Maximize your clinical care through interdisciplinary graduate training

Master of Science Degree in Clinical Psychopharmacology

NSU
SOUTHEASTERN UNIVERSITY
Beyond the Classroom
Overview

The master's program in clinical psychopharmacology is designed to enhance the knowledge base recommended by the American Psychological Association for psychologists working in medical settings, private practice, or other settings where the interaction with the treating physician and other health care practitioners is critical to improving patient care.

Training Goals

- expand the knowledge base in biopsychology, pharmacology, and psychopharmacology
- ensure a more complex understanding of how medical conditions interact with psychological conditions
- develop a more sophisticated understanding of a client's medication, potential side effects, and contraindications
- develop consultation skills for work with physicians and other health care providers

Program Delivery

The program is offered in a format accessible to psychologists from around the nation. Classes are scheduled bimonthly, meeting for six consecutive days (Thursday–Tuesday). Web course tools (WebCT) are used to enhance learning between class sessions.

"Learning how the brain works, how we think neurotransmitters work, learning the ways that experience, as well as medication, alters the structure of the brain is more interesting and relevant precisely because it follows years of clinical experience. And it will continue to be fascinating as psychologists produce the research that increases the knowledge."

—Sally Horwatt, Ph.D., Licensed Clinical Psychologist, Virginia
Clinical Psychopharmacology

Faculty
Our faculty members are drawn from Nova Southeastern University's colleges of psychology, pharmacy, and medical sciences and are supplemented by adjunct faculty members with special expertise.

Admissions Information
The program begins each fall semester. The application deadline is August 1. Late applicants will be considered on a seat-available basis. Applications from advanced doctoral students in psychology may be considered.

Curriculum
The master of science in clinical psychopharmacology requires 33 semester hours, including two practicums.
- Anatomy and Physiology
- Neuroanatomy/Neuropathology
- Neuropsychology
- Neurochemistry
- Introduction to Organic Chemistry and Biochemistry
- Pathophysiology
- General Pharmacology
- Clinical Psychopharmacology
- Developmental Psychopharmacology
- Chemical Dependency and Pain Management
- Introduction to Physical Assessment and Laboratory Exams
- Professional, Ethical, and Legal Issues
- Psychotherapy/Pharmacotherapy Interactions
- Computer-Based Practice Aids
- Pharmacoepidemiology
- Practicum I: Psychopharmacology
- Practicum II: Psychopharmacology
Yes, please send me an application and more information on the master of science degree in clinical psychopharmacology program.

Nova Southeastern University is a dynamic, not-for-profit independent institution dedicated to providing high-quality educational programs of distinction from preschool through the professional and doctoral levels, as well as service to the community. Nova Southeastern University prepares students for lifelong learning and leadership roles in business and the professions. It offers academic programs at times convenient to students, employing innovative delivery systems and rich learning resources on campus and at distant sites. The university fosters inquiry, research, and creative professional activity, by uniting faculty and students in acquiring and applying knowledge in clinical, community, and professional settings.

"As one of the 19 psychologists who were enrolled in the class of 2002 (NSU’s first fly-in class), I speak from experience when I say this is a unique opportunity to learn neuroscience. This is a well-developed, intense program with depth, leading to a diploma (M.S.) in clinical psychopharmacology. An additional bonus for me has been taking my wife and children with me to training in South Florida."

—Richard Eghamer, Ph.D., Licensed Clinical Psychologist, Illinois

For more information, return the attached card or call 800-541-6682, ext. 5790.

For a detailed description of the course content, a faculty list, and a tentative class schedule, visit our Web site at www.cps.nova.edu.
NSU’s Center for Psychological Studies

The Center for Psychological Studies is dedicated to providing the highest quality education to its students, superior psychological services to the community, and research contributions to the mental health sciences. The center offers two American Psychological Association-approved doctoral programs in clinical psychology (Ph.D. and Psy.D.).

The center also offers master’s degree programs in mental health counseling and school guidance and counseling and a specialist program in school psychology.

The center houses the comprehensive Psychological Services Center operated by Nova Southeastern University. For more information, visit our Web site at www.cps.nova.edu.

"I think NSU’s program is by far the very best. I am understanding things I have never understood before. I am glad I took these courses at NSU and it was a personal education rather than dealing with courses over the computer."

—Chuck Gerardi, Ph.D., Licensed Clinical Psychologist, Florida

Notices of Accreditation, Membership, and Nondiscrimination

Nova Southeastern University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097, Telephone number: 404-679-4501) to award associate’s, bachelor’s, master’s, educational specialist, and doctoral degrees.

The clinical psychology programs of the Center for Psychological Studies are accredited by the American Psychological Association (APA). The center also has a predoctoral internship program that is a member of the Association of Psychology Postdoctoral and Internship Centers (APPIC). The APA and the Florida Department of Health have approved the awarding of continuing education credits by the center.

Nova Southeastern University admits students of any race, color, sex, age, nondisqualifying disability, religion or creed, or national or ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the school, and does not discriminate in administration of its educational policies, admissions policies, scholarship and loan programs, and athletic and other school-administered programs.
