Doctoral Programs
(305-475-7477)

February 1988
To be eligible for CSA6089 (Part II), you must have passed CSA6090 (Part I) and CSA6140 for DBA and DIBA or CSA6210 for DPA, or 6310 for HRM and DBA/HRM, or CSA6440 for DBA/IM or CSA6640 for DBA/HRD.

COMPUTER-MEDIATED COURSE (CSA6071):
DBA, DPA, and HRM students who begin their doctoral program after the Summer 1985 Term, and DIBA students who begin their program after February 1986, are required to take CSA6071 - Computer Mediated Seminar in Research Methods. The course is in single credit increments. Satisfactory completion of cm1 is a prerequisite for the other cm segments. Other students are encouraged to take this course. Students should register for one credit at a time. Purchase of computer time is in addition to the tuition for the course. The first credit of this course is a prerequisite for CSA6030 - Information & Decision Science and for other courses as indicated.

READINGS COURSES: (CSA6150/6250/6370/6570/6480/6650)
---The Dissertation Topic Concept Paper is the first step. It is a 4-10 page paper in which you state the area of interest that you wish to pursue with your readings course and with your dissertation. Included in this paper is a very brief review from literature with respect to what has been done in the topic area and a short discussion as to the type of data which you believe would be developed as a result of your research. Include your resume with your Dissertation Topic Concept Paper. This allows us to help you to match a readings director who can also serve as your dissertation chairman. You may request to work with a specific person as your readings director and your request will be considered along with that person's area of expertise.
---The Research Office will review your submissions, communicate with you on the feasibility of the study and assist you in identifying a faculty person with whom to do the readings course.
---When your topic is approved you will receive written confirmation from the Research Office. This confirmation will be accompanied by an Instructor Approval Form for the Readings course. You should then contact the instructor, secure his/her agreement and forward to the instructor the Instructor Approval Form for signature. The instructor should then return the form to you.
---This form should accompany your registration. It should be sent, together with the appropriate fees, to the Program Office. You will be registered for the course under the instructor's name to facilitate grade processing on your academic record.

NOTE: This is a lengthy process. Please carry out these activities the term before the term during which you wish to take this course.
Please be advised that failure to comply with these instructions will result in your registration being returned.

**Order of Course Delivery FSBE Doctoral Programs**

Eight of the FSBE Doctoral Courses are offered in a revolving format. To aid students in planning, these courses are listed below in the order in which they are delivered. Using this information a student can project coursework for his/her entire program.

- On-Campus Week of May 1.

Deadline for Submission of Final Draft:

- The final draft of your dissertation must be submitted to the Research Office no later than January 31, 1989, together with the dissertation draft form signed by your committee.
- If some minor corrections have been suggested, these corrections must be returned no later than February 28, 1989.
- Dissertation Drafts will be accepted only from students with approved dissertation proposals. All papers will be processed in the order in which they are received, regardless of the number of times it may need to be returned for corrections. NO DISSERTATIONS ACCEPTED FOR WINTER DEFENSE AFTER February 28, 1989.
CM COURSES

CM1 - In this course a student demonstrates pc literacy and is introduced to the UNIX operating system. CM1 is a prerequisite for the other CM courses.

CM2 - Successful completion of CM1 is required for this course. This is a literature review course. Suggestion - There is a deadline for paper submission. You might want to check the syllabus on line, complete the papers, and THEN register for the course.

CM3 - This is a methodology review. Do not register for this course until after you have had your dissertation concept paper approved. You will do this course with an instructor who can help you review methodologies appropriate for your dissertation area.

Both CM2 and CM3 must be completed before you submit your preproposal.

CM4 - This course reviews dissertation-related statistical techniques using SPSSX on Nova's VAX computer. Approval of the concept paper is also a prerequisite for this course. CM4 must be completed before submission of your proposal.

COMPUTER TIME IS REQUIRED FOR THESE COURSES. IT IS TO BE PURCHASED IN INCREMENTS OF 15 HOURS. THE HOURLY CHARGE IS $10.00 - (15 x $10 = $150).
