This Program Overview is brought to you for free and open access by the NSU Course Catalogs and Course Descriptions at NSUWorks. It has been accepted for inclusion in Health Professions Divisions Course Catalogs by an authorized administrator of NSUWorks. For more information, please contact nsuworks@nova.edu.
NOVA SOUTHEASTERN UNIVERSITY

COLLEGE OF DENTAL MEDICINE

FOR THE 1998 ENTERING CLASS
Nova Southeastern University, synonymous with dynamic innovation and intellectual challenge, is the largest private university in the state of Florida, and, with an enrollment of approximately 15,000, among the 20 largest in the United States. Situated on a beautiful 232-acre campus in Ft. Lauderdale, Florida, the University is experiencing a sustained period of fiscal strength, academic excitement and a commitment to the requirements of the 21st century.

In this environment of expansion and stability, the University is capitalizing on its strengths in such areas as service to the students, creative and relevant programming, and flexible educational delivery systems.

Founded in 1964 as Nova University, the institution merged with Southeastern University of the Health Sciences in 1994, creating Nova Southeastern University. To date, the institution has graduated over 50,000 alumni. Fully accredited by the Commission on Colleges of the Southern Association of Colleges and Schools, the University awards bachelor's, master's, educational specialist, and doctoral degrees in a wide range of fields including, in addition to the health professions, law, business, marine sciences, psychology, social sciences, computer and information sciences, and education.

The University's programs are administered through ten academic centers that offer courses at the main campus, as well as at field-based locations throughout Florida, across the nation, and at selected international sites in Europe, Canada, and the Caribbean.

With a budget of approximately $196 million a year and an upward trend in enrollment, the University will continue to maintain a solid record of academic and fiscal strength while actively pursuing excellence in teaching, research, and community service.
Mission Statement

Nova Southeastern University is a dynamic, not-for-profit, independent institution dedicated to providing high quality educational programs of distinction from pre-school through the professional and doctoral levels, as well as service to the community. Nova Southeastern University prepares students for lifelong learning and leadership roles in business and the professions. It offers academic programs at times convenient to students, employing innovative delivery systems and rich learning resources on campus and at distant sites. The University fosters inquiry, research, and creative professional activity, by uniting faculty and students in acquiring and applying knowledge in clinical, community, and professional settings.
As a student in the Health Professions Division of Nova Southeastern University, you can anticipate a remarkable experience. You will train, study, interact, and share facilities, faculty, and resources with other health professions students. This interdisciplinary approach distinguishes the Health Professions Division as unique, and will better prepare you to master your discipline with a sensitivity and understanding of the entire health care system. We think this is an opportunity unmatched in health professions education.

The Health Professions Division, with a student body of more than 2000, is home to Nova Southeastern University College of Dental Medicine, which admitted its charter class August, 1997. The College awards the Doctor of Dental Medicine (D.M.D.) degree. The Division has five other colleges. The College of Osteopathic Medicine, the only one in the southeastern United States, grants the Doctor of Osteopathic Medicine (D.O.) degree. The College of Pharmacy, the only one in South Florida, offers the Doctor of Pharmacy (Pharm.D.) degree. The College of Optometry, the only one in the state of Florida, awards the Doctor of Optometry (O.D.) degree. The College of Allied Health
offers a bachelor's level Physician Assistant (B.S.) degree, the only accredited P.A. program in South Florida, master's level Occupational Therapy (M.O.T.), Physical Therapy (M.P.T.), and Public Health (M.P.H.) degrees, as well as doctoral degrees in Occupational Therapy (Dr.O.T.) and Physical Therapy (D.Sc.P.T.). The College of Medical Sciences grants the Master of Biomedical Science (M.B.S.) degree.

You will study in the newly dedicated $50 million dollar Health Professions Division complex, covering 21 acres of the University campus. The Division includes seven buildings totaling 900,000 square feet of space for classrooms, laboratories, offices, Health Sciences Library, and an outpatient health center. The adjacent 1,600-vehicle parking garage overlooks the Miami Dolphins Training Camp.

The excitement of this academically integrated, state-of-the-art environment is contagious. Both student body and faculty are energized and motivated to be part of the front line effort to elevate the level of health care to everyone, everywhere.
If you are considering a career in dentistry, your education will focus on producing a competent, confident, and mature professional. You will be trained to function as a highly qualified primary care practitioner, capable of delivering total comprehensive dental care to patients of all ages.

For the highly trained and skilled dentist, career opportunities are almost limitless. The options can be fulfilling and rewarding.

The skilled dentist may choose to practice individually in urban, suburban, or rural environments; or may join an established, respected and successful practice; or may choose public service in governmental agencies, and the military. The skilled dentist may opt to become a specialist with additional advanced education in such fields as endodontics, oral pathology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics, and public health dentistry.

For rewards so great, the training is extensive and complete. The nationally recognized faculty of Nova Southeastern University College of Dental Medicine will prepare you to take your place as a leader among oral health care providers.

A dynamic career awaits a committed individual. We invite your inquiries.
The Mission...

of the College of Dental Medicine is to educate and train our students in order to ensure their competency to practice the art and science of the dental profession.

The College of Dental Medicine requires our graduate to be biologically knowledgeable, technically skilled, compassionate, and sensitive to the needs of all patients and the community.

Our graduate dentist will be a practitioner who adheres to the highest standards of ethics and exhibits exemplary performance and behavior while effectively delivering the highest quality of health care.
Course
Doctoral Program

The College of Dental Medicine embodies an innovative, newly developed curriculum designed to graduate competent clinicians devoted to primary care and total comprehensive care of each patient.

The College is closely allied with Nova Southeastern University College of Osteopathic Medicine, in proximity as well as in academic collaboration. Courses in medicine, as well as basic biomedical sciences, will prepare students to treat the physically well and the medically-compromised patients with assured quality care.

Early introduction into clinical settings, under the preceptorship of faculty master-clinicians, will enable the student to achieve a better understanding of the dynamics of the patient/dentist relationship, and will reinforce classroom instruction in basic and behavioral sciences into management and delivery of dental health care.

Students will be taught the importance of teamwork in an efficient and modern group health care delivery system.

Curriculum Outline

**FIRST YEAR**

**First Semester**
- DANA 1125 Human Gross Anatomy
- DBCH 1114 Biochemistry
- DBCP 1125 Introduction to Computers
- DBPR 1111 Introduction to the Dental Profession
- DDPV 1111 Disease Prevention
- DHST 1123 Histology (Microscopic Anatomy)
- DPER 1111 Periodontics I
- DRBM 1111 Principles of Dental Materials
- DRDA 1122 Restorative Dentistry and Dental Materials I
- DRDA 1132 Restorative Dentistry and Dental Materials II

**Second Semester**
- DAO 1223 Oral Histology & Embryology
- DBCP 1224 Neuroanatomy/Head & Neck Anatomy
- DBN 1122 Dental Nutrition
- DMC 1214 Microbiology
- DMR 2111 Radiology I
- DPER 1221 Periodontics II
- DPP 1217 Dental Physiology
- DRR 1130 Restorative Dentistry and Dental Materials III

**SECOND YEAR**

**First Semester**
- DET 2212 Endodontic Technique
- DMA 2211 Anesthesia & Pain Control I (Local)
- DMO 2211 Oral Medicine I
- DMR 2221 Radiology II

**Second Semester**
- DOP 2211 Orthodontic Diagnostic Considerations
- DOP 2222 Orthodontic Treatment Considerations

**THIRD YEAR**

**First Semester**
- DEC 3121 Clinical Endodontics
- DMA 3121 Anesthesia & Pain Control II (General)
- DMM 3111 Internal Medicine I
- DMO 3121 Oral Medicine II
- DPA 2222 Oral Pathology
- DPER 3151 Periodontics V
- DSR 2211 Oral & Maxillofacial Surgery

**Second Semester**
- DBE 3221 Ethics & Jurisprudence
- DBM 3211 Practice Management
- DME 3111 Evidence-Based Clinical Dental Medicine
- DMM 3222 Internal Medicine II
- DMO 3231 Oral Medicine III
- DPER 3261 Periodontics VI
- DPT 3111 Patient Management

**FOURTH YEAR**

**First Semester**
- DMB 3111 Biostatistics
- DMS 4111 Oral Manifestations of Systemic Disease
- DPER 4171 Periodontics VII

**Second Semester**
- DPER 4282 Periodontics VIII
Admission
Requirements

The College of Dental Medicine selects students based on pre-professional academic performance, Dental College Admissions Test (DAT) scores, personal interview, written application and letters of evaluation.

1. Prior to matriculation, applicants must have completed a minimum of 90 semester hours of course work from a regionally accredited college or university. Not more than 60 semester hours from community or junior college will be applied to the 90-semester hour minimum.

2. Students should have a cumulative GPA of 2.5 or higher on a four-point scale, and must have earned a grade of 2.0 or better in each of the following required courses:

   - **General biology** - 8 semester hours including laboratory
     (Zoology and Microbiology are acceptable alternatives)
   - **General chemistry** - 8 semester hours including laboratory
   - **Organic chemistry** - 8 semester hours including laboratory
   - **Physics** - 8 semester hours including laboratory
   - **English composition** - 3 semester hours
   - **English literature** - 3 semester hours

Cours es strongly recommended:

Choose from upper division biology courses including anatomy, histology, biochemistry, immunology, and physiology. Courses in social sciences, principles of management, accounting, communication, foreign languages, art and sculpture will contribute to a broad educational background.

Upon review of a student's individual record, the Committee on Admissions may require additional course work and testing as a condition of acceptance.

The Dean is empowered to evaluate the total qualifications of every student and to modify requirements in unusual circumstances.

Inquiries should be directed to:

Office of Admissions
College of Dental Medicine
Nova Southeastern University
3200 South University Drive
Ft. Lauderdale, FL 33328
(954) 262-1101,
or (800) 356-0026, Ext. 1101
Application
Procedures

1. Nova Southeastern University College of Dental Medicine (NSU-CDM) uses the American Association of Dental Schools Application Service (AADSAS). AADSAS takes no part in the selection of students. The deadline for AADSAS application is April 1, 1998, for the class entering August, 1998. Applications are available from:

American Association of Dental Schools Application Service
AADSAS
1625 Massachusetts, NW, 6th Floor
Washington, D.C. 20036-2212
Tel: (202) 667-1886

Materials to be mailed to AADSAS include:

a. AADSAS application
b. An official transcript from the Registrar of each college or university in which the student was enrolled (mailed directly by the college to AADSAS)
c. Dental College Admissions Test (DAT) scores

2. The applicant should mail the following materials to the College of Dental Medicine:

a. The supplementary application sent to the applicant by the college
b. A non-refundable application fee of $50.00
c. An evaluation by a pre-professional health advisor or committee is required from the applicant's undergraduate institution. If this evaluation cannot be provided, three individual letters of evaluation are required from undergraduate instructors, two from science instructors and one from a liberal arts instructor. If possible, these letters should be from faculty who know the applicant's scholastic abilities and personal character; otherwise, they should be from persons (non-relatives) who can provide an evaluation to the Committee on Admissions.
d. A letter of evaluation from a dentist is highly recommended but not required. Upon receipt of the completed application and the required credentials, the Committee on Admissions will select applicants for interview. Those selected will be notified in writing of the time and place. All applicants who are admitted by the College must be interviewed, but an invitation to appear for an interview should not be construed by the applicant as evidence of acceptance. Notice of acceptance or other action by the Committee on Admissions will be on a rolling or periodic schedule; therefore, early completion of the application is in the best interest of the student.

- Although the Committee on Admissions realizes that the majority of applicants take the DAT in October, conditional acceptances may be made to exceptional candidates pending receipt of the Spring DAT test results.

- A final transcript, covering all of the applicant's work, must be forwarded to the Office of Admissions prior to matriculation.

- Incomplete applications will not be considered. If your file will not be complete prior to the deadline, please attach a statement to the NSU-CDM Supplemental Application for Admission explaining what documents will be submitted after the deadline and the reasons for their delay. Decisions to review late applications are at the discretion of the Committee on Admissions.
ADVANCED STANDING FOR INTERNATIONAL DENTAL GRADUATES

The College of Dental Medicine has available a number of openings for graduates of non-U.S. dental schools who wish to earn a U.S. dental degree and to qualify for licensure in the United States. Following the completion of competency examinations, the College will custom design a three-year program for each Advanced Standing Student, including didactic and preclinical courses. The program will be designed to match existing knowledge and skills. Advanced students will be exempt from courses covered by Part I of the Examination of the National Board of Dental Examiners. The course of study will be tailored to fill the didactic and clinical needs of each student. Rapid progress through the pre-clinical laboratory and didactic courses will be encouraged.

Admissions Requirements

The College of Dental Medicine selects students based on academic record, letters of evaluation, scores in the Test of English as a Foreign Language (TOEFL), scores in the Test of Spoken English (TSE), a passing score (75) on Part I of the National Dental Board Examination, and personal interview.

In order to qualify, the applicant must have received, prior to matriculation in this advanced standing program, a D.M.D., D.D.S., or equivalent from a non-U.S. dental school.

Application Procedures

The applicant should mail the following materials to the Office of Admissions, College of Dental Medicine:

1. The completed College of Dental Medicine application form for advanced standing for International Graduates

2. A non-refundable application fee of $50

3. Official scores from the Test of English as a Foreign Language (TOEFL) and Test of Spoken English (TSE)

The applicant must have sent directly to the College of Dental Medicine:

1. One official transcript sent directly from each college, professional school, or university attended. Transcripts must be sent directly from the institutions attended by the applicant to the Office of Admissions, College of Dental Medicine.

2. Official National Board scores. Please request the secretary of the National Board of Dental Examiners to forward to the Office of Admissions the applicant's scores for Part I of the Dental Boards. The National Board is located at 211 East Chicago Avenue, Chicago, Illinois 60611.

3. Three letters of evaluation are required. They may be completed by dental school faculty members who are well acquainted with the applicant's abilities or by individuals who can provide information relevant to the applicant's potential.

It is the applicant's responsibility to have this course work evaluated, and an official evaluation must be sent to the Office of Admissions.

Annual tuition and fees are the same as for regular students, as described elsewhere in this brochure.
Tuition & Fees

Anticipated tuition for the 1998-99 (subject to change by the Board of Trustees without notice): $25,500, plus a student activities fee of $100 each year is required.

1. Acceptance Fee - $500. This fee is required to reserve the accepted applicant's place in the entering first-year class. This advance payment will be deducted from the tuition payment due on Registration Day, but is not refundable in the event of a withdrawal. It is payable within two weeks of an applicant's acceptance.

2. Deposit - $500. This is due March 15, under the same terms as the Acceptance Fee.

3. Pre-registration Fee - $1000. This is due May 15, under the same terms as the Acceptance Fee.

4. The first semester's tuition and fees, less the $2,000 previously paid, are due on or before Registration Day. Tuition for each subsequent semester is due on or before the appropriate Registration Day. Students will not be admitted until their financial obligations have been met. The financial ability of applicants to complete their training at the College is important because of the limited number of positions available in each class. Applicants should have specific plans for financing required years of professional education. This should include tuition, living expenses, books, equipment, and miscellaneous expenses.

Expenses & Financial Aid

Students should anticipate the following approximate expenses:

For books:
- First year: $1200
- Second year: $1200
- Third year: $500
- Fourth year: $500

For instruments and equipment:
- First year: $7000
- Second year: $4000
- Third year: $1000
- Fourth year: $1000

These costs are equivalent to other private dental schools. Living expenses are estimated to cost $13,000 for a nine-month academic year.

The primary financial responsibility for a student's education rests with the student and his or her family, but economic circumstances for some families may make it necessary for the student to obtain assistance from other sources.

The purpose of the Student Financial Aid Program at Nova Southeastern University is to help as many qualified students as possible to complete their health professions education. Various loans, scholarships, and grants are available to qualified students to help ease the high cost of a health professions education. These financial assistance programs are described in a separate University publication: Financial Planning For Your Health Professions Education.

Opportunity for a limited number of part-time work assignments is available. However, the demands of a program of professional study limit the number of hours a student can work.

Student Housing

Nova Southeastern University offers on-campus housing. Numerous apartments, condominiums, and other rental housing facilities are located near the Ft. Lauderdale campus.

Information concerning housing may be obtained from the Office of Residential Life, 3301 College Avenue, Ft. Lauderdale, FL 33314, Tel. (954) 262-7052.

-15-
POSTGRADUATE PROGRAMS

The College of Dental Medicine developed postgraduate specialty training in several fields starting in the fall of 1997. It is anticipated that there will be four training positions each in Endodontics, Periodontics, Orthodontics, and Pediatric Dentistry.

These programs will conform to the standards set by the American Dental Association and its specialty boards for such training and will be supervised by certified and qualified dental specialists. The tuition will be $25,500.00 a year and detailed information may be obtained from the Office of the Dean.

Nova Southeastern University College of Dental Medicine has requested preliminary provisional approval accreditation status from the Commission on Dental Accreditation of the American Dental Association for a postgraduate program in Prosthodontics, which will begin in August, 1998.

All postgraduate programs will require the students to include the following postgraduate core courses:

Postgraduate Core Courses

FIRST YEAR

First Semester
Head and Neck Anatomy/Growth and Development
Oral Histology and Embryology
Microbiology and Immunology
Pharmacology
Cariology
Radiology
Internal Medicine and Physical Evaluation
Head and Neck Pain
Pain and Anxiety Control Occlusion
Cardiopulmonary Resuscitation
Research Methodology and Biostatistics
Photography

Second Semester
Biochemistry
Physiology
Molecular Biology
General And Oral Pathology/ Oral Medicine
Nutrition
Local Anesthesia/I. V. Sedation/Oral/ Inhalation
Teaching Methodology
Practice Management
Patient Management
Ethics and Jurisprudence

Postgraduate Endodontics

The postgraduate program in Endodontics is a 24-month certificate program that balances clinical experience with didactic instruction in the relevant basic and clinical sciences. Four students will be accepted annually.

The clinical portion of the program is microscopically oriented, providing the student with modern concepts of endodontic treatment including rotary NiTi instrumentation, electric apex locators, guided tissue regeneration and crown lengthening procedures.

Joint conferences with other disciplines such as periodontics, prosthodontics, pediatric dentistry, otolaryngology and neurology will provide the student with a well-rounded basis to diagnose and treat conditions in the head and neck region.

The didactic portion of the program includes a core curriculum designed to provide all postgraduate students a basic interdisciplinary education and a detailed endodontic curriculum that concentrates heavily on a knowledge of the literature. This will prepare the student to take and pass the examinations for the American Board of Endodontics.

The program at NSU will also include research, teaching, and instruction by several well-known visiting professors.
Postgraduate Orthodontics

The Department of Orthodontics offers a 24-month postgraduate training program designed to fulfill the specialty certification requirements of the American Board of Orthodontics. Comprehensive lectures in the relevant basic sciences, as well as seminars, clinical seminars, and case conferences in the clinical art and science of orthodontics comprise one segment of the program.

The other segment of the program includes clinical treatment of adults, adolescents, and children to enable the student to develop proficiency in variations of the edgewise appliance and other orthodontic appliances. Interdisciplinary conferences and coordinated treatment procedures of complex cases with postgraduate periodontic, prosthodontic, and endodontic students are part of the educational experience.

Students will be required to complete a research project and to participate as assistant instructors for the undergraduate orthodontics course. Five students are accepted into the program each year.

Postgraduate Pediatric Dentistry

The Department of Pediatric Dentistry offers a 24-month postgraduate program in Pediatric Dentistry. The program is designed to fulfill the educational requirements for specialty certification by the American Board of Pediatric Dentistry and fulfills the requirements for specialty training of the Council on Dental Education (Commission on Dental Accreditation) of the American Dental Association. This university-based training program includes significant hospital and extramural affiliation in the Miami and Ft. Lauderdale areas.

Lectures, seminars and conferences are conducted relating to pediatric patients and their dental treatment. Students are trained in hospital and operating room protocol including the use of general anesthetics. They also serve as instructors in the predoctoral laboratory and clinic. An original research project must be conducted by each student.

Accepting four individuals each year, each postgraduate program will utilize the individual state-of-the-art operatories in the newly opened College of Dental Medicine as well as dental facilities in off-site locales in the Miami-Ft. Lauderdale areas. Upon successful completion of the program, the trainee receives a certificate in Pediatric Dentistry.

Postgraduate Periodontics

The postgraduate program in Periodontics is of three years' duration and open to all graduates of dental colleges recognized by the American Dental Association. Students in the upper half of their class are accepted. Internship or residency experience is preferred, but not required. The full-time program consists of a didactic core curriculum in basic sciences and behavioral sciences, a series of seminar presentations in periodontics and implant dentistry, literature review seminars, periodontal prosthetic seminars and core presentations. Students will also participate in our predoctoral periodontics program. Clinical experience required will be the diagnosis and treatment of a minimum of 60 cases of moderate to severe periodontics, and the placement of 30 or more implant units in collaboration with postgraduate prosthodontics students. In addition, individual research programs will be encouraged.

Anticipated Expenses

Equipment costs for each program will be equal to or less than the average for all U.S. dental schools.
Welcome To Our Campus

The Health Professions Division Facilities

1. TERRY ADMINISTRATION BUILDING
   First Floor
   - Student Affairs
