Graduate Distance Education

NOVA SOUTHEASTERN UNIVERSITY

Master of Medical Science
Graduate Distance Education

COLLEGE OF ALLIED HEALTH
Nova Southeastern University, synonymous with dynamic innovation and intellectual challenge, is the largest independent not-for-profit university in the State of Florida, and, with an enrollment of approximately 20,000, among the 20 largest in the United States. Situated on a beautiful 232-acre campus in Fort Lauderdale, Florida, the University is experiencing a sustained period of academic growth, fiscal strength, and commitment to the challenges of the 21st century.

In this environment of expansion and stability, the University is capitalizing on its strengths in such areas as academic innovation, comprehensive clinical training, and flexible educational delivery systems.

Founded in 1964 as Nova University, the institution merged with Southeastern University of the Health Sciences in 1994, creating Nova Southeastern University. To date, the institution has graduated over 55,000 alumni. Fully accredited by the Commission on Colleges of the Southern Association of Colleges and Schools, the University awards bachelor's, master's, educational specialist, and doctoral degrees in a wide range of fields including, in addition to the health professions, law, business, marine sciences, psychology, social sciences, computer and information sciences, and education.

The University's programs are administered through fifteen academic centers that offer courses at the main campus as well as at field-based locations throughout Florida, across the nation, and at selected international sites in Europe, Canada, the Pacific Rim, Central and South America, and the Caribbean.

With a budget of over $200 million a year and an upward trend in enrollment, the University will continue to maintain a solid record of academic and fiscal strength and excellence in teaching and community service, while expanding its mission in research and scholarship.
MISSION STATEMENT

Nova Southeastern University is a dynamic, not-for-profit, independent institution dedicated to providing high quality educational programs of distinction from preschool to the professional and doctoral levels, as well as service to the community.

Nova Southeastern University prepares students for lifelong learning and leadership roles in business and the professions. It offers academic programs at times convenient to students, employing innovative delivery systems and rich learning resources on campus and at distant sites. The University fosters inquiry, research, and creative professional activity by uniting faculty and students in acquiring and applying knowledge in clinical, community, and professional settings.
The Health Professions Division, with a student body of over 2,500, is home to Nova Southeastern University's College of Allied Health. The College of Allied Health offers a dual degree Physician Assistant program that awards the Bachelor of Science/Master of Medical Science (B.S./M.M.S.), as well as master's-level Occupational Therapy (M.O.T.), Physical Therapy (M.P.T.), and doctoral programs in Occupational Therapy (Ph.D., O.T.D.), Health Sciences (D.H.Sc.) and Physical Therapy (Ph.D., D.P.T.). In addition to these programs, the College of Allied Health offers the Master of Medical Science (M.M.S.) degree for mid-level clinicians and allied health professionals in distance learning format.

The Division has five other colleges. The College of Osteopathic Medicine, the first one in the southeastern United States, grants the Doctor of Osteopathic Medicine (D.O.) degree. The College of Pharmacy, the only one in South Florida, offers the Doctor of Pharmacy (Pharm.D.) degree. The College of Optometry, the only one in the state of Florida, awards the Doctor of Optometry (O.D.) degree. The College of Medical Sciences grants the Master of Biomedical Sciences (M.B.S.) degree. The College of Dental Medicine admitted its charter class August 1997, into the Doctor of Dental Medicine (D.M.D.) degree program.

The Division, located on 21 acres of the university campus, includes eight buildings totaling 900,000 square feet of space for classrooms, laboratories, offices, the Health Professions Division Library, an outpatient health center, and a pharmaceutical care center. The adjacent 1,600-vehicle parking garage overlooks the Miami Dolphins, National Football League Training Camp and the NSU Library, Research, and Information Technology Center, which is the largest library in the State of Florida.

NEW BUILDING
The Health Professions Division has recently added a new building to foster opportunities for interdisciplinary education and to meet the need for additional classroom, computer and research facilities. This modern spacious facility contains over 31,000 square feet of new instructional and research facilities including a 312-seat auditorium, a 50 station state-of-the-art computer science laboratory and 37 seminar rooms.
The Master of Medical Science Program is an established program within the College of Allied Health of Nova Southeastern University (NSU).

Nova Southeastern University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097; Telephone number 404-679-4501) to award bachelor's, master's, educational specialists and doctoral degrees.

Nova Southeastern University admits students of any race, color, sex, age, non-disqualifying disability, religion or creed, or national or ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the school, and does not discriminate in administration of its educational policies, admissions policies, scholarships and loan programs, and athletic and other school-administered programs.

This brochure is for information purposes only and does not represent a contract. Information contained herein is subject to change at any time by administrative decision or the direction of the Board of Trustees.
The College of Allied Health endeavors to train both graduate and undergraduate professionals in the art of improving the quality of life in the community.

The Master of Medical Science (M.M.S.) Program at Nova Southeastern University (NSU) was designed for allied health professionals and mid-level clinicians to provide advanced knowledge in conducting research, advanced clinical training and scholarship needed to expand career mobility and professional advancement.

The M.M.S. Program is providing quality, graduate allied health education in a distance learning format. With an emphasis on practice-based learning and contemporary clinical concepts, working professionals can remain in their community while completing this course of study.

As a commitment to quality education, we continuously examine not only what we are teaching now, but also what we should be teaching to professionals of the future.

Richard E. Davis PA-C, EdD
Dean of Allied Health
The Master of Medical Science (M.M.S.) Program is designed to provide mid-level or allied health professionals the theoretical and clinical training necessary to enhance career mobility and professional advancement.

Mid-level practitioners and allied health professionals practicing today in urban and rural communities throughout the nation are highly recognized as valuable members of the health care team who make quality care more accessible while reducing costs. These health care professionals are playing a prominent and respected role in providing community medical service.

An increasing number of employers are seeking master's-level, academically prepared professionals to fill expanded roles that include clinical specialization, health education, research and health care administration.

The M.M.S. didactic curriculum provides education in a variety of clinical and non-clinical areas. The clinical component of the program will be tailored to the individual interest and goal of the graduate student. With faculty guidance, students will demonstrate increased understanding in their chosen area of study. Students enrolled in this segment of the program already must have graduated from their entry-level professional training. The clinical component will be conducted at physician offices, hospitals, and private institutions. The clinical preceptor shall be approved by the M.M.S. Program based upon the academic training, demonstrated scholarship, teaching experience and clinical expertise. In most cases, the clinical preceptor will be the student’s employing physician or manager.
Mission Statement
MASTER OF MEDICAL SCIENCE

The Master of Medical Science Program at Nova Southeastern University is dedicated to providing quality graduate allied health education through innovative curriculum and delivery systems.

The Master of Medical Science Program prepares health care professionals for lifelong learning and leadership roles by fostering inquiry, creative professional activity and the application of acquired knowledge in community and professional settings.

PROGRAM FEATURES

- Quality education in a distance learning format
- Clinical components tailored to student interest and goals
- Award on completion: Master in Medical Science (M.M.S.) degree
- Additional award: Certificate in concentration area noted
- Up to 2 years to complete the program
- 36 total semester hours (18 didactic and 18 clinical)
- No on-campus requirements for most students
- Full electronic library resource access
- Option to complete clinical component at student's place of employment
- Professional graduate project options available
- Original research not required
- Full faculty support and advisement
- Asynchronous and synchronous formats: e-mail, online forums, chat rooms, phone conference, and list-serve
- Full technical support, e-mail account and NSU library/database online access
- Specialty tracks available
- Possibility of transferring up to 6 credits from other graduate-level training programs
THE CURRICULUM

The curriculum involves completion of 36 credit hours that must be completed in each of the two categories of courses (didactic and clinical). There is some flexibility in curriculum design to accommodate the students overall interest, employment and educational goals. Educational counseling and advisement is always available to assist in the planning and registration process.

**Required Didactic Courses (3 credits each)**
- MMS 5205: Writing for Medical Publication
- MMS 5501: Epidemiology and Biostatistics
- MMS 5510: Research Methods
- MMS 5521: Ethical Issues in Healthcare

**Elective Didactic Courses (3 credits each, choose 2)**
- MMS 5211: Contemporary Issues in Nutrition
- MMS 5610: Computer Applications in Healthcare
- MMS 5213: Stress Management Concepts and Practice
- MMS 5400: Directed Studies/Medical Science
- MMS 5103: Principles of Advanced Life Support I
- MMS 5208: Medical Grand Rounds

**Required Clinical Courses (6 credits each)**
- MMS 5106: Clinical Segment I
- MMS 5206: Clinical Segment II
- MMS 5306: Graduate Project

**Total required credits: 12**

**Total elective credits: 6**

**Total clinical credits: 18**

**TOTAL M.M.S. CREDITS: 36**

Curriculum is subject to change as directed by the program.
DISTANCE EDUCATION AT NSU

Nova Southeastern University is a pioneer in the area of distance education, having initiated distance education programs in 1972. It was the first university in the United States to offer graduate programs in an online format, with the creation of the electronic classroom. NSU has been offering online programs and programs with an online component since 1983. NSU was also the first to use the UNIX system to host online courses, and one of the first to use the Internet to support instruction.

In 1997, Forbes magazine ranked NSU as one of the nation's top 20 cyber-universities. In 1998, the National Jurist magazine ranked NSU's Shepard Broad Law Center at the top of its list of the most wired law schools in the nation. The university is also listed in Princeton Review's The Best Distance Learning Graduate Schools (1998).

At NSU, distance education is delivered using a variety of instructional delivery systems. Modes of delivery to students located at sites distant from the main campus include not only online courses via the Internet, but also other modes, such as the traditional classroom setting with a live instructor on-site, compressed interactive video, and audio teleconferencing. Technologies such as the electronic classroom and audio teleconferencing (much like conference calling), add another dimension to the university's distance education programs by bringing instruction to the homes and offices of students.

Some programs use computer or telecommunication technologies exclusively, or in combination with a classroom setting. For example, some graduate programs require students to attend short, intensive instructional units on-campus (called Summer Institutes) as part of their required program of study. Distance education students have access to educational support services through the main campus. These include the Electronic Library and computer software on central servers.

NSU students can participate in online courses via the Internet and World Wide Web from almost anywhere on the globe. Online courses involve Web pages to access course materials, announcements, and other information, plus a range of online activities that facilitate frequent student-teacher and student-student interaction. Faculty members and students interact via real-time electronic classrooms, online forums using threaded bulletin boards, real-time chatrooms, online submission of assignments in multimedia formats for review by faculty members, electronic mail, and the Electronic Library.

NSU offers a wide range of online programs. For example, NSU's School of Computer and Information Sciences has more than 800 online students and offers online master of science programs in computer science, computer information systems, management information systems, and computing technology in education. These programs are now part of the Southern Regional Electronic Campus (SREC). It also offers Ph.D. programs that use a combined online and on-campus format. Other examples include an online M.B.A. and master's of accounting, and online courses for teachers.

Over the past 5 to 10 years, many colleges and universities have been developing distance education programs. Nova Southeastern University has 27 years of experience in the development, delivery, and evaluation of distance education programs. Approximately 55 percent of all NSU students attend class through the use of some form of distance education modality (e.g., classroom instruction at distant sites, compressed video, and computer-mediated instruction). The university's National Ed.D. Program for Educational Leaders—which began in 1972 and other degree programs have served as models of distance education design for institutions across the nation.
Distance education students in the Master of Medical Science Program are provided with NSU computer accounts including e-mail. The student, however, must obtain their own Internet service providers (ISP) and use their own computer systems (IBM-compatible PC or Apple Macintosh, and a modem). New students are provided an orientation and extensive online support on computer and software requirements, online access, online tools and methods, and library resources.

Online interactive learning methods involve Web pages to access course materials, announcements, the electronic library, and other information, plus a range of online activities that facilitate frequent student-professor interaction. Faculty members and students interact via online forums using threaded bulletin boards, chatrooms, and email. Students are able to submit assignments as e-mail attachments, through the use of online forms sent directly to program instructors, fax to fax, fax to e-mail, and through WebCT. Some online courses may include electronic classroom sessions.

Online students have access to books, journal articles, microfiche, dissertations, index searches, catalog searches, and reference librarians. The online medical database collection at NSU is extensive and includes access to quality subscription services free of charge to the student.

Distance students may request library materials using fax, mail, or online forms. You may reach Distance Library Services (DLS) by phone, or on the Web: www.nova.edu/library. All materials mailed by the DLS office are sent by first-class mail. When books are borrowed, the student will have to pay a small fee for third-class postage to return the books. Books are loaned for one month. Periodical copies or ERIC documents need not be returned.

The NSU student involved in distance education is fully supported in their educational endeavors. Great effort has been made to insure that educational opportunities and quality are in place for each student.

ADMISSION REQUIREMENTS
for Graduate Allied Health Professional M.M.S. Candidate

The College of Allied Health considers the overall qualities of the applicant. Areas of consideration include personal motivation, quality and length of prior healthcare experience, academic performance and level of achievement, life experiences, and personal recommendations.

In order to be considered for admissions, applicants must submit the following prior to matriculation:

1. Completion of a bachelor's degree from a regionally accredited Allied Health Program, with a minimum cumulative grade point average of 2.5 or higher on a 4.0 point scale.

2. A letter of evaluation from a supervising physician or manager. This form is supplied with the application package. Additional letters of recommendation are encouraged.

3. A national professional certification or licensure (if applicable).

4. A current state license, registration or certification (if applicable).

5. All students will be required to have a computer with the following recommended minimum specifications:

   a. Pentium; 400MHz minimum processor
   b. 64 MB RAM
   c. Video capable of 800 X 600 display or better
   d. CD ROM capability
   e. Full duplex sound card and speakers
   f. 56.6 baud modem
   g. Internet connection with private Internet Service Provider (ISP) for access from home to the Internet
   h. Windows 95/98/2000/ME/XP or NT
   i. Microsoft Office 97 with PowerPoint, Word, and Excel minimum
   j. Surge suppressor electrical outlet
   k. Suggested option: Zip drive

A personal interview with the Committee on Admissions may be required. (Phone interview may be substituted.) All interview expenses are the responsibility of the applicant.

The University reserves the right to modify any requirements on an individual basis as deemed necessary by the Dean of the College of Allied Health.
APPLICATION PROCEDURE

The M.M.S. program provides admission opportunities throughout the year. Applications may be submitted year-round. There are two start dates per year: January and September. The student has two years from the start date to complete the degree course of study and apply for the M.M.S degree.

In order to be considered for admission, the following must be submitted:

- A completed M.M.S. application form.
- $50 non-refundable application fee.
- Official transcripts of all course work attempted at all colleges and universities must be forwarded, by institutions attended, to the Office of Admissions, Master of Medical Science Program. It is the responsibility of the applicant to ensure that arrangements are made for these transcripts to be sent.
- A final, official transcript, covering all of the applicant's work, must be forwarded to the Office of Admissions prior to matriculation
- A letter of evaluation from a professional supervisor willing to assist the student in the clinical phase of the program. This evaluator, preferably a supervising clinician, should know the applicant's personal character and scholastic, clinical, and work abilities
- Official copies of all professional certifications, registrations, licenses or relevant credentialing materials.
- Complete CV or resume
- If the applicant does not have a bachelor's degree, a portfolio must be submitted to the program director
- Course work taken at a foreign institution must be evaluated for U.S. institution equivalency by one of the services listed below. The applicant should contact one of the following:

  - World Education Services, Inc.
    P.O. Box 745 Old Chelsea Station
    New York, NY 10113-0745
    (212) 966-6311
  - World Education Services, Inc.
    P.O. Box 01-5060
    Miami, FL 33101
    (305) 358-6688
    www.wes.org

  - Josef Silny & Associates, Inc.
    International Education Consultants
    P.O. Box 248233
    Coral Gables, FL 33124
    (305) 273-1616
    www.jsilny.org
  - Educational Credential Evaluators, Inc.
    P.O. Box 514070
    Milwaukee, WI 53203-3470
    (414) 289-3400
    www.ece.org

It is the applicant's responsibility to have this course work evaluated, and an official evaluation must be sent to the Office of Admissions.
No Bachelor's Degree Option
Admissions Criteria

Many professionals graduating from programs awarding certificates and associate degrees have demonstrated greater educational accomplishments than their degrees represent.

Section 4.3.2. Graduate Admission section of the SACS Accreditation Standards allows for admission to graduate programs, such as the Nova Southeastern University M.M.S program, without a bachelor's degree if the student has "adequate educational preparation to complete the graduate program."

We believe that clinical professional education and post-graduate medical education can satisfy this requirement in many cases. Your professional education and knowledge may be applied toward demonstrating your ability to complete the program.

The admissions committee of the M.M.S. program will evaluate all applicants individually and on their own merit to determine their preparation for the program. Demonstrating adequate educational preparation to complete our program is the responsibility of the student and is subject to approval by the program admissions process.

All students will be required to have a computer with the following recommended minimum specifications:

a. Pentium; 400MHz minimum processor
b. 64 MB RAM
c. Video capable of 800 X 600 display or better
d. CD ROM capability
e. Full duplex sound card and speakers
f. 56.6 baud modem
g. Internet connection with private Internet Service Provider (ISP) for access from home to the Internet
h. Windows 95/98/2000/ME/XP or NT
i. Microsoft Office 97 with PowerPoint, Word, and Excel minimum
j. Surge suppressor electrical outlet
k. Suggested option: Zip drive

A personal interview with the committee on admissions may be required. (Phone interview may be substituted.) All interview expenses are the responsibility of the applicant. The university reserves the right to modify any requirements on an individual basis as deemed necessary by the Dean of the College of Allied Health.

Procedure for Admission Under the "No Bachelor's Degree" Option

1. Complete the standard M.M.S. application and send it to the M.M.S. Admissions Office for processing with a $50 non-refundable application fee.

2. Official transcripts from all previously attended undergraduate, professional, and graduate institutions sent directly to the Office of Admissions, Master of Medical Science Program.

3. Compile a portfolio demonstrating your educational and professional accomplishments. (The portfolio is mandatory to be considered for this option.) Provide as much information as necessary to show your professional and educational history. Do not exceed one 3-inch ringed binder. Your portfolio must include, the following documentation if applicable:
   - Copies of any national or state certificate(s), licensure(s), registration(s), and/or diploma(s)
   - Professional work history including either a resume or curriculum vitae
   - Letters of evaluation specifically attesting to your capacity to complete graduate education
   - Program brochures, catalog pages, and description as necessary to show evidence of educational or professional experience
   - Copies of relevant certificates of continuing medical education (CME) programs and courses*

4. Write a cover letter addressed to the M.M.S. Program Director petitioning for admission under the No-Bachelor's degree option and submit it with your portfolio to:

Program Director
Master of Medical Science
College of Allied Health
Nova Southeastern University
3200 South University Drive, Suite 1250
Fort Lauderdale, FL 33328

*Some certifying bodies (such as NCCPA) maintain hard copies of continuing education logging forms. We will accept logging forms in lieu of actual certificates. We would, however, like to see copies of certificates for work completed since your last logging period completion date. Application transcripts sent to the Office of Admissions with your application must be originals. Copies are acceptable for the portfolio only.
TUITION & FEES

Tuition: $250 per credit hour

Books: Approximately $400

A majority of the course work can be completed through online (World Wide Web) access to the NSU Electronic Library, without additional charge.

FINANCIAL AID

The purpose of the Student Financial Aid Program at Nova Southeastern University is to help as many qualified students as possible to complete their health professions education. Various loans, scholarships, and grants are available to qualified students to help ease the high cost of a health professions education.
