Nova Southeastern University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award bachelor's, master's, educational specialist, and doctoral degrees. Nova Southeastern University admits students of any race, color, sex, age, nondisqualifying disability, religion or creed, or national or ethnic origin.
A Media Specialist is...

Teacher
Working with the classroom teacher, the School Media Specialist is instrumental in planning and teaching the research process. Teaching research and information skills is no longer an isolated area of school curriculum. The skilled Media Specialist incorporates research and information skills instruction into the integrated curriculum. Knowledge of school resources, accessible area resources, teaching strategies, and learning styles are vital to the Media Specialist in the instructional role. Nova Southeastern's Educational Media program is designed to prepare Media Specialists for this role.

Trainer
Technology is the most rapidly changing area of education. Training students and teachers to meet the challenges of technological change, often is the responsibility of the Media Specialist. Today's Educational Media professional understands that teachers and students must learn to apply the new technologies both in and out of the classroom in order to be successful. Nova's Educational Media program offers the opportunity to discover how new technologies are transforming today's classrooms into tomorrow's learning centers and the Media Specialist's role in this development.

Information Specialist
With the advancement of resource-based instruction comes a greater responsibility for the School Media Specialist to guide students and teachers to informational resources. With the help of the Media Specialist, students are taught to develop search strategies, request materials from other media centers, and locate resources unrestricted by school boundaries. The information age is here, and the School Media Specialist can open this world to students and teachers. NSU's Educational Media Program provides the opportunity to search online databases and explore the Internet.

Learn...

Administration of School Library Media Centers
Management of the school library media program involves planning, organizing, and directing day-to-day library circulation, collection development, and media center programs.

Production of Instructional Materials
Designing effective instructional materials is an important part of effective classroom presentation. Nova Southeastern's Educational Media program will teach you to work with various forms of media to produce quality print and nonprint media.

Production of Instructional Video Programs
The ABCs of video production and uses of video in the classroom are important to effective instruction.
