CREATOR OF THE SOURCE WAS KEYNOTE SPEAKER

"The next utilities will be information and education, like gas and electric."

Jack Taub

Jack Taub, creator of The Source and developer of Educational Utility with AT&T, was keynote speaker at the Sunday, August 3rd luncheon that concluded the Third Annual Summer Institute of the Ed D. in Computer Education program. The program is under the direction of Dr. Al P. Mizell.

The millionaire who was never graduated from high school wants to create a national education utility/supplying affordable curricula and computers to the country’s 55 million students.

"There's no reason why we can't make education exciting," says Jack Taub.

His plans call for an electronic delivery and management system that will instantly provide continually updated information, such as software programs, databases, graphics, news services, electronic mail, and curricula. All these materials will be stored and accessed through a main host computer housed in a school district.

The host computer will be connected through a state network to a main computer at the Network Control Center. The connection could be made through satellite, cable, or telephone lines.

Teachers will be able to develop individual curricula for up to 30 students working on their

(continued on page 4)

GOLF TOURNAMENT NETS $3,000 FOR ATHLETIC SCHOLARSHIPS

Charles Winterholer, James Winterholer, and Price Schwenck watch as Earl Morrell, former Miami Dolphin quarterback, "tees off."

The First Annual Nova University Golf Tournament, held July 19th at Rolling Hills Golf Resort, raised enough funds to offer three $1,000 athletic scholarships.

Dennis Dannacher, Assistant Director of University Relations and Development, was Tournament Chairman. He was very pleased with the outcome of this fund-raising event. "Community involvement and support was the key to our success," Dannacher said. "We had 23 tournament sponsors (local businesses who bought holes or donated beverages) and 160 players participating."

The top three winning teams took home Nova University trophies and pro shop gift certificates. Prizes were also awarded for the longest drive and two closest to the pins on the par threes. Door prizes were given to those with lucky tickets.

"This event benefited everyone: the players, the sponsors, the students, and the University," Dannacher said. "It turned out to be a beautiful day and everyone had a great time."

Nova's plans are to offer college golf and tennis in 1987 and baseball in 1987-88. Plans are already underway for further athletic program fund raising and for next year's tournament. Call Dennis Dannacher at 475-7653 or Sonny Hansley at 475-7345 with your ideas.
Miami Herald writer

Kitty Oliver awarded Nova fellowship

Kitty Oliver awarded Nova fellowship

Kitty Oliver, Herald Broward News columnist and arts writer, has been awarded a four-month fellowship by Nova University in Davie.

The fellowship, the first of its kind awarded to a South Florida journalist by Nova, began on September 1.

She will study the patterns of migration to Broward County by various ethnic groups from within the United States and from other countries. She also will study the effects of this migration on the cultural development of one of the state's fastest growing counties.

Oliver will publish a research paper outlining the results of the study.

Oliver, 38, a graduate of the University of Florida, has worked for The Herald in Broward for 15 years, primarily covering the arts, features, and entertainment.

She writes a personal column Saturdays and Mondays.

GRADUATE OF THE SPEECH-LANGUAGE PATHOLOGY PROGRAM OF NOVA UNIVERSITY GOES BACK "WHERE THEY NEED HER"

After two years of attending Nova University's master of science in Speech-Language Pathology program, Pilar Sepulveda will finally return to Bogota, Colombia. Pilar, her husband, and her two children arrived in the United States two years ago to fulfill her dream of becoming a speech-language pathologist.

Pilar felt she had much more to offer than she was permitted to do with only her undergraduate training from the Universidad del Rosario department for speech-language therapists. According to Dr. Jack Mills, director of the Speech-Language Pathology program at Nova University, Pilar has received "intensive training in diagnostics and treatment planning, and implementation. This includes work in all areas related to speech, language, and hearing impairments, e.g., language disabilities, voice, stuttering, phonology, and audiology."

Pilar's master's degree program is state approved by the Department of Education and prepares the graduate for the Certificate of Clinical Competence offered by the American Speech and Hearing Association, the national certifying body. Pilar has completed the degree program and now she can undertake diagnoses and write the appropriate programs for therapists to follow in the treatment of patients.

She will return to Colombia to work in F.E.I.C.O., a foundation that deals with all interdisciplinary problems related to communication disorders. She will not only put her knowledge to work clinically but will begin to provide supervision and in-service training to other speech-language therapists. It is her hope that one day Nova University will be able to train professionals in Colombia. Pilar says, "I must go back to treat the handicapped children of my country and to train others to do so. This is my mission."

Nova News

The Nova News is a publication of the Office of University Relations and Development.

Nova University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award bachelor's, master's, educational specialist, and doctoral degrees. Nova University admits students of any race, color, and national or ethnic origin.
Turtles, Corals, El Nino, and Coccolithophores

Watching the turtles at the Oceanographic Center, left to right, Norma Gardner, Sheila Buchwalter, Fran Fisher, and Sylvia Prant.

One of the most interesting aspects of Nova University is its diversity of activities both off and on campus. For example, although most have heard of the Oceanographic Center, relatively few members of the staff have been there. Solution: arrange a tour. And this is exactly what was done for Wednesday, July 16. A group of 24 staff members brown-bagged their lunches and went to see the Oceanographic Center. As usual, the resident staff was more than gracious in providing a warm welcome, refreshments, and a guided tour. Gary Hitchcock talked about waves; Dick Dodge about coral rings; Jay McCreary about currents; and Pat Blackwelder about coccolithophores—in fact, she even had a few babies called periwinkles, under the microscope for us to see. And of course we saw the turtles, some of them badly deformed, and the baby (but what a temper!) alligators. It was fun....informative....and now 24 members of our staff can talk up the Oceanographic Center because they've seen it!

New Programs at The Center for the Study of Administration

The Center for the Study of Administration of Nova University announces the creation of the Institute of Health Policy and Administration. Dr. Neuman Pollack, director of the Center, stated that the Institute has these major goals.

1. To prepare persons to administer health services institutions and agencies such as the medical insurance carriers and pharmaceutical firms (M.S. in Health Services Administration);

2. To provide continuing education and staff development seminars for administrators and department chairpersons of health services institutions.

The master's degree program in health services administration is designed for working professionals. Classes are offered on alternative weekends on the quarter basis for 21 months. All coursework considers five principal factors affecting the delivery of health care: the patient and family, the administrator, the institution, government agencies, and various constituencies.

Themes integrated into coursework are an analysis of public policy issues, e.g., the cost of treatment and accessibility to health care, financial management, and management practices.

An advisory committee composed of local health care experts has been appointed. They are--

Alan S. Whiteman, President, FACMGA, North Broward Radiologists, P. A.
Ronald Sepielli, Training Director, Management Development, N. Broward Hospital District
Ralph A. Marrinson, President, Manor Pines Convalescent Center
James Sample, Chief Executive Officer, Plantation General Hospital
S. A. Mudano, Chief Executive Officer, Memorial Hospital
Jerry O'Neal, Ph.D., Vice President and Executive Director, AV MED Health Plan
Paul I. Chudnow, M.D., Bennett Medical Plaza
Jacqueline Harfst, Human Resource Department, Bethesda Memorial Hospital
Cheryl Hill, Home Health Services of the U.S.
Sr. M. Mercy McGrady, Chief Executive Officer, Holy Cross Hospital
William Stafford, Executive Director, Broward County Medical Association
Myra Bomba, Administrator, Broward County Public Health Unit
Richard J. Stull, II, Administrator, Northwest Regional Hospital
Dr. Pollack named Daniel Austin, Ph.D., director of the Institute.
computers simultaneously, Taub said. Students could also communicate through their computers with other students in their school, state, or even another country, he said.

The education utility would operate as the phone company originally did, Taub said. School districts would rent the computers and pay a 50-cent an hour fee for the computer time.

Taub doesn't flinch when he calculates placing a computer on every students and teacher's desk would cost $100 billion.

"I approached this thing like a business. I'm a practical person and a businessman," says Taub.

Like a good businessman, he researches his product by studying textbooks and how teachers teach. What he found, appalls him.

"The textbook was one of the great horror stories of all time," Taub says. "Textbooks are outdated by at least 10 years by the time they are approved for students."

The computer can replace the textbook by providing instantly updated information and an automatic motivation for students, Taub said.

In his introduction, Dr. Abraham Fischler, president of Nova University, had already set the tone by stating, "Education must go through a major change if it is to meet the needs of society. We need to change the organization and structure of the way we deliver education."

Present at the luncheon at the Kapok Tree Inn were key officials of the University; staff members from The University School; students attending the summer institute; and members of the Phi Delta Kappa Society.

Excerpts from
The Hollywood-Sun Tattler,
Tina Ross, staff writer.

ALUMNI NEWS

Gerald W. Carson (Ed.D. '83) has joined the administrative staff at Lord Fairfax Community College in Virginia, as coordinator of counseling services.

Joe Natoli (M.B.A. '80), controller of the Miami Herald, has been named the newspaper's production director. In his new post, Natoli will supervise the production of the newspaper's 11 daily editions.

John Robert Banister (J.D. '80) has been appointed to the Advisory Board of the Gardens Park Plaza branch of the Bank of Palm Beach and Trust Company.

Ross Ann Craig (Ed.D. '78), a resident of West Chester, Pa., has been named Vice-President for Student Development at Delaware County Community College. She has been employed at the college for 13 years.

Dan Nolan (Ed.D. '85), has been appointed the new director of curriculum and staff development for the Manatee County School Board in Bradenton, Fla.

Terry Stoudnour (Ed.D. '78) was promoted to a full professorship at Messiah College in Grantham, Pa., in Cumberland County. He also was appointed chairman of the Education Department.

Frank P. Mussano (Ed.D. '78), Dean of Student Affairs at York College (York, Pa.), has been appointed to the position of Dean of Academic Support Services, effective July 1.

William B. Hayes (B.S. '83) is production and inventory control manager at Motorola, Inc., in Fort Lauderdale, Fla.

Carter R. Boynton (M.S. '85) was promoted to controller of Coulter Leasing Corporation in Pembroke Pines, Fla.

Ethel Louise Auerbach (Ed.D. '80) is assistant principal of the exceptional student program for Dade County Public Schools, Fla.

Nancy E. Stetson (Ed.D. '85) was recently promoted to dean of development and information services at Marin Community College in California.

Joyce Hing McGowan (Ed.D. '80) is director of vocational education and regional occupational programs at the Napa County Office of Education in California.

Jeanne Caruana (M.B.A. '82) is controller for First Marketing Corporation in Plantation, Fla.

Milt Forrest (M.B.A. '77) was recently promoted to proficiency development specialist in the program support office of AFS Miami Air Route Traffic Control Center.

Ed Lentz (M.B.A. '85) is account manager at Florida Power & Light (FPL) Energy Services, Inc.

Brent Smith (D.P.A. '86) was elected Vice-President of the Louisiana Environmental Professionals Association for 1986. Dr. Smith is an environmental specialist with the U.S. Minerals Management Service in Metairie, La.
Ann F. Mychalus (Ed.D. ’84), a 22-year resident of Prince George's County, Md., recently took the oath of office as the newest member of the Board of Trustees for the Price George's Community College.

Edward J. Long, Jr., (Ed.D. ’78) has been named director of athletics at St. Petersburg Junior College (SPJC) in Florida, effective immediately. Prior to being selected for the newly created post as collegewide athletic director, Dr. Long served as assistant to SPJC President Carl M. Kuttler, Jr.

Ellen Gruber (M.S. ’85) is now clinical director for the National Institute for Behavior Changes. She is working with weight, smoking, and anxiety phobias.

Sally Jamsa (Ed.S. ’79) has been principal of Cooperwood Elementary School in Phoenix, Ariz., since 1980. She said "I love Nova University!"

Samuel D. Greco (D.P.A. ’83) has retired as of March 14, 1986, as aerospace engineer with the U.S. Army plant representative office, Boeing Vertol Company, Ridley Park, Penn., after 15 years of federal government service.

Paul Pai (Ed.D. ’82), head of the division of Applied Science and Technology at Louisiana State University in Eunice, La., developed the first interactive video electronics lab in Louisiana and will serve as a panel member in the interactive video session at the 1986 Annual Conference of the American Society of Engineering Educators.

Ronald J. Pritchard (D.P.A. ’82) is commander of the resource management division at the Fort Lauderdale Fire Department.

Michael Bass (J.D. ’83) is a partner in the law firm of Cummins and Bass, P.A., in Hollywood, Fla.

Lucy Brown (J.D. ’82) has recently become an associate of the West Palm Beach law firm of Montgomery, Searcy & Denney, P.A. She is specializing in plaintiff's personal injury litigation.

Kurtis J. Lile (Ed.D. ’77), director of state and federal educational programs, received the 1985 President's Award for Outstanding Service to the California Association of State & Federal Educational Programs.

Merik R. Aaron (Ed.D. ’82) was promoted to the position of district director of curriculum for the Bellmore-Merrick Central High School District in New York.

The Seasons (excerpts): Joseph Haydn Christmas Carols (secular) arranged by John Rutter Director: Peggy Joyce Barber Accompanist: Dana Davis with members of the South Florida Symphony Orchestra
SUMMER '86: NOVA UNIVERSITY ON THE MOVE

Summer is a busy time at Nova University. It is the time when students in all clusters throughout the country and the world come to the campus or travel elsewhere for the summer institutes; a time for the faculty to attend meetings of professional organizations; a time to welcome new colleagues on campus; and, of course, a time for commencement. This year, commencement included a weekend replete with activities and events. It started with the Golf Tournament on Saturday (see article) followed by the annual Alumni Dinner-Dance in the evening and culminated in the commencement exercises on Sunday afternoon.

Following are excerpts and photographs from the various events that took place.

From the Ed. Leaders Summer Institute held at the L'Enfant Hotel in Washington, D.C.

"Education U.S.A."

Education U.S.A.--The Summer Institute--is an integral part of the Instructional Program and is designed to introduce participants to important ideas, activities, and individuals as a means of attaining objectives in the areas of leadership behavior, network building, and national perspective; and, to facilitate organizational maintenance activities such as agenda building, policy interpretation, and establishing trust relationships necessary to the effective delivery of this national program. Education U.S.A.: 1986 will focus on broad questions and issues associated with three major themes: (1) Taking Stock of the Fruits of School Reform: Goals, Processes, Resources and Outcomes, (2) Political Process and (3) International (Comparative) Education.

Lloyd Duvall
Director

From the Ed.D. Program in Early and Middle Childhood Summer Institute held at The Knickerbocker Hotel in Chicago, Ill.

"Our World...Our Potential...Our World"

Welcome to Summer Institute 1986!

Chicago, Illinois, provides the ideal setting for a week devoted to using community resources to enrich children's lives. We invite you to join with us in discovering the wonderful world that Chicago provides for its children!

Translate your discoveries into an action plan in your own community through your study area work, your practicums, and your community outreach activities.

We extend our best wishes and welcome to each of you!

Richard Goldman
Abbey Manburg
Diane Marcus
Mary Ellen Sapp

Left to right, Judith Waddington; Dr. Alan Nelson, cluster coordinator; Dr. Audrey Witzman, cluster coordinator; and Micahel Jaime. Over 300 people attended the reception hosted by the program.

From the Third Annual Summer Institute of the Doctor of Education in Computer Education Program held at Rolling Hills in Fort Lauderdale, FL.

"The Future of High Tech in Education and Training"

Our theme, "The Future of High Tech in Education and Training" will be vividly brought to life for you as you meet your Advisory Board for the first time. Dr. Charp, Dr. Merrill, Dr. Ofiesch, and Dr. Postlethwait are true experts and pioneers who can help guide us to prepare effectively for the future. By the term "High Tech" in our institute theme, we mean the use of computers, telecommunications, and new developments such as interactive video. Our field is in such a state of evolution and change that we hardly have time to stand still long enough to predict what will come next. Instead, we must learn to change with the future.

I believe that you will find this summer institute well suited to help prepare you for such a future.

Al P. Mizell
Director
From the First Annual Master of Science Computer-Based Learning Summer Institute held at Rolling Hills Country Club, Fort Lauderdale, FL.

"Knitting It All Together"

This year the Center for Computer-Based Learning will strive to offer an experience to students enrolled in the M.S. in Computer-Based Learning program. Our objective for adopting the theme "Knitting It All Together" is to provide you, the master's student, the opportunity to get acquainted with Nova University faculty and to get to know each other as members of the Cohort 001 Charter Group. Our plan for the M.S. Summer Week is to bring the master's program in focus by giving you the opportunity to gain hands-on UNIX* experience and to meet professionals who have a variety of expertise in the areas of expert systems, database management, curriculum and instruction, CD ROM, satellite and telecommunications, and training.

I hope that you will find the first annual M.S. Summer Week to be an informative and rewarding experience.

John A. Scigliano
Director

From the Fourteenth Annual Summer Institute of the Programs for Higher Education held at The Marriott Hotel in Fort Lauderdale, FL.

"Communication: Dateline 1986"

Through the years each institute has been the highlight of the year. This one appears to be no exception. It again provides an opportunity for professional educators and trainers to meet and exchange ideas and to become involved in one of the finest networks in education.

This summer our educational network has expanded even farther. In addition to meeting students from the United States, Canada, South America, Puerto Rico, and Germany, you have the opportunity to meet some of your Chinese colleagues. Even though they live and work on the other side of the earth, I think you will find many similarities.

This institute has been designed to facilitate an international sharing of ideas. I encourage each of you to grow and use wisely the wealth of talent present. Take this opportunity to learn from your peers, as well as from your professors.

Ross E. Moreton
Director

From the Summer Institute of The Master's Program for Child Care Administrators held at The Royce Hotel in Fort Lauderdale, FL.

Dr. Mark Kreuger speaking on "Promoting Job Satisfaction and Agency Commitment."

The purpose of the institute, which depends on each of you for its success, is the implementation of the wealth of networking opportunities available to you among your colleagues in the program. You and your colleagues, coming from diverse backgrounds and locales, represent the true leadership in the field of child care and administration. We have done what we can to foster this networking. You have information on each program participant and provision has been made for both formal and informal interaction. Make use of this time to enrich yourself by establishing contacts and friendships that extend beyond this short week and will affect the children and families you serve.

Abbey Manburg
Director
Norman Powell
Associate Director

*UNIX is a trademark of AT&T Technologies and Bell Laboratories
IN BRIEFS

FACULTY CHANGES-- Dr. Diane Marcus, director of the Ed.D. Program in Early and Middle Childhood, has been named director of program development. In this new role, Diane will spend her time recruiting new students and creating clusters throughout the country. Dr. Abbey Manburg, director of the Master's Program for Child and Youth Care Administrators, will assume the directorship of the Ed.D. Program and continue as director of the MCCA Program. Congratulations to Diane and Abbey on their new appointments.

Joan Rollins-Bellows, director of the Ralph J. Baudhuin Oral School of Nova University, represented the state of Florida at the international convention of the Alexander Graham Bell Association for the Deaf. Ms. Bellows is one of the fifty individuals in North America selected to advise parents of hearing-impaired children on their rights to an appropriate education for their children. She was one of 1200 participants who met in Chicago, IL.

Nova University's continued interest in education was once more reflected in the election of Dr. Norman Powell, associate director of the Master's Program for Child and Youth Care Administrators, to the Board of Directors of Child Welfare League of America, Inc. This organization marshals support for children's causes and strives for continued high standards of service delivery.

AMERICAN ASSOCIATION OF INFORMATION SCIENCE (ASIS)-- Dr. Barry Centini was invited to speak at the 49th annual meeting of ASIS held on October 2 in Chicago. His topic was "Networked Training for Information Scientists."

ANNUAL MEETING OF THE ACADEMY OF MANAGEMENT-- Neuman Pollack, director of the Center for the Study of Administration; Mary Rafferty, administrative director of the CSA doctoral programs; and Jane Whitney Gibson, director of business and administrative studies division at Nova College, attended the annual meeting of the Academy of Management in Chicago, August 12-16. Approximately 60 Nova DBA students attended the Academy meetings and concurrent Nova workshops. This year's meeting represented the 50th anniversary of the Academy and the centennial celebration of modern management theory. Such notables as Peter Drucker and Herbert Simon gave keynote addresses.

PUBLICATIONS-- Darlene Thurston, assistant director of undergraduate education programs at Nova College, will have two articles published this fall. "Preparing Minorities for Teacher Competency Tests: A State of the Art" will appear in Urban Educator. The other, which addresses those variables high school students consider in deciding whether or not to select teaching as a career option, will appear in the Louisiana Education Research Journal.

PARTICIPANT IN THE LEADERSHIP BROWARD PROGRAM-- Jane Whitney Gibson, associate professor of management and director of the business and administrative studies division at Nova College, has been accepted as a participant in the fifth annual Leadership Broward program. Nova University is sponsoring Dr. Gibson, who joins 54 other prominent Broward County representatives, who will attend conferences and work in study groups arranged by the Fort Lauderdale/Broward County Chamber of Commerce. Issues to be addressed include: vocational education in Broward County, affordable housing, and the gambling controversy. Dr. Gibson and Dr. Philip DeTurk, director of Nova College, attended the opening cocktail reception at Stranahan House on August 27.

GLOBAL PERSPECTIVES FOR U.S. TECHNOLOGY-- Massoud Farabakhsh, associate director of the business and administrative studies division at Nova College, represented Nova University at the "Global Perspectives for U.S. Technology: Business Opportunities in Asia and Europe" conference held on September 24 at the Radice Corporate Center. The conference was sponsored by Fort Lauderdale Area World Trade Council, Florida District Export Council, and American Electronics Association. Dr. Bruce Merrifield, assistant secretary for productivity, technology, and innovation, U.S. Department of Commerce; George De Bakey, deputy assistant secretary for science and electronics, U.S. Department of Commerce; and Dr. Joseph Boyd, chairman, Harris Corporation, delivered the keynote addresses.
Nova University's 7,000 students are enrolled in programs on the main campus, throughout Florida, and in 22 states. Nova's 17,423 graduates live in all 50 states and 16 foreign countries.

Capital assets of the University are valued at approximately $40 million.

In addition to its own faculty, Nova has brought some 80 renowned speakers to Fort Lauderdale.

"Since 1967, Nova University has grown and developed because of the commitment of countless individuals.

Trustees, faculty, staff, students, graduates, and friends of the University have all had a shaping hand in making Nova University what it is today -- a major force in education.

The milestones and successes that are documented in this report are the achievements of literally thousands of men and women. Together, we have already come this far. Tomorrow, the future is ours."

Abraham S. Fischler,
President
Accreditation

Accreditation is the academic heartbeat of any University. Since its earliest years, Nova University has been accredited by the Southern Association of Colleges and Schools. The Commission on Colleges of the Southern Association of Colleges and Schools reaffirmed the University's accreditation for 10 years.

In addition, the American Psychological Association has awarded full accreditation to Nova's doctor of psychology program (Psy.D.). The Ph.D. program has been accredited by the APA for the past 10 years.

Finances

The greatest challenge to any non-tax-supported university like Nova is to be financially secure. Nova University has never had the luxury of a large endowment. For the second year in a row, the University has operated in the black. Income for 1985-1986 was $39 million—an increase of 12.5% over the previous fiscal year.

Economic Impact

With a faculty and staff of 900 men and women, Nova University is now one of the largest employers in South Florida. Its annual payroll is approximately $16 million.

In all, Nova University returns about $30 million to its local community in payment of salaries and through the purchase of goods and services.

The economic impact of Nova University is approximately $150 million.
Philanthropic Support

From July 1, 1985 to June 30, 1986, Nova University received a total of $1.7 million in charitable contributions of cash, real estate, and gifts-in-kind (computers, equipment, library resources, etc.). Of that total, $461,300 was restricted to the Ralph J. Baudhuin Oral School. In addition, Gould, Inc., Computer Systems Division donated computer equipment valued at $170,000. Contributions to the 1986 Alumni Annual Fund are running 24% ahead of those for 1985. Corporate matching gifts from companies like American Express, AT&T, IBM are increasing significantly.

Contracts and Research Grants

Research and community service, along with teaching, are a major part of the mission of Nova University. During 1985-1986, contracts and grants principally to the Oceanographic Center and the Behavioral Sciences Center totaled $3.55 million—an increase of 27% over the prior year. Federal grants, chiefly from the National Science Foundation, support research at the Oceanographic Center. State of Florida contracts provide resources for the Behavioral Science Center, particularly in clinical psychology and social services.

University School

The University School (pre-kindergarten—high school) of Nova University is one of 20 schools nationwide that have been accepted into the prestigious Coalition of Essential Schools. The Coalition is led by the educational philosophy of Theodore Sizer, formerly dean of education at Harvard and now professor at Brown. Through the curriculum, students not only master basic skills, they are challenged to think creatively and act responsibly.
Through its Center for Computer-Based Learning, Nova University is pioneering the development of advanced systems of educational delivery.

The Corporate Consortium

The Corporate Consortium is a partnership of Nova University, business, and industry that has emerged steadily during the past two decades. Because Nova University has for so long served the educational needs of working professionals, it has been able to cooperate directly with major corporations to assess their employees' academic needs and even to provide instruction at corporate sites. The University is also in a position to develop new programs to serve business and industry within Florida and nationwide.

Increasing numbers of corporations contribute major gifts-in-kind (computers and other appropriate equipment) as well as cash donations to the University.

Corporate linkages represent a major source of growth and development and an area which Nova University is uniquely able to serve.
Debbi Robin, Director of Undergraduate Cluster Programs, was a speaker at the Fourth Annual Conference on Non-Traditional and Interdisciplinary Programs held in Arlington, Virginia. Her topic was "Motivating and Evaluating Adjunct Instructors in Off-Campus Locations -- A Model for Successful Communication."

**THE BROWARD COUNTY CHAPTER OF THE FLORIDA ASSOCIATION FOR COMPUTERS IN EDUCATION (FACE)**--The Broward County Chapter of FACE invited Dr. Barry Centini and Dr. Al Mizell to become members of the board for the local association. The Ed.D./CED program received a letter of appreciation from the president of FACE for the invitation Nova University extended to local FACE members to attend various presentations by national experts as part of the summer doctoral institute on campus. Similar letters of appreciation were received from individual guests representing American Express, the Broward Chapter of the National Society for Performance and Instruction, and the Board of Public Instruction for Broward County.

**AMERICAN VOCATIONAL ASSOCIATION**--Dr. Ross Moreton, director of the Programs for Higher Education, was recently appointed to the following committees of the American Vocational Association: chair of the Membership Committee (second appointment) and member of the following committees: Marketing, Program, and Policy (technical education divisions). As well, he was appointed to the editorial board of the Journal of Studies in Technical Careers and named southern region representative for the American Technical Education Association.

**GUEST AT THE LINGUISTICS COLLOQUIUM SERIES**--Dr. Andrea Draizar, from the department of speech-language pathology of the Center for the Advancement of Education, has been invited to be the guest lecturer at the Linguistics Colloquium Series in the spring of 1987. The topic of her presentation will be "Applied Linguistics and Speech-Language Pathology." As well, Dr. Draizar recently received an Award for Continuing Education from the American Speech-Language-Hearing Association in recognition of continued professional study.
COMMENCEMENT 1986

From Dr. Abraham Fischler, president of Nova University:

"The dream of our founders was the creation of a university that provided education from birth through retirement years in an innovative manner. The framework is now in place."

Dr. Abraham Fischler

The past year has been very gratifying and extremely important in the history of Nova University. In the academic area, the University received a ten-year reaffirmation of accreditation by the Southern Association of Colleges and Schools; our Ph.D. and Psy.D. programs in clinical psychology received full accreditation by the American Psychological Association. For the second successive year, we have balanced our operating budget and, having dissolved the federation, we are now a completely independent institution.

The structure of the university comprises programs in the Family Center, The University School, Nova College, and the graduate divisions, culminating with the Institute for Retired Persons. In addition, through our Center for Computer-Based Learning, Nova is providing degree opportunities at the master's and doctoral level utilizing computer telecommunications. This tool gradually will be utilized for traditional programs on campus as well as for our national programs.

With your support, Nova University will continue to grow and develop into an outstanding institution. Through your efforts, we will continue to provide high quality educational opportunities for the citizens of this community as well as for professionals throughout the country.

Distinguished Alumni Achievement Awards

Three alumni received the Distinguished Alumni Achievement Awards at the 1986 Nova University Commencement on July 20th. This award is the highest award that can be presented to an individual by the Nova University Alumni Association. Dr. Stephen L. Goldstein, Vice-President for University Relations and Development made the presentations.

To be considered for this award, an alumnus must have made significant contributions to his or her profession or community or to society. In addition, the alumnus must have demonstrated loyalty to Nova University and the Alumni Association.

Dr. LaRuth H. Gray (Ed.D.'75) has been the Superintendent of the Abbott Union Free School District in Irvington, N.Y., since 1983. She also serves as a consultant to the Houghton Mifflin Publishing Company. Formerly, she was assistant Superintendent of the New Rochelle, New York, School District and served as a proposal reviewer for the National Endowment for the Humanities and the U.S. Department of Education.

Since receiving her doctorate from Nova, Dr. Gray has won numerous awards and honors. They include being named to the Executive Educator 100 for her excellent leadership in school systems (Jan., 1986); the Outstanding Educator Award from the National Association of Minority Bankers (1976); the Outstanding Educator Award from the National Council of

Dr. James S. Kellerman (left) receives his Distinguished Alumni Award and congratulations from Joseph Fernandez, president, Dade County, Florida, Alumni Chapter, and Dr. Stephen L. Goldstein

Dr. Edwin Manson present the Distinguished Alumni Award to Dr. William D. Wagoner.

Dr. LaRuth H. Gray (left) received her Distinguished Alumni Award and congratulations from Dr. Diane Gess, president of the Alumni Association-International, and Dr. Stephen L. Goldstein
Negro Women (1975); the Community Service Award from the Westchester Salute Committee (1984); and the Community Service Appreciation Award from the Mayor of New Rochelle, N. Y. (1984 and 1985).

Dr. James S. Kellerman (Ed. D.'75) was recently appointed chancellor of the North Orange County Community College District, headquartered in Fullerton, California. He has also served as vice-chancellor of educational services of that district as well as executive director of the California Association of Community Colleges.

Dr. Kellerman received his doctorate in community college administration. Dr. Kellerman has, since then, been the recipient of numerous awards and honors. They include The American Society of Association Executives Key Award Nomination (Jan., 1986); the Executive of the Year Nomination from the Florida Society of Association Executives (Dec., 1981); The Distinguished Leadership Award presented by the Florida State University and Regional Higher Education Center (Dec., 1981); and the Distinguished President Award presented by Division 6, Florida District of Kiwanis International (July, 1975).

Dr. William D. Wagoner (D.P.A.'82) is the Assistant City Manager and the director of Community Development, Planning and Research of Berkley, Michigan. Formerly he was the City Planner of Berkley. He has also been a high school instructor and was in the United States Army from October 1964 to September 1966.

Dr. Wagoner received his doctorate in public administration. His career participation reflects the international scope of the Nova D.P.A. program. He has become a registered professional manager in Canada and is a Fellow of the British Institute of Management.

Dr. Wagoner is very active in his church and in numerous community organizations. They include The Oakland Family Services, Oakland County, Mich.; the Berkley Men's Club; the Berkley Knights of Columbus; and the Berkley Lion's Club, of which he was president from 1983 to 1985.

The Practitioner's Hall of Fame

The "PHOFers," as they are traditionally called, are educators who have won a place in the Practitioner's Hall of Fame annual celebration. They have made significant contributions to their educational institutions and have, in the words of Dr. Ross Moreton, director of the Programs for Higher Education, who gives the award, "submitted exciting projects--things that are really happening." It is indeed an honor to be a PHOFer and this year's four winners attest to the competitive spirit of their presentation.

Dr. Frank B. Campanella's paper was titled "Managing in the Information Age: The Boston College Experience."

"Communications About Adult Learning: Transition and Renewal in Continuing Education at The University of Charleston" was the topic chosen by Peter Mills.

Envigorating is the word for the talk given by Frances P. Osborn in her presentation on "Does Your Planning Communicate Action or Is Your Strategic Plan a Coffee Table Book?"

Very applicable to the times was Angela Richards' talk on "Faculty and the Distance Learner: Communicating Via Computer Conferencing."

Dr. Abraham Fischler, president of Nova University, has announced the following faculty appointments for the 1986-87 academic year:

The Family Center of Nova University is pleased to announce the appointment of Barbara L. Primack as assistant director of the Ralph J. Baudhuin Oral School. Last year, Mrs. Primack was a program coordinator at the Baudhuin School, which offers elementary and preschool educational programs for children with learning disabilities, speech/language disorders, hearing impairments, or mild developmental delays.

Mrs. Primack has had extensive experience with children with special needs. Before moving to Fort Lauderdale, she was a consultant and supervisor at the Cove School, the oldest school for children with learning disabilities in the United States. She was on the faculty of the National College of Education where she supervised student teachers and authored Special Education: Clinical Experiences, A Handbook for College Students, Cooperating Teachers, and Administrators.

According to Mrs. Primack, "The Baudhuin School is an exciting and challenging place to be. Our school is committed to fostering the academic and social/emotional growth of the children. After a successful first year, we are now looking forward to the coming school year with doubled enrollment and an outstanding faculty."

Dr. Daniel L. Austin has been named the director of the Institute of Health Policy and Administration at Nova University. He received his Ph.D. from the University of Kansas. He has twenty years of experience in higher education, including having been the assistant to the president of Nova University. He attended graduate school at both the University of Kansas and Temple University. Austin has been a member of the board of directors of numerous organizations including the National Council for Social Studies, Global Perspectives, Inc., and the University Center of Harrisburg.

Dirk Hilyard has been named Sports Information Director for Nova University. He will be responsible for developing publicity, media relations, public relations, statistics, and news releases for the athletic department. Hilyard is a graduate of Mercer University in Macon, Georgia, where he majored in communications and journalism. An NCAA Division I soccer player at Mercer, Hilyard first received his associate of arts (A.A.) degree from Broward Community College before transferring to Mercer. He is a resident of Cooper City and is a graduate of Cooper City High School.

Thelma Albritton has been named coordinator of program development in the Speech-Language Pathology Program. In this capacity she will promote the combined efforts of the speech-language pathology program and the Ralph J. Baudhuin Oral School of Nova University by integrating the activities of the graduate students in the two. Ms. Albritton is an active member of ASHA (American Speech-Hearing Association) where she served in numerous capacities and founded the official publication of the association, Speech, Language and Hearing Services in Schools. Albritton was associate professor of speech-language pathology for 22 years at Eastern Michigan University.

Manuel B. deCastro has been appointed instructor of mathematics at Nova University. Currently he is studying for his doctoral degree at the University of Houston. He holds a master of science degree in mathematics from the University of Miami. While studying at Houston, deCastro was a teaching assistant in the mathematics department. Before that, he was the senior mathematician for the Texaco Research Lab in Houston. deCastro has written numerous works on various aspects of mathematics.

Nova University is pleased to announce that Dr. Mantha Mahallis has been appointed director of institutional research. Dr. Mahallis received her Ph.D., M.A., and B.S. degrees from Michigan State University. Since 1973 Dr. Mahallis has served as director of institutional research and systems planning at Broward Community College. As well, she has been a consultant, in this field, to numerous universities and community agencies.
Robert Parks has been named lecturer and supervisor of interns in Nova College.

He is a native Floridian who received his B.A. in History from Belmont Abbey College. He attended Florida Atlantic University where he received a B.B.A. in Accounting and a M.Ed. in Curriculum and Instruction. In addition, he is certified in Educational Administration and Supervision.

As well, Mr. Parks is politically active and is now a candidate for the Board of Education in Broward County. He says, "We must form a new, long-term coalition to support our public schools—one that joins business, labor, and civic leaders with parents, educators, and the School Board; and we must provide an educational system which produces responsible citizens."

As a civic leader, he has membership in various organizations such as the State Department of Education; Minimum Standards Committee; Broward Coalition for Responsible Funding of Education; School Board District Advisory Committee; Fort Lauderdale Chamber of Commerce Education Task Force; Citizens for Responsive Government.

Dr. Edward Becker has been appointed professor of accounting at Nova University. He received his Ph.D. in 1984 from The Pennsylvania State University and has an M.B.A. from Drexel Institute of Technology in Philadelphia. Before coming to Nova, Becker was an assistant professor at the University of North Carolina in Wilmington, at Virginia Commonwealth University, and at Bucknell University. He has served as an independent CPA for small businesses and as an in-house consultant on accounting, auditing, and quality control for various organizations.

Dr. Itzhak Wirth has been named associate professor of business at Nova University. He received his Ph.D. from the University of California, Berkeley, in 1976. He also holds a master's degree from Berkeley and an M.B.A. from The European Institute of Business Administration in Fountainbleau, France. He speaks English, Hebrew, French, and Polish and has lived in numerous countries including Israel, England, France, Turkey, and Sweden. Previously, Wirth was an associate professor at Whittier College in the department of business administration. He has authored many journals and magazine articles, book chapters, and papers.

Dr. Andrea Draizar has been appointed coordinator, off-campus services and continuing education in the Speech-Language Pathology program. Dr. Draizar most recently held the position of chief, speech-language pathology at Baptist Hospital of Miami where she established a complete diagnostic and rehabilitative program for both adult and pediatric populations. As well, she has been extensively involved with bilingual aphasia problems. She holds a Ph.D. in linguistics from The Pennsylvania State University.

Dr. Herman Ivelaw Brann has been named assistant professor of economics and finance at Nova University. He received his Ph.D. in economics from the University of the West Indies in Jamaica. He also holds a master's degree in agricultural economics from Cornell University. Brann has lectured and taught throughout the world: the University of Guelph and the University of the West Indies. He has written for many publications and has been funded to do research by the International Dairy-goat Research Center. Brann has also won Merit Awards from Prairie View A&M University and the University of the West Indies.

Dr. John K. Kingsbury has been appointed director of doctoral student development for the Center for the Study of Administration at Nova University. As well, he is teaching as an adjunct professor in the M.B.A. program. He received a Ph.D. in leadership at Florida State University and a master's degree in counseling from Virginia Polytechnic Institute. Before assuming the position at Nova, Kingsbury was the acting manager of human resource development for Lockheed Space Operations in Titusville, Florida.

Robert E. Glass has been named lecturer in computer science at Nova University. He received his education from Temple University (B.S.) and from The Pennsylvania State University (master of engineering). Before coming to Nova, Glass was a computer systems consultant in health care, housing, construction, transportation, economic information systems, and data management design. He was in the U.S. Army Air Forces during World War II.
The Technology of Success Workshop

At the Success Management Workshop Fran Fisher and Santos Henriquez

by Ines Calderon

In June, a group of staff members had the opportunity to attend the Technology of Success Workshop. Organized by the Office of University Relations and Development and conducted by Susan Collins, creator and facilitator of Success Management Systems, the two-day workshop proved to be a truly warm, informative, and sincere interaction for all those who participated. Inherent in its message was that what is needed in today's business world is human technology, "a system of understanding the human mechanism that will allow us to operate ourselves with the same certainty that we operate our machines."

As Susan said at the beginning of the workshop, "YOU WILL: discover what you DO want instead of what you DON'T want; neutralize past events that are holding you back; know how to motivate yourself and others; be a more powerful communicator..." among other things.

At the end, we set our goals, we shared them with the others; and we supported each other in their future attainment. Yes, we all gained something valuable and personal from our participation.

Michael Velsmid Named President of Lenox Merchandising

Michael J. Velsmid, a doctoral candidate in the business administration program of the Center for the Study of Administration, was named president of Lenox Merchandising, manufacturer and marketer of fine china, crystal, and gifts.

Mr. Velsmid has held various executive positions at Federated Department Stores, R.H. Macy & Company, and most recently was the vice-president and regional director of stores for Jordan Marsh in New England.

He earned his bachelor of business administration degree at St. John's University and master of science from Lesley College, Cambridge, Massachusetts. Mr. Velsmid is a member of the Academy of Management.

Century Club Reaches 100!

Century Foundation members contribute a minimum of $100 per year to the Nova University Annual Fund.

Each member receives a beautiful plaque on joining and a year bar each year a contribution is made.

There are now 100 members. Our new goal is 150 members by the end of 1986.

To become a Nova University Century Foundation Member, just complete and return the enclosed postage paid envelope along with your donation. Please indicate your choice of payment options:

A. One payment of $100
B. Two payments of $50
C. Four payments of $25

Your plaque will be engraved with your name (as you specify), protected in velvet, and sent immediately to you. We look forward to having you as a new member.
Breaking the Impasse in the War on Drugs

"In this provocative new study, law professor Steven Wisotsky takes a sober look at the consequences of the Reagan Administration's intensified "War on Drugs." He points out that, while drug arrests and drug seizures are on the rise, drug imports have reached record levels. Presenting a powerful case that the War on Drugs has worsened the problem, he argues that the conceptual basis of the present approach to drug control is wrong and in need of radical rethinking.

"In his detailed investigation of the black market in cocaine, he analyzes the structure of the cocaine industry and the accompanying adverse social effects. Turning to law enforcement programs, Professor Wisotsky discusses the futility of attempts to control coca and cocaine at the South American source. He also assesses the operations of the various armies of the War on Drugs, from the DEA to the Coast Guard to the Organized Crime Drug Enforcement Task Force Program. Several chapters are devoted to what the author has identified as the black market pathology of corruption and violence, and international ramifications such as political instability and narcotics-related terrorism in the affected countries."

"Meticulously documented and drawn from insider sources such as diplomatic cables and confidential internal law enforcement memos, this study will be of interest to professionals, academics, and general readers concerned with one of the major social problems of the century. It is an appropriate resource for studies or courses in criminal law and justice, sociology, political science, and Latin American affairs."

1986 ALUMNI ANNUAL FUND INTERIM REPORT

GOAL: $ 70,000

Alumni Donations Received: 18,222
Alumni Pledges Outstanding: 7,719

Progress toward goal: $ 26,941 (37%)

Total number of Nova University graduates: 17,423

Number of Alumni who have pledged and who have donated: 1,042

Percentage of Nova Alumni contributing (5.9%)

Alumni Average pledge/gift: $ 24.89

*Based on donations and pledges received as of September 15, 1986.
Alumni Dinner Dance

Alumni and staff of Nova University enjoyed a delightful evening at the Rolling Hills Hotel’s new ballroom on July 19.

After a golf tournament in the afternoon, the evening included dinner, dancing, and a dance exhibition.

Commencement on Sunday concluded the busy week-end of activities.
