The mission of the Graduate Education Module (GEM) Educational Leadership Program is to prepare outstanding educational leaders who are able to perform effectively in the current climate of diversity and restructuring. The program affords opportunities for practicing educators to receive leadership training in order to facilitate career advancement, as well as to foster professional growth of present educational leaders. The program is designed to provide students with the most current pedagogical background in school leadership consistent with state certification requirements. By engaging practicing school administrators as adjunct professors and practicum advisers in the program, the students' education is enhanced with a practical perspective to augment their academic preparation. Consistent with GEM's commitment to working professionals, the Educational Leadership Program is designed to accommodate students' work schedules and is offered at a variety of geographical locations.
