Nova Southeastern University, "College of Optometry Overview 2012" (2012). Health Professions Divisions Course Catalogs. 238.
https://nsuworks.nova.edu/hpd_coursecatalogs/238

This Program Overview is brought to you for free and open access by the NSU Course Catalogs and Course Descriptions at NSUWorks. It has been accepted for inclusion in Health Professions Divisions Course Catalogs by an authorized administrator of NSUWorks. For more information, please contact nsuworks@nova.edu.
Nova Southeastern University, synonymous with dynamic innovation and intellectual challenge, is the largest independent not-for-profit university in the Southeast, and with an enrollment of more than 29,000 students, is the seventh largest in the United States. Situated on a beautiful, 300-acre campus in Fort Lauderdale, Florida, the university is experiencing a sustained period of academic growth, fiscal strength, and commitment to the challenges of the 21st century.

In this environment of expansion and stability, the university is capitalizing on its strengths in such areas as academic innovation, comprehensive clinical training, and flexible educational delivery systems.
Founded in 1964 as Nova University, the institution merged with Southeastern University of the Health Sciences in 1994, creating Nova Southeastern University. To date, the institution has more than 135,000 alumni. Fully accredited by the Commission on Colleges of the Southern Association of Colleges and Schools, the university awards associate’s, bachelor’s, master’s, educational specialist, and doctoral degrees in a wide range of fields including the health professions, law, business, marine sciences, psychology, social sciences, computer and information sciences, and education.

The university's programs are administered through 15 academic centers that offer courses at the main campus and at field-based locations throughout Florida; across the nation; and at selected international sites in Europe, Mexico, the Pacific Rim, Central and South America, and the Caribbean.

With a budget of more than $563 million per year and an upward trend in enrollment, the university will continue to maintain a solid record of academic and fiscal strength and excellence in teaching and community service, while expanding its mission in research and scholarship.
As a student in the Health Professions Division of Nova Southeastern University, you can anticipate a remarkable experience. You will train, study, interact, and share faculty and resources (either campus-based or online) with students from various backgrounds and disciplines. This interdisciplinary approach distinguishes the Health Professions Division as unique and will better prepare you to master your discipline with a sensitivity and understanding of the entire health care system.

The Health Professions Division, with a student body of more than 2,500, is home to six colleges. The College of Osteopathic Medicine, the first one in the southeastern United States, grants the Doctor of Osteopathic Medicine (D.O.) degree. The College of Osteopathic Medicine also awards the Master of Public Health (M.P.H.) and the Master of Science in Biomedical Informatics (M.S.B.I.) degrees. The College of Pharmacy offers the Doctor of Pharmacy (Pharm.D.) degree to entry-level and international students, as well as a Doctor of Philosophy (Ph.D.) degree in Pharmacy. The College of Optometry is the only institution in the state of Florida that awards the Doctor of Optometry (O.D.) degree as well as a Master of Science in Clinical Vision Research (M.S.). The College of Allied Health and Nursing offers an entry-level Bachelor of Science in Nursing (B.S.N.) degree, as well as an R.N. to B.S.N. program, a Master of Science in Nursing (M.S.N.) degree, a post-M.S.N. certificate, and a Ph.D. in nursing education. The college also offers physician assistant programs that award the Master of Medical Science (M.M.S.) degree in Physician Assistant, as well as programs offering a Master of Occupational Therapy (M.O.T.) degree and an entry-level Doctor of Physical Therapy (D.P.T.) degree. Doctoral programs are offered in occupational therapy (Ph.D./O.T., Dr.OT), physical therapy (Ph.D./P.T., D.P.T.), and audiology (Au.D.). In addition to these programs, the College of Allied Health and Nursing offers the Bachelor of Health Science (B.H.Sc.), Master of Health Science (M.H.Sc.), and Doctor of Health Science (D.H.Sc.) degrees—open to midlevel clinicians and allied health professionals—and a Ph.D. degree in Health Science. There are also specializations in Bachelor of Health Science—Vascular Sonography, Master of Health Science—Vascular Sonography, and Master of Health Science—Anesthesiologist Assistant, as well as specializations in Cardiovascular Sonography for both the Bachelor of Health Science and the Master of Health Science. The College of Medical Sciences grants the Master of Biomedical Sciences (M.B.S.) degree. In the fall of 1997, the College of Dental Medicine admitted its charter class into the Doctor of Dental Medicine (D.M.D.) program. Now, the college also offers a Master of Science in Dentistry (M.Sc.D.) degree, as well as postgraduate programs in endodontics, oral surgery, orthodontics, pediatric dentistry, periodontics, and prosthodontics.

The Health Professions Division occupies a $70 million complex, covering 21 acres of the university campus. The division includes eight buildings totaling more than 900,000 square feet of space for classrooms, laboratories, offices, the Health Professions Division Library, an outpatient health center, and a pharmaceutical care center. The adjacent 1,500-vehicle parking garage overlooks the Miami Dolphins Training Camp.
If you wish to be a leader in the health professions, Nova Southeastern University can help you reach your potential.

In less than two decades, NSU's Health Professions Division has developed into a multidisciplinary academic health center of international stature. Composed of the Colleges of Osteopathic Medicine, Pharmacy, Dental Medicine, Optometry, Allied Health and Nursing, and Medical Sciences, the Health Professions Division has redoubled its commitment to academic excellence, innovation, and community service, while expanding its mission in research and scholarship. Working together, our distinguished faculty members prepare students for an exciting career on tomorrow's dynamic health care team.

Fred Lippman, R.Ph., Ed.D.
Health Professions Division Chancellor
What makes the Nova Southeastern University College of Optometry so special?
Nova Southeastern University College of Optometry is the only optometric academic institution in the state of Florida. Students are able to enjoy South Florida's renowned weather, beaches, and other attractions and participate in the college's numerous student organizations while receiving strong didactic and clinical training that will thoroughly prepare them for their professional careers.

**Interdisciplinary/Multidisciplinary Learning Environment**
- campus located in a safe, suburban area
- part of a university with more than 18 major undergraduate and graduate programs
- part of the Health Professions Division comprising more than nine distinct health care professional programs
- optometry students learn alongside students from other health care disciplines
- combined courses with other Health Professions Division students
- integrated and multidisciplinary clinical facilities
- multidisciplinary student government association
- Florida's largest library/resource center with multimedia and electronic facilities, a performing arts theater, and much more
- culturally and geographically diverse student populations

**Faculty/Curriculum**
- knowledgeable faculty with experts in every optometric specialty
- clinical student/faculty members ratio of less than four to one
- externship program options include six-month off-campus rotations at more than 48 sites
- certificate in business management program in conjunction with the H. Wayne Huizenga School of Business and Entrepreneurship

**Research and Postgraduate Studies**
- numerous applied clinical research opportunities
- postgraduate residency programs in both general and specialty areas
- online Master of Science in Clinical Vision Research degree available (visit http://optometry.nova.edu/cvr for more information)
- additional master's level programs available with flexible schedules in online and traditional formats

**The Eye Care Institute**
- five college-affiliated clinical sites, including the new Kids in Distress clinic in Fort Lauderdale, providing eye care to a diverse patient population
- specialties in optometric services including contact lenses, binocular vision/pediatric, vision rehabilitation, glaucoma, and electrodiagnostics
- state-of-the-art clinical facilities with more than 50,000 patient visits per year
- most clinical sites are affiliated with medical services
- all Eye Care Institute clinics have fully integrated electronic medical records

**MISSION STATEMENT**
College of Optometry
To educate and train optometric physicians to practice at the highest level of proficiency, integrity, and professionalism, and to provide a multidisciplinary environment that encourages and supports scholarship, community service, and lifelong learning.
Optometric physicians serve a vital role in today's health care system as primary eye care providers. The scope of the profession is expanding rapidly, and the breadth of training for modern optometry students must keep pace with these changes.

The Nova Southeastern University College of Optometry is rooted in the Health Professions Division—along with medicine, dentistry, pharmacy, and allied health and nursing—as a reflection of the interdisciplinary direction of progressive health care. The modern facilities and equipment enhance learning, beginning with training in the basic biological and optometric sciences and continuing throughout clinical experiences. Our faculty members, recognized as experts in all of the optometric specialities, are dedicated to optimal teaching by using traditional and current technology in both classroom and clinical settings.

You will have the opportunity for a diverse clinical experience within the college's five Eye Care Institute sites as well as at selected clinical venues from our externship program. Whether you choose to practice in an urban or rural community or a private, corporate, or public health setting, the NSU optometry program will prepare you to provide quality eye care to all your patients. In addition, you can pursue an online Master of Science in Clinical Vision Research degree while in the professional program. All these opportunities make the NSU College of Optometry truly unique.

If you have the interest, desire, and dedication to become an eye care professional, I encourage you to apply to our program.

David S. Loshin, O.D., Ph.D.
Dean, College of Optometry
DOCTOR OF OPTOMETRY DEGREE

COURSE OF STUDY—TRADITIONAL PROGRAM

The Doctor of Optometry is a postgraduate degree awarded after successful completion of four years of professional study. While 94 percent of entering students enter the program with a Bachelor of Science degree, a few exceptional candidates may be offered the opportunity to enter with a minimum of 90 semester hours. A Bachelor of Science degree in vision science will be conferred upon completion of required coursework at the end of the second year.

The didactic focus of the first two years of the professional program is in the basic sciences, including biochemistry, microbiology, anatomy, physiology, pharmacology, optics, and the vision sciences. In preparation for direct patient care in our primary care clinics, students start the study of general optometric theory and methods; general pathology; and diagnosis, treatment, and management of binocular vision anomalies.

In the third academic year, students provide supervised direct patient care in our Eye Care Institute clinics. They also study general physical assessment; contact lenses; and pediatric, geriatric, and rehabilitative optometry, and develop a deeper understanding and ability to diagnose, treat, and manage increasingly complex ocular and systemic conditions.

The fourth year of the academic program is entirely clinical with intensive training in the affiliated college sites within The Eye Care Institute and external primary, specialty, and medical/surgical care facilities. By the completion of the four-year academic program, our students are trained to be optometric physicians capable of providing quality eye care to a wide range of patients.

Extended (Five-Year) Doctor of Optometry Degree

The College of Optometry has established an extended program leading to the Doctor of Optometry (O.D.) degree. Students in the extended program take courses with the traditional program students, but with a reduced course load. Coursework covered in the first two years of the traditional program is covered over three years in the extended program. The last two years of both programs are identical and taken concurrently.

The curriculum and graduation requirements for the extended and full-time programs are the same. The extended program is designed for individuals who are returning to school after an absence, are changing professional fields, or who require a lighter course load initially because of family or other obligations.

The enrollment for the extended program is limited. The dean of the College of Optometry will make the final determination on eligibility for the extended program.

Students are provisionally admitted to a degree-seeking program based on a review of unofficial transcripts or other specific program admission requirements. However, this admission includes a condition that final and official transcripts, documents, and requirements must be received within 90 calendar days from matriculation. If these final and official transcripts, documents, and/or requirements are not received by that time, the student will not be allowed to continue class attendance. Financial aid will not be disbursed to a provisional/conditional student until he or she has been fully admitted as a regular student (all admissions requirements have been approved by the college/program admissions office). Students who have an unpaid balance 30 days from the start of the term will be assessed a $100 fee.

TRANSFER STUDENTS

The dean makes decisions on transfer applications. The decision will be based on factors that include, but are not limited to, academic record, circumstances leading to the transfer request, available space, and admission standards. The College of Optometry will evaluate previous course credit and grant that which is appropriate. For inquiries, please contact the Office of Admissions.

DUAL ADMISSION PROGRAM

A dual admission program is open to eligible high school students only. For information and requirements, contact

NOVA SOUTHEASTERN UNIVERSITY
Office of Admissions
Farquhar College of Arts and Sciences
3301 College Avenue
Fort Lauderdale, Florida 33314-7796
(954) 262-8000

INTERNATIONAL COURSEWORK

Undergraduate coursework taken at an international institution must be evaluated for U.S. institution equivalence. International coursework must be evaluated on a course-by-course basis by one of the services listed below. You should contact one of the following:

World Education Services, Inc.
P.O. Box 745
Old Chelsea Station
New York, New York 10113-0745
(212) 966-6311
www.wes.org

Josef Silny & Associates, Inc.
International Education Consultants
7101 SW 102nd Avenue
Miami, Florida 33173
(305) 273-1616
www.jsilny.com

Educational Credential Evaluators, Inc.
P.O. Box 513070
Milwaukee, Wisconsin 53202-3470
(414) 289-3400
www.ece.org

It is the applicant's responsibility to have coursework evaluated. An official evaluation must be sent to the NSU Enrollment Processing Services.

NOVA SOUTHEASTERN UNIVERSITY
Enrollment Processing Services (EPS)
College of Optometry Admissions
3301 College Avenue

ACCREDITATION
Nova Southeastern University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097, Telephone number: 404-679-4501) to award associate's, bachelor's, master's, educational specialist, and doctoral degrees.

NONTDISCRIMINATION
Consistent with all federal and state laws, rules, regulations, and/or local ordinances (e.g., Title VII, Title VI, Title III, Title II, Rehab Act, ADA, and Title IX), it is the policy of Nova Southeastern University not to engage in any discrimination or harassment against any individuals because of race, color, religion or creed, sex, pregnancy status, national or ethnic origin, non-disqualifying disability, age, ancestry, marital status, sexual orientation, unfavorable discharge from the military, veteran status, or political beliefs or affiliations, and to comply with all federal and state nondiscrimination, equal opportunity, and affirmative action laws, orders, and regulations.

This nondiscrimination policy applies to admissions; enrollment; scholarships; loan programs; athletics; employment; and access to, participation in, and treatment in all university centers, programs, and activities. NSU admits students of any race, color, religion or creed, sex, pregnancy status, national or ethnic origin, non-disqualifying disability, age, ancestry, marital status, sexual orientation, unfavorable discharge from the military, veteran status, or political beliefs or affiliations, to all the rights, privileges, programs, and activities generally accorded or made available to students at NSU, and does not discriminate in the administration of its educational policies, admission policies, scholarship and loan programs, and athletic and other school-administered programs,
STUDENT LIFE

Student life has many possibilities in an area such as South Florida. Fabulous weather, year-round outdoor recreation, and world-famous entertainment meccas are but miles away. Additionally, excellent local shopping, schools, and other services are abundant.

The university’s student population is diverse, representing nearly every state and many foreign countries as well as a wide variety of educational backgrounds. Moreover, our students learn in an interdisciplinary environment, fostering a lifelong respect for other medical disciplines while opening lines of communication.

Other features of student life include an on-site student health center, wellness center, and an on-campus recreation complex. The main campus of Nova Southeastern University houses not only the Health Professions Division, but also the Miami Dolphins professional football team training facility.

HOUSING

Numerous apartments, condominiums, and other rental facilities are located near campus. Limited on-campus housing is also available. Information concerning on- and off-campus housing may be obtained by contacting

NOVA SOUTHEASTERN UNIVERSITY
Office of Residential Life and Housing
3301 College Avenue
Fort Lauderdale, Florida 33314-7796
Telephone: (954) 262-7052
or visit www.nova.edu/reslife.
STUDENT ORGANIZATIONS

OPTOMETRY STUDENT GOVERNMENT ASSOCIATION (OSGA)

OSGA is the official voice for all optometry students. The organization is open to all students and welcomes proposals and participation from the entire student body.

The responsibilities of OSGA include collecting and expressing student opinion, dispensing funds for student activities, acting as a liaison for the entire student body, promoting optometry, supporting club and class activities, and working to improve the quality of life for all students at Nova Southeastern University College of Optometry (NSU-CO).

Four voting representatives are selected from each class. In the spring of each year, OSGA officers—president, vice president, secretary, and treasurer—are nominated from this pool of representatives.

AMERICAN OPTOMETRIC STUDENT ASSOCIATION (AOSA)

This is the international professional student organization for optometric students. The AOSA consists of more than 4,700 optometry students from 17 schools and colleges of optometry in the United States, Canada, and Puerto Rico.

AOSA sponsors annual conferences that enable students to meet and gain knowledge through lectures, presentations, and exhibits.

BETA SIGMA KAPPA (BSK)

Beta Sigma Kappa is an international optometric honor fraternity that has chapters at the 17 accredited schools and colleges of optometry in the United States, Puerto Rico, and Canada.

This is a fellowship of members who work jointly to promote academic and scientific excellence as well as high moral standards in the profession of optometry.

The fraternity members “stand for an active, sympathetic interest in public welfare, particularly for the conservation of vision, the prevention of blindness, and for using their influence to further the best standards of professional education and practice.” (The BSK Creed)

Activities include tutoring, guest lecturers, vision screenings, fund-raising events, and banquets.

CANADIAN ASSOCIATION OF OPTOMETRY STUDENTS (CAOS)

The Canadian Association of Optometry Students is a support group for all of the Canadian Optometry students studying at NSU's College of Optometry. The goal is to provide students with information and awareness regarding the profession of optometry in Canada. Current issues, challenges, and changes to the profession are discussed at meetings and through email correspondence. We strive to bring guest speakers from Canada to speak to the students about various topics. The CAOS aims to provide information for common issues faced by all Canadian students studying in the United States, such as obtaining immigration papers, a driver’s license, and provincial financial aid.

COLLEGE OF OPTOMETRISTS IN VISION DEVELOPMENT (COVD)

The College of Optometrists in Vision Development is a full-scope optometric care organization dedicated to the enhancement of vision. It brings together those optometric students who have demonstrated professional interest and proficiency in helping people to develop and enhance scholastic achievement, vocational competence, social interaction, and emotional well-being.
FLORIDA OPTOMETRIC STUDENTS ASSOCIATION (FOSA)

The Florida Optometric Student Association is the student branch of the Florida Optometric Association. One of the goals of the FOSA is to expose optometry students to networking and career opportunities in order to prepare them for the real world. Together with the FOA, our mission is to advance and promote the quality, availability, and accessibility of primary eye care and related health care fields to Florida’s citizens, to represent the profession of optometry; to enhance and promote the independent and ethical decision making of our members; and to assist and enable optometric physicians to practice their profession so as to ensure the highest standards of patient care.

GOLD KEY INTERNATIONAL OPTOMETRIC HONOR SOCIETY

The Gold Key International Optometric Honor Society was founded in 1965 at SCO and has been recognized by the AOSA as the highest honor for leadership that can be achieved for an optometry student. Gold Key currently has chapters at 12 colleges of optometry that recognize the outstanding achievements of the few select members that are chosen each year. No more than 10 percent of the optometry class will have the honor of being selected to join the membership of this distinguished organization. Membership, which is through appointment only, recognizes outstanding professional and ethical attitudes through leadership and service to the class, college, and profession.

NATIONAL OPTOMETRIC STUDENT ASSOCIATION (NOSA)

The National Optometric Student Association is the professional organization dedicated to increasing minority participation in optometry. Membership is open to individuals of all races, colors, and creeds.

The local chapter provides service to schools and churches in minority communities in the form of vision screenings and presentations.

NOVA OPTOMETRIC PRACTICE MANAGEMENT ASSOCIATION (NOPMA)

NOPMA’s primary mission is to expose optometry students to real-world optometry, business practice planning, and career opportunities in order to prepare them for what is to come after they have completed their optometric education. We want to provide as many tools as possible for them to make the best of their optometric careers including, but not limited to, business plans, curricula vitae and resumes, start-up consulting, contract and partnership advice, insurance and billing information, optical business resources, and accounting and financial resources such as loan management and investment advice.

OPTOMETRIC STUDENT ASSOCIATION FOR OCULAR DISEASE (OSAOD)

OSAOD is designed to further interest and education in the field of optometry with specific focus and concentration in ocular disease. The association features speakers with extensive clinical knowledge in the area of ocular disease who will share their insight and experience in an attempt to add to the clinical education of optometry student club members.

VOLUNTEER OPTOMETRIC SERVICES TO HUMANITY (VOSH)

The mission of VOSH is to provide primary eye care to individuals who do not have access, either for geographical or financial reasons. Mission trips target the Caribbean, Central America, and South America, where there is an immense unmet need for eye care. This organization provides an excellent opportunity to be involved with the community and have a great impact on people’s daily lives.

HONORS PROGRAM

The college recently implemented an honors program to encourage students to reach beyond the traditional curricular boundaries. The Faculty Honors Committee extends invitations to participate in the program to students based upon academic achievement and professionalism.
APPLICATION PROCEDURES

APPLICATION PROCESS

The college participates in the Optometry Centralized Application Service (OptomCAS) for the receipt and processing of all applications. OptomCAS takes no part in the selection of students. The Office of Admissions works on a rolling admissions basis. Applications are accepted from July 15 to April 1 via the OptomCAS centralized application service. Entering students are admitted to the program for the fall term only. A completed application from OptomCAS, the supplemental application, and a nonrefundable fee of $50 must be submitted for each applicant. Since applications received early in the application cycle will be given priority consideration, it is in the best interest of prospective students to complete their applications early.

The application for admission must be submitted electronically through an interactive, Web-based application, which can be accessed at www.optomcas.org.

This application includes

- completed OptomCAS application
- official transcript from the registrars of all colleges and universities attended submitted electronically or mailed directly by the college or university
- OAT scores (must be no more than two years old)
- letters of recommendation according to the OptomCAS procedures (may be submitted electronically or mailed directly to OptomCAS)

Upon completion of this centralized application, Nova Southeastern University College of Optometry requires a secondary application. This application will be sent to the applicant by email upon notification from OptomCAS. The email will contain a link to access the secondary application online.

The applicant should submit the following materials to Nova Southeastern University

- a completed secondary application
- a nonrefundable application fee of $50

The deadline date for submitting the secondary application for NSU College of Optometry is April 15. It should be sent to

NOVA SOUTHEASTERN UNIVERSITY
Enrollment Processing Services (EPS)
College of Optometry Office of Admissions
3301 College Avenue
P.O. Box 299000
Fort Lauderdale, Florida 33329-9905.

OPTOMETRY ADMISSIONS TEST

All applicants are required to take the Optometry Admissions Test. This online examination evaluates the applicant's knowledge of biology, general and organic chemistry, reading comprehension, quantitative reasoning, and physics. This exam can be taken any time by making an appointment with a Prometric Testing Center. Applicants must wait 90 days before repeating test administrations.

Test information is available at

Optometry Admissions Test
211 East Chicago Avenue
Chicago, Illinois 60611

Telephone: 800-232-2678
Web site: https://www.ada.org/oat/index.html
INTERVIEW PROCESS

A personal interview is part of the application process; however, being interviewed is not a guarantee of admission. Upon completion of the applicant's file, a review will be made to determine if the candidate will be granted an interview. Not all applicants will be granted an interview, and only those applicants whose files are complete will be considered. The Office of Admissions will notify selected candidates of the date and time of the interview.

NOTICE OF ACCEPTANCE

Notice of acceptance will be on a rolling, or periodic, schedule. Early completion of the application process is in the best interest of the student.

REAPPLICANTS

If you are reapplying to Nova Southeastern University College of Optometry, please take time to answer these additional questions. In order to fully consider your application, it will be necessary for you to submit the answers to these questions (on a separate sheet of paper) with your secondary application.

• Why are you interested in reapplying to NSU's College of Optometry?
• What have you been doing since your last application to NSU's College of Optometry?
• What changes in your application make you a more competitive candidate?
The College of Optometry selects students based on the candidate’s application content, preprofessional academic performance, scores from the Optometry Admissions Test (OAT), letters of evaluation, and personal interview.

Prior to matriculation, applicants must have completed a minimum of 90 semester hours (30 of which must be taken at a four-year institution) of specified coursework at a regionally accredited college or university. Only exceptional candidates for admission will be considered without a Bachelor of Science degree.

Applicants should have a minimum 2.8 GPA on a 4.0 scale. The college requires students to earn a grade of 2.0 or better in each of the following required courses. For subsequent entering classes, please contact the Office of Admissions for any changes.

</table>
Tuition for 2011–2012 is $23,725 for Florida residents and $28,680 for out-of-state students. Tuition for 2012–2013 will subsequently be posted on our Web site (www.optometry.nova.edu). A Health Professions Division general access fee of $145 is required each year. An NSU student services fee of $750 is also required annually. All tuition and fees are subject to change by the board of trustees without notice.

Eligible students must request in-state tuition at the time of application. For tuition purposes, students’ Florida residency status (in-state or out of state) will be determined at initial matriculation and will remain the same throughout the entire enrollment of the student at NSU.

Accordingly, tuition will not be adjusted as a result of any change in residency status after initial enrollment registration.

1. Acceptance Fee—$250. This fee is required to reserve the accepted applicant’s place in the entering first-year class. This advance payment will be deducted from the tuition pay-ment due on registration day, but is nonrefundable in the event of a withdrawal. It is payable within two weeks of an applicant’s acceptance.

2. Deposit—$750. This is due April 15, under the same terms as the acceptance fee.

3. College Laboratory/Equipment Fee of $50 will be assessed per academic year.

The first term’s tuition and fees, less the $1,000 previously paid, are due on or before the initial registration period. Tuition for each subsequent term is due at the time of registration. Students will not be permitted to register until their financial obligations have been met.

Students may be issued a personal identification number (PIN) once they have applied for financial aid and/or been accepted to the program. It is imperative that you retain and protect your PIN, as it is used for access to your personal student information.
Students should anticipate spending approximately $3,000 for books and supplies and $16,000 for living expenses for the first year. Students should also plan on spending about $5,000 in equipment costs during the first two years of the program.

Students who do not own a computer with the specified configuration will be required to purchase one.

It is required that each student carry adequate personal medical and hospital insurance. Students may avail themselves of the hospitalization insurance plan obtainable through the university.

The financial ability of applicants to complete their training at the college is important because of the limited number of positions available in each class. Applicants should have specific plans for financing four years of professional education. This should include tuition, living expenses, books, equipment, and miscellaneous expenses.

The primary financial responsibility for a student's education rests with the student and his or her family, but economic circumstances for some families may make it necessary for the student to obtain assistance from other sources.

The Office of Student Financial Assistance at Nova Southeastern University is there to help as many qualified students as possible to complete their health professions education. Various loans, scholarships, and grants are available to qualified students to help ease the high cost of a health professions education. These financial assistance programs are described on our Web site (www.nova.edu/financialaid). For information on financial assistance, contact

NOVA SOUTHEASTERN UNIVERSITY
Office of Student Financial Assistance
3301 College Avenue
Fort Lauderdale, Florida 33314-7796

(954) 262-3380

For general information about financial aid, call 800-806-3680.

Opportunity for a limited number of part-time work assignments is available. However, the demands of a program of professional study limit the number of hours a student can work.
