a particular major.*

*Education majors must have a combined score of 840 on the SAT or a composite score of 20 on the ACT.

When your official transcripts have been received, your credentials will be evaluated and you will be notified of your status. After the initial evaluation of your program, an advisor or a counselor will be available to help you update your curriculum sheet each time you register.

Special Student. You may want to take one course or several courses or a specialty program without enrolling for a degree program. In this case, indicate "special student" on the application form. You may then register for a course after submitting an application and application fee. As a special student, you are not eligible for a degree unless you follow the regular admissions procedures.

International students are required to obtain a student (F-1) visa or an exchange visitor (J-1) visa. Students are not permitted to study in the United States on a visitor (B-2) visa. See page 36 for admission requirements.

INFORMATION AND COUNSELING

Choosing a college is not a paper process; it requires a dialogue with people who are knowledgeable about the many choices to be made. We strongly urge you to talk with one of our counselors either in person or by phone. We would like to help you answer three important questions: whether you should go to college, where you should go to college, and when you should go to college. These questions have career, financial, and academic implications for you. Our counselors have talked with thousands of individuals facing the same decisions. For many potential students, Nova has been the answer; for others, Nova is not the appropriate match for their needs, and other recommendations can be made. Please take this opportunity to make the right decision.

Call 475-7034 (in Fort Lauderdale) for an application or a personal counseling appointment. From Dade, call 940-6447, Ext. 7034; students from other locations should call (800) 541-6682, Ext. 7034.
COMBINED MAJORS, MINORS, AND SPECIALTIES

The Career Development Studies Program offers you the opportunity to acquire substantial credit in a second major or specialty area. You should check with an adviser as to which majors may be combined. Whenever requirements for a specialty or permissible second major are completed, you need to request, through a Student Action Form, that this information be made a permanent part of your official academic transcript. By judiciously selecting elective courses or by the completion of a few additional credits, you can acquire recognizable competence in more than one academic area.

SECOND BACHELOR'S DEGREE

If you have a bachelor's degree from a regionally accredited institution other than Nova University, you may earn a second bachelor's degree from Nova by completing a minimum of 30 additional credits in the Career Development Studies Program. At least 50 percent of all credits required in the selected major must be taken at Nova.

TRANSFER CREDITS

The Career Development Studies Program welcomes students who have earned college credits at another regionally accredited college or university. Students who plan to transfer to Nova should contact a Nova counselor to discuss how prior college credits can be used for their Nova degree. Community college students should contact a Nova counselor as early in their college career as possible so they can choose courses for their associate's degree that will transfer to Nova and be appropriate for their intended bachelor's degree.

Transfer students must submit official academic transcripts from their previous colleges. Their previous academic work will then be evaluated. Nova College will transfer a maximum of 90 eligible credits (including credit for CLEP, proficiency examinations, and prior experiential learning) toward their degrees (a maximum of 66 credits can be transferred from a community college). The remaining credits must be earned at Nova in regular academic offerings. At least 50 percent of the credits in the student's major area and specialty must be earned at Nova in regular academic offerings.

Evaluation of CLEP examinations, transfer credits, and experiential learning will be made upon admission but will be recorded on the student's permanent record only after he or she has registered for and completed 12 credits at Nova. Experiential learning or the CLEP process must be started during the first 16 weeks at Nova.

Under exceptional circumstances students may be permitted to take courses at another college while enrolled at Nova. However, credit will be transferred only if there is prior written approval from the academic director or program adviser and an earned grade of C or better. Students taking courses at more than one center within Nova University must also receive written approval from a counselor.

TESTING CREDITS

Students may earn college credit through the College Level Examination Program (CLEP), Proficiency Examination Program (PEP), and Advanced Placement examinations (AP).

CLEP is administered at Nova University through the College Board. To receive credit through CLEP examinations at Nova, a student must score in at least the 50th percentile. Before applying to take any of the CLEP examinations, a student should consult an academic counselor to be sure that the credits granted are applicable to the student's course of study.

Requests for AP and PEP credit should be discussed with the testing specialist in the Testing Center.

PORTFOLIO CREDITS

At Nova, what a student can do with learning is more important than how he or she learned it. If a student can demonstrate knowledge and skills comparable to those of a college-trained student and if those skills are appropriate to the student's course of study, Nova College will award academic credit for them.

To earn credit for prior experience outside the traditional college classroom, the student must be able to state and document the skills and knowledge, and the skills and knowledge must be measurable.

Applications and counseling for prior learning credit are available from the Advising Center. Call (305) 475-7527.

INTERNSHIP REQUIREMENT

The Education Internship Program (student teaching and seminar) is offered each academic year in the fall and winter terms as EDU 452. Students are eligible for the Internship if they have earned 108 credits, including the required methods courses; have passed the SAT with a minimum score of 840 or the ACT with a minimum score of 19; have a minimum QPA of 2.5; and have a minimum QPA of 2.5 in the major. Internship dates are published in Nova College class schedules.

Applications should be received by March 15 for the fall term and August 1 for the winter term. Application forms may be obtained in the Education Office or from off-campus site coordinators.

All questions about the Internship should be directed to the Education Office. Main campus students, should call (305) 475-7354; all other students may call (800) 541-6682, Ext. 7354.
ACADEMIC INFORMATION

REQUIREMENTS

Skill Requirements. Students are expected to demonstrate skills appropriate for college work in all courses at Nova. Before or during the first term of enrollment, students will complete placement tests in writing and mathematics and will be advised as to appropriate course selection based on test results. The placement test must be taken before completion of no more than six semester hours. Students needing further development of skills required for college work will be counseled as to opportunities available for assistance. While a student is acquiring these skills, his or her enrollment is limited to courses approved by an adviser, generally at the 100 and 200 levels. The passing of placement tests is prerequisite to enrollment in many courses, including all initial mathematics and language courses.

Recency Requirements for transfer students (see page 198).

English and Mathematics Requirements. All students are required to take the appropriate English composition and/or mathematics courses during their first term of enrollment at Nova. Freshmen must enroll in and successfully complete their English and mathematics sequence of courses in consecutive trimesters. If a student is unable to complete one of these courses successfully, he or she must reenroll for the next term. Assistance in writing and mathematics is provided by the Academic Support Center.

Students whose final grade falls below a C (2.0) will receive a course grade of NP (No Progress) and, if eligible, may repeat the course the following semester with no additional charge for tuition. Although students may receive an NP more than once for a course, the tuition waiver may only be used once for each course.

Accelerated Course Expectations. To ensure that students can obtain maximum benefit from the Nova course format, most Career Development Studies Program courses have assignments to be completed before the first meeting. These assignments are posted on the Student Services Bulletin Board and are available through academic offices during registration. The course outline is distributed at the first class meeting.

Students should anticipate spending a substantial amount of time in preparation for each session to complete the course objectives and requirements set forth in the course outline. Courses with 300 and 400 numbers are considered to be upper-division, college-level courses and require in-depth preparation and performance. Students experiencing difficulty keeping up with course requirements should consider reducing their course load.

Nova programming for adult learning makes class attendance essential. If an emergency necessitates an absence, a make-up assignment should be planned in consultation with the instructor.

</tr>
</tbody>
</table>

Quality Point Averages. A student's academic standing for a specific term is the Quality Point Average (QPA). The QPA is calculated by dividing the total quality points earned by the total quality point credits in a term. The student's overall academic standing is the Cumulative Quality Point Average (CQPA). The CQPA is calculated by dividing the total quality points earned by the total quality point credits.

Progress/Grade Reports. Students will be provided a progress/grade report at the end of every term. Students are protected by legal provisions that prohibit the release of personally identifiable information to other than legally authorized persons and to inspect, review, and challenge such information as provided by law.

Standards of Progress for VA Students. VA students are expected to satisfactorily complete the programs within the number of training hours approved by the State Approving Agency for Veterans' Training. They also must meet any academic, skill, and/or technical requirements of their particular program. If at any point in time it is determined that a VA student cannot satisfactorily complete the program within the approved number of hours, the student's VA educational benefits will be terminated for unsatisfactory progress.

A VA student who, at the end of any 16-week period, has not attained and maintained satisfactory progress will be placed on academic probation for the next 16-week period. Should the student not attain and maintain satisfactory progress by the end of the probationary 16-week period, the student's VA education benefits will be terminated for unsatisfactory progress.
A student whose VA educational benefits have been terminated for unsatisfactory progress may petition the school to be recertified after one 16-week period has elapsed. The school may recertify the student for VA educational benefits only if there is a reasonable likelihood that the student will be able to attain and maintain satisfactory progress for the remainder of the program.

Repeated Courses. A student may repeat a course to improve the grade in that course, but credit toward graduation will be granted only once. Both enrollments and both grades will remain on the transcript. One enrollment will have a notation that the course has been repeated. The higher grade will be counted in the student's Quality Point Average.

Incomplete. An Incomplete (I) can be awarded only in cases of actual hardship experienced by the student as judged by the instructor. When instructor and student do agree to an I grade, both must sign the Contract for Removal of an Incomplete Grade after the form is filled out completely. The student will have up to 16 weeks to complete the course. When the additional 16 weeks has passed, the I will be changed to a grade of A through F based on the course work completed by that time.

A student who is absent at the final examination without prior approval will not receive an Incomplete grade.

Withdrawal. A student will be administratively withdrawn if he or she misses both the first and second class meetings. After the Change of Registration Period, a student may withdraw from a course before the 7th week of an 8- or 9-week course and before the 15th week of a 16-week course. Withdrawal will not be accepted within 2 weeks of the final class meeting. A student who stops attending class will receive a grade of A through F based on required course work.

A Withdrawal Form must be received and date-stamped by the Office of the University Registrar before that deadline. Such a withdrawal will appear on the transcript but not be included in the QPA. A student considering withdrawal is encouraged to meet with the instructor and/or program adviser. Foreign students are encouraged to speak to the international student adviser prior to submitting a Withdrawal Form, as it may affect immigration status. Financial aid recipients should speak to an adviser from the Office of Student Financial Aid.

SATISFACTORY ACADEMIC PROGRESS

To remain in good academic standing, undergraduate students must maintain the minimum Quality Point Average or higher on all credits attempted (Quality Point Average on a 4.0 scale), each semester. In addition to the minimum Quality Point Average (see next page) for a baccalaureate degree, students must conform to the degree requirements of their declared major.

PROBATION AND SUSPENSION

Student Responsibility. Students are responsible for adhering to the policies set forth in this catalog. Probation and suspension are effective as soon as grades are submitted by the instructors. Students who fall in either category as a result of these grades may be asked to withdraw from courses already begun in a succeeding term of registration.

Academic Probation. Students failing to earn the minimum quality point average or higher after their first 12 credits of work attempted or to maintain at least the minimum Quality Point Average thereafter will be placed on probation by the Academic Progress Committee. Academic probation is removed when the student earns a cumulative Quality Point Average above the minimum quality point average based on the number of credits earned.

Qualitative Requirements

<table>
<thead>
<tr>
<th>Credits</th>

<tr>
<td>30-59</td>
<td>1.85 GPA</td>
</tr>
<tr>
<td>60+</td>
<td>2.00 GPA</td>
</tr>
</tbody>
</table>

and the QPA requirement of the particular major

Progress Probation. Students failing to complete at least 70 percent of their attempted credits each academic year will be placed on probation by the Academic Progress Committee. Progress probation is removed when the student completes at least 70 percent of the attempted credits in a subsequent trimester. Students attempting less than 12 credits in the academic year will be evaluated on their previous registrations.

Students are encouraged to seek counseling when their academic progress places them in danger of probation.

After being placed on probation, any student receiving financial aid must remove the probation during the next trimester enrolled to be eligible for further financial aid.

Suspension. To avoid suspension, a student on probation must maintain the minimum quality point average as stated above and complete at least 70 percent of all courses attempted for each trimester of subsequent enrollment until probation is lifted. Otherwise, the student will be placed on suspension for one trimester. Following this suspension, the student must request permission to be readmitted. Failure of a student to maintain the minimum quantity and quality point requirements in each of the two terms subsequent to being readmitted will result in final suspension.

Appeal. Any student placed on probation or suspension may file a petition for review by the Academic Progress Committee. A student placed on final suspension may, after a two-term absence, request to be readmitted.
TEXTBOOKS

Books should be picked up before the first class since Career Development students usually have an assignment to be completed for the first class meeting. Nova Books, Inc., the campus bookstore, is located in the Rosenthal Student Center, telephone (305) 476-4750.

At off-campus locations, books are made available through Nova site coordinators.

CERTIFICATES

Students who wish to apply for a certificate upon completion of a specialty must notify the appropriate academic director. To be eligible to receive a certificate, a student must have a 2.25 GPA in the specialty course work. Students will receive their certificates when curriculum requirements have been satisfied and all financial and other obligations to the University have been met.

INDEPENDENT STUDIES AND TUTORIALS

Independent Study (course numbered 499) provides the qualified student an opportunity to research a question of interest under faculty supervision. A Tutorial enables a qualified student to take a regular course from an instructor on an individual basis rather than in a classroom format. Tutorials are allowed only in exceptional circumstances. Students interested in either Independent Study or a Tutorial should see their program adviser to draw up a contract outlining student responsibilities. It must be signed by the student, the instructor, the program coordinator, and the academic division director. Regular tuition rates apply to both Independent Study and Tutorials.

LENGTH OF PROGRAM

One of the hallmarks of the Career Development Studies Program is its flexible scheduling. Students, with approval, may take more than a full academic load (12-15 credits) during a semester. On the other hand, students may take one course during a semester, or even none, if outside responsibilities make that advisable. It is therefore difficult to predict how long any student will take to fulfill his or her academic goals. Many students who are employed full time receive as much credit in a year as they would attending a traditional daytime institution. For some, graduation is possible in less than four years of academic work.

CAREER DEVELOPMENT

PROGRAMS OF STUDY

BEHAVIORAL SCIENCES

The bachelor of science degree is offered through the Behavioral Sciences Division with the following major concentrations:

Applied Professional Studies

Psychology

The Applied Professional Studies major offers a flexible program for adults who have gained significant professional experience and/or who have earned a large number of college credits toward their particular career goal. This program allows students to select a program of studies that best fits their career plans.

To be able to enroll in this major, a student must:
1) Have a minimum of 45 transfer credits
2) Have completed an 18-credit concentration before coming to Nova
3) Submit a rationale for acceptance into this program explaining his or her educational and career goals.

The Psychology major focuses on the study of individuals, including their behavior, thought processes, and emotions. The psychology major emphasizes scientific research and applications to significant areas of human activities. This major provides students with a solid grounding in the knowledge base of psychology, allows flexibility in course selection to meet students' career goals, and encourages students to integrate and apply knowledge.

Students who are planning to work in the mental health field are encouraged to take abnormal psychology, a counseling course, behavior modification, tests and measurements, and at least one substance abuse studies course. Students who plan to take the GRE and/or plan to enter a doctoral program should take experimental psychology and as many of the foundation courses as possible at the start of their program of studies. Advisers will help students design individual courses of study that will help them meet their career goals.
This major may be combined with law school preparatory courses or with courses leading to certification in secondary education, as well as with prerequisite courses for admission to graduate studies in speech-language pathology.

The Behavioral Sciences Department also supervises the Speech-Language Pathology Specialty, the Legal Assistant/Paralegal Specialty, and the Substance Abuse Studies Specialty. For each of these specialties, a certificate is granted upon completion, and this is noted on the student’s academic transcript. The courses in each specialty program may be taken in conjunction with a student's baccalaureate studies, or they may be taken by individuals who simply wish to earn a certificate in one of these fields. A minimum GPA of 2.25 must be obtained for the courses comprising the certificate.

TOTAL DEGREE REQUIREMENTS: 120
Legal Assistant/Paralegal Studies Specialty

The Legal Assistant/Paralegal Studies Specialty involves 72 credit hours: 24 in legal assistant specialty courses, 24 in liberal arts courses, and 24 in general electives.

This program was designed for those who wish to acquire the skills and knowledge necessary to pursue careers as legal assistants/paralegals. The program is also appropriate for students who are pursuing business, teaching, or law-related careers and for others who desire to understand the U.S. legal system and enhance their legal knowledge and skills.

The eight Legal Assistant/Paralegal Studies Specialty courses are:

- LEG 215 Introduction to Law and the Legal Profession
- LEG 350 Business Relations and Organizations
- LEG 360 Civil and Criminal Responsibility

Speech-Language Pathology Specialty

The series of six courses that constitutes this specialty is designed to provide the undergraduate student with an understanding of the basic processes involved in hearing, speech, and language, as well as the disorders that can occur in these areas. Through completion of the course work in this specialty, students will meet prerequisite requirements for admission to Nova's M.S. Program in Speech-Language Pathology.

The required courses for a Speech-Language Pathology Specialty are:

- SLP/LSC 400 Introduction to Hearing, Speech, and Language Disorders
- SLP/LSC 410 Neuroanatomy and Physiology
- SLP 420 Anatomy and Physiology of Vocal and Hearing Mechanisms
- SLP 430 Phonetics
- SLP 440 Hearing and Speech Science
- SLP 450 Speech and Language Development
- SLP 470 Directed Observation

Note: The M.S. Program in Speech-Language Pathology is accredited by the Educational Standards Board of the American Speech-Language-Hearing Association.

Substance Abuse Studies Specialty

This program is designed to meet the needs of those who wish to develop a broad base of knowledge concerning substance abuse problems, resources available for managing these problems, and modes of treatment of the individual substance abuser. This specialty is appropriate for students employed in or wishing to enter the field of substance abuse treatment, as well as any students who feel that the knowledge base provided in this program will be useful to them in their careers (management, teaching, etc.). Students completing these courses with at least a 2.25 GPA will be awarded the Substance Abuse Studies Program Certificate.

The Substance Abuse Studies Specialty involves seven courses:

- PSY/EDU 362 Drug Prevention and Education
- PSY/SOC 355 Substance Abuse and the Family
- PSY/MGT 356 Substance Abuse in Business and Industry
- PSY 357 Psychology and Physiology of Substance Abuse
- PSY 358 Rehabilitation Strategies in Substance Abuse Treatment
- PSY 359 Self-Help Groups
- PSY 363 Professional Development in Substance Abuse

Nova University is listed as a single-source provider by the Certification Board for Addictions Professionals in Florida (CBAPF).

The CBAPF has three specialty areas for certification: Certified Addictions Professional (CAP), Criminal Justice Addiction Professional (CJAP), and Addiction Prevention Professional (APP). Nova University is the only single-source provider in Florida that offers classes in all three specialty areas.

The Substance Abuse Studies Specialty at Nova is designed so interested applicants will be able to pursue certification without interrupting their present career. Courses may be taken for college credit or for continuing education.

Nova University is also an approved continuing education provider for the Board of Nursing, and the Department of Professional Regulation for Mental Health Counselors, Marriage and Family Therapists, and Social Workers, among others.
BUSINESS AND ADMINISTRATIVE STUDIES

The bachelor of science degree is offered through the Business and Administrative Studies Department with the following major concentrations:

Accounting
Administrative Studies
Business Administration

The Accounting major is offered for those students who wish to pursue a career in accounting. The major will also serve as the foundation for those preparing for the CPA examinations. The State Board of Accountancy in Florida requires an additional 30 credits beyond the bachelor's degree to qualify for the examination. Nova University offers a master's degree designed to satisfy the additional CPA requirements.

The Administrative Studies major is offered for practitioners or potential practitioners who need a general degree or certificate to prepare for a wide range of career opportunities.

The Business Administration major and related specialties are offered for those students who are already practitioners in the field and need a specialized bachelor's degree and/or certificate for advancement or possible career shift in business administration. Students who intend to enter the business field or plan to attend graduate school and want a strong academic base for study in business, computer science, law, or other related fields are also candidates for this degree.

Specialties offered to students enrolled in these majors are: Banking and Finance, Computer Science, Human Resource Management, International Business, and Marketing. Students will receive a specialty certificate upon completion of any of the specialties. Contact the Business and Administrative Studies Department for more information.

The Professional Management major is offered with options for the following specialties: Banking and Finance, Business, Computer Applications, Criminal Justice, Customer Service, Health Care Services, Legal Assistant/Paralegal Studies, and Public Administration.

The Professional Management major is designed for people working in technical or professional fields who are advancing into supervisory and management positions. Holders of the community college associate degree or equivalent college credit who have had to meet additional general requirements when seeking a higher degree are now able to transfer 90 semester hours of credit toward the bachelor of science degree in Professional Management (BPM)*. Sixty-six semester hours of credit in management, behavioral science, computers, and humanities will be required. Courses are scheduled to meet the needs of the working student.

The accelerated, career-based, 66-credit-hour curriculum is offered in the cluster format with five or six courses (15 to 18 hours) of credit completed approximately every 6 months. The course work for the bachelor of science degree in Professional Management can be completed in 27 months. Classes meet one evening per week and approximately every third Saturday.

The Specialty in Banking and Finance is designed for those students who are currently employed by banks, savings and loan associations, brokerage houses, credit unions, and finance companies or those who would like to pursue a career with financial institutions.

The Specialty in Business is applicable to people who want a general business and management background.

The Specialty in Computer Applications is designed for those students who are interested in business applications of computers. The curriculum focuses on the use of computers in decision making, information management, and office automation.

The Specialty in Criminal Justice is designed for those students who want a management major plus a general grounding in the field of criminal justice. Typical students may already work in the criminal justice field and want to supplement their practical knowledge with professional work in management.

The Specialty in Customer Service is designed for those students working in a customer service capacity or for managers who work in a heavily customer service-oriented environment.

* The curriculum for the bachelor of science degree in Professional Management provides only the upper level courses. Applicants must have at least 30 credits to be accepted into the program.
The Specialty in Health Care Services is designed for registered nurses and other health care professionals. The program will enable those students to draw from their specialized backgrounds and to develop professionally and personally. All nurses who have passed the licensing examination for registered nurse (RN) will receive a minimum of 45 credit hours for prior experience credit. Therapist and technician training will be assessed on an individual basis.

The Specialty in Legal Assistant/Paralegal Studies provides the student with a management major and a comprehensive professional specialty in a growing vocational field.

The Specialty in Public Administration is designed for students working in government or social service agencies or those aspiring to begin careers in these organizations. The management major is supported by courses specifically dealing with management in the public sector.

**ELECTIVES:**

**TOTAL DEGREE REQUIREMENTS:**

In addition to the transfer and graduation policies for all majors, accounting students should be aware that, to qualify for graduation, a student must earn at least a 2.25 GPA in his or her major and at least a 2.25 GPA in accounting prefix courses. Transfer grades do not count in GPA scores. A student may transfer only 50 percent of major or accounting prefix courses.

Students are cautioned to plan their schedule carefully since the upper-division accounting courses are offered only once per year.
Human Resource Management Specialty

This program is designed for those students who are employed in the fields of personnel, training and development, labor relations, or related areas or those who would like to pursue a career in human resource management. Course work does not duplicate an associate degree in this field and most, if not all, associate-level credits are transferable to this program. Students can complete this specialty in conjunction with a major concentration in order to earn a B.S. degree, or they can complete the certificate specialty without seeking a degree.

The following courses are required for this specialty (prerequisites: MGT 205, MGT 315, MGT 317):

International Business Specialty

This program is designed in recognition of the fact that South Florida's position as a major international trade area. Students who are employed by multinational companies, exporters, importers, freight forwarders, customs brokers, transportation firms, wholesalers, or manufacturers or those who would like to pursue a career in international business should choose this specialty. Course work does not duplicate an associate degree in this field and most, if not all, associate-level credits are transferable to this program. Students can complete this specialty in conjunction with a major concentration in order to earn a B.S. degree, or they can complete the certificate specialty without seeking a degree.

The following courses are required for this specialty (prerequisites: ACT 205, BUS 355, ECO 201, ECO 202, FIN 301, MGT 205, MKT 101):

The curriculum for the bachelor of science degree in professional management provides only the upper-level courses. Students must have at least 30 credits to be eligible to enter the program.
COMPUTER AND INFORMATION SCIENCES

The bachelor of science degree is offered through the Center for Computer and Information Sciences in the following areas:

**Computer Engineering**
**Computer Information Systems**

**Computer Science**
**Computer Systems**

**Computer Engineering** concentrates on the architecture, design, and development of computer hardware. The curriculum is consistent with the Association of Computing Machinery recommendations for model curricula in computer science and engineering. Areas covered include fundamentals of logic analysis and design, circuit design, firmware, networks, digital signal processing, microprocessor applications, and the tradeoff between hardware and software engineering in computer systems. The major also requires specific prerequisites and corequisites in mathematics, including discrete mathematics, differential and integral calculus, and probability and statistics.

**Computer Information Systems** prepares the student for a career in business applications as a programmer/analyst, systems analyst, or an information center specialist. Emphasis is placed on programming languages, data structures, distributed data processing, application software analysis, systems analysis and design, database management, and information systems organization. The Computer Information Systems curriculum is consistent with combined recommendations of a model information systems curriculum outlined by the Association for Computing Machinery and the Data Processing Management Association.

**Computer Science** deals with the systematic study of algorithms and data structures. The curriculum is consistent with Association for Computing Machinery recommendations for model curricula in computer science and engineering. The curriculum integrates theory, abstraction, and design to bridge the gap between hardware and software issues. The computer science major encompasses software engineering, operating systems design, database management, programming language organization, and computer architecture. This concentration requires specific prerequisites and corequisites in mathematics, including discrete mathematics, differential and integral calculus, and probability and statistics.

The **Computer Systems** major is designed for students who intend to combine business knowledge with an applications approach to computer science. Besides providing a background in computer functions, languages, and programming, this major focuses on the use of computers in the business environment. On the computer science level, emphasis is placed on software design, computer environment, operating systems, database management, and microcomputer applications interfacing. On the business level, areas examined include principles of economics, applied microeconomics, applied statistics, marketing, management, and organizational behavior.

Telecommunications Specialty

This certificate program is designed for those students who are employed or are interested in working in telecommunications. This specialty focuses on the design, planning, organization, and control of data and voice communications networks, with emphasis on distributed computer networks. Students can complete this specialty in conjunction with a major concentration in order to earn a B.S. degree, or they can complete the certificate specialty without seeking a degree.

The following courses are required for this specialty:

CSTC 200 Mathematical Foundations of Telecommunications
CSTC 205 Electronics for Telecommunications
CSTC 300 Telecommunications Network Planning and Operations
CSTC 305 Telecommunications Software and Protocols
CSTC 400 Telecommunications Economics and Policy

EDUCATION

The bachelor of science degree is offered through the Education Department with the following major concentrations:

Elementary Education

Exceptional Education (Emotional Handicap, Mental Handicap, and Specific Learning Disabilities)

Secondary Education (English/Mathematics/Social Studies)

These education degree programs are approved by the State of Florida and prepare students for teacher certification in the areas of elementary, exceptional, and secondary education. Students who have already completed a bachelor's degree in an area other than education may apply for admission to one of the education certificate programs that will prepare them for state teacher certification. The role of the Career Development Studies Program is to provide the courses that will lead to specific teacher certification. Actual teacher certification is awarded by the state Department of Education, not by Nova University.

Any student interested in pursuing a major in education must contact the Education Office before declaring an education major to ensure that the requirements for acceptance are satisfied.

Core Requirements for Career Development Students in Education Majors

GENERAL DISTRIBUTION:
LAN 111 Critical Reading and Writing I 3
LAN 112 Critical Reading and Writing II 3
LAN 201 Fundamentals of Public Speaking 3

LIBERAL ARTS

The bachelor of science degree is offered through the Liberal Arts Department with the following major concentration:

General Studies

The bachelor of arts degree is offered through the Liberal Arts Department with the following major concentration:

Legal Studies

The General Studies major is offered for those students who may have spent a number of years outside the academic environment but wish to pursue a liberal studies education, focusing on ethics, multicultural relations, social and environmental concerns, and literature and the arts. Within the curriculum, students will be able to achieve both a breadth of knowledge and expertise in particular areas of study.

The Legal Studies major is designed for students interested in preparing for law school or other graduate study and for those who want to pursue a liberal arts major with a legal perspective. The courses in the major area are designed to assist students in developing analytical and communication skills and an understanding of economic, political, and social contexts within which legal issues arise.

ELECTIVES: 27
TOTAL DEGREE REQUIREMENTS: 120

Latin American and Caribbean Studies Specialty

This program provides a broad cultural base for students who plan careers involving Latin American and Caribbean peoples in business, government, psychological services, or education. The program is not a major but must be completed in conjunction with one of Nova College majors. The requirements for this program are as follows:

The student will complete 24 credits of courses with a Latin American and Caribbean emphasis. Appropriate courses taken within the major may satisfy part of these requirements. Spanish language courses at the 200 level or above also may satisfy part of this requirement.

The student will take at least 9 of the 24 required credits outside his or her major.

The student will have to demonstrate a reading and speaking knowledge of Spanish. This requirement may be satisfied either through coursework or by examination.

Courses currently offered as part of the Nova curriculum that are automatically applicable toward the specialty in Latin American and Caribbean Studies are the following:

SOC 112 Human Origins and Diversity
LAC 213 Latin American and Caribbean Studies
LAN 223 Intermediate Spanish
LAC 240 Comparative Legal Systems
BUS 255 Introduction to International Business
LGS 261 Cultural Minorities and the Law
HUM 323 Contemporary Latin American Fiction
HIS 410 Emerging Nations
LGS 441 International Law
LAC 485-488 Field Study in Latin America
LAC 491-498 Advanced Special Topics

In addition to the above-mentioned courses, a large number of existing courses may be approved by the program coordinator as applicable toward the specialty in Latin American and Caribbean Studies.
General Studies for Career Development Students

CONTINUED ON THE NEXT PAGE
Women's Studies Specialty

The Women's Studies Program is designed to explore the challenges and issues that confront women in society. An interdisciplinary program, it covers such topics as business, law, philosophy, science, literature, anthropology, psychology, gerontology, and the arts. Students may earn a specialty certificate by completing five of the courses offered for a total of 15 credits. For most instances, the women's studies courses may satisfy humanities electives in the core curriculum. Individual courses are also open to the general student population.

Courses that may be used toward completing a women's studies specialization are:

COURSE DESCRIPTIONS

Course numbers in parentheses indicate that the course was previously offered with a different prefix or course number. Course names in parentheses indicate that the course was previously offered under a different name (see ACT 205, ACT 207). Courses marked with an asterisk fulfill the Gordon Rule.

ACCOUNTING (ACT)

ACT 305 Intermediate Accounting II/ 3 sem. hrs. (ACT 205) A continuation and expansion of Intermediate Accounting II. The conceptual foundations of sources and application of financial statements to producing and working capital capital, reporting errors per share, and accounting for other selected transactions. Prerequisite: ACT 305.

ACT 306 Cooperative Education (as credit) Work placement for a period of 16 to 18 weeks. The placement will be directly related to the student's program of study.

ACT 311 Federal Taxation 1/3 sem. hrs. The fundamentals of individual income taxation. A background of accounting courses is not essential for this course. The course may be of special interest to nonbusiness majors. Topics include exemptions, exclusions, and deductions available to the individual. These concepts will aid the student in the preparation of an individual tax return. Prerequisite: ACT 205.

ACT 321 Federal Taxation 1/3 sem. hrs. An overview of the Internal Revenue Code as it applies to partnerships, corporations, estates, and trusts. Prerequisite: ACT 311.

ACT 325 Advanced Accounting 3 sem. hrs. (ACT 321) A continuation and expansion of Intermediate Accounting II. Accounting principles for businesses and combinations, accounting for branches, accounting for liquidations. Accounting for nonprofit organizations and other selected topics. Prerequisite: ACT 306.
BUS 213 Business Applications of Microcomputers/3 sem. hrs. (BUS 113) Theory and application of programs for microcomputers that are useful in the business environment. Accounting, database management, and information system management programs will be included. A computer laboratory-oriented course. Prerequisite: ACT 205. CAP 111. Identical to CAP 213.

BUS 215 Business Law I/3 sem. hrs. (BUS 201) The fundamentals of business law, contract law, property law, and negotiable instruments as these areas apply to business organizations. Credit cannot be obtained for both BUS 215 and LEG 225.

BUS 216 Business Law II/3 sem. hrs. (BUS 202) A continuation and expansion of Business Law I. Agency law, bankruptcy and the Uniform Commercial Code as these areas apply to business organizations. Prerequisite: BUS 215.

BUS 302 Business Communication/3 sem. hrs. Study of strategy and implementation of effective written and oral business communications. Topics include persuasive messages, delivery of good news and bad news, sales letters, collection messages, design of business reports and oral presentations, use of visual aids, and effective menus. Prerequisite: LAN 111. Identical to MGT 490.

BUS 305 Organization Theory/3 sem. hrs. (BUS 311) Emphasizes modern organizations and their structure and systems. The special problems of large research and development organizations; project analysis for program management; matrix management; venture management; and contingency management. Prerequisite: MGT 205.

BUS 308 Cooperative Education (max 1 credit) Work placement for a period of 16 to 18 weeks. Placement will be directly related to the student's program of study.

BUS 310 Small Business Management/3 sem. hrs. (BUS 351, 210) A study of management problems that relate to the small-scale business environment. The evaluation of options available and decisions to be made in initiating a business: implementing financial and administrative controls, operating systems, pricing and marketing strategy, and understanding the legal environment in which the business must function.

BUS 324 Women and Business/3 sem. hrs. A study to examine various obstacles faced by women in the business community and explore techniques used by successful female corporate executives and entrepreneurs to overcome these obstacles. Identical to WM 324.

BUS 335 Introduction to International Business/3 sem. hrs. (BUS 255, MGT 491) Survey of the field that includes the legal and cultural environment of international business; international financial systems; management of international operations; personnel and labor relations; international marketing; international economics, trade, and finance, multinational enterprises, international accounting. Prerequisite: BUS 101.

BUS 378 Current Issues in Information Management/3 sem. hrs. Computer topics of importance to the data processing business manager. Flow of data, distributed processing, decision support systems, modeling. Emphasis is on information as a company resource and source information management practices. Prerequisite: CAP 300. Identical to CAP 375.

BUS 409 Quantitative Methods/3 sem. hrs. (BUS 321) Emphasis on specific decision-making tools and their applications in real business situations. How to solve problems of cost-volume-profit analysis; linear programming; Markov chains; gaming; the transportation problem; PERT and other network models; decision theory; inventory problems; computer simulations; and forecasting linear models. Prerequisite: MAT 302.

BUS 410 Business Ethics/3 sem. hrs. Examines the nature of morality and the theories of normative ethics. Identifies a variety of ethical issues and moral challenges within the corporation. Focuses on moral problems involving consumers, the environment, the professions, and the role of the corporation in society.

BUS 461 Research Methods/3 sem. hrs. (BUS 497) This course introduces a set of conceptual tools and techniques that will be applied to the analysis and proposed solution of real problems in an organizational setting. Students will submit a research proposal as part of the course requirements. Prerequisites: LAN 111 or LAN 311; MAT 302.

BUS 462 Management Applied Project/3 sem. hrs. This is a course registration number for students in the BPM program who must complete an applied project, Practicum, as part of their degree requirements. Students will meet in peer study-review groups on an occasional basis rather than a regularly scheduled class. Prerequisites: BUS 461 and approved project proposal.

BUS 480 Business Strategy and Policy/3 sem. hrs. (BUS 498) An integrative senior-year course in which the disciplines of management, finance, behavioral sciences, and marketing will focus on the solution of specific business problems. Case studies will be employed in this course. Prerequisites: ECO 201, ECO 202, and FIN 301; LAN 201 or LAN 311; and senior standing.
BPS 491-498 Advanced Special Topics/3 sem. hrs. Advanced topics in business that are not included in regular course offerings. Specific content and prerequisites are announced in the course schedule for a given term. Students may enroll for Special Topics covering differing content.

BPS 499 Independent Study in Business/1-12 sem. hrs. (BPS 197, 297, 397, 497) The student selects, and carries out independently, library and/or empirical research. Faculty supervision is provided on an individual basis. Prerequisite: Written consent of instructor and division director.

COMMUNICATIONS (COM)

COM 101 Introduction to Journalism/3 sem. hrs. Training in the elements of reporting with emphasis on the modern news story. Students will learn the elements of news, the style and structure of news writing, and the technology of newspaper production. Corequisite: LAN 111.

COM 202 Introduction to Broadcast Journalism/3 sem. hrs. Training in the elements of broadcast reporting with emphasis on the modern electronic news story. Students will learn the elements of broadcast news, the style and structure of broadcast news writing, and the technology of radio production. Corequisite: LAN 111 or COM 203.

COM 206 Introduction to Broadcast Technology/3 sem. hrs. Students will be trained in using the equipment appropriate to modern broadcasting studios in television and/or radio, including broadcast equipment and computer-controlled broadcasting devices. Corequisite: LAN 111.

COM 251 Intermediate Telecommunications/3 sem. hrs. Students will be introduced to technical skills and tools that will assist them in modern communication, such as electronic equipment, electronic graphics, mainframe networks, electronic databases, etc. Prerequisite: CAP 111 or equivalent.

COM 301 Ethical Issues in Communication/3 sem. hrs. Students will explore ethical issues specific in the communications industry.

COM 401 Information Theory/3 sem. hrs. Students will examine the theoretical foundations of the "information society" and information theory, by examining the works of major theorists such as Claude Shannon and those whose work has influenced. Prerequisites: senior standing or permission of instructor.

COMMUNITY SERVICE (CMS)

CMS 251 Social Problems/3 sem. hrs. Focuses upon a number of contemporary social problems, analyzing causative factors and exploring alternative solutions. Examines the role of community service agencies in the amelioration of some of these problems. Identical to SOC 251.

CMS 300 Advocating Change: Crucial Issues/3 sem. hrs. An exploration of major issues of concern to advocacy groups today. Includes environmental issues, human rights, disarmament and peace movements, constitutional and civil rights, consumer advocacy, the needs of special populations (elderly, handicapped, abused children, etc.), political and legal reform efforts, and other socially relevant issues. Identical to SOC 300.

CMS 310 Introduction to Legal Process for Advocates/3 sem. hrs. An introduction to the structure and process of the American legal system, with an emphasis upon applications to advocacy issues. Includes the role of the lawyer, the adversary system, court, and judicial process, federal and state court systems, and the fundamentals of legal analysis.

CMS 400 Research and Evaluation in Community Services/3 sem. hrs. The analysis and evaluation of data relevant to community service functions. Includes research design, review of relevant literature, and the formulation and testing of hypotheses. Also covers the evaluation of service delivery programs.

COM 450 Administration of Community Service Programs/3 sem. hrs. An overview of community service institutions, including those concerned with health, welfare, the administration of justice, and rehabilitation. Covers the interrelationship of programs and agencies, the analysis of service delivery problems, and methods for improving the administration of community services.

COMPUTER APPLICATIONS (CAP)

CAP 111 Computer Literacy/3 sem. hrs. (COM 105, 1058, COR 134, CS 111) Introduction for the nontechnical person. Computer literacy, principles of computer operation, uses of computers in small businesses, schools, social service agencies, and hospitals. Hands-on experience with microcomputers and specialized software.

CAP 114 Computer Applications for Health Care Administrators/3 sem. hrs. (CS 114) Theory and applications of programs that are useful in the health care environment. The course will include discussion of computerized monitoring and testing in addition to hands-on experience with microcomputers.

CAP 115 Microcomputer Applications/3 sem. hrs. (CS 115) Theory and application of programs for microcomputers that are used in management. Database programs, electronic spread sheets, and telecommunications will be included. A laboratory-oriented course. Prerequisite: CAP 111. Identical to BUS 115.

CAP 213 Business Applications of Microcomputers/3 sem. hrs. (CS 113, CAP 113) Theory and applications of programs for microcomputers that are useful in the business environment. Accounting, database management, and information system management programs will be included. Computer laboratory course. Prerequisites: ACT 205, CAP 111, Identical to BUS 213.

CAP 380 Computer Security, Ethics, and Auditing/3 sem. hrs. (CS 380) Issues of security, privacy, and control from the viewpoint of the computer user. Emphasis on procedures for protecting systems from unauthorized use, theft, vandalism, and natural disasters. Ethical issues in computer usage are covered. Prerequisite: CAP 385.

COMPUTER ENGINEERING (CSEE)

CSEE 210 Networks/3 sem. hrs. (EE 210) Introduction to the use of microprocessors. Flow of data, distributed processing, decision support systems, and modeling. Emphasis on information as a company resource and source information management practices. Prerequisite: CSE 348. Identical to BUS 375.

COMPUTER ENGINEERING (CSEE)

CSEE 210 Networks/3 sem. hrs. (EE 210) Introduction to the use of microprocessors. Flow of data, distributed processing, decision support systems, and modeling. Emphasis on information as a company resource and source information management practices. Prerequisite: CSE 348. Identical to BUS 375.
CSEE 255 Engineering Laboratory I/II 3 sem. hrs. (EE 235) Basic laboratory to complement Networks I. Prerequisite or corequisite: CSEE 210.

CSEE 365 Electronics for Computer Science Majors 3 sem. hrs. (EE 365) An introduction to network analysis and electronic circuitry. Introduction to types of circuits and components: voltage, current, resistance, capacitance, and inductance. Fundamental circuit analysis techniques, series and parallel combinations of components, transistor and diode characteristics and their applications in logic circuits. Differences in existing manufacturing technologies for VLSI such as C-MOS, N-MOS, P-MOS. Intended as a special survey course for CS majors but will not meet CE Majors' requirements. Prerequisite: CSE 160.

CSEE 308 Cooperative Education (no credit) (EE 308) Work placement for a period of 16-18 weeks. Placement will be directly related to the student's program of study.

CSEE 310 Networks II 3 sem. hrs. (EE 310) Phasors, sinusoidal steady-state analysis, rms value, average power, balanced three-phase circuits, resonance, frequency response, two-port networks, and Laplace transforms are studied. Prerequisites: CSEE 210 and MATH 310.

CSEE 330 Electronics I 3 sem. hrs. (EE 330) Introduction to the physical theory of semiconductor devices, diodes, semiconductor circuit applications, transistor characteristics, transistor equivalent circuits, and single-stage amplifiers. Prerequisite: CSEE 310.

CSEE 405 Networks III/3 sem. hrs. (EE 405) Continuation of Networks II emphasizing Laplace transforms for solving advanced network problems. Prerequisite: CSEE 310, CSEE 340, MATH 305, and MATH 310.

CSEE 430 Fundamentals of Communication Systems 3 sem. hrs. (EE 430) Fourier series and transforms, modulation systems, sampling, digital data transmission, noise, channel capacity, design and analysis of communication systems. Prerequisites: CSEE 340, CSEE 405.

CSEE 445 Engineering Lab III/2 sem. hrs. (EE 445) Lab work to complement electronics theory course. Prerequisite: CSEE 405.

CSEE 460 Microprocessor Applications 3 sem. hrs. (EE 460) Applications in the design of microprocessor-based circuits. Prerequisites: CSEE 306 and CSE 335.

CSEE 470 Electrical Engineering Design 3 sem. hrs. (EE 470) Application of design techniques to special projects in electrical engineering. Prerequisite: CSEE 405.

COMPUTER SCIENCE (CSE)

CSC 140 Discrete Mathematics 3 sem. hrs. (CS 140) An introduction to the concepts and techniques of discrete mathematical structures which are used in the theory and application of computer science. Topics covered include logic, set theory, relations, functions, recurrence relations, matrices, algebraic structures, and graph theory. Prerequisites: CSE 170 and demonstrated competency equivalent to MAT 150.

CSC 150 Introduction to Computer Organization 3 sem. hrs. (CS 150) An introduction to structure of digital computer organization and operating systems and data representation, the central processing unit, memory, input/output devices, number systems and logic systems. Prerequisites: MAT 103 or consent of instructor.

CSC 160 Fundamentals of Logic Analysis and Design 3 sem. hrs. (CS 160) Continuation of Networks I emphasizing Laplace transforms for solving advanced network problems. Prerequisite: CSEE 310, CSEE 340, MATH 305, and MATH 310.

CSC 165 Fundamentals of Computers and Information Processing 3 sem. hrs. (CS 165) An introduction to various types of computer hardware. Steps in designing, programming, and implementing computer systems. Basic computer terminology. Prerequisite: CSE 160.

CSC 170 Introduction to Programming 3 sem. hrs. (CS 170) An introduction to good programming techniques including flowcharting, code design, debugging techniques and documentation, problem-solving methods, pseudocode, and algorithm development to be used in the design of computer programs. The C language will be taught as part of this course. The topics covered in C are global declaration, local declaration, data types, arithmetic operations, looping structures, control flow, loops, and input/output procedures.

CSC 180 Introduction to UNIX 3 sem. hrs. (CS 180) Introduction to the basic concepts of the UNIX operating system. Topics include system commands, system directives, awk, and introduction to shell programming languages, text formatting tools, use of a modern and terminal software, and system maintenance utilities. Prerequisite: demonstrated competency equivalent to CSE 170.

CSC 210 FORTRAN III 3 sem. hrs. (CS 210) A study of the FORTRAN programming language with the emphasis on problem-solving techniques. Topics covered will include an introduction to structured programming, the structure of the FORTRAN language, input and output of data through formatters I/O, iteration control, array handling, and subprograming. Prerequisites: CSE 170.

CSC 220 Business Oriented Language (COBOL) 3 sem. hrs. (CS 220) A study of the COBOL programming language with emphasis on business applications. Students apply a structured, multiphase program development process that features a series of steps involving understanding of a problem, formal problem definition, design methodology, program specification, breakdown, and files using COBOL. Prerequisite: CSE 170.

CSC 251, 292, 294-299 Special Topics in Computer Science 3 sem. hrs. (CS 251-299) Topics in computer science that are not included in regular course offerings and may be taken without prerequisites. Specific content is announced in the course schedule for a given term. Students may enroll for Special Topics covering different content.

CSC 293 Introduction to Artificial Intelligence 3 sem. hrs. (CS 293) Introduction to the basic concepts and techniques of artificial intelligence and expert systems. Topics include the philosophical implications of machine intelligence, psychological modeling, natural language processing, problem solving, search strategies, heuristic methods, and knowledge representation and expert systems. Prerequisite: CSEE 340.

CSC 300 Computer Security, Ethics, and Auditing 3 sem. hrs. (CS 300) Issues of security, privacy, and control from the viewpoint of the computer user. Emphasis on procedures for protecting systems from unauthorized use, theft, vandalism, and natural disasters. Ethical issues in computer usage are covered. Prerequisite: CSC 235.
CCS 306 Digital Design/3 sem. hrs. (CS 306) Register transfer level design of digital computers, data transfer hardware, organization of the central processing unit, design of the controller, and a complete design example. Prerequisites: CCS 162, CCS 335, and CSEE 305.

CCS 308 Cooperative Education (1-2 credits) (CS 308) Placement work for a period of 16-18 weeks. Placement will be directly related to the student's program of study.

CCS 315 Advanced COBOL/3 sem. hrs. (CS 315) A study of advanced COBOL programming using structured techniques. Topics to be covered include table handling, sequential and indexed file processing, database access, editing, sorting, and the Report Writer. Prerequisite: CCS 220.

CCS 330 Organization of Programming Languages/3 sem. hrs. (CS 330) Development of understanding of the organization of programming languages. Introduction to formal study of the design and implementation of computer languages, comparison of two or more high level modern programming languages. Prerequisites: CCS 218, CCS 330, and CCS 340.

CCS 331 Structured Programming/3 sem. hrs. (CS 331) Introduction to the use of structured design, algorithm development, debugging techniques with a highly structured language. The use of highly structured languages is expected to speed the implementation of the program and greatly improve its reliability. The differences between functions and procedures, string functions and operations, data type concepts and classifications, records and arrays, and character strings, are stressed. CCS 170.

CCS 332 Introduction to File Processing/3 sem. hrs. An introduction to the concepts and techniques of storing data on bulk storage devices. File access techniques of structuring used on storage devices, and file input/output are covered. Prerequisite: CCS 305.

CCS 335 Assemblers and Assembly Language Programming/3 sem. hrs. (CS 335) A detailed analysis of the operation of assemblers. Assembler features, assembly language programming, and microcomputers. Assembly language programs will be written as part of this course. Prerequisite: CCS 340.

CCS 340 Data Structures/3 sem. hrs. (CS 340) Introduction to the concepts and techniques for handling lists, stacks, queues, sorting and searching techniques, binary trees, AVL trees, trees and graphs, and hashing. Prerequisites: CCS 330, CCS 355.

CCS 345 Distributed Data Processing/3 sem. hrs. (CS 345) An examination of the features and impact of distributed systems in the business environment. Prerequisite: CCS 340 and MAT 302 or MATH 450.

CCS 355 The C Programming Language/3 sem. hrs. (CS 355) A study of the C programming language that includes variable types, expressions, control-flow constructions, functions, recursive functions, arrays, pointers, structures, unions, and I/O. Prerequisites: CCS 330 or consent of instructor.

CCS 356 The C++ Programming Language/3 sem. hrs. (CS 356) An introduction to the study of object-oriented programming using the C++ language with emphasis on the design and implementation of programs. Topics include data types and operations, online and overload functions, class types and members, access and protection of members and friends of a class, constructors and destructors, and vertical functions. Prerequisites: CCS 325 and CS 342 or consent of instructor.

CCS 362 Advanced C Programming Languages/3 sem. hrs. The Advanced C programming language course expands CCS 355. Topics include advanced pointers, structures and unions, doubly linked lists, hash tables with doubly linked lists, I/O, C preprocessor, C code portability, and ANSI standards for C. Prerequisite: CCS 355.

CCS 365 Methods of System Analysis/3 sem. hrs. (CS 365) An overview of systems development with emphasis on techniques and tools of system documentation and logical system specification. Prerequisite: CCS 345.

CCS 370 Software Engineering/3 sem. hrs. (CS 370) Algorithm analysis, software design, management of large software projects, functional specification, design and testing phase of large scale projects, quality control. Prerequisite: CCS 340.

CCS 371 Software Engineering/3 sem. hrs. (CS 371) An introduction to the process of developing software systems. Software life cycle models, quality factors, requirements analysis and specification, software design (functional design and object-oriented design), implementation, testing, management of large software projects. Prerequisite: CCS 140, CCS 355.

CCS 386 Computer Simulations/3 sem. hrs. This course introduces students to simulation techniques and simulation of system level and high level simulation. Prerequisite: MATH 450.

CCS 391 Advanced Software Engineering/3 sem. hrs. This course covers the topics of software engineering, including software project management, software development processes, software quality assurance, software testing, and software maintenance. Prerequisites: CCS 340 and MATH 340.

CCS 405 Computer Architecture/3 sem. hrs. (CS 405) Analysis and design of computer systems, the interrelation of software and hardware design in the final computer system, the interrelation between the operating system and the architecture of computer systems, concurrent processes, and resource allocation. Prerequisites: CCS 306 and CCS 340.

CCS 420 Operating System Concepts/3 sem. hrs. (CS 420) Methods of the analysis and design of large-scale systems, including concepts of semaphores, processes, memory address space, resource allocation, protection, basic topics in operating system development. Prerequisite: CCS 355.

CCS 425 Networks and Data Communications/3 sem. hrs. An introduction to basic communication concepts, terms, and types of transmission, multiplexing, line protocols, and switching techniques. The course also covers the details of public switched networks as well as local area networks, wide area networks, and OSI network environments. Prerequisite: requires senior standing.

CCS 430 Introduction to Robotics/3 sem. hrs. Principles and concepts of modern robotics and automated systems are developed: robot's intelligence, drive methods, motion control, software and hardware support. Prerequisite: requires senior standing.

CCS 445 Introduction to Digital Signal Processing/3 sem. hrs. Difference equations, discrete Fourier transforms and Fast Fourier Transform, frequency discrimination, filter design, signal analysis, estimation, signal modeling, optimum mean squared error filtering, and system identification. Prerequisite: requires senior standing.
CCS 453 Database Management/3 sem. hrs. Concepts and structures necessary to design and implement a database system, including logical and physical file organization and data organization techniques, data models, networks, data integrity and file security. Topics covered include logical and user's viewpoint, and techniques of database management. Prerequisites: CCS 340.

CCS 460 Systems Programming/3 sem. hrs. (CS 460) A study of various system programming techniques, hardware-software interface, software controlled hardware. A comparison of several existing computer systems will be made. Prerequisites: CCS 335 and CCS 340.

CCS 465 Introduction to Interactive Computer Graphics/3 sem. hrs. The principles of interactive computer graphics are presented. Emphasis will be placed on mastering the concepts of two-dimensional graphics including the basic transformations (scale, translate, rotate), perspective, hidden-line removal and hardware support devices. The two-dimensional concepts will be extended to include three-dimensional concepts including smoothing algorithms, animation, and a variety of related topics.

CCS 471 Advanced Microcomputer Applications Interfacing/3 sem. hrs. (CS 471) This course will deal with the hands-on use of a microcomputer utilizing word processor, spreadsheet, database interfacing with programming languages, and introduction to decision support systems, construction and export systems. Prerequisites: requires senior standing.

CCS 480 Introduction to Compilers and Interpreters/3 sem. hrs. (CS 480) An introduction to compiler/interpreter design. Topics include lexical analysis, parsing, intermediate code, final code generation, optimization, and error recovery. Prerequisite: CCS 320.

CCS 481 Ada Programming Language/ 3 sem. hrs. (CS 481) Fundamentals of Ada including details of its historical development and its similarities to Pascal. Emphasis on the special features of Ada including data abstractions, multitasking, exception handling, encapsulation, and generics. Prerequisites: CCS 340.

CCS 483 Advanced UNIX/3 sem. hrs. The advanced UNIX course expands CCS 180. Introduction to UNIX. Topics include advanced Bourne Shell and Korn Shell techniques. Also covered are advanced awk techniques, system calls in C, lex, yacc, ar, and make. Prerequisites: CCS 180 and CCS 340.

CCS 485 Theory of Computation/3 sem. hrs. (CS 485) Theoretical approach to computer science. Topics include correctness, automata and Turing machines, finite state machines, and grammars. Prerequisite: requires senior standing.

CCS 490 Directed Project in Computer Science/3 sem. hrs. (CS 490) A major project in computer science will be completed by the student under the direction of a faculty member. Prerequisite: requires senior standing.

CCS 493 Modern Digital Control Systems/3 sem. hrs. Sampling of continuous-time systems and discrete-time systems, analysis of discrete-time systems including process-oriented models and disturbance models, design methods, including translation of analog designs, state space methods, pole-placement methods, and input-output methods, with discussion of optimal design, identification, and adaptive control. Prerequisite: requires senior standing.

CCS 496 VLSI Design/3 sem. hrs. CMOS devices, transistor theory, processing technology, performance estimation with circuit design, system design using structured techniques, symbolic layout using MAGIC, automated tools, and requires simulation using SPICE. Prerequisite: senior standing.

CORE STUDIES IN LIBERAL STUDIES (COR)

COR 115 Society and Symbol/6 sem. hrs. An intensive experience of the arts in the context of their original culture. Students will be introduced to the notion of the dynamic relationship between a particular culture and its artifacts through an intellectual and aesthetic immersion in two cultural watersheds, Parthian Athens and Renaissance Florence (these may vary).

* COR 116 Change and Tradition/6 sem. hrs. An interdisciplinary study of the place of change and tradition in the individual and social and political history. Students will investigate the uses of growth as a metaphor in explaining personal change and historical transformations and focus on the nature of revolution and reaction in the transformative process.

* COR 118 Individual and Institutions/6 sem. hrs. A study of the nature of institutions and the reciprocal relationship between persons and institutions. Assumes special responsibility for the goal of developing a sense of social responsibility among students and faculty.

* COR 119 Human Nature and the Individual/6 sem. hrs. Investigates the vast human effort expended in pursuit of human nature. Through reasoned argument, empirical analysis, or imaginative creations, students of human nature have shared their visions. In this study, we draw on their contributions to enrich our understanding of humanity, others we know, and ourselves.

COR 120 Essence and Existence/6 sem. hrs. Philosophers and artists, and, more recently, psychologists have sought to discover the grounds governing the relation of human consciousness to the world. Since the early Greeks, thinkers have explored the relation of being to becoming essence to existence and consciousness to its object to explain the metaphysical, logical, and psychological relations that provide the possibility for human experience.

COR 217 Science, Technology, and Society/6 sem. hrs. The Science, Technology, and Society core study uses a thematic, interdisciplinary approach to accomplish its basic mission—to introduce students to some of the general processes and concepts of science and technology, analyze their historical context and philosophical implications, and evaluate the impact on society and the individual.

COR 220 Wealth and Poverty/6 sem. hrs. We find ourselves in a world in which at once exhibits extreme opulence and extensive poverty. Are we to understand social development within the context of this polarity? Is economic deprivation a necessary condition of the human experience? Do we look toward social organization or psychological restructuring to alter the reality?

COR 225 Nature's Planet/6 sem. hrs. The interrelationship of the various fields of science is most evident when applied to the earth — with ecology, geochemistry, and geophysics as just three of many examples. This study area will use those basic science concepts that cross disciplinary boundaries to explain and interpret the nature of our planet and its life forms.

COR 305 First, Second, and Third World/6 sem. hrs. A study of the dynamics of nation building within a comparative social and historical context. Students will study the processes and problems of emerging nations in the post-World War II era, and focus on perceptions, aspirations, and ideals of indigenous peoples of developing nations. The goal is to establish in the student a global consciousness.

COR 310 Leadership and Qualities of Greatness/6 sem. hrs. A study of the nature and role of leadership in sociopolitical movements and institutional contexts. Through analysis of the ideas set forth in the literature on this subject, students will seek the qualities which distinguish greatness and determine the place of the leader in history and the sociopolitical environment.
CORE STUDIES IN LIBERAL AND PROFESSIONAL STUDIES (CORE)

* CORE 141 Journey I: Introduction to the Undergraduate Experience/3 sem. hrs. This interdisciplinary course is the first course all freshmen will encounter at Nova. It provides an academic and social context for examining the intellectual and personal issues of the freshman experience.

* CORE 142 Human Nature, Human Behavior/3 sem. hrs. An examination of the biological and environmental influences that shape human behavior. An analysis of classic and contemporary sources will help the student think critically about basic theories and issues such as nature versus nurture, the mind-body dichotomy, cognitivism, behaviorism, and the scientific exploration of behavior.

* CORE 143 The Living Earth: An Environmental Perspective/3 sem. hrs. Students will study the science of ecology and the impact of humans on the environment. They will gain an understanding of the cause-and-effect relationships that operate in nature and the responsibility that must be assumed in order to ensure sustainability of the living earth.

* CORE 144 Other Visions, Other Worlds: Multicultural Perspectives/3 sem. hrs. This course examines the role of "world view," encourages an appreciation of different people and cultures, and fosters respect for diversity in local, national, and international environments.

* CORE 245 Individual and Social Systems/3 sem. hrs. A study of the nature of institutions and the reciprocal relationship between persons and institutions. Emphasizes in particular the goal of developing a sense of community and social responsibility among students and faculty.

* CORE 246 Economic Growth and Development/3 sem. hrs. An examination of theory, economic history, and policies which affect national and global economies. A wide variety of issues will be covered such as population, distribution of wealth, Third World debt, and global productivity.

* CORE 347 Ethical Systems/3 sem. hrs. An examination of ethical systems which stress in matters related to moral action, moral judgment, and responsibility. Ways of viewing contemporary issues such as abortion, euthanasia, and racial discrimination are among individual topics.

* CORE 448 Journey II: The Capstone Experience/3 sem. hrs. This course provides a context for the systemic examination and interpretation of the portfolio begun in Journey I, assisted by literature on personal ethnomethodology and self-assessment.

ECONOMICS (ECO)

ECO 201 Principles of Macroeconomics/3 sem. hrs. (CORE 121) A study of basic economic concepts, emphasizing analysis of the aggregate economy. Fundamental concepts of national income and its determination, economic fluctuations, monetary and fiscal policies, and economic growth. Students may not receive credit for this course and ECO 315.

ECO 202 Principles of Microeconomics/3 sem. hrs. The processes of price determination output and resources allocation in perfect and imperfect competition. Topics include labor economics, international trade and finance, and alternative economic systems.

ECO 315 Macroeconomics for Managers/3 sem. hrs. (ECO 203, 215) An examination of basic economic concepts emphasizing analysis of current economic issues of the aggregate economy. An historical overview of economic philosophers provides perspective to the modern emphasis. Students may not receive credit for this course and ECO 201.

ECO 421 Business Cycles and Forecasting/3 sem. hrs. (FIN 421) Emphasizes the aggregate fluctuations in business, tracing the main stages of development from upswing through prosperity to downturn. The theories of causcs of business cycles. How to describe the methods of measuring business cycles and forecasting the cyclical behavior with the aid of indicators. Prerequisite: ECO 201.

ECO 491-498 Special Topics/3 sem. hrs. Advanced topics in economics that are not included in regular course offerings. Specific content, possible prerequisites announced in the course schedule for given term. Students may rearrange for special topics covering different content.

EDUCATION (EDU)

EDU 141 Personal Career Development/3 sem. hrs. The process of career development applied to the student identifying vocational interests and aptitudes, obtaining information about occupations, gaining experiences through practice and cooperative education, and establishing career plans. Useful for students adjusting to the college role. Identical to MGT 141 and PSY 141.

EDU 203 Basic Skills Review/3 sem. hrs. A comprehensive course to broaden the student's knowledge base in the social sciences and the natural sciences and to strengthen reading comprehension and basic study skills through a basic review of those subject areas. Also covers are useful test-taking techniques and critical thinking skills in preparation for the ACT examination.

EDU 226 Administration of Early Childhood Programs/3 sem. hrs. A survey course identifying the responsibilities of early childhood administration and the competencies needed to discharge them successfully.

EDU 317 Instructional Materials/3 sem. hrs. Use of a variety of materials in an educational program, including literature, media, and independent learning materials.

EDU 322 Use of Microcomputers in the Classroom/3 sem. hrs. A course to prepare teachers for the use of microcomputers in the elementary and secondary instructional programs, featuring hands-on experiences in a laboratory setting.

EDU 340 Administrative Leadership and Decision Making for Early Childhood/3 sem. hrs. A review of various leadership styles and decision-making techniques as they apply to the administrator's responsibilities in finance and budget, program development and evaluation, and home and school relationships.

EDU 341 Curriculum Decisions for Early Childhood Programs/3 sem. hrs. Study of a curriculum and activities to meet the student population's needs, with subsequent decisions as to appropriate methods, necessary materials, and use of time and space. Leadership in staff development to implement the decisions is included.

EDU 342 Sociological Foundations of Education/3 sem. hrs. Study of major sociological changes of the past 50 years and their impact on education.

EDU 350 Teaching Styles and Student Achievement/3 sem. hrs. A survey of various teaching styles as used in presentations, activities, evaluations, and classroom relationships and their effect on student achievement.
EDU 351 Computer Applications for the Classroom Teacher/3 sem. hrs. A comprehensive view of conceptual understanding for computer use in education, technical skills for computer operation as it relates to elementary education, and application of computer skills and teaching techniques to content areas.

EDU 360 Substance Abuse Intervention in the Schools/3 sem. hrs. This course covers the classification and identification of drugs, as well as the behavioral criteria for recognizing alcohol and drug abuse. Attention is given to prevention, intervention, and counseling techniques, as well as legal issues related to student drug use. Also covered is the use of appropriate educational resources and services to assist students who show signs of alcohol or drug abuse. Identical to PSY 360.

EDU 361 Educational Strategies for Drug Prevention Programs/3 sem. hrs. This course focuses upon the spectrum of effective drug prevention programs. Appropriate instructional techniques for substance abuse will be covered, as well as an examination of the drug prevention resources available. In addition, methods for evaluating the effectiveness of drug education programs will be examined. Identical to PSY 361.

EDU 362 Drug Prevention and Education/3 sem. hrs. This course covers the classification and identification of drugs, as well as the behavioral criteria for recognizing alcohol and drug abuse. Specific attention is paid to prevention, education, and intervention strategies within the home, the school, and the community. Methods for evaluating the effectiveness of these strategies are also examined. Identical to PSY 362.

EDU 413 Instructional Use of Audio-Visual Materials/3 sem. hrs. A general course for teachers at all grade levels. Methods of using audio-visual materials on the instructional program. The selection, production, and evaluation of instructional materials and techniques for their inclusion in curricula.

EDU 417 Adolescent Literature/3 sem. hrs. A study of the type of literature available for the adolescent with an emphasis on resource selection and presentation. Students will examine ways of incorporating literature into the curriculum. Prerequisite: LAN 111.

EDU 419 Rhythm and Dance in Elementary Curricula/3 sem. hrs. This course is designed to prepare students to select and plan meaningful rhythm and dance experiences for elementary students.

EDU 430 Classroom Management of the Emotionally Disturbed/3 sem. hrs. A study of major theoretical models of emotional disturbance in children and specific classroom strategies suggested by each model. Prerequisite: EDU 435.

EDU 433 Identification and Remediation of Learning Disabilities/3 sem. hrs. A discussion of the nature and variety of learning disabilities, as well as techniques for their identification and remediation and for the assessment of learning potential. Prerequisite: EDU 435.

EDU 434 Learning Assessment/3 sem. hrs. Tests and measurements in the construction and evaluation of tests; methods and theories, including the use of test results, in curriculum selection.

EDU 436 Methods of Teaching Reading in Middle School/3 sem. hrs. Identifying reading skills, evaluating skills, and recognizing and diagnosing reading problems in middle school. A discussion of prescriptive methods and materials to increase the reading performance of students in the middle school.

EDU 441 Techniques of Corrective or Remedial Reading/3 sem. hrs. Techniques and instructions for the identification of problems of reading and a discussion of the prescriptive techniques for corrective or remedial procedures in reading. Prerequisite: EDU 352 or equivalent.

EDU 458 Classroom Management/3 sem. hrs. A study of the factors that contribute to classroom management, e.g., curricula, methods and materials, and student and teacher behavior.

EDU 452 Internship/9 sem. hrs. Comprehensive review and practical application of educational philosophy, methods, and strategy through a semester and a nine-week supervised student teaching assignment. Prerequisite: written consent of program director.

EDU 463 Principles of Coaching/3 sem. hrs. Emphasis on theory and practice in coaching sports.

EDU 464 Administration of Athletic Programs/3 sem. hrs. A study of the duties and responsibilities of the athletic director for the purpose of improving the athletic program.

EDU 468 Structural Linguistics/3 sem. hrs. A study of the structure of language, basic principles of linguistics. Survey of different approaches and techniques used in language study.

EDU 491-498 Advanced Special Topics/3 sem. hrs. Advanced topics in education that are not included in regular course offerings. Specific content and prerequisites are announced in the course schedule for a given term. Students may enroll for special topics covering different content.

EDU 499 Teaching Social Studies in Elementary Schools/3 sem. hrs. Study of content, including conservation of natural resources, methodology, program development, appropriate activities, and evaluation techniques for elementary social studies.

EDU 509 Teaching Science in Elementary Schools/3 sem. hrs. Content and methods for teaching science in the elementary school, "hands-on" approaches, resources, materials, and ideas drawn from the student's experiences will all be discussed. Prerequisite: PHY 101 or equivalent.

ELE 110 Introduction to Early Childhood Education/3 sem. hrs. Meeting the physical and intellectual needs of the preschool child. Characteristics of the learning environment conducive to safety and good health, as spelled out in state and local licensing procedures and rules for healthy living: a program to foster the growth of physical, affective, and cognitive competencies in the preschool child.

ELE 111 Introduction to Early Childhood Education/3 sem. hrs. Fostering language growth and the development of a health self-concept. Stages in language development and implementation to assure optimum growth for the individual child. Identification of the child's strengths and their potential contributions to their positive self-image.

ELE 112 Introduction to Early Childhood/3 sem. hrs. Promoting development through management skills and parent/community involvement. The child as a member of his school, home, and play group; principles of good management that contribute to an orderly, productive classroom setting; establishing mutual respect in teacher/parent relationships and an effective reporting procedure of a child's progress; teacher/staff relationships that assure a commitment to the goals of the center.

ELE 311 Teaching Social Studies in Elementary Schools/3 sem. hrs. Study of content, including conservation of natural resources, methodology, program development, appropriate activities, and evaluation techniques for elementary social studies.

ELE 312 Teaching Science in Elementary Schools/3 sem. hrs. Content and methods for teaching science in the elementary school, "hands-on" approaches, resources, materials, and ideas drawn from the student's experiences will all be discussed. Prerequisite: PHY 101 or equivalent.
ELE 313 Teaching Music in Elementary School/3 sem. hrs. Study of the fundamentals of music, contents of a music program, and special methods of teaching and using music in the elementary school curriculum.

ELE 314 Teaching Art in Elementary School/3 sem. hrs. Contents and methods of teaching art in the elementary school. Problems in the selection of materials and the evaluation of activities, as well as ideas and art projects will be included.

ELE 315 Health and Physical Education in Elementary School/3 sem. hrs. The curriculum, content, and methods in effectivel health education in the elementary school. Methods and materials for physical education.

ELE 316 Teaching Mathematics in Elementary School/3 sem. hrs. Content, materials, and methods for teaching mathematics in the elementary school. Prerequisite: MAT 133 and applied arithmetic test.

ELE 318 Teaching Language Arts/ 3 sem. hrs. Curriculum content, materials, and methods for teaching the language arts including, but not limited to, spelling, grammar, handwriting, composition, and children's literature.

ELE 331 Reading Skills in Elementary School/3 sem. hrs. An introduction to the teaching of reading in the elementary school, approaches to reading instruction; evaluation of reading skills. Prerequisite: Basic personal reading skills to be evaluated by the program.

ELE 332 Reading Evaluation/3 sem. hrs. Diagnosing reading problems, prescribing a variety of methods to increase reading ability. How to use a variety of approaches to the teaching of reading. Prerequisites: ELE 331 and basic personal reading skills to be evaluated by the program.

ELE 361 Special Methods of Early Childhood Education 1/3 sem. hrs. A study of various approaches to early childhood education.

ELE 362 Special Methods of Early Childhood Education II/3 sem. hrs. A study of the methods and materials in early childhood education with emphasis on the learning process. Kindergarten observation included in this course.

ENGLISH AS A SECOND LANGUAGE (ESL)

ESL 105 College Language Skills I/ 6 sem. hrs. A fundamental college course primarily for non-native speakers of English. Stress will be on the development of all English skill areas through techniques for critical reading and academic writing. Prerequisite: placement examination.

ESL 106 College Language Skills II/ 6 sem. hrs. An advanced college course primarily for non-native speakers of English. Refined and co-ordination of the English skill areas will be emphasized through techniques for note-taking and critical analysis of reading and reference materials. Prerequisite: ESL 105 or placement examination.

EXCEPTIONAL STUDENT EDUCATION (ESE)

ESE 406 Foundations of Mental Handicapped/3 sem. hrs. (EDU 406) A study of the nature and needs of educable, trainable, and profoundly mentally handicapped students ranging from kindergarten through high school. Topics include etiology, medical aspects, and prevention. Prerequisite: ESE 435.

ESE 407 Curriculum for Mentally Handicapped/3 sem. hrs. (EDU 407) Emphasis is on specialized curriculum needs of various levels and ages of mentally handicapped students. Topics include identification and application of effective practices, as well as recognition of trends and standards in the field. Prerequisite: ESE 435.

ESE 406 Classroom Procedures for Mentally Handicapped/3 sem. hrs. (EDU 406) Instructional strategies for teaching students who are mentally handicapped are discussed. The development, implementation, and evaluation of individualized educational plans are stressed. Special approaches to teaching functional skills, development of programmed instruction, and self-management of students ranging in age from kindergarten through high school are also discussed. Prerequisite: ESE 435.

ESE 409 Foundations of Emotional Handicapped/3 sem. hrs. (EDU 420) Information about the nature and needs of the emotionally handicapped with emphasis on etiology, prevention, intervention, and utilization of community services. Prerequisite: ESE 435.

ESE 429 Educational Programming for the Emotionally Handicapped/3 sem. hrs. (EDU 429) Instructional strategies for teaching students ranging in age from kindergarten to grade 12 who are emotionally handicapped will be discussed. Instructional techniques and motivational strategies, as well as development, implementation, and evaluation of individualized educational plans and self-management of students will be stressed. Prerequisite: ESE 435.

ESE 430 Classroom Management of the Emotionally Handicapped/3 sem. hrs. (EDU 430) Behavior management techniques for use with students from kindergarten to grade 12 who are emotionally handicapped will be discussed. Application of theories, crisis intervention and prevention, legal considerations, and counseling skills will be stressed. Prerequisite: ESE 435.

ESE 432 Precision Teaching and Behavior Modification/3 sem. hrs. (EDU 432) Specialized curriculum for emotionally handicapped students with emphasis on curriculum development and identification, evaluation, modification, and use of commercial materials and programs. Prerequisite: ESE 435.

ESE 433 Foundations of Learning Disabilities/3 sem. hrs. (EDU 433) A study in concepts, researches, and theories in specific learning disabilities. Topics include characteristics and classification of students and the continuum of services available. Prerequisite: ESE 435.

ESE 435 Survey of Education of Exceptional Children/3 sem. hrs. (EDU 435) Foundations of educational education in which historical perspectives, student characteristics trends, and issues are discussed. Emphasis is also placed on addressing programmatic needs from infancy through adulthood.

ESE 438 Educational Assessment of Exceptional Children/3 sem. hrs. (EDU 438) Assessment of exceptional students for instructional planning purposes is stressed. Topics include formal and informal evaluation techniques, as well as the interpretation, application, and communication of results. Emphasis is also placed on addressing programmatic needs from kindergarten through adulthood. Prerequisite: ESE 435.

ESE 439 Curriculum for Learning Disabilities/3 sem. hrs. (EDU 439) A study of specialized curriculum and instructional materials for teaching students with specific learning disabilities will be emphasized. Topics include curriculum standards and resources for students ranging in age from kindergarten through grade 12. Prerequisite: ESE 435.

ESE 440 Introduction to Language Development and Speech Disabilities/ 3 sem. hrs. (EDU 440) The study of language development and disorders, which includes the impact of language on learning and augmentative forms of communication. Individual needs and remediation concerns are addressed from early childhood to adulthood. Prerequisite: ESE 435.
ESE 444 Materials and Methods for Learning Disabled Children/3 sem. hrs. (EDU 444) Instructional strategies for teaching students with specific learning disabilities will be stressed. Specialized approaches to teaching basic skills and adaptation of curriculum and materials for students ranging in age from kindergarten through grade 12 will be discussed. Prerequisites: ESE 435.

ESE 450 The Gifted Student: Nature and Needs/3 sem. hrs. (EDU 450) A study of the characteristics of the gifted and talented, identification of procedures, and the utilization of assessed strengths and weaknesses to maximize educational and social growth.

ESE 451 Educational Procedures for the Gifted/3 sem. hrs. (EDU 451) A study of learning styles of the gifted and matching teaching strategies appropriate to their needs and interests with an attempt to parallel opportunities for cognitive and affective growth.

ESE 453 Vocational/Functional Life Skills/3 sem. hrs. (EDU 453) Personal and social skills for exceptional students with an emphasis on employability skills, career awareness, and transition planning for adult living. Emphasis is also placed on teaching major competencies necessary from kindergarten to late adulthood for vocational and social needs. Prerequisite: ESE 435.

ESE 455 Guiding and Counselling the Gifted Student/3 sem. hrs. (EDU 455) A study of basic counseling techniques to help the classroom teacher guide the gifted student toward optimum academic and social growth. Prerequisite: ESE 435.

ESE 458 Classroom Management of the Exceptional Student/3 sem. hrs. (EDU 458) Emphasis is placed on educational management of exceptional students and includes classroom organization and behavior management for students kindergarten through high school. Communication skills are also stressed. Prerequisite: ESE 435.

FINANCE (FIN)

FIN 455 International Finance/3 sem. hrs. International monetary systems, foreign exchange markets, exchange rates, international financial institutions, capital markets. Prerequisite: FIN 301.

FIN 491-498 Advanced Special Topics/3 sem. hrs. Advanced topics in finance that are not included in regular course offerings. Specific content and prerequisites are announced in the course schedule for a given term. Students may reenroll for Special Topics covering differing content.

FIN 501 Corporations Finance/3 sem. hrs. (FIN 501) Financial management as it applies to organizations. Ratio analysis, leverage, cash budgeting, capital structure, and other concepts of financial management applied to business organizations. Prerequisite: ACT 205.

FIN 511 Financial Management/3 sem. hrs. A continuation and expansion of Corporate Finance. Present value analysis, rate of return, and other techniques used in the evaluation of investment alternatives. Prerequisite: FIN 301.

FIN 515 Banking and Financial Institutions/3 sem. hrs. Nature of the operation in commercial banks, savings and loan associations, and savings banks. Structure and function of the loan, mortgage, bond, investment, trust, marketing, audit, and other departments within the institutions. Impact of federal and state agencies and their regulations upon these institutions.

FIN 531 Principles of Investments/3 sem. hrs. (FIN 331) Investment management is emphasized including financial statements and portfolio management. How to analyze financial statements, use rating services such as Moody's or Standard & Poor's, and compare growth and income investments. Prerequisite: ECO 201.

HISTORY (HIS)

HIS 103 American History to 1865/3 sem. hrs. (HIS 201), SSI 201) American history from its colonial origins through the Civil War. Special emphasis is given to analyzing and evaluating the major forces and ideas that have shaped American political, social, and economic life.

HIS 104 American History Since 1865/3 sem. hrs. (HIS 202), SSI 202) American history from Reconstruction to the present. Special emphasis is given to analyzing and evaluating the major forces and ideas that have shaped American political, social, and economic life.

HIS 105 The American Experience/3 sem. hrs. (HIS 105) An examination of several of the key structures and ideas that have shaped the development of the United States as a particular political, social, and cultural entity.
HUM 201 The Individual and Society/3 sem. hrs. (HUM 101) An interdisciplinary study of humanistic values and insights, focusing on the principal questions of the individual and his/her place in society. By drawing from thought in literature, drama, philosophy, and poetry, the course seeks to find the balance among the individual, his/her desires, and the requirements of society.

HUM 207 Literature and Politics/3 sem. hrs. A study of philosophical themes in a political nature that arise in works of literature. Such themes as the nature of justice, the democratic process, the nature of a political community, and the impact of the economy on social formations might be discussed.

HUM 208 Literature and Existentialism/3 sem. hrs. An examination of the major existentialist writers, including sources of existentialism found in earlier literature and philosophical movements. The course emphasizes existentialist themes in contemporary literature, and addresses the "Being and Becoming" in the world.

HUM 214 King Arthur in Legend and Art/3 sem. hrs. An exploration of the origins and development of the legend of King Arthur and the Knights of the Round Table in literature, art, music, and film from the Dark Ages to the 20th century.

HUM 218 Myth and Art/3 sem. hrs. (Formerly HUM 105) This course explores the relations between verbal and visual arts, focusing on the myths and epics of the early Mediterranean world and the literature and arts of later periods, such as the Renaissance and Baroque, when the classical myths were reexamined and reinterpreted.

HUM 220 Non-Western and Modern Art/3 sem. hrs. This course focuses primarily on Asian, Oceanic, African, and American arts, their discovery by the West and their effects on the development of 20th-century art.

HUM 221 Folklife/3 sem. hrs. The study of traditional culture, or knowledge, which is learned informally within groups and communities. Folkslore forms such as folk tales, myths, legends, ballads, customs, crafts, architecture, and food ways provide examples of how traditional culture functions in the lives of individuals and their communities. Identical to SOC 221.

HUM 230 Philosophical Issues/3 sem. hrs. (HUM 315) An examination of such classic philosophical issues as: what is the nature of the human individual; what is reality; how do we know; what is truth; what constitutes beauty; are our wills free or determined; does God exist and how would we know; what is the relation between mind and body?

HUM 231 Critical Thinking/3 sem. hrs. (HUM 320) A study of the basic conceptual tools needed to recognize, formulate, and evaluate arguments. Topics include inductive and deductive reasoning, truth and validity, semantics, definitions, fallacies, and paradoxes.

HUM 240 The Theatre Arts/3 sem. hrs. (HUM 217) Course focuses on the arts of the theatre including drama, music, dance, play production, with a study of plays representing major theatrical trends.

HUM 254 Introduction to Film Criticism/3 sem. hrs. (HUM 354) An examination of film as an art form. Topics include the "grammar" of film, film genre, the documentary, the avant garde film, and critical approaches to film. Prerequisite: LAN 111.

HUM 256 English Literature I/3 sem. hrs. A survey of English Literature from Beowulf through Shakespeare within historical, political, religious, and cultural context.

HUM 257 English Literature II/3 sem. hrs. A survey of English literature from the early 17th century to the present day, emphasizing major writers within their historical and cultural contexts.

HUM 260 Women and Law/3 sem. hrs. (HUM 314) This course examines sex-based discrimination in American society. It includes a historical and sociological analysis of the evolution of laws affecting women in employment, education, health/welfare, property ownership, and criminal justice. It also investigates public policy issues that affect women's lives. The course focuses on the role of the law to promote or hinder constructive social change. Identical to LGS 260.

HUM 263 Law and Popular Culture/3 sem. hrs. This course examines how the legal system is presented in various popular media, particularly film. Attention will be paid to the conflict between the aesthetic requirements, the medium in question, and actual practices of the legal profession. Identical to LGS 263.

HUM 264 Jurisprudence and Democracy/3 sem. hrs. Examination of the theory/practice of an independent judiciary within democratic government. Course will focus on role of judges in Anglo-American common law jurisdictions. Identical to LGS 264.

HUM 269 American Literature I/3 sem. hrs. An introductory survey of American writers from the colonial period, including Puritan and Revolutionary writers, through the Transcendentalists, up to the post-Civil War, including Whitman and Dickinson.

HUM 270 American Literature II/3 sem. hrs. The second half of the survey sequence examines American writers after the Civil War, 19th-century realists, and the 20th-century writers, including the Modernists through the contemporary poets; selections cover all genres.
HUM 271 Literature and Science/3 sem. hrs. This course examines the relationship between literature and science through discussion of the effect of scientific discovery on literary conventions, such as images of physicians, scientists, patients, experiments, and on literary forms, such as science fiction, poetry, or drama. Topics vary with each offering.

HUM 273 World Literature I/3 sem. hrs. This course introduces students to some of the great works of world literature from the age of Homer to the later Renaissance in England. Students are encouraged to view each work both as literary artifact and as the product of historical and social forces.

HUM 274 Literature and the Law/3 sem. hrs. This course investigates the use of lawyers, courts, trials, and components of jurisprudence in literature to illuminate themes examining morality. To analyze other legal issues, the course also studies censorship, and court battles affecting the production and sale of books.

HUM 303 Women's Study Practicum/3 sem. hrs. Experience working in student's major area or other area of interest that addresses or concerns itself with issues related to women. Identical to WMS 302.

HUM 305 Feminist Theory/3 sem. hrs. This course will study assumptions relative to gender issues, how we bring certain assumptions to our reading of text and in what ways we are influenced by them. This course will also address how gender-related assumptions shape the fields and professions of modern American society. Identical to WMS 305.

HUM 306 Women and Literature/3 sem. hrs. Works will be studied to acquaint students with the rich and extensive contributions of women to the various literary genres (autobiography, poetry, fiction). Identical to WMS 306.

HUM 310 The American Character/3 sem. hrs. (See 356) The nature of the American character within the context of modern personality theory, seeking the underlying social and historical forces that have shaped the American. An evaluation of character values expressed in certain strains of American philosophy and literature.

HUM 318 Biomedical Ethics/3 sem. hrs. (HCS 301) Surveys the concepts, issues, conflicts, and technical decisions with moral problems in health care: identification of problems health care professionals face in human, moral, and ethical conflicts. Offered in HCS only.

HUM 321 Ethics/3 sem. hrs. (Formerly Biblical and Moral Judgments) A philosophical examination of major problems in ethics, including such questions as: what makes an act morally right or wrong; what is the relation of fact to value; what things are intrinsically valuable? Other topics include moral responsibility; the good life; and contemporary moral issues such as abortion, euthanasia, racial discrimination, pornography, and animal rights.

HUM 322 Science and Modern Thought/3 sem. hrs. An examination of the role of science in the modern world, including the nature of the scientific object, the nature of the scientific method and scientific revolutions, the relation of scientific revolutions, the relation of science to other modes of knowing, and the relation of science to technology. Prerequisite: LAN 111.

HUM 323 Contemporary Latin American Fiction/3 sem. hrs. A survey of Latin American fiction from 1940 to present. Lectures in English; students may read books and write papers in English or Spanish. Prerequisites: LAN 113 or its equivalent. Identical to LAC 323.

HUM 326 Law and American Culture/3 sem. hrs. Explores the relationship of law to American culture at different historical moments. Emphasis placed upon the cultural values, world view; and assumptions of the culture as it shapes the legal mind. Identical to LG 326.

HUM 333 History of Political Thought I/3 sem. hrs. (HIS 310, HIS/LG 333, POL 330, POL 401) A study of the classic works of political philosophy from the ancient to the early modern period through the 19th century. (e.g., Plato, Aristotle, Machiavelli, Hobbes) with special attention being paid to the social, political, and economic environments from which these works emerged. Identical to HIS 333, LG 333, and POL 333.

HUM 334 History of Political Thought II/3 sem. hrs. A study of the classic works of political philosophy from the early modern period through the present (e.g., Locke, Rousseau, Mill, Marx, Dewey) with special attention being paid to the social, political, and economic environments from which these works emerged. Identical to HIS 334, LG 334, and POL 334.

HUM 351 Studies in American Literature/3 sem. hrs. Survey of American literature with emphasis on the growth of American thought as expressed in the writings of leading American authors.

HUM 353 Film as Literature/3 sem. hrs. Examines ways film creates narrative, metaphor, symbol, and other aspects of language. Includes viewing of representative films and reading of film criticism.

HUM 355 Irish Literature/3 sem. hrs. Survey of Irish myth, epic, romance, poetry, drama, and prose from Celtic Iron Age to present day, including both Gaelic works in translation and Anglo-Irish literature.

HUM 361 Literary Genre: The Novel/3 sem. hrs. This course will explore representative works/readings in a specific genre of literature, such as drama, poetry, novel, or some form of non-fiction (e.g., essay, autobiography, biography).

HUM 366 Philosophy of Law/3 sem. hrs. A critical examination of basic analytic and normative questions pertaining to law. Topics include the nature of law, law and morality, legal responsibility and legal excuses, civil disobedience, the justification of criminal punishment, and the discussion of cases in relation to principles. Identical to LG 366.

* HUM 375 Music Through History/3 sem. hrs. This course investigates the particular contributions of musicians and music in Western culture since the Middle Ages, including the basic structure of musical forms as well as the evolution of these forms.

* HUM 381 Art and Society/3 sem. hrs. This course examines the roles of the arts and artists in Western society, particularly from the Renaissance to the 20th century, including painting, sculpture, architecture, music, dance, and film. Students will gain a broad perspective on the different ways in which artists and art serve society.

HUM 400 Women in the Arts and Humanities/3 sem. hrs. A study of the particular contributions of women in the humanities, including art, literature, music, theater, film, and dance. Identical to WMS 400.

HUM 403 Women and Political Theory/3 sem. hrs. Through a study of theories of social change, this course will examine women's roles in liberation movements in the Third World. It will also explore what a "feminist consciousness" can contribute to political movements in our society. Identical to WMS 402.

HUM 405 Women and Science/3 sem. hrs. This course will look at issues in the literature of science concerning women, including the underrepresentation of women in the scientific profession and the possibility of "male bias" in the procedures of science itself. Identical to WMS 405.
LAN 100 Language Arts Lab/3 sem. hrs. A review of basic writing skills emphasizing usage and organization based on reading and writing assignments. To prepare students for LAN 211.

- **LAN 111 Critical Reading and Writing/3 sem. hrs.** Instruction in the principles and skills of effective expository writing with competence. Prerequisites: placement examination.

- **LAN 112 Critical Reading and Writing/3 sem. hrs.** A continuation of LAN 111 that includes argumentative writing and instruction in use of libraries. Course requires the student to develop a documented research paper. Prerequisite: LAN 111.

LAN 115 Communications I/3 sem. hrs. Emphasis on narrative, descriptive, and expository writing, as well as oral communication, in a competency-based, on-line computer environment.

LAN 120 Communications II/3 sem. hrs. Emphasis on argumentative writing and research techniques, as well as oral communication, in a competency-based, on-line computer environment. Opportunity to develop creative writing skills.

LAN 111 Elementary Spanish I/3 sem. hrs. Essentials of Spanish language with emphasis on grammar, vocabulary, writing, and oral skills. Introduction to Spanish culture.

LAN 112 Elementary Spanish II/3 sem. hrs. (LAN 121/122) Continuation of LAN 111. Essentials of Spanish language with emphasis on grammar, vocabulary, writing, and oral skills. Prerequisite: LAN 121 or equivalent.

LAN 113 Spanish Conversation I/3 sem. hrs. For students who want to acquire survival skills in Spanish to help them communicate with Spanish speakers. May be taken in conjunction with LAN 121 or LAN 122.

LAN 114 Spanish Conversation II/3 sem. hrs. Continuation of LAN 121. Further development of basic conversational skills. May be taken in conjunction with LAN 122 or LAN 221.

LAN 150 intensive English - Level I/3 sem. hrs. The beginning level of instruction in English as a foreign language. The course consists of classes in each of the three skill areas of the language—conversation, writing, and reading. It is designed for students who possess very limited or no knowledge of English. Offered only at Panama Center.

LAN 201 Fundamentals of Public Speaking/3 sem. hrs. (HUM 201) Training and practice in fundamentals of speech including methods of obtaining/organizing materials and presenting speeches effectively.

LAN 202 Theories of Argument and Debate/3 sem. hrs. Students will exercise analytical and critical thinking skills in assessing valid evidence and in constructing and refuting an argument in a debate form.

LAN 203 Dramatic Interpretation/3 sem. hrs. This course will enable students to practice the use of voice and gesture as they relate to stage dialogue. Excerpts from stage monologues, dramatic readings, actual participation in theatrical productions, and an introduction to modes of writing may be included.

LAN 211 Intermediate Expository Writing/3 sem. hrs. A workshop course for students seeking to extend their command of exposition, argumentation, and persuasion and their mastery of prose style. Prerequisite: LAN 112.

LAN 215 Argumentative Writing for Business/3 sem. hrs. A writing course designed to introduce the student to various argument strategies appropriate to the business environment. Particular attention will be paid to the relative value of inductive and deductive forms of argument as well as an understanding of the differing forms of argumentative fallacies. Practice in the use of various rhetorical devices to enhance and sustain agreement.

LAN 221 Intermediate Spanish I/3 sem. hrs. (LAN 221/222) Readings in Spanish literature and culture. Study of Spanish idioms and syntax. Further development of oral and written Spanish. Prerequisite: LAN 122 or equivalent.

LAN 222 Intermediate Spanish II/3 sem. hrs. Continuation of LAN 221. Readings in Spanish literature and culture. Study of Spanish idioms and syntax. Further development of oral and written Spanish. Prerequisite: LAN 221 or equivalent.

LAN 223 Intermediate Spanish Conversation/3 sem. hrs. For students with intermediate-level Spanish reading and writing competency who wish to increase their speaking and comprehension skills. May be taken with LAN 222, LAN 323, or LAN 324.

LAN 250 Intensive English - Level II/3 sem. hrs. Lower intermediate level of instruction in English as a foreign language. Course consists of classes in the three skill areas of the language; designed for students who already possess certain minimal skills in English. Offered only at Panama Center.

LAN 291-2999 Special Topics/3 sem. hrs. Topics in language that are not included in regular course offerings and may be taken without prerequisites. Specific content is announced in the course schedule for a given term. Students may enroll for special topics covering different content.

LAN 301 Oral Interpretation/3 sem. hrs. (HUM 205) Relation of appreciation of literature and oral interpretation; evaluation and analysis of selections of prose and poetry from the viewpoint of oral reading; basic techniques of reading aloud. Prerequisite: LAN 201.

LAN 303 Creative Writing: Poetry/3 sem. hrs. An examination of the fundamentals of writing poetry; learning to use metrical language and seeking the universal in individual human experience. Students will read a wide variety of contemporary poems and will attempt to develop their own poetic language. Prerequisite: LAN 111.

LAN 311 Writing for the Professions/3 sem. hrs. (formerly Business Communication) A survey of English composition skills and their applications to various writing assignments. The course emphasizes the selection and employment of appropriate styles for functional uses of written communication. Includes writing competency exam and research paper. Prerequisite: LAN 111.

LAN 312 Public Communication for the Professions/3 sem. hrs. Emphasis on public communication skills required of the person in business or other professions. Topics include public speaking, conference speaking, visual and audio aides, listening, and public interviews. Prerequisite: LAN 311.
LAN 324 Introduction to Spanish Literature 3 sem. hrs. Selected masterworks of Spanish and/or Latin American literature read in the original and critically analyzed in Spanish. Prerequisite: LAN 222 or equivalent.

LAN 350 Intensive English - Level III/3 sem. hrs. The higher intermediate level of instruction in English as a foreign language. The course consists of classes in the three skill areas of the language and is designed for students who possess more than minimal skills in English. Offered only at Panama Center.

LAN 450 Advanced English - Level IV/3 sem. hrs. Advanced level of instruction in English as a foreign language. The course consists of classes in the three skill areas of the language and is designed for students who already possess average skills in English. Offered only at Panama Center.

LAN 491-498 Advanced Special Topics/3 sem. hrs. Advanced topics in language that are not included in regular course offerings. Specific content and prerequisites are announced in the course schedule for a given term. Students may also enroll in Special Topics covering different content.

LATIN AMERICAN AND CARIBBEAN STUDIES (LAC)

LAC 213 Latin American and Caribbean Studies 1/3 sem. hrs. (HIS 213) Ancient America to the Mexican Revolution: an interdisciplinary study of ancient American and Latin American systems and societies. The course examines ways in which essential elements of indigenous cultures have impacted upon the development of Latin American political, social and economic institutions; the impact of European history and socio-economic systems upon the discovery, colonization and development of Latin American nations; the legacy of Spanish and Portuguese colonialism to emerging Latin American states; and the major goals and consequences of 19th-century neocolonialism.

LAC 214 Latin American and Caribbean Studies 1/3 sem. hrs. (HIS 214) The 20th and 21st Centuries: using Latin America and the Caribbean as a focal point, the course provides an interdisciplinary overview of contemporary Latin American systems and societies and their place in a rapidly changing, increasingly interdependent world. Topics discussed will include the causes and goals of revolution in Latin America, Latin American debt and development, U.S.-Latin American relations, and a new hemispheric order for the 21st century.

LAC 240 Comparative Legal Systems/3 sem. hrs. A study of the interrelationship between cultures and legal systems; how legal systems develop as a response to and expression of the cultures from which they derive. Identical to LGS 240.

LAC 250 Global Diversities: Issues and Perspectives/3 sem. hrs. (HIS 250) The course examines some of the increasingly complex and diverse issues confronting humanity. It looks at the broad, historical forces that are at work shaping the world of the 21st century and presents and analyzes a wide variety of ideologies and theories. Students are encouraged to view global issues from an international perspective, rather than from a purely American or Western point of view. They examine the great diversity of opinions that people hold on important global issues, such as population, natural resources, development, conflict and cooperation, and human rights and values.

LAC 261 Cultural Minorities and the Law/3 sem. hrs. A study of the position of traditional and black societies within the legal systems of American nations. Topics to be discussed will include the relationship between American Indians and American justice, the legal position of blacks in American societies, and the legal position of Mexican-Americans in North American society from 1848 to present. Identical to LGS 261.

LAC 314 African Studies/3 sem. hrs. (HIS 314) African Traditions and the Challenge of Modern Development: an interdisciplinary overview of traditional African systems and societies and their impact upon the development of political, social, and economic institutions; the legacy of European colonialism in emerging African nations; the challenges of development in the 20th and 21st centuries.

LAC 323 Contemporary Latin American Fiction/3 sem. hrs. A survey of Latin American fiction from 1840 to present. Lectures in English; students may read books and write reports in English or Spanish. Identical to HUM 323.

LAC 325 Emerging Nations/3 sem. hrs. (HIS 325) The Challenge of Development in Southeast Asia and Latin America: using selected Southeast Asian and Latin American nations as focal points, the course provides an interdisciplinary overview of systems and societies in two distinct regions of the world and their relationship to past and future development. The goal of this course is to establish in the student a hemispheric and global consciousness.

LAC 411 The Economic Crisis in Latin America/3 sem. hrs. This course is intended for a broad student audience. Students acquire a basic knowledge of the debt problem in Latin America and its implications for the future economic and political well-being of the world. Origins of the problem are examined; outlooks and prescriptions for the future are explored.

LAC 458 Preparation for Field Study/3 sem. hrs. Course consists of six preparatory seminars on the Nova College campus and a two-week cultural/archaeological tour of the Maya heartland. Seminar topics and texts will prepare students for total immersion into rural Mayan life and thought and ancient and modern Maya culture. This course is a necessary prerequisite for LAC 486: Field Study in Latin America. Credit for LAC 458 as a core course can only be granted upon completion of LAC 486.

LAC 486 Field Study in Latin America/6 sem. hrs. (Soc 485-488) A field experience relating to selected topics in Latin American and Caribbean Studies. Specific content and prerequisites are announced in the course schedule for a given term. Students may enroll in Field Study experience covering different topics and cultures. Prerequisites: LAC 458.

LAC 2900-3000 Special Topics in Latin American and Caribbean Studies/3 sem. hrs. Topics in Latin American and Caribbean Studies that are not included in regular course offerings. Specific content and prerequisites are announced in the course schedule for a given term. Students may enroll for special topics covering differing content.

LEGAL ASSISTANT/ PARALEGAL STUDIES (LEG)

LEG 215 Introduction to Law and Legal Profession/3 sem. hrs. Topics will include the structure and decisional processes of the American legal system, sources of law, methods of dispute resolution, the roles of the attorney and the legal assistant, legal analysis, interviewing techniques, and ethics for legal assistants. This course is not required for those students who have taken LGS 201.
LEG 211 Computer Applications for the Legal Profession/3 sem. hrs. Theory and application of programs for computer systems that are used in the legal profession. Hands-on experience with microcomputers and specialized software utilized by the legal profession. Prerequisite: LEG 121 or CAP 111 or permission of the coordinator.

LEG 350 Business Relations and Organizations/3 sem. hrs. Topics will include contracts (the essential elements, defenses to enforceability, third party beneficiaries, and assignee); the Uniform Commercial Code, sole proprietorships, general and limited partnerships, and corporations. This course is not required for those students who have taken BUS 215 and BUS 216.

LEG 340 Litigation and Civil Procedure/3 sem. hrs. Topics will include evidence, the rules of civil procedure, discovery, jury selection, pre-trial work, and collection of judgments. Students will prepare pleadings and interrogatories for a lawsuit. Prerequisite: LEG 215 or LGS 201 or permission of coordinator.

LEG 435 Wills, Trusts, and Estates/3 sem. hrs. Topics will include intestacy, wills, trusts, durable powers of attorney, living wills,uddy substitut ?, probate, estate administration, and taxation of gifts and estates. Students will prepare wills and estate administration documents. Prerequisite: LEG 215 or LGS 201 or permission of coordinator.

LEG 450 Family Law/3 sem. hrs. Topics will include prenuptial and postnuptial agreements, marriage, dissolution, equitable distribution, alimony, shared parental responsibility, child support, property settlement agreements, adoption, and juvenile law. Students will prepare petitions and other documents related to the foregoing topics. Prerequisite: LEG 215 or LGS 201 or permission of coordinator.

LEGAL STUDIES (LGS)

LGS 201 Law in Action: Introduction to Legal Reasoning/3 sem. hrs. Introduction to the structure and basic decisional processes of the American legal system. Course material examines the central issues and processes of the legal system in the perspective of their everyday working relationships, courts work, how to read and understand statutes, and analyzing constitutional law. Prerequisite: LAC 215 or LGS 201 or permission of coordinator.

LGS 210 The Legal Profession/3 sem. hrs. (LGS 310) A study of the historical and social development of the legal profession in America from the colonial period to the present with emphasis on the structure of legal education, ethical standards, and the public policy role of lawyers.

LGS 240 Comparative Legal Systems/3 sem. hrs. Emphasis on the interaction between cultures and legal systems; how legal systems develop as a response to and expression of the cultures from which they derive. Identical to LAC 240.

LGS 260 Women and Law/3 sem. hrs. (LGS 314) This course examines sex-based discrimination in American society. It includes a historical/sociological analysis of the evolution of laws affecting women in employment, education, health and welfare, property ownership, and criminal justice. It also investigates public policy issues that affect women's lives. The course focuses on the role of the law to promote or hinder constructive social change. Identical to HUM 260.

LGS 261 Cultural Minorities and the Law/3 sem. hrs. A study of the position of traditional and black societies within the legal systems of American nations. Topics to be discussed will include the relationship between American Indians and American justice, the legal position of blacks in American societies, and the legal position of Mexican-Americans in North American society from 1848 to present. Identical to LAC 261, HIS 261.

LGS 262 Children and the Law/3 sem. hrs. A survey on the philosophical, sociological, and legal doctrines that control the legal status of children in society. Course covers the topics of delinquency, dependency, neglect, abuse, and special educational needs. Identical to HUM 262.

LGS 263 Law and Popular Culture/3 sem. hrs. This course examines how legal systems are presented in various popular media, particularly film. Attention will be paid to conflict between the aesthetic requirements of the medium and questions of actual practice of the legal profession. Identical to HUM 263.

LGS 264 Jurisdiction and Democracy/3 sem. hrs. Exploration of theory and practice of an independent judiciary within democratic government. The course will focus on the role of judges in Anglo-American common law jurisdictions. Identical to HUM 264.

LGS 266 The Law and Psychology/3 sem. hrs. This course will cover various issues that arise when the field of psychology intersects with the field of law. The issues range from the psychology of courtroom demeanor to more overt legal issues such as the insanity defense, involuntary civil commitment, liability of psychotherapists to civil commitment, liability of psychotherapists to hospital patient confidentiality, and other due process rights. Identical to PSY 267.

LGS 281 Practicum in Community Law/1-3 sem. hrs. Experience in applying legal studies in the community through placement in a law or law-related work experience. Supervision on site and by the Academic Division. Credits earned may not be applied to LGS 450. Prerequisite: LGS 201 and written approval of the coordinator of legal studies major.

LGS 301 Constitutional History I/1-3 sem. hrs. A study of the origin and development of the American constitutional system from the colonial period to 1870. The course will examine seminal decisions of the United States Supreme Court during this period in their political, social, and economic context. Prerequisite: HIS 205, LGS 201. Identical to HIS 301.

LGS 302 Constitutional History II/3 sem. hrs. Continuation of the study of the constitutional system of the United States. The course covers the period 1870 to the present with special emphasis on Supreme Court decisions in the areas of federal-state relations, individual liberties, and civil rights. Prerequisite: LGS 301. Identical to HIS 302.
LSC 340 Microbiology/Lab/4 sem. hrs. *Introduction to bacteria of morphology, metabolism, growth, genetics, immunization, control and public health aspects of bacteria and viruses with emphasis on marine processes and types. Includes laboratory sessions. Prerequisite: PHY 231.

LSC 357 The Psychology and Physiology of Substance Abuse/3 sem. hrs. *Psychology and physiology of alcohol and drug use and the psychological effects of psychoactive drugs. The nature of addiction and the disease concept, diagnostic criteria for chemical dependency, and the physical and psychiatric disorders related to substance abuse. Identical to PSY 357.

LSC 360 Genetics/Lab/4 sem. hrs. Review of principles of Mendelian and quantitative inheritance considered at the morphological and molecular levels including a survey of population genetics and theories of natural selection and the study of amino acids and nucleotide substitutions as "evolutionary clocks." Prerequisite: PHY 231.

LSC 400 Introduction to Hearing, Speech, and Language Disorders/3 sem. hrs. *Understanding of speech, language and hearing disorders, their classification, manifestation and etiologies. Identical to SLP 400.

LSC 405 Philosophy and Ethics of Science/3 sem. hrs. *An examination of historical and contemporary scientific and philosophical sources to analyze the value commitments underlying the methodology, practice and social impact of science.

LSC 410 Neuroanatomy and Physiology/3 sem. hrs. *Introduction to anatomy and physiology of developing and mature human nervous system. Identical to SLP 410.

LSC 435 Cellular and Molecular Biology/Lab/4 sem. hrs. *Study of the subcellular architecture and function, growth, and reproduction of prokaryotic and eukaryotic cells. Includes laboratory sessions. Prerequisite: PHY 231.

LSC 440 Developmental Biology/Lab/4 sem. hrs. *Principles of human cellular differentiation, morphogenesis, and development with comparisons to lower animal forms.

LSC 445 Biochemistry/Lab/4 sem. hrs. *Chemistry of proteins, lipids, carbohydrates, and nucleic acids; principles in enzymology, metabolism, and bioenergetics. Prerequisite: PHY 231.

MANAGEMENT (MGT)

MGT 141 Personal Career Development/3 sem. hrs. *The process of career development applied to one's self-identifying vocational interests and aptitudes, obtaining information about occupations, gaining experience through practica and cooperative education, and establishing career plans. Useful for students adjusting to the college role. Identical to EDU 141 and PSY 141.

MGT 265 Principles of Management/3 sem. hrs. (BUS 111, 205) *An overview of historical development of management theory, the distinctive schools of management thought, the functions and processes of management, and the environment within which the modern manager operates.

MGT 251 Supervisory Skills/3 sem. hrs. (BUS 251) *A study of the fundamentals of supervision. Leadership styles, responsibility, and authority and how they relate to efficient supervision.

MGT 260 Public Policy and Its Administration/3 sem. hrs. (POL 360) *The nature and scope of public administration: principles, social provision, assistance to various groups, governmental budgeting, and regulation of business. Bureaucratic organization, administration relationships, and policy making are also included.

MGT 291-299 Special Topics/3 sem. hrs. *Topics in management that are not included in regular course offerings and may be taken without prerequisites. Specific content is announced in the course schedule for a given term. Students may enroll for special topics covering different content.

MGT 302 Organizational Communication/3 sem. hrs. *Survey course of communication in organizations. Topics covered are formal and informal communication networks, communication roles, organizational barriers to effective communication. Skills-building emphasis.

MGT 307 Stress Management/3 sem. hrs. *This course examines the process and complexities of stress management, its impact on the work place, and the overall quality of work life in an organization. Stressful events and conditions will be presented and analyzed from three perspectives: individual vulnerability to stressors, the environment in which that vulnerability is exposed to stressors, and the resulting behavioral symptoms. Identical to MGT 492.

MGT 315 Personnel Administration/3 sem. hrs. (BUS 231, 315) *Modern personnel policies, techniques, and methods. The development of sound wage and salary structures; the development of valid standards of personnel selection and placement; the use of psychological testing; interviewing techniques. Prerequisite: MGT 265.

MGT 317 Organization Behavior/3 sem. hrs. (BUS 241, 317) *An overview of the informal, people-centered aspects of organization. Topics include motivation, leadership style, and various human relations-oriented theories. The interaction of the individual and the organization as a dynamic interplay that affects total organizational effectiveness. The role of effective communication in the organization. Prerequisite: MGT 265.

MGT 355 International Management/3 sem. hrs. *The context of international management, organization of multinational firms, cultural and environmental issues. Organizational problems in international operations. Planning and control, international financial management, international personnel management, relations with host governments, comparative management. Prerequisite: BUS 355, MGT 265.

MGT 356 Substance Abuse in Business and Industry/3 sem. hrs. *Scope and cost of alcohol and other drug-related problems in American business and industry today, and the role of managers and supervisors in dealing with these problems. The formulation of company policies regarding substance abuse, effective educational and intervention programs, and strategies for implementing these. Identical to PSY 356.

MGT 366 Management Information Systems/3 sem. hrs. (BUS 300) *Course offers a broad coverage of computer use, database management, information system fundamentals for managers living in an increasingly complex information society.

MGT 377 Production and Inventory Control/3 sem. hrs. *Analysis of production systems, materials flow networks, methods of control, and forecasting of market and resource activities. Examination of criteria for determining output, pricing (economic order quantities and capital cost), investment (capital budgeting), cost of production, and cost functions.

MGT 388 Operations Management/3 sem. hrs. *Management of operations within the manufacturing sector, control of production operations, maintenance of quality of output and techniques for planning, and scheduling manufacturing operations. Prerequisite: MGT 377.

MGT 401 Health Care Organization and Administration/3 sem. hrs. (HCS 401) *An examination of health care organization in the U.S. from a systems perspective. Administrative implications of the various types of health care organization models. Offered in HCS only.

MGT 402 Legal Aspects of Health Care Administration/3 sem. hrs. (HCS 402) *A study of legal liabilities and responsibilities of health care institutions and professionals, federal, state, and local laws for the regulation and control of health services and facilities. Offered in HCS only.
MKT 415 Legal Environment of Management/3 sem. hrs. A macro law course emphasizing public law and regulation of business. Examines relationships such as employer-employee, labor-management, debtor-creditor, and buyer-seller.

MGT 425 Human Resource Management/3 sem. hrs. (BUS 415, 425, 441) A capstone course in the behavioral management area that is in a seminar format. Topics to be covered are the HRM function in organizations, with specific emphasis on training, development, and career planning of employees; stress management; labor relations and negotiations. Prerequisite: MGT 315, 317.

MGT 435 Labor Relations/3 sem. hrs. An examination of labor relations in depth covering collective bargaining, contract negotiation, contract administration, mediation, and arbitration. Includes an in-depth examination of labor legislation. Prerequisite: MGT 315.

MKT 440 Business Communications/3 sem. hrs. Study of strategy and implementation of effective written and oral business communications. Topics include persuasive messages, delivery of good news and bad news, sales letters, collection messages, design of business reports and oral presentations, use of visual aids, and effective memos. Prerequisite: LAN 111. Identical to BUS 302.

MKT 491-498 Advanced Special Topics/3 sem. hrs. Advanced topics in management that are not included in regular course offerings. Specific content and possible prerequisites are announced in the course schedule for a given term. Students may reenroll for Special Topics covering different content.

MKT 321 Advertising and Sales/3 sem. hrs. (MKT 311, 483) Introduces the basic principles and concepts of marketing communication. Focuses on the development/implementation of effective advertising campaigns and sales promotional plans for firms utilizing on a local, regional, and national basis. Prerequisite: MKT 101.

MKT 353 International Marketing/3 sem. hrs. (MKT 255, 492) The scope of international marketing, the structure of multinational markets, foreign markets research, international advertising and promotion, international distribution channels, international product policy, international pricing policy, export/import management. Prerequisite: BUS 303, MKT 101.

MKT 431 Consumer Behavior/3 sem. hrs. The analysis of the effectiveness of various marketing strategies in terms of the desired consumer responses. The push-versus-pull strategy, the selling approach versus the marketing approach, and other topics. Prerequisites: MKT 317, MKT 101.

MKT 455 Export/Import Marketing/3 sem. hrs. (Ad 355) Managing the export/import department; government regulations affecting imports and exports; financing, insuring, transporting, and marketing of exported or imported raw materials and finished products; methods of purchasing foreign products and selling domestic goods abroad; joint marketing; licensing, distributor relations. Prerequisite: MKT 353.

MKT 471 Marketing Strategy/3 sem. hrs. (MKT 451, 452, 453, 481) The planning, organization, implementation, and control of marketing activities from the viewpoint of the marketing executive. Topics include strategic planning and policy formulation; the use of marketing research; test marketing of products and intercompany coordination of pricing, promotion, and physical distribution strategies. Prerequisites: MKT 301, 311.
MAT 115 Topics in Mathematics II/3 sem. hrs. A continuation of MAT 110 beginning with linear programming and continuing with geometry network theory, probability, and statistics. In addition, the sequence MAT 110/MAT 115 includes all CLAST objectives, and students needing CLAST are urged to register for it as soon after completing MAT 115 as possible. Prerequisite: MAT 110.

MAT 120 Precalculus II/3 sem. hrs. This is the first course in the two-course sequence designed for the student who has a strong high school mathematics background. Students will study Fundamental Concepts of Algebra, Equations and Inequalities, Functions and Graphs, and Polynomial, Rational, Exponential and Logarithmic Functions. Prerequisite: placement examination requirements satisfied.

MAT 125 Precalculus II/3 sem. hrs. This is the second course in the two-course sequence designed for the student who has a strong high school mathematics background. Students will study Trigonometric Functions, Analytic Trigonometry, Applications of Trigonometry, Systems of Equations and Inequalities, and Sequences and Series. Prerequisite: MAT 120.

MAT 133 Mathematical Way of Thinking/3 sem. hrs. (COR 133, 101B) An introduction to sets, logic, number system, geometry, and probability and statistics. In addition, the sequence MAT 102/MAT 133 includes all CLAST objectives, and students needing CLAST are urged to register for it as soon after completing MAT 115 as possible. Prerequisite: MAT 102.

MAT 143 Geometry/3 sem. hrs. Plane Euclidean geometry starts with a vocabulary of terms, definitions, and postulates, works its way into direct and indirect proofs, and finishes with similar figures, triangles, circles, and areas. The study of coordinate, solid, and non-Euclidean geometrics will be left as an option (directed study) to the interested individual student. Prerequisite: MAT 105 or MAT 120.

MAT 150 Precalculus/3 sem. hrs. Review of algebra, trigonometric functions, graphs of functions, logarithms, exponents, functions of the natural number. Introduction to calculus, concept of limits, integrals. Prerequisite: placement examination requirements satisfied. Introduction to derivatives of trigonometric functions, logarithmic functions, application of derivatives to physics' problems, related rates and maximums/minimums problems, definite and indefinite integrals with applications. Prerequisite: MAT 150 or MAT 125.

MAT 151 Calculus I/3 sem. hrs. MAT 151 is the first course in a two-course sequence designed for the student who has a strong high school mathematics background. Students will study Fundamental Concepts of Algebra, Equations and Inequalities, Functions and Graphs, and Polynomial, Rational, Exponential and Logarithmic Functions. Prerequisite: placement examination requirements satisfied.

MAT 152 Calculus II/3 sem. hrs. MAT 151 is the first course in a two-course sequence designed for the student who has a strong high school mathematics background. Students will study Trigonometric Functions, Analytic Trigonometry, Applications of Trigonometry, Systems of Equations and Inequalities, and Sequences and Series. Prerequisite: MAT 120.

MAT 200 Fundamentals of Calculus I/3 sem. hrs. Includes a review of algebra and a complete discussion of differentiation and its applications including curve sketching, related rates and other applications to business, life science, and other disciplines. Exponential and logarithmic functions are also covered. This course cannot replace MAT 210. Prerequisite: MAT 120.

MAT 210 Calculus I/3 sem. hrs. (MAT 210) Functions, limits, derivatives of algebraic functions. Introduction to derivatives of trigonometric functions, logarithmic functions, application of derivatives to physics' problems, related rates and maximums/minimums problems, definite and indefinite integrals with applications. Prerequisite: MAT 150 or MAT 125.

MAT 220 Calculus II/3 sem. hrs. (MAT 220) Riemann sums, the definite integral, methods of integration, applications of exponential, logarithmic functions, inverse trigonometric functions. L'Hospital's rule and improper integrals. Prerequisite: MAT 210.

MAT 303 Applied Statistics II/3 sem. hrs. (MAT 303) Applied statistics and experimental design are covered. Course material includes hypothesis testing and estimation, analysis of variance, multiple comparison procedures, linear and multiple correlation and regression methods, chi-square tests, nonparametric techniques, elementary design of experiments. Stress will be placed on interpreting studies which employ these techniques. Prerequisite: MAT 301.

MAT 310 Probability and Statistics/3 sem. hrs. (MAT 310) Probability function, random events, expectation, conditional probability distribution functions, foundations of statistics. Prerequisite: MAT 310.

OCEANOGRAHPY (OCE)

OCE 250 Introductory Oceanography/3 sem. hrs. (OCE 350) Study of the physical and life sciences as they apply to the oceans. Oceanographic sampling, laboratory analysis techniques are covered.
OCE 400 Oceanography Seminar I/II 1 sem. hr. Participation in the science seminar series at the Nova Oceanographic Center. Intended for ocean studies majors during the last quarter of their sophomore year.

OCE 401 Oceanography Seminar III/IV 1 sem. hr. Participation in the science seminar series at the Nova Oceanographic Center. Students present a 15-20 minute seminar on their research. Intended for last quarter of junior year. Prerequisite: OCE 400.

OCE 402 Oceanography Seminar V/VI 1 sem. hr. Participation in the science seminar series at the Nova Oceanographic Center. Students present a 15-20 minute seminar on their research. Intended for last quarter of the senior year. Prerequisite: OCE 401.

OCE 450 Directed Research Project I/II 2 sem. hrs. Initiation of laboratory or field research in marine biology/ecology under the direction of an advisor.

OCE 451 Directed Research Project III/IV 2 sem. hrs. Continuation of laboratory or field research in marine biology/ecology. Prerequisite: OCE 450.

OCE 452 Directed Research Project V/VI 2 sem. hrs. Completion of laboratory or field research in marine biology/ecology. Cumulating with a thesis. Prerequisite: OCE 450.

PERSONAL GROWTH AND DEVELOPMENT (PGD)

PGD 101 Personal Adjustment 3 sem. hrs. This course focuses upon personal growth and development. Various means of acquiring self-understanding are explored, as are a number of important life-management and interpersonal skills.

PHYSICAL SCIENCES (PHYS, PHY)

PHY 103 Concepts in Physical Science 3 sem. hrs. (COR 131, SCI 2018) Interactions of the geosphere-hydrophere-atmosphere are used as a means of exploring basic concepts in physical science. Emphasis is on scientific processes and skills with an equal mix of field experiences, readings, and class participation. Prerequisite: MATH 102.

PHY 103 Introduction to Geology 3 sem. hrs. An introductory course that will provide an understanding of the earth's composition and structure, an explanation of the processes that affect the earth and the resulting features, a description of the physical evolution of the major mountains and oceans, a description of biological evolution in relation to ancient geologic environments, and an analysis of earth's resources and implications for the future.

PHY 104 Environmental Studies 3 sem. hrs. Overview of environmental science that integrates social, economic, technical, and political issues. Problems of ecological disruptions, growth of human populations, land use, energy, nuclear power, food supplies, pesticides, and pollution are covered. Identical to LSC 104.

PHY 105 Introduction to Chemistry 3 sem. hrs. Nonlaboratory course that presents an introduction to the elementary principles of chemistry. A study of the structure of matter and the transformation it undergoes.

PHY 106 Introduction to Oceanography 3 sem. hrs. Examination of the physical, chemical, biological, and geological properties of the world ocean will be conducted. The interdisciplinary approach will introduce concepts important in understanding the development and current status of oceanographic research for the non-science major.

PHY 107 Introduction to Astronomy 3 sem. hrs. An introduction to astronomy that examines in detail both the solar system and the universe. Topics include fundamentals and history of astronomy, study of the earth, moon, planets, and optical instruments used in astronomy. In addition, the sun, stars, galaxies, and cosmology are examined.

PHY 201 Applied Physics Lab I/II 3 sem. hrs. First of a two-part laboratory session which covers mechanics, thermodynamics, vibrations and waves. Prerequisite: MATH 150 or precalculus equivalent.

PHY 202 Applied Physics Lab III/IV 3 sem. hrs. Second of a two-part laboratory session which covers electricity and magnetism, optics and modern physics. Includes laboratory sessions. Prerequisites: PHY 201, MATH 150, or precalculus equivalent.

PHY 205 Physical Geology/Lab 3 sem. hrs. Study of the earth, its materials, surface, and interior features and processes of formation and change. Includes laboratory sessions.

PHY 215 Historical Geology/Lab 3 sem. hrs. Study of the earth's history through geologic time; its major geologic periods, formations and evolution as evidenced through the fossil record.

PHY 226 Conservation of Natural Resources 3 sem. hrs. Study of the natural resources within the framework of the non-environment system. Includes problems relating to pollution, populations, technology, growth, conservation of the environment and development planning as they relate to the various geographic areas of the western world and the non-Western world. Identical to GEO 226.

PHY 230 General Chemistry I/Lab 4 sem. hrs. Basic chemical calculations, periodicity, bonding, inorganic reactions, kinetics. First half of General Chemistry Continuum. Includes laboratory sessions.

PHY 231 General Chemistry II/Lab 4 sem. hrs. Continuation of General Chemistry Continuum including thermodynamics, acid-base reactions, electrochemistry, and nuclear chemistry. Includes laboratory sessions. Prerequisite: PHY 230.

PHY 235 Applied Physics I/Lab 4 sem. hrs. First of a two-part series covering mechanics, thermodynamics, vibrations and waves. Includes laboratory sessions. Prerequisite: MATH 150 or precalculus equivalent.

PHY 236 Applied Physics II/Lab 4 sem. hrs. Second of a two-part series covering electricity and magnetism, optics and modern physics. Includes laboratory sessions. Prerequisites: PHY 235, MATH 150, or precalculus equivalent.

PHY 241-209 Special Topics 3 sem. hrs. Topics in physical science that are not included in regular course offerings and may be taken without prerequisites. Specific content announced in the course schedule for given term. Students may reenroll for Special Topics covering different content.

PHY 301 Acoustics of Speech and Hearing 3 sem. hrs. Introduction to the physics of sound and phonation as related to speech communication.

PHY 315 Bio-organic Chemistry/Lab 4 sem. hrs. Introduction to structure, properties and reactions of major organic chemical groups with emphasis on those important in biochemical processes, biological macromolecules, and the structural chemistry of carbohydrates, lipids and proteins. Includes laboratory sessions. Prerequisite: PHY 231.

PHY 330 Organic Chemistry I/Lab 4 sem. hrs. The chemistry of carbon compounds, including their structure, nomenclature, preparation, properties, analysis and properties. Reaction mechanisms are stressed, within a functional group framework. Includes laboratory sessions. Prerequisite: PHY 231.
PHYS 331 Organic Chemistry II/Lab/ 4 sem. hrs. Continuation of PHYS 330. Organic Chemistry I/Lab, includes laboratory sessions. Prerequisite: PHYS 330.

PHYS 348 Physics I/2 sem. hrs. Basic principles of mechanics including vectors, force, equilibrium, displacement, velocity, acceleration, mass. Newton's Laws, work energy, gravitation, momentum, rotational motion, mechanics of systems of particles and rigid bodies. Prerequisites: PHYS 220, PHYS 240.

POL 250 Physics II/3 sem. hrs. Electrostatics, electric currents, electric fields and electric potential, AC and DC circuits, magnetic fields, capacitance, inductance, and electromagnetic waves. Prerequisites: MATH 200, PHYS 240.

PSYCHOLOGY (PSY)

PSY 102 Introduction to Psychology/ 3 sem. hrs. (RES 181, COR 111, PSY 101, 111, 201) An introduction to theory, research, and application. Topics include biological bases of behavior, perception, motivation, learning and memory, psychological development, personality, social psychology, and the identification and treatment of mental illness.

PSY 141 Personal Career Development/3 sem. hrs. The process of career development applied to oneself: identifying vocational interests and aptitudes, obtaining information about occupations, gaining experience through practice and experiential education, and establishing career plans. Useful for students adjusting to the college role. Identical to EDU 141 and MGT 141.

PSY 314 Current Perspectives in Substance Abuse/3 sem. hrs. (PSY 364) An overview of the major drugs of abuse in American society today. Includes health and legal issues related to substance abuse, and resources available for the treatment of chemical dependency and other drug-related problems. Identical to LSC 184. Students may not receive credit for this course and for LSC/PSY 165.

PSY 211 Human Sexuality/3 sem. hrs. (RES 150, PSY 143) Anatomy/physiology of the human sexual system, human sexual response, the range of sexual behaviors, and sources of attitudes and beliefs about sexuality. Identical to LSC 211.

PSY 213 Family Relationship Skills/ 3 sem. hrs. (RES 165, SOC 231, 331) Contemporary patterns of marriage and family living. Emphasis on effective living together in family units. Coverage of both adult and parent-child relationships. Emphasis on communication, cooperation, and contingency management. Experimental learning included. Identical to SOC 213.

PSY 238 Child and Adolescent Development/3 sem. hrs. (EDU 238, PSY 201, 338) Aspects of growth and development during childhood and adolescence. Psychological, cognitive, personality, and social. Prerequisite: PSY 102.

PSY 239 Mental Health/3 sem. hrs. (RES 202, 339) Developmental experiences of maturity. Physiological and psychological aspects of aging. Prerequisites: PSY 102.

PSY 245 Forensic Psychology/3 sem. hrs. (PSY 298) This course covers the interaction of psychology and the legal system. Students will learn how psychologists help courts make decisions about the competency of people to stand trial, about insanity, about sentencing, about committing people to psychiatric treatment against their will, about competency to manage one's own affairs, and about awarding money for psychological harm. Students will also explore the roles of psychologists in finding serial killers, dealing with hostage takings, and rehabilitating criminals.

PSY 246 Health Psychology/3 sem. hrs. This course covers (a) stressors and health, (b) health behavior promotion, and (c) psychological treatment for cancer, heart disease, and other medical disorders.

PSY 247 Loss, Grief, and Bereavement/3 sem. hrs. This course addresses the issues of loss accompanying the death of a loved one, and the handling of grief for people of all ages. Enables students to their own feelings about death, describes the rites of passage, and provides methods of resolution for grief. This course will be beneficial to individuals in their own lives, as well as to those who will be involved in counseling.

PSY 380 Introduction to Psychology/1-6 sem. hrs. An introductory field experience to broaden the student's education. Placement in a research setting, community agency, or human resource department. Report and by the Academic Division. Prerequisites: PSY 102 and prior written approval by the division director.

PSY 394 Special Topics/3 sem. hrs. Topics in psychology that are not included in regular course offerings and may be taken without prerequisites. Specific content announced in the course schedule for given term. Students may enroll for Special Topics covering different content.
PSY 300 Psychological Research Methods/3 sem. hrs. (MSC 302, PSY 302) Research designs commonly used in psychology: observational, experimental, and quasi-experimental. Steps in doing research including use of the APA format for writing reports. Prerequisites: LAN 112, MAT 362, PSY 102.

PSY 303 Experimental Psychology (Laboratory)/3 sem. hrs. Laboratory experience in various areas of experimental psychology. Covers experiments and reports on sensation and perception, motivation, learning and memory, and the measurement of ability and personality factors. Prerequisite: PSY 102.

PSY 308 Cooperative Education (no credit) Work placement for a period of 16-18 weeks. The placement will be directly related to the student's program of study.

PSY 311 Interpersonal Communication/3 sem. hrs. Study of human communications, interpersonal relationships, and small group dynamics. Topics include verbal and nonverbal behavior, development of relationships and groups, assertiveness, and leadership. Experimental learning included.

PSY 316 Issues in Social Psychology/3 sem. hrs. Social determinants of individual behavior. Psychological issues of current social relevance such as attraction, propaganda and advertising, aggression and TV violence, prejudice, and conformity. Prerequisite: PSY 102 or CORE 142.

PSY 317 Personality/3 sem. hrs. (PSY 310) Survey of psychoanalytic, humanistic, cognitive, and behavioral theories of personality. Current issues and personality research. Prerequisite: PSY 102 or CORE 142.

PSY 318 Abnormal Psychology/3 sem. hrs. (PSY 440) Diagnosis, causes, and prognosis for the various categories of psychological disorders. Case studies supplement and illustrate theory and research. Prerequisite: PSY 102.

PSY 330 Behavior Modification/3 sem. hrs. (PSY 441) Behavior modification techniques applied to diverse areas such as mild and severe behavior problems in children and adults, behavioral medicine, organizational behavior, sports psychology, self-management. Prerequisite: PSY 102 or CORE 142.

PSY 336 Psychology of Women/3 sem. hrs. Emphasis will be on the psychological and social factors influencing women's development and behavior. Women's identity, gender-related roles, cognitive styles, value systems, and relationship patterns will be explored. Identical to WMS 336.

PSY 345 Interviewing/3 sem. hrs. (PSY 302, 346) General principles of effective interviewing. Skills and techniques for achieving various interview goals, with an emphasis on counseling interviews and the establishment of helping relationships.

PSY 350 Community Psychology/3 sem. hrs. Prevention, recognition and mobilization of individual and community resources for helping solve psychological problems. The role of psychologically trained change agents in the human services field. Prerequisite: PSY 102.

PSY 351 Human Learning and Cognition/3 sem. hrs. (PSY 320, 451) Theories and research concerning human learning and cognition. Covers conditioning, perceptual learning, memory, and problem solving. Prerequisite: PSY 102 or CORE 142.

PSY 354 Substance Abuse: Historical and Legal Perspectives/3 sem. hrs. The role of alcohol and other drugs in American society today. Includes a historical overview of psychoactive drug use and abuse, the classification of drugs currently in use, and legal issues related to substance abuse. Identical to SOC 354.

PSY 355 Substance Abuse and the Family/3 sem. hrs. Family problems related to the abuse of alcohol and other psychoactive drugs. An examination of the changes in family functioning that accompany chemical dependency. Attention given to the concept of substance abuse as a family illness and the role of family members in the recovery process. Identical to SOC 355.

PSY 356 Substance Abuse in Business and Industry/3 sem. hrs. Scope and cost of alcohol and other drug-related problems in American business and industry today, and the role of managers and supervisors in dealing with these problems. The formulation of company policies regarding substance abuse, effective educational and intervention programs, and strategies for implementing these. Identical to MGT 356.

PSY 357 The Psychology and Physiology of Substance Abuse/3 sem. hrs. This course will provide you with a sound introduction to the pharmacology and physiology of alcohol and other drugs' use and psychological effects of psychoactive drugs. It will provide you with an understanding of the nature of addictions and of the disease concept, the signs and symptoms of substance abuse, diagnostic criteria for evaluating chemical dependency, the physical and psychiatric disorders related to substance abuse (including AIDS), and the stages of recovery from chemical dependency. Identical to LSC 357.

PSY 358 Rehabilitation Strategies for Substance Abuse/3 sem. hrs. This course focuses upon the various types of therapeutic approaches that may be successfully employed in the treatment of substance abuse problems and the types of facilities available for such treatment. Treatment planning and coordination, and the application of specific treatment techniques will be covered. You will be exposed to the structure, functions, and programs of Subtraction Anonymous, as well as the approaches employed by several other major mutual support organizations. This course includes ways in which the self-help groups and the professional community can work together to achieve common goals. You will also examine the special needs of women, adolescents, and minorities within the rehabilitation process.

PSY 359 Self-Help Groups/3 sem. hrs. Examines the history and scope of the self-help group movement in the U.S. and the role of these groups in helping people deal with life problems. Covers the structure, traditions and programs of Alcoholics Anonymous as well as the utilization of AA and other groups as a resource for substance abuse rehabilitation.

PSY 360 Drug Prevention and Education/3 sem. hrs. This course covers the classification and identification of drugs, as well as the behavioral criteria for recognizing alcohol and drug abuse. Specific attention is paid to laws and legal regulations. A case study approach is used. Methods for evaluating the effectiveness of these strategies are also examined. Identical to EDU 362.

PSY 363 Professional Development in Substance Abuse/3 sem. hrs. This course examines personal and professional issues faced by the substance abuse counselor. It will focus on personal values and ethical considerations for the beginning counselor, as well as legal considerations for substance abuse treatment. Students will learn to recognize signs of drug and alcohol abuse. Identical to LSC 363.

PSY 371 History and Theories of Psychology/3 sem. hrs. (PSY 471) Exploration of the historical roots of psychology, and the bases and growth of psychology as a science. Examines the major historical and contemporary theories of psychology, with an emphasis on emerging issues. Prerequisite: PSY 102.
PSY 310: Current Psychotherapies/3 sem. hrs. (PSY 495). This course is intended for the advanced undergraduate. This course is a comprehensive introduction to the most popular theories and techniques presently in use. Format for this course includes lecture and discussion sessions, role-playing, and audio-video tape sessions.

PSY 410: Principles of Individual Counseling/3 sem. hrs. This course covers the essential elements of individual counseling, with a specific focus upon substance abuse problems. Includes techniques for establishing rapport, overcoming client resistance, clarifying issues, problem solving, developing insights, and strengthening support systems. Emphasis is on experiential learning. Prerequisite: completion of substance abuse specialty and written approval by division director.

PSY 415: Principles of Group Counseling/3 sem. hrs. This course covers the essential elements of group counseling, with a specific focus upon substance abuse problems. Includes group leadership styles, facilitation skills, group dynamics, the stages of group development, and techniques for dealing with specific problems that often occur in a group setting. Emphasis is on experiential learning. Prerequisite: completion of substance abuse specialty and written approval by division director.

PSY 460: Biological Bases of Behavior/3 sem. hrs. (PSY/LSC 461). Genetic, neural, and endocrine bases of behavior. Neuroanatomy and chemical and electrical events in the nervous system. Sensory processes, motivation, emotion, and arousal. Prerequisites: LSC 162 or 105, PSY 102. Identical to LSC 460.

PSY 480: Practicum in Psychological Research/1-6 sem. hrs. Experience in conducting research under the supervision of the Academic Division. Reading the relevant research literature, running subjects, analyzing data, and writing an APA format report. Prerequisites: PSY 300 and prior written approval by the division director.

PSY 481: Practicum in Community Psychology/1-6 sem. hrs. Experience in applying psychology in the community through placement in a human services agency. Report required. Supervision onsite and by the Academic Division. Prerequisites: PSY 311, 350 and prior written approval by the division director.

PSY 483: Practicum in Substance Abuse Treatment/3 sem. hrs. Experience in the application of knowledge concerning substance abuse treatment. Through placement in a treatment setting, students will gain practical experience in the substance abuse field. Prerequisites: completion of substance abuse studies program and written consent of division director.

PSY 484: Advanced Practicum in Psychology/3-6 sem. hrs. Students will gain experience in a specialty area of psychology by working with teams of faculty members and graduate students. They will be able to observe and participate in both research and applied clinical work. To enroll in this practicum students need junior or senior standing and written approval of the director of undergraduate behavioral sciences and approval of the director of any graduate program where the student may be placed. Prerequisite: PSY 300.

PSY 488: Senior Seminar in Psychology/3 sem. hrs. Students will have the opportunity to integrate information from a variety of specializations in psychology. Each seminar will have a focus area which will allow students to gain new perspectives as well as apply knowledge from prior courses and experiences. To enroll in this course, students must have senior standing.

PSY 491-498: Advanced Special Topics/3 sem. hrs. Advanced topics in psychology that are not included in regular course offerings. Specific content and possible prerequisites are announced in the course schedule for a given term. Students may need to enroll for Special Topics covering different content.

PSY 499: Independent Study in Psychology/1-12 sem. hrs. The student selects, and carries out independently, library and/or empirical research. Faculty supervision is provided on an individual basis. Prerequisites: PSY 300 and written consent of instructor and division director.

SECONDARY EDUCATION (SEC)

SEC 311: Teaching Social Studies in Middle and Secondary School/3 sem. hrs. Content and methods for teaching social studies in the secondary grades. Program development, appropriate activities and evaluation techniques will be discussed. Development of teaching skills and analysis of materials, methods, and programs for teaching social studies in the secondary schools. Reading skills necessary for the use of appropriate materials in this content area will be identified.

SEC 312: Teaching Science in Middle and Secondary School/3 sem. hrs. Content and methods for teaching science in the secondary school. "Hands-on" approaches, resources, material and ideas drawn from the students' experiences will all be discussed. Development of teaching skills and analysis of materials, methods, and programs for teaching science in the secondary school. Reading skills necessary for the use of appropriate materials in this content area will be identified.

SEC 313: Teaching Music in Middle and Secondary School/3 sem. hrs. Study of the fundamentals of music, contents of a music program, and special methods of teaching and using music in the secondary school curriculum. Development of teaching skills and analysis of materials, methods, and programs for teaching music in the secondary schools. Reading skills necessary for the use of appropriate materials in this content area will be identified.

SEC 314: Teaching Art in Middle and Secondary School/3 sem. hrs. Content and methods of teaching art in the secondary school. Problems in the selection of materials and the evaluation of activities as well as ideas and art projects will be included. Development of teaching skills and analysis of materials, methods, and programs for teaching art in the secondary schools. Reading skills necessary for the use of appropriate materials in this content area will be identified.

SEC 316: Teaching Mathematics in Middle and Secondary School/3 sem. hrs. Content, materials, and methods for teaching mathematics in the secondary school. Development of teaching skills and analysis of materials, methods, and programs for teaching mathematics in the secondary school. Reading skills necessary for the use of appropriate materials in this content area will be identified.

SEC 320: Teaching Foreign Language in Middle and Secondary School/3 sem. hrs. Content and methods of teaching foreign language in the secondary school. Language development and expression. Analysis of materials, methods, and programs for teaching foreign language in the secondary school. Reading skills necessary for the use of appropriate materials in this content area will be identified.

SEC 322: Teaching Business in Middle and Secondary School/3 sem. hrs. Teaching business subjects in the secondary school. Methods and materials, program development, instruction techniques, resources, and teaching principles will all be discussed. Reading skills necessary for the use of appropriate materials in this content area will be identified.
SPEECH-LANGUAGE PATHOLOGY (SLP)

SLP 400 Introduction to Hearing, Speech, and Language Disorders/3 sem. hrs. Understanding of voice, language, and hearing disorders, their classification, manifestation, and etiologies. Identical to LSC 400.

SLP 410 Neuroanatomy and Physiology/3 sem. hrs. Introduction to anatomy and physiology of developing and mature human nervous system. Identical to LSC 410.

SLP 420 Anatomy and Physiology of Vocal and Hearing Mechanisms/3 sem. hrs. Introduction to the anatomy and physiology of the auditory and vocal mechanisms.

SLP 439 PTI/NEC/EC/3 sem. hrs. History, theory, and application of phonetics including sampling and transcription techniques.

SLP 440 Hearing and Speech Science/3 sem. hrs. Physical bases and processes of the production and perception of hearing, language, and speech. Use of instrumentation.

SLP 450 Speech and Language Development/3 sem. hrs. Study of prelinguistic, linguistic, and psycholinguistic variables related to normal development from infancy through adolescence. Application of analytic methods to developmental and cultural variations in speech and language.

SLP 460 Linguistics/3 sem. hrs. Historical, descriptive, sociolinguistic components of language.

SLP 470 Directed Observation/3 sem. hrs. Students must observe 25 clock hours of evaluation and management. Observation hours must precede clinical assignments and be completed under the direct supervision of a supervisor in the Communication Disorders Clinic.
TELECOMMUNICATIONS (CSTC)

CSTC 200 Mathematical Foundations of Telecommunications/3 sem. hrs. Development of techniques applied to telecommunications systems for solution of problems solved by queueing theory, information theory, operations research, statistics, and topology. Prerequisites: MAT 150, MAT 362, and MAT 459.

CSTC 205 Electronics for Telecommunications/3 sem. hrs. (TC 205) An introduction to electronic systems for communications including signaling, modulation, demodulation, data transmission, switching, satellites, optical methods, test equipment, error control. Prerequisites: CSTC 200 and USEC 305.

CSTC 300 Telecommunications Network Planning and Operations/3 sem. hrs. (TC 300) Development of techniques applied to telecommunications systems for the planning and operation of telecommunications networks. Prerequisites: CCS 345, CSTC 200 and CSTC 205.

CSTC 305 Telecommunications Software and Protocol/3 sem. hrs. (TC 305) Development of protocols by example for software support of telecommunications systems. Prerequisites: CCS 345 and CSTC 200.

CSTC 400 Telecommunications Economics and Policy/3 sem. hrs. (TC 400) Development of the economic and regulatory environment of modern telecommunications systems and the effects on planning, cost, and operations. Prerequisites: CCS 345 and CSTC 200.

WOMEN'S STUDIES (WMS)

WMS 260 Women and Law/3 sem. hrs. This course examines sex-based discrimination in American society. Includes historical/sociological analysis of evolution of law affecting women in employment, education, health and welfare, property ownership, and criminal justice. It also investigates public policy issues that affect women's lives. The course focuses on the role of the law to promote or hinder constructive social change. Identical to LGIS 260.

WMS 305 Feminist Theory/3 sem. hrs. This course will study assumptions relative to gender issues: how we bring certain assumptions to our reading of texts and in what ways we are influenced by them. This course will also address how gender-related assumptions shape the fields and professions of modern American society. Identical to HUM 305.

WMS 362 Women's Study Practicum/Directed Project/3 sem. hrs. Experience working in student's major area or other area of interest that addresses or concerns itself with issues related to women. Identical to HUM 302.

WMS 305 Feminist Theory/3 sem. hrs. This course will study assumptions relative to gender issues: how we bring certain assumptions to our reading of texts and in what ways we are influenced by them. This course will also address how gender-related assumptions shape the fields and professions of modern American society.

WMS 306 Women and Literature/3 sem. hrs. Works will be studied to acquaint students with the rich and extensive contributions of women to the various literary genres (autobiography, poetry, fiction). Identical to HUM 306.

WMS 311 Women and Society: Cross Cultural Perspectives/3 sem. hrs. A study to explore definitions of masculinity and femininity in a cross-cultural context, with an emphasis on the ways in which anthropology and science have begun to revise traditional conceptions of sex roles and behavior. Identical to SOC 311.

WMS 334 Women and Illusions/3 sem. hrs. A study to examine various obstacles faced by women in the business community and explore techniques used by successful female corporate executives and entrepreneurs to overcome these obstacles. Identical to BUS 324.

WMS 336 Psychology of Women/3 sem. hrs. Emphasis will be on psychological and social factors influencing women's development and behavior. Women's identity, gender-related roles, cognitive styles, value systems, and relationship patterns will be explored. Identical to PSY 336.

WMS 400 Women in the Arts and Humanities/3 sem. hrs. A study of the particular contributions of women in the humanities, including art, literature, music, theatre, film, and dance. Identical to HUM 400.

WMS 402 Women and Political Theory/3 sem. hrs. Through a study of theories of social change, this course will examine women's role in liberation movements in the third world. It will also explore what a "feminist consciousness" can contribute to political movements in our society. Identical to HUM 402.

WMS 405 Women and Science/3 sem. hrs. This course will look at issues in the literature of science concerning women, including the underrepresentation of women in the scientific profession and the possibility of "male bias" in the procedures of science itself. Identical to HUM 408.

WMS 419 Women and Aging/3 sem. hrs. This course will explore the major issues confronting women as they grow older in our society. Specific focus will be directed toward biological, social, psychological, political, and economic changes which impact the mid-life and older woman.

IRVING WASHINGTON
Senior Admissions Counselor
Minority Enrollment Specialist

VIRGINIA WELLS
Writing Specialist
B.A. Florida International University

MARION WOLFSON
Assistant Director for BPM Operations
B.A. Barnard College

ABOUT NOVA UNIVERSITY

Nova University was chartered by the state of Florida in 1964. Numerous graduate programs offer master's, educational specialist, and doctoral degrees and postgraduate education. The College for Career Development and Nova College offer undergraduate education, and the University School, a demonstration school, serves children from early childhood through high school. In addition, nondegree continuing education and certificate programs are available.

From the beginning, the University has distinguished itself by its innovative outlook, its unique programs that provide both traditional and nontraditional choices in educational programs, and its research in many fields aimed at solving the problems of immediate concern to mankind.

The Nova University campus is located on a 200-acre site west of Fort Lauderdale, Florida, at 3301 College Avenue in the town of Davie.
Nova University Degree Offerings

DOCTORAL AND PROFESSIONAL DEGREES

Doctor of Business Administration in:
- Business Administration (D.B.A.)
- Business Administration/Human Resource Management
- Business Administration/International Management

Doctor of Education (Ed.D.) in:
- Adult Education
- Child and Youth Studies
- Computer Education
- Educational Leadership
- Higher Education
- Vocational, Technical, Occupational Education

Doctor of International Business Administration (D.I.B.A.) in:
- International Business

Doctor of Philosophy (Ph.D.) in:
- Clinical Psychology
- Family Therapy
- Oceanography

Doctor of Psychology (Psy.D.) in:
- Clinical Psychology

Doctor of Public Administration (D.P.A.) in:
- Public Administration

Doctor of Science (Sc.D.) in:
- Computer Science
- Information Science
- Information Systems
- Training and Learning

Juris Doctor (J.D.) in:
- Law

SPECIALIST DEGREES

Educational Specialist (Ed.S.) in:
- Education (18 majors)

MASTER'S DEGREES

- General Studies
- Hospitality Management
- Legal Studies (prelaw)
- Life Sciences (premedical)
- Ocean Studies
- Professional Management
- Secondary Education

The provisions set forth in this catalog are not to be regarded as an irrevocable contract between the student and Nova University. Regulations and requirements, including tuition and fees, are necessarily subject to change at any time at the discretion of the administration. The University further reserves the right to require a student to withdraw at any time, as well as the right to impose penalties on any student whose conduct is unsatisfactory. Any admissions on the basis of false statements or documents is void upon discovery of the fraud, and the student is not entitled to any credit for work which he or she may have done at the University. Upon dismissal or suspension from the University for cause, there will be no refund of tuition and fees. The balance due Nova University will be considered receivable and will be collected.

A transcript of a student's academic record cannot be released until all of his or her accounts, academic and nonacademic, are paid.

Any Nova University student has the right to inspect and review his or her educational record. The policy of the University is not to disclose personally identifiable information contained in a student's educational record without prior written consent from the student, except to University officials, to officials of another school in which the student may enroll, to authorized representatives of federal or state agencies, to accrediting organizations, to parents of dependent students under judicial order, to parties in a health or safety emergency, or when verifying graduation with a particular organization.

A student also has the right to request Nova University to amend or correct any part of his or her educational record that he or she believes to be inaccurate, misleading, or in violation of the privacy or other rights of students. If these rights are violated, a student may file a complaint with the Department of Education. A student may obtain a copy of the Educational Privacy Act policy by requesting it in writing from the Office of the University Registrar, Nova University, Parker Building, 3301 College Avenue, Fort Lauderdale, Florida 33314. A schedule of fees and a listing of types and locations of educational records is contained in this policy.

Nova University does not discriminate on the basis of nonqualifying handicap, sex, age, race, color, religion or creed, or national or ethnic origin in admissions, access, or employment for any of its programs and activities. The University registrar and director of human resources have been designated as student and employee coordinators, respectively, to assure compliance with the provisions of applicable laws and regulations relative to nondiscrimination. Nova University programs are approved for the training of veterans and other eligible persons by the Bureau of Vocational Training and by the Bureau of Vocational Approval for Veterans' Training, Florida Department of Veterans Affairs.

The school is authorized under federal law to enroll nonresident alien students.

The Nova University general policies on student relations are on file in the Office of the University Registrar.
THE CODE OF STUDENT CONDUCT AND ACADEMIC RESPONSIBILITY

Purpose: This code seeks to promote high standards of academic integrity by setting forth the responsibilities of students as members of the University community. Adhering to the code requires a climate wherein all members of the University community can exercise their rights of membership.

I. NOVA UNIVERSITY STATEMENT OF ACADEMIC RIGHTS AND RESPONSIBILITIES

Nova University, as a community of women and men, is committed to fostering scholarship, academic pursuits, and service to society. As an institution, it is our recognition to secure an equal opportunity to fulfill their intellectual potentials through pursuit of the highest standards of academic excellence.

In order to achieve the goals of the University, certain rights and responsibilities flow from membership in any academic community centered in such goals:

A. Academic Standards

The University expects its students to manifest a commitment to academic integrity through high standards of academic honesty. The academic honesty standards include:

1. Original Work: Assignments such as term papers, theses, research, or any work, which are the result of the student's own effort, shall be so identified. All sources of information shall be acknowledged by the writer when the information is used.

2. Referencing the Works of Another Author: All academic work intended for credit or as part fulfillment of course requirements must adhere to such author's specific accepted reference manuals and rules of documentation. Standards of academic honesty require that proper acknowledgement be given by the writer when the thoughts and words of another author are used. Students must acquire a style manual approved by the Center and become familiar with accepted scholarly and editorial practices in their Program. Students' work must comport with the adopted citation manual for their particular Center.

As Nova University, it is plagiarism to represent another person's work, words or ideas as one's own without use of a center-recognized method of citation. Excerpts from Center standards (A)(2) or (A)(3) are considered plagiarism at Nova University.

B. Conduct Standards

1. Students should not interfere with the work of other students or members of the University community; nor interfere with other students' right to learn. Students are expected to abide by University, Center, and Program rules and regulations and are subject to all local, state, and federal laws. Students who violate any conduct standards include, but are not limited to:

(a) Theft
(b) Vandalism
(c) Disruptive behavior
(d) Possession or use of illegal or hazardous substances
(e) Possession, receipt, sale, or use of illegal substances
(f) Appearance in class or on campus under the apparent influence of alcohol or mind-altering drugs
(g) Violation of housing regulations
(h) Any act of conduct that creates an atmosphere of fear or intimidation or which interferes with the right of another student to learn
(i) Theft of personal property or physical harm to others
(j) Tampering with the security of the University
(k) Sexual assault

2. Students must have authorization from the University to have access to University databases, data, programs, and other types of information and information systems. Any use of the above without authorization is prohibited.
C. Supplementary Standards

Students are expected to comply with the legal and ethical standards of this institution and those of their chosen field of study, including the code of ethics for computer usage. The University and each Center or Program may prescribe additional standards for student conduct as would conform with the letter and spirit of this code.

D. Violations

Any violation(s) of any of the academic standards, conduct standards or supplemental standards may result in a complaint being filed against a student to enforce the Code of Student Conduct and Academic Responsibility. Deans or directors may, in their discretion, immediately suspend students pending a hearing on charges of academic conduct or supplemental standard violations. Any student found guilty of a violation of the academic, conduct, or supplemental standards will be subject to disciplinary action, including expulsion from the University.

STUDENT CODE OF COMPUTER ETHICS

Nova University provides computer systems with access to hardware, software, and networks to enhance academic experience. The University's computer systems are vital to the University's programs of instruction, research and administration. Nova University’s “computer systems” refer to all computers owned or operated by the University and include hardware, software, data, and communication networks associated with these systems. In particular, “computer systems” refer to systems ranging from multi-user time-sharing systems to single-user terminals and personal computers, whether free-standing or connected to a network.

Ethical conduct by students in the use of this technology is the same as in all other areas of University life and it is of equal importance. All students are expected to abide by the Nova University Code of Student Conduct and Academic Responsibility. Students as part of their academic preparation toward specific professional career goals must be aware of and abide by the professional code of ethics associated with that chosen profession. Therefore, student technology users must apply standards of normal academic and professional ethics and considerate conduct to their use of the University's computing systems and resources, including respect of other users' privacy.

The student user must be aware of the legal and moral responsibility for ethical conduct in the use of technology. Student users of Nova University's computer systems are subject to all applicable federal, state and international computer laws. A copy of the Florida Computer Crimes Act and referenced Florida State Statutes may be examined online or in a student’s academic program office.

In addition, a student accessing any of Nova University computer systems, whether a multi-user time-sharing system or a single-user terminal or personal computer, must:

- Have proper authorization for use or attempted use of accounts within the Nova University computer systems
- Limit the use of Nova University computer systems to academic activities as defined by the student's academic program office
- Refrain from attempting to tamper with or obstruct the operation of Nova University's computer systems
- Be aware that accessing or using another person's computer account without that person's permission is illegal and unethical
- Refrain from any attempt to use Nova University's computer systems as a means for the unauthorized access to computer systems outside the University's systems
- Be aware that the use of invasive software, such as worms and viruses destructive to hardware, software or data files is illegal and unethical

Be aware that using Nova University's computer systems to act or behave in a rude, obscene or harassing manner will be dealt with by appropriate University policy, procedures and agents.

Use only legally obtained or licensed data or software in accordance with its license or purchase agreement.

Be in compliance with federal copyright laws and the Nova University Copyright Code.

As with all matters of law and ethics, ignorance of the rules does not excuse violations.

Inappropriate conduct and violations will be dealt with under the guidelines of the Nova University Code of Student Conduct and Academic Responsibility as defined and determined by the Office of the Academic Vice-President and the Office of the Dean of a student's academic program.
NOVA UNIVERSITY DRUG-FREE POLICY STATEMENT

In order to comply with the Drug-Free Schools and Community Act (Pub. L. No. 101-226, Title 24 C.F.R., part 60), Nova University has adopted the following policy for all workplace, school, campus, and field based programs:

The unlawful manufacture, distribution, dispensation, possession, or use of illicit drugs* and the abuse of alcohol are prohibited in and on Nova University owned or controlled property and as a part of any of its activities. No Nova University employee or student is to report to work or school while under the influence of illicit drugs or alcohol.

There are serious health risks associated with the abuse of drugs and alcohol. If you, a fellow student, teacher, or co-worker has a problem with abuse of drugs and alcohol, help can be provided at the following locations:

- On Campus:
  Nova University Student Counseling Service
  Multiflex Building
  (305) 471-7552

  Nova University Community Mental Health
  Davie (205) 471-7703
  Lauderdale (305) 486-3583
  Coral Springs (562) 723-7000

- Community:
  Florida Department of Education
  Educational Prevention Center
  Knott Building
  Tallahassee, FL 32399
  (90) 481-4304

  Department of Health and Rehabilitative Services
  Alcohol and Drug Abuse Program
  1117 Wimmer Road
  Tallahassee, FL 32319
  (905) 481-6600

Where you use or deal in drugs, you also risk incarceration and/or fines. In addition to federal sanctions, Florida state statutes provide sanctions in regard to the use, possession and/or sale of illicit drugs and the abuse of alcohol. Penalties vary dependent upon the amount and type of drug and/or alcohol involved. Penalty convictions range from one year to life imprisonment. Possession of not less than 20 grams of cannabis is punishable as a misdemeanor of the first degree. Punishment for a misdemeanor ranges from less than 60 days to one year imprisonment.

Under §893.13, Florida Statutes: It is unlawful for any person to sell, purchase, manufacture, deliver, or to possess with the intent to sell, purchase, manufacture, or deliver a controlled substance. Violation of this statute is a felony, and is punishable under Chapter 775 of the Florida Statutes.

Under §189.151 (5), Florida Statutes: It is unlawful for any person to sell, purchase, manufacture, deliver, or to possess with the intent to sell, purchase, manufacture, or deliver a controlled substance to a person, or within 1,000 feet of a public or private elementary, middle, or secondary school. Punishment for a violation of this statute may include a maximum three-year imprisonment.

* The term "illicit drugs" refers to all illegal drugs and to legal drugs obtained or used without a physician's order. It does not prohibit the use of prescribed medication under the direction of a physician.

Under §188.1095, Florida Statutes: It is unlawful for any person to possess an open container of alcoholic beverages while operating a vehicle in the state, or while a passenger in or on a vehicle being operated in the state. Violation of this law will result in a noncriminal moving traffic violation, punishable as provided in Chapter 318 of the Florida Statutes, with fines and points on a driving record relating to driver's license suspension.

Under §138.193, Florida Statutes: A person is guilty of driving under the influence if such a person is driving or is in actual physical control of a vehicle within the state and the person is under the influence of alcohol or any controlled substance when affected to the extent that he or her normal faculties are impaired in the person has a blood alcohol level of .05 percent or higher. First conviction on such a DUI charge shall result in a fine of not less than $300 or more than $500 and imprisonment not more than six months. Second conviction results in a fine of not less than $500 or more than $1,000 and not more than nine months imprisonment. Third conviction will result in a fine not less than $1,000 fine or more than $2,500 fine and imprisonment for not more than 13 months.

By applying for a driver's license and accepting and using a driver's license, a person holding the driver's license is deemed to have expressed his or her consent to submit to breath, blood, and/or tests for alcohol, chemical substances, or controlled substances.

Nova University requires that an employer notify the employer of any criminal drug statute conviction for a violation occurring in the work place no later than five (5) days after such conviction. In order to comply with federal law, Nova University must notify any federal contracting agency within ten (10) days of having received notice that an employee engaged in the performance of a federal contract or grant has had a criminal drug statute conviction for a violation occurring in the work place. Any criminal drug conviction in the work place must be reported by the employee to his or her University supervisor or department head within five (5) days of the date of such conviction. The University will discipline any employee who is not convicted or requires the employee's satisfactory participation in a drug/alcohol abuse rehabilitation program, expulsion, and/or termination.

Any Nova University employee or student determined to have violated this policy shall be subject to referral for prosecution by the appropriate authorities. Other sanctions include: referral/ treatment for drug use disorder, which may include mandatory completion of a drug-free or rehabilitation program, suspension, and/or termination.

All Nova University faculty and staff members will, as a condition of their employment, abide by the terms of this policy. All Nova University students will, as a condition of their enrollment, abide by the terms of this policy.
