School and Program Update
by
Neuman F. Pollack, Dean

Our student development professionals have been working very hard! This fall we will have the largest number of new clusters and new students entering our master's programs than ever before! This puts a strain on the admissions and registration staff members in addition to the academic program directors who are always concerned with the impact of class size and scheduling on the quality of their programs.

To this end we have been augmenting the full time teaching and administrative staff of the School of Business and Entrepreneurship. Three new program representatives will join the staff this fall servicing the international business program, the health services and public administration programs, and the banking and real estate programs. Three new faculty members will also join our staff. Dr. Alan Gart is a Professor of Economics and Finance and will also teach courses in quantitative methods. Dr. Herb Johnson is a Professor of Management and International Business who will teach courses in international business, as well as serve as the Academic Director of the International Business Programs. Dr. Ricardo Mejias is a Professor of Economics and Banking who will teach courses in economics and banking, as well as serve as the Academic Director of the Banking Program.

As a result of our students' successes, we continue to gain increased recognition for our programs and the faculty and staff associated with them. We are monitoring the needs of business, government, and industry very carefully to ensure that we are meeting their current and projected future educational and training needs. To this end we are developing two new offerings as part of our Master of Public Administration curriculum in conjunction with the Center for Oceanography at Nova. One is a major in Coastal Zone Management. The other is a major in Environmental Resource Management. We are also working closely with the Family Therapy Program to enhance the programs in Gerontology and Human Services.

Lastly, one of the growing areas of interest for the administration is the infusion of technology into the delivery of our courses where appropriate. Dr. Mary Rafferty, former Director of our Doctoral Programs, is our new Director of Instructional Technology. Dr. Rafferty is working with faculty members in both the master's and doctoral programs to determine what elements of programs and individual courses might be enhanced through the use of computer mediated video instruction. She is working with people from a variety of Nova academic centers and supports departments in this endeavor.

1991-92 is already shaping up to be another banner year for the School of Business and Entrepreneurship. As ever, our primary motivation is to serve better the educational and training needs of our students and their employing organizations.
