EARN A CLINICALLY RELEVANT DEGREE WHILE PREPARING TO ENTER NSU'S MASTER OF OCCUPATIONAL THERAPY PROGRAM

This educational opportunity allows Certified Occupational Therapy Assistants (COTAs) to earn a Bachelor of Health Science (B.H.Sc.) degree and, upon completion of the Pre-Master of Occupational Therapy (Pre-M.O.T.) track, be guaranteed admission to the M.O.T. program at NSU's main campus in Fort Lauderdale, Florida.

What is special about this B.H.Sc. program?

• The online B.H.Sc. program is interdisciplinary.
• It is designed to enable health care practitioners to advance in their careers.
• A seat is reserved in the M.O.T. program if admissions criteria and qualifications are met.

What does this B.H.Sc. program offer?

• a well-rounded generalist curriculum
• the opportunity to work at your own pace around your work schedule
• all online coursework, requiring no on-campus time
• clinically relevant content that enhances your current practice

B.H.Sc. courses are 12 weeks long and follow a four-semester system (summer, fall, winter, and spring). Students have the flexibility to take one course or several courses each semester, depending on course availability.

For more information on the B.H.Sc. program, visit www.nova.edu/bhs or call Chris Mitchell, director of the B.H.Sc. program, at (954) 288-9695 or 800-356-0026, ext. 21239.

B.H.Sc. Electives

(A minimum of 6 semester hours of courses with BHS prefixes—other than the courses listed above—are required.)

## Open/Transfer Electives

These can include any combination of additional BHS prefixed elective courses, and/or transfer courses of any prefix with a course level of 1000 or above, resulting in a total of 60 semester hours.

A minimum of 30 B.H.Sc. semester hours is required for the degree.

*These courses can also be used to fulfill general education natural and physical sciences requirements.

Course requirements are subject to change.
**REQUIRED COURSES**

**BHS 4100—Academic and Professional Writing**
This course, which must be taken in the first semester, will strengthen the skills and thought processes students require for successful academic and professional writing. Proper sentence and paragraph structure, grammar, punctuation usage, formatting, and bibliographic referencing will be discussed. Students will learn the five-chapter model utilized in scholarly writing and be introduced to the fundamentals of APA formatting.

**BHS 3110—Health Care Ethics**
This course is designed to introduce ethical thinking and concepts regarding health care to prepare the student with the essential vocabulary and thought processes necessary to understand, evaluate, and participate in ethical decision making.

**BHS 3120—Introduction to Epidemiology**
This course will introduce the history and development of epidemiology in relation to public health and disease. Communicable, epidemic, endemic, and social diseases will be discussed.

**BHS 3150—Principles of Leadership**
This course will provide an overview of numerous leadership theories to prepare the student for a leadership role in health care. The course will critically analyze the differences between leadership and management.

**BHS 4000—Cultural Competency in Health Care**
The purpose of this course is to develop competency and better understanding when confronted with issues related to culture; diversity; and ethnically based customs, rituals, alternative health care choices, folk medicine, cultural structure, and viewpoints and how they affect the practitioner's delivery of health care.

**BHS 3160—Health Policy**
This course provides the student with a broad understanding of policy, how health care is organized and dispensed, and how the practitioner can better work in the system. Topics of discussion include control, long-term care, quality control, ethical issues, and insurance.
BHS 3155—Conflict Resolution in Health Care
Students will develop an understanding of conflict and effective methods and strategies for reducing the incidence of workplace conflict. These include employee-employee conflict, supervisor-subordinate conflict, patient-patient conflict, and patient/client-provider conflict.

BHS 4031—Statistics for Health Sciences
This course is designed to introduce the conceptual foundation of statistical analysis and statistical reasoning of health sciences data and prepare the student to calculate, interpret, and utilize appropriate software packages for basic statistical analysis.
