By Popular Demand

The January 15 orientation meeting for the new Bachelor of Science in Technical Management was so successful that another meeting was held Monday, Feb. 11, at 6:30 p.m., in the George English Library of the Parker building.

Anyone with an A.S. degree in a technical field, who would like to work toward a Bachelor of Science degree without having to give up college credits already earned, is welcome to attend the orientation meeting. Or call 473-8300 ext. 212, 219.

*Note: How successful is "successfull"? Thirty nine invitations were sent out. 45 people showed up, and 10 registered on the spot. That's "successfull"!

** Speakers, Experts

The Speakers Bureau and the Experts List, two of the most popular services Nova offers to the community, are now being updated. Nova faculty, staff, or students who would like to volunteer for either or both of these important community services are urged to call Dr. Claire Green (ext. 380) or Feb. 25.

CRA Review Course

The Business Division of Nova College is offering an 8-week CRA Review Course beginning March 1, for candidates for the May CRA exam.

Those interested in enrolling in the course may call Paul Kruglauskis at 473-8300 ext. 295.

Nova Night

At Pompano

It's Nova University Night at the Pompano Park race track, Thursday, Feb. 21. A $10.50 ticket buys you a full course dinner prior to the elegantly titled "The Park Restaurant, clubhouse admission, free parking, and a racing program. Dinner is at 6:30 p.m. For ticket information, call Rose Ann Scharer at 473-8300 ext. 225.

Second Call For Nova Artists

Sunday painters, sculptors, photographers and other artists are once again invited to sign up NOW for Nova's "Arts of Spring" art exhibition, to be held at Nova the weekend of March 29. Faculty, staff, students, alumni and their friends are invited.

For further information, call Bette at ext. 311, 312.
Morris Broad
Appointed Nova Trustee

While Mr. Broad has been actively involved in the civic, educational and medical communities of the South Florida community for some time this marks the first time he has accepted membership on the board of a Broward based institution.

"Broadway Country is an exciting area, a growth area," Mr. Broad said, "and Nova University is an important educational institution, economically important to the well being of Broward County."

"I've had more than a passing acquaintance with Nova through the years," Mr. Broad continued. "I know many of the great notables - I know Alan Maisel and Micke Sargent (Dr. Marilyn Segal, Professor of Early Childhood Development at Nova), and my friend, Alex Grod, was a member of the charter class of the Nova Law School. Nova University is an exciting concept, and I welcome the opportunity to devote my time and expertise to help it grow."

Morris Broad, president of American Savings & Loan Assn. of Florida and prominent civic leader, has been appointed to the Board of Trustees of Nova University.

STUDENT OF THE MONTH

Pat Destano describes her as "a bright student who makes any class exciting." Her mother calls her "a courageous girl with a great tolerance for humanity, and empathy for all sorts of people... she constantly tries to bring happiness to those around her."

Betsy Dobrick is a quite a person - a person who has never allowed her own considerable personal and financial problems to stop her from activity involving herself in important community concerns. She is also the person who has motivated the college education she needs to make her work all the more effective.

She's been a VISTA volunteer, an assistant in an Upward Bound project, a youth advisor, the director of public housing tutoring project, and a foster parent. And even now, with these children, a part-time disabled husband and a mountain of medical bills from his seven months in the hospital, she still finds the emotional strength to teach religious school, lead a Brownie troop, and be a member of the Executive Board of the Forest Hills Elementary School... and be a bright student at Nova-Coral Springs where she'll soon graduate with a major in Psychology.

"Nova has been great for me," Mrs. Dobrick says. "It took me out of a part of me that was heaving, and gave me a channel to the outside world - a way to meet people who are mature, supportive, and eager to bring a real depth of experience with them to class.

"What thrills me the most about Nova are the instructors," she adds. "They're really dedicated people - flexible, creative, committed to making material accessible... they reach theory with practical applications in a way that's useful for any professional career."

"I feel Nova has a family," she says to talk about Pat Destano. Director of Nova at Coral Springs. "It's a place that everyone feels that he wants Nova's Community Based Education programs to work. And he's giving us a system for collecting clean water from the rain forests, a water-sealed toilet for rural areas... There are 3 million children in Colombia, and the Dutch have been good to us. The Bernard Van Leer Foundation has given us a system for collecting clean water from the rain forests, a water-sealed toilet for rural areas..."

Nova College

LLI Offers New Programs

The L. William College has announced all those under-graduate level programs which are offered in a “cluster” format. In the future, the college is offering limited number of non-credit courses, and administering the Institute for Professional Development.

The two-year course designed to provide career advancement opportunities in management will soon begin a two-year course designed to provide career advancement opportunities in management at Nova College. This new program will be divided into six curricular areas: Behavioral Science, Business, and Management, Communications, Humanities, Science and Technology, and Social Science.

The Director of the new “early college” program is Mr. Frank Schorn, who has been the Director of the Upper House for the last five years. He is now planning to take over as the Director of the Upper House for the new program. Mr. Schorn said, “Dr. Smith at 964-1666 ext. 245 or 248.

Around the College

On our own merits, Nova College is now planning to take over the university’s financial concerns. Everyone at Nova College is now planning to take over the university’s financial concerns. Everyone at Nova College is now planning to take over the university’s financial concerns. Everyone at Nova College is now planning to take over the university’s financial concerns.

University School News

South Of The Border

It was dream vacation as well as a learning experience. “We studied in Mexico!” says Benjamin Weitzner, who teaches in Nova College.

Media Outreach

(Note: The Education Technology Lab recently received a $10,000 grant to train two people in technology and community service groups with their public media.

Welcome Aboard

Two brand new members of the class of 1997 made their appearance recently and with them they brought a new enthusiasm and energy to the Nova College community. The young men are Benjamin Weitzner and Michael Boehler. Benjamin’s father is Gary Weitzner who teaches at Nova College.

Safe and Sound

The new program will be divided into six curricular areas: Behavioral Science, Business, and Management, Communications, Humanities, Science and Technology, and Social Science.

SOCIAL NEWS

Gold Key Hosts Holiday Luncheon

Members of Gold Key and their husbands, and wives of Gold Key members, were the guests of Gold Key at a Holiday Luncheon at Le Club International in December.

The guest speaker was Patricia Kye, Federal Magistrate. Ms. Kye gave a lively, informative talk on her duties as a Federal Magistrate. She also praised Nova University for its contribution to the educational life of the community.

Everyone who attended the luncheon received a holiday gift. And a fine time was had by all.

PEOPLE IN THE NEWS

Mr. Larry C. Floyd, Sr. (CHE), Dean of Students at Indiana University, will be held this year at Turnberry Isle Country Club in Aventura, on March 27.

Dr. and Mrs. Hugo Waldheim of Fort Lauderdale, are scheduled to attend the annual meeting of the American Educational Association, USA, in Boston, Mass., in November. The topic of his address will be "Preparing a Graduation Trunk." During the week, he will speak on the topic , "Assessing and Interpreting the Needs of the Adult Learner." Dr. Knowles also spoke at a conference by State University system Board of Trustees Technical and Comprehensive Education. During the Fall, he will conduct a number of workshops for CAEL, the Council for the Advancement of Experimental Learning.

Dr. Eugene Daniels and Dr. Ron Meston maintained an information booth along with other organizations in the exposition area at the annual meeting of the Adult Education Association, USA. Dr. Moreton also attended the annual December meeting of the American Vocational Association in Arkansas. Dr. The Center for Higher Education was represented on the exhibition floor at the News University booth, doctoral program and other university publications were distributed. While in California, Dr. Moreton spoke to the December meeting of the Los Angeles Alumni Association.

Dr. Pauline Einbacher, Coordinator of the Florida (CHE) Chapter (CHE), has had her MARP on Latin-based vocabulary published by Western Tape. It is being used in eight states and Canada. The Navy has adopted it for use in the U.S.A. and abroad. The secondary level of this program has been requested by Western Tape, and another test on the mechanics of language will be on the market this fall.

The Florida Association of Community College convention featured presentations by four persons associated with the Center for Higher Education, Dr. Louis Bender, Dr. Terry O'Bannon, Dr. Jane Nelson, and Dr. James Weltenberger.

Nancy G. Roberts of the Pensacola Alpha Chapter had this practical: "The Pecial Implications of a Burn Program in a Community Hosptal" entered into the data base of the National Health, Education and Welfare. Several of her other practicals have been implemented in hospital settings.

Dr. George Loomis addressed a recent luncheon meeting of the American Association of University Women. It's topic was, "America, the oceans, and you."
