The Classes in the Nova University Doctoral Programs for the School of Business and Entrepreneurship are delivered in a trimester format. There are three terms: Summer, Fall, and Winter.

Cluster Class Sessions: Class sessions are held during the first three months of each term. For the Winter term cluster classes are held in January, February, and March. Each class meets monthly for a two-day, Saturday and Sunday session during the three month period.

SEMINARS: Segments of the degree program are offered in a seminar format. (NOTE: Selected seminars are supported by pre-seminar course participation via telecommunication.)

CSA6060 Business and Public Policy Seminar is held three times a year.

CSA6140/6210/6310/6440 are offered on-campus also three times a year.

CSA6080 Professional Studies Workshop is offered in conjunction with the annual meeting of:

ELIGIBILITY REQUIREMENTS
To sit for Part I or Part II of the comprehensive examination you must have a grade point average of at least 3.0, be in good financial standing, and have a full admission status.

In addition to the above, to be eligible for CSA6090 (Part I), you must have completed 20 credits of coursework, including CSA6060.

To be eligible for CSA6089 (Part II), you must have passed CSA6090 (Part I) and CSA6140 for DBA and DIBA or CSA6210 for DPA, or 6310 for DBA/HRM, or CSA6440 for DBA/IM, or CSA6740 for DBA/Acc.
--- Completion of cm2 and cm3 are prerequisites for Concept Paper and Readings.

--- The Dissertation Topic Concept Paper is the first formal step in the process. It is never too soon to start thinking about your dissertation topic.

--- This concept paper should serve as an opportunity to set out in a concerted manner the area of interest to you for your dissertation. While this can and will be refined along the way, it is very important to start off in the right direction. Therefore, it is important at this point to focus as much as possible upon the feasibility of carrying out your task.

--- You should include an overview of some relevant literature and identify, as well, any resources at your disposal that will assist you in carrying out the task. Remember, this is your dissertation and it is important that you work in an area of interest to you as this will be a rather lengthy endeavor. Only those papers submitted with a single topic area will be considered by the Research Office.

--- Together with this paper, you should submit your resume and the name of the person you wish to have as your Readings instructor for approval by the Research Office. Be sure to have their concurrence prior to submitting their name. (If they are not on the Nova staff, their resume must accompany this submission.)

--- When your topic is approved you will receive written confirmation from the Research Office. This confirmation will be accompanied by an Instructor Approval Form for the Readings course. Forward to the instructor the Instructor Approval Form for signature. The instructor should then return the form to you.

--- This form should accompany your registration. It should be sent, together with the appropriate tuition and fees, to the Program Office. You will be registered for the course under the instructor's name to facilitate grade processing on your academic record.

NOTE: This is a lengthy process. Please carry out these activities the term before the term during which you wish to take this course.

Please be advised that failure to comply with these instructions will result in your registration being returned.

* STUDENTS IN THE DBA PROGRAM (WITHOUT A SPECIALTY) HAVE THE OPTION TO CHOOSE AMONG ONE OF THE FOLLOWING FOUR READINGS COURSES.

A student working on his/her dissertation must maintain active status by being registered in the dissertation process each term. The dissertation for the Doctoral Programs is 10 credits. Students register for the dissertation in two-credit increments. The first six credits comprise the dissertation proposal (CSA 6091, 6092, 6093); the remaining four credits comprise the final draft (CSA 6094 and 6095).

**Dissertation Proposal:**

Registration for the dissertation proposal is normally done in three, two-credit increments (CSA 6091, 6092, and 6093), allowing the student three terms (one year) in which to submit an approved proposal. When a student registers for CSA 6092, a "PR" notation will be recorded on the student's academic record for CSA 6091. The same will occur for CSA 6092 when a student registers for CSA 6093. (It should be noted that "PR" is not a formal grade and is given in place of an "I" (Incomplete); the Program Office is assuming progress in this one-year time frame.

If a student should exceed the above time frame for the dissertation proposal, he/she must petition the Research Office for an extension by submitting a progress report. This progress report must be prepared by the student, indicating status of proposal and estimated completion date, and have the signature of the chairperson. All progress reports will be reviewed by the Research Office. If the progress report is accepted, the student will be permitted to register for CSA 6097 (Dissertation Continuation) the tuition for which is the equivalent of two credit hours, plus any appropriate registration fees. This process will continue until approval of the dissertation proposal by the Research Office. When the initial registration for CSA 6097 is processed, a "PR" notation will be recorded on the student's record for CSA 6093.

At such time when the student's proposal is accepted, the "PR" notations for CSA 6091, 6092, 6093 will be converted to formal grades of "P". The "PR" notation will remain for any CSA 6097 Dissertation Continuation registration(s).

**Dissertation Draft**

Registration for the dissertation draft is normally done in two, two-credit increments (CSA 6094 and 6095), allowing the student two terms (eight months) in which to submit an approved draft. When a student registers for CSA 6095, a "PR" notation will be recorded on the student's academic record for CSA 6094. It should be noted that "PR" is not a formal grade and is given in place of an "I" (Incomplete); the Program Office is assuming progress in this time frame of eight months.

If a student should exceed the above time frame for the dissertation draft, he/she must petition the Research Office for an extension by submitting a progress report. This progress report must be prepared by the student, indicating status of draft and estimated completion date, and have the signature of the chairperson. All progress reports will be reviewed by the Research Office. If the progress report is accepted, the student will be permitted to register for CSA 6097 (Dissertation Continuation) the
tuition for which is the equivalent of two credit hours, plus any appropriate registration fees. This process will continue until appr of the dissertation draft by the Research Office. When the initial registration for CSA 6097 is processed, a "PR" notation will be recor the student's record for CSA 6095.

At such time when the student's draft is accepted, the "PR" notation for CSA 6094 and 6095 will be converted to formal grades of "P". The "PR" notation will remain for any CSA 6097 Dissertation Continuation registration(s).

MAINTAINING ACTIVE STATUS

Students who fail to register for and complete any regular course seminar, workshop, advanced readings course, dissertation credits, comprehensive exams or computer-mediated instruction for 3 consecutive terms (1 full year) are considered inactive. Students who are inactive must petition for reinstatement by sending an official request for reinstatement along with a $100 reinstatement fee to the Doctoral Program Director. Students petitioning for reinstatement will be required to program requirements in effect at the time of reinstatement, which may not differ from the requirements in effect at the time of initial matriculation. The University reserves the right to deny reinstatement based on current admissions criteria.
Order of Course Delivery for School of Business Doctoral Programs

Eight of the School of Business Doctoral Courses are offered in a revolving format. To aid students in planning, these courses are listed below in the order in which they are delivered. Using this information a student can project coursework for his/her entire program.

In addition to taking 3 of these courses each year, it is recommended that students attend the Washington Policy Seminar in the first year. Students should also register immediately for the first credit of CSA6071--Computer Mediated Research Methods. CM competency will become a prerequisite for more and more courses.

Class Hours: 8:00 AM - 5:30 PM

NOTE: A Registration Fee of $25.00 is payable each time a student registers. Registrations submitted during the late registration period MUST be accompanied by a late registration fee of $25.00 in addition to the regular registration fee. Registrations postmarked after the late registration period are subject to a $50.00 late fee in addition to the $25.00 regular registration fee. Tuition is $350.00 per credit hour.

SPECIAL SEMINAR FEES: The Doctoral Programs Office assesses a special seminar fee for the courses indicated, payable at the time of registration, in addition to the tuition for the course.

CSA6060 Business and Public Policy Seminar ... ... $150.00
CSA6080 Professional Studies Workshop ... ... ... 50.00
CSA6140/6210/6310/6440 ... ... ... 75.00
Dissertation Continuation Fee for approved extensions beyond 3 terms for the proposal and beyond 2 terms for the post proposal approved stage of the dissertation ... 700.00/term
Comprehensive Examination Fee ... ... ... 50.00

COMPUTER TIME: $10 an hour in increments of 15 hours--$150.00.
IMPORTANT NOTICE FOR THOSE STUDENTS USING FINANCIAL AID

Students must apply for and be awarded financial aid in order to receive loan monies. In addition, they must register for at least 3 graduate credit hours per term to receive these funds. Students not registered for at least 3 graduate credit hours when their loan checks are ready for disbursement will not be eligible to receive the funds. These monies will then be returned to the lender.

Also, please be aware that when applying for financial aid, students must list their intended attendance pattern for that period. This attendance pattern must match the exact time that students will be enrolled and in class. If students only attend a one-week course during a trimester, the attendance pattern would have to begin at the time the seminar or course begins. The disbursements would be made at this time.

If your course selections for a term change for any reason after you have already indicated the attendance pattern on your financial aid paperwork, it will be necessary for you to contact Brian Helfer in the Financial Aid Office. He will then have to make an adjustment to your loan periods. If these actions are not taken, it may result in your loan monies being returned to the lender, even though you are currently registered for at least 3 graduate credit hours.
Students are required to take CSA 6071 - Computer Mediated Seminar in Research Methods. This course is in single-credit increments. Satisfactory completion of CM1 is a prerequisite for the other CM segments. Students should register for one credit at a time. Purchase of computer time is in addition to the tuition for the course. Students must be ON-LINE and registered for CM1 in order to register for CSA 6060.

CM1 - In this course a student demonstrates pc literacy and is introduced to the UNIX operating system. CM1 is a prerequisite for the other CM courses. (SEE NEXT PAGE FOR ECR SCHEDULE.)

CM2 - A. Prerequisites.
1. Completion of 6060: During the session an orientation to CM2 will be provided including a discussion of what constitutes a related literature. Your CM2 literature review must be based upon the literature you will be using for your dissertation. Remember, you may not do a dissertation in the areas of Economics or Finance unless you have at a minimum a Masters in these disciplines.
2. Completion of CM1. During the CM1 course you should develop a competency using UNIX to support your other CM activities.

B. Registration Procedure. There will be NO late registration for CM2.
Submit the following for approval prior to registration:
1. Your completed literature review (5-10 pages).
2. Xerox copies of 5 selected articles used in the literature review. These articles should be related--have overlapping lists of references--and ALL report findings on academic research.
NOTE: This is not to imply your review is to be based solely on these articles.
3. For each of these 5 articles answer, briefly, the following questions and attach these answers to the respective article.
   --On what literature was this research based?
   --What is the core theory that is being developed?
   (NOTE: For all 5 articles the answer to this question should be the same -- they should all come from the same core theory.)
   --What is the basic research question?
   --What are the research hypotheses?
   --What type of research design was used?
   --What statistical techniques were used?
   --What were the findings of the research?
   --What were the suggestions for further research?
4. You will be notified whether or not you may proceed to register. (This notice must accompany your registration.)
CM3 - This is a methodology review. Both CM2 and CM3 must be completed before you submit your concept paper. (SEE BELOW FOR ECR SCHEDULE.)

CM4 - This course reviews dissertation-related statistical techniques using SPSSX on Nova's VAX computer. Approval of the concept paper is also a prerequisite for this course. CM4 must be completed before submission of your proposal. (SEE BELOW FOR ECR SCHEDULE.)

COMPUTER TIME IS REQUIRED FOR THESE COURSES. IT IS TO BE PURCHASED IN INCREMENTS OF 15 HOURS. THE HOURLY CHARGE IS $10.00 - (15 x $10 = $150).

ELECTRONIC CLASSROOM SCHEDULE (ECR)

Instructor: Thomas W. MacFarland, Ed.D.

Please note that these dates are subject to change with sufficient notice.

CM1 - An Introduction to the Unix Operating System and Application Software at Novavax.

Session 1: January 19, 1992 (Sunday)
