President Receives Award Calls For State Support

Reception Planned For Justice Arthur Goldberg

A reception honoring The Hon. Arthur J. Goldberg will be held on Wednesday, Sept. 18, from 4 to 6 p.m. at Nova University, Broward Community College, Boca Raton, and the University of Miami.

The reception will be held in the auditorium of the University Center for the Study of Law, 3100 S.W. 9 Ave., Fort Lauderdale.

Justice Goldberg, lawyer, jurist, diplomat and educator, former Justice of the Supreme Court of the United States and U.S. representative to the United Nations, will be at Nova Law Center this fall to teach a seminar on "Constitutional Decision-Making."

At 1 p.m. that day (Sept. 10), Justice Goldberg's seminar will be engaging in oral arguments. At 3 p.m., he will hold a press conference. The reception, beginning at 4 p.m., is open to the public.

On Sept. 18, the Florida Bar Association will host a second reception for Justice Goldberg, this by invitation only.

For further information, call Dean Carl Lewis at 252-2300.

Nova Joins Educational Consortium

Nova University has joined the Southeast Florida Educational Consortium, an organization comprising seven public and independent institutions of higher education in Dade, Broward and Palm Beach Counties whose purpose is to explore ways to provide comprehensive, complementary and cost-effective higher education programs and services for the people of South Florida.

On Wednesday, Sept. 17, Dr. Abraham Maltz presented the check to Dr. Abraham Fischler at the opening meeting of the Broward County Commission's Governor's Committee on Employment of the Handicapped. He said, "I'm a member of the committee and I want to help people realize their full potential through programs for handicapped children and its research laboratory.

Maltz has given $200,000 to Nova University to study potential programs for handicapped children.

Dr. Maltz, a plastic surgeon, was the author of "Psycho-Cybernetics," and is one of the best-selling books aiming at helping people appreciate and use their mental and emotional resources to the fullest.

Mrs. Maltz presented the check to Dr. Abraham Fischler at the opening meeting of the Broward County Commission's Governor's Committee on Employment of the Handicapped.

Fischler will meet with the presidents of the six other member institutions to discuss priority projects for the coming year. During the luncheon following the meeting, each president will be presented with a SPEF membership plaque.

The seven members of the consortium are: Nova University, Broward Community College, Florida International University, Florida Atlantic University, Miami Dade Community College, Boccard College and the University of Miami.

In 1970, the University had only five graduates and three programs. Today, the University has graduated 2,300 in its graduate class, and its educational programs range from nursery school through high school, from bachelors and masters to education specialist and doctoral level degrees, from a law school to an Institute for Retired Professionals.

In 1970, the University had two campuses—one at Fort Lauderdale and one at Port Everglades. Today it has three buildings on the main campus, a campus at Coral Springs, and off-campus programs in Broward, Dade and Palm Beach Counties, in 22 states, and in Panama, Venezuela and Colombia.

In 1970, the faculty and staff numbered 20; today, they number nearly 600. In 1970, Nova University's annual budget was $1.16 million; today, its annual budget is $17 million.

"This also marks the tenth anniversary of Nova's federation with the New York City Education Board of Education, a federation which helped make this possible," Dr. Fischler added.

"In the coming decade, Nova University will continue to develop programs that are responsive to the needs of the community," he promised.

Nova also has joined two educational consortiums to further expand and enhance its educational offerings. Dr. Fischler pointed out. One is in the South Florida Consortium which includes, along with Nova, Miami-Dade Community College, Broward Community College, and Florida International University. The other is in the Consortium for Quality in Non-Traditional Education sponsored by the University of Chicago and comprising 17 major universities from across the United States.

"Nova University has met its goal of being a comprehensive educational institution here in Broward County, at no cost to the taxpayer. Instead of millions of dollars, for a tax-supported university, Broward County—funit for land acquisition, for bricks and mortar, and for what may be termed "recurring"—all or partly-subsidized educational programs that promise much but deliver too little.

"It would make more sense from both an economic and an educational point of view for the state to subsidize Nova University to the degree that residents of Broward County could come here and get the quality education they need and want, at a cost commensurate with that of tax-supported schools.

"Nova University has come far in ten years," Dr. Fischler concluded. "With the same commitment and the same support from the community in striving to serve, it will continue to fulfill its mission to bring the highest quality education to all the people of the community.

Scholarship Established For Handicapped Law Student

Because her late husband devoted his life to helping people see the strength and beauty that lie within themselves, and because Nova University has done so much to help people realize their full potential through programs for handicapped children and its research laboratory, Mrs. Maltz has donated $60,000 to Nova University Law Center to be used for scholarships in perpetuity for handicapped law students.

Dr. Maxwell Maltz, a plastic surgeon, was the author of "Psycho-Cybernetics," and dozens of other best-selling books aimed at helping people appreciate and use their mental and emotional resources to the fullest.

Mrs. Maltz presented the check to Dr. Abraham Fischler at the opening meeting of the Broward County Commission's Governor's Committee on Employment of the Handicapped. Her late husband, Dr. Fischler, had been a victim of Muscular Dystrophy, and the checks were presented to Dr. Fischler at the July 27 press conference. The reception, Monday, March 14 and 15. The Festival is at Coral Springs High School, 6 p.m. to 9 p.m. on Thursday, Saturday, and Sunday, March 14 and 15. The Festival is at Coral Springs High School, 6 p.m. to 9 p.m.

Staff At The Festival:...
The Summer Workshop of the National DPA Program was attended by 62 candidates representing 10 clusters from throughout the United States. In addition to the regular sequence offerings, the Center for the Study of Administration initiated a new sequence in “System Dynamics.”

The following participants have successfully completed their oral examinations:

- Dr. Richard A. Bernstein, Director of Guidance, Rensselaer Junior and Senior High School, New York
- Dr. Catherine S. Eastwood, Nursing Director, Marion County Health Dept., Florida
- Dr. August E. Ellis, Director, Office of Budget and Evaluation, Pinellas County Florida
- Dr. Paul M. Comeau, Coordinator on Special Assignments, North Central District, Dale Board of Public Instruction

Day College Division

Accepting Applications

Applications are now being accepted for Nova University’s new undergraduate full-time Day Division, which begins classes Sept. 8.

High school students 16 years old or over who have completed all their high school requirements (except Senior English) may be eligible for Early Admission or for Nova’s Accelerated Program.

For further information, call Dr. James Smith at 475-7359.

Family Center Groundbreaking Set

Groundbreaking ceremonies for the new Family Center building will be held Sunday, Sept. 14, at 2 p.m. on the main campus.

The building will house Nova’s Family Center directed by Dr. Marilyn Segal, which will offer a full range of services for children of all ages. The Center for the Advancement of Education will occupy the building’s second floor, which is due for completion in February 1981.

The groundbreaking ceremony is part of an Open House to be held from 1-4 p.m. that day in the studio building, The Roslyn Building. The public is invited to visit the Family Center’s existing facilities, view the site and other materials designed by Dr. Segal. Learn about the new services now being offered, and participate in refreshments with the staff.

For further information, call Dr. Segal at 475-7670.
"Today, Nova University is a comprehensive educational institution that provides programs and services that directly help the local business community..."

It has become one of Broward County’s largest employers...

Its annual budget exceeds $17 million most of which is spent in Broward, Dade and Palm Beach Counties...

In the past 16 years, Nova has returned $108 million to this area in the form of capital improvements, goods and services...

Nova University is, in every sense, an important resource for the business and industrial community."

Dr. Abraham Fischler
President, Nova University
Undergraduate Programs

Dr. Anna Mae Walsh Burke is the Director of Nova College’s Corporate Division, which offers both certificate and degree programs in a wide variety of technical fields. Many major computer and electronics firms in Dade, Broward, and Palm Beach counties are now sending their employees to Electrical Engineering, Electronics Technology, and Computer Science programs offered by the Corporate Division.

Career Development

By 1990, the corporations will offer an accelerated curriculum consisting of 66 credits leading to the Bachelor of Science degree in Technological Management.

The Corporate Division offers Saturday and evening classes, enabling the students to complete their undergraduate degree in a technical area while holding a full-time position. Companies such as Motorola, MODCOMP, Harris, Westinghouse, Bendix, Systems Engineering Laboratories, Florida Power & Light, American Express, Semmes, Southern Bell, Sunair, OKI, Visual Graphics, Novallers, etc., are learning new skills or enhancing existing skills.

Both employers and students have expressed great enthusiasm for the program. The Corporate Division offers Saturday and evening classes, enabling the students to complete their undergraduate degree in a technical area while holding a full-time position. Companies such as Motorola, MODCOMP, and Bendix are cooperating with the program by making available classrooms at their own sites.

Registration for the next cycle is open now. Courses will begin in the middle of October 29, 1980. The upcoming cycle 3 courses include: Database Management, Digital Design, CORBOL, Computer Programming, Networks, Electronics, Industrial Planning.

For information call 737-7650 for further information.

BACHELOR OF CHEMISTRY

The Bachelor of Science degree is the first degree program in the Corporate Division. The Bachelor of Science degree is a professional degree that prepares students for graduate or advanced professional study. It is a degree that is recognized by employers as an indication of a student’s ability to think critically and solve complex problems.

The Bachelor of Science degree is awarded to students who complete a minimum of 120 semester hours of coursework, including 48 hours of general education and 72 hours of major coursework.

Nova College offers a series of degrees and certificate programs under the title the Corporate program. These programs have been developed in cooperation with industry and professional associations. They are designed so that working people can attain professional credentials while retaining their jobs in industry. Second Bachelor programs have been developed in cooperation with industry in basic intermediate and advanced areas. Workshops are being offered in high level technical areas to provide continuing training to industrial professionals. The Degree programs which have been developed to date are:

- BACHELOR OF SCIENCE IN ELECTRICAL ENGINEERING
- BACHELOR OF SCIENCE IN COMPUTER SCIENCE
- BACHELOR OF SCIENCE WITH A MAJOR IN BUSINESS MANAGEMENT

The following Certificate programs have also been developed:

- CERTIFICATE IN BASIC ELECTRONICS
- CERTIFICATE IN ADVANCED ELECTRONICS
- CERTIFICATE IN COMPUTER SCIENCE

Each course meets for 4 to 5 hours per week for 15-18 weeks. Workshops will be offered in a different format. Special courses may be requested by industry or groups of individuals.

SERVICE TO BUSINESS

Masters Programs

Master of Business Administration The program for the MBA in general management consists of 36 graduate credits with a Thesis or Experience Option. It is a model program of study designed and operated for the mature person with business experience and thus, redundancy of learning associated with standard graduate programs is minimized. Courses cover essential behavioral and quantitative areas needed for making sound decisions. The MBA Program stresses an innovative learning process.

MBA with Marketing Specialty
MBA with HRM with Health Management Specialty
MBA with Accounting Specialty
MBA with Human Resource Management Specialty
MBA with Energy Technology Management Specialty

Corporate Masters Program The Corporate Masters Program (CMP) delivers an advanced and fully integrated graduate management program on the premises of the corporate client. Nova University enters an agreement with the client by dealing directly with the head of training and development and completing a needs assessment of the management training requirements for the corporation. Nova then delivers the same program delivered on the campus for both the Master of Business Administration and the Master of Science in Human Resource Management. Some modification of design occurs as we tailor the selection of electives for either program to the forms we serve. The corporation does not lose the services of its employees while they are studying for their advanced management degree. There is another significant difference in the CMP in comparison to the five-weekends with outstanding prominent academic lecturers, students in the CMP meet an additional five to ten sessions with a peer professor chosen from upper-level management of the corporate client. The interim sessions are for applied purposes. In other words, the problem-solving techniques and concepts taught in our graduate courses are immediately applied through cases, problems and practices in the corporate client's industry. Thus, the corporation immediately begins to derive benefits from our on-site graduate program from the first day of CMP's origin. 

MS/Human Resource Management Nova University has another program for career minded individuals in management. The learning design, a blend of traditional and behavioral management concepts, includes new ideas developed to meet the needs of Organizational Development (OD).

The program covers theory and skills required to bring about change in today's complex, dynamic environment. Whether it involves organization restructuring or implementing a more effective communication system, solving intergroup conflicts, complying with affirmative action requirements, or training personnel to avoid skills obsolescence — the problems all deal with maximizing human resources.

Master of Science in Computer Sciences

With Broward County rapidly becoming one of the nation's major centers for the computer industry, it is especially important and significant that Nova University is helping to prepare trained, qualified people to fill positions in this burgeoning field through its Masters of Science degree program in Computer Science.

The courses are given on weekday evenings from 7 to 10 p.m. for the convenience of working professionals already in the computer field or planning to enter it.

The courses include: Computer Systems, Programming Languages, Compiler Implementation, Operating Systems Theory and Design, Microprogramming and Microprocessors, and Software Engineering.

Students for MBA/HRM Programs

Have Come From The Following Companies and Agencies

American Express
Amoco
ARC Corporation
Bendix Corporation
Boeing International
Burger King Div of Publix
Burroughs
Coca Cola
Central Data
Cardo Data

C O F C Sponsors

Credit Seminar

The Data-Processing City Chamber of Commerce is sponsoring a credit management seminar for small businesses. This seminar will be held at Nova University on Sept. 19 from 9 a.m. to 1 p.m.

The program is for owners or managers of established businesses having trouble with credit accounts. The program will explain how to establish credit, collect debts, use collection agencies and expand your business using credit.
Institute Of Coastal Studies

The Institute of Coastal Studies in an academic and research unit of Nova University, which operates within the South Florida Science Center. Multidisciplinary studies focus on contemporary problems and conflicts arising from increased use of coastal areas and deal specifically with issues about which they relate to use, management, and policy affecting the coastal zone and conflicting uses. These studies are the basis for the research, advisory, and consultative services to industry, government, and the public.

Charles Finkl

Survival Technology

Nova's Institute for Survival Technology directed by Wayne Williams provides intensive one-day "hands-on" training in all aspects of sea survival for individuals or personnel of companies involved in sea-related activities. Among the programs which could profit from this course are: airline crews, boaters, businessmen, coastal engineers, fishermen, government agencies, and the personnel of companies involved in the sea.

Wayne Williams

Services To Business

Nova University offers a variety of services aimed at serving the community's needs.

The typical products of the Nova's Department of Continuing Education include: services to business, education, recreation, and public service. The Institute of Coastal Studies "hands-on" training in all aspects of sea survival for individuals or personnel of companies involved in sea-related activities. Center For The Study Of Law

The Director of the Institute of Coastal Studies is Dr. Charles Finkl, Chief Editor, Encyclopedia of Earth Science, Series, Associate Consultant, Corporate and Business Services, Inc., former Staff Geochemist, International Nickel Australia Ltd., teacher, lecturer, and author of some two dozen articles on coastal zone science.

For further information, call the Institute at 505-747-7888.
Student Organizations Make Life Lively at Law School

by Kevin D'Espere and Karen Zoon

The following organizations endeavor to make life at Nova Law Center a little more interesting.

NOVA LAW JOURNAL:
By far the most prestigious student organiza-
tion, NOVA Law Journal is dedicated to enlightening its readers on legal issues of cur-
tent significance. Innovative and provocative, articles in the journal have appeared in recent national law review publications, the most recent being the National Law Re-
view. (Issue 4, Spring 1982)

HONOR COURT:
Nova's first female chief justice presides on this student-operated tribunal. She is Leslie W. Lord, a magna cum laude and Beta Kappa graduate of the University of Florida. Jurisprudence sets four other justices (the entire court is chosen by second and third-
year students) to rule on whether the high-

BLACK AMERICAN LAW STUDENTS ASSOCIATION:
Co-sponsored by Alpha Chi, the Black American Law Students Association (BALSA) directs the attention and awareness of younger law students to the many achievements of blacks and new opportuni-
ties available to the black population in the legal field.

PHI DELTA:
Headed by Gary Steinberg, this interna-
tional legal fraternity offers social gatherings, national meetings, and an internship program in the legal field. (March 2, 1982)

-spanish american law students association:
During the 1980 spring semester, the Spanish American Law Students Association was created at Nova Law Center. This organization joins together students from different countries of origin, with the same Hispanic roots. The organization's main purpose is to unite all Spanish American students working towards each other, not only to the Spanish American student body, but to the student body as a whole.

ASSOCIATION OF TRIAL LAWYERS OF AMERICA:
Organized in December, 1978, the Nova Law Center Chapter of the XTA, the Asso-
ciation of Trial Lawyers of America, is under the direction of Dorothy Moniz. A former resident of New York City, Dorothy came to Florida and received her B.A. in finance from Florida Atlantic University. She is currently employed at Florida Atlantic University and is working on setting up a special program which will offer in-depth courses in litigation skills to local practitioners.

ASSOCIATION FOR AN INTERNATIONAL LAW SCHOOL:
The Nova University Film Society has an extraordinary array of film classes in tap for the coming season. The films will be shown in the Main Auditorium on the main campus on Friday evenings at 7:30 and on Sunday afternoons at 2:30. They will also be shown at Nova Corals Springs on Thursday evenings at 7:30.

For information on tickets, call Belle Levant at 675-7676.

The following is a list of films for the 1980-81 season. The first date is a Thursday and the final screening is at Coral Springs. The second and third choices refer to showings on the main campus.

October 30, 31, and November 2 - "Don't Flip For Your Two Husband" (Brazil, 1977) (Barrett, Director). November 6, 7, and 9 - "Despertar" (Ger-

many, 1977) Rainer W. Fassbinder, Director.

November 13, 14, and 16 - "Man On The Run" (Sweden, 1973) Bo Wiker,

berg, Director.

November 27, 28, and 30 - "The Inno-
cent" (Italy, 1979) Luchino Visconti, Director.

December 4, 5, and 7 - "Sherlock, Jr. and Our Lady, Daring" (U.S.A., 1927) Robert Keaton, Director.

December 11, 12, and 14 - "Odd Obses-
sions" (Italy, 1960) Ken Ichikawa, Director.

January 6, 9, and 11 - "La Grande Bellez
e" (Italy, 1977) Masso Bolognini, Director.

We encourage you to attend these events and welcome your participation. (December 1980)

Law School Student Newspaper Wins Two National Awards

Nova Law Center's student newspaper, "Perspective," has won two awards in a national competition, open to law schools throughout the country, sponsored by the Student Press Law Center of the American Civil Liberties Union.

"Perspective" won one honorable mention in the category, "Entire New-
spaper, Reporting Over The Year." A condi-

tional honorable mention was won in the category of "Feature Article On Law In The Community," for an article titled "The Governor's Grant For A Treasure- Hunter's Gold" by Kaye Kantner-Mann.
